# EXPLANATION

---

THE object in view in preparing *Corpus Juris Secundum* has been twofold. First, to provide a complete encyclopedic treatment of the whole body of the law, which means that it must be based upon all the reported cases. Second, to present each title of the law in form and content most suitable as a means of practical reference for the Bench and Bar.

*Corpus Juris Secundum* is therefore a complete restatement of the entire body of American Law. The clear-cut and exhaustive propositions comprising the text are supported by all the authorities from the earliest times to date. The supporting case citations, conspicuously set out in the notes, point to all decisions handed down since the publication of *Corpus Juris*. When the searcher may wish to consult earlier authorities, a specific reference to *Corpus Juris* makes available all cases back to 1658.

Each title is preceded by a complete section analysis, greatly simplified to facilitate research. Where the scope of any section is such as to require it, a more minute analysis is found thereunder in its appropriate place within the title (see Abatement and Revival, Section 112). The convenience of this method—an innovation in encyclopedic writing—must immediately commend itself.

A concise black-letter summary, indicative of its scope, precedes the full treatment or statement of the law under each section. These introductory summaries, concise and free from interlineation of authorities, have proven of great convenience and value in legal research.

An index is found in the back of each volume covering the titles contained therein, thus providing another convenient means of ready access to the text and notes.

*Corpus Juris Secundum* is kept to date by means of annual cumulative pocket parts for each volume. This feature of supplementation which has proved so successful in modern digests and statutes conveniently, and with certainty, keeps each title constantly to date through current cases and new precedents.

*Corpus Juris Secundum* represents the combined products of the highest editorial talent and manufacturing skill. Its many excellent editorial features are fittingly accompanied by corresponding innovations and improvements in mechanical arrangement, typography, and design, which the publisher believes will commend themselves to the profession as representing a new standard in legal publications.

### WATERS

This Title includes bodies and streams of water not capable of ordinary navigation, and surface and subterranean waters, rights and liabilities of proprietors of lands in respect of such waters, their sources, beds, flow, and use, dams and other embankments and flowage of lands thereby, and ice formed on such waters, easements and other rights of property in such waters; construction and operation of works for supply, control, and use of water as a motive power, for irrigation, for domestic purposes, or other uses, whether under franchises granted therefor or directly by the government, organization, franchises, and powers of companies formed for such purposes; rights, duties, and liabilities of such companies or of municipalities in respect of the management and operation of their waterworks; and liabilities for obstruction, diversion, or pollution of watercourses, and remedies therefor.

**Matters not in this Title, treated elsewhere in this work, see Descriptive-Word Index**

#### *Analysis*

#### **I. NATURE, OWNERSHIP, AND CLASSIFICATION, §§ 1-2**

#### **II. NATURAL WATERCOURSES, §§ 3-85**

- A. DEFINITION; ELEMENTS, §§ 3-4
- B. RIPARIAN RIGHTS IN GENERAL, §§ 5-14
- C. OBSTRUCTION AND DETENTION, FLOODING AND FLOWAGE, §§ 15-40
  - 1. *Obstruction of Watercourse and Detention of Water*, §§ 15-23
  - 2. *Flowage of Lands*, §§ 24-30
  - 3. *Remedies*, §§ 31-38
  - 4. *Criminal Responsibility*, §§ 39-40
- D. DEEPENING NATURAL CHANNEL, §§ 41-42
- E. POLLUTION, §§ 43-57
- F. DIVERSION, §§ 58-70
- G. BED AND BANKS OF STREAM, §§ 71-85

#### **III. SUBTERRANEAN AND PERCOLATING WATERS, §§ 86-102**

#### **IV. NATURAL LAKES AND PONDS, §§ 103-111**

#### **V. SURFACE WATERS, §§ 112-128**

---

**See also descriptive word index in the back of this Volume**

**VI. ARTIFICIAL WATERCOURSES; PONDS AND RESERVOIRS, §§ 129-156**

- A. ARTIFICIAL CHANNELS, DITCHES, AND CANALS, §§ 129-140
- B. ACCUMULATION AND STORAGE OF WATER ON LAND; POOLS, TANKS, AND RESERVOIRS, §§ 141-143
- C. DAMS AND MILL PONDS, §§ 144-152
- D. INJURIES BY BREAKAGE, LEAKAGE, AND OVERFLOW OF DAMS, §§ 153-156

**VII. APPROPRIATION AND PRESCRIPTION, §§ 157-205**

- A. IN GENERAL, §§ 157-166
- B. APPROPRIATION OF PUBLIC WATERS AND STREAMS FLOWING ON PUBLIC DOMAIN, §§ 167-193
- C. ACTIONS OR PROCEEDINGS TO DETERMINE AND PROTECT RIGHTS, §§ 194-205

**VIII. CONVEYANCES, LICENSES, AND CONTRACTS, §§ 206-225****IX. PUBLIC AND MUNICIPAL WATER SUPPLY, §§ 226-313**

- A. ACQUISITION AND CONTROL OF WATER FOR PUBLIC USE, §§ 226-233
- B. MUNICIPAL WATERWORKS AND WATER DISTRICTS, §§ 234-243(9)
- C. FRANCHISE OF, AND OPERATION, CONTROL, AND DISPOSAL OF WATER SYSTEM BY, PRIVATE INDIVIDUAL, §§ 244-246
- D. PUBLIC SERVICE WATER COMPANIES, §§ 247-263

- G. LIABILITIES AND INJURIES INCIDENT TO SUPPLY AND USE, §§ 309-313

**X. IRRIGATION, §§ 314-368**

- A. IN GENERAL, §§ 314-317
- B. IRRIGATION DISTRICTS AND SIMILAR DISTRICTS FOR PURPOSES OF IRRIGATION, §§ 318-338
- C. IRRIGATION AND DITCH COMPANIES, §§ 339-347
- D. IRRIGATION WORKS, AND RIGHTS APPURTENANT THERETO, §§ 348-351
- E. DISTRIBUTION AND SUPPLY OF WATER FOR IRRIGATION, §§ 352-363
- F. LIABILITIES AND INJURIES INCIDENT TO SUPPLY AND USE, §§ 364-368

**XI. USE OF WATER FOR MECHANICAL AND MANUFACTURING PURPOSES, §§ 369-382**

- A. RIGHT TO USE OF WATER, §§ 369-375
- B. WATER POWER COMPANIES, §§ 376-382

**XII. ICE, §§ 383-386***Sub-Analysis***IX. PUBLIC AND MUNICIPAL WATER SUPPLY—p 7**

- A. ACQUISITION AND CONTROL OF WATER FOR PUBLIC Use—p 7
  - § 226 Rights of public as against riparian and other owners—p 7
  - 227. — Remedies—p 8
  - 228 Acquisition of waters for public supply—p 8
  - 229. — Regulation and control by state and state authorities; license tax on diversion—p 10
  - 230. — Nature and extent of rights and obligations—p 14
  - 231. Pueblo rights—p 17
  - 232. Pollution of, and other injuries to, water supply—p 18
  - 233. Proceedings to protect rights—p 22

**IX. PUBLIC AND MUNICIPAL WATER SUPPLY—Continued****B. MUNICIPAL WATERWORKS AND WATER DISTRICTS—p 23**

- § 234 Construction or acquisition of municipal waterworks—p 23
- 235. — Choice of methods and existence of other system—p 29
- 236 — Acquisition of existing system in general—p 31
- 237 — Option or offer and contract to purchase—p 34
- 238 — Valuation of property and fixing price—p 40
- 239 — Transfer of property, title, and possession; rights acquired and obligations assumed—p 45
- 240 Sale, lease, or abandonment of municipal waterworks—p 48
- 241 Operation, maintenance, extension, and control of plant—p 50
- 242 — Mains, connections, and rights of way—p 54
- 243 (1) Water districts—p 60
- 243 (2) — Organization and validity—p 62
- 243 (3) — Territory included—p 68
- 243 (4) — Governing body, officers—p 69
- 243 (5) — Powers, duties, contracts, property, and liabilities—p 71
- 243 (6) — Fiscal management and indebtedness—p 76
- 243 (7) — Taxes and assessments—p 82
- 243 (8) — Actions—p 88
- 243 (9) — Alteration of, abolishment of, and withdrawal of municipality from water district—p 90

**C. FRANCHISE OF, AND OPERATION, CONTROL, AND DISPOSAL OF WATER SYSTEM BY, PRIVATE INDIVIDUAL—p 91**

- § 244 In general—p 91
- 245 Duration of franchise or privilege, and revocation, cancellation, or forfeiture p 92
- 246 Control and regulation by state authorities—p 93

**D. PUBLIC SERVICE WATER COMPANIES—p 94**

- § 247 Status and character—p 94
- 248 Incorporation, organization, and consolidation—p 95
- 249 Officers and agents—p 96
- 250 Grants of privileges or franchises—p 96
- 251 — Proceedings to obtain, and nature and scope in general—p 98
- 252 — Exclusiveness of rights or privileges—p 99
- 253 — Duration and termination—p 100
- 254 Rights, powers, and duties—p 103
- 255 — Rights of way—p 103
- 256 — Streets and highways—p 104
- 257 — Pipes, mains, and other works in general—p 106
- 258 — Injuries to works, mains, or pipes—p 109
- 259 — Purchase, lease, sale, and mortgage of waterworks—p 110
- 260 — Proceedings to restrain company from exceeding rights or violating ties—p 112
- 261 Authority of public service commissions relative to construction and operation of waterworks—p 112
- 262. Licenses and taxes—p 114
- 263. Remedies of creditors and enforcement of liabilities—p 115

---

**See also descriptive word index in the back of this Volume**

**IX. PUBLIC AND MUNICIPAL WATER SUPPLY—Continued**

**E. SUPPLY AND DISTRIBUTION OF WATER—p 116**

- § 264. To municipalities—p 116
- 265. — Power and authority of municipality to contract—p 116
- 266. — Form and requisites of contract—p 119
- 267. — Ratification of defective contract—p 120
- 268. — Terms and conditions of contract in general—p 120
- 269. — Purity and quality of water—p 123
- 270. — Hydrants and hydrant rentals—p 124
- 271. — Construction, operation, and assignment of contracts—p 125
- 272. — Modification, rescission, or abandonment of contract—p 126
- 273. — Performance or breach—p 127
- 274. — Implied and noncontractual obligations—p 128
- 275. — Rates—p 130
- 276. — Actions and proceedings—p 133
- 277. To private consumers—p 138
- 278. — Right and duty to supply—p 138
- 279. — Contracts with, or for benefit of, consumers—p 146
- 280. — Regulation of supply and use—p 149

## IX. PUBLIC AND MUNICIPAL WATER SUPPLY

## A. ACQUISITION AND CONTROL OF WATER FOR PUBLIC USE

## § 226 Rights of Public as against Riparian and Other Owners

The use of waters of a stream to supply the inhabitants of a municipality with water for domestic purposes is not a riparian right

While there is authority for the view that inhabitants of a municipality who are entitled to use the waters of a stream flowing through or by the municipality for ordinary domestic and business purposes may employ another as their agent to distribute water by means of pipes,<sup>50</sup> the view usually taken is that neither a municipality<sup>51</sup> nor a water company<sup>52</sup> has the right to appropriate and divert the waters of a nonnavigable stream or other source of supply for the purpose of securing an adequate supply of water for the use of the inhabitants of the municipality, to the injury of the rights and privileges appertaining to riparian owners by virtue of such ownership, except on the condition of making full and just compensation to the riparian owners for all the injury which they sustain.<sup>53</sup> While the right of a municipality as riparian owner to use water for a public supply has apparently been recognized,<sup>54</sup> the view usually taken is that the fact that

a municipality<sup>55</sup> or a water company<sup>56</sup> owns lands bordering on a stream does not of itself affect the foregoing rules, in such case the municipality or the water company has only the rights of a riparian proprietor, which must be exercised with due regard to the similar rights of other owners.<sup>57</sup> In other words, the use of the waters of a stream to supply the inhabitants of a municipality with water for domestic purposes is not a riparian right.<sup>58</sup> These rules have been applied even to a stream having its origin in springs on the property of the municipality.<sup>59</sup>

*Subterranean and percolating waters* A municipality as the owner of land acquired pursuant to some statutes for water supply purposes does not have the rights of an owner with respect to percolating waters within such land for purposes of its water supply.<sup>60</sup> So the view has been taken that a municipal corporation is not entitled, without making compensation, to pump water from wells on its own land and thereby lower the level of the waters under adjacent land,<sup>61</sup> or divert water from a stream on other lands.<sup>62</sup> In some jurisdictions a municipal corporation situated in a watershed over

#### Water district

Charter of water district authorizing it to take and hold sufficient water of any surface or underground brooks, streams, springs, or ponds in district was not a grant to district of a proprietary right and ownership in or to the use of waters mentioned, but charter merely authorized district to use as its source of supply, if proprietary rights are properly acquired, any waters named therein—Kennebunk, Kennebunkport and Wells Water Dist v Maine Turnpike Authority, 71 A 2d 520, 145 Me 35

61. NY—Forbell v City of New York, 58 NE 644, 164 NY 522, 79 AmSR 666, 51 LRA 697—Westphal v New York, 70 NYS 1021, 34 Misc 684, affirmed 78 NY S 56, 75 App Div 252, affirmed 69 NE 369, 177 NY 140, reargument denied 69 NE 1123, 177 NY 570

62. NY—Smith v City of Brooklyn, 54 NE 787, 160 NY 357, 45 LRA 664

67 C J p 1120 note 44.

an underground basin or reservoir has no rights in the waters thereof as being subject to public use for the common benefit of its inhabitants or owners of the overlying lands, on the theory that the municipal corporation is the administrator of such public use and has become substituted to the individual rights of owners for the benefit of all,<sup>63</sup> such water is private property<sup>64</sup> and remains such until duly taken from the owners and devoted to public use<sup>65</sup> The right of town authorities to take the water of a spring in a highway for the purpose of supplying a watering trough, as against the owner of the fee of that part of the highway in which the spring is located, has been denied,<sup>66</sup> and a like rule has been applied in respect of the sinking of a well in a highway to obtain water for use in sprinkling the highway.<sup>67</sup>

### § 227. — Remedies

A permanent and uncompensated diversion of waters of a stream by a municipality or water company is a continuing wrong to the owners affected, for which damages are recoverable or, in a proper case, an injunction may be had.

The permanent and uncompensated diversion of waters of a stream or of other waters is a continuing wrong to the owners affected, for which damages are recoverable<sup>68</sup> Under such circumstances, redress may be sought in an action of trespass,<sup>69</sup> or, in a proper case, by application to a court of equity for an injunction.<sup>70</sup> A riparian owner may, however, by acquiescence in the construction and operation of a water plant for a public supply be estopped to maintain an action of ejectment<sup>71</sup> or to claim relief by injunction,<sup>72</sup> and may be left to his action for damages<sup>73</sup> Mere delay in bringing action is not sufficient to defeat plaintiff's right to an injunction where such delay was induced by defend-

ant,<sup>74</sup> and there is no estoppel which will prevent the grant of an injunction where the acts of defendant were not induced by any acts or statements of plaintiff<sup>75</sup> The right to a permanent injunction in respect of acts of defendant which do not cause any actual damage to plaintiff has been denied,<sup>76</sup> and an injunction has also been denied and plaintiff left to his remedy at law where defendant water company which was vested with the right to condemn had completed its water system and was supplying a municipality<sup>77</sup>

Under certain circumstances an injunction may be granted, conditioned on defendant's paying just compensation or damages,<sup>78</sup> or on defendant's acquiring plaintiff's rights in the stream.<sup>79</sup> No injunction should be granted in respect of certain waters where plaintiff never was entitled to any rights in such waters<sup>80</sup> The right of a railroad company to have a water company enjoined from appropriating the waters of a stream has been denied where there had been no appropriation of the waters by the railroad company.<sup>81</sup> The owner of real property in one state may have, as appurtenant to the real property, an interest in the waters of a stream in an adjoining state which may be protected by an action in the courts of the adjoining state against a municipality of such adjoining state, based on the municipality's diversion of water from the stream which so diminished the flow as injuriously to affect such real property<sup>82</sup>

### § 228. Acquisition of Waters for Public Supply

The right to appropriate and divert the waters of a stream or other source of supply for public use generally may be acquired by grant, prescription, and appropriation or condemnation.

82. Mass—Mannville Co v Worcester, 138 Mass 89, 52 Am R 261.

67 C J. p 1122 note 66.

There are various methods of acquiring the right to appropriate and divert the waters of a stream or other source of supply for supplying the public, as, for example, by legislative grant,<sup>83</sup> by purchase and grant from, or contract with, the owners controlling the stream or other source of supply, whose privileges will be destroyed or abridged by such diversion,<sup>84</sup> by adverse user continued for the necessary period to establish a title by prescription,<sup>85</sup> by appropriation under the rules or statutes applicable in some jurisdictions,<sup>86</sup> by dedication,<sup>87</sup> or by condemnation, as discussed in Eminent Domain, §§ 45, 71, and it has broadly been stated that the law recognizes three methods by which the right to take all the water of a stream may be secured, namely, grant, prescription, and appropriation or condemnation.<sup>88</sup> So also, a species of estoppel has been given effect in recognizing the right to use certain waters for a public supply.<sup>89</sup> The specific power granted to municipal corporations to acquire a suitable municipal water supply has been held to be independent of other powers granted in the same statute.<sup>90</sup>

Under certain constitutional provisions a municipal corporation may, in connection with the establishment of its water system, contract with the owners of certain water rights for the exchange of such rights for rights owned by the municipal cor-

poration where, under the contract, the municipal corporation will acquire the ownership and control of the water acquired on the exchange.<sup>91</sup> It has been held that, in order to raise the presumption of a grant of the right to take water for a public supply, there must be a continuous and adverse use for twenty years.<sup>92</sup> The mere incorporation of a water company possessing the power of eminent domain does not ipso facto give it the right to appropriate and divert the waters of a stream without condemnation.<sup>93</sup>

On the theory that the control of running streams, lakes, and ponds within the borders of a state rests in the state in its sovereign capacity as representative, and for the benefit of the people in common, it has been laid down generally that the only way in which a municipality can acquire the right to use and take such water is by grant directly from the state<sup>94</sup> or by the duly authorized purchase of such right from, or condemnation of such right in the hands of, a third person, either corporate or individual, to whom it has been granted by the state,<sup>95</sup> and that the legislature may, as discussed infra § 229, permit or prohibit the abstraction of water from fresh-water streams except to the extent that it is appropriated to riparian uses. Under some statutes governing the appropriation of waters

#### Contract between municipalities

Even if delivery by San Diego to Coronado of some water taken from wells near the mouth of the Otay river and later of other waters from the Otay system under oral and written agreement resulted in the "dedication" in a legal sense of a portion of the water of that river to the use of consumers in that area, that could not constitute a dedication of the entire water of that river and its tributaries, including water from outside sources which was brought into the Otay system, especially where equal or superior rights in favor of other communities had intervened and had been exercised and confirmed by long-continued use.—City of Coronado v City of San Diego, 119 P 2d 359, 48 Cal App 2d 160

**Public utility** could purchase appropriated water rights or compensate for damages arising because of the appropriation made by it without resorting to the courts.—Lamb v California Water & Telephone Co, 129 P 2d 371, 21 Cal 2d 83.

#### Construction of statute

(1) Court, in construing statutory grant to municipal corporations of power to acquire a suitable supply of water, considers the object and purpose thereof and gives language used the apparent and natural meaning which will effectuate such object and purpose.—Robbins v Rapid City, supra

(2) The word "acquire," as used in statute giving municipal corporations power to acquire a suitable supply of water, is used in its broad-

est sense meaning to obtain in any manner, rather than in primary sense of to get as an owner.—Robbins v Rapid City, supra.

#### Acquisition by contract with United States

City under its statutory power to acquire a suitable water supply was authorized to contract with United States for erection of a dam and storage reservoir by the latter with provision for allocation to city of a specified number of acre feet of impounded water.—Robbins v Rapid City, supra.

<sup>91</sup> Utah—State v Salt Lake City, 81 P 273, 29 Utah 361

<sup>92</sup> NC—Geer v Durham Water Co, 37 SE 474, 127 NC 349

<sup>95</sup> US—City of Trenton v State of New Jersey, N J, 43 S Ct 534, 262 US 182, 67 L Ed 937, 29 A L R 1471

N J—State v Jersey City, 111 A 544, 94 N J Law 431, 19 A L R 646

of a stream, no precedence is given to a municipal corporation as such,<sup>96</sup> or to a private claimant who seeks an appropriation for a municipal or public supply,<sup>97</sup> as against prior claimants; and, under some constitutional provisions, a municipality cannot take water for domestic purposes which has previously been appropriated for a beneficial purpose, without fully compensating the owner.<sup>98</sup> A municipal corporation, by the mere exercise of its statutory authority, in the nature of the police power, to control and regulate watercourses and distribute the waters thereof to the persons having recognized rights thereto, acquires no proprietary right to the use of the water,<sup>99</sup> such control and regulation may not be made the basis of appropriation by the municipal corporation, since the necessary element of beneficial use is absent.<sup>1</sup>

The fact that a municipal corporation has contracted with a water company for supplying water does not necessarily prevent the municipal corporation from taking water from a particular source under statutory authorization even though the water company is thereby prevented from performing the contract where the company has no right to take water from the source.<sup>2</sup> The view has been taken that a water company may not legally take water from sources other than those from which by its charter it is authorized to take,<sup>3</sup> and a municipality which, pursuant to statute, purchases the franchise and rights of a corporation is limited to the same sources for its water supply as the corporation was.<sup>4</sup>

*Lake in state forest preserve* In New York the propriety of a grant by the state water power and control commission of the use of the waters of a lake in the state forest preserve for a municipal supply has been recognized.<sup>5</sup>

*Designation of agent to divert or take water* Where a municipality has the right to take or divert water from streams for lawful uses and purposes, and the right to contract for a water supply, the

view has been taken that, in contracting with a water company to supply water, the municipality makes such company its agent or instrumentality to take or divert such water,<sup>6</sup> and the water company may employ, or contract with, another company to perform the obligations or duties of such agency.<sup>7</sup> So also, where the sources of water supply available to a municipal corporation are limited, it has been recognized that it may properly enter into a contract with an individual by the terms of which he obligates himself to perfect his appropriation of the waters of a stream and to construct the necessary works to make such supply available for use.<sup>8</sup> The mere fact, however, that a municipality has authorized a person to lay water pipes through the streets of the municipality does not constitute such person the agent of the municipality to take water from a stream,<sup>9</sup> nor does it constitute the acts of such person the acts of the municipality.<sup>10</sup>

*Abandonment or loss of rights acquired* Mere nonuser of water rights previously acquired by a municipality does not work an abandonment of such rights.<sup>11</sup> Where a county had duly acquired from the owner of a spring the right to use sufficient water from such spring to supply public buildings, it was held that a mere temporary arrangement between the county authorities and the owner of the land on which the spring is located, for the purpose of conducting water to one of such buildings, did not constitute a surrender by the county of its rights in respect of such spring.<sup>12</sup>

## § 229. — Regulation and Control by State and State Authorities; License Tax on Diversion

Under the power and duty to control and conserve the use of water for the benefit of all its inhabitants, the state may regulate and control the diversion of waters by a municipality or water company, and may confer on a state agency the authority to do so.

12. Pa.—Elk County v. Earley, 15 A 602, 121 Pa 496

The power<sup>13</sup> and duty<sup>14</sup> of a state to control and conserve the use of its water resources for the benefit of all its inhabitants has been recognized and upheld. In some jurisdictions at least, the state may grant or withhold the privilege of diverting waters as it sees fit,<sup>15</sup> and the power to determine the conditions on which water may be diverted is a legislative function,<sup>16</sup> the legislature may permit or pro-

hibit the abstraction of water from fresh-water streams except to the extent that it is appropriated to riparian uses<sup>17</sup>

In some jurisdictions statutes have been enacted conferring on certain state bodies the authority to determine whether permission shall be given to municipalities<sup>18</sup> or to a water company or an individual<sup>19</sup> to acquire a municipal or public water

#### Control for public purpose

A "natural want," within meaning of constitutional provision that the necessity of water for domestic use and for irrigation purposes is declared to be a "natural want," is one absolutely necessary to human existence, and therefore its legislative conservation and control for such uses is a public purpose—Nebraska Mid-State Reclamation Dist v Hall County, 41 NW 2d 397, 152 Neb 410

The statutory policy of public necessity for diversion of water encompasses provision for reasonably foreseeable future public needs—Application of Plainfield-Union Water Co., 102 A 2d 1, 14 NJ 296

14. US—City of Trenton v New Jersey, NJ, 43 S Ct 534, 262 US 182, 67 L Ed 937, 29 ALR 1471

NY—Maribu v Nohowec, 293 NYS 457, 161 Misc 944

Under local statutes creating waterworks system of city of Syracuse and permitting use of water supply from Skaneateles Lake, no exclusive dominion over the waters of Skaneateles Lake was given or intended to be given to city of Syracuse by the state—City of Syracuse v Gibbs, 28 NE 2d 835, 283 NY 275

15. US—City of Trenton v New Jersey, NJ, 43 S Ct 534, 262 US 182, 67 L Ed 937, 29 ALR 1471  
NY—City of Syracuse v Gibbs, 28 NE 2d 835, 283 NY 275

#### Grant of exclusive ownership

The legislature is without constitutional power to grant to city of Syracuse exclusive ownership of, use of, and control over waters of Skaneateles Lake, which was source of city's water supply—City of Syracuse v Gibbs, supra

16. US—City of Trenton v New Jersey, NJ, 43 S Ct 534, 262 US 182, 67 L Ed 937, 29 ALR 1471.

17. NJ—East Jersey Water Co v

Board of Public Utility Com'rs, 119 A 679, 98 NJ Law 449

NY—City of Syracuse v Gibbs, 28 NE 2d 835, 283 NY 275

#### 18. In New Jersey

(1) The creation of a water supply commission by the legislature was with the intent of laying down a broad and comprehensive policy for the conservation and protection of waters within New Jersey—City of Bayonne v North Jersey Dist Water Supply Commission, 105 A 2d 19, 30 NJ Super 409—Grobart v Passaic Val Water Commission, 47 A 2d 600, 134 NJ Law 325, cause remanded on other grounds 51 A 2d 24, 35 NJ Law 190

(2) The method by which sources of water supply adequate to meet current and reasonably foreseeable future public needs should be made available to water company was peculiarly within the province of Water Policy and Supply Council—Application of Plainfield-Union Water Co., 102 A 2d 1, 14 NJ 296

(3) Basic purpose of statute providing for State Water Supply Commission was to invest commission with jurisdiction over dams and reservoirs deemed essential for protection of life and property with incidental authority to protect shore landowners against impairment of property rights resulting from destruction or abandonment of dam or reservoir in existence for specified period of time—Jersey City v State Water Policy Commission, 191 A 456, 118 NJ Law 72

(4) A statute creating and defining powers of Water Policy Commission was designed to lay down broad and comprehensive policy for conservation and protection of surface, subsurface, and percolating waters of state through control and regulation of use, development, and diversion thereof, and is to be liberally construed to advance its beneficent policy and, while commission's jurisdiction is special and limited, it possesses such powers as by fair implication and intentment are incident to authority expressly granted for attainment of general legislative policy—Jersey City v State Water Policy Commission, supra

(5) Purity of potable water supply is preeminent factor in valid ex-

ercise of powers conferred by statute on Water Policy Commission—Jersey City v State Water Policy Commission, supra

(6) Other particulars of New Jersey rule see 67 C J p 1125 note 8 [a]

#### In New York

(1) The legislature may delegate performance of duty of state to control and conserve water resources for benefit of all inhabitants of state, to an agency or commission, but the agency or commission can act only within scope of powers delegated expressly or by necessary implication to enable agency or commission to carry out the powers expressly given—City of Syracuse v Gibbs, 28 NE 2d 835, 283 NY 275

(2) The Water Power and Control Commission's decision, within its jurisdiction, on testimony taken and facts presented at hearing on application by city to take additional water supply from lake, is conclusive on the courts—City of Syracuse v Gibbs, supra

(3) A statute authorizing county supervisors to create county water authority with consent of State Water Power and Control Commission was held constitutional—Suffolk County v Water Power and Control Commission, 199 NE 41, 269 NY 158

(4) Term "public uses" in statute giving Public Service Commission jurisdiction over furnishing of water for public uses meant use of water by municipality—City of New York v Maltbie, 8 NE 2d 289, 274 NY 90

(5) A statute establishing the board of water supply of New York City should be read in connection with a provision creating the state water supply commission and hence it was necessary for the board of water supply to obtain the state commission's approval of its plans for providing an additional water supply—In re Board of Water Supply of City of New York, 105 NE 213, 211 NY 174, motion granted 105 NE 1081, 211 NY 609

19. NJ—City of New Brunswick v Board of Conservation and Development, 108 A 865, 91 NJ Law 46, affirmed 111 A 925, 91 NJ Law 558

67 C J p 1125 note 9.

supply. Some statutes contain provisions prescribing the form and contents of the application<sup>20</sup> and provide for notice of a public hearing thereon to be given by a board or commission<sup>21</sup>. So also, in respect of the number of members necessary to transact business, the terms of the governing statute must usually be consulted<sup>22</sup>. The board or commission created by some statutes is not a purely administrative body but is invested with limited quasi-judicial functions<sup>23</sup> and, in order to invoke its jurisdiction, a compliance with the conditions prescribed by the statute must be alleged<sup>24</sup>. Under some statutes the commission is not confined to a consideration of the source of supply which is designated in the application of the municipality

which seeks an additional supply<sup>25</sup>. An increase of diversion of water has been held an additional water supply within the statute requiring approval of a state board to diversion of water for any new or additional supply for public use,<sup>26</sup> and the statute applies to any new or additional supply regardless of the source.<sup>27</sup> The power of the board to attach reasonable conditions to its consent to a diversion for a water supply has been recognized<sup>28</sup>. A body created by state authority to provide additional supplies of water for various municipalities within the jurisdiction of such body must proceed in accordance with statutory provisions defining its authority<sup>29</sup> and must give due regard to statutory provisions designed to protect the rights of the owner

#### In Pennsylvania

(1) The purpose of Act creating the Water and Power Resources Board is to establish a single tribunal to determine questions of appropriation and diversion of water from streams of the Commonwealth—*Borough of Collegeville v Philadelphia Suburban Water Co*, 105 A 2d 722, 377 Pa 636

(2) Provision of Administrative Agency Law that remedy at law provided by the Administrative Agency Law shall not in any manner impair right to equitable relief "heretofore" existing would not permit parties aggrieved by order of Water and Power Resources Board to maintain action to enjoin action under such order, in view of fact that Act creating the Board provided for review of Board order—*Borough of Collegeville v Philadelphia Suburban Water Co*, supra

(3) In order to determine whether water company should be permitted to erect dam so as to divert water to its franchised territory, the Water and Power Resources Board was required to consider not only the particular stream involved, but the availability of other sources of supply in order that the conservation, development and equitable distribution of water in the public interests should be effected, and the question whether the water company could invade watershed where it had no franchise and divert water to its franchised territory was necessarily considered by the board in approving proposed dam which would result in such practice—*Borough of Collegeville v Philadelphia Suburban Water Co*, supra

20. Cal—*Rich v McClure*, 248 P 275, 78 Cal App 209  
67 C J p 1125 note 10

21. NJ—*Borough of Oakland v Board of Conservation and Development of New Jersey*, 122 A 311, 126 A 534, 98 NJ Law 806.

22. NJ—*Borough of Oakland v Board of Conservation and Development of New Jersey*, supra  
67 C J p 1126 note 12

#### Designation of representative

Statute providing that if one of the members of the Water Power and Control Commission and his alternate are both unavailable on any particular occasion, member may designate a suitable employee of his department to represent and act for him on that occasion, is not invalid, on ground that it is an unconstitutional delegation of legislative power—*Rockland County Anti-Reservoir Ass'n v Duryea*, 123 NYS 2d 445, 282 App Div 457

23. NJ—*Borough of Chatham v Board of Conservation and Development*, 152 A 11, 107 NJ Law 101  
67 C J p 1126 note 13.

#### Power of inquiry

(1) The Water Policy and Supply Council has the broad powers of inquiry—*Application of Plainfield-Union Water Co*, 102 A 2d 1, 14 NJ 296

(2) At hearing before Water Policy and Supply Council on application of water company for approval of its plans for obtaining additional water supply, council's engineer was properly called as a witness by chairman of council and interrogated concerning his findings by chairman and the legal advisor of Department of Conservation and Economic Development and such inquiry did not show bias or prejudice of council or a predetermination of the issues—*Application of Plainfield-Union Water Co*, supra

24. NJ—*Borough of Oakland v Board of Conservation and Development of New Jersey*, 122 A 311, 126 A 534, 98 NJ Law 806.  
67 C J. p 1126 note 14

25. NY—*Board of Sup'rs of Ontario County v Water Power and Control Commission*, Department of Conservation, 238 NYS. 66, 227

App Div 345, affirmed 175 NE 300, 255 NY 531  
67 C J p 1126 note 15.

#### Comparative costs

Where Water Power and Control Commission, on application of water company for permission to construct impounding reservoir on river, found, on basis of substantial evidence, that drilling of additional wells by company was not an acceptable method of supplying water requirements of company, because of speculative character and unreliability of such a source and detrimental effect which additional wells would have on existing wells of company and on underground water table of the whole area, it was not necessary for Commission to make findings as to the comparative cost of supplying water from proposed reservoir and cost of supplying it from additional wells—*Rockland County Anti-Reservoir Ass'n v Duryea*, 123 NYS 2d 445, 282 App Div 457

26. NJ—*Grobart v Passaic Val Water Commission*, 47 A 2d 600, 134 NJ Law 325, cause remanded on other grounds 51 A 2d 24, 135 NJ Law 190

27. NJ—*Grobart v. Passaic Val Water Commission*, supra.

28. NJ—*Borough of Oakland v Board of Conservation and Development*, 118 A 787, 98 NJ Law 99, reversed on other grounds 122 A 311, 126 A 534, 98 NJ Law 806  
67 C J p 1126 note 16

29. NJ—*Lehigh Valley R Co v. North Jersey Dist Water Supply Commission*, 118 A. 342, 94 NJ Eq 94

#### Limitations on authority

The State Water Power and Control Commission had no power to authorize city water service corporation to sink as many wells as it found necessary to obtain sufficient water for its customers' needs—*New York Water Service Corp v Water Power and Control Commission of Dept. of*

of certain water rights<sup>30</sup> Its proceedings must not be arbitrary<sup>31</sup> It should make proper findings,<sup>32</sup> and its findings must be warranted by the evidence<sup>33</sup>

**Consent of state board of health** Under some statutes it is necessary for a municipal corporation to obtain the approval of the state board of health of the source of supply before it may distribute water from such source for potable purposes,<sup>34</sup> and, under a statute providing that no source of water supply for domestic purposes shall be taken by a town without the consent of the state board of health, a

taking of land by the town is not a valid taking of a water supply, where such board did not consent to the taking.<sup>35</sup>

**Order requiring additional supply** An order requiring individuals who are operating a water supply system to obtain an additional supply has been regarded as fatally defective where it is not supported by a finding that such additional supply is reasonably necessary.<sup>36</sup>

**Review by courts.** Usually, at least, the action of the board or commission in respect of an application

Conservation of New York, 9 NYS 2d 299, 256 App Div 80, motion denied 11 NYS 2d 671, 256 App Div 1030, motion denied New York Water Service Corporation v Water Power and Control Commission of Dept of Conservation, 21 NE 2d 624, 280 NY 801, affirmed New York Water Service Corporation v Water Power and Control Commission, 22 NE 2d 484, 281 NY 656

#### Legislative proceeding

Proceeding before Water Policy and Supply Council for approval of plans for a new or additional water supply is not one of ordinary administration, conformable to standards governing duties of a purely executive character, but a legislative proceeding having special attributes under the statute, which carries with it fundamental procedural requirements—Application of Plainfield-Union Water Co., 94 A 2d 673, 11 NJ 382

#### Public hearing

The public hearing which Water Policy and Supply Council must hold on application for approval of plans for new or additional water supply is the hearing of evidence and argument, and the council, in the application of the statutory policy and rule of action, is bound in conscience to consider the evidence, and to be governed by that alone, and to reach their conclusion uninfluenced by extraneous considerations which might be permissible in the executive but not in the quasi judicial field of action—Application of Plainfield-Union Water Co., supra.

30. NJ—Lehigh Valley R Co v North Jersey Dist Water Supply Commission, 118 A. 342, 94 NJ Eq 94  
67 C J p 1126 note 18.

#### Assurance of damages

Where Water Power and Control Commission, in approving application by water company for construction of impounding reservoir on river, found that intercompany plan had been agreed on between company and its parent for production of funds,

and, under statutes, financing plan would have to be approved by New York State Public Service Commission and New Jersey Board of Public Utility Commissioners before it could be consummated, and Water Power and Control Commission forbade company to initiate proceedings for acquisition of any lands until it obtained such approval, adequate assurance was afforded to owners of lands to be taken of all legal damages—Rockland County Anti-Reservoir Ass'n v Duryea, 123 NYS 2d 445, 282 App Div 457

#### Findings as to necessity of additional rights

Before issuing permit for acquisition of water rights, Water and Power Resources Board must find that the water rights proposed to be acquired are reasonably necessary for present purposes and future needs of agency making application therefor and that the taking of the water or the exercise of water rights will not interfere with navigation, jeopardize public safety, or cause substantial injury to the Commonwealth—Borough of Collegeville v Philadelphia Suburban Water Co., 105 A 2d 722, 377 Pa 636

31. NJ—Application of Plainfield-Union Water Co., 94 A 2d 673, 11 NJ 382

32. NY—Petition of New York Water Service Corp., 27 NE 2d 221, 283 NY 23

**In proceeding before Water Policy and Supply Council,** for approval of plans for obtaining new or additional water supply, council is required to make findings of fact in order to confine council to evidence and law and to insure against arbitrary action and acts ultra vires, and to render effective the statutory judicial review to that end—Application of Plainfield-Union Water Co., 94 A.2d 673, 11 NJ 382

**The New York Water Service Corporation** was entitled to challenge Water Power and Control Commission's determination by which corporation's application for temporary au-

thorization to use underground water in Flatbush area of borough of Brooklyn for domestic and other purposes was denied, and corporation was entitled to findings by which it might know on what factual basis the commission's determination rested—Petition of New York Water Service Corp., 27 NE 2d 221, 283 NY 23

33. NJ—Application of Plainfield-Union Water Co., 94 A 2d 673, 11 NJ 382

NY—New York Water Service Corp v Water Power and Control Commission of Dept of Conservation of New York, 9 NYS 2d 318, 256 App Div 883, motion denied 11 NYS 2d 671, 256 App Div 1030, motion denied 21 NE 2d 624, 280 NY 801—New York Water Service Corp v Water Power and Control Commission of Dept of Conservation, 9 NYS 2d 302, 256 App Div 858, motion denied 11 NYS 2d 671, 256 App Div 1030, motion denied 21 NE 2d 624, 280 NY 801—New York Water Service Corp v Water Power and Control Commission of Dept of Conservation, 9 NYS 2d 301, 256 App Div 858, motion denied 11 NYS 2d 671, 256 App Div 1030, motion denied 21 NE 2d 624, 280 NY 801

#### Evidence held sufficient

NJ—Application of Plainfield-Union Water Co., 102 A 2d 1, 14 NJ 296

34. NJ—Wilson v Mayor and Council of Borough of Collingswood, 80 A. 335, 81 NJ Law 634

35. Mass—Dorr v Sharon, 84 NE 446, 198 Mass 240

#### Purpose of statute

Statute vesting in state board of health general supervision with reference to purity of sources of public water supplies was not intended to eliminate such factor from consideration of water policy commission—Jersey City v State Water Policy Commission, 191 A 456, 118 NJ Law 72

36. Vt—Trustees of Newport Center v Niles, 146 A. 71, 102 Vt 121  
67 C J p 1127 note 22.

to it for permission to obtain a water supply is reviewable by the courts<sup>37</sup>

**License fee** Statutory provision has sometimes been made for the imposition on municipalities, corporations, and private persons of a license fee for taking water in the future from a stream in excess of what they are taking when the statute is enacted, provided no payment shall be required until the taking is in excess of a specified amount daily per capita<sup>38</sup>

**37. N.J.—Jersey City v State Water Policy Commission**, 191 A 456, 118 N.J. Law 72

**N.Y.—In re Water Supply Application No 1270**, 16 N.Y.S.2d 804, 258 App Div 1003  
67 C.J. p 1127 note 23

**Decision on review**

(1) Fact findings by supreme court on certiorari to review orders of Water Power Commission authorizing construction of dam, that avoidance of land losses in adjoining marsh lands would offset evaporation loss caused by construction of dam, was conclusive on appeal—*Jersey City v State Water Policy Commission*, 191 A 456, 118 N.J. Law 72

(2) Where determination of Water Policy and Supply Council approving water company's plans for obtaining additional water supply was reversed by supreme court and cause remanded for further proceedings, council was bound by judgment of supreme court and was under a peremptory duty to carry it into execution according to the mandate—*Application of Plainfield-Union Water Co.*, 102 A.2d 1, 14 N.J. 296

(3) Where supreme court reversed determination of Water Policy and Supply Council approving water company's plans for obtaining additional water supply on ground that evidentiary data had been received and used by council without sanction of oath and opportunity for cross-examination and rebuttal in contravention of the essentials of procedural due process and because council's findings did not disclose the considerations underlying the action taken and cause was remanded for further proceedings consistent with opinion, council had jurisdiction to hold further public hearings and receive new evidence pertinent to the issues—*Application of Plainfield-Union Water Co.*, supra

(4) Where plans of water company for obtaining additional subsurface water supply to meet public needs, as conditioned and approved by Water Policy and Supply Council, were not arbitrary or unreasonable or an abuse of statutory power, appellate court could not substitute its judgment for the specialized judgment of council, thus encroaching on administrative

function of council—*Application of Plainfield-Union Water Co.*, supra

(5) In certiorari proceeding to review resolutions adopted by water policy commission fixing rates for diversion of water for the purpose of public water supply where there was no satisfactory proof of the population of one of the municipalities involved at the time stated in the petition or of a legal diversion by such municipality at such time and there was no indication where such proofs might be found, special allowance as to such municipality would not be ordered—*North Jersey Dist Water Supply Commission v State Water Policy Commission*, 29 A.2d 617, 129 N.J. Law 326

**Costs**

In certiorari proceeding to review two resolutions of Water Policy Commission, where resolutions were found invalid in one respect but valid in all other respects, no costs would be allowed to prosecutors—*North Jersey Dist Water Supply Commission v State Water Policy Commission*, supra

**38. In New Jersey**

(1) The statute fixing charges for surface waters diverted was intended to increase the assessment for excess diversion proportionately as stream flow was decreased by reason of the diversion, and based the proposed charge on the average daily flow for the driest month as shown by existing records—*Passaic Val Water Commission v Department of Conservation, Division of Water Policy and Supply*, 55 A.2d 225, 136 N.J. Law 247, affirmed 61 A.2d 240, 137 N.J. Law 613

(2) Under the statute the Department of Conservation in fixing charges is restricted to the formula set up in the statute, and, where existing records are available, the tax is to be computed on the average daily flow for the driest month as shown by existing records, and the department is not given the discretionary power to fix the method of assessment on the basis of the number of gallons mentioned in the statute—*Passaic Val Water Commission v Department of Conservation, Division of Water Policy and Supply*, supra

**§ 230. — Nature and Extent of Rights and Obligations**

The scope or extent of a right to take or use water for a municipal or public supply is generally measured by the provisions of the statute or the contract or conveyance creating the right, or by the general rules with respect to waters.

In general, the extent or scope of a right to take or use water for a municipal or public supply is

(3) Since the statute is silent as to evaporation losses, the Department of Conservation in fixing the charges is not authorized to make any provision for evaporation losses from any watersheds above the point of diversion—*Passaic Val Water Commission v Department of Conservation, Division of Water Policy and Supply*, supra

(4) The statute requiring person diverting waters of streams or lakes with outlets for the purpose of a public water supply to make annual payments to the state treasurer for such diversion is not discriminatory or unconstitutional in that statute does not provide a uniform rate for diversion of surface and subsurface waters—*North Jersey Dist Water Supply Commission v State Water Policy Commission*, 29 A.2d 617, 129 N.J. Law 326

(5) Under statute directing water policy commission to fix minimum rate, for excess diversion of surface water, of not less than one dollar nor more than ten dollars per million gallons, where diverters had complied with all statutory conditions entitling diverters to the minimum rate of one dollar, commission would be ordered to fix such rate notwithstanding payment of excessive charge by diverters without objection over a period of from six to ten years—*North Jersey Dist Water Supply Commission v State Water Policy Commission*, supra

(6) Action of water policy commission, in crediting to each diverter of surface water, where municipality received surface water from more than one diverter, a free allowance for excess diversion in proportion to the amount of surface water supplied, instead of granting to each diverter a full free allowance for each municipality served by such diverter, was valid as complying with the statute since it was a legal calculation of such free allowance on the municipality as a benefited unit and was not subject to duplication—*North Jersey Dist. Water Supply Commission v State Water Policy Commission*, supra

(7) Other decisions applying New Jersey statute see 67 C.J. p 1127 note 24 [a]

measured by the provisions of the statute<sup>39</sup> or the contract or conveyance<sup>40</sup> creating the right, or by general rules of law with respect to waters<sup>41</sup> It has been held that power to regulate the flow of a stream merely as a part of a plan to improve a municipal water supply, given to a municipal corporation by statute, is not ultra vires<sup>42</sup> In some jurisdictions at least, the status and rights of a water company using the waters of a stream at a certain place, which it has not condemned, as against another company which seeks to appropriate water above such place, are only those of a lower riparian owner<sup>43</sup>

The supplying of water by a municipality for

manufacturing purposes is not rendered a domestic use merely because the product of the manufacturer is for domestic purposes<sup>44</sup> In a case in which the right of a municipal corporation as riparian owner to take water to supply its inhabitants for domestic purposes has been recognized, the view was taken that it is the duty of such corporation to return to the stream the water not consumed<sup>45</sup> and that it may not use the waters to supply persons outside its boundaries<sup>46</sup> On the other hand, the right of a municipal corporation which has, under statutory authorization, duly acquired the right to take an unlimited quantity of water from a stream for the use of its people and its general needs to use such

**39. Mass—Inhabitants of Town of Holliston v Holliston Water Co.**, 27 NE2d 194, 306 Mass 17 67 C J p 1128 note 26

#### Sources of streams

(1) Under statute authorizing water company to take, hold, and convey the water, so far as may be necessary, of any spring or springs or of any stream or streams within town, the words "spring or springs" should be read in connection with the words "stream or streams," and the intent of the statute was to authorize the taking of the water of streams including their sources in the springs which fed them—*Inhabitants of Town of Holliston v Holliston Water Co.*, supra

(2) Where water company entered on dry land and sank an eighteen-inch pipe through which it pumped water from a stratum of water-bearing earth lying between two impervious layers of clay twenty and forty-four feet below the surface by means of an engine, the completed result was a "well," and land did not contain a "spring" or a "stream" within statute authorizing water company to take, hold, and convey water of any spring or springs or of any stream or streams within town—*Inhabitants of Town of Holliston v Holliston Water Co.*, supra

**40. Tex—Grogan v City of Brownwood**, Civ App, 214 SW 532 67 C J p 1128 note 27

#### Grant of right to withdraw underlying water

(1) Where water company conveyed to city certain land overlying water basin and granted city, as an appurtenance to such land conveyed, right to withdraw water underlying land retained by water company subject only to right of company and its successors to use underground water for domestic and irrigation purposes, water rights granted to city were "covenants running with the land," thus burdening each successive owner and, insofar as grant thereby dim-

inished vested property right inhering in ownership of retained land, it created an easement on retained land as the servient tenement appurtenant to conveyed land as the dominant tenement—*U S v 4105 Acres of Land in Pleasanton*, DCCal, 68 FSupp 279

(2) The grant by owner of overlying land to city of right to divert underground water had effect of subordinating, in favor of city, power of owner to appropriate such waters which it had by virtue of its ownership of overlying land giving it means of access to such underground supply and gave city an appropriate right invulnerable to destruction or damage by, and paramount to, acquisition of prior appropriate or prescriptive rights by anyone using underground water through wells on retained lands, which right was not dependent on continued user, but city did not acquire right to deny to others surplus waters for beneficial use while city was not so using such water—*U S v 4105 Acres of Land in Pleasanton*, supra

(3) The estate of city in condemned parcel of land, arising from priority of user of underlying waters, did not attach to any greater quantity of underground waters than was being actually diverted, where city did not own subterranean basin as a storage reservoir and waters therein did not belong to city by right of appropriation—*U S v 4105 Acres of Land in Pleasanton*, supra

#### Rights acquired by deed

The North Jersey District Water Supply Commission, by virtue of deed from Morris Canal and Banking Company, acting in the name of, and as trustee for, the state, obtained the right to divert 77 cubic feet of water a second or approximately 50 millions of gallons of water a day from the Wanaque River, even though deed was silent with reference to water rights, and transfer by Passaic Valley Water Commission to the North Jersey District Water Supply Com-

mission of the transferor's easement and right to divert the flow of the Wanaque River and Post Brook and the tributaries thereof, was tantamount to right of transferee to divert 226 millions of gallons of water a day—*Grobart v North Jersey Dist Water Supply Commission*, 53 A2d 796, 142 NJ Eq 60

#### Points of diversion

Owner of riparian lands was not entitled to enjoin North Jersey District Water Supply Commission from diverting waters from Wanaque River because of fact that Commission used different points of diversion than its predecessors under which it claimed, in absence of showing that riparian owner was injured by change of points of diversion—*Grobart v North Jersey Dist Water Supply Commission*, supra

#### Purpose of diversion

Fact that one of the North Jersey District Water Supply Commission's predecessors, from which the commission obtained part of its rights to divert water, did not divert the water for potable purposes did not prevent the commission from diverting the water for potable purposes—*Grobart v North Jersey Dist. Water Supply Commission*, supra

**46. Ohio—Canton v. Shock**, supra.

water to supply persons within its boundaries has been recognized notwithstanding some of the water so supplied is carried by the consumer beyond the limits of the municipality<sup>47</sup>

*Adverse user and prescription.* In case of the acquisition of the right to use water for a water supply on the theory of a lost grant<sup>48</sup> or prescription,<sup>49</sup> it has been held or recognized that the use is limited substantially to such amount as was used for that purpose during the period of adverse use or prescription. A prescriptive right acquired by a municipal corporation may include certain incidental rights or privileges conducive to the enjoyment of the prescriptive right<sup>50</sup>

*Presumption as to corporate action to acquire rights.* Where the state has granted to a municipal corporation the right to use a stream as a source of supply, and the corporation has diverted waters, has erected waterworks and other facilities, and has furnished such waters to its inhabitants over a long period of time, there is a presumption of such corporate action as was necessary to appropriate as much of the flow of the stream as would supply not only the present but also future requirements of the population,<sup>51</sup> and the municipal corporation is not limited to the use merely of as much water as it has acquired by prescription<sup>52</sup> A presumption of corporate action has been given effect in respect of a water company to the extent of permitting the taking of water for immediate and reasonable future use<sup>53</sup>

*Appropriation.* Where a municipal corporation has acquired the right of first appropriation of a certain quantity of water from a stream it has, prima facie, the right to divert the waters of such stream in sufficient quantity to supply the needs of itself and of its inhabitants<sup>54</sup> According to some cases an appropriation for a municipal water supply need not be limited in amount to the present or immediate needs of the municipality,<sup>55</sup> and the right may be held intact by the temporary application of the surplus to other beneficial uses<sup>56</sup> The view has been taken, however, that until a municipality which has acquired by purchase appropriation rights in a certain stream for the purpose ultimately of increasing its water supply makes use of the rights for the purpose of a water supply it holds such rights subject to the right of a subsequent appropriator to use the water<sup>57</sup> It has been held that a municipality which uses water, acquired by appropriation, in its sewage system must, after the water is purified by settling, return the purified water to the stream<sup>58</sup> and it has no right to sell such purified water to a third person.<sup>59</sup>

*License.* According to some cases, an oral agreement by a landowner to allow a municipality to connect its waterworks with an artesian well on his land for a period of time not specified, on condition that the city shall furnish him with water free of charge, which offer is accepted and acted on for more than twenty years, in view of the statute of frauds creates a mere license<sup>60</sup> revocable at the will of the landowner<sup>61</sup> and his grantee,<sup>62</sup> but on rev-

#### Future needs

(1) The statute governing leasing of water by municipal appropriator recognizes the difference between use of water for municipal purposes and use of water for irrigating, and does not attempt to change status of individual who has applied water to beneficial use, or attempt to grant right to any water held by others, but does recognize practical problems related to municipal water systems and city's right to appropriate sufficient water not only for immediate use, but for a reasonable time in the future—City and County of Denver v Sheriff, 96 P 2d 836, 105 Colo 193

(2) City having prior appropriation for municipal use of all waters of designated watershed prior to date of distinction between right of appropriation of water directly from stream and for appropriation from reservoirs was authorized to impound waters appropriated in reservoir for use in emergency as against claim of subsequent appropriator that water was not used for beneficial purpose—Van Tassel Real Estate & Lave

62. Minn—City of Hutchinson v Wegner, supra.

ocation a reasonable time to secure a supply of water from other sources should be given before the landowner may shut off the flow of water from his well to the waterworks <sup>63</sup>

**Tributary stream** A municipal corporation's right to sufficient water from a stream to meet its present and reasonable future needs has been held to include the right to an undiminished flow of the waters of a tributary of the stream to the extent necessary for such needs,<sup>64</sup> but the corporation is not entitled successfully to complain of a taking of water from such tributary by one junior in right, which does not diminish the supply necessary for its needs.<sup>65</sup>

**Lease of water right** The authority of a city to lease a water right to one who is to construct and operate a water system for municipal purposes has been recognized <sup>66</sup>

**Imposition of obligations** Statutes permitting a municipality to draw a water supply from a particular source sometimes impose obligations on the municipality in respect of maintenance of flow of the

streams involved <sup>67</sup>

### § 231. Pueblo Rights

A municipal corporation, as successor to a Spanish or Mexican pueblo organized under the laws, institutions, and regulations of Spain or Mexico, succeeds to the prior and paramount right of such pueblo to the use of the waters on or under its allotted lands.

A Spanish or Mexican pueblo organized in California under the laws, institutions, and regulations of Spain or Mexico acquired a prior and paramount right to the use of the waters of rivers or streams passing through and over or under the surface of their allotted lands as far as was necessary for the pueblo or its inhabitants,<sup>68</sup> and had the right to distribute to the common lands and to the inhabitants of the pueblo the waters of a nonnavigable river on which the pueblo was situated <sup>69</sup> A municipal corporation which is the successor to such a pueblo succeeds to its rights<sup>70</sup> and holds the water rights of its predecessor in trust for its inhabitants<sup>71</sup> The rights in question are governmental in character in respect both of the pueblo and its successor municipality,<sup>72</sup> superior to those of a

70. Cal.—City of Los Angeles v City of Glendale, 142 P 2d 289, 23 Cal 2d 68  
67 C J p 1130 note 62

#### City of Los Angeles

(1) The pueblo right of the City of Los Angeles to take such water as needed from the Los Angeles river includes the right to take from the river to the extent of the needs of the city when the flow is at its peak as well as at any other time—City

of Los Angeles v City of Glendale, supra—67 C J p 1130 note 62 [a] (1)

(2) Where City of Los Angeles imported water by aqueduct and made water available to farmers in San Fernando Valley which contains a natural subterranean reservoir with knowledge that certain percentage of water used by farmers would seep into reservoir and be reclaimed at city's diversion works at lower end of valley, in determining city's prior right to water after use by farmers, it was immaterial whether farmers acquired their right to use water through transfer of land that included a water right or by other means or that city's contract indicated a sale of water to farmers—City of Los Angeles v City of Glendale, supra.

#### Waters included

(1) Generally—City of Los Angeles v City of Glendale, supra—67 C J p 1130 note 62 [c]

(2) Waters imported into watershed—City of Los Angeles v City of Glendale, supra.

#### Abandonment

(1) One who brings water into a watershed may retain a prior right to the water after permitting others to use the water for irrigation—City of Los Angeles v City of Glendale, supra

(2) Where City of Los Angeles made water, which had been transported to San Fernando Valley by aqueduct, available to farmers of valley for irrigation with knowledge that certain percentage of water would sink into natural underground

reservoir and flow to city's diversion works where it would be recovered, city did not abandon water so as to permit its appropriation by others—City of Los Angeles v City of Glendale, supra

#### Rights of other users

Where cities of Glendale and Burbank had at no time taken from waters in subterranean reservoir in San Fernando Valley forming part of Los Angeles river system more than their rightful portion under their right to take all waters of Los Angeles river in valley not needed by City of Los Angeles they acquired no prescriptive right to Owens Valley waters transported by City of Los Angeles to San Fernando Valley reservoir by aqueduct, or to take waters from Los Angeles river which City of Los Angeles might thereafter require—City of Los Angeles v City of Glendale, supra

71. Cal.—Lux v Haggin, 10 P 674, 69 Cal 255

72. Cal.—City of San Diego v Cuyamaca Water Co, 287 P 475, 209 Cal 105

The pueblo right of the City of Los Angeles to take waters from the Los Angeles river being measured by the needs of the city to insure a water supply for an expanding city with minimum of waste by leaving surplus water accessible to others until city needs it, the right is not violative of constitutional provisions against waste of water and limiting right to waters to amount reasonably necessary for beneficial use served—City

riparian owner or appropriator,<sup>73</sup> and such rights, as public rights, cannot be lost, or the public trust as to the administration and exercise of such rights cannot be destroyed, by adverse possession,<sup>74</sup> by laches,<sup>75</sup> by nonuser,<sup>76</sup> or by other negligence<sup>77</sup> on the part of the agent of the municipality who may from time to time be invested with the duty of protection and administration. In a suit by a municipal corporation, which has succeeded to the rights of a pueblo, to quiet title to its asserted paramount right in all the waters of a stream and to enjoin diversion, it is not necessary that its complaint should contain an allegation that any particular quantity of the waters of the stream is necessary for the use of the municipal corporation<sup>78</sup> or should set forth the boundaries and locations of irrigable land involved in the suit,<sup>79</sup> and the court will not determine the quantity of water to which the municipality may be entitled.<sup>80</sup> Where it is decided that plaintiff is entitled to the entire surface flow of the stream for municipal and domestic purposes, it is not necessary for the court, in a decree restraining defendants from diverting water from the stream at any time, to define the amount of water which would be required by plaintiff during a certain part of the year.<sup>81</sup> Where, in such suit, plain-

tiff seeks to quiet title as against defendants, the court being able fully to determine the controversy as between the parties litigant, others similarly situated to those who are defendants in the action are not necessary parties.<sup>82</sup> Pueblo rights may not be made the basis of an objection to any use of water which does not diminish such rights.<sup>83</sup>

In *New Mexico* the doctrine or rule as to pueblo rights does not apply where the land in the community or settlement which claims pueblo rights was obtained under a townsite grant from the United States.<sup>84</sup>

## § 232. Pollution of, and Other Injuries to, Water Supply

- a In general
- b Remedies

### a. In General

The duty of protecting its water supply from pollution rests primarily on the municipality or water company which controls the water.

The duty of protecting its water supply from pollution rests primarily on the municipality<sup>85</sup> or water company<sup>86</sup> which controls the water. In general,

of *Los Angeles v City of Glendale*, 142 P 2d 289, 23 Cal 2d 68

73. Cal—City of Los Angeles v City of Glendale, *supra*

74. Cal—City of San Diego v Cuyamaca Water Co., 287 P 475, 209 Cal 105

67 C J p 1130 note 65

75. Cal—City of Los Angeles v City of Glendale, 142 P 2d 289, 23 Cal 2d 68—City of San Diego v Cuyamaca Water Co., 287 P 475, 209 Cal 105

67 C J p 1130 note 66

76. Cal—City of Los Angeles v City of Glendale, 142 P 2d 289, 23 Cal 2d 68

**Provision of Water Commission Act** that failure to use all or part of water claimed for purpose for which it was appropriated or adjudicated for period of three years shall effect a reversion of water to public had no application to rights of City of Los Angeles in waters of Los Angeles river since pueblo rights to which city succeeded are not based on appropriation or adjudication—City of Los Angeles v City of Glendale, *supra*

77. Cal—City of San Diego v Cuyamaca Water Co., 287 P 475, 209 Cal 105

78. Cal—City of Los Angeles v Hunter, 105 P 755, 156 Cal 603

79. Cal—City of Los Angeles v Hunter, *supra*.

80. Cal—City of Los Angeles v City of Glendale, 142 P 2d 289, 23 Cal 2d 68

### Effect of judgment

(1) Where judgment stated without qualification that City of Los Angeles was owner in fee simple of a paramount right to surface and subsurface waters of Los Angeles river, provision therein allowing pumping of water to satisfy needs of unincorporated village of Burbank was not a determination that city of Burbank could meet its needs for water from San Fernando Valley basin holding subsurface waters of Los Angeles river paramount to rights of Los Angeles—City of Los Angeles v City of Glendale, *supra*

(2) Where City of Glendale was enjoined from pumping water from San Fernando Valley subterranean reservoir only while there was not a surplus of water at diversion works maintained by City of Los Angeles at lower end of valley acquiescence by Los Angeles in diversion by City of Glendale and City of Burbank while there was a surplus of water at diversion works was a mere compliance with decree establishing rights of City of Los Angeles against Glendale, and the reasonable supposition that in any future litigation the City of Burbank would be awarded same right to pump on its lands that Glendale had, and did not create an estoppel against Los Angeles or pre-

scriptive rights in favor of Glendale or Burbank—City of Los Angeles v City of Glendale, *supra*

**The retention of jurisdiction to meet future problems** is an appropriate exercise of equitable jurisdiction in litigation over water rights, particularly when adjustment of substantial public interests is involved, hence such retention of jurisdiction is not the granting of relief in excess of that available in an action for declaratory relief—City of Los Angeles v City of Glendale, *supra*

81. Cal—City of Los Angeles v Hunter, 105 P 755, 156 Cal 603

84. NM—New Mexico Products Co v New Mexico Power Co., 77 P 2d 634, 42 NM 311—State v Tularosa Community Ditch, 143 P 207, 19 NM 352

85. Idaho—Bellevue v Daly, 94 P 1036, 14 Idaho 545, 125 Am SR 179, 15 L R A, NS, 992, 14 Ann Cas 1136

67 C J p 1131 note 74

86. US—Mann v Des Moines Water Co., Iowa, 202 F 862, 121 CCA. 220

67 C J p 1131 note 75.

there is no property right to pollute a stream which will prevent the taking of steps to protect the stream from pollution,<sup>87</sup> and the owner of land may not so use his property as to endanger the source of a municipal water supply<sup>88</sup>

The legislature may prevent the pollution of any reservoir or stream which supplies water for public use<sup>89</sup> Statutes and ordinances looking to the protection of public and municipal water supply have frequently been enacted,<sup>90</sup> as, for example, statutes conferring on municipal corporations authority to protect water used for domestic purposes, and the validity of such statutes or ordinances has been recognized or upheld<sup>91</sup> Thus, statutes, ordinances, and regulations prohibiting, under penalties, injury to,<sup>92</sup> or the pollution of,<sup>93</sup> streams or other sources from which communities draw their water supply are usually regarded as valid exercises of the police power Some statutes designed for the protection of the sources of a public or municipal water supply are aimed at pollution at the point of discharge of the polluting matter into the water<sup>94</sup> and condemn not only the actual discharge of polluting matter into the water<sup>95</sup> but also the threat and menace of such discharge resulting from depositing polluting matter near the banks<sup>96</sup>

*Public use* While the water must be used for a public supply, in order that protection may be given

under the rules or principles here discussed,<sup>97</sup> the use of the water of a stream by a water company to supply the public may be such a public use as will entitle such company to the protection of the stream from pollution even though there was no formal entry by it after a settlement of a proceeding to condemn the waters of a stream,<sup>98</sup> or even though such water company obtains its water from another company which had by purchase acquired the rights of lower riparian owners and which does not have the power of eminent domain<sup>99</sup>

*Purification and filtration plant* While the right to compel a water company to install a filtration plant has been denied where there is no contract obligation to do so, and it is not responsible for the impurity of the water,<sup>1</sup> where a contract requires that the water shall be filtered the fact that a filter put in by a water company was adequate when its works were constructed does not necessarily excuse it from putting in a new one after the old has become inadequate by reason of the municipal corporation's growth and the consequent increase in the demand for water<sup>2</sup> An irrigation company which has no right to discharge water from its canal into a stream used for a water supply may not insist that the water company which uses such stream shall enlarge its filtration plant to purify water improperly discharged from the canal into the stream<sup>3</sup> A resolu-

87 Pa.—Pennsylvania R Co v Sagamore Coal Co, 126 A 386, 281 Pa 233, 39 A L R 882, certiorari denied 45 S Ct 228, 267 US 592, 69 L Ed 803—Commonwealth v Emmers, 70 A 762, 221 Pa 298

#### Privilege

The privilege of discharging obnoxious sewerage into the waters of the state is a matter of public concern, and it is within the police power of the state to declare that this privilege is one which should not be exercised by private individuals, but only by the state or its governmental agents, the municipalities, acting under the direct control of the state—Dixon v Sheffer, 46 Pa Super Ct 452

*The right of a municipality to protect its water source from pollution* may be invoked as freely against people with superior rights on a stream as against those who have no rights—Adams v Portage Irr, Reservoir & Power Co, 72 P 2d 648, 95 Utah 1, rehearing denied 81 P 2d 368, 95 Utah 20

2. Iowa—Burlington v Burlington Water Co, 53 NW. 246, 86 Iowa 266

3. Mont—Missoula Public Service

tion of a municipal council providing for drawing plans for erecting a filtration plant for use in connection with a water system already established and in operation is not a step toward the construction and operation of a public utility within the meaning of constitutional provisions prescribing certain procedure and requirements<sup>4</sup>

*Prescriptive right to pollute water* There is authority for the view that no right to befoul a stream supplying water to a municipality can be acquired by prescription after it has been devoted to a public use<sup>5</sup> In any event, the existence of the right by prescription to render running water unfit for drinking and domestic purposes requires the strictest proof<sup>6</sup> Such an alleged right must be measured by the enjoyment and does not permit pollution to an extent greater than that enjoyed when the period of prescription began,<sup>7</sup> and occasional bathing for an extended period does not authorize the establishment of a bath house and a public pool for commercial purposes with resultant pollution of the source of a municipal water supply.<sup>8</sup>

*Review of orders looking to protection of waters* There is authority for the view that no appeal to the courts lies from orders of a state board establishing general rules and regulations looking to the prevention of the pollution of the public waters of the state, which are made pursuant to statute and are quasi-legislative in character,<sup>9</sup> notwithstanding the statute creating the board and authorizing the making of rules and regulations contains a provision that

any person aggrieved by any order of the board may appeal to the supreme court for a reversal thereof on the ground that it is unlawful or unreasonable<sup>10</sup> A like rule denying an appeal to a jury from general rules and regulations for the protection of a water supply, made by the state board of health, has been recognized notwithstanding the statutory provision permitting an appeal to a jury by any person aggrieved by an order passed under the act defining the authority of the state board of health.<sup>11</sup>

*Criminal or penal proceedings.* Under certain circumstances a criminal or penal proceeding will lie for wrongful pollution of waters from which a public supply is taken,<sup>12</sup> but the liability of an upper riparian proprietor to criminal prosecution for a reasonable use of the water has been denied<sup>13</sup>

#### b. Remedies

A municipality or water company may protect its waters from pollution by injunction, and may recover damages where permanent injury has resulted from pollution.

The right of a municipality<sup>14</sup> or water company<sup>15</sup> engaged in furnishing a supply of water to the inhabitants of a municipality to maintain a bill for an injunction against acts which tend to impair the natural purity of the water and render it unfit for use has been recognized Some statutes provide for a resort to the courts to protect the purity of a public water supply,<sup>16</sup> and some make specific provision for the remedy by injunction<sup>17</sup> An injunction against an upper riparian owner has been

#### Mayor

(1) In suit by mayor of city to enjoin defendant from polluting waters of stream from which city obtained its water supply, mayor was required to show that some statute had vested him with authority to vindicate the right of the public, otherwise his right to maintain the suit was no greater than that of any other private individual—Mayor of Cambridge v Dean, 14 NE2d 163, 300 Mass 174

(2) A mayor of Cambridge had no standing without the consent of the board of health of Lincoln to restrain the maintenance of a piggery which was allegedly polluting the city's water supply, and which was located partly in Waltham and partly in Lincoln—Mayor of Cambridge v Dean, supra

#### Bill held insufficient

Mass—Mayor of Cambridge v Dean, supra

15. Mont—Missoula Public Service Co v Bitter Root Irr Dist, 257 P 1038, 80 Mont 64 67 CJ p 1133 note 6.

#### Strip mining

A water service company was not entitled to injunction against further strip mining of coal on certain lands on ground of imminent danger of great and irreparable damage to company's water supply by contamination, in absence of evidence of proportion of water from branch of stream in danger of contamination to total intake of plaintiff's reservoir and amount or intensity of present and future contamination of such stream—Punxsutawney Water Service Co v Saricks, 46 A2d 673, 354 Pa. 106

16. Conn—Harvey Realty Co v Borough of Wallingford, 150 A. 60, 111 Conn 352 67 CJ p 1134 note 7

17. NJ—Department of Health of New Jersey v. Chemical Co of America, 107 A 164, 90 NJ Eq 425. 67 CJ p 1134 note 8.

denied, however, on the ground that such owner's use of his property was not unreasonable,<sup>18</sup> and on the ground that, regardless of the acts of defendant, plaintiff company is not obtaining and cannot obtain a supply of pure and wholesome water from the source then used<sup>19</sup>

In order to permit the grant of an injunction because of alleged violation of a statute, the facts must constitute a violation<sup>20</sup> While the right of a municipal corporation to protect by injunction its right to a limited use and control of a public highway outside of its limits, duly acquired in order to protect from pollution its water supply, has been recognized,<sup>21</sup> in the absence of such acquisition it is improper for a court to grant a permanent injunction sought by such corporation restraining the use of such a highway by the public<sup>22</sup> The right of a municipal corporation to maintain a suit for specific performance of a valid and enforceable contract with a water company requiring the filtering of water has been recognized<sup>23</sup>

*Action for damages* The right of a municipal

corporation to maintain an action for damages resulting from the permanent destruction of its water supply by pollution of the source has been recognized<sup>24</sup> In such action ordinary rules for measuring damages for permanent injury to realty by the pollution of a stream do not apply,<sup>25</sup> and it has been held that plaintiff is entitled to recover the cost of acquiring and installing another adequate and enduring supply of water of a similar quality, quantity, and dependability as that which was destroyed<sup>26</sup> The right to recover for damage to the quality of the water depends on whether plaintiff had the right to use the water as a source of supply for public distribution<sup>27</sup> In an action by an individual who has been furnishing water through pipes to certain consumers against a municipal corporation for damages based on defendant's pollution of the source of plaintiff's supply, evidence of prior pollution of the water by surface drainage is admissible, not to justify defendant's acts,<sup>28</sup> but to show that the water was so contaminated by causes other than the acts of defendant that such acts did not cause injury to plaintiff<sup>29</sup>

18 Md—Helfrich v Catonsville Water Co, 22 A 72, 74 Md 269, 13 L R A 117, 28 Am SR 245

24 Okl—Roxana Petroleum Corporation v City of Pawnee, 7 P 2d 663, 155 Okl 141  
67 C J p 1134 note 16.

#### Permanent injury

Injury arising out of pollution of municipal water supply is permanent, with respect to right of municipality to recover damages therefor when cause of pollution could not be abated by reasonable expenditure, and introduction into sands of earth of salt water which seeps into source of municipality's water supply constitutes permanent injury to such water supply—Arkansas Fuel Oil Co v City of Blackwell, CCA Okl, 87 F 2d 50

#### Evidence held sufficient

(1) Evidence that oil company's

mining operations produced salt water which seeped from ponds in which it was stored into river above municipal waterworks warranted municipality's recovery of damages for destruction of its water supply—Arkansas Fuel Oil Co v City of Blackwell, supra

(2) Other evidence see 67 C J p 1134 note 16 [c]

25 Okl—Roxana Petroleum Corporation v City of Pawnee, 7 P 2d 663, 155 Okl 141

26 Okl—Arkansas Fuel Oil Co v City of Blackwell, CCA Okl, 87 F 2d 50  
67 C J p 1134 note 19

#### Duty of tort-feasor

(1) While Oklahoma municipality cannot arbitrarily build new water plant at extreme distance from municipality and charge cost thereof to tort-feasor which destroyed its former water supply, responsibility of so locating new plant that uninterrupted supply of wholesome water would be available to its citizens was vested with municipal authorities and not with tort-feasor—Arkansas Fuel Oil Co v City of Blackwell, supra

(2) Tort-feasor sued for damages for pollution which destroyed municipality's water supply has heavy burden of clearly and convincingly proving that municipal authorities acted arbitrarily in locating new water plant—Arkansas Fuel Oil Co v City of Blackwell, supra

27 Me—Kennebunk, Kennebunkport

and Wells Water Dist v Maine Turnpike Authority, 84 A 2d 433, 147 Me 149—Kennebunk, Kennebunkport and Wells Water Dist v Maine Turnpike Authority, 71 A 2d 520, 145 Me 35

#### Acquisition of right

If control of watershed of a stream for purpose of protecting water supply is desired by a water company or water district, it should be acquired by purchase or, if the power is conferred on it, by exercise of the right of eminent domain, and it cannot, as against upper proprietors, be acquired by a prescriptive use of the water for such purpose—Kennebunk, Kennebunkport and Wells Water Dist v Maine Turnpike Authority, 84 A 2d 433, 147 Me 149

#### Evidence of riparian ownership

Where the sole claim for damages set forth in declaration was based on water district's right as a quasi-municipal corporation to distribute water from named brook and an invasion of such right by turnpike authority, evidence that district owned riparian land on brook could be considered only for the purpose of determining whether such ownership conferred on district the right to use waters of brook as a source of supply for public distribution—Kennebunk Kennebunkport and Wells Water Dist v Maine Turnpike Authority, 71 A 2d 520, 145 Me 35

28 Ky—Kevil v City of Princeton, 118 SW 363

29 Ky—Kevil v. City of Princeton, supra.

*Remedies of persons affected by acts of municipality* While a municipal corporation may be enjoined from improperly interfering with the right of the owner of property to make reasonable use of it, in making a purported attempt to protect the municipal water supply,<sup>30</sup> the decree granting relief should be limited to restraining the municipal corporation from interfering with the recognized rights of such owner while exercised in a reasonable manner.<sup>31</sup> An injunction against the enforcement of a valid and applicable municipal ordinance looking to the protection of a water supply is properly refused.<sup>32</sup> Where a statute provides that when the state board of health, for the protection of a water supply from contamination, makes orders or regulations requiring the construction of a sewerage system, the municipality or corporation benefited shall pay all damages for injury to any manufacturing or industrial enterprise occasioned by the enforcement of the order or regulation of the board, a person may not recover damages under such statute in the absence of an order or regulation requiring the construction of any sewerage system affecting the property of such person for the benefit of the water supply of defendant municipality.<sup>33</sup>

### § 233. Proceedings to Protect Rights

An action at law, or a suit for injunction, may be maintained by a person or corporation owning water rights and engaged in supplying a municipality and its inhabitants to prevent unlawful diversion or other interference with its rights

An individual or corporation,<sup>34</sup> a municipal cor-

poration,<sup>35</sup> or a water district<sup>36</sup> owning water rights and engaged in furnishing a supply to a municipality and its inhabitants may maintain actions at law or suits for injunction against persons who unlawfully divert water or otherwise interfere with its rights. In order, however, that an injunction may be granted to prevent defendant from taking water from a stream, it must appear that plaintiff has duly acquired the right to use water from such stream,<sup>37</sup> and it must be shown that plaintiff's right is superior to that of defendant.<sup>38</sup> The right of the state through the attorney general to maintain a suit to prevent the unlawful diversion of waters of a stream has been recognized.<sup>39</sup> Thus, where the legislature has enacted a valid statute forbidding the diversion of water for a stated purpose,<sup>40</sup> as, for example, through pipes, conduits, and the like, into another state,<sup>41</sup> the unlawful diversion for that purpose may be restrained at the instance of the attorney-general, but a borough does not stand in such relation to the public or to the potable water of the state as to enable it to sue on behalf of the public to restrain the conveyance by pipe line of such water out of the state.<sup>42</sup> In a suit by the attorney-general to prevent a water company from diverting water from a stream, the court has declined to pass on the questions as to whether various municipalities had the power to appropriate water for a water supply,<sup>43</sup> and as to the validity of certain contracts by which various municipalities sought to obtain a supply from other parties to the contracts,<sup>44</sup> where the municipalities were not parties to the suit

30. NY—Heaton v Chester, 111 N YS 725, 59 Misc 558, affirmed 121 NYS 1135, 137 App Div 892, modified on other grounds 95 NE 768, 202 NY 603

43. NJ—Wilson v East Jersey Water Co, 79 A 440, 78 NJEq 329

44. NJ—Wilson v East Jersey Water Co, supra.

In a suit by a city, a prior appropriator, against a utility district, to prevent the lowering of the underground water strata from which the city obtains its water supply, the court will not consider the needs and requirements of other users in the area in determining the rights of the city and district.<sup>45</sup> In such a case, where the city has proved the extent of its rights to the water, the district must prove the existence of a surplus of water.<sup>46</sup> Evidence should be admitted relative to a possible physical solution of the question between the city and the district,<sup>47</sup> and it is the duty of the court,

in the absence of a satisfactory solution, to suggest on its own motion a physical solution<sup>48</sup> which it may enforce regardless of whether the parties agree.<sup>49</sup> The city, as a prior appropriator, may not be compelled to incur any material expense to accommodate the utility district as a subsequent appropriator.<sup>50</sup> A finding that serious damage to the city would result from the proposed permanent method of operation of the utility district is sufficient, when supported by substantial evidence, to warrant injunctive relief,<sup>51</sup> and the city is not limited to mere recovery of damages.<sup>52</sup>

## B. MUNICIPAL WATERWORKS AND WATER DISTRICTS

### § 234. Construction or Acquisition of Municipal Waterworks

- a In general
- b Funds and financing

#### a. In General

A municipality or county authorized to construct or acquire a waterworks may do so in accordance with statutory provisions

A municipal corporation having authority to construct or acquire a waterworks may do so in accordance with the applicable statutory provisions.<sup>53</sup> Thus, where the municipal council has been authorized, as by the proper popular vote, to construct a waterworks, it may do so either by ordinance or resolution.<sup>54</sup> Under statutes so providing, counties may have the authority to establish a waterworks system,<sup>55</sup> and artesian wells may be established on the application by freeholders to a designated county official.<sup>56</sup> It has been held that a corporation may not be organized having as its purpose to encourage municipal ownership of waterworks and to assist municipalities in acquiring water plants, since such

objects and purposes do not come within the objects and purposes for which a corporate charter may legally be granted.<sup>57</sup>

The authority of a municipality to provide for a water supply or construct a waterworks system is discussed in Municipal Corporations § 1051, whether a municipality shall construct a waterworks system or acquire an existing system, and the method of doing so, are discussed *infra* §§ 235-239, and the authority of a municipality to operate and maintain a waterworks system is discussed *infra* §§ 241, 242

Statutes providing for the organization of water districts and for the establishment or acquisition by them of waterworks systems, are discussed *infra* § 243

*Submission to voters* Where statutes so provide, a vote of the electors of a municipality is a prerequisite to the establishment or acquisition of a municipal or public system.<sup>58</sup> However, a city may, without evading the requirement of the statute to

<sup>45</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, 60 P 2d 439, 7 Cal 2d 316

<sup>46</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*

<sup>47</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*

<sup>48</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*

#### Adequacy of solution

Where city, a prior appropriator, claimed that utility district's storage of water resulted in lowering of underground strata from which city obtained water, drilling of new wells on new tracts nearer river was held not adequate solution of problem, since rights of other property owners might be affected.—City of Lodi v East Bay Municipal Utility Dist, *supra*.

<sup>49</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*

<sup>50</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*

<sup>51</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*.

<sup>52</sup> Cal.—City of Lodi v East Bay Municipal Utility Dist, *supra*

#### Intervention of public use

Where, when utility district first made application for permit to interfere with natural flow of stream, city filed protest, public use in district's favor could not intervene as against city so as to limit city to money damages notwithstanding large expenditures by district, where city had delayed institution of suit in reliance on district's representation that underground water levels would be raised rather than lowered.—City of Lodi v.

East Bay Municipal Utility Dist, *supra*

<sup>53</sup> Iowa.—Keokuk Water Works Co v City of Keokuk, 277 NW 291, 224 Iowa 718

<sup>55</sup> Va.—Kirkpatrick v Board of Sup'rs of Arlington County, 136 SE 186, 146 Va 113  
67 C J p 1137 note 45

<sup>56</sup> SD.—State v Dry Run Artesian Well Board of Assessment, 45 NW 38, 1 SD 62

<sup>57</sup> Pa.—In re Incorporation of Municipal Water Ownership League, 16 Pa Dist & Co 697, 26 Luz Leg Reg 237

<sup>58</sup> Neb.—Havelone v City of Beatrice, 234 NW 791, 120 Neb 618  
67 C J p 1137 note 55—44 C J. p 198 note 93 [a] (3).

submit questions to the voters, provide for the construction of a water distributing system at the cost of property specially benefited as a system independent of a water supply system, the question of the acquisition of which was submitted to the voters<sup>59</sup>

*Regulation or control by state commission or board* Under some statutes a municipality is not subject to the supervision and control of the public service commission, or other state body, in respect of the acquisition or construction of a water system by such corporation;<sup>60</sup> but under other statutes the consent of the public service commission must be secured by a municipality, under certain circumstances, where the municipality seeks to extend its mains into a locality already supplied by a water company, as discussed *infra* § 235, or where it seeks

to acquire an existing system, as discussed *infra* § 236 Where, pursuant to statute, a municipality has sought and obtained the consent of a state commission to the construction of a water plant, while a court in reviewing the determination of the commission cannot substitute its judgment for that of the commission,<sup>61</sup> if the commission's order is arbitrary, and palpably contrary to the facts, the court may prevent the unlawful assumption of power.<sup>62</sup> Under a statute so providing, before a water purification plant can be constructed, the municipality must obtain an approval of the plans and specifications from the state board of health<sup>63</sup> Under provisions to that effect, before a county water authority can come into existence concurrent action must be taken by the county supervisors and the state authorities<sup>64</sup>

#### **Preliminary requirements**

Where majority of electors voted in favor of authorizing city council to construct waterworks system to be paid for out of net earnings, only the contract was required to remain on file with city clerk for public inspection for one week, under statute, before finally entered into and adopted by council, and it was not necessary that resolutions calling election, establishing system, and ordering hearing on plans and specifications remain on file with the clerk—*Keokuk Waterworks Co v City of Keokuk*, 277 N W 291, 224 Iowa 718

#### **Propositions held properly submitted**

(1) A proposition submitting to electors question whether city should construct municipal waterworks system at a maximum expenditure not to exceed a stated sum, exclusive of any grant received from federal government, to be paid solely out of earnings, was not invalid for failure to state maximum amount to be expended, as required by statute, because of provision for grant, where proposition was submitted under statute providing for payment of public utility plants out of earnings instead of by bond issue, since expression "maximum amount which may be expended" refers to earnings and not to total cost, and matter to be submitted is maximum amount of initial cost of constructing plant and not maintenance cost, and hence taxpayers were not entitled to injunction restraining construction of waterworks plant on ground that city officials, if they could obtain a sufficient grant from federal government, might increase operating expenses and maintenance costs beyond city's means, since there must be some present, tangible, or threatened infringement of legal power with resulting damage to taxpayers to warrant injunctive relief—*Keokuk Water Works Co v City of Keokuk*, *supra*.

(2) A proposition submitting to city's electors question whether city should establish a municipal waterworks system by purchase and improvement of existing waterworks or by constructing a new system was not invalid as expressing duality of purpose, since purpose was the single one of establishing municipal ownership of system, and method of acquirement, whether by purchase or construction, related only to the means—*Keokuk Water Works Co v City of Keokuk*, *supra*.

(3) A proposition submitting to electors question whether city should construct waterworks system to be paid for solely out of earnings exclusive of any gift from federal government was not objectionable as failing to state exactly how system was to be paid for—*Keokuk Water Works Co v City of Keokuk*, *supra*

#### **Effect of pre-election campaign statements**

An election authorizing city council to construct waterworks system was not vitiated by fraud and false representations made by city officials in pre-election campaign carried on in same newspaper containing official notice of election, where statements were mainly refutations of positive statements made by corporation operating existing system against measure, and there was no showing that any individual was influenced thereby or that result of election was affected—*Keokuk Water Works Co v City of Keokuk*, *supra*

#### **Number of favorable votes required**

A majority of votes cast in favor of proposition submitting question whether city should construct waterworks system to be paid for out of earnings was sufficient, and it was not necessary that affirmative vote be as large as majority of all legal votes cast at preceding municipal election as required under statute relating to

contracting indebtedness by municipalities—*Keokuk Water Works Co v City of Keokuk*, *supra*

#### **Approval held not required**

Ordinances authorizing city to install waterworks and bond indebtedness and accept contractor's bid were held valid without necessity of assent of two-thirds of voters—*City of Sturgis v Christenson Bros Co*, 31 S W 2d 386, 235 Ky 346

#### **Effect of supervisors' rescission of resolution**

Where county supervisors passed resolution purporting to create coun-

**Use and ownership.** Under power to provide a municipal water supply, a plant built or purchased and operated by a city may be used for the purpose of supplying water to the inhabitants of the city, as well as for public purposes.<sup>65</sup> Since a waterworks is dedicated to public use it is owned by the public, the inhabitants of the municipality, and not by the municipality in its corporate capacity,<sup>66</sup> and the only function of the municipality with reference to it is to hold it in trust and administer it for the service, use, and benefit of those they represent, those who own it, the inhabitants<sup>67</sup>

**Provision for payment by municipality of tax on property of a contractor who agrees to construct a supplemental water system and deliver water to the municipality has been upheld**<sup>68</sup>

**Extent and limits of authority** The authority granted to a city to provide an adequate water supply includes the power to do and perform every-

thing incident thereto necessary to attain that object.<sup>69</sup> Thus, under a statute authorizing the installation and maintenance of waterworks, municipalities may make all contracts reasonably necessary and expedient for the accomplishment of such a purpose,<sup>70</sup> provided all the essential elements of a valid contract are present,<sup>71</sup> and a municipal water commission may empower its chief engineer to determine certain technical questions as to the details of construction of city waterworks.<sup>72</sup> Where a city has acquired the use of water for its public water supply, it is entitled to restrain the diversion of such water by individuals.<sup>73</sup> A statutory authority to construct and establish waterworks and provide other fixtures, appliances, or facilities properly includes a railway track over the land acquired connecting through a private railway with a main line.<sup>74</sup>

**Contract for water supply** Under a power to

ty water authority, and thereafter petitioned state water power and control commission for consent to such creation, subsequent resolution rescinding resolution creating such authority was held to prevent authority from becoming de jure corporation, but did not affect commission's jurisdiction to render decision consenting to creation of proposed authority—*Suffolk County v Water Power and Control Commission*, 199 NE 41, 269 NY 158

65. Tex.—*Ysleta v Babbitt*, 28 SW 702, 8 Tex Civ App 432

44 CJ p 174 note 20

#### **Municipality's delegation of powers**

City may delegate water improvement by contract not involving delegation of municipal powers—*Montgomery v City of Alamo Heights*, Tex Civ App, 8 SW 2d 258, error dismissed

70. US—*Pikes Peak Power Co v Colorado Springs, Colo*, 105 F 1, 44 CCA 333

Ga.—*Wells v Atlanta*, 43 Ga 67—*Rome v Cabot*, 28 Ga 50

Ind.—*Underwood v Fairbanks, Morse & Co*, 185 NE 118, 205 Ind 316

Miss.—*Tullos v Town of Magee*, 179 So. 557, 181 Miss 288.

Pa.—*Harlow v Beaver Falls*, 41 A 533, 188 Pa 263

#### **Statute as to use of domestic products and labor**

The statutes providing that state and municipal officials should use domestic products and labor do not apply to the letting of a contract for a public improvement such as a city's contract to construct a waterworks system—*Keokuk Water Works Co v City of Keokuk*, 277 NW 291, 224 Iowa 718

#### **Terms of contract**

Where city council, authorized by election to construct waterworks system, proposed to pay contractor in cash by issuing negotiable, interest bearing, revenue bonds, it was not necessary that contract specify rate of interest to be charged as provided in statute, and specifications calling for furnishing of articles for municipal waterworks system by trade name or other identification mark were not invalid as violating statute requiring use of general terms and prohibiting use of trade names or other individual marks, where in most instances specifications contained words "or equal" following trade names, named articles not followed by those words were of small value as compared with cost of entire contract, and it was not intimated that items mentioned were not accessible to all bidders—*Keokuk Water Works Co v City of Keokuk*, supra.

#### **Performance or breach**

Where contract for construction of well for city called for payment of bonus of twenty per cent of the contract price for delivery of more than one hundred twenty-one gallons of water a minute to city water plant, and city's action made impossible test of completed installation to deter-

mine whether contractor qualified for bonus, city could not escape payment of bonus on ground that test was not made, and such breach was not excused by city's desperate need for water immediately—*Layne Minnesota Co v City of Beresford*, C A S D, 175 F 2d 161

71. US—*Layne Minnesota Co v City of Beresford*, supra.

#### **Consideration**

Where contractor constructing well for city was under no obligation under terms of contract to leave test equipment in well, contractor's subsequent oral promise to do so, if made, was void for want of consideration—*Layne Minnesota Co v City of Beresford*, supra.

#### **Acceptance according to terms**

Where alleged oral offer of contractor constructing well for city to leave temporary equipment in well, if made, was conditioned on city's agreement to authorize order for, and permit installation of, a bowl and motor of sufficient capacity to deliver well's maximum production to city's water plant, so as to enable contractor to qualify for bonus provided under contract, city's insistence on permanent use of equipment on hand and its refusal to permit the installation of any other or different equipment showed that contractor's offer, if made, was not accepted according to its terms—*Layne Minnesota Co v City of Beresford*, supra.

72. Cal.—*Chase v Los Angeles*, 55 P 414, 122 Cal 540

Ohio—*Ampt v Cincinnati*, 17 Ohio Cir Ct 516, 9 Ohio Cir Dec 690

73. Utah—*Springfield v Fullmer*, 27 P 577, 7 Utah 450

74. Ohio—*Ampt v Cincinnati*, 2 Ohio NP, NS, 489.

construct waterworks<sup>75</sup> or to purchase waterworks with their privileges,<sup>76</sup> or to acquire water for existing needs,<sup>77</sup> a city may contract for the purchase of a supply of water. Although the legislature has power to authorize cities to contract with a waterworks company for a supply of water for the extinguishment of fires,<sup>78</sup> the legislature has no power to require municipalities to purchase water systems within their boundaries which would require the assessment and levy of a tax.<sup>79</sup> In the absence of express authority a municipal corporation cannot become a stockholder in a private water supply corporation,<sup>80</sup> or enter into a contract for the purchase of water from a private corporation, which amounts in effect to a pledge of the municipal credit for the support of a private enterprise.<sup>81</sup>

*Dams, water power* In connection with a power to establish waterworks the legislature may authorize a city to construct and maintain a dam,<sup>82</sup> and the power of a municipal corporation which is authorized to construct and operate a dam as part of a waterworks system to enter into a contract with another for the construction and operation of such dam by such other has been recognized even in the absence of direct legislative authority.<sup>83</sup> Moreover, the city may lease any surplus water power,<sup>84</sup> but the municipal corporation cannot maintain a dam for the purpose of leasing water to private persons for private uses.<sup>85</sup>

## b. Funds and Financing

In general, funds derived from the operation of a municipal waterworks system are subject to rules governing municipal funds generally. The manner in which a waterworks is to be paid for depends on the applicable statutes, and general rules governing municipal bonds have been applied to bonds to finance waterworks.

Except in so far as there may be statutory provisions otherwise providing,<sup>86</sup> funds derived from the operation of a municipal waterworks system are ordinarily subject to the same regulations and restrictions as municipal funds generally.<sup>87</sup> Thus, it has been held that a municipal waterworks system is a revenue-producing enterprise within the meaning of a statute requiring the net revenue of such enterprise to be applied to the payment of principal and interest due on the bonds issued for such enterprise,<sup>88</sup> and the governing body of the city may make any use of the waterworks revenue which it in its discretion wishes, provided it does not divert such revenues so as to dissipate the net revenues which must be applied to the payment of the principal and interest due on the bonds.<sup>89</sup> Accordingly, the amount of income and revenue from a municipal water plant to be distributed in each of three funds, namely, operation and maintenance, depreciation, and payment of principal and interest on waterworks revenue bonds, is a matter to be decided by the common council of the city rather than by

75. Colo—Colorado Springs v Pike's Peak Hydro-Electric Co., 140 P 921, 57 Colo 169.

14 C J p 175 note 37.

76. N J—Hackensack Water Co v Hoboken, 17 A 307, 51 N J Law 220.

77. Idaho—Beus v City of Soda Springs, 107 P 2d 151, 63 Idaho 1.

78. U S—Risley v Utica, C C N Y, 179 F 875.

83. Wis—Eau Claire Dells Improvement Co v City of Eau Claire, 179 NW 2, 172 Wis 240.

67 C J p 1137 note 50.

84. Wis—Attorney General v Eau Claire, 37 Wis 400.

Authority of municipality to sell or lease waterworks generally see infra § 240.

85. Wis—Attorney General v Eau Claire, supra.

86. S D—Robbins v Rapid City, 23 NW 2d 144, 71 SD 171.

### Statute held inapplicable

The statute relating to investment of funds of municipality for payment of bonds and revenue bonds has no application to a fund created to receive revenues from operation of municipal waterworks of an amount to meet city's contract obligation to government in connection with the construction of a dam and allocation of impounded water to city—Robbins v Rapid City, supra.

87. Utah—Fjeldsted v Ogden City, 28 P 2d 144, 83 Utah 278.

### Budget law

City, by creating special waterworks fund into which are paid all moneys received from operation of waterworks system, cannot withdraw such fund from control of budget law—Fjeldsted v Ogden City, supra.

88. U S—George v City of Asheville, C C A N C, 80 F 2d 50, 103 A LR 568.

### Various bonds held entitled to share with water bonds

(1) Municipal funding and refunding bonds, to extent that they incorporated indebtedness evidenced by bonds of waterworks system or sewerage bonds constituting integral part of waterworks system which they retired, were to be considered waterworks bonds within statute—George v City of Asheville, supra.

(2) General improvement bonds of city, to extent that they incorporated indebtedness incurred for waterworks system or sewerage system constituting essential part of waterworks system, were to be counted with waterworks bonds for purpose of sharing in net revenue of waterworks system under statute—George v City of Asheville, supra.

(3) Bonds of annexed municipality issued for waterworks system or sewerage system constituting essential part of waterworks system taken over by annexing municipality were held entitled to share in net revenues of waterworks system under statute—George v City of Asheville, supra.

89. U S—George v City of Asheville, supra.

the public service commission<sup>90</sup> Where a city's waterworks system is combined with some other utility, such as a sewer system, the revenue from the combined systems may be allocated proportionately among the holders of bonds secured by a pledge of the net revenue of the various systems<sup>91</sup>

The manner in which a waterworks is to be paid for depends on the provisions of the applicable statutes,<sup>92</sup> and in the absence of provisions to the contrary a municipality may accept and utilize a voluntary contribution in payment for the plant<sup>93</sup> In a proper case, proceedings may be instituted to enjoin an unlawful diversion of funds to be used for waterworks<sup>94</sup>

The financing of a municipal waterworks in so far as operation and maintenance are concerned is discussed *infra* § 241

**Bonds and certificates** Rules governing the issuance of bonds by municipalities generally and the rights, remedies, and liabilities of holders of such bonds, as discussed in *Municipal Corporations* §§ 1902-1977, have been applied to municipal waterworks revenue bonds<sup>95</sup> Thus, the financing of municipal waterworks systems by the issuance of bonds or certificates, and the payment of such obligations, are governed by the terms of the bonds,<sup>96</sup> and the provisions of applicable statutes<sup>97</sup> as well as by the provisions of pertinent

**90** Ind.—Letz Mfg Co v Public Service Commission of Indiana, 4 NE 2d 194, 210 Ind 467

**91** US—George v City of Asheville, CCANC, 80 F2d 50, 103 ALR 568

Ark—City of Harrison v Braswell, 194 SW 2d 12, 209 Ark 1094, 165 ALR 845

**92** Iowa—Keokuk Water Works Co v City of Keokuk, 277 NW 291, 224 Iowa 718

Pa—McCandless Tp v Sanders, Com Pl, 46 Mun LR 68, 102 Pittsb Leg J 307

#### **Payment out of "net" earnings**

Under statute providing for payment of public utility plant constructed by municipality out of net earnings, "net" means what is left after operating expenses and maintenance costs are paid, and, until plant established under that statute is completely paid for out of earnings and plant is held free from restrictions of statute, municipality has no power under other statutes to pay out of tax money any expense of running, operating, or repairing plant—Keokuk Water Works Co v City of Keokuk, 277 NW 291, 224 Iowa 718

**93.** Iowa—Keokuk Water Works Co v City of Keokuk, *supra*

#### **Statutes held not to inhibit acceptance of gift**

Neither statute providing for payment of municipal utility plant by bond issue, nor statute providing for payment out of earnings, inhibits municipality from accepting a gift of money or property to be used in connection with earnings in construction of plant as long as gift does not increase amount of indebtedness or amount to be paid out of earnings, and contract price does not exceed amount authorized by voters to be paid out of earnings, plus amount of gift, and under statute providing for additional methods of paying for public utility plants constructed by municipalities other than by bond issue, requirement that proposition submitted to electors on question of con-

structing plant state the maximum amount to be expended was intended to protect consumers by limiting their liability and not to prevent municipality from accepting and utilizing a voluntary contribution in payment of plant—Keokuk Water Works Co v City of Keokuk, *supra*

**94.** Tex—Texsan Service Co v City of Nixon, Civ App, 158 SW 2d 88, error refused

#### **No presumption of diversion**

A showing that voters of city had authorized revenue and tax bonds in specific sums for waterworks, and for a sewage system, and that city had ordered issue of revenue bonds and tax bonds for waterworks and sewage raised no presumption, nor could court anticipate that there would be an unlawful diversion of the proceeds from the authorized object of the bonds, precluding interference by injunction—Texsan Service Co v City of Nixon, *supra*.

**95.** Tex—Hayward v City of Corpus Christi, Civ App, 195 SW 2d 995, error refused, no reversible error

#### **Bearer bonds**

Where city waterworks revenue bonds were payable to bearer and city had no record of names of their holders, two holders owning seventy-four thousand dollars of the one and one half million dollar issue and sued as a class were not authorized to waive the rights of other holders under contract binding city not to encumber the waterworks system while any of the issue was outstanding, so as to authorize issuance of similar bonds as liens subordinate to the prior issue while any of the prior issue was outstanding—City of Houston v Mann, 164 SW 2d 548, 139 Tex 640

**96.** Ariz—Crandall v Town of Safford, 56 P 2d 660, 47 Ariz 402

#### **Provision for payment from net revenues**

Town could make revenue bonds issued by it to raise money for purchase and improvement of water system payable exclusively from net, as distinguished from gross, water sys-

tem revenue—Crandall v. Town of Safford, *supra*

#### **Injunction proceedings based on invalid clause**

In suit to enjoin sale and delivery of municipal bonds, where there had been no attempt to enforce or avoid clause in bonds providing against further incumbrance of the property covered by the bonds while they were outstanding, a challenge to the validity of the clause was purely anticipatory and a decision would not be made, and where the clause did not legally injure plaintiff either as a taxpayer or as a public utility, the fact that such clause might have been void did not entitle plaintiff to an injunction—Texsan Service Co v City of Nixon, Tex Civ App, 158 SW 2d 88, error refused

**97.** Mo—Dodds v Kansas City, 152 SW 2d 128, 347 Mo 1193

#### **Subject to public service commission**

The provisions of ordinance authorizing issuance of water revenue bonds for extension of city waterworks system were subject to any authority vested in the Public Service Commission as to rates, services, and manner of operation—City of Lebanon v Schneider, 163 SW 2d 588, 349 Mo 712

#### **Revenue applicable for payment of bonds**

Provisions of local acts governing sewer bonds were held to make city's revenue from waterworks and sewerage system applicable to payment of principal and interest of such bonds, which were issued to procure funds to extend sewerage system and were not secured by mortgage or deed of trust, and mortgage or deed of trust covering all property of waterworks and sewerage systems and securing municipal bond issue was held not to cover income or revenue from property conveyed, and beneficiary was not entitled to rents or income of property prior to law day of instrument and intervention by beneficiary for purpose of enforcing it.—City of Mo-

ordinances.<sup>98</sup> Accordingly, in a proper case a municipality may issue revenue bonds secured by an incumbrance of the revenue of a waterworks system.<sup>99</sup> So, also, it has been held that a municipality may finance the purchase or construction of a waterworks system by the issuance of bonds secured

by the property itself,<sup>1</sup> and where there has been a substantial default in the payment of principal and interest which the municipality is unable to make up,<sup>2</sup> or where the city, authorized to furnish operating expenses to the waterworks, declines to do so,<sup>3</sup> the waterworks property may be subject

bile v Marx & Co, CCA Ala, 75 F 2d 569.

**Construction and operation of charter provisions**

City charter provision, requiring water commissioners to apportion from city revenue fund amount sufficient to pay sums due on city waterworks bonds providing for payment exclusively from taxes on property in improvement district, did not give bondholder additional security for payment of bonds or become part of contract thereof, nor can charter provisions be so construed as to result in double payment of bonds by taxpayers, as by holding that one bondholder may require payment from revenue fund while others may require levy of taxes for same purpose—McLaughlin v Department of Water and Power of City of Los Angeles, 62 P 2d 1402, 18 Cal App 2d 41.

**Priority of claims**

(1) Under section of city charter expressly authorizing the issuance of bonds solely on credit of income derived from any public utility, the city has implied power to make the net revenue from waterworks subject to a prior lien for payment of interest and principal of its revenue bonds, and provision of ordinance that, in event net revenue of waterworks should be insufficient to pay interest on all waterworks bonds, interest and sinking fund due each year on revenue bonds would have prior lien on net revenue for that year did not violate provision of charter providing for disposition of water department revenue, but not undertaking to establish priority as between revenue bonds and general obligation bonds—Dodds v Kansas City, 152 S W 2d 128, 347 Mo 1193.

(2) Where city's water revenue account contained ample funds to pay all past-due and accrued interest on bonds and leave a substantial balance, bondholder was not entitled to an order requiring city to restore to water revenue account funds diverted to pay out of turn bonds which in due course would have matured before any held by party seeking the order—Mott v City of Flora, D C Ill, 51 F Supp 963.

98. Fla.—State v. Town of River Junction, 169 So 676, 125 Fla 267.

**Ordinance as part of certificate holder's contract**

Fla.—State v. Town of River Junction, supra.

**Authorized provisions presumed valid**

Where provisions of ordinance authorizing issuance of water revenue bonds, that the net revenue from the waterworks must be devoted to payment of the bonds for their outstanding period of twenty-five years, that city should maintain such rates as would cover the necessary payments and should not mortgage the plant, that future issues should be subordinate to the bonds and that under certain conditions, a receiver might be appointed to operate the plant were expressly authorized by statute, they were presumed to be valid—City of Lebanon v Schneider, 163 S W 2d 588, 349 Mo 712.

**Provision held invalid**

Provision of city ordinance providing for extension of municipal waterworks plant and authorizing mortgage on improvements and extensions with pledge of revenue to secure bonds that, in event of foreclosure, purchaser should have exclusive franchise to operate waterworks system, was held invalid as the granting of an exclusive franchise against public policy—Ohio Power Co v Craig, 197 N E 820, 50 Ohio App 239.

99. La.—Miller v Town of Bernice, 173 So 192, 186 La 742.

**Ownership of system as prerequisite**

An essential prerequisite to the practical validity or enforcement of municipal revenue bonds secured by an incumbrance of revenue of a waterworks system is the ownership of a system by the municipal authority issuing the bonds—City of El Campo v South Tex Nat Bank of San Antonio, Tex Civ App, 200 S W 2d 252, error refused.

**Determination of value of improvements**

Generally, municipal determination of value of improvements to existing waterworks system as basis for determining proceeds applicable to payment of revenue bonds for improvement of system is conclusive and not subject to review, unless based on erroneous view of law, or demonstrably erroneous, arbitrary, corrupt, or fraudulent, or manifest abuse of legislative discretion—Wadsworth v Santaquin City, 28 P 2d 161, 83 Utah 321.

**Maintenance expenses as deductible**

Whenever the income of a municipal water system is incumbered in connection with issuance of revenue bonds for a permissible statutory

purpose, such bonds are a charge against the revenues of the water system, subject to the reasonable expenses of maintenance and operation of the system—City of El Campo v South Tex Nat Bank of San Antonio, Tex Civ App, 200 S W 2d 252, error refused.

**Mortgage provisions**

Where proposed bonds were payable solely from revenues of proposed waterworks system which was to be mortgaged to secure their payment, mortgage should contain the customary clauses assuring prospective purchasers that their rights would be protected and enforced—Miller v Town of Bernice, 173 So 192, 186 La. 742.

1. Ky.—Culbertson v Louisville, 128 S W 292, 129 S W 95, 138 Ky 747.  
Pa.—Realty Co v Borough of Port Vue, 178 A 466, 318 Pa 374.  
44 C J p 1238 note 42.

**Power of sale held valid**

A power of sale in a mortgage on a municipal water system executed in accordance with the applicable statutes is not invalid under the Texas constitutional provision protecting municipal property from forced sale—City of Hamlin v Brown-Crummer Inv Co, CCA Tex, 93 F 2d 680, certiorari denied Brown-Crummer Inv Co v City of Hamlin, Tex, 58 S Ct 831, 303 US 664, 82 L Ed. 1122.

2. Pa.—Realty Co v Borough of Port Vue, 178 A 466, 318 Pa 374.

**Receivership in absence of power to sell**

Where bonds for waterworks are secured by mortgage lien without authority to compel sale of waterworks, receiver may be appointed, in event of default, who may compel imposition of rates sufficient to pay interest on bonds and for their retirement—Bankhead v Town of Sulligent, 155 So 869, 229 Ala. 45, 96 A L R 1381.

3. Ala.—Bankhead v. Town of Sulligent, supra.

**Legal obligations of municipality**

Under statute authorizing municipalities to make voluntary appropriation out of its available income from other sources for operating expenses of waterworks system acquired, construed with following section, no legal obligation rests on town because of its agreement to operate the plant so that the gross revenues shall first be devoted to the matter of bonded indebtedness—Bankhead v. Town of Sulligent, supra.

to foreclosure Where the mortgage or trust deed securing the bonds or certificates so provides, additions to the waterworks system are included within the property covered by the lien <sup>4</sup>

*Certificates as negotiable instruments* While water fund certificates payable out of a special fund are not negotiable instruments within the meaning of the law,<sup>5</sup> they possess all the qualities of negotiable paper, as for all purposes involving title,<sup>6</sup> except that they are open to any defenses which might have been made to the consideration on which they originally were founded <sup>7</sup>

*Unenforceable bonds issued to contractor* Where bonds were issued in good faith to a waterworks improvement contractor completely performing his contract, but were unenforceable because the bonds and the trust indentures were not authorized by popular vote, the contractor is equitably entitled to recover the properties obtained by the city by and through him or just compensation therefor,<sup>8</sup> and bondholders who acquired all the bonds issued and delivered to the contractor become subrogated in

equity to all of the contractor's rights and equities.<sup>9</sup>

### § 235. — Choice of Methods and Existence of Other System

The methods by which a municipality may establish a waterworks depend on the municipality's powers; and the method actually chosen may depend on the circumstances in the particular case.

The methods by which a municipal corporation may establish a system of waterworks depend on the powers of the city under constitutional and statutory provisions,<sup>10</sup> and the method which a municipality actually chooses may depend on the circumstances in the particular case,<sup>11</sup> such as the price at which the private water company is willing to sell <sup>12</sup> There is authority for the view that where a municipal corporation is authorized by statute to establish a waterworks system by a certain method it may not establish a system by another method;<sup>13</sup> and the failure to comply with the statutory requirements applicable to such method of establishing a waterworks system will invalidate steps taken and the carrying out of the plan may be enjoined <sup>14</sup>

4. Wis—*Morris v Ellis*, 266 NW 921, 221 Wis 307

5. US—*Getz v City of Harvey*, C CA III, 118 F 2d 817, certiorari denied City of Harvey v Getz, 62 S Ct 59, two cases, 314 US 628, 86 L Ed 504

6. US—*Getz v City of Harvey*, C CA III, 118 F 2d 817, certiorari denied City of Harvey v Getz, 62 S Ct 59, two cases, 314 US 628, 86 L Ed 504

#### No equity arising in favor of city

Even though plaintiff as a bona fide purchaser for value of nonnegotiable water fund certificates issued by an Illinois city without notice of defense was bound by so-called proposal and negotiations between a broker and his associate on one hand and city on the other, no equity arose in favor of city, where broker was required to deliver to city no less than entire outstanding lot of certificates, and broker was never able to comply, since when that condition remained unsatisfied all obligations between city and broker were at an end—*Getz v City of Harvey*, C CA III, 118 F 2d 817, certiorari denied City of Harvey v Getz, 62 S Ct 59, two cases, 314 US 628, 86 L Ed 504

7. US—*Getz v City of Harvey*, C CA III, 118 F 2d 817, certiorari denied City of Harvey v Getz, 62 S Ct 59, two cases, 314 US 628, 86 L Ed 504

8. Tex—*Hayward v City of Corpus Christi*, Civ App, 195 SW 2d 995, error refused, no reversible error

9. Tex—*Hayward v City of Corpus Christi*, supra.

#### Credits against property values

City was properly allowed credits against value of properties obtained by city from and through contractor, and unbarred rents and interest for value of such improvements and for payments made by city on principal of bonds, but in allowing city a credit none of its payments on account of interest coupons attached to its water revenue bonds, illegally issued, without approval by popular vote, in consideration of execution and performance of contract, and no part of rentals barred by limitations or interest thereon, should have been allowed, but such credit should have been confined to city's proportionate part of unbarred rentals and interest thereon—*Hayward v City of Corpus Christi*, supra.

#### Liability for expenses and attorneys' fees

City water revenue bondholders, failing to recover on invalid trust indenture securing bonds, which were issued without required approval by popular vote, in consideration of waterworks improvement contractor's execution and performance of contract, were liable for all reasonable expenses and attorneys' fees necessarily incurred by trustee as party to bondholders' suit for such relief or recovery of properties received by city from contractor and rental value thereof while used by city, although trust indenture provided for payment of such fees and expenses out of revenues derived from trust property—*Hayward v City of Corpus Christi*, supra

10. Ind—*Hamilton v Public Service*

Commission, 19 NE 2d 235, 215 Ind 138

#### Statutes providing alternative methods

Where statute relating to construction and operation of municipally owned utilities provided that it should constitute an alternative authority for acquiring waterworks, such statute was not to be construed as repealing former act authorizing municipalities to acquire waterworks or as requiring an election, but was to be considered as providing an alternative method for acquiring waterworks—*Hamilton v Public Service Commission*, supra

11. US—*California Water Service Co v City of Redding*, D CC Cal, 22 F Supp 641, affirmed 53 S Ct. 865, 304 US 252, 82 L Ed 1323

#### City's motive as immaterial

A city was entitled freely to bargain with private water company serving city, to offer any price it chose for water plant, and to construct rival system if private company chose not to sell, regardless of motive of city—*California Water Service Co v City of Redding*, supra

12. US—*California Water Service Co v City of Redding*, supra.

13. Tex—*Austin v McCall*, 68 SW. 791, 95 Tex 565

14. NY—*Austin v De Volt*, 295 N Y. S 971, 251 App Div 58

#### Noncompliance with particular requirements

Village officers, publishing no notice of adoption of trustees' resolution to create water system as required by statute to limit time for

So, under some statutes, a municipality which is authorized to obtain a water supply either by constructing and operating its own works, or by contracting with a private corporation to furnish the supply, may not adopt both methods and have both systems in operation at the same time,<sup>15</sup> but this rule has apparently been so limited as to apply only to supplying water for the use of the inhabitants of the municipality<sup>16</sup> and not to supplying water for municipal purposes as distinguished from supplying water for the use of inhabitants.<sup>17</sup> Accordingly, where the purpose of a contract with a water company is to supply water for municipal purposes and not for the use of the inhabitants, the municipality is not thereby prevented from establishing its own system to furnish water to its inhabitants,<sup>18</sup> and a contract to supply water for a particular municipal purpose which does not require the laying of any additional mains or pipes by the water company does not prevent the municipality from constructing its own system.<sup>19</sup>

According to some cases, in the absence of the existence of any exclusive franchise or privilege, discussed *infra* § 252, the mere fact that there is an existing water system in a municipality,<sup>20</sup> or that a private water company has been permitted to construct its works and lay pipes,<sup>21</sup> or that the municipality has contracted with another for the construction and maintenance of a waterworks system,<sup>22</sup> or has reserved the right to purchase such system,<sup>23</sup> does not prevent the municipality from constructing its own system although the other system is still in operation. However, it has been held that a municipal ordinance granting, without limit

as to time, permission to a water company to enter the borough and lay its pipes in the streets, when accepted and acted on by the company, constitutes a contract between the borough and the company to supply water to the public which exhausts the power of the municipality to supply itself with water.<sup>24</sup> Moreover, it has also been held that an unexecuted charter power of a municipal corporation to supply its inhabitants with water is impliedly revoked by a law conferring the exclusive right of furnishing it to them on a corporation.<sup>25</sup>

The fact that a municipal corporation takes water from a particular source under statutory authorization does not constitute a breach by it of a contract with a water company by which the latter is to furnish a water supply, even though the company is prevented by such taking from performing the contract where the water company's franchise is not exclusive and it has acquired no right to take the water from such source.<sup>26</sup> The validity of a statute which authorizes a municipal corporation to extend its water system into territory of the municipal corporation served by a water company, but which forbids an extension into territory outside the municipality which is served by other companies, has been upheld.<sup>27</sup> While the rule is apparently otherwise under some statutes,<sup>28</sup> under other statutes a municipality may not lawfully extend its water mains into a locality which is being supplied by a water company unless it obtains the approval of the public service commission,<sup>29</sup> or shows that it had commenced the construction of the extension at the time the applicable public utilities act became effective,<sup>30</sup> and, in the absence of such

filing referendum petition, and providing in resolution for issuance of serial bonds running for maximum period of nearly forty years, although estimated cost of materials, supplies, etc., exceeded three per cent of assessed valuation of taxable property in village, and installment payments exceeding amount of smallest prior installment by over fifty per cent, must be enjoined from carrying out plan because of noncompliance with statutory requirements—*Austin v De Volt*, *supra*.

consent or showing, a water company which is supplying a locality into which a municipality seeks to extend its mains may, in a proper case, obtain an injunction against such extension<sup>31</sup> The mere fact that a proposed municipal system may injure a water company which owns and operates an existing system does not show bad faith on the part of the municipal authorities<sup>32</sup>

Under some statutes, where a municipality and its citizens are being supplied water under an existing franchise by a public utility, such municipality, before extending its service into such area of competition with the public utility must first purchase and take over the property of the utility,<sup>33</sup> but the statute is limited in its application to cases where both the municipality and the residents thereof are furnished water service<sup>34</sup> A statutory provision that a municipality shall have the exclusive right to supply with water the municipality and all persons, partnerships, and corporations therein, does not, it has been held, prevent a railroad company, which by a prior statute was given the right to procure its own water supply, from laying mains on its own lands within the municipality and connecting them outside the municipality with the mains of a water company in order to procure a supply for the railroad company.<sup>35</sup>

## § 236. — Acquisition of Existing System in General

The means by which a municipality may acquire an existing waterworks system depends on applicable statutory provisions

The means by which a municipality may acquire an existing waterworks system generally depends on the provisions of the applicable statutes<sup>36</sup> Thus, there is authority for the view that where a statute authorizes the acquisition by municipal authorities of the water system of an existing water company by a certain method such method must be followed in acquiring the system<sup>37</sup> However, where a city has the authority under general statutes to purchase and operate a water system it has authority to provide the means and methods of acquisition,<sup>38</sup> since the method laid down by statute is not necessarily exclusive,<sup>39</sup> and the courts cannot interfere, in the absence of an abuse of discretionary power, in the method adopted for the acquisition and operation of the system<sup>40</sup> Moreover, while express provision has sometimes been made by statute permitting municipalities to become the owners of existing waterworks owned by water companies,<sup>41</sup> there is authority for the view that it is not necessary that the power to purchase should expressly be conferred but it may be implied from other powers expressly conferred by the legislature.<sup>42</sup> Statutes may be

### Right to acquire "useful" undertaking

The statutes governing revenue-producing municipal undertakings and revenue bonds authorize city to make a contract for purchase of water company's property, rights, and franchises, as used in statute defining reve-

enacted validating purchases made by a municipal corporation<sup>43</sup>

Where duly authorized, a municipality may acquire an existing water system by the exercise of the power of eminent domain<sup>44</sup> or by purchase,<sup>45</sup> and it may enter into an executory contract to purchase, as discussed *infra* § 237. So, also, a municipality may enter into a contract to lease a system from the person to whom the municipality has granted a franchise to construct the system<sup>46</sup>. Some statutes in respect of the acquisition of existing systems have been construed as attempting to impose an obligation on the municipality concerned to acquire such a system under certain circumstances where it desires to obtain another or additional system,<sup>47</sup> and other statutes have been construed as mandatory and, therefore, as requiring the municipality to purchase if the franchise granted is not renewed after a specified period,<sup>48</sup> but still other statutes are permissive and not mandatory.<sup>49</sup>

The waterworks system which is to be purchased must be of the type which is contemplated by the statute providing for the purchase,<sup>50</sup> and the view has been taken that a statute which provides for the purchase by a municipality of the waterworks of a private or quasi-public corporation does not apply to a waterworks owned by an individual or partnership<sup>51</sup>. It has been held that the purchase by a municipality of a water company serving individual users not only in such municipality, but in other non-

contiguous communities as well, would be ultra vires,<sup>52</sup> even though the municipality intends to sell the distribution systems in the other communities as soon as possible,<sup>53</sup> but it has also been held that when necessary for its purposes a municipality may purchase an entire water system, so that after operating the system and supplying the persons entitled to use the water it may devote the surplus to the use of the inhabitants of the city.<sup>54</sup> The validity of a transfer to a municipality of a water system of a water company, the whole of whose capital stock is owned by the municipality, has been upheld where such transfer was duly effected by the municipal council and the custodians of the stock.<sup>55</sup> Notwithstanding the informality of the proceedings looking to the acquisition of certain mains laid by individuals to connect with a municipal water system, the proceedings, including a resolution by the governing body of the municipality providing for the raising of money to purchase the mains, have been held sufficient to support a claim against the municipality for the alleged agreed price.<sup>56</sup>

*Referendum.* While it seems that, in the absence of a constitutional or statutory provision requiring approval, approval by the voters of the purchase of a waterworks system by a municipality is not necessary,<sup>57</sup> such approval may be necessary in so far as constitutional or statutory provisions provide for the submission to the voters of the question as to the acquisition or purchase of an existing water-

nue-producing "undertakings" as including instrumentalities and properties used or useful in connection with the obtaining of water supply and the collection, treatment, and disposal of water, the word "useful" is broad and comprehensive, and its interpretation is largely a matter of judgment, and the words "used or useful" do not manifest intent to condemn a whole contract for purchase of water company's properties and franchises merely because a small part of the property was not within a strict and technical interpretation of the authorization—*Hanrahan v Corrou*, 12 N.Y.S.2d 536, 170 Misc. 922.

Submission of question as to contract for purchase see *infra* § 237 b.

works system<sup>58</sup> Accordingly, under certain circumstances an adverse vote of the electors may terminate the right of a municipal corporation to proceed further for the acquisition of a plant under the resolution by which the matter was submitted to the electors,<sup>59</sup> and undue delay on the part of a municipal corporation, after the initiating of proceedings, in submitting to electors the matter of acquiring an existing system may bar the municipal corporation from maintaining the proceeding so initiated<sup>60</sup>

*Consent of, and proceedings before, state author-*

58 Mich—Schurtz v City of Grand Rapids, 175 NW 421, 426, 208 Mich 510

67 C J p 1141 note 96

**Dependent on method of financing**

Where funds for defraying cost of acquisition or construction of water plants in third class city are to be raised by sale of direct obligation bonds, the question of acquisition or construction of plants must be submitted to voters of city at an election held for that purpose and appointment of city utility commission is not required—King v Rowland, 168 S W 2d 755, 293 Ky 198

**Exception as to extension of existing system**

(1) Where contemplated water system was an addition to an already existing system, the city council had authority to make such addition without a vote of electors—Holland v Heavlin, 300 NW 777, 299 Mich 465

(2) The construction of an intake crib, pumping stations, and pipe line from the city to the lake, and additional reservoirs was but the "extension of the existing water system" of the city rather than the "acquisition of a public utility," and hence the commissioners of the city were authorized to contract for the construction thereof without a vote of the electors of the city—White v Welsh, 289 NW 279, 291 Mich 636

**Propriety of ballot**

Ballot which required voter to express himself on question of whether all or none of electric utility, water utility, and gas utility should be purchased by municipality was fatally defective notwithstanding all three utilities were owned by the same public utility—Public Service Co of Indiana v City of Aurora, 19 NE 2d 255, 215 Ind 311

**Number of favorable votes required**

Under statute providing that two thirds vote of city council to acquire municipal waterworks must be confirmed by majority of qualified voters at a regular election, or at a special meeting, confirmation need merely be by majority of voters qualified and actually voting, and not major-

ity of those qualified and entitled to vote—Laconia Water Co v City of Laconia, NH, 112 A 2d 58

**Election held valid**

Or—City of Salem v Oregon-Washington Water Service Co, 23 P 2d 539, 144 Or 93

59. Pa—City of Williamsport v Williamsport Water Co, 150 A 652, 300 Pa. 439

60 Pa—City of Williamsport v Williamsport Water Co, supra

61. Pa—In re Acquisition of Water System in White Oak Borough, 93 A 2d 437, 372 Pa. 424—White Oak Borough Authority v Pennsylvania Public Utility Commission, 103 A 2d 502, 175 Pa Super 114—Versailles Tp Authority v City of McKeesport, Com Pl, 99 Pittsb Leg J 216, affirmed 90 A 2d 581, 171 Pa Super 377

67 C J p 1142 note 99

**No retroactive effect**

Retroactive effect has been denied to some statutes of this type in respect of proceedings to acquire which were actually pending when the public service act took effect—Borough of Reynoldsville v Reynoldsville Water Co, 92 A 1082, 247 Pa. 26—67 C J p 1142 note 1

**Method of acquisition or transfer as immaterial**

The provision of the public utilities law requiring Public Utility Commission's approval before utility can transfer to municipality by any method or device any property is broad enough to include any legal form or method of acquisition of property by municipality, and embraces the acquisition by a municipality of property of a public utility, whether the method of transfer is by agreement of purchase and sale or by proceedings instituted to compel its transfer to the municipality—Burgess and Town Council of Borough of Pottstown v Pennsylvania Public Utility Commission, 19 A 2d 610, 144 Pa Super 220

**Procedure on application for approval of acquisition**

(1) The Public Utility Commission's refusal of water company's mo-

ties. Under some statutes the consent of the public service commission is necessary in order that a municipality may acquire an existing water system,<sup>61</sup> and this is so even where the municipality has an option or statutory option to purchase the existing waterworks<sup>62</sup> However, in other jurisdictions the right of a municipal corporation to purchase a water system from a water company without the consent of the conservation commission has been recognized.<sup>63</sup>

*Time for acquisition* Statutory limitations as to the time within which the authority of a municipal-

tion to dismiss borough's application for approval of its acquisition of such company's plant as not containing description of plant, statements of cost of operation and revenue thereof, precise manner of financing purchase, and borough's borrowing capacity, or copy of borough's resolution authorizing purchase, was not an "order" reviewable by superior court on appeal under Public Utility Law, as commission had full authority over procedural matters raised by motion—Mercer Water Co v Pennsylvania Public Utility Commission, 46 A 2d 597, 159 Pa Super 69

(2) Examination of books of company in course of proceedings before public utility commission see *infra* § 238 c

**Statutory change pending application**

Where borough's application for certificate of public convenience evidencing approval of acquisition by the borough of waterworks was filed while the public service company law was in force, but was not completed before the enactment of the public utilities law of 1937 which provided that all proceedings pending under act repealed should continue and remain in full force and might be completed under the provisions of act of 1937, it was the duty of the Public Utilities Commission to proceed with the pending application just as though the public service company law still remained in force, and to follow the procedure laid down by the supreme and superior courts under such law governing applications by municipality to acquire works and property of water company—Burgess and Town Council of Borough of Pottstown v Pennsylvania Public Utility Commission, 19 A 2d 610, 144 Pa Super 220

62. Pa—White Oak Borough Authority v Pennsylvania Public Utility Commission, 103 A 2d 502, 175 Pa Super 114

63 N Y—Town of Mamaroneck v New York Interurban Water Co, 190 N Y S 580, 193 App Div. 396, motion denied 135 NE 933, 233 N Y 598 and affirmed 135 NE 962, 233 N Y. 666

ity to acquire an existing system is to be exercised are given effect <sup>64</sup>

*Joint acquisition by several municipalities* Under some circumstances two or more municipalities may act to acquire jointly a common water supply, the rights, liabilities, and relationship of the municipalities depending on the circumstances and the provisions of the applicable statutes and ordinances <sup>65</sup>

*City's acquisition of town's water system* In a proper case a city may take over the water system of a town whose territory has been annexed by the city <sup>66</sup>

# § 237. — Option or Offer and Contract to Purchase

- a In general
- b Popular or official approval
- c Property included
- d Payment or retention of price
- e Remedies

## a. In General

When duly authorized a municipality may generally

64. NY—Ziegler v Chapin, 27 NE 471, 126 NY 342  
67 CJ p 1142 note 3

65 Ill—People ex rel Morgan v Village of Berkeley, 98 NE 2d 743, 409 Ill 160  
67 CJ p 1139 note 81 [b]

## Control by commission; municipalities bound

Where villages enacted identical ordinances providing for joint acquisition and operation of a common water supply, and ordinances provided for appointment of commissioners to act as members of water commission with powers and duties as prescribed in Revised Cities and Villages Act, commission rather than villages had power to acquire water supply, and where one village entered into contract with commission for water, the other village could not withdraw from the joint undertaking, but had duty under statute to contract with commission for water supply for its inhabitants—People ex rel Morgan v Village of Berkeley, supra

66 Mich—Royal Oak Tp v City of Ferndale, 15 NW 2d 707, 309 Mich 458

## Possible impairment of township bonds

Where township water system produced substantial income after allowance for bond retirement, township, which had supplied water to former township territory for several years after its annexation by city, was not entitled to enjoin city from taking over operation of water system in such territory on ground that

rights of holders of township water supply system revenue refunding bonds would be impaired—Royal Oak Tp v City of Ferndale, supra

## Payment originally made by property owners

Where that portion of township water system in area which was a part of township prior to annexation by city was paid for with money obtained from property owners, water system when installed did not become property of township, and no absolute ownership passed to city on annexation of the area, and the fact that action of city in taking over water system in annexed territory would impair, to some extent, remaining portion of township's water system did not entitle township to enjoin city from operating water supply system in annexed territory—Royal Oak Tp v City of Ferndale, supra.

## Statutory condition, limitations

Statute providing that it should be lawful after twenty years from intro-

enter into an agreement for the purchase of an existing system, and the franchise or charter of a water company may generally provide for an option on the part of the municipality to purchase the plant under certain conditions

While some controlling statutes have not authorized the municipal corporations to which they apply to acquire by agreement a system owned and operated by a water company, <sup>67</sup> when duly authorized a municipality may generally enter into an agreement for the purchase of an existing system <sup>68</sup> So, also, when duly authorized, a municipality, in granting a franchise to construct and operate a water supply system to a corporation <sup>69</sup> or to a private individual <sup>70</sup> may reserve to itself an option to purchase the plant after a certain time, and such an option may, under due authority, be included in a contract between the municipality and a water company for a supply of water, <sup>71</sup> but the power of the municipality in this regard has been denied where such power is not expressly conferred <sup>72</sup> A statute empowering a town to purchase a water company under the company's charter contract with

duction of water into any place, for the town, borough, city, or district in which public service company shall be located to become owners of such work by paying net cost of erecting, and maintaining the work, makes it a condition of charter of public service company incorporated thereunder that municipality shall, after twenty years, have right to adverse and compulsory acquisition of waterworks operated by public service company, but the statute is operative only where acquisition by municipality is sought from public utility incorporated under, and deriving its powers through, the same act, and has no application where municipality operates public utility beyond its corporate limits, and act did not authorize Borough Authority to acquire, by compulsory process, water facilities owned and operated by city within the borough, and in absence of agreement by city to such acquisition, Public Utility Commission was without jurisdiction to issue certificate of public convenience approving acquisition of such facilities—White Oak Borough Authority v Pennsylvania Public Utility Commission, 103 A 2d 502, 175 Pa Super 114

67 CJ p 1143 note 12.

the state to which the town is not a party is not invalid<sup>73</sup>

Such a reservation is not in the nature of a provision for a forfeiture,<sup>74</sup> but has been regarded as imposing a contractual obligation on the owner of the water system<sup>75</sup> So also, courts have so construed some contract provisions as to impose on the municipality the obligation either to purchase, or to extend or renew, the contract or franchise,<sup>76</sup> but where the franchise ordinance in one clause reserves to the municipality the option to purchase and in another the option to renew the contract, the view has been taken that neither clause imposes on the municipality any obligation or duty unless it exercises the privilege or option given<sup>77</sup> While the above reservation does not necessarily prevent the municipality from subsequently constructing waterworks of its own, as discussed supra § 235, the view has been taken that where, pursuant to statute, a water company has elected to offer to sell its system to a municipality and the municipality has duly accepted such offer, the municipality cannot thereafter proceed to construct its own system under the alternative authority to do so given by the statute<sup>78</sup>

The franchise rights and privileges in the ordinance constitute a consideration for the option to purchase,<sup>79</sup> and the benefits accruing to the municipality and its inhabitants by service rendered, together with the option to purchase, constitute a consideration for the franchise<sup>80</sup> The reservation of an option is to be construed in the sense in which the language of the contract may be supposed to be understood by the parties when the contract was

made<sup>81</sup> Such reservation is not to be more strictly construed against the municipality than against the water company,<sup>82</sup> and in fact doubts as to the intention of the parties have been resolved in favor of the municipality rather than of the water company<sup>83</sup> The agreement of the owner of a water system, contained in an option, that the municipality shall have the right to purchase has been regarded as a continuing and irrevocable offer,<sup>84</sup> and if the municipality once positively elects to take the plant, there is then a complete contract to sell and purchase,<sup>85</sup> provided the prerequisites ordained by the contract containing the option have been observed, such as the giving of notice by the municipality of the intention to purchase,<sup>86</sup> or payment or tender of the price, if that has been fixed<sup>87</sup> The contract created by such an election cannot be rescinded without mutual consent.<sup>88</sup> In order, however, that there may be an enforceable contract to purchase under an option in a franchise ordinance<sup>89</sup> or other contract,<sup>90</sup> it must appear that the municipality has actually elected to exercise the option; and, in general, a municipality does not become obligated to purchase a plant before conditions precedent to the existence of such obligation have occurred<sup>91</sup>

Where the charter of a water company which gives a municipality the right to purchase the waterworks system of such company is accepted by the company, there exists in substance a continuing offer on the part of the company to sell,<sup>92</sup> and any contract by the company inconsistent with the right of the municipality to purchase is contrary to such charter and void as against the municipality,<sup>93</sup> and on due acceptance by the municipality there

93 Mass—Braintree Water-Supply Co v Braintree, supra

is a complete and binding contract of sale and purchase<sup>94</sup> However, where a water company's charter provision providing for the city's purchase of the company contemplated that the corporation would continue in existence, the option would die when the corporation went out of existence and the city would have no right, under such charter provision, to purchase the water system of a successor corporation<sup>95</sup> Under certain circumstances a municipality may contract under one of several statutes in purchasing an existing system<sup>96</sup>

*Construction of option in light of statute* While there is apparently authority for the view that a corporate assignee of a franchise containing an option to purchase, given by ordinance, may be bound by the terms of such ordinance notwithstanding a statutory provision gives water companies the right to enter municipalities and install a plant,<sup>97</sup> and an option in a franchise purporting to give the right to purchase on the expiration of a specified period has been construed as intending to give the municipality an absolute right to purchase after such period, notwithstanding a statute conferred on municipalities the right to acquire a water system after the lapse of a period greater than that mentioned in such option,<sup>98</sup> where the reservation of the right to purchase merely recognized powers conferred on the municipality by statute, the rights of the municipality under such reservation are no greater than those so conferred by statute<sup>99</sup>

*Abrogation or cancellation of option.* An option to purchase which provides that the purchase price should be payable in part by the municipality's assuming the payment of part of the vendor owner's mortgage bonds and in part by the exchange of municipal bonds for part of such mortgage bonds is not necessarily abrogated or canceled by the subsequent cancellation or retirement of such mortgage bonds<sup>1</sup>

*Inspection of books and vouchers.* Where the

purpose of a provision in a contract between the owner of a water system and a municipality giving the municipality the right to inspect the books and vouchers of such owner at any and all times is to give the municipality an opportunity to learn the true conditions before exercising its option to purchase, the municipality is entitled to such inspection even in the absence of the exercise of such option<sup>2</sup>

*Validation or ratification of ultra vires contract.* An ultra vires contract or option of a municipality to purchase a water system may be validated by a subsequent statute giving the necessary power<sup>3</sup> The validation or ratification by statute may be conditional<sup>4</sup> When the municipality attempts to avail itself of the granted power it must proceed in accordance with the requirements of the validating statute<sup>5</sup> Under certain circumstances a municipality may ratify and adopt a contract to purchase, the binding effect of which is doubtful because of alleged irregularities in proceedings for the purchase<sup>6</sup>

*Obligations imposed on contractor and vendor* Questions as to what obligations are imposed on the contractor and vendor by his contract with a municipal corporation to construct a water system, and to sell and convey to the municipal corporation if it elects to purchase are determinable by the terms and construction of the provisions of the contract<sup>7</sup>

#### b. Popular or Official Approval

Provisions requiring the approval of the electors or the municipal officers as a prerequisite to the acquisition of an existing waterworks must be complied with

A provision of a municipal charter making a vote of the electors a prerequisite to the acquisition by the municipal corporation of any public utility has been given effect where the municipal corporation has reserved in a franchise ordinance the option to purchase,<sup>8</sup> and an option to purchase may be ultra vires for failure to include an express provision for submission of the question of purchase to the voters

8. U S—City and County of Denver v New York Trust Co, Colo, 33 S Ct 657, 229 U.S. 123, 57 L Ed. 1101.

of the municipality in accordance with the requirement of the municipal charter.<sup>9</sup> So, also, there must be due compliance with the provision of a contract giving a town the privilege to purchase if the town should, at a meeting duly called for that purpose, vote to purchase.<sup>10</sup> Where, after a failure of a water company and a municipality to agree on the terms of a proposed contract to purchase, the company offers to sell at a specified price and a municipal resolution is enacted accepting the offer, contingent on favorable action by the voters of the municipality, the view has been taken that a contract results when there is a favorable vote by the voters, at least against a taxpayer of the municipality.<sup>11</sup>

Under some statutes certain officers of the municipality may determine the provisions of a proposed contract for the purchase of an existing system, without the consent of the voters of the municipality,<sup>12</sup> and, while such officers may, in the absence of a provision to the contrary, obtain an expression of the views of the voters before proceeding to determine the provisions of the proposed contract,<sup>13</sup> the officers do not thereby limit their statutory authority.<sup>14</sup> Where, however, such a statute contemplates and requires that a majority or the prescribed proportion of the voters shall act either by ratifying or rejecting a proposed contract, a binding contract arises when,<sup>15</sup> and only when,<sup>16</sup> it is ratified by a majority of the voters, which contract may not thereafter be rescinded without the consent of both parties thereto.<sup>17</sup> The warrant for the election must show that a proposed contract of purchase is being submitted,<sup>18</sup> and an affirmative vote only on the general proposition whether a purchase shall be made does not create a binding contract.<sup>19</sup>

*Time for acceptance by electors.* Where pro-

vision is made by statute for an offer by a water company to sell to a municipality and for acceptance by the municipality by vote of the electors of the municipality, the necessity for the acceptance of the offer within a reasonable time has been recognized,<sup>20</sup> notwithstanding the absence from the statute of any provision as to the time for acceptance;<sup>21</sup> but, in the absence of a provision to the contrary, the mere fact that the offer has once been rejected by the voters does not prevent a subsequent acceptance by them which occurs within a reasonable time after the offer is made.<sup>22</sup>

*Effect of assent.* Where there is a continuing offer to sell and, under the applicable statute, the authority of a municipality to purchase is conditioned on the assent of a certain majority of voters at a town meeting, on due assent by the voters the water company acquires rights which may not be taken away by an attempted rescission of the vote.<sup>23</sup>

*Approval or consent of municipal officers.* Where a statute requires the consent of certain officers of a municipality to the purchase by it of an existing system, affirmative action by such officers is necessary to constitute consent;<sup>24</sup> and, in the absence of such action, a purported acceptance by popular vote of an offer of a water company to sell to the municipality does not create an enforceable contract.<sup>25</sup>

*Personal interest of officer conducting election.* The mere fact that an officer of the vendor company acted as moderator at a town meeting which by vote authorized him to appoint committees to consider and report on a proposed purchase does not render a contract of purchase void in the absence of a showing that such officer acted corruptly.<sup>26</sup>

*Number of favorable votes.* The view has been taken that, except as there may be a requirement to the contrary,<sup>27</sup> where the approval of a majority

of voters looking to the acquisition of an existing system under a contract or option is required a majority of the votes cast is sufficient <sup>28</sup>

### c. Property Included

What property is included in a contract for the purchase of a water system depends on the terms of the contract and the power of the municipality

The determination of the question as to what property is included in a contract for the purchase of a water system depends on the terms of the contract and the power of the municipality <sup>29</sup> The fact that a water company, with the consent of the municipality which granted its franchise, extended a branch pipe line beyond the city limits does not prevent the operative effect of a contract by the municipality to buy the entire system, <sup>30</sup> and where, in such case, the municipality elects to exercise its option to purchase, such election includes a portion of the system outside the municipal limits <sup>31</sup>

In general, the municipality is obliged to pay for whatever property it assumes to take under the contract, <sup>32</sup> and the view has been taken that, even though certain pipes were not laid and approved in strict accordance with the contract, the municipality was obliged to take such pipes if they were still in use, with the rest of the system which it desired to take, where the voters of the municipality had elected to take the entire system <sup>33</sup> However, in such case the municipality is not obliged to pay for pipe which was not approved as required by the contract and which was not in use at the time of the purchase <sup>34</sup> The fact that a municipality has reserved the option to purchase a water system does not necessarily require the owner to keep its original equipment for the entire option period <sup>35</sup>

*Service pipes* As between the municipality and the vendor owners, the service lines between the mains and the property line of its consumers belong to such owners, whether put in by such owners or by consumers, where the franchise does not specify

who shall pay the expense of putting in such service lines <sup>36</sup>

### d. Payment or Retention of Price

In general, contract provisions as to the municipality's payment of the purchase price are controlling

In general, contract provisions as to the payment of the purchase price by a municipality for the purchase of an existing waterworks are controlling and must be complied with <sup>37</sup> Thus, where the purchaser's right to possession is dependent on payment or tender of the purchase price, payment or due tender must be made in order to give such right, as discussed infra § 239 Where a contract between a municipality and a waterworks company required that, if the municipality desired to purchase the works, the purchase price as determined by arbitrators should, to the extent of outstanding bonds, be paid to the trustees for the bonds, and the municipality made manual tender to the trustee under a mortgage securing the bonds of the amount determined, and after rejection thereof deposited the same as a separate fund in a public treasury and later deposited it in court, the tender was sufficient <sup>38</sup> The view has been taken that an amount for an item for laying certain extensions after the arbitration to determine value was commenced, and payable under a separate contract, need not be included in the amount of the tender <sup>39</sup> Assumption, by the municipality, of the payment of obligations of the vendor which are a lien on the water system may constitute payment pro tanto <sup>40</sup> Parties to a contract for the purchase of waterworks by a municipal corporation are charged with knowledge of conditions on which municipal bonds for the balance of the purchase price could be issued and are presumed to have contracted in the light of such conditions <sup>41</sup>

*Retention of part of purchase price as security for performance* Where the contract permits the retention by the purchaser of a specified amount out

of the purchase price until the delivery of a valid release of the rights of a third person to divert the waters of a stream included in the system, the vendor becomes entitled to such amount when,<sup>42</sup> and only when,<sup>43</sup> such provision as to the release has been complied with. In order to avoid the retention by the purchaser of a part of the purchase price because of a failure by the vendor strictly to perform a provision of the contract, the vendor has been permitted to give a bond for reimbursement of the purchaser if the latter is subsequently obliged to make expenditures because of such lack of strict performance.<sup>44</sup>

*Provision for free use of water* Under a contract so providing, the seller of the water system may be entitled to the free use of water for the purposes mentioned in the contract.<sup>45</sup>

#### e. Remedies

Remedies available to parties to an option or offer or contract to purchase a waterworks depend on the particular circumstances.

The remedies available to the parties to an option or offer or contract to purchase a waterworks by a municipality depend on the circumstances of the particular case and the applicable provisions.<sup>46</sup> In the case of a valid and enforceable contract for the purchase of a water system, a suit for specific performance may usually be maintained<sup>47</sup> by the municipality as purchaser,<sup>48</sup> and, in a proper case, the municipality may compel the appointment of arbitrators by the vendor water company in accordance with the reservation of an option to purchase.<sup>49</sup> A municipality may by its offer, made in a bill to enforce performance of the offer to pur-

chase, to take such part of the complete system provided for by the contract as can be made useful by it for its water supply, waive its right to the complete system so provided for<sup>50</sup> and thus lose the right to maintain an action for damages for non-performance in respect of the part as to which there is a waiver,<sup>51</sup> and it may be compelled to take and pay for that portion which may be made useful to the municipality.<sup>52</sup> In a suit by a water company against a municipality in which plaintiff seeks to have the court fix the price and require the municipality to pay and take over the system, plaintiff's pleading must show a default by defendant.<sup>53</sup> In a suit by a water company to enjoin a municipality from prosecuting proceedings for the appointment of arbitrators to make a valuation or from taking any steps to acquire plaintiff's waterworks, the propriety of requiring from defendant municipality and undertaking to indemnify plaintiff for expenses which might be incurred in the arbitration as a condition precedent to rendering inoperative a preliminary injunction has been recognized.<sup>54</sup>

*Avoidance, cancellation, or rescission of contract or conveyance* A town which seeks by its bill in equity to rescind a purchase of the waterworks and plant of a corporation for alleged fraud of the corporation is not entitled to a decree eliminating one or the material elements of the agreement and the substitution of something else therefor,<sup>55</sup> and in such case the town cannot retain the property acquired by it under the agreement and have the stipulation as to the price set aside and the amount determined in another way.<sup>56</sup> Where no valid and binding contract of purchase had been made because of noncompliance with statutory requisites, a deed

delivered to, and recorded by, municipal officers in purported compliance with an agreement for sale and purchase has been canceled at the suit of the municipality <sup>57</sup>

*Enforcing right to inspect books and vouchers*  
The right of a municipality to enforce in equity its right to inspect the books of the owner of a water system, given by contract for the purpose of permitting the municipality to learn the true conditions before exercising its option to purchase, has been recognized <sup>58</sup>

*Time to sue* It has been held that a suit by the vendor owner to fix the purchase price of a water system brought prior to the date of purchase fixed by the municipality's election to purchase under an option in the franchise ordinance is premature <sup>59</sup>

## § 238. — Valuation of Property and Fixing Price

- a In general
- b Basis of valuation; elements included
- c Proceedings and determination

### a. In General

The method of evaluating the property of a water company for sale to a municipality depends on the contract provisions, the company's charter, and applicable statutes or ordinances

The method of evaluating the property of a water company for sale to a municipality depends on the provisions of the contract, the company's charter, and applicable ordinances or statutes <sup>60</sup> Where a municipality has the power to acquire a water system either by purchase or by the exercise

of the power of eminent domain, in the event of purchase the price may be fixed by agreement without resort to the method of ascertaining the value in the event of acquisition under the power of eminent domain <sup>61</sup> Provisions of a binding and enforceable contract for the purchase by a municipality of an existing water system usually will govern where such provisions fix the price to be paid, <sup>62</sup> or provide for the method of valuation of the property for the purpose of determining the price, <sup>63</sup> as, for example, where the contract provided for a determination by appraisers or arbitrators chosen by the parties, <sup>64</sup> after the failure of the parties to agree on the price, <sup>65</sup> provided it is sought to acquire the property under the contract <sup>66</sup>

According to some cases, such a provision for valuation by appraisers or arbitrators is an essential or material part of the contract, <sup>67</sup> but there is authority for the view that, under certain circumstances, the manner of determining the price may be a matter of form rather than of substance, <sup>68</sup> and that the fixing of the value of the property by arbitrators or appraisers appointed by the parties, as provided for by the contract, is not necessarily of the essence of the contract after the municipality has duly elected to exercise its option to purchase, <sup>69</sup> at least where the arbitration provided for is applicable only to a minor or incidental portion of the water system <sup>70</sup> Under the latter view, the appointment of the arbitrators is not a vital or fundamental act, but is an act of administrative detail, incident to the contract itself. <sup>71</sup>

Under some statutes to that effect, provision is sometimes made for the appointment of appraisers

### Construction of agreement

Under written contract by which corporation agreed to install and transfer to town a system to connect with town's water supply houses built by corporation under federal restrictions preventing their sale, and town agreed to pay corporation entire cost of such installation or so much thereof as might be paid by refunding to corporation part of amount paid by corporation for water furnished the houses, corporation was entitled to refund on all charges paid for water furnished the houses, although corporation had subsequently sold some of them and purchasers thereafter paid water charges—Mitola Bros v Town of North Kingstown, 65 A 2d 41, 75 RI 218—Massasoit Housing Corp v Town of North Kingstown, 65 A 2d 38, 75 RI 211

67 C J p 1150 note 8.

by the court to determine the valuation at which a municipality may purchase or for the appointment of commissioners by the court to determine the price if the owner and the municipality are unable to agree.<sup>72</sup> Under a provision in an option that, in the event of the parties' inability to agree, the price is to be fixed by due process of law, before resorting to the courts a party must in good faith have used reasonable efforts to effect an agreement on a fair price.<sup>73</sup> It has been held that a charter provision determining the manner of evaluating the property of the water company for sale to a municipality cannot validly be amended so as to reduce such valuation.<sup>74</sup>

*Determination of price preliminary to or following decision to acquire or purchase.* While, under the terms of some options, the election to purchase is to be made before the ascertainment of the value of the property,<sup>75</sup> under other options the valuation may precede the decision of the municipality as to whether it will purchase,<sup>76</sup> and in such a case, it has been held that, under some statutes, it is not necessary for a municipality to obtain the consent of the state public service commission before proceeding to obtain an arbitration as to valuation, under the option to purchase, in order to decide whether or not to exercise the option.<sup>77</sup> So under certain statutes conferring the right to acquire a water system owned by a water company, the municipality may initiate the proceeding to ascertain the price before finally making the election to acquire.<sup>78</sup>

*Approval of appraisal by municipal officers.* Where a statutory ratification or validation of an ultra vires provision of a contract reserving an option to purchase is conditioned on the approval of the appraisal by the mayor and city council, such approval may be inferred from an ordinance passed pursuant to the statute submitting the question of purchase to the voters of the municipality in ac-

cordance with the statute, even though no express approval is shown.<sup>79</sup> Such validating or ratifying statute has been so construed as not to require a submission to the voters prior to approval of the appraisal.<sup>80</sup>

*Deductions or allowances.* Where a municipality has contracted for the construction of a water supply system by another under certain plans and specifications, and has reserved the right to purchase such system, the determination as to the amount of deductions from, or abatement of, the purchase price because of alleged noncompliance with the contract depends on the terms and construction of the contract,<sup>81</sup> but the view has been taken that no deduction should be made because of a failure to comply with a certain provision of the contract where the object of such provision has been attained notwithstanding such noncompliance.<sup>82</sup>

*Statutory methods of valuation in lieu of contract method.* The power of the legislature, under its reserved power to alter or repeal laws or acts affecting corporations, to provide by statute for a method of valuation different from that provided for in a franchise ordinance granted by the municipality concerned to the water company has been recognized, at least where no obligation of the municipality to purchase under the franchise ordinance has arisen.<sup>83</sup>

#### b. Basis of Valuation; Elements Included

The method used in determining the value of a water company, and whether consideration should be given to its value as a going concern or as the holder of an unexpired franchise, depend on the applicable statutes and ordinances.

There is authority for the view that a court, in determining the actual value of a water system under an option to purchase duly exercised, is not governed by the same principles as govern in valuing such property for purposes of rate making or taxation.<sup>84</sup> While the mere cost of reproduction

has been rejected as too low in determining the fair and equitable value,<sup>85</sup> a valuation of the property at the cost of reproduction, less depreciation, has been approved,<sup>86</sup> apart from the consideration of the value of the franchise and other intangible property and the value of the system as a going concern, as discussed below. Where provisions of the contract of purchase fix the rate of depreciation which is to be allowed, such provisions will govern.<sup>87</sup> The view has been taken that the value of water rights or privileges owned by the vendor are to be included where the statute governing the purchase expressly or impliedly provides for the payment of the fair value of the property purchased.<sup>88</sup> It has been held that an amount for an item for laying certain extensions after the arbitration was commenced, and payable under a separate contract, need not be included in the amount of the award.<sup>89</sup>

*Value of system as going concern; unexpired franchise.* Where the contract, option, or applicable statute contains a provision for the payment by the municipality of the fair and equitable value or a like provision, the view has been taken that there should be considered as an element of value the fact that the plant is an established and going concern,<sup>90</sup> and the commercial value of a waterworks plant as a going concern may properly be included in the valuation of the plant by the board of appraisers, where the municipality has elected to exercise its option to purchase, although the ordinance exercising such option provides that nothing shall be paid for the unexpired franchise of the waterworks company.<sup>91</sup> So, according to some cases, the fact that the owner has an unexpired franchise should be considered,<sup>92</sup> at least where the contract especially provides for a consideration of the franchise granted.<sup>93</sup> If, however, the franchise has

expired,<sup>94</sup> or a valid statute regulating the purchase expressly excludes from the price to be paid the value of the franchise,<sup>95</sup> nothing may be allowed for the franchise, and the price cannot be fixed by capitalizing earnings.<sup>96</sup> So the earnings of a company which is in the enjoyment of what is practically an exclusive franchise are not a fair measure of the fair value of the property, apart from an exclusive franchise.<sup>97</sup> Under the provision of the applicable and governing statute directing the determination of the fair value of the property for the purpose of its use by the municipality, the water company's right to lay pipes in the street<sup>98</sup> or its right to collect water rents<sup>99</sup> is not to be considered, where the municipality had that right by virtue of legislative authority.

*Cost basis.* Some options contained in franchise ordinances provide for the so-called "cost plus" basis of computing the price or value.<sup>1</sup> So, also, applicable statutes have provided for the payment of the cost of the franchise, works, and property of the company involved and for certain additions or deductions therefrom,<sup>2</sup> such as the addition of interest at a specified rate unless the rate is reduced by agreement.<sup>3</sup> Where, under the contract, the purchase price is to be based on the cost of construction and the vendor company fails to comply with a provision of the contract that it shall keep an accurate account of expenditures for construction, the cost must be based on estimates.<sup>4</sup>

Under statutes permitting a borough in which a water company is located to become the owners of the company by paying the net cost of erecting and maintaining the company's works, the "net cost of erecting and maintaining" the works is the original cost of erecting plant facilities, additions thereto, or replacements therefor, plus the cost of repairs to

the extent that such cost of repairs has not been recouped from consumers<sup>5</sup> Under a statutory provision to that effect, in determining the value of the waterworks system, there must be added to the net cost of erecting and maintaining the property interest at a prescribed rate, deducting from the interest all dividends theretofore declared<sup>6</sup>

*Time as of which rights of parties determined*  
Under some statutes controlling a purchase by a municipality a valuation of the property as of the date of its transfer to the municipality,<sup>7</sup> with interest until the date of payment,<sup>8</sup> has been approved. However, it has also been held that the valuation of the property and franchise will be fixed as of the time of the requisite popular vote which authorized their purchase, rather than the time of the conveyance<sup>9</sup>

*Proceedings in nature of condemnation proceedings*  
In a proceeding in Wisconsin, where provision for the acquisition of a system owned by a water company is made by the public utility law, and the proceedings ordinarily, at least, are in the nature

of condemnation proceedings, as discussed supra § 236, the "just compensation" which is provided for means the fair and reasonable value at the time possession is taken,<sup>10</sup> and, where payment is deferred, payment of legal interest must be provided for from the time possession is taken until the payment is made.<sup>11</sup> In greater detail it has been laid down that, in the valuation of a utility for condemnation or sale, the main elements usually considered in making a valuation are the present value of the physical properties,<sup>12</sup> the present and prospective earnings of the business,<sup>13</sup> the "going value" thereof,<sup>14</sup> and the amount presently needed to put the plant in good condition.<sup>15</sup> The enumerated elements may not, however, in their aggregate represent the just value of the utility to which the water company is entitled under the statute,<sup>16</sup> and in some cases it may be necessary entirely to eliminate some of such elements.<sup>17</sup>

### c. Proceedings and Determination

In general proceedings to determine the value of

5 Pa.—Newport Home Water Co v Pennsylvania Public Utility Commission, 102 A 2d 221, 174 Pa Super 522

#### Double collection not permissible

Water company may not recover cost of ordinary repairs from its customers by way of charges for water service, and then collect such costs together with interest again when municipality in which customers reside seeks to acquire assets of company—Newport Home Water Co v Pennsylvania Public Utility Commission, supra

#### Repair costs properly excluded

In proceeding contesting order of Public Utility Commission granting borough a certificate of public convenience to acquire water company, and setting purchase price to be paid by borough, commission's refusal to include in purchase price the costs of making repairs to plant facilities, which costs had been recouped, was not error—Newport Home Water Co v Pennsylvania Public Utility Commission, supra.

6. Pa.—Newport Home Water Co v Pennsylvania Public Utility Commission, supra

#### "Dividends" defined

The term "dividends theretofore declared" means any return to investors for the use of their capital, without distinction between hire of money from shareholders and from bondholders—Newport Home Water Co v Pennsylvania Public Utility Commission, supra.

#### Particular items deductible as "dividends"

(1) In proceeding contesting order of Public Utility Commission granting borough a certificate of public convenience authorizing borough to purchase water company and setting price to be paid therefor, commission did not err in deducting as "dividends theretofore declared" interest on borrowed capital, redemption premiums on outstanding bonds, and undivided profits of company—Newport Home Water Co v Pennsylvania Public Utility Commission, supra

(2) Also amount of debt owing to water company by former president which was canceled at direction of former president's son, who was president and controlling stockholder, on ground that former president's estate was utterly insolvent, was properly treated as "dividend theretofore declared" for purpose of computing price to be paid by borough—Newport Home Water Co v Pennsylvania Public Utility Commission, supra

#### Items not deductible as "dividends"

Inclusion of difference between total salaries actually paid to water company officers and total found by commission to be reasonable as "dividend theretofore declared" within statute setting price for waterworks plant as net cost of erection and maintenance with interest less dividends theretofore declared was error, in absence of any evidence that waterworks ran itself, or any inference that actual salaries paid were gratuities—Newport Home Water Co v Pennsylvania Public Utility Commission, supra

the water company for sale to a municipality are in the nature of an appraisal.

According to some cases, where the option for purchase by a municipality duly exercised provides for purchase at an appraised valuation, to be ascertained by persons to be selected as provided, the valuation by such persons as appraisers is an appraisal and not a technical arbitration.<sup>18</sup> The appraisers do not act judicially,<sup>19</sup> and, as long as they act honestly and in good faith, have a wide discretion as to their methods of procedure and their sources of information.<sup>20</sup> The appraisal of a waterworks plant where a municipality elects, under legislative authority, to exercise its option to purchase at a value to be determined by three engineers, one each to be selected by the city and the waterworks company, and the third by the two so selected, is a matter of public concern,<sup>21</sup> and a decision of a majority of the appraisers is sufficient.<sup>22</sup> An appraisal of a large system of waterworks under a contract of purchase will not be invalidated because the title to a small part of the property not vital to the integrity of the system is afterward found to be defective,<sup>23</sup> or because it may include parcels of property not necessary to the system,<sup>24</sup> since a court which has equitable jurisdiction may adjust such matters.<sup>25</sup>

While it is the rule, under a statute to that effect, that the evaluation proceedings must conform to judicial methods,<sup>26</sup> rules governing proceedings in the case of submissions to arbitrators generally, as discussed in Arbitration and Award §§ 55-70, have more commonly been recognized or applied in the

case of a submission of the question of the value of a water system on a sale to a municipality.<sup>27</sup> Methods adopted by engineers in ascertaining the value of a waterworks plant are matters of evidence, when presented to a court, and not rules of law, in a proceeding in which the actual valuation is for the court,<sup>28</sup> and the court is not, of course, bound to accept a valuation made by engineers where the final determination is for the court.<sup>29</sup> However, where the determination of an administrative body as to the items to be included in evaluating the water system is supported by the evidence it cannot be disturbed on appeal.<sup>30</sup> The provisions of some contracts to purchase contemplate an accounting to ascertain the amount of municipal bonds necessary to pay a balance of the purchase price.<sup>31</sup> In proceedings under some statutes for the appointment of appraisers, the municipality need not allege in its petition ability to purchase without exceeding its debt limit.<sup>32</sup>

*Proceedings under Wisconsin public utility act.* In Wisconsin, under a provision to that effect in the public utility law, the state public utility or service commission determines the value of a water company which a municipality proposes to acquire,<sup>33</sup> but an action may be brought in the circuit court to amend or alter the order of the railroad commission fixing compensation.<sup>34</sup> The order will not be set aside in such an action in the absence of grave error in arriving at, and seriously affecting, the final result,<sup>35</sup> and the valuation will stand if plaintiff does not establish to the full satisfaction

18. US—Omaha Water Co v City of Omaha, Neb., 162 F. 225, 89 C.C.A. 205, 15 Ann. Cas. 498, affirmed 30 S.Ct. 615, 218 U.S. 180, 54 L.Ed. 991, 48 L.R.A., N.S., 1084.

of the court that the compensation fixed is unlawful<sup>36</sup> A finding by the circuit court in such an action that the compensation fixed by the commission is lawful and equivalent to a finding that the compensation fixed by the commission is just and adequate and such finding is therefore sufficient<sup>37</sup>

*Information as to company's condition, inspection of books* A municipality which contemplates the exercise of its right to purchase the system of a water company, conferred by some statutes, may be entitled to an inspection of the books of such company in order to determine the cost of construction, maintenance, and other pertinent facts for the purpose of deciding whether or not it shall exercise the right given by the statute to acquire such water system, on payment of the cost of erecting and maintaining the system with interest as specified and less dividends declared<sup>38</sup> However, such inspection should be refused where, in advance of inspection, it clearly appears that the cost of the works and property of the company is such that the financial condition of the municipality would preclude the purchase or acquisition of such works and property,<sup>39</sup> and the view has been taken that, in the absence of statutory provision therefor, the company may not be compelled to furnish, at its own expense, a detailed statement containing such information<sup>40</sup>

The information formerly obtained by mandamus to inspect the books of the company, as the result of subsequent legislation requiring the approval of the public service commission as a condition precedent to the acquisition of an existing system by a municipality, is now obtainable in the course of the proceeding before the commission<sup>41</sup>

*Fees, compensation, and costs.* Questions as to the division of costs and as to the amount of compensation awarded to appraisers in an action to determine the value of a waterworks system to be purchased by a city under a franchise agreement with its owners have been adjudicated<sup>42</sup> Some statutes governing the purchase by a municipality of a water system make provision as to the fees of commissioners or appraisers<sup>43</sup>

### § 239. — Transfer of Property, Title, and Possession; Rights Acquired and Obligations Assumed

When or whether title to a water system passes to a municipality, and the right, title or interest, and the duties or obligations, passing thereby, depend on the circumstances of the particular transaction and the provisions of the applicable statutes or ordinances

When or whether title to a water system passes to a municipality depends on the circumstances of the particular transaction<sup>44</sup> In some jurisdictions

41. Pa—Waynesboro Water Co v Public Service Commission, 78 Pa Super 143

67 C J p 1155 note 76

#### Procedure to be followed

Under statutes, the proper and only procedure for borough to acquire plant and works of water company is to apply first for certificate of public convenience, and borough then may obtain necessary information concerning price to be offered for water company's property under public utility commission's order for examination of books of company—Womelsdorf Consol. Water Co. v. Pennsylvania

Public Utility Commission, 50 A.2d 548, 160 Pa Super 298

#### Matters considered on hearing of petition to examine

On borough's petition to public utility commission to examine books of water company to prepare for submission to commission of borough's case for acquisition of some of water company's properties, water company could not contend that borough had no legal right to acquire only a part of water company's property, since such matter could be presented to commission at hearing which must be held before entry of final order on borough's petition to purchase—Womelsdorf Consol. Water Co v. Pennsylvania Public Utility Commission, supra.

#### Company's remedy for order granting access

(1) Where boroughs seeking to acquire waterworks and properties owned by land company filed petitions before Public Utilities Commission for access to books, records, and property, and land company's motion to dismiss challenged jurisdiction of the commission over parties and subject matter, and commission took jurisdiction and granted petitions for access, land company's exclusive remedy at that stage was to attack jurisdiction by statutory suit for injunction, and company could not chal-

lenge jurisdiction by appeal from order granting access—Sayre Land Co v Pennsylvania Public Utility Commission, 74 A 2d 713, 167 Pa Super 1

(2) Order of Public Utilities Commission overruling land company's motion to dismiss, and granting boroughs' petitions for access to books, records, and property were not final, and hence not appealable—Sayre Land Co v Pennsylvania Public Utility Commission, supra—Womelsdorf Consol. Water Co v Pennsylvania Public Utility Commission, 50 A 2d 548, 160 Pa Super 298

43. Mass—Gloucester Water Supply Co v Gloucester, 60 NE 977, 179 Mass 365.

67 C J p 1155 note 78

44. Mass—White v. Treasurer of Wayland, 173 NE 701, 273 Mass 468

#### Bequest for construction of water system

Where water system contemplated by bequest to town was constructed and turned over to town and managed by officers of town, title vested in town—White v. Treasurer of Wayland, supra.

the view is taken that in equity it is usually proper to treat a contract for the sale of a waterworks system as if specifically executed on the day agreed on for completion,<sup>45</sup> so that the purchaser municipality at that time becomes the equitable owner of the property to be transferred<sup>46</sup> and the vendor then becomes the equitable owner of the purchase money,<sup>47</sup> and each is a trustee for the other from that date.<sup>48</sup> These rules will govern on an accounting in respect of the period intermediate the date fixed for transfer and the date of actual transfer where the delay was not caused by the vendor.<sup>49</sup> Where, under some statutes, the purchase is complete on due acceptance or approval by the voters of the municipality, title thereupon passes.<sup>50</sup> So also, it seems that title to the waterworks and plant may pass to the municipality on the exercise of its option to purchase<sup>51</sup> in advance of actual payment of the price or execution of a conveyance,<sup>52</sup> and, in some instances, the conveyance of the property relates back to the date on which the municipality duly exercised its option to purchase under the terms of the ordinance granting the franchise to construct and operate the system.<sup>53</sup>

On the other hand, according to some cases, title does not pass until the price is paid and the property regularly transferred,<sup>54</sup> and, where the contract confers on the purchaser the right to posses-

sion of the property only on payment or tender of the purchase price, due tender must be made in order that the purchaser may have the right to possession.<sup>55</sup> So, under certain circumstances, the property does not pass to the municipality on a favorable popular vote of approval, but only on a subsequent consummation of the transaction.<sup>56</sup> Furthermore, it has been held that under a franchise authorizing a municipal corporation to buy, it was not entitled to possession or to the profits until actually ready to pay therefor.<sup>57</sup> Where the vendor water company remains in possession of the property after the exercise of the option to purchase, pending an accounting to determine the amount of bonds which must be issued for purposes of payments, the company is not to be dealt with as a trustee *ex maleficio*,<sup>58</sup> but if the company resists a decree for specific performance to which the municipality is entitled and sets up a plea of non est factum, the municipality is entitled to an accounting for profits from the date of the filing of such plea, less interest on the purchase price.<sup>59</sup> Where both the offer of the owner to sell and the resolution of the municipal council to purchase are expressly subject to the statutory requirement that the purchase shall be approved by a majority of the electors of the municipality, the view has been taken that neither legal nor equitable title to the property passes to the municipality until the conveyance is made

56. Mass.—Inhabitants of Revere v Revere Water Co, 105 NE 628, 218 Mass 161

67 C.J. p 1156 note 91

#### Care of property pending transfer

Water company, after town had voted to purchase company's franchise and corporate property as authorized by company's charter, would be held liable to obligation of "good husbandry" while it retained possession of the property, and that obligation would be defined with reference to special nature of the property involved and with reference to undoubted intention of Legislature that company's franchise and property should be turned over to town as a going concern in full operation, and parties, if they desired, could regulate such matters by proper voluntary contract between themselves—Cohasset Water Co v Town of Cohasset, 72 NE 2d 3, 321 Mass 137

#### Rights as to receipts and expenditures

(1) After town voted to purchase franchise and corporate property of water company pursuant to company's charter, the company was in po-

sition of a vendor under contract to convey to town at a future date and it would remain in possession until conveyance was made, in absence of agreement to contrary, and in interval, it would operate the waterworks for its own account and not as agent of trustee of the town—Cohasset Water Co v Town of Cohasset, *supra*

(2) Where waterworks and plant of a corporation, purchased by a town pursuant to contract and vote of the town, did not pass to the town until the consummation of the transaction, the town, on a suit to rescind the sale for the fraud, may not recover the amount received as income or the amount spent for new construction intermediate the vote and the consummation of the transaction—Inhabitants of Revere v Revere Water Co, 105 NE 628, 218 Mass 161

57. Wash.—City of Bremerton v Bremerton Water & Power Co, 153 P 372, 88 Wash 362

58. Ala.—Alabama Water Co v City of Anniston, 135 So 585, 223 Ala 355  
67 C.J. p 1156 note 92

59. Ala.—Alabama Water Co v City of Anniston, *supra*

and possession delivered after such approval,<sup>60</sup> and that, in such case, interest on the bonded indebtedness which, under the agreement and conveyance, the municipality assumes, accruing intermediate the offer by the vendor and the delivery of the deed, and of possession, is payable by the vendor and not by the municipality where the agreement and deed are silent as to the interest so accruing<sup>61</sup>

**Right, title, or interest passing** The municipality acquiring a waterworks can take only such right, title, or interest in the system as the prior owner was capable of conveying,<sup>62</sup> and takes such grant subject to the right, title, and interest possessed by another municipality which was exercising exclusive jurisdiction over the system and had installed some facilities<sup>63</sup> As to what property passes to a municipality where an ordinance providing for the purchase of a water system is submitted to the voters and adopted, as required by statute, and the water company subsequently accepts the purchase price, the ordinance will govern<sup>64</sup> and not a schedule prepared by the company and accepted by municipal officials after the election<sup>65</sup> A warranty of title contained in a conveyance of a water system to a municipal corporation may not be extended to include property not within the contemplation of the parties<sup>66</sup> notwithstanding the language used, taken

in its ordinary sense, might include such property<sup>67</sup> A deed of an entire water system given by a water company to a municipal corporation carries with it title to certain mains, title to which had vested in the water company under a contract between it and a third person who had advanced the money to the company for the laying of such mains, in the absence of any provision of the deed excluding such mains<sup>68</sup>

In general, whether a municipality acquiring the property of a water company is liable for the previously incurred obligations or liabilities of the company depends on the terms of the contract<sup>69</sup> Where, under a deed of a water system to a municipality, the municipality assumes the grantor water company's obligation to refund, on the happening of a certain contingency, to a third person the amount advanced by such third person for the laying of mains through certain property, the right of such third person to enforce the obligation against the municipality has been recognized<sup>70</sup>

**Duty to supply other municipality or nonresidents** Whether or not a deed or conveyance obligates a municipality to supply water to other municipalities may depend on the provisions of the deed or conveyance and the construction given thereto<sup>71</sup> How-

**Proceeding to recover preexisting obligation**

Where stockholders of water company transferred stock to intermediaries and resigned as directors and intermediaries immediately appointed new directors for sole purpose of executing deeds and bills of sale by which assets of the water company were transferred to city, in state auditor's action against city to recover costs assessed against water company in rate proceeding before Public Service Commission, lack of authority on part of attorney and agents representing city in purchase of assets of water company to make agreement for city to assume water company's obligations was matter of defense; but paragraph of complaint with respect to item as to which there was no allegation that city assumed and promised to pay was bad, and whether the city as-

sumed obligation of the water company due the state auditor was for the jury—State ex rel Thompson v City of Greencastle, supra

<sup>70</sup> Neb—John A Creighton Real Estate Co v City of Omaha, 201 S W 657, 112 Neb 802, reversed on other grounds 204 N W 66, 112 Neb 802  
67 C J p 1157 note 3

<sup>71</sup> Va—Town of Vinton v City of Roanoke, 80 SE 2d 608, 195 Va 881

**Provision held collateral covenant**

Instrument designated as a deed, and conveying to town a water distribution system for fixed sum of money, which also contained a provision that grantor covenanted to furnish all water necessary to supply any and all demands, at rate of 5 cents for each thousand gallons, as long as town should require the same to be furnished, was divisible and constituted a deed as to the conveyance but a personal covenant for the sale of water, collateral to the sale of the property described, when no part of the consideration was specified as relating to the covenant and no particular source from which water was to be furnished was designated—Town of Vinton v City of Roanoke, supra.

ever, under a statute so providing, a city which purchases a water plant operating in contiguous territory is obligated to serve the customers of the plant purchased,<sup>72</sup> and apart from statute it has been held that a city purchasing a water plant which furnishes water to another community and to persons residing outside the limits of the city assumes the duty to serve the persons outside the city limits<sup>73</sup>

*Time for conveyance.* A statutory provision that the vendor water company shall, within a specified time after the vote to purchase has been taken, execute and deliver proper deeds and conveyance does not necessarily prevent a conveyance after the expiration of such period.<sup>74</sup>

*Conveyance ineffective.* Where no binding and enforceable contract of purchase has been created because of noncompliance with statutory requirements as to preliminary steps, a subsequent conveyance of the property to the municipality does not

pass title,<sup>75</sup> notwithstanding the conveyance was accepted and recorded by certain municipal officers<sup>76</sup> and there was a semblance of taking possession<sup>77</sup>

*Acquisition under public utility law* In Wisconsin, where the compensation awarded in a proceeding under the public utility law for the acquisition of a system owned by a water company is sufficient to pay all outstanding liens which are due, the company must pay them and turn the property over to the municipality free from all such liens<sup>78</sup>

## § 240. Sale, Lease, or Abandonment of Municipal Waterworks

Whether a municipal corporation which owns a waterworks system can sell or lease it depends on the provisions of the applicable statutes.

A municipal corporation which owns a system of waterworks cannot sell or lease it without legislative authority.<sup>79</sup> However, where the necessary authority exists, a municipality may enter into a sale or lease of the waterworks or a contract there-

72. Va—City of South Norfolk v City of Norfolk, 58 SE2d 32, 35, 190 Va 591

Purpose of statute was "to protect people and communities previously dependent upon a public service company for water from the calamity of being deprived of water by the sale to a city or town of the properties of such company"—City of South Norfolk v City of Norfolk, supra.

### Duty to supply from surplus

Under general statute described in the text and under provision in the charter of the city authorizing the city to sell surplus water to consumers located outside of the city limits, the city, on acquiring water system through which water was furnished to consumers in another community, had duty to supply consumers in such community with water from any surplus that it might have, consonant with rights of other persons protected by the statute—City of South Norfolk v City of Norfolk, supra.

### Matters held not to avoid obligation

Where on exercise by the city of Norfolk of its option to take over part of water system that had been serving South Norfolk, the distribution system in South Norfolk was cut off from the Portsmouth source of supply and attached to the Norfolk source of supply, the city of Norfolk could not avoid its obligation to serve the city of South Norfolk on the ground that what it had acquired by its deed was not a water plant but only a water distribution system, and city of Norfolk which did not exercise its option until after the water company had conveyed all

its rights, franchises and properties to the city of Portsmouth was not relieved of its obligation to supply water to South Norfolk, as a former customer of the water company, by reason of fact that the deed to the city of Norfolk was from Portsmouth, a municipal corporation, and not from the water company—City of South Norfolk v City of Norfolk, supra.

73. Cal—Durant v City of Beverly Hills, 102 P 2d 759, 39 Cal App 2d 133

### Purchase of plant within own limits

Although city of Little Rock purchased only so much of water plant supplying both Little Rock and North Little Rock as lay within its own city limits, where part purchased was essential to service in North Little Rock, Little Rock assumed obligation to continue water service to North Little Rock—North Little Rock Water Co v Waterworks Commission of City of Little Rock, 136 SW 2d 194, 199 Ark 773

### Purchase of private plant

A city purchasing private water plant, furnishing water to persons residing outside limits of city, assumed a trust to perform the contract and meet obligations of private company, and assumed duty to continue to serve persons outside city limits at a reasonable rate—Durant v City of Beverly Hills, 102 P 2d 759, 39 Cal App 2d 133

74. Mass—Revere Water Co v Winthrop, 78 NE 497, 192 Mass 455, error dismissed 28 S Ct. 253, 207 US 604, 52 L Ed. 360.

79. Utah—Ogden City v Bear Lake, etc., Water-Works, etc., Co., 52 P 697, 16 Utah 440, 41 L R A. 305  
67 C J p 1157 note 11

Lease of water right by municipal corporation see supra § 230

Municipality's lease of surplus water power see supra § 234 a.

Sale or disposal of property of municipal corporation in general see Municipal Corporations §§ 961-970

### Construction of prohibition

The constitutional prohibition against municipality's sale of water rights or water sources should be construed not narrowly or strictly, but in accordance with purpose of securing to communities their water systems, and prohibiting sale or lease to private parties—Genola Town v Santaquin City, 80 P 2d 930, 96 Utah 88, rehearing denied 85 P 2d 790, 96 Utah 104.

### Particular transaction held not lease of waterworks

Utah—Genola Town v Santaquin City, 80 P 2d 930, 96 Utah 88, rehearing denied 85 P.2d 790, 96 Utah 104.

for,<sup>80</sup> subject to the conditions or limitations under which the authority is granted,<sup>81</sup> and in some jurisdictions, under statutory or constitutional provisions to that effect, a municipal corporation may exchange water rights or sources for other water rights or sources of equal value even though it is expressly forbidden to dispose of such rights or sources<sup>82</sup>

Limitations or restrictions as to the sale or lease of waterworks property do not apply to land which is not part of the municipal waterworks system<sup>83</sup> Moreover, when the necessary authority exists a contract may include a sale of the mains and pipes laid in the public streets<sup>84</sup> and the lease of a dam

and excess water power<sup>85</sup> Rules governing the construction of statutes generally have been applied to statutes relating to the right of a municipality to sell, lease, or otherwise dispose of a water system or part thereof<sup>86</sup>

In determining the question as to the fairness and reasonableness of a lease, the contract should be considered with reference to the conditions which surrounded the parties at the date of the contract<sup>87</sup> One making expenditures on a municipal water system under a lease subsequently declared void is entitled to recover under the common counts the money actually expended in improving and operat-

80. Cal—City of Santa Barbara v Maher, 77 P 2d 306, 25 Cal App 2d 325

81. Green v City of Rock Hill, 147 SE 346, 149 SC 234

#### Arbitration provision; approval of council

Provision for arbitration in a contract of sale of waterworks to a city is not void by reason of a stipulation that the finding of the arbitrators should be approved by the council to be binding on the city—Lidgerwood Park Waterworks Co v. Spokane, 53 P 352, 19 Wash 365

#### Power to "sell, convey, and dispose"

Power to lease waterworks plant and equipment was conferred by statute granting power to "sell, convey, and dispose" of such property—Green v City of Rock Hill, 147 SE 346, 149 SC 234

#### Duration of lease

In absence of legal inhibition, lease of waterworks may be made for any length of time—Green v City of Rock Hill, supra.

81. Cal—City of Santa Barbara v Maher, 77 P 2d 306, 25 Cal App 2d 325

#### Approval of public service commission

(1) In general—City of Allentown v Pennsylvania Public Utility Commission, Com Pl, 63 Dauph Co 61, exceptions overruled 64 Dauph Co 126, appeal quashed 96 A 2d 157, 173 Pa Super 219

(2) A purported contract of city to lease to plaintiff its water system for ten years executed without first obtaining approval of Public Service Commission or waiver thereof was void, and constituted no ground of action for loss of future profits for alleged breach of contract—Lockard v City of Salem, W Va., 32 SE 2d 568

82. Utah—Genola Town v Santaquin City, 85 P 2d 790, 96 Utah 104

#### Particular transactions held valid

(1) A municipal corporation may exchange some of its water rights or

water supply, even in constant flow, for other water or water rights, suitable for culinary and municipal purposes, even though acquired water may be received in intermittent flow, if acquired water may be devoted to culinary and municipal uses, when value of acquired water for such uses is equal to the value for such uses of the water with which the city parted—Genola Town v Santaquin City, supra.

(2) City's agreement to deliver fixed amount of culinary water to town, in exchange for irrigation water to be obtained from stock in irrigation company given by town to city, which was construable as requiring the city to deliver the culinary water regardless of whether the city had water in excess of its needs, was not violative of constitutional provision prohibiting disposal by city of water rights or sources but permitting exchange of water rights or sources for other water rights or sources of equal value—Genola Town v Santaquin City, 110 P 2d 372, 100 Utah 62

(3) Under constitutional provisions permitting municipalities to exchange water rights or sources for other water rights or sources of equal "value," the mere fact that money as well as water rights is given in exchange for water rights does not establish a difference in value that would bring the transaction outside of the constitutional provision, since money may represent other considerations than that of making up a deficiency of use value—Genola Town v Santaquin City, 80 P 2d 930, 96 Utah 88, rehearing denied 85 P 2d 790, 96 Utah 104

#### Particular transaction held invalid

A contract whereby a landowner granted town right of way for piping water, in exchange for tap rights, did not constitute a valid exchange of water rights and was violative of constitutional provision preventing a municipal corporation from leasing, selling or disposing of water rights or sources of water supply, and where a contract granting to town

right of way for piping water in exchange for tap rights, was void, town's right of way and landowners' tap rights were merely permissive—Hyde Park Town v Chambers, 104 P 2d 220, 99 Utah 118

83. Tex—Sayles v City of Abilene, Civ App, 290 SW 239, affirmed City of Abilene v Sayles, Com App, 295 SW 578

#### Commissioners' determination as binding

Tex—Sayles v City of Abilene, supra.

#### Approval of voters held unnecessary

Wash—City of Seattle v Pacific States Lumber Co, 7 P 2d 967, 166 Wash 517

#### Evidence

With respect to city's right to dispose thereof by contract, evidence was held to show that, when sold, timber standing on city watershed was not part of city water system—City of Seattle v Pacific States Lumber Co, supra.

84. US—Farmers' L & T Co v Galesburg, Ill, 10 S Ct 316, 133 US 156, 33 L Ed 573

85. Wis—Eau Claire Dells Improvement Co v City of Eau Claire, 179 NW 2, 172 Wis 240  
67 C J p 1157 note 13

86. Cal—City of Santa Barbara v Maher, 77 P 2d 306, 25 Cal App 2d 325

#### Provision for vote of electors

"Privileges in connection therewith" as used in provision of the city charter of Santa Barbara prohibiting the conveyance or alienation of the title to real estate or water, water rights and "privileges in connection therewith" except by a vote of the electors, relates under the doctrine of the "last antecedent," only to the words immediately preceding, namely, "water rights"—City of Santa Barbara v Maher, supra

87. US—Los Angeles City Water Co v. Los Angeles, 88 F 720, affirmed 20 S Ct 736, 177 US 558, 44 L Ed 886

67 C J p 1157 note 14.

ing the water system, and the reasonable value of his services, less net profits<sup>88</sup> Equity may decree a forfeiture of a lease of municipal waterworks for gross violations of the duties imposed on the lessee,<sup>89</sup> but the municipality may, under certain circumstances, be estopped to assert a forfeiture<sup>90</sup>

**Abandonment** As affecting the establishment of a prescriptive right by a municipality to lands on which its pumping station is located, the fact that for part of the prescriptive period the water system was operated by a committee of water takers who acted under the municipality did not show an abandonment of the waterworks by the municipality<sup>91</sup>

## § 241. Operation, Maintenance, Extension, and Control of Plant

The power of a city to maintain and operate a waterworks system depends on statute, and in operating such system it is generally recognized to be acting

in a private, nongovernmental capacity, and is subject to the rules applicable to private concerns in such business

The power of a city to maintain and operate a waterworks system depends on the provisions of the applicable statutes,<sup>92</sup> and under various statutes to that effect municipalities have been held authorized to operate, control, and manage a waterworks system<sup>93</sup> Moreover, a municipality authorized to maintain and operate a waterworks system has the power to do incidental essential acts relating to the maintenance and operation of the waterworks,<sup>94</sup> and the governing body of the municipality has discretion to determine various matters relating to the maintenance and operation of the municipal water system<sup>95</sup> Thus, a municipality may enter into reasonable contracts relating to the operation of the waterworks system,<sup>96</sup> and, within statutory limits, it may provide for a reasonable plan of control

88. W Va.—Lockard v City of Salem, 32 SE 2d 568

### Allowance of particular expenses

Money expended by purported lessee of municipal water system for counsel fees and expenses of obtaining witnesses in a proceeding before State Public Service Commission to procure approval by that body of a contract ostensibly leasing the water system to him was not recoverable from municipality on theory that such expenditure was a part of cost of maintaining and operating the water system, but interest on money borrowed and expended in good faith in operation and maintenance of a municipal water plant by lessee thereof under a lease subsequently held to be void could be recovered from the municipality—Lockard v City of Salem, W Va., 43 SE 2d 239

89. Mass.—Mahon v Columbus, 58 Miss 310, 38 Am R 327

90. Wis.—Eau Claire Dells Improvement Co v City of Eau Claire, 179 NW 2, 172 Wis 240  
67 C J p 1157 note 16

91. Mass.—Smith v Lincoln, 49 NE 743, 170 Mass 488

92. Ill.—Simpson v City of Highwood, 23 NE 2d 62, 372 Ill 212, 124 ALR 1459

### What constitutes "waterworks" within statute

The term "waterworks," as used in statute authorizing city owning and operating waterworks or water supply system to improve and extend such system, contemplates such projects for systems without complete facilities and hence includes system of water mains, hydrants and appurtenances owned and operated by city purchasing water from adjacent city—Simpson v. City of Highwood, supra

### Ceasing certain operations

(1) In general—Pyle v Oakmont Municipal Authority, 70 Pa Dist & Co, 1, 97 Pittsb Leg J 193

(2) Fact that city proposed to cease to operate its existing pumping stations, except in case of emergency, was a matter addressed to the discretion of governing body of the city—Water Works Board of City of Mobile v City of Mobile, 43 So 2d 409, 253 Ala 158

96. SC—Green v City of Rock Hill, 147 SE 346, 149 SC 234

### Construction of contract and bidding instructions

Where contractors were required by bidding instructions to determine actual conditions at site of proposed presettling basin by personal examination, the notation of "rock" on plans could not be construed as a warranty or representation that a solid level rock base existed at depth indicated on the plans by the word "rock," and contractors could not rely thereon for recovery of compensation for alleged additional services rendered by reason of alleged misrepresentation, and contractors who had had a wide experience in excavating and who were required by bidding instructions furnished by city to determine actual conditions at site of pro-

posed presettling basin by personal examination, and who were required by contract thereafter executed to submit monthly claims for extra work as authorized by city engineer could not recover on a claim submitted for the first time after they were declared in default, for alleged additional services rendered and expenses incurred by reason of alleged misrepresentations by city in plans and specifications regarding depth at which solid layer of rock underneath area to be excavated would be found at a uniform level—Furton v City of Menasha, D C Wis., 71 F Supp 568

### Construction of provision as to co-operative reservoir

In a contract between municipalities respecting the surplus waters of a reservoir constructed as a co-operative enterprise, providing that prior to actual consumption of the full amount of their respective allowances the municipalities shall be at liberty to enter into contract with any municipality for supplying water, the word "respective" is disjunctive and not collective—City of Newark v Passaic Val Water Commission, 192 A 835, 122 N J Eq 173

### Lease of reservoir and covenants thereof

(1) A township's use of water from reservoir, on land covered by lease assigned to it for purpose of supplying consumers in village and adjacent territory within township, amounted at most to breach of covenant to use water on leased premises, not breach of condition, and the fact that township, to which lessee of land as reservoir site assigned lease, tore down pump house thereon and replaced it with new and more modern one at large public expense, did not constitute violation of lessee's covenant to deliver demised premises to lessor at

and management of the system,<sup>97</sup> and it may contract that a company should manage the system<sup>98</sup> So also, the city has the right to acquire a water source and an easement over lands to lay its water mains and pipes<sup>99</sup>

In operating a waterworks system for protection against fire,<sup>1</sup> for flushing sewers,<sup>2</sup> or for other uses pertaining to the public health and safety,<sup>3</sup> a municipal corporation exercises a governmental power, and there is even authority for the view that the operation and maintenance of a waterworks generally pursuant to statute are governmental

functions.<sup>4</sup> On the other hand, it is usually recognized that in supplying water to consumers for general or domestic purposes a municipal corporation acts in the capacity of a private corporation and not in the exercise of the power of local sovereignty,<sup>5</sup> that is, the municipal corporation acts in a proprietary and only a quasi-public capacity,<sup>6</sup> or in a proprietary or private or business, and not in a governmental or legislative, capacity,<sup>7</sup> and in general, it is exercising proprietary and business powers,<sup>8</sup> and is engaged in a business of a private nature.<sup>9</sup> However, it has also been held that the rule that the municipality supplying consumers is acting

end of tenancy with reservoir and pump house thereon in good and substantial repair and condition—Howell v Sewickley Tp, 43 A 2d 121, 352 Pa 552

(2) Where original lessee of land and subsequent assignees of lease openly used water from reservoir on land to supply village residents without objection by lessor, lessor was estopped from asserting that similar use of water by township to which lease was subsequently assigned, constituted breach of covenant in lease to use water on leased premises, in absence of evidence that lessor was without knowledge of such fact—Howell v Sewickley Tp, supra

(3) A lessor, acquiescing in assumption and discharge of lessee's liabilities by land company to which lessee assigned lease, receiving and accepting rentals from such company, knowingly treating one to whom company subsequently assigned lease as lessee and receiving rentals from him, retaining warrant for year's rent from township, to which such assignee assigned lease, for nine months, during which time township had possession of, and obligated itself in respect to, premises without objection or remonstrance by lessor, was estopped from denying that lease was assigned by original lessee's deed to land company—Howell v Sewickley Tp, supra

97 Ky—Cawood v Coleman, 172 S W 2d 548, 294 Ky 858

#### Ordinance held valid

City ordinance creating an electric and water plant board to consist of five resident taxpayers and users of electric energy, possessing qualifications of council members, and to serve without salary, and providing for a plant manager and necessary employees with salary limitations enacted a practical combination of various statutory provisions with respect to management of such plants and did not provide for an invalid "delegation of power"—Cawood v. Coleman, supra.

#### Commercial enterprise

N H—Chicopee Mfg Corp v Manchester Board of Water Com'rs, 81 A 2d 837, 97 N H 109

in a proprietary capacity applies only where water is supplied for the use of its inhabitants.<sup>10</sup>

In so far as a municipal waterworks is regarded as a business of a private, nongovernmental nature, the municipal corporation may, generally speaking, exercise such powers as a private concern engaged in like business may exercise.<sup>11</sup> So also, where a municipality engages in the business of selling water for profit, pursuant to statutes so providing,<sup>12</sup> it is governed by the same rules as control an individual or a business corporation under like circumstances,<sup>13</sup> and is subject to the same duties and liabilities.<sup>14</sup> Accordingly, in general, a municipal corporation which purchases the assets and franchise of a water company acquires the rights and privileges of,<sup>15</sup> and has no greater rights and powers than,<sup>16</sup> such company; it assumes the responsibilities of,<sup>17</sup> and is subject to the same obligations as,<sup>18</sup> such company. A municipal corporation which is authorized by statute to operate and maintain a water system constructed through the agency of an improvement district is authorized to repair the plant and to renew the parts which become worn out.<sup>19</sup> Accord-

ingly, where a town takes over and controls a water line built by others and uses it for the benefit of the town and consumers generally, and through it delivers water for a profit, it is obligated to pay, on a quantum meruit, those who constructed the line.<sup>20</sup>

*Control beyond territorial limits.* The power of a city to make ordinances and enforce them on the water supply system beyond the city's territorial limits is limited to such ordinances as are needful to protect the waters from pollution and contamination.<sup>21</sup>

*Regulation* While under some statutes the acquisition of a water supply system by a public agency removes such system from the field of utility regulation,<sup>22</sup> under other statutes, since a municipal plant is acting in a business, not governmental, capacity,<sup>23</sup> it is subject to reasonable regulation by the state public service or utilities commission.<sup>24</sup> Where a municipality has the power to operate a water system, the courts cannot interfere with its exercise in the absence of an abuse of discretionary power

in the method adopted for the operation of the system<sup>25</sup>

**Financing** The charter authority of a municipality to maintain a municipal waterworks in its proprietary capacity authorizes it to anticipate its water revenue collections in order to raise funds needed to provide for essential additions and facilities to its plant to enable the system to serve the purpose for which its maintenance was authorized,<sup>26</sup> and the city may raise funds in this manner as long as it does not without particular authorization undertake to mortgage, pledge, or obligate the plant itself, or obligate the taxing power or revenues of the city derived from other sources<sup>27</sup> Accordingly, city water revenue bonds are not obligations of the municipality,<sup>28</sup> and the holder thereof can look for payment only to the special fund which must be segregated and never becomes part of the city's general corporate funds<sup>29</sup> However, payment for an extension may not be made out of the earnings of an existing system at the expense of outstanding certificates,<sup>30</sup> but a city may authorize an extension of an inadequate system and pledge the earnings from such extension to the payment of the certificates issued in payment of its cost.<sup>31</sup> Where water certificates issued to finance

such additions and facilities are valid when issued it is immaterial that they do not comply with the requirements of the general municipal law as subsequently enacted<sup>32</sup> The right of county officers to pool the revenues from a joint water system in the county which runs through the various subdivisions of the county, for the purpose of applying such revenues to the payment of the indebtedness for the whole system, has been recognized<sup>33</sup> Under a statute so providing, a township is required to be charged with a reasonable sum for rental of water hydrants and for water used for fire fighting<sup>34</sup>

The funds and financing of municipal waterworks generally are discussed supra § 234 b.

**Privilege or franchise tax.** The liability of a municipal corporation under some statutes for a privilege tax for operating a waterworks system has been denied<sup>35</sup> On the other hand it has been held that a municipality is required to pay a tax on the income from sales of water in the absence of proof that the waterworks system was not installed for profit or gain,<sup>36</sup> even though the system was not actually self-sustaining<sup>37</sup> It has also been held that a municipality may be liable to the state under statutes imposing a sales tax on water furnished by the municipality to its patrons and customers<sup>38</sup>

(2) Where Illinois city by ordinance authorized purchase of water distribution system then existing and

by subsequent ordinance approved plans for construction of an enlargement or extension of old system, it was only necessary that city, in distributing earnings, abide by its obligations under its respective trusts and apply the respective proportions to the respective issues of water fund certificates issued in payment of cost of old system and of extension—Getz v City of Harvey, C CA III, 118 F 2d 817, certiorari denied City of Harvey v Getz, 62 S Ct 59, two cases, 314 US 628, 86 L Ed 504

#### Valuation of improvements

In determining value of improvements to municipal waterworks system as basis for allocation of net revenues therefrom to payment of principal and interest on improvement bonds, appraisal of old waterworks system which omitted value of water rights owned by city, and which included appraised value of seepage through defective pipes in old system as improvement and betterment was held arbitrary, illegal and void—Wadsworth v Santaquin City, 28 P 2d 161, 83 Utah 321

Mains, connections, and rights of way as to

Individual operator see infra passim §§ 244-246

Public service company see infra §§ 254-258

**Easements; exclusivity**

(1) The right to lay underground pipes over the land of another is an

"easement" and is governed generally by the rules of law which govern ordinary easements of way—City of Pasadena v California-Michigan Land & Water Co, 110 P 2d 983, 17 Cal 2d 576, 133 A L R 1136

(2) Easements for the purpose of installing and maintaining water mains and connections thereto were not exclusive easements—City of Pasadena v California-Michigan Land & Water Co, supra

(3) The grant by owners of realty to city of easements five feet in width for the purpose of installing and maintaining water mains and connections thereto granted to the city the right to make the fullest necessary use of the five-foot strip for the purpose named—City of Pasadena v California-Michigan Land & Water Co, supra

**"Easement deed"**

Instrument described in conveyance itself as an easement deed and which conveyed to city an easement on land for purpose of submerging land for a municipal water reservoir, together with all water rights, riparian rights and other appurtenances for a period of forty years or so long as city maintained reservoir thereon, was an "easement deed"—City of Corpus Christi v State, Tex Civ App, 155 S W 2d 824, error refused

**Particular rights held included with grant**

"Floating" easement, acquired by city for conduit carried, with it so much of grantor's land on each side of conduit as might be reasonably necessary for purposes of maintenance, repair, and enjoyment of easement, doing no more injury than was necessary to insure enjoyment of easement, and city possessed of hillside right of way for conduit was en-

## § 242 — Mains, Connections, and Rights of Way

- a In general
- b Extension of mains
- c Maintenance and repair

### a. In General

In general the rights and obligations of a municipality under a grant or dedication of a right of way for water mains and facilities depend on the provisions of the grant or dedication and applicable statutes and ordinances

In general, the rights and obligations of a municipality under the grant of a right of way over private property for a conduit or pipe line as part of its water system are determined by the provisions of the grant,<sup>43</sup> as are the rights of the grantee of land the conveyance of which includes the right to the use of the water mains,<sup>44</sup> and in general the

titled to have hillside maintained at slope which would not only be safe for conduit but also for maintenance of right of way—Salt Lake City v J B & R E Walker, Inc, Utah, 253 P 2d 365

**What constitutes "abutting property owner"**

Where town granted an easement to city as a water utility to lay feeder water mains through town in consideration for which city agreed to give service to owners of property abutting on streets along which mains were laid, a corporation which acquired several parcels of land lying along street was an "abutting property owner" within contract regardless of fact that land of corporation was five hundred or six hundred feet in depth whereas at time of entering into contract, the largest abutting lot did not exceed one hundred seventy-five feet in depth, and even though at time of entering into contract utility contemplated that abutting lots would be used for homes and small businesses which would require only a small quantity of water, court could not write into contract a provision defeating right to water service of corporation which consolidated several small lots into a larger tract and built an industrial plant requiring more water than utility had contemplated would be required—City of Milwaukee v Public Service Commission, 31 NW 2d 571, 252 Wis 358

44. Ky—Lee v City of Park Hills, 174 S W 2d 539, 295 Ky 383

**"Appurtenances" as including right**

Where grantors platted land situated outside city limits into lots, streets and alleys and constructed water mains in the streets, and sold lots by deeds conveying all "appurtenances," the property conveyed in-

use of water mains and facilities dedicated by an individual to the city for the purpose of supplying water to a development depends on the terms of the dedication and applicable statutes and ordinances.<sup>45</sup> Such dedications, grants, or contracts are subject to general rules with respect to their validity, construction, and operation.<sup>46</sup> Accordingly, where an agreement by which the city was to use the mains

laid by a private corporation is without consideration in that it does not bind the city, the agreement confers no right on the city,<sup>47</sup> and the city cannot render the alleged agreement binding by incurring expense and becoming obligated by contracts with individual consumers to supply them with water through the mains.<sup>48</sup>

cluded the right to the use of the water mains without interference by grantors, and defendants were not justified in imposing a charge for the use of the system on ground that they expended a large sum of money and were entitled to a return thereon—*Lee v City of Park Hills*, supra.

#### **Exclusive easement subject to eminent domain**

Where petitioner acquired by deed exclusive easement for maintenance of water distribution system in certain streets, words "subject only to rights taken by eminent domain" qualified easement granted and petitioner's easement was not exclusive of rights taken by eminent domain by town for highway purposes—*Flower v Town of Billerica*, 87 NE 2d 189, 324 Mass 519.

**45 Tex—***City of Beaumont v Calder Place Corporation*, Civ App, 180 SW 2d 189, reversed on other grounds, 183 SW 2d 713, 143 Tex 244.

#### **Right of residents of development**

Where subdivider, contemplating that addition would in time be included in city, recorded a dedication deed and plat and executed conveyances to purchasers under which subdivider was to control sewers, gas and water mains until addition should be taken into the city, residents of addition acquired a right to have sewer and water system and disposal plant preserved for their own use to the extent of their requirements—*City of Beaumont v Calder Place Corp*, supra.

#### **Right to excess capacity**

Where subdivider installed water and sewer system sufficient to serve five hundred houses though connections for two hundred houses would be adequate for the addition, right to excess capacity of three hundred houses could not belong to subdivider but to adjoining city or residents of the addition, since a judgment authorizing subdivider of addition to use water and sewer facilities for connections to houses outside the addition, to the extent of excess capacity of such facilities over amount necessary to satisfy dedication for benefit of residents of addition, would violate charter of home-rule city of Beaumont by authorizing subdivider to operate waterworks and control sewer system in the city—*City of*

*Beaumont v Calder Place Corp*, 183 SW 2d 713, 143 Tex 244.

**46. Okl—***Reust v Oklahoma City*, 178 P 2d 92, 198 Okl 345.

#### **Particular contract construed**

Under contract between landowner and city which owned canal used to conduct water from river to reservoir, which provided that as consideration for granting of easement over landowner's land for purpose of laying and operating a tile water drainage line to drain water from canal to landowner's lake, landowner would be entitled to water coming from drainage tile without cost, landowner was entitled to water flowing through drainage tile constructed on his land, but not to water taken from canal on city's land before it entered drainage tile on landowner's premises—*Reust v Oklahoma City*, supra.

#### **Enforcement by action in replevin or conversion**

(1) Where municipality, which operated its own water system as a private utility and which had entered into a rental contract providing for payment to developers of housing project out of money received from sales of water through connections made with water mains installed by developers, asserted hostile ownership of water mains, denied developers' rights and interest in them, and refused to surrender possession or recognize right of possession in developers, it committed an act of conversion which gave developers right to recover lines by an action in replevin or in conversion for value of such lines—*Wichita Finance & Thrift Co v City of Lawton, Okl*, DCOkl, 131 F Supp 788.

(2) Where it was understanding and agreement that developers of housing project were to be paid the "cost" rather than the value of water lines used by municipality, damages to be paid by municipality for its wrongful conversion of such lines would be cost figure rather than actual value, which was in excess of cost—*Wichita Finance & Thrift Co v City of Lawton, Okl*, DCOkl, 131 F Supp 788.

#### **Injunction for failure to pay consideration**

Act of municipality in continuing to use water line easements without paying agreed consideration constituted continuing trespass, and

was enjoined in view of the multiplicity of suits that remedy at law would necessitate—*Boiles v City of Abilene*, Tex Civ App, 276 SW 2d 922, error refused.

#### **Sale to bona fide purchaser; notice**

(1) Where a pipe line, in which a municipality has, by contract, certain rights of use, is sold by the owner to a third person who is a bona fide purchaser without notice of the rights of the city, the rights of the city may thereby be lost—*Johnson City v Milligan Utility Dist*, Tenn App, 276 SW 2d 748.

(2) Recitals in chain of title to pipe line, conveying line together with all rights, interests and equities, of every kind and description, which first party had in and to contract or ordinance with city, permitting installation and maintenance of system and regulating flow of water therein, were not sufficient to give notice to purchaser of city's right to regulate flow of water to and within pipe line—*Johnson City v Milligan Utility Dist*, Tenn App, 276 SW 2d 748.

**47. Ga—***City of Atlanta v De Kalb County*, 26 SE 2d 334, 196 Ga 252.

#### **Agreement held without consideration**

The permission by city for corporation which laid water mains without limits of city to connect mains with city's existing mains did not of itself amount to a consideration for alleged agreement whereby corporation purported to grant to city exclusive right to flow water through mains constructed by corporation and to tap them for purpose of furnishing water to customers in locality, where connection was to be made for sole purpose of enabling city to flow water through mains and would be valueless to corporation unless city became bound in some way to use it for that purpose, and even if corporation, in laying water mains with city's consent, made an offer to allow city to use mains for purpose of furnishing water to residents of subdivision, a mutually binding agreement was not effectuated upon city actually beginning to use mains for such purpose, where city expressly refused to bind itself in any manner and gave notice to such effect in written agreement—*City of Atlanta v De Kalb County*, supra.

**48. Ga—***City of Atlanta v De Kalb County*, supra.

*Municipality as licensee.* It has been held that where a municipality merely has permission from a landowner to lay water mains on the land, it acquires no interest or easement in the land,<sup>49</sup> but only a license,<sup>50</sup> which is revocable at the will of a subsequent bona fide purchaser of the land,<sup>51</sup> and the city is not entitled to compensation for expenditures made on the premises,<sup>52</sup> and is in fact liable to the purchaser for reasonable compensation for the use of the easement pending such time as might be necessary to effectuate either the removal of the utility from the land or the acquisition of the easement by condemnation.<sup>53</sup> However, it has also been held that where a municipality enters private lands to lay its pipe line as licensee for a consideration and expends a considerable sum in laying and maintaining such line, such corporation has either an irrevocable license<sup>54</sup> or a license subject to revocation on notice with reasonable time to remove the pipe.<sup>55</sup> Accordingly, as affecting the right of a municipality to remove a pipe line laid through private land, it has been held that such pipe line, when laid by the municipality as a licensee and not as a trespasser, does not become a fixture and part and parcel of the land through which it is laid,<sup>56</sup> and that the municipality does not lose title to the pipe on the theory of adverse possession by the owner of the land in the absence of the existence of the elements of an adverse possession.<sup>57</sup> Likewise, mere nonuser does not constitute an abandonment of the right of way for a pipe line acquired by a deed of grant.<sup>58</sup> Where a contract is entered into between a county and a municipality whereby the county releases to the city water department rights of con-

trol and ownership of a water pipe system, the terms of the contract are controlling.<sup>59</sup>

*Use of streets and highways.* The powers of municipal authorities in respect of laying mains in the public streets are usually determinable from the applicable statutes,<sup>60</sup> and where a municipal corporation relies on a statutory grant for its right to the use of a highway for the construction of its water line, its rights are limited by the terms of such grant.<sup>61</sup> Under some statutes the right of the municipality under the statutes is merely a franchise,<sup>62</sup> and in a proper case the state may compel the municipality to relocate its pipe lines.<sup>63</sup> In the absence of a requirement that a municipal corporation shall formally accept a legislative grant of the right to maintain water pipes in any road, street, or highway, the question as to whether such a corporation which asserted the right has in fact accepted the offer must be determined from action taken with the view of acquiring such right,<sup>64</sup> and, in order to constitute an acceptance, actual use of the highway by laying pipes is not necessary.<sup>65</sup> Usually the municipal authorities are vested with discretion in respect of the place in the street where a main shall be laid,<sup>66</sup> and, where such discretion is exercised without fraud or corruption, it is not subject to judicial review.<sup>67</sup> The propriety of the insertion in a decree in equity of a provision for the grant of a right of way through the streets of a municipality for a pipe line of another municipality in order that the latter might furnish water to persons beyond the territory of the first-mentioned municipality has been recognized where such municipality consents to such use of its streets.<sup>68</sup>

67 C J p 1162 note 85.

*Use of natural facilities* A city has the right to use natural reservoirs and facilities for the storage and transportation of water.<sup>69</sup>

*Priority among easements.* Where the owners of realty granted an easement to a city to install and maintain water mains and connections thereto, and thereafter gave a water company a similar easement, as they properly may in certain circumstances,<sup>70</sup> the city's easement is paramount,<sup>71</sup> but until a point of irreconcilable conflict is reached,<sup>72</sup> the concurrent use by the city and the company should be governed by principles permitting an equitable adjustment of conflicting interests,<sup>73</sup> since the respective rights of the two parties are not absolute but are required to be construed to permit a due and reasonable enjoyment of both interests as long as possible.<sup>74</sup>

*Ownership as between two municipalities* Under a contract between two municipalities for the furnishing by one of a supply of water to the other, the terms of the contract will govern in determining the ownership of the system in the municipality to be so supplied with water in the absence of any statutory provision to the contrary.<sup>75</sup>

*Approval of voters* Under the construction given certain statutes controlling the action of municipal authorities in respect of laying new mains, the necessity of submitting the matter to resident

taxpayers for approval has been denied;<sup>76</sup> but it has also been held that the action of the water commissioners in entering into a lease for additional land in the improvement of the city waterworks must be approved by a vote properly held.<sup>77</sup>

*Taking or converting pipes laid by individual.* Where a person lays pipes in a street under license from the municipality, such corporation becomes liable for the subsequent conversion of such pipes by taking possession, without the consent of the owner, and incorporating the pipes into its waterworks system.<sup>78</sup>

*Cost of installing service pipes* While the right of a municipality to require all consumers to assume the burden of laying service pipes has been recognized,<sup>79</sup> the power of the duly authorized municipal authorities to make private water connections free of charge has been recognized in the absence of any statutory restriction in this regard.<sup>80</sup> Under an agreement with the municipality to that effect, where a deposit is required to secure the installation of water mains the depositor or his assignees may be entitled to a subsequent refund of the amount deposited.<sup>81</sup>

*Enforcement of rights* In a proper case the public service commission is the proper tribunal for the enforcement of the rights of parties under a grant to a municipality for its water system.<sup>82</sup>

69. Cal—City of Los Angeles v City of Glendale, 142 P 2d 289, 23 Cal 2d 68

**Rule not affected by statute**

The enactment of statute designed to encourage the use of natural facilities for transportation of water did not indicate legislative intent to abrogate right to use natural reservoirs for transportation and storage of water hence maxim "expressio unius alterius exclusio est" was inapplicable to construction of such statute—City of Los Angeles v City of Glendale, supra

**Failure to establish special equity**

In suit by assignee of real estate development company's rights under written contract to refunds on money deposited with township to secure installation of water mains in new development to be relieved of ten-year limitation imposed by contract on refunds to be made as each new house was connected with mains, as-

signee failed to establish as a special equity justifying relief that township solicitor had promised that sewer service, the lack of which allegedly prevented sale of houses, would be made available as and when each house was completed—Fox v Haddon Tp., supra.

**Suit held barred by laches**

Suit by assignee of real estate development company's rights, under written contract, to refunds or money deposited with township to secure installation of water mains in new development to be relieved of ten-year limitation imposed by contract on refunds to be made as each new house was connected with mains on ground that limitation provided for a forfeiture and failure of development was due to lack of sewer service, which township solicitor allegedly had promised, was barred by laches when not commenced until 18 years after execution of contract—Fox v Haddon Tp., supra.

82. Wis—City of Milwaukee v Public Service Commission, 31 NW 2d 571, 252 Wis 358

**Relief in courts not required**

Where town granted easement to city as a water utility to lay feeder water mains through town in consideration for which city agreed to give

**b. Extension of Mains**

Generally, whether an extension shall be made is to be determined by the municipal authorities in the light of the reasonableness of the extension, the demand for it, the number of subscribers, and the revenue obtainable.

In the absence of any statutory limitation or requirement<sup>83</sup> usually the decision of the question as to whether an extension shall be made is within the discretion of the municipal authorities,<sup>84</sup> and their decision is final if there has not been an abuse of such discretion<sup>85</sup>. The propriety of a proposed extension depends on the reasonableness of such extension, considering the demand for it, the number of water subscribers, and the revenue obtainable,<sup>86</sup> and a municipality is not obliged in every instance to extend its mains in order to supply water to every inhabitant however remote his land may be from the distribution system<sup>87</sup>. The measure of the duty of a municipal corporation to extend its pipes imposed by statute is determinable largely from the

terms of such statute<sup>88</sup>. Ordinances relating to the manner in which extensions or additions to a city water system may be made must, where applicable, be complied with<sup>89</sup>.

There is authority for the view that a city which has, pursuant to some statutes, taken over for operation and maintenance a waterworks constructed by an improvement district may not be compelled at the suit of a property owner to extend the mains in order to furnish fire protection<sup>90</sup>. Under certain circumstances a municipal corporation may be under the duty to notify a property owner of the necessity for installing a main in order that such owner might be permitted to pay the costs of such installation, in accordance with the applicable rules<sup>91</sup>. In some instances a municipality may authorize the extension of a water main on the condition that the people along the line will undertake certain obligations<sup>92</sup>. However, in the absence of authority therefor a municipality may not require the

service to owners of property abutting on streets along which mains were laid, public service commission had jurisdiction to require city to order the service installed as against contention that abutting owners entitled to service under the contract, should seek relief in the courts—*City of Milwaukee v Public Service Commission*, supra

**Appeal, request for remand**

Where city as a water utility appealed to circuit court from order of public service commission requiring utility to permit owners of property abutting on streets along which water mains were laid to connect to the main pursuant to contract between city and town, request that case be remanded to commission to enable city to offer evidence of inability to comply with the order because of inadequate water supply came too late when not made until the arguments were in progress—*City of Milwaukee v Public Service Commission*, supra

**92** NH—*Town of Claremont v Rand*, 79 A 689, 76 NH 116

**Guarantee of annual rental**

An instrument reciting that the signers thereof agree to guarantee the eight per cent required by a town to extend a water main, executed after the town authorized the extension of the people along the line guaranteed eight per cent on the expense of extension, guarantees an annual rental of eight per cent on the expenses of the extension—*Town of Claremont v Rand*, supra.

**Application of ordinance held invalid**

Even if municipal ordinance, requiring developer of area to extend at its own expense municipal water mains, was not invalid in itself, application thereof seeking to charge developer for full cost of extension of water mains to area which contained lots owned by others than developer would have been invalid—*Reid Development Corp v Parsippany-Troy Hills Tp*, 107 A 2d 20, 31 N J Super 459

developers of areas to extend the water mains at their own expense,<sup>93</sup> and where a municipality lacking authority therefor demands from a subdivision owner an advancement of the cost of installing water mains, and the advancement is made, the municipality will be liable therefor on quantum meruit as for money had and received.<sup>94</sup>

*Delivery of executed contracts by residents* Under a statute so providing, a city or its board of commissioners is prohibited from extending its water mains until half of the bona fide residents along the line of the proposed extension execute and deliver to the city a sufficient number of written contracts to insure the city a specified profit on the cost of the extension,<sup>95</sup> and deposit cash or a bond to secure performance.<sup>96</sup>

*Extension under contract with consumer* Where a town extends its water system under a unilateral contract with a landowner, the fact that no definite time was fixed for the termination of certain of the landowner's obligations did not invalidate such obligations,<sup>97</sup> and the fact that the liability of the

landowner, guaranteeing an annual return to the town, is limited to a certain number of years, does not, in the absence of any stipulation to that effect, limit to the same number of years other promises of the landowner.<sup>98</sup>

*Regulation* An order of a public utilities commission requiring a municipal corporation to extend its water mains will not be disturbed by the courts where the action of the commission was neither arbitrary nor capricious.<sup>99</sup>

*Extension outside municipal limits* Whether a municipality owning and operating a municipal waterworks system can extend its mains beyond the municipal limits depends on the provisions of the applicable statutes and the circumstances of the particular case.<sup>1</sup> Thus, it has been held that a city is without authority to extend its waterworks system outside its corporate limits for such purpose.<sup>2</sup> On the other hand, it has been held that in so far as a municipality has the authority to sell surplus water to persons outside its corporate limits it may provide for the extension of mains therefor,<sup>3</sup> but a statute

93 N.J.—Reid Development Corp v Parsippany-Troy Hills Tp, supra

**Ordinance held to exceed authority**

Under statute authorizing municipality to operate water supply system and install and maintain pipes and mains, and authorizing imposition of charge for stated installations and services not including mains, municipal ordinance requiring developers of areas to extend water mains at their own expense exceeded statutory authority to impose charges and was invalid—Reid Development Corp v Parsippany-Troy Hills Tp, supra.

94. U.S.—Brownell v City of St Petersburg, D.C.Fla., 128 F.2d 721

95 Kan.—Jayhawk Const Co v City of Topeka, 271 P.2d 769, 176 Kan 517

*Intention of statute was to assure city of permanent development of addition, which contemplates people living in community along line of proposed extension, before installation of mains therein, and to protect city against purely promotional projects*—Jayhawk Const Co v City of Topeka, supra.

**Limitation, not grant, of power**

The statute prohibiting boards of commissioners in first class cities from extending water mains until half of bona fide resident property owners along line of proposed extension execute and deliver to city sufficient number of written contracts to insure city a profit of ten per cent per annum on cost of extension, is not a grant of power to such cities, but a limitation of their power, to extend water mains, and such a city

had no authority to incur any liability or obligation to extend such mains into a new city subdivision developed by construction corporation until statutory provisions were met—Jayhawk Const Co v City of Topeka, supra.

**What constitutes "bona fide resident property owner"**

The term, "bona fide resident property owners along the line of the proposed extension," as used in statute means property owners who have established residences along line of proposed extension, and a city addition developer, owning entire addition, is not a "bona fide resident property owner" within statute—Jayhawk Const Co v City of Topeka, supra.

96. Kan.—Jayhawk Const Co v City of Topeka, supra.

**Sufficiency of bond**

The bond contemplated by statute prohibiting extension of water mains by first class city until half of bona fide resident property owners along line of proposed extension execute and deliver to city sufficient number of written contracts, performance of which is secured by cash deposit or sufficient bond stipulating for water supply for two years, to insure city ten per cent profit per annum on cost of extension, is for performance of contract to purchase water and must be in such amount as will insure adequate security for amount of water to be purchased for two years, and a bond, tendered to board of commissioners of first class city by applicant for extension of water mains into city subdivision developed by appli-

cant, to guarantee use of sufficient quantity of water in subdivision for two years to insure city ten per cent profit per annum on estimated cost of extension, was inadequate on its face as securing nothing, in absence of any contract between parties for purchase of water—Jayhawk Const Co v City of Topeka, supra.

**Certificate or authority of state Public Service Commission**, powers and duties of which are administrative only, was not conclusive, as respects city's authority to extend waterworks facilities beyond corporate limits to supply outside community—Smith v City of Raceland, supra.

3. Va.—Corporation of Mt Jackson v Nelson, 145 S.E. 355, 151 Va 396

**Town's contract for construction of main** to carry surplus water to inhabitants outside corporate limits was held within its authority as to contractors suing for balance due—Corporation of Mt Jackson v Nelson, supra.

empowering a city authorized by charter to own and operate waterworks, to sell water to persons and corporations outside the limits of the city, to prescribe the kind of water mains within or beyond the limits of the city, and to inspect and require such mains to be kept in good order, does not empower the municipality to extend the mains of its waterworks system to places and persons lying outside the city for the sole purpose of furnishing such places and persons with water <sup>4</sup>

### c. Maintenance and Repair

It is usually the duty of a municipality operating a waterworks system to furnish mains or pipes to which patrons may connect service pipes, and to maintain and repair and renew them.

Usually it is the duty of a municipality which operates a waterworks system to furnish water mains or pipes with which patrons may connect their service pipes<sup>5</sup> and to maintain such water mains or pipes,<sup>6</sup> and there has been recognition of the municipality's authority to control and maintain a water main<sup>7</sup> Under a statute authorizing a city to operate and maintain waterworks taken over by it, the power to maintain involves the repair and renewal of the parts of the system,<sup>8</sup> and does not restrict the repairs or reconstruction to the identical form in which the waterworks were originally constructed<sup>9</sup> In general, however, a municipal corporation is under no obligation to keep in repair a pipe which is not a part of its water system and which it does not own<sup>10</sup> As between the municipality and a private individual, the latter may by contract assume the obligation of maintaining water mains in proper condition<sup>11</sup> Where a city has been

permitted to construct a reservoir outside the city limits, the city may be required to construct and maintain highways in connection with it <sup>12</sup>

In respect of a service pipe connecting with a main, to supply a consumer, the consumer and owner of such pipe usually has the duty to maintain and repair,<sup>13</sup> although there is authority for the view that it is not necessarily the duty of a consumer to enter a street to make repairs to a lateral pipe branching from a main to the consumer's property,<sup>14</sup> and the duty of a municipal corporation to keep in repair a supply pipe laid along a street by the representative of a consumer to supply water to such consumers' houses has been recognized<sup>15</sup>

*Incidental rights.* A municipality sometimes acquires by the grant of a right of way over private lands certain rights in respect of the repair of a pipe line laid through such lands,<sup>16</sup> and the power of a municipal corporation to acquire a prescriptive right to enter on certain lands in order to repair a pipe line and other structures has been recognized <sup>17</sup>

### § 243(1). Water Districts

In numerous jurisdictions statutes authorize the formation of water districts for the purpose of acquiring and distributing a water supply Such districts are separate and independent political corporate entities, and although they are not municipal corporations in the strict sense, they resemble them and are regarded or referred to as quasi-public corporations or quasi-municipal corporations.

In numerous jurisdictions statutes authorize the formation of water districts for the purpose of acquiring and distributing a water supply,<sup>18</sup> and nu-

Ky.—Louisville Extension Water Dist v Diehl Pump & Supply Co, 246 SW 2d 585

Mo.—Public Water Supply Dist No 2 of Jackson County v State Highway Commission, 244 SW 2d 4

#### Purpose

(1) Purpose of statute creating Fort Smith waterworks district, comprising territorial limits of city of Fort Smith, was to afford inhabitants of city sufficient source of water, and should be construed to effectuate that

merous cities and communities may be authorized to unite in a project of such magnitude that it would be impracticable or impossible for any one city or community to undertake the project alone<sup>19</sup>

Some statutes expressly provide that a water district shall be a separate and independent political corporate entity<sup>20</sup> Other statutes have characterized such a district as a "body politic and corporate,"<sup>21</sup> a "public corporation,"<sup>22</sup> a "municipal corporation,"<sup>23</sup> or a "body corporate"<sup>24</sup> Apart from the statutory characterization, the courts have regarded or referred to such a district as a "political subdivision,"<sup>25</sup> a "quasi public corporation,"<sup>26</sup> a "quasi municipal corporation,"<sup>27</sup> a "municipal corporation" in the broad sense of the term,<sup>28</sup> or as "to a limited extent, a municipal corporation,"<sup>29</sup> and it has been held that in many respects they resemble municipal corporations proper.<sup>30</sup> On the other hand, while a water district, authorized by some statutes, has, for the special objects of certain

statutes, been included as a matter of convenient reference within the term "municipal corporation"<sup>31</sup> or "municipality,"<sup>32</sup> it is essentially only a "special administrative area,"<sup>33</sup> and it is not a municipality or municipal corporation for all purposes.<sup>34</sup> It is not a county, incorporated city, town, or village,<sup>35</sup> or a subdivision of a city, town, or county<sup>36</sup> The view has been expressed that water districts are merely "taxing districts"<sup>37</sup> or local taxation districts designed for the purpose of making local improvements<sup>38</sup> A water district created by some statutes is regarded as a public corporation,<sup>39</sup> or as a state agency exercising governmental functions,<sup>40</sup> and, as such, according to some cases, is distinguishable from a municipal corporation<sup>41</sup>

*Regulation and control* Except as restricted by constitutional provision, the legislature has absolute control over the affairs of a water district created by it,<sup>42</sup> and a water district created by or under

purpose—*Bourland v City of Fort Smith*, 78 S W 2d 383, 190 Ark 289

(2) The object of the statute authorizing the creation of water conservation districts in counties of specified population is the creation of an agency to restore fresh water levels to their normal level and to provide an adequate supply of fresh water for all purposes—*City of Coral Gables v Crandon*, 25 So 2d 1, 157 Fla. 71

19. Utah—*Lehi City v Meiling*, 48 P 2d 530, 87 Utah 237.

#### Purpose of act

The purpose of the Metropolitan Water District Act was to provide means by which communities may contract with the United States government to obtain a large supply of water through a reclamation project for the storing of water from rivers—*Lehi City v Meiling*, supra

some statutes is a public utility subject to the supervision of the public utilities commission <sup>43</sup>

§ 243(2) — Organization and Validity

- a In general
- b Submission to voters
- c Review of proceedings and attack on organization

a. In General

The legislature of a state has plenary control over matters pertaining to the organization of water districts which have been created by special or private acts or under the procedure provided by general statutes

The legislature of a state has plenary control over matters pertaining to the organization of water

districts <sup>44</sup> Water districts are sometimes created by special or private acts, the validity of which has been upheld, <sup>45</sup> and which, as discussed infra subdivision b of this section, provide that the act shall become effective when approved or accepted by a majority vote of the inhabitants or voters of such territory Sometimes, however, provision for the organization of water districts is made by general statutes <sup>46</sup> which, subject to constitutional limitations and restrictions, <sup>47</sup> the legislature has authority to enact <sup>48</sup>

Substantial compliance with the proceedings required by statute to be taken for the formation of a water district is required <sup>49</sup> Under various statutes

<sup>43</sup> Me—City of Waterville v Kennebec Water Dist, 25 A 2d 475, 138 Me 307

67 C J p 1163 note 2

Regulation of rates see infra §§ 288-296

**Accounting**

The Kennebec Water District is subject in the matter of its accounting to the jurisdiction, control, and regulation of the Public Utilities Commission—City of Waterville v Kennebec Water Dist, supra

<sup>44</sup> Cal—Sacramento Municipal Utility Dist v All Parties and Persons, etc, 57 P 2d 506, 6 Cal 2d 197—Crawford v Los Angeles County, 17 P 2d 1017, 128 Cal App 368

Lands included in general see infra § 243 (3)

**District held created**

Act empowering Board of Township Commissioners of Folly Island to issue waterworks revenue bonds of the township to defray costs of constructing a waterworks system for the township, and committing to board the function of constructing, operating and maintaining waterworks system, created of such township a special district for waterworks purposes, and constituted an administrative board therefor by designation

of township commissioners, who were agents for accomplishment of the legislative purpose—Wagener v Johnson, 76 SE 2d 611, 223 SC 470

<sup>46</sup> Fla—City of Coral Gables v Crandon, 25 So 2d 1, 157 Fla 71

Tex—Lovett v Cronin, Civ App, 245 SW 2d 519

67 C J p 1163 note 6

**Construction**

The Public Utility District Law should be liberally construed to carry out its purpose of furnishing a district, and the inhabitants thereof, with ample supply of water for all uses and purposes, and as an incident thereto, to furnish any other persons, including public and private corporations within or without its limits, with an ample supply of water for all uses and purposes—State ex rel Public Utility Dist No 1 of Skagit County v Wythe, 182 P 2d 706, 28 Wash 2d 113

<sup>47</sup> Cal—Crawford v Los Angeles County, 17 P 2d 1017, 128 Cal App 368

67 C J p 1163 note 7

**In Texas**

(1) The statute authorizing creation of fresh water supply districts is enabling act, responsive to constitutional provisions with respect to conservation and development of state's natural resources, and authorizes creation of such districts for purposes of conserving, transporting, and distributing fresh water from lakes, wells, etc, for domestic and commercial purposes—Ptacek v Hofheinz, Tex Civ App, 128 SW 2d 872, error refused

(2) Other decisions under Texas statutes see 67 C J p 1163 note 7 [a]

<sup>48</sup> Fla—City of Coral Gables v Crandon, 25 So 2d 1, 157 Fla 71

Or—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, 55 P 2d 1107, 153 Or 382

67 C J p 1163 note 8

**Fresh water supply districts**

(1) There is no irreconcilable con-

flict between constitutional provisions for creation of municipal corporations and that relating to conservation and development of state's natural resources, so that incorporation of fresh water supply district under enabling act responsive to latter provision was not illegal as contemplating matters peculiarly and exclusively within powers of municipal government—Ptacek v Hofheinz, Tex Civ App, 128 SW 2d 872, error refused

(2) A fresh water supply district was legally created under constitution and enabling act, where ample supply of subterranean water, susceptible of being reclaimed and utilized by district for its purposes, existed in its area—Ptacek v Hofheinz, supra.

(3) Other decisions dealing with power to authorize districts see 67 C J p 1163 note 8 [b]

**Statutes held valid**

(1) Generally—First Suburban Water Utility Dist v McCanless, 146 SW 2d 948, 177 Tenn 128

(2) Metropolitan Water District Act was not unconstitutional as providing for interference with municipal improvements, money, property, or effects, since power of control vested in board of directors of district is over property, improvements, money, and effects of the district, and not that of any of cities or towns whose territorial boundaries may be coincidental with that of district or included therein—Lehi City v Meiling, 48 P 2d 530, 87 Utah 237

<sup>49</sup> Iowa—Fiesel v Bennett, 280 N W 482, 225 Iowa 98

**Dispensable requirement**

The failure to meet a statutory requirement is not fatal if that requirement was such as could constitutionally have been dispensed with by the legislature—Stallsmith v Alderwood Water Dist, 222 P 2d 836, 37 Wash 2d 198

**Statement of cost**

Water district commissioners' duty

there is required an initiatory or preliminary petition, signed by a designated number of the landowners, inhabitants, or voters of the proposed district,<sup>50</sup> and addressed to a designated public body, officer, or officers,<sup>51</sup> containing a description of the territory or land, which it is proposed to include,<sup>52</sup> and other details.<sup>53</sup> The necessity for a definite and

accurate description, in the organization proceeding, in order to render the order of organization valid has been recognized.<sup>54</sup> Provision is generally made for the filing of the petition,<sup>55</sup> for publication of notice of the filing of the petition<sup>56</sup> and for a hearing in respect of the petition and protests or objections.<sup>57</sup> There must at least be substantial

to declare cost of local district improvements and proportions thereof to be borne by general district and local improvement district at commissioners' meeting in which resolution to create district was adopted was held sufficiently complied with in view of water district engineer's oral declaration of estimated cost at such meeting and explanation of project from plan exhibited thereat and commissioners' express declaration and resolution that all costs should be to local improvement district—*Stallsmith v Alderwood Water Dist.*, supra.

**50** Or—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, 55 P 2d 1107, 153 Or 382

#### Number of signers

(1) Under statute requiring petition for organization of water control and improvement district to be signed by majority in number of holders of title to lands therein, and owners of majority in value of lands therein, provided that petition is sufficient if signed by fifty landowners if number of such landowners therein is more than fifty, proviso makes an exception not only to requirement of majority in number but also as to requirement of a majority in value—*Lovett v Cronin*, Tex Civ App, 245 S W 2d 519.

(2) Where original petition for establishment of water district was signed by twenty-five per cent of residents of proposed district, and amended petition requesting that additional territory be included in proposed district was signed by twenty-five per cent of residents of that territory, district including additional territory had not been petitioned for by twenty-five per cent of residents of district described in original petition—*Fiesel v Bennett*, 280 NW 482, 225 Iowa 98.

**Failure to secure signatures of majority of owners of property in proposed local improvement district to petition for creation thereof was not jurisdictional defect, but mere irregularity, which did not invalidate water district's proceedings for establishment of improvement district—***Stallsmith v Alderwood Water Dist.*, 222 P 2d 836, 37 Wash 2d 198.

**51.** Tex—*Lovett v Cronin*, Civ App, 245 S W 2d 519  
67 C J p 1164 note 10

#### Particular body or officer

Under statute relating to water

control and improvement districts, State Board of Water Engineers was held to have jurisdiction to create a water control and improvement district where the petition asked power to provide facilities for the disposal of sewage, even though the district lay wholly within the limits of the county, as against the contention that such district was required to be created by County Commissioners' Court—*Harris County Water Control and Imp Dist No 39 v Albright*, Tex Civ App, 263 S W 2d 911—*Lovett v Cronin*, Tex Civ App, 245 S W 2d 519.

**52** Iowa—*Fiesel v Bennett*, 280 NW 482, 225 Iowa 98

#### Amendment increasing area

Where water district as established contained thirty per cent more property than amount described in original petition, the original petition did not set out an "approximate" description of district to be served and statute was, therefore, not substantially complied with, notwithstanding additional property included in district was described in an amended petition—*Fiesel v Bennett*, supra.

**53** Iowa—*Fiesel v Bennett*, supra  
67 C J p 1164 note 12

#### Amended petition

Fact that original petition for establishment of water district contained all statutory requisites did not justify board of supervisors in establishing water district including not only territory described therein, but also additional property described in an amended petition which was inadequate in failing to state need of a public water supply in added territory, approximate number of families therein, proposed source of supply, and type of service desired—*Fiesel v Bennett*, supra.

**54.** Cal—*Yoder v Board of Sup's of Riverside County*, 281 P 393, 208 Cal 368

67 C J p 1164 note 14  
Land included in district in general see infra § 243 (3)

**55** Or—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, 55 P 2d 1107, 153 Or 382

#### Where filed

Under some statutes, a petition for the creation of a water district is to be filed with the board which hears and determines it, and it should also be filed with the county clerk at least before the board's notices of the

hearing on the petition are posted and published—*Lovett v Cronin*, Tex Civ App, 245 S W 2d 519.

#### Irregularity

Failure to file petition for creation of water control and improvement district with county clerk until after State Board of Water Engineers had created district was at most an irregularity which did not make creation of district void—*Lovett v Cronin*, supra.

**56** Tex—*Lovett v Cronin*, supra  
67 C J p 1164 note 14

**57** Tex—*Lovett v Cronin*, supra  
67 C J p 1164 note 15

Notice of hearing as to assessment see infra § 243 (7)

**Constitutional rights of landowners** within district are not infringed where they are afforded an opportunity to be heard on all questions raised by their objections—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, 55 P 2d 1107, 153 Or 382.

#### Time

(1) Statutes governing the time for hearing the petition and protests have been held directory—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, 55 P 2d 1107, 153 Or 382—67 C J p 1164 note 15 [a].

(2) Under statute directing petition for election to be filed with county clerk and presented to court on first day of next regular "session" for county business, fact that petition was filed on same day order calling for election was made was held not to render subsequent proceedings invalid, since word "session" did not mean "term," but referred only to next temporary sitting—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, supra.

#### Record

Order establishing municipal corporation to supply water to community, reciting that petition was duly presented to county court on first day of next regular session for county business as required by statute, was not contradicted by record showing petition was filed and order calling election was made on same day, since next regular session may have been on same day petition was filed—In re Incorporation of Communities of Rockaway and Seaview in Tillamook County, supra.

compliance with statutory requirements in respect of the notice of hearing<sup>58</sup>

Under some statutes it has been held that the jurisdiction of the board which hears and determines a petition for the creation of a water district is initiated by the filing with the board of the petition,<sup>59</sup> but under other statutes the body designated to conduct the hearing does not acquire jurisdiction until the publication of notice of the hearing is complete.<sup>60</sup> Where a petition has duly been filed and the notice of hearing has been published as required by law, the designated body acquires jurisdiction<sup>61</sup>

Under some statutes a designated body or officer has authority to determine in the first instance the sufficiency of the petition<sup>62</sup> in respect of the capacity and number of signers<sup>63</sup> and in general the facts giving jurisdiction<sup>64</sup>. The body conducting the hearing must make the requisite findings<sup>65</sup>. A decision, after a hearing on protests against the formation of a district, under some statutes, is final and conclusive in the absence of fraud or an abuse of discretion so patent as to amount to fraud,<sup>66</sup> and the determination of the designated board as to the number and capacity of the signers is final and conclusive unless reviewed and set aside in a direct proceeding<sup>67</sup>. Authority is sometimes given to the board which has jurisdiction, to grant the petition in part by altering the boundaries of the contemplated district as set forth in the petition so that all property and property owners, and only such property and property owners, as are benefited shall be included within the limits of the district<sup>68</sup>

Other statutes, the validity of which has been upheld, have provided for the creation of water districts to include the territory of two or more municipalities and for the initiation of the proceeding for organization by the legislative body of a municipality which it is desired to include in the proposed district<sup>69</sup>. Still other statutes, the validity of which has been upheld, authorize certain public bodies on their own initiative to create waterworks districts<sup>70</sup>

*Matters subsequent to creation of district* A legally created water district is not invalidated by the subsequent failure to construct the water system as indicated on the original plans for the district or by the failure of the water district to obtain the consent of the water power and control commission to the operation of the water system<sup>71</sup>

*Place where proceedings conducted* The mere fact that the proceedings of a board of directors in the organization of a water improvement district, under some statutes, are conducted outside the confines of such district does not render such proceedings irregular and void<sup>72</sup>

*De facto district* Where the statute under which an attempt to organize a water district is made is violative of a constitutional provision, the so-called district is not, it has been held, a de facto corporation<sup>73</sup>

*Validating statutes.* Statutory provisions validating the organization of water districts, originally organized under an invalid statute, have been given effect,<sup>74</sup> rendering a particular district to which the

74. Wash.—Rood v Water Dist. No 24 of King County, 48 P 2d 584, 183 Wash. 258 67 C J p 1165 note 32.

#### Extent of ratification

Statute was held to validate, not only formation of water district which had been organized under an

validating statute is applicable valid as of the date of its original creation<sup>75</sup> Where a proposed water district failed of formation because of insufficient favorable votes, the repeal of a validating or curative statute which was subsequently passed to declare the district properly formed caused any vitality the district may have had to cease<sup>76</sup>

### b. Submission to Voters

Under statutes so providing, the question as to whether or not a water district shall be created is submitted to the qualified voters of the proposed district

Although under some statutes it has been held unnecessary to submit to an election the formation of a local improvement district within a water district, where its formation constitutes a consummation of the purpose of the scheme of the water dis-

trict adopted by election to furnish water to consumers and the public,<sup>77</sup> under other statutes the question as to whether or not a water district shall be created is submitted to the qualified voters of the proposed district,<sup>78</sup> and its formation is dependent on the majority required by statute voting in favor thereof<sup>79</sup> The rules for conducting such an election have been held directory,<sup>80</sup> and under this view, an irregularity, if harmless, will not invalidate an election<sup>81</sup> The failure strictly to comply with the statutory provisions governing the submission does not necessarily invalidate the election where the electors were fully advised as to the question to be determined<sup>82</sup>

The governing statutes must be looked to in order to determine the requirements as to notice of the election,<sup>83</sup> and, where such notice complies with

unconstitutional statute, but also such acts, not excepted by the act, as were necessary to be done in the organization, establishment and existence of the water district, including adoption of comprehensive scheme and plan for installation of water system—*McKenzie v Mukilteo Water Dist.*, 102 P 2d 251, 4 Wash 2d 103

**Comprehensive plan for installation of water system by water district** which was organized under unconstitutional statute was held legally sufficient and binding on subsequent statutory validation and ratification of the organization of the district—*McKenzie v Mukilteo Water Dist.*, supra

#### Effect of proviso

Proviso in validating statute that nothing contained in the act should be deemed to validate the debts, contracts, bonds or other obligations executed prior to the act in connection with or in pursuance of attempted organization of districts, was construed to indicate legislative intention that all other acts of the validated districts were intended to be ratified and validated—*McKenzie v Mukilteo Water Dist.*, supra

Tex—*Lovett v Cronin*, Civ.App., 245 S W 2d 519

67 C J p 1165 note 35.

#### Under special or private acts

Me—*Kennebunk, etc.*, Water Dist. v Wells, 147 A 188, 128 Me 256  
67 C J p 1165 note 34

#### Character of election

(1) Provision that special election "shall be called, advertised and conducted according to the law relating to municipal elections" applies to town meeting for sole purpose of balloting on single referendum question submitted by legislature, in which method for notification and conduct of meetings is the same as in case of meetings for election of county, state, and national officers—*Norway Water Dist v Norway Water Co.*, 30 A 2d 601, 139 Me 311

(2) Under Water Code provision requiring question whether county water district should be formed and determination of persons to be its first directors to be submitted to vote, a single election and single ballot is provided for—*People ex rel Rowe v West Side County Water Dist.*, 246 P 2d 119, 112 Cal App 2d 228

**79.** Cal—*People ex rel Rowe v West Side County Water Dist.*, supra

#### Particular requirement

In order to authorize the formation of a county water district, a favorable majority of the votes cast at the election and not merely a favorable majority of the votes on the proposition was required—*People ex rel Rowe v West Side County Water Dist.*, supra

**80.** Me—*Norway Water Dist v Norway Water Co.*, 30 A 2d 601, 139 Me 311

#### Preliminary steps

Where election, resulting in approval of water district's charter, was honestly and fairly conducted and no one was injured by manner in which preliminary steps were taken, election will not be declared invalid—*Norway*

*Water Dist. v Norway Water Co.*, supra

#### Election of moderator

A referendum election in water district on question of approving district charter was not invalid because of failure to provide for election of moderator, as required by statute governing ordinary town meetings, in view of election statute giving selectmen all powers of moderators—*Norway Water Dist v Norway Water Co.*, supra

**81.** Tex—*Nueces County Water Control and Imp Dist No 4 v State ex rel Wilson*, Civ App, 270 S W 2d 672, error refused no reversible error

#### Number of polling places

The use of one polling place for entire district in violation of statute requiring separate polling places for municipality and area outside municipality was harmless irregularity not invalidating election, where opposite vote by all not voting could not have changed result—*Nueces County Water Control and Imp Dist No 4 v State ex rel Wilson*, supra

**82** Or—*State v Parker*, 190 P 319  
96 Or 499

67 C J p 1165 note 36

#### Amendment of notice

In proceeding by water district to condemn private water company's property, as authorized by district charter approved in local referendum election, at which ballots were cast only by district voters named on check list, notice, calling for election by voters of town embracing district, was properly amended to accord with fact—*Norway Water Dist v Norway Water Co.*, 30 A 2d 601, 139 Me 311

**83.** Or—*Smith v Hurlburt*, 217 P 1093, 108 Or 690  
67 C J p 1166 note 37.

the statutory requirements, the mere fact that certain landowners did not have actual notice is immaterial<sup>84</sup> In the absence of statute providing therefor, the inhabitants of a proposed water district are not entitled to notice and a hearing on the question, where it is submitted to the voters of the district for their approval<sup>85</sup> The body authorized to canvass the vote may and should, under some statutes, on a canvass of the vote and declaration of the result, declare that the district is not duly incorporated where such is the case<sup>86</sup>

### c. Review of Proceedings and Attack on Organization

Under varying statutes, matters with respect to the organization and validity of a water district, which have been passed on judicially by the body to which they have been duly submitted, may be reviewed directly in a certiorari proceeding, or on quo warranto, or by appeal, but such decisions are not subject to collateral attack, unless the body acted without jurisdiction or in violation of a constitutional provision

Under various statutes matters with respect to the organization and validity of a water district, which have been passed on judicially by the body to which they have duly been submitted, may be reviewed directly<sup>87</sup> in a certiorari proceeding,<sup>88</sup> but quo warranto by or on behalf of the state is the proper method of questioning the validity of the organiza-

tion of a water district organized under some statutes<sup>89</sup> An appeal to the courts from a finding and determination of the board vested with authority in the matter as to the sufficiency of a petition submitted to such board is sometimes authorized<sup>90</sup> The validity of the formation of a water district may not be considered in an action in which it is not the subject<sup>91</sup>

*Collateral attack* Where the body to which a petition for organization is made acts judicially in deciding certain matters, the decision of such body is not subject to collateral attack<sup>92</sup> On the other hand, where the acts of the board before which a proceeding to establish a district has been conducted are illegal and beyond the scope of the jurisdiction of such board, its decision is subject to collateral attack<sup>93</sup> Likewise, where there has been an attempt to create a water district under an act held invalid as violative of a constitutional provision, the validity of such district may be attacked in a collateral proceeding<sup>94</sup> A suit to enjoin the levying of assessments against property in a water improvement district and to remove a cloud caused by the creation of the district constitutes a collateral attack on the finding of county commissioners in the organization proceedings,<sup>95</sup> as does a suit to enjoin the collection of a tax on property in the district,<sup>96</sup>

#### Publication

Metropolitan Water District Act was not unconstitutional in providing notice of election on organization of district by publication in newspaper in each county in which any part of proposed district should be, instead of requiring that such notice should be printed in each of cities or towns within proposed district—*Lehi City v Meiling*, 48 P 2d 530, 87 Utah 237

84. Or—*Smith v Hurlburt*, 217 P 1093, 108 Or 690

95. Okl—*Wrightsmen v Stephenson*, 33 P 2d 499, 168 Okl 63—*Price v Water Dist No 8, Tulsa County*, 293 P 1092, 147 Okl 11

96. Or—*Smith v Hurlburt*, 217 P 1093, 108 Or 690

67 C J p 1166 note 42.

or a suit to enjoin the persons appointed directors of a water district from canvassing and declaring the results of the election for the confirmation of the district and to enjoin them from performing their duties as directors of the district<sup>97</sup> Such an attack, it has been held, is controlled by legal rules relating to collateral attacks on judgments of courts<sup>98</sup>

**Persons entitled to attack** Under some statutes any interested person affected thereby may attack the creation and organization of a water district<sup>99</sup> A suit by a taxpayer attacking the organization of a water district has been upheld<sup>1</sup> It has been held that plaintiff in a suit for a declaration of the illegality of proceedings for the creation and organization of a waterworks district cannot successfully complain of a matter which does not affect his interests<sup>2</sup> A mere ministerial officer holding office under the authority of the district may not in his official capacity dispute the existence, or the validity of the organization, of such district<sup>3</sup> A person may waive or be estopped to attack the organization and operation of a water district<sup>4</sup> Landowners who have consented to, or encouraged, the organization of a water district may thereby be

estopped to attack in equity the organization of the district on the ground of lack of opportunity to be heard as to the boundaries of the district and the inclusion of their lands<sup>5</sup>

**Time to sue** Under some statutes an action attacking the validity of a water district must be brought within a reasonable time<sup>6</sup> An attack on the organization of a waterworks improvement, under certain general statutes governing local improvements, on the ground that the petition was not signed by a majority in value of the property owners, is barred where suit is not brought within a certain time after the passage of the ordinance ascertaining that a majority in value of the owners had signed the petition<sup>7</sup>

**Pleading** In a suit to prevent further proceedings, under the applicable statute, looking to the organization of a water district, based on alleged defects in the preliminary proceedings before the public body designated by the statute, the complaint must allege facts sufficient to show grounds for relief<sup>8</sup>

**Evidence.** In actions attacking the organization of a water district the general rules of evidence apply<sup>9</sup>

97. Tex.—Lovett v Cronin, Civ App, 245 S W 2d 519

**Evidence** was held sufficient to establish that petition for creation of district was filed with county clerk when election was ordered and was available for inspection by public—Lovett v Cronin, supra

98. Okl.—Price v Water Dist No 8, Tulsa County, 293 P 1092, 147 Okl 11

#### Issues

Where the organization of a water improvement district is attacked in a collateral proceeding, the court may determine only two things, first, did the board or tribunal designated by the statute have jurisdiction to act, and, second did it act?—Wrightman v Stephenson, 33 P 2d 499, 168 Okl 63—Price v Water Dist No 8, Tulsa County, 293 P 1092, 147 Okl 11

§ 243(3). — Territory Included

Subject to constitutional prohibitions or limitations, the permissible territorial extent of a water district and what lands may be included therein are determined by the provisions of the statutes which authorize its formation or organization.

In the absence of constitutional prohibitions or limitations the legislature may decide how the boundaries of a water district may be determined,<sup>10</sup> and the questions as to what the territorial extent of a water district may be<sup>11</sup> and what lands may be included<sup>12</sup> are, in general, determined by the provisions of the statute authorizing the formation or organization of the district. Under some statutes lands capable of being benefited by the improvement, and only such lands, may be included within a water district,<sup>13</sup> and noncontiguous tracts of land may be included within the same district<sup>14</sup>. Also, under some statutes two or more water districts may be created which embrace the same area or portions of the same area<sup>15</sup>.

Dependent on the terms of the particular statute, it has been variously held that a water district may or may not include cities or towns,<sup>16</sup> or may be either greater, or smaller, or coterminous with another political subdivision or municipality,<sup>17</sup> or, on the other hand, that it may not include territory within an incorporated city or town,<sup>18</sup> or may not be organized so as to include areas within an incorporated village.<sup>19</sup> Where a water district is organized under a statute which prohibits the inclusion therein of areas within an incorporated village and subsequently an incorporated village is carved out of territory embraced within the district, the village in legal effect ceases to be a part of such district, except as to rights and liabilities already created.<sup>20</sup> Under some statutes, any municipality defined by the act may create a water district and construct, operate, and maintain a water system which may be located wholly within or wholly without the municipality, or partially within and partially without the municipality.<sup>21</sup>

**Consent**

A county may create a water district embracing therein a city lying within the boundaries of the county, without the assent of the city—City of Trenton v Dade County, 43 SE 2d 432, 75 Ga App 326

16. Tex.—Ptacek v Hofheinz, Civ App, 128 S W 2d 872, error refused

**Area contiguous to municipality** may be erected into fresh water supply district—Ptacek v Hofheinz, *supra*

17. Utah—Lehi City v. Meiling, 48 P 2d 530, 87 Utah 237

**One or many cities**

On the question of legislative power, it is not material whether the district is composed of the area included within one city or of many cities and towns—Provo City v Evans, 48 P 2d 555, 87 Utah 292.

**Town**

A water district may or may not be co-extensive in territory with a town—Grishaber v Town of Callicoon, 27 N Y S 2d 522, 176 Misc 323, reversed on other grounds 33 N Y S 2d 508, 263 App Div 471.

18. Or—State, on Inf of Flaxel, v Chandler, 175 P 2d 448, 180 Or 28

19. N Y—Rinas v Duryea, 106 N Y S 2d 151, 278 App Div 419, appeal denied 106 N Y S 2d 766, 278 App Div 419, affirmed 107 NE 2d 80, 304 N Y 586

**Statutory plan** created by legislature in provision of town law authorizing establishment and extension of water supply district and provision of village law conferring power on board of trustees of village to establish water supply system was that water district should render services to areas outside of incorporated village, but that villages should render such services within their territorial limits—Rinas v Duryea, *supra*

20. N Y—Rinas v Duryea, *supra*  
67 C J p 1176 note 20

**Permanency of rights**

There is no statutory authority granting special water district any permanent vested right to serve its territory—Rinas v Duryea, *supra*

**Right to serve**

Where village was incorporated in area which was part of water district, water district might continue to function within such portion of village as it was servicing prior to incorporation, but it had no vested right to furnish water to other areas within corporate limits which were previously undeveloped and unserved, and village had full authority to contract for water for such areas from such sources as it saw fit, subject only to approval of water power and control commission—Rinas v Duryea, *supra*

21. Ga.—City of Trenton v Dade County, 43 SE 2d 432, 75 Ga App 326.

**Right to object** In general, persons who are not owners of certain lands included in a water district may not object to the inclusion of such lands<sup>22</sup> Unreasonable delay or failure to object may estop a person from asserting, or waive, any right he may have had to object to the inclusion of his land in a water district in its formation, or by subsequent annexation<sup>23</sup>

**Review** Certiorari will not lie to review a determination by a body, acting within the scope of its jurisdiction, as to whether or not certain lands would be benefited by the creation and operation of the proposed district where such determination is based on conflicting evidence<sup>24</sup> Under some statutes the action of the board of county commissioners of a proposed water improvement district in the county in excluding certain land from the district may be appealed from, but the decision may not be attacked collaterally<sup>25</sup>

### § 243(4). — Governing Body; Officers

In general, the governing bodies of water districts and officers thereof are provided for by the statutes under which the districts are organized, which determine their method of selection, tenure, and powers

In the absence of constitutional provision to the contrary, the governing body of a water district, and the tenure of its members, are as provided by the statutes governing such bodies<sup>26</sup> Such bodies are

statutory, and they have no powers other than those given to them by statute<sup>27</sup> The powers conferred on the members of such a body as a body may not be exercised except as a body, that is, by the members acting collectively,<sup>28</sup> and then only in conformity with such procedure as may be prescribed by statute<sup>29</sup> Under some statutes, the board of directors of a water district is the governing body of such district in substantially the same sense as are city councils or boards of trustees of municipalities or of other quasi-municipal agencies<sup>30</sup> Officers to whom is intrusted the conduct of the affairs of a water district are public officers<sup>31</sup> They are not a municipal or a quasi-municipal corporation,<sup>32</sup> or a quasi corporation<sup>33</sup> where such a character is not expressly given by statute and a quasi-corporate capacity is not essential to the proper conduct of their office.

Under some statutes, it has been held that commissioners of a water district are merely administrative officers,<sup>34</sup> with power to make contracts in their official name and capacity,<sup>35</sup> and that they are not agents of the town in which the district is located or of the town board,<sup>36</sup> or town officers,<sup>37</sup> or agents of the district<sup>38</sup> The auditor of a water district has been regarded as a purely ministerial officer<sup>39</sup> and, as such, subject to the control of the board of directors of the district<sup>40</sup>

38. NY—People ex rel Farley v Winkler, 96 NE 928, 203 NY 445

39. Cal—Marin Municipal Water Dist v Dolge, 158 P 187, 172 Cal 724

40. Cal—Marin Municipal Water Dist v Dolge, supra.

*Method of selection* In the absence of constitutional provision requiring otherwise, the choice of methods by which the governing body of a water district and other officers thereof may be selected is within the discretion of the legislature, and is as provided by the statutes governing such bodies <sup>41</sup> The legislature may require that directors of a water district shall be chosen by a majority of the votes cast at the election <sup>42</sup>

*Transfer to town boards* Where the legislature abolishes the separate governing bodies of water districts within towns and vests their powers in the respective town boards, it is intended that the town boards shall perform the functions of the governing bodies which are abolished and manage the affairs and property of the water districts within their territory <sup>43</sup>

*Liability to third persons* Officers of a water district, organized under some earlier statutes, were themselves liable in their official capacity on contracts made by them in such capacity, <sup>44</sup> but were not personally liable on their official contracts <sup>45</sup> The right of a bank which is liable to a water district on the theory that it had received from an officer of such district funds of the district with no-

tice of their trust character, which were misappropriated by such officer, to recover over against other officers of such district because of their alleged failure to prevent such misappropriation, has been denied where there was no showing of direct participation by such other officers in the fraudulent acts of the defaulting officer <sup>46</sup>

*Bond for faithful performance of duties* Immaterial defects in recitals of a bond given, as required by law, for the faithful performance of the duties of an officer of a water district, as to the official designation of such officer do not invalidate the bond <sup>47</sup>

*Removal of officer* A special statute providing for the removal of officers of a water district usually takes precedence over an earlier general statute providing for the removal of officers <sup>48</sup> Under a statute authorizing the removal of an officer of a water district for neglect of duty on written charges and proper hearing, the charges should be specific so as to give the accused officer a fair opportunity to meet them <sup>49</sup> Under such statute the accused officer is entitled to a fair hearing <sup>50</sup> in which the witnesses must be sworn <sup>51</sup> and may be cross-examined <sup>52</sup> and in which the accused officer has the right to present testimony in his own defense <sup>53</sup> The view has

41. Utah—Lehi City v Meiling, 48 P 2d 530, 37 Utah 237

**Filling vacancy**

Under a statute intrusting the government of a waterworks district to a board of five members known as waterworks commissioners, three of whom are appointed by the police jury and two by the governor, the governor's right to fill a vacancy in office of any commissioner appointed by him was not bound by any petitions of the taxpayers of the district as to who the appointee should be, and it was not necessary that the appointee even be recommended—State ex rel Barre v Fulton, La App, 63 So 2d 21

**Qualifications of voters**

Statute which added to qualifications for electors in election for tax assessor and collector and for director of county water improvement district the qualification of ownership of taxable real property within the district and which eliminated the qualification that the elector must have resided in the district for the six months preceding the election was held unconstitutional—Snelson v Murray, Tex Civ App, 252 SW 2d 720

42. Cal—Martinelli v Morrow, 156 P 1017, 172 Cal 472  
67 C J p 1169 note 6

**Determination of election**

Fact that a majority of board of

directors of water improvement district assembled to canvass and declare result on an election held to elect members of the board were making an alleged incorrect declaration of the result of the election would not justify arbitrary conduct on part of the chairman of the board in refusing to permit a resolution favored by a majority to come to a vote—Williams v Sorrell, Tex Civ App, 71 SW 2d 944

**Right to contest election or sue for office**

Persons claiming that they were elected as members of board of directors of a water improvement district may contest the election or sue for the offices, irrespective of whether the board of directors of such district canvass and declare the result of such election—Williams v Sorrell, supra

43. NY—Grishaber v Town of Callicoon, 27 NYS 2d 522, 176 Misc 323, affirmed 33 NYS 2d 508, 263 App Div 471

been taken that a board which has commenced a hearing on charges is bound to proceed to a determination thereof,<sup>54</sup> and may not unduly harass the accused officer and subject him to unnecessary hearings<sup>55</sup>

If a hearing has proceeded to a final determination and the charges have been dismissed, the board, in the absence of express authorization, is without authority to retry the accused officer on the same charges<sup>56</sup> Under certain statutes a majority of the members of the body authorized to hear charges against such officer may hear and determine the charges<sup>57</sup> The right of such officer to a review by certiorari of a determination adverse to him by a board authorized to try him for neglect of duty on written charges and proper hearing has been recognized,<sup>58</sup> and in such proceeding the court may determine whether the charges, if proved, are sufficient to warrant removal<sup>59</sup>

## § 243(5). — Powers, Duties, Contracts, Property, and Liabilities

- a In general
- b Construction or acquisition of water-works

### a. In General

Water districts can exercise only such powers as are granted them by statute, and they have such duties and liabilities as are imposed on them by statute or assumed by valid contract

Water districts can exercise only such powers as they are authorized by statute to exercise,<sup>60</sup> and they can exercise no power that has not been clearly granted<sup>61</sup> They possess such powers as are expressly granted by statute,<sup>62</sup> and also those necessarily or fairly implied, or incident to the powers expressly granted,<sup>63</sup> or essential to the accomplishment of the declared objects and purposes of the water district<sup>64</sup> The legislature has plenary pow-

Debts see infra § 243 (6)

Power of water districts or officials to exercise right of eminent domain see Eminent Domain § 23

Supplying water to inhabitants of community as a public use for which private property may be taken under the power of eminent domain see Eminent Domain § 45

### Power of legislature

Legislature is without power to add to, or withdraw from, circumstances and purposes specified in constitution for which water control and improvement districts might be organized, but legislature can grant districts only such powers and rights as come within contemplation or provisions of constitution—Deason v Orange County Water Control & Imp Dist No One, 244 S W 2d 981, 151 Tex 29

### Examination of statutes

In determining the corporate powers of water districts, it is necessary to examine in some detail the legislative acts and the constitutional basis

on which they rest—Lower Nueces River Water Supply Dist v Cartwright, Tex Civ App, 274 S W 2d 199, error refused no reversible error

### Home rule

The people of water district did not have the power to determine for themselves such corporate functions as they might wish to inaugurate, such as are granted to cities and towns operating under home-rule charters—Tri-City Fresh Water Supply Dist No 2 of Harris County v Mann, 142 S W 2d 945, 135 Tex 280

### Discretion

Where commissioners of water district undertake to do nothing except what they are authorized by statute to do, the manner in which their duty is performed is largely a matter within their discretion—Page v Highway No 10 Water Pipe Line Imp Dist No 1, 145 S W 2d 344, 201 Ark 512

### Facilities for fighting fires

(1) Water districts were not authorized to purchase, own, and operate fire engines, fire-fighting equipment, and appliances—Deason v Orange County Water Control & Imp Dist No One, 244 S W 2d 981, 151 Tex 29—Tri-City Fresh Water Supply Dist No 2 of Harris County v Mann, 142 S W 2d 945, 135 Tex 280

(2) Constitutional provision was held not to authorize water control and improvement districts, created for purpose of conserving and developing natural resources of district, to provide fire-fighting equipment and appliances for towns within such districts—Deason v Orange County Water Control & Imp Dist No One, supra

(3) Water district was held to have no authority under statute to provide

fire-fighting equipment in addition to water distribution facilities and to pay for the equipment with part of the proceeds of bonds, but the district was held to have the power to install necessary or proper fire hydrants or other similar facilities making water available for fighting fires—Theobald v Board of Com'rs of Buechel Water Dist, 157 S W 2d 285, 288 Ky 720

### Sewerage system

Tex—Tri-City Fresh Water Supply Dist No 2 of Harris County v Mann, 142 S W 2d 945, 135 Tex 280  
Utah—Lehi City v Meiling, 48 P 2d 530, 87 Utah 237

64. Ky—Olson v Preston St Water Dist No 1, 163 S W 2d 307, 291 Ky 155

Utah—Lehi City v Meiling, 48 P 2d 530, 87 Utah 237.

er within constitutional limitations to change<sup>65</sup> or revoke<sup>66</sup> powers conferred on a municipal utility district, involving matters of water supply

Where a water district is regarded as a municipal corporation or as a quasi-municipal corporation, as discussed supra § 243(1), in general its powers,<sup>67</sup> duties,<sup>68</sup> and liabilities<sup>69</sup> are measured by the same standards as are used in determining the powers and duties of a municipal corporation generally when exercising the same functions under the same circumstances. A water district has power to furnish water to a prior claimant outside its territory, where it is necessary so to do in order to operate its projects.<sup>70</sup>

Under some statutes, on the completion of a waterworks plant, the governing body of the water district continues to operate the plant until it has paid off all the indebtedness of the district, and then it is its duty to turn over the plant to the city in

which the district is located;<sup>71</sup> but any excess money remaining in the hands of the governing body after it has turned over the plant to the city is to be distributed to the property holders of the district and not turned over to the city.<sup>72</sup> Some statutes have made provision for an adjustment in respect of the property of a water district where a part of such district is included in the boundaries of a village incorporated after the creation of the water district.<sup>73</sup>

*Sale of property.* Notwithstanding the execution of an option to purchase land of a water district was not authorized, subsequent action of the board of directors of such district sustaining the option has been regarded as sufficient to render the option effective,<sup>74</sup> and the contention that the purchaser could not accept a secret profit because acting in a fiduciary capacity is not available, where the vendor water district has duly ratified the option with knowledge of the purchaser's claims.<sup>75</sup> On the sale

#### Purchase and sale of water

County water control improvement district was authorized to purchase water, either raw or filtered, from source beyond district's boundaries for purpose of distribution to users within district—*King v Jefferson County Water Control & Imp Dist* No 7, Tex Civ App, 281 SW 2d 185

66. Cal—Metropolitan Water Dist of Southern California v Whitsett, 10 P 2d 751, 215 Cal 400—General Engineering & Dry Dock Co v East Bay Municipal Utility Dist, 14 P 2d 828, 126 Cal App 349

67. Cal—State v Marin Municipal Water Dist, 111 P 2d 651, 17 Cal 2d 699

Me—Woodward v Livermore Falls Water Dist, 100 A 317, 116 Me 86, L R A 1917D 678

#### Absence of police power

What is applicable to municipal corporations with respect to their powers is usually applicable to a water district, but with some limitations, since water districts do not possess broad police powers to do those things which are necessary to promote the public health and general welfare, which are ordinarily expressly delegated by statute to cities and towns—*Tri-City Fresh Water Supply Dist* No 2 of Harris County v Mann, 142 SW 2d 945, 135 Tex 280

#### Sale of water

It is a governmental function of water control and improvement districts, and one involving exercise of police power, to determine whether

they have or will have surplus water for sale, the people and lands most in need of and most entitled to such surplus, and the people to whom and conditions upon which any such surplus will be sold, and this duty and right may not be ceded, bartered, or contracted away—*Banker v Jefferson County Water Control & Imp Dist* No One, Tex Civ App, 277 SW 2d 130

68. Me—Woodward v Livermore Falls Water Dist, 100 A 317, 116 Me 86, L R A 1917D 678  
67 C J p 1167 note 65

#### To furnish water

Water improvement district could not refuse to furnish water to animal hospital, the maintenance of which was neither illegal nor violative of any rule of public policy, on the ground that maintenance thereof violated zoning standard with respect to use of land outside city but within water district provided for in contract whereby city sold water to district for distribution for domestic use and district agreed not to furnish water to persons using property in a manner contrary to zoning standard—*Nueces County Water Improvement Dist* No 1 v Spring, Tex Civ App, 162 SW 2d 155

69. Me—Woodward v Livermore Falls Water Dist, 100 A 317, 116 Me 86, L R A 1917D 678  
Actions see infra § 243 (8)

70. Cal—City of Lodi v East Bay Municipal Utility Dist, 60 P 2d 439, 7 Cal 2d 316

71. Ark—City of Malvern v Young, 171 SW 2d 470, 205 Ark 886

#### Alternative courses

Under statutes relating to water-work districts, if statute subsequent-

ly enacted does not repeal prior one, commissioners of waterworks district may turn over operation of waterworks plant to the city immediately on completion of the works, or commissioners themselves may continue to operate water plant until they pay off all bonded indebtedness and then turn over works to city—*City of Malvern v Young*, supra

#### Elective system of operation

Provision of statute providing for an elective system of operation of public utilities in cities of second class and incorporated towns was held not to apply to waterworks district created under prior statute where it did not appear that the statute was ever attempted to be put into effect in city, and especially where it appeared that city was a city of the first class so that the statute was not applicable—*City of Malvern v Young*, supra

72. Ark—City of Malvern v Young, supra

#### Delinquent assessments

The commissioners of waterworks district were required to collect all delinquent assessments and take the money so received, together with excess money on hand after paying indebtedness, if any, and make distribution to property holders—*City of Malvern v Young*, supra

73. NY—Village of Mill Neck v Town of Oyster Bay, 185 NE 91, 261 NY 252, 185 NE 797, 261 NY 696

67 C J p 1168 note 74.

74. Cal—Haight v Marin Municipal Water Dist, 284 P. 926, 208 Cal 753

75. Cal—Haight v Marin Municipal Water Dist, supra.

of a waterworks plant by a waterworks district which had previously purchased the plant of an earlier district whose territory with other lands is comprised in that of the district first mentioned, and had included such plant in an enlarged plant, a distribution, in an equitable proceeding, of the cash proceeds of such sale and of profits of the operation of the enlarged plant on hand, on a pro rata basis among all property owners of the enlarged district, has been approved.<sup>76</sup> A water district authorized to construct a pipe line and then sell it can enter into a contract to sell it before it is built.<sup>77</sup>

**Contracts.** The power of water districts organized under some statutes to contract<sup>78</sup> in their corporate names<sup>79</sup> has been recognized, and where a valid contract has been entered into the water district is liable thereunder in accordance with its terms.<sup>80</sup> In order to be valid and binding, a contract must be executed by an agency of the water district duly and legally authorized to execute it,<sup>81</sup> and one who contracts therewith does so at his peril,

unless the contract is executed in the manner provided by statute.<sup>82</sup> Such contracts, in order to be valid and impose liability on the water district, must be executed by the governing body of the district, acting as an official body,<sup>83</sup> and, hence, a contract made with an individual member of the governing body is invalid and unenforceable against the district,<sup>84</sup> even though the district received benefits from services or materials furnished thereunder.<sup>85</sup>

Contracts made by the governing body of a water district for it or on its behalf are invalid and unenforceable where a member or members of the governing body are interested, either directly or indirectly, in it,<sup>86</sup> as where the contract is made with a corporation in which a member of the governing body of the water district, or his spouse, is a stockholder.<sup>87</sup> In such case, the contract is void from its inception and cannot be ratified or vitalized,<sup>88</sup> although where a statute prohibits such contracts, but does not declare them null and void, and the contract has been performed by the parties in good

76. Ark—Ogan v Jackson, 300 SW 446, 175 Ark 820

**Other government agencies**

Public water supply district had power to contract with other governmental agencies—Public Water Supply Dist No 2 of Jackson County v State Highway Commission, Mo., 244 SW 2d 4

**Agreement not to exercise power**

Provision that district would not use water lines to supply water to anyone except those within subdivision was illegal and void as an attempt to abdicate district's police power—Banker v Jefferson County Water Control & Imp Dist No One, Tex Civ App, 277 SW 2d 130

79. Tex—State v Stickle, Civ App, 11 SW 2d 837

80. US—McCarthy v. Potts, CCA NY, 99 F 2d 784

**Condition**

A condition, in contract for employment of engineer by commissioners of water district, that engineer should have no claim for compensation if formation of district should be held illegal, was eliminated by decision of court that the water district had been legally created, notwithstanding subsequent action by State Water Control Commission rejecting the plans for the district.—McCarthy v. Potts, supra.

**Compensation to employee**

Where commissioners of water district arranged to pay cash to engineer for his work under former contract on plans rejected by State Water Control Commission, in addition to commissions for subsequent construction, the cash payment was not "extra compensation" forbidden by state Constitution, since it was for services not covered by the new contract—McCarthy v Potts, supra

**Liability of person employed**

Under statute governing reorganization of Massapequa Water District, and providing that obligation of existing contracts should be a charge on the new district, obligation of existing employment contract would not be binding on the person employed, so as to require him to do work of fundamentally different nature—McCarthy v Potts, supra

81. Ky—Louisville Extension Water Dist v Diehl Pump & Supply Co, 246 SW 2d 585

**Formalities required of municipalities**

A water district must observe the same formalities in the execution of contracts with third parties as are required of counties and municipalities—Louisville Extension Water Dist v Diehl Pump & Supply Co, supra

82. Ky—Louisville Extension Water Dist v Diehl Pump & Supply Co, supra

83. Ky—Louisville Extension Water Dist v Diehl Pump & Supply Co, supra

84. Ky—Louisville Extension Water Dist v Diehl Pump & Supply Co, supra

85. Ky—Louisville Extension Water

Dist v Diehl Pump & Supply Co, supra

**Implied contract**

A promise by water district to pay for benefits received from materials and services furnished it will not be implied—Louisville Extension Water Dist v Diehl Pump & Supply Co, supra

**Emergency**

Materials and services held not furnished during an emergency so as to constitute request therefor by a single commissioner a valid contract enforceable against the district—Louisville Extension Water Dist v Diehl Pump & Supply Co, supra

**Services in organizing district**

Freeholders seeking to organize city water district had no authority to bind it by contract with attorney for rendition of legal services in organizing district, and district and its board of water commissioners were not bound to pay reasonable value of such services because of their acceptance thereof—Louisville Extension Water Dist v Sloss, 236 SW 2d 265, 314 Ky 500

86. Ark—Gannt v Arkansas Power & Light Co, 74 SW 2d 232, 189 Ark 449

87. Ark—Gantt v Arkansas Power & Light Co, 109 SW 2d 1251, 194 Ark 925—Gannt v Arkansas Power & Light Co, 74 SW 2d 232, 189 Ark 449

88. Ark—Gantt v Arkansas Power & Light Co, 109 SW 2d 1251, 194 Ark 925

**By city council**

Contract cannot be vitalized by subsequent ratification by city council—Gannt v. Arkansas Power &

faith, the corporation may retain out of the proceeds received from the operation thereof the reasonable value of the services rendered.<sup>89</sup> The liability of a town on contracts made by officers of a water district in such town has been denied,<sup>90</sup> as has the responsibility generally of the town for the acts of the water district.<sup>91</sup>

*Extension of contract for electric service* Where a contract for furnishing electric current by a public service corporation to a waterworks district provides that the district may extend the term of the contract for an additional specified term by giving written notice of its intention so to do, no extension occurs where no notice of any kind is given by the district.<sup>92</sup>

*Nature of business.* There is authority for the view that in supplying water to its inhabitants a water district is engaged in a business of a private nature.<sup>93</sup>

#### b. Construction or Acquisition of Waterworks

The legislature may authorize a water district to construct and maintain a system of waterworks or to acquire an existing system by purchase.

The legislature may authorize a water district to

construct and maintain a system of waterworks,<sup>94</sup> and the legislative power of regulation and control of the affairs of a water district organized under statute, as discussed supra § 243(1), includes the power to prescribe the conditions on which the statute will permit public work to be done in connection with the construction of a water system.<sup>95</sup> Statutes have existed under which a water system belonged to the water district and not to the town in which the district was located,<sup>96</sup> and, under such a statute, a town had no power to construct a water system for a district in such town.<sup>97</sup>

The power of a waterworks district to construct a waterworks system implies power to buy material necessary for the construction of the system.<sup>98</sup> Under various statutes, water districts have been held authorized to construct dams and reservoirs,<sup>99</sup> and to acquire lands and property outside its boundaries for the construction of dams and reservoirs.<sup>1</sup> The power of a water district or the officials thereof to buy lands or other property necessary to the construction or extension of a water system by implication imports authority to make an agreement as to the terms of purchase, with reasonable provisions incidental thereto.<sup>2</sup> The rights and liabilities of

Light Co., 74 SW2d 232, 189 Ark 449

#### Not a franchise

Where contract whereby waterworks district surrendered privilege of furnishing consumers in district with water to corporation in which commissioners of district were stockholders was void from its inception, and at time it was ratified by city council, the void contract could not be considered as a franchise to operate waterworks system—*Gantt v Arkansas Power & Light Co.*, 109 SW2d 1251, 194 Ark 925

89 Ark—*Gantt v Arkansas Power & Light Co.*, 109 SW2d 1251, 194 Ark 925—*Gantt v Arkansas Power & Light Co.*, 74 SW2d 232, 189 Ark 449

90 NY—*People ex rel Farley v Winkler*, 96 NE 928, 203 NY 445 67 C.J. p 1168 note 72

#### Legal services

An item in town budget for services rendered by attorney for town in litigation against town and water district growing out of contract created by water commissioners for benefit of district was an existing obligation of water district, and was properly assessed upon district rather than upon town as a whole—*Coggeshall v Hennessey*, 18 NE2d 652, 279 NY 138

91. NY—*Holroyd v Town of Indian Lake*, 73 NE 36, 180 NY 318

98 La—*Maggiore v East Jefferson Waterworks Dist No 1*, 147 So 693, 177 La 88

99 Tex—*Lower Nueces River Water Supply Dist v Cartwright*, Civ App, 274 SW2d 199, error refused no reversible error

1. Tex—*Lower Nueces River Water Supply Dist v Cartwright*, supra

2. Mass—*Boston & A. R. Co v Commonwealth*, 6 NE2d 613, 296 Mass 426

#### Approval of contract

(1) Metropolitan district water supply commission was held authorized by statute in behalf of commonwealth to enter into agreement with railroad for abandonment and flooding of its right of way for purpose of establishing a metropolitan water supply without requiring the approval of governor and council as a prerequisite to its validity, where provisions of statute appropriating funds and limiting expenditures to such amount in the aggregate as the governor and council might approve were complied with—*Boston & A. R. Co. v Commonwealth*, supra

(2) Failure of governor and coun-

the parties under a contract by a water district for the construction of a water system, or a part thereof, are determined in accordance with the rules governing construction contracts generally<sup>3</sup>

The view has been taken that a statutory provision permitting a contractor to make application to a court for the payment to him of the balance of the amount due him, in the hands of a municipal corporation, in excess of the amount claimed in a notice of lien against the amount so due, does not apply so as to permit an assignee of the amount due to the

contractor from a water district for the construction of a dam and reservoir to claim the benefit of such statutory provision<sup>4</sup>

*Acquisition of existing system* In the absence of constitutional restrictions the legislature has authority to confer on a water or waterworks district the power to acquire by purchase or the exercise of the power of eminent domain an existing waterworks system,<sup>5</sup> and, when duly authorized, a water district may acquire an existing waterworks system<sup>6</sup> by purchase thereof from the owner of the

cil to approve agreement of metropolitan district water supply commission with railroad to alter, relocate, or discontinue railroad rights of way did not preclude railroad from recovering agreed compensation for abandonment of its right of way, in view of statutes requiring such approval only in other specific instances and statutes requiring agreements to be approved only by the federal authority and state authority—*Boston & A R Co v Commonwealth*, supra

#### Funds

Where there was an adequate appropriation for the general cost, bonds were issued, and funds were available in sum sufficient to pay railroad under agreement compensating it for abandonment of its right of way, which was to be flooded by metropolitan district water supply commission in establishing a water supply for the metropolitan water supply system, presumption obtained that railroad was entitled to be paid from such funds—*Boston & A R Co v Commonwealth*, supra

#### 3. Liability of surety on contractor's bond

Where bond of public improvement contractor to water district obligated contractor and surety to pay all persons for labor and materials and gave all persons performing labor or furnishing materials a direct right of action on bond, surety was liable to all claimants proving claims for furnishing labor or materials in connection with the construction contract, notwithstanding such claimants were not entitled to share in fund remaining in the hands of municipal officials—*American Surety Co of New York v Wells Water Dist*, 1 NYS 2d 614, 253 App Div 19, 254 App Div 717, affirmed *American Surety Co of New York v Wells Water Dist*, Town of Wells, 19 NE2d 926, 280 NY 528, motion denied 20 NE2d 1023, 280 NY 673

#### Agreement to pay bank advancing pay roll and other monies

Instrument whereby public improvement contractor authorized water district to pay bank, which had advanced money to pay pay roll and balance due for material, all moneys

earned or to be earned under construction contract did not constitute an "assignment" but merely authorized bank to act as agent for contractor, as against bank's contention that it was entitled to a lien—*American Surety Co of New York v Wells Water Dist*, 1 NYS 2d 614, 253 App Div 19, 254 App Div 717, affirmed *American Surety Co of New York v Wells Water Dist*, Town of Wells, 19 NE2d 926, 280 NY 528, motion denied 20 NE2d 1023, 280 NY 673

#### Contractor's failure to terminate for breach

Contractor could not recover on theory of rescission of construction contract almost two years after alleged breach by water district, in view of change of position rendering recovery inequitable, where district's suspending contract did not terminate all of contractor's obligations—*Wenzel & Henoch Const Co v Metropolitan Water Dist of Southern California*, CCA Cal, 115 F2d 25, certiorari denied 61 S Ct 834, 313 US 560, 85 L Ed 1520

#### Suspension for unreasonable delay

(1) The opinion of a water district's chief engineer that work on a tunnel was unnecessarily and unreasonably delayed within a provision authorizing suspension of the contract is final and conclusive on the contractor, in the absence of fraud—*Wenzel & Henoch Const Co v Metropolitan Water Dist of Southern California*, supra—*Wenzel & Henoch Const Co v Metropolitan Water Dist of Southern Cal*, DCCal, 18 F Supp 616

(2) A water district engineer's certificate of compliance with construction contract does not estop the district from charging unreasonable and unnecessary delay, where provision of contract precludes estoppel and provides that acceptance of work shall not constitute waiver of contractual requirements—*Wenzel & Henoch Const Co v Metropolitan Water Dist of Southern California*, CCA Cal, 115 F2d 25, certiorari denied 61 S Ct 834, 313 US 560, 85 L Ed 1520

(3) A geological report regarding probable conditions of work, and

specifications regarding materials probably needed, do not support claim of misrepresentation so as to preclude water district from suspending contract under terms thereof because of unreasonable delay, where the contractor is expressly required to bear losses resulting from unforeseen difficulties due to nature of ground, etc—*Wenzel & Henoch Const Co v Metropolitan Water Dist of Southern California*, CCA Cal, 115 F2d 25, certiorari denied 61 S Ct 834, 313 US 560, 85 L Ed 1520

(4) Breach of construction contract by water district's withholding monthly progress payment until satisfied as to status of construction fund was not such breach of entire agreement as would prevent district from subsequently suspending contract under terms thereof because of unnecessary and unreasonable delay, nor was contractor relieved from duty of surrendering possession of works, etc, pursuant to contract—*Wenzel & Henoch Const Co v Metropolitan Water Dist of Southern California*, CCA Cal, 115 F2d 25, certiorari denied 61 S Ct 834, 313 US 560, 85 L Ed 1520

4 NY—In re *Butting & Stanz*, 256 NYS 625, 143 Misc 381

5. La—*Middleton v Police Jury*, Parish of Jefferson, 125 So 447, 169 La 458

Me—*Kennebec Water Dist v Waterville*, 52 A 774, 96 Me 234

6 Cal—*East Bay Municipal Utility Dist v Railroad Commission of California*, 229 P 949, 194 Cal 603 67 CJ p 1169 note 89

#### Rights acquired

Where municipal water district acquired all assets and property of its predecessor in interest but the predecessor in interest possessed no more than a franchise from board of supervisors of county for construction of water main along street, the district acquired no rights greater than a franchise—*State v Marin Municipal Water Dist*, 111 P2d 651, 17 Cal 2d 699

#### Conveyance of streets containing water mains

Private development company's

system<sup>7</sup> Where, however, the legislature authorizes a water district to acquire an existing system by a certain method, the district is confined to such method,<sup>8</sup> and the legislature, in the absence of constitutional restrictions, may revoke the authority before it has been exercised by the district<sup>9</sup>

<sup>5</sup> *Use of streets and highways.* A water district has been held authorized to lay its water mains in public highways, roads, streets, and alleys included in the district,<sup>10</sup> but the right so to do is not absolute and is subject to the reasonable rules and regulations of governmental bodies having jurisdiction of such places<sup>11</sup> The duty to extend a water main into a private way is dependent on the controlling statute<sup>12</sup>

deed to town of streets did not convey title to water mains in streets laid out by company, with respect to validity of company's claim against town water district for reimbursement for laying water mains—*Amity Holding Corporation v Eden*, 265 N Y S 23, 238 App Div 628

7. Ky—*Ryan v Commissioners of Water Dist No 1 of Kenton County*, 295 S W 1023, 220 Ky 822 67 C J p 1169 note 90

#### Outside district

Under statute granting water supply districts power to obtain a supply of water and furnish it to residents of water districts as established by the court and expressly providing a method by which the territorial limits of established districts may be enlarged, a water supply district was without power to purchase a supply system which was partly within and partly without the boundary of the district as established—*Olson v Preston St Water Dist No 1*, 163 S W 2d 307, 291 Ky 155

8 Me—*Guilford & Sangerville Water Dist v Sangerville Water Supply Co*, 154 A 567, 130 Me. 217

#### Purchase held not shown

Statements and acts of individual members of town water board was held not construable as purchase or agreement to purchase by town water board of water mains installed by development company—*Amity Holding Corporation v Eden*, 265 N Y S 23, 238 App Div 628

9. Me—*Guilford & Sangerville Water Dist v Sangerville Water Supply Co*, 154 A 567, 130 Me 217

10. Mo—*Public Water Supply Dist No 2 of Jackson County v State Highway Commission*, 214 S W 2d 4

#### Nature of right

The right conferred by legislature on municipal water district to construct and operate pipe lines along public highway of state is a "fran-

chise"—*State v Marin Municipal Water Dist*, 111 P 2d 651, 17 Cal 2d 699

11. Mo—*Public Water Supply Dist No 2 of Jackson County v State Highway Commission*, 244 S W 2d 4

#### Permissive right

Water district's occupancy of highway was permissive and incidental to primary and dominant purpose of highways and public's right therein—*Public Water Supply Dist No 2 of Jackson County v State Highway Commission*, supra

#### Police power

Statute authorizing state department to require municipal water district which maintains pipe line on state highway to relocate it at its own expense, when necessary to permit improvement of highway or to insure safety of traveling public, was valid exercise of "police power"—*State v Marin Municipal Water Dist*, 111 P 2d 651, 17 Cal 2d 699

#### Safety provisions

A municipal water district does not have authority to maintain pipes on highway in a position which does not afford security to life or property—*State v Marin Municipal Water Dist*, supra

#### Cost of change

(1) The burden of the cost of removing or relocating installations of water district in highway necessitated by highway reconstruction was held to fall on the water district—*Public Water Supply Dist No 2 of Jackson County v State Highway Commission*, Mo., 244 S W 2d 4

(2) Statute authorizing state Department of Public Works to require any "person" who maintains pipe line, etc in state highway to relocate line at owner's expense, when necessary to insure safety of traveling public, or to permit improvement of highway, was applicable to municipal water district organized under stat-

*Changes in plans.* Under some statutes the governing body of a water district may make minor or immaterial changes in the plans filed for the water system in the district, but major or material changes are not allowed<sup>13</sup>

## § 243(6). — Fiscal Management and Indebtedness

a In general

b Bonds

### a. In General

The authority and powers of a water district with respect to its fiscal management and indebtedness are measured and determined, subject to constitutional limitations and restrictions, by the powers specifically enu-

te conferring on district right to maintain pipe line along highways only in such manner as to afford security for life and property—*State v Marin Municipal Water Dist*, 111 P 2d 651, 17 Cal 2d 699

(3) Statute authorizing state public works department to require person who had placed pipe line "upon" state highway to relocate line at its own expense applied to water main of municipal water district notwithstanding the main was below the surface—*State v Marin Municipal Water Dist*, supra

#### Subject to change

A water district's right to occupy parts of the highway is not superior to that of any other authorized occupancy by a public utility, and is subject to changes and conditions necessitated by improvements by the appropriate dominant government agency having jurisdiction of the highways—*Public Water Supply Dist No 2 of Jackson County v State Highway Commission*, Mo., 244 S W 2d 4

12 N Y—*Entress v Sours*, 70 N Y S 2d 232, 272 App Div 861

#### Easement

Where it was not shown that town had an easement in private way into which petitioner sought to compel board of commissioners of water district to extend water main, statute regarding proceedings for water main was not applicable—*Entress v Sours*, supra

#### Unimproved area

Where there were no occupied dwellings abutting on private way into which petitioner sought to compel board of commissioners of water district to extend water main, statute regarding powers of town board with respect to improvement district was inapplicable—*Entress v Sours*, supra

13. Ark—*Adams v Highway 10 Water Pipe Line Imp Dist No. 4*, 230 S.W 2d 956, 217 Ark 473.

merated and expressly granted to it by charter or statutory provision and such incidental implied powers as are necessary to carry out its express powers and the object of its creation

The authority and powers of a water district with respect to the incurring of indebtedness, the disposition of its income, and the management otherwise of its fiscal affairs are measured and determined, subject to constitutional limitations and restrictions, by the powers specifically enumerated and expressly granted to it in its charter or the statutes under which it was organized and such incidental implied powers as are necessary to carry out its express powers and the object of its creation<sup>14</sup> This rule applies with respect to its operating expenses,<sup>15</sup> and with respect to financing renewals, extensions, additions, and improvements<sup>16</sup> The

authority of a waterworks district to mortgage the system to borrow funds necessary to make improvements has been recognized<sup>17</sup> Even though the reasonable expense of the organization of a district includes the cost of circulating a petition, the fact that the person who circulated such petition is an engineer may not be considered in determining the value of his services in this regard<sup>18</sup> Under some statutes the necessity of providing for certain items of the district budget out of water rents has been recognized<sup>19</sup> Some statutes have made provision for the apportionment of the obligations of a water district where a part of such district is included in the boundaries of a village incorporated after the creation of the water district<sup>20</sup> The governing body of a district cannot contract

14 Me—City of Waterville v Kennebec Water Dist., 25 A 2d 475, 138 Me 307

67 C J p 1170 notes 23–24

**District held authorized to contract indebtedness**

Mo—Grossman v Public Water Supply Dist No 1 of Clay County, 96 S W 2d 701, 339 Mo 344

**Distribution of proceeds of sale**

Statutory provision that on annexation of all or any part of territory of any water district by municipality any and all sums paid out by city in the purchase of the district's property shall be used to pay the bonds of the district, if any, and the remainder, if any, distributed to persons owning realty within the district violated the constitutional provision prohibiting the granting of public money or property to any private person, association, or corporation—State ex rel Public Water Supply Dist No 7, Jackson County v James, 237 S W 2d 113, 361 Mo 814

**Surplus for distribution**

(1) Under water district charter providing that any surplus remaining after payment of current running expenses, interest, and sinking fund payments should be divided between the municipalities composing the district, the district was not entitled to offset its annual water rate deficit against surpluses of rate revenues in subsequent years in determining whether it had improperly failed to distribute surplus—City of Waterville v Kennebec Water Dist., 25 A 2d 475, 138 Me 307

(2) In determining whether water district had improperly failed to distribute its surplus, water rate revenues only were to be considered and not income from sinking fund investments or other income items—City of Waterville v Kennebec Water Dist., supra

(3) Where district on two occasions had changed its fiscal year, it

was necessary to make additional pro rata allowances for depreciation and sinking fund payments to cover the longer periods involved in each instance, and to allocate those additional amounts against an apparent surplus which would otherwise have existed—City of Waterville v Kennebec Water Dist., supra

(4) The district was not authorized to fix rates calculated to provide a surplus, but surplus provision was included only because of impossibility of foretelling income with mathematical exactness—City of Waterville v Kennebec Water Dist., supra

15. Me—City of Waterville v Kennebec Water Dist., supra

**Compensation of employee**

Where tax books of water district were kept open all year, on audit of books of employee of improvement district receiving \$25 a month as secretary and additional \$25 a month while collecting taxes, employee was entitled to a salary credit of \$50 a month for entire year—Murphy v Marshall, 159 S W 2d 741, 203 Ark 986

**Depreciation charge held proper as current expense**

Me—City of Waterville v Kennebec Water Dist., 25 A 2d 475, 138 Me 307

**"Maintaining"**

The word "maintaining" as used in water district charter authorizing water district to pay current running expenses for maintaining the water district out of income included not only the annual up-keep or current maintenance, but also the operation of the system—City of Waterville v Kennebec Water Dist., supra

16. Me—City of Waterville v Kennebec Water Dist., supra

**Sinking fund**

(1) A sinking fund is a "trust fund," and bondholders of water district are entitled to have its integrity

maintained and to compel the restoration of moneys unlawfully diverted from it to other uses—City of Waterville v Kennebec Water Dist., supra

(2) Under provision of water district charter authorizing board of trustees to establish rates for water service sufficient to provide funds for a sinking fund, nothing could be set apart for sinking fund in absence of available income from rates for that purpose, and no deficiency in sinking fund payments in one year could be made a direct charge upon rate revenues of any other year, although default could be repaired by increased payments in succeeding years—City of Waterville v Kennebec Water Dist., supra

(3) Under water district charter authorizing board of trustees to establish rates for water service sufficient to provide funds for a sinking fund, subject to priority charges against rates for current running expenses, extensions and renewals, and interest on indebtedness, money available to cover minimum charter requirements with regard to payments to sinking fund could not be lawfully diverted to other uses—City of Waterville v Kennebec Water Dist., supra

17. Ark—Brown v Waterworks Improvement Dist No 1 of Ft Smith, 228 S W 371, 147 Ark 584  
67 C J p 1171 note 29

18. N Y—Morrison v Mack, 247 N YS 498, 232 App Div 718, affirmed 184 NE 123, 260 NY 632

19. N Y—In re Assessment of Water Tax in Water Dist No 3 of Town of Niskayuna, Schenectady County, 258 NYS 745, 236 App Div 294  
67 C J p 1171 note 31

20. N Y—Village of Mill Neck v. Town of Oyster Bay, 185 NE 91, 797, 261 NY 252, 696.

away discretionary powers vested in it with respect to the fiscal affairs of the district <sup>21</sup>

Some constitutional provisions which limit the amount of indebtedness which may be incurred by municipal corporations and like entities do not apply to districts organized under some statutes to acquire or construct and to operate water systems,<sup>22</sup> and in such case for any limitation as to the amount of indebtedness it is necessary to look to the statute under which the district is organized, in the absence of other applicable statutory limitations <sup>23</sup> The view has been taken that a contract for the purchase of apparatus by a waterworks district to be used in connection with the water supply system, which is to be paid for out of the savings in cost of operation effected by such apparatus, does not create a debt of the district,<sup>24</sup> and that the district need not comply, as a condition precedent to making such contract, with statutory requirements as to borrowing money and levying taxes for making improvements, repairs, and extensions <sup>25</sup> In the absence of constitutional provision to the contrary, a water district may contract debt, without reference to other districts or corporations, up to the separate constitutional or statutory limit fixed for it, and without reference to any other corporation em-

braced wholly or in part within its area <sup>26</sup>

*Giving or lending credit* A constitutional prohibition against a political subdivision giving or lending its credit or subscribing to stock or bonds in aid of any private individual or corporate enterprise or undertaking is not violated by legislation granting a water district broad financial powers for the purpose of the acquiring, developing, and use of water for public benefit <sup>27</sup> Where a district organized to acquire, construct, and operate a water system purchases all the stock and property of a water company, subject to a mortgage indebtedness, and assumes the unsecured indebtedness of such company, there is no giving or lending of credit of such district within the prohibition of a constitutional provision that the legislature shall have no power to authorize the giving or lending of credit of any political corporation or subdivision of the state, in aid of any person or corporation <sup>28</sup>

#### b. Bonds

In the absence of constitutional restrictions, a water district may issue bonds for such purposes as are within the scope of its charter or statutory authorization

Under various statutes water districts have been held authorized to issue bonds for designated purposes,<sup>29</sup> but the right of a water district to issue

21 Mo—Grossman v Public Water Supply Dist No 1 of Clay County, 96 S W 2d 701, 339 Mo 344

Tex—King v Jefferson County Water Control & Imp Dist No 7, Civ App, 281 S W 2d 185  
67 C J p 1171 notes 38-39

#### Change of policy

Amendment to water district's charter authorizing it to issue bonds for making renewals, extensions, additions, and improvements granted a power which was thereafter to be exercised as if contained in original act creating the district—City of Waterville v Kennebec Water Dist, 25 A 2d 475, 138 Me 307

#### Mandatory or permissive

Where water district's charter authorized it to pay for extensions and renewals out of income, the power granted to district by subsequent act authorizing it to issue bonds for making renewals, extensions, additions and improvements was permissive as to renewals and extensions, but mandatory as to additions and improvements—City of Waterville v Kennebec Water Dist, supra

Annexation of county water district to municipal utility district did not

prevent water district from exercising power to incur bonded indebtedness—Galt County Water Dist v Evans, 51 P 2d 202, 10 Cal App 2d 116

#### Status of governing board

Act empowering Board of Township Commissioners of Folly Island to issue waterworks revenue bonds of the township to defray costs of constructing waterworks system for township, and committing to board the function of constructing, operating, and maintaining waterworks system, was valid, irrespective of whether status of board, under legislation incorporating township, was de jure, de facto, or null and void—Wagener v Johnson, 76 SE 2d 611, 223 SC 470

#### Negotiable bonds

(1) A water district had power to issue negotiable bonds although such bonds would have lacked quality of negotiability had they been secured by a pledge of special assessment liens only—Olson v Preston St Road Water Dist No 1, 149 S W 2d 766, 286 Ky 66

(2) Any doubt as to the power of a water district to issue negotiable bonds should be resolved in favor of the existence of the power—Olson v Preston St Road Water Dist No 1, supra

#### Refunding bonds

Water district existing by virtue

bonds is subject to constitutional and statutory limitations and restrictions<sup>30</sup> Statutory provisions governing the mode of advertisement and sale of such bonds,<sup>31</sup> and of the disbursement and use of the proceeds arising from their sale<sup>32</sup> must be followed Under the construction given some statutes the governing body of the district may employ, and pay a commission to, a broker to effect the sale of bonds,<sup>33</sup> and it has been held that a public sale of bonds is not invalid because a price less than par and accrued interest is accepted as the best price

obtainable therefor and adequate under the circumstances<sup>34</sup> Bonds of a water district, payable out of taxes levied on the property in the district, constitute a contract between the taxpayers of the district and the bondholders<sup>35</sup>

Dependent on the terms of the bonds and of the constitutional and statutory provisions under which they were issued, bonds of a water district are secured by, and made payable from, taxes or assessments levied on property in the district, or from revenues received from the water system, or from

of assessments on property contained in district for payment of purchase price and maintenance was authorized to issue and sell refunding bonds with which to satisfy original assessment bonds—*Middendorf v Jameson*, 95 S W 2d 1057, 265 Ky 111

#### **Additions and improvements**

(1) Under special act authorizing water district to issue bonds to pay for additions and improvements, the term "additions and improvements" included additions to plant to meet increased demands for water, replacement of inadequate or worn out parts of the plant with something better suited to present needs, or alterations which were not mere acts of restoration involved in renewals or repairs—*City of Waterville v Kennebec Water Dist*, 25 A 2d 475, 138 Me 307

(2) Where only method by which water district was authorized to pay cost of necessary additions and improvements was through issuance of bonds, those items were to be charged as capital expenditures and amount so expended could not properly be deducted from rate revenues by the district in determining its distributable annual surpluses—*City of Waterville v Kennebec Water Dist*, supra

#### **Gas system**

(1) Under statute, water district was authorized to issue bonds for acquisition of gas system—*Fraleigh v Beaver-Elkhorn Water Dist*, Ky, 257 S W 2d 536

(2) Unless water district which elects to exercise statutory power to acquire and operate gas distribution system chooses to issue revenue bonds for combined water and gas system, pledging revenues of both systems for one bond issue, gas system will be wholly independent of water system, except for administration, and will not impose any burdens on property within district that could not have been imposed had legislature authorized establishment of separate gas district embracing same territory as water district—*Fraleigh v Beaver-Elkhorn Water Dist*, supra

#### **Bonds held not authorized**

(1) For water district's purchase of fire fighting equipment—*Deason v Orange County Water Control & Imp Dist No One*, 244 S W 2d 981, 151 Tex 29

(2) To purchase and install equipment for fire protection, or to construct, equip, and operate a sewerage system—*Tri-City Fresh Water Supply Dist No 2 of Harris County v Mann*, 142 S W 2d 945, 135 Tex 280

30 Tex—*Deason v Orange County Water Control & Imp Dist No One*, 244 S W 2d 981, 151 Tex 29  
67 C J p 1171 note 35

#### **Delay after authorization**

Where issuance of bonds by waterworks district has been duly authorized at election, bonds need not be sold within three years from date of election—*Bordes v East Jefferson Waterworks Dist No 1*, 172 So 8, 186 La 249

#### **Debt limitations**

(1) Water supply district's special obligation bonds payable out of revenue of waterworks system partly financed by general obligation bonds payable by taxation were not "debt" within constitutional limitation of indebtedness which district could incur—*Grossman v Public Water Supply Dist No 1 of Clay County*, 96 S W 2d 701, 339 Mo 344

(2) Refunding bonds proposed to be issued by water district payable solely out of revenue raised by assessments of property in district were not within inhibition of debt limitation of Constitution—*Middendorf v Jameson*, 95 S W 2d 1057, 265 Ky 111

(3) In constitution prohibiting political subdivision of state from issuing bonds in excess of ten per cent of assessed valuation of taxable property of subdivision to be "ascertained from the last assessment previous to incurring such indebtedness," quoted phrase was construed to mean previous to the election to incur the indebtedness—*Bordes v East Jefferson Waterworks Dist No 1*, 172 So 8, 186 La 249

(4) Water district was authorized to issue and sell bonds on basis of as-

essed valuation of property in district as shown by assessment previous to the election in which the bonds were authorized, notwithstanding they were not issued until a later date when the assessed valuation had decreased so that the bonds proposed to be sold plus outstanding bonds would exceed the constitutional debt limitation for that year—*Bordes v East Jefferson Waterworks Dist No 1*, supra

31 Cal—*Kennedy v McInturff*, 20 P 2d 315, 217 Cal 509

32 Cal—*Kennedy v McInturff*, supra

#### **Disbursement**

Under statutes which required the town board of a town to issue bonds and raise the amount needed for a duly organized water district within such town, the proceeds of the bonds were payable over by the town board to the water commissioners of the district for disbursement, and neither the town board nor any town officer was authorized to expend such proceeds—*Holloyd v Town of Indian Lake*, 73 NE 36, 180 NY 318—67 C J p 1171 notes 41–42

#### **Surplus**

Some statutes provide for the transfer to certain specified funds of the surplus of the proceeds of the sale of bonds of the district existing after the application of such proceeds to the purposes and objects for which the bonds were issued—*Kennedy v McInturff*, 20 P 2d 315, 217 Cal 509—67 C J p 1171 note 37 [a]

33 Cal—*Kennedy v McInturff*, supra  
67 C J p 1171 note 38

34 Ky—*Olson v Preston St Road Water Dist No 1*, 149 S W 2d 766, 286 Ky 66

35. Cal—*Security Trust & Savings Bank v City of Los Angeles*, 7 P 2d 1061, 120 Cal App 518

#### **Use of surplus**

A water district cannot be ordered to use surplus earmarked for debt service retirement except as permitted by bond resolution—*Rankin v Chester Municipal Authority*, 68 A 2d 458, 165 Pa Super 438

both<sup>36</sup> Under some statutes, it has been held that the bonds of a water district are not a general obligation of the political division within whose boundaries the district is located,<sup>37</sup> but under other statutes it has been held that bonds issued to pay for the water plant of a water district located within a town, although obligations of the town, are not paid by it, but by taxes levied on the property in the water district<sup>38</sup> The revenues of a water district may not be applied contrary to the provisions of a statute which requires that they be applied after payment of costs first to overdue interest and then to payment pro rata of all bonds issued by the dis-

trict<sup>39</sup> The law existing at the time the bonds are issued is a part of the contract by which the bondholders are bound,<sup>40</sup> and where the legislature fixes the method by which the bonds of a water district are to be paid, that method must be followed, and a bondholder's remedy is so restricted as to require him to seek payment of his bonds out of the revenues provided by statute<sup>41</sup>

*Submission to voters.* Under some statutes or charter provisions a water district may not issue bonds without first submitting the question to the people of the district and obtaining the approval of a specified majority<sup>42</sup> Statutory provision that, on

36. Fla.—State v Florida Keys Aqueduct Commission, 4 So 2d 662, 148 Fla 485

Wash—In re Local Imp Dist No 1 of Water Dist No 49, King County, 81 P 2d 289, 195 Wash 439

#### Particular issues

(1) Bonds authorized were held "revenue bonds" for the payment of which the credit and taxing power of the water district, or of the township within whose boundaries the district was established were not pledged—Wagener v Johnson, 76 SE 2d 611, 223 SC 470

(2) Bonds based on assessments on property within the district were held authorized—Ryan v Commissioners of Water Dist No 1 of Kenton County, 295 SW 1023, 220 Ky 822

(3) Bonds secured by pledge of operating revenue as well as by special assessment liens on property within the district were held authorized—Theobald v Board of Com'rs of Buechel Water Dist, 157 SW 2d 285, 238 Ky 720—Olson v Preston St Road Water Dist No 1, 149 SW 2d 766, 286 Ky 66

#### Creation of guaranty fund

Statute authorizing water districts to establish trust funds from their gross income to guarantee payment of local improvement bonds was held not unconstitutional as opening way to arbitrary acts by district commissioners, or invalid as authorizing special assessments against lands within such districts otherwise than in accordance with benefits received by owners—In re Local Imp Dist No 1 of Water Dist No 49, King County, 81 P 2d 289, 195 Wash 439

#### Net income after certain payments

(1) Requirement that bonds of water district should be payable only out of net income after payment of operating, depreciation, and betterment expenses of waterworks system was not violated by provision that funds credited to bond account should never be less than amount necessary to pay accruing principal and interest, where district covenanted to fix rates sufficient to meet bonds and in-

terest, thus showing intention to credit required amount to bond account only if available—Grossman v Public Water Supply Dist No 1 of Clay County, 96 SW 2d 701, 339 Mo 344

(2) Requirement that bonds of water district be payable only out of net income after payment of operating, depreciation, and betterment expenses of waterworks system was held not violated by provision limiting amount to be set aside monthly for depreciation and enlargements, where district set up separate accounts from which money was transferable to each other, pledged to fix adequate rates, and covenanted to comply with constitution and laws—Grossman v Public Water Supply Dist No 1 of Clay County, supra.

#### Security for refunding bonds

Security of original bonds was held to follow refunding bonds, even though statute authorizing refunding bonds did not expressly provide therefor, since power to provide for security of new obligations, which was essential to effect exercise of grant of power to refund bonds, must be implied—Simpson v Little Rock-North Heights Water Dist No 18, 86 SW 2d 423, 191 Ark 451

37. Mont—State ex rel Truax v Town of Lima, 193 P 2d 1008, 121 Mont 152

#### Authorization of district by voters

Fact that special improvement water district was created after authorization by vote of taxpayers affected did not make water system a city project as distinguished from a project of special improvement district so as to make district bonds a general obligation of city—State ex rel Truax v Town of Lima, supra.

38. N Y—Holroyd v Town of Indian Lake, 73 NE 36, 180 NY 318

39 Ark—Dickinson v Mingea, 88 S W 2d 807, 191 Ark 946

#### Purchase of bonds at discount

Order of court directing purchase of bonds not then due at a discount was held error—Dickinson v Mingea, supra.

#### Change of method of collection

Statute providing that taxes collected by receivers of improvement district should first be applied to payment of overdue interest and then to payment pro rata of all bonds issued by board which were due and payable after payment of costs was not affected by subsequent statute abolishing remedy of receivership for collection of such taxes and substituting remedy by mandamus or mandatory injunction against officers of district—Dickinson v Mingea, supra

40. Okl—Wrightsmen v Stephenson, 33 P 2d 499, 168 Okl 63

41. Colo—Gordon v Wheatridge Water Dist, 109 P 2d 899, 107 Colo 128

42. Tex—Nueces County Fresh Water Supply Dist No 1 v Texas State Bank & Trust Co, Civ App, 67 SW 2d 427, error refused

#### Majority sufficient

Under some statutes approval of the issuance of bonds by a majority of the electors voting is sufficient—In re Validation of East Bay Municipal Utility Dist Water Bonds, 239 P 38, 196 Cal 725

#### Notice of election

(1) Statutory requirements as to notice of election with respect to the issuance of bonds by a water district is directory in the sense that requirement need only be substantially complied with, where there is a large measure of general unofficial information concerning a coming election reaching the public through the newspapers, other circular matter, and discussions at public gatherings—Davies v Krueger, 219 P 2d 969, 36 Wash 2d 649

(2) Evidence held to show sufficient notice of election—Davies v Krueger, supra

#### Time for holding election

(1) Statute providing that after establishment of any fresh water supply district and the qualification of supervisors thereof, the board may order a bond election to be held within such district at a time not less

submission to voters of a water district of the question as to the incurrence of a bonded indebtedness, the submission ordinance shall recite the estimated cost of the public work or improvement does not require that the description in the ordinance should contain the precise location of the system,<sup>43</sup> and, in the absence of fraud, the fact that the estimate of the cost is too low does not affect the validity of the submission.<sup>44</sup> Under a particular statute it has been held that it was not improper to include in an ordinance for the submission to the voters of the questions as to the incurrence of a bonded indebtedness for constructing a water system and as to the levy and collection of a tax, the reference to the tax.<sup>45</sup> It has also been held that where the principal and interest of bonds issued by a water district are payable solely from water revenues, the statute authorizing the bond issue and the bonds issued thereunder are not invalid because of

the failure of the statute to require the approval of the bond issue by the voters of the district.<sup>46</sup>

**Validation** Statutory provisions validating bonds of a water district which were issued pursuant to a statute which was declared violative of a constitutional provision have been given effect.<sup>47</sup> Where authorized by statute, an action may be brought to determine the validity of bonds authorized by the voters of a water district.<sup>48</sup> Under some statutes, the governing body of a municipality, such as a city, county, or town, which has created a water district may maintain proceedings to validate and confirm certificates or bonds to be issued for the district's water system and the security for the payment thereof,<sup>49</sup> and the fact that two proposed districts embrace the same area or portions of the same area will not preclude the validation of their certificates.<sup>50</sup>

than twenty or more than thirty days from date of the order, was directory—*Ferrell v Harris County Fresh Water Supply Dist No 23*, Tex Civ App, 241 S W 2d 242

(2) Bond election held beyond time limit provided by statute was valid where voters had unconditional opportunity to express their will on the issue and no other or different result would have attended the election had its date been set within period fixed by the statute—*Ferrell v Harris County Fresh Water Supply Dist No 23*, supra.

#### Interest

Water district unauthorized to create debt without approval by vote of people could, without such vote, borrow money on note to supply deficiency in sinking fund and pay off interest due on bonds—*Nueces County Fresh Water Supply Dist No 1 v Texas State Bank & Trust Co*, Tex Civ App, 67 S W 2d 427, error refused

#### Election contest

(1) Proceeding contesting bond election was not a civil suit, but a special proceeding prescribed by law, and courts were limited in investigation to such subjects as were prescribed by statute—*Ferrell v Harris County Fresh Water Supply Dist No 23*, Tex Civ App, 241 S W 2d 242

(2) One who challenged validity of public transaction designed for speedy disposal assumed burden of preparation and presentation within time limited by law or reasonably fixed by court—*Morris v City of Fort Smith*, Ark, 276 S W 2d 36

(3) In election contest in which issues had been joined and trial had been set for a day two days prior to that on which the bonds authorized by the election had been adver-

tised to be sold, it was not error for trial court to overrule motion presented four days prior to trial date asking for thirty-day continuance for taking of discovery depositions, and its dismissal of the complaint was proper when plaintiffs stated in open court that they were not ready for trial—*Morris v City of Fort Smith*, supra

43 Cal—*Metropolitan Water Dist of Southern California v Burney*, 11 P 2d 1095, 215 Cal 582  
67 C J p 1172 note 46

44. Cal—*Metropolitan Water Dist of Southern California v Burney*, supra

45. Cal—*Metropolitan Water Dist of Southern California v Burney*, supra  
67 C J p 1172 note 48

46 Fla—*State v Florida Keys Aqueduct Commission*, 4 So 2d 662, 148 Fla 485

47 Tex—*Dallas County Fresh Water Dist No 9 v Connor*, Civ App, 14 S W 2d 363

48 Cal—*Metropolitan Water Dist of Southern California v Burney*, 11 P 2d 1095, 215 Cal 582  
67 C J p 1172 note 50

49. Ga.—*Dade County v State*, 42 S E 2d 439, 202 Ga 191, answer to certified question conformed to 43 S E 2d 434, 75 Ga App 330

#### Notice to start proceedings

Where attorney, employed by municipality to prepare proceedings for validating revenue certificates, prepared resolution of the municipality and served written notice of passage of it on solicitor general, it would be deemed sufficient notice to solicitor general to bring the validation proceedings—*Dade County v State*, 43 S E 2d 434, 75 Ga App 330

#### Process

Where mayor and counsel of municipality appeared, filed an answer and acknowledged service of petition for validating revenue certificates, if there appeared a defect in service of petition on them, such defect was waived by appearance and pleading—*Dade County v State*, 43 S E 2d 434, 75 Ga App 330

#### Issues

(1) The sufficiency of the anticipated revenue to be derived from the operation and maintenance of any proposed water system to retire its certificates is an issue of fact peculiar to each proceeding for validation and confirmation, which the judge must determine—*Dade County v State*, 42 S E 2d 439, 202 Ga 191, answer to certified question conformed to 43 S E 2d 434, 75 Ga App 330

(2) Objections to effect that purpose and terms of proposed construction of water works system was unsound, impractical, and unreasonable raised a proper issue of fact for trial court to determine under proper evidence—*Dade County v State*, 43 S E 2d 434, 75 Ga App 330

50 Ga.—*Dade County v State*, 42 S E 2d 439, 202 Ga 191, answer to certified question conformed to 43 S E 2d 434, 75 Ga App 330

#### Prior institution of proceedings

Municipality which institutes proceedings first for the validation of its certificates and the confirmation of the security for the payment thereof does not have superior rights over another municipality which may file proceedings to validate and confirm the security for its certificates subsequently thereto, even though the two proposed districts may embrace the same area or portions of the same area—*City of Trenton v Dade County*, 43 S E 2d 432, 75 Ga App 326

**Interest** Where a water district is authorized to acquire and construct a self-sustaining revenue producing water system and to finance it from the issuance and sale of bonds, it has implied power, unless specifically or by necessary implication denied by the act of its creation or by some other statutory or constitutional limitation, to pay interest on the indebtedness accruing during the construction of the water system from the proceeds of the sale of the bonds <sup>51</sup>

**Enforcement** The procedure in an action by the holder of local improvement district bonds to foreclose the lien evidenced by the bonds has been held the same as that in an ordinary civil action, <sup>52</sup> and a person who asserts the invalidity of a sheriff's deed to the purchaser of lands sold pursuant to such a foreclosure proceeding and who sues to set it aside has the burden of overcoming the deed by competent and controlling evidence <sup>53</sup>

**Objection by municipality within district**

Validation of revenue certificates to defray cost of water system in water district created by county may be made over objection by municipality boundaries of which lie wholly within the district—City of Trenton v Dade County, 43 SE2d 432, 75 Ga App 326

51. Cal—Metropolitan Water Dist of Southern California v Toll, 35 P 2d 519, 1 Cal 2d 421

**Effect of subsequent statutory authorization**

Amendment to waterworks district act providing that interest on bonds during construction period should be deemed construction cost payable from proceeds thereof was not legislative determination of denial of such power in original statute, meaning of which was not clear as to such effect—Metropolitan Water Dist of Southern California v Toll, supra

**Contract obligation**

Amendment to waterworks district act providing that interest on bonds during construction period should be deemed construction cost payable from proceeds thereof was held valid and not to impair any contract obligation between the taxpayer and the district or between the bondholders and the district—Metropolitan Water Dist of Southern California v Toll, supra

**Construction cost**

Interest accruing on the bonds during the construction period is considered a part of the cost of construction and may be paid from the capital account as a part of the cost of construction—Metropolitan Water Dist of Southern California v Toll, supra

**During limited period after completion**

Amendment to waterworks district act extending time for payment of interest on bonds from proceeds thereof for period of one year after completion was held valid—Metropolitan Water Dist of Southern California v Toll, supra

**Taxation**

The water district need not resort to taxation to pay interest accruing on its bonds during the construction of its water system—Metropolitan Water Dist of Southern California v Toll, supra

52. Wash—Chase v Carney, 90 P 2d 236, 199 Wash 99

**Service by publication**

(1) Reasonable effort was made to locate mortgagee who had mortgage on land located within the improvement district, so as to authorize service of summons by publication on the mortgagee, where person making the search examined city and telephone directories and inquired of mortgagors as to mortgagee's address, and was informed that mortgagee might be in another state—Chase v Carney, supra

(2) A published summons which recited that object of action was to foreclose lien of local improvement district assessments in local improvement district located within water district in King county, Wash, was sufficient, notwithstanding the published summons did not contain description of the property—Chase v Carney, supra

53. Wash—Chase v Carney, supra

**Necessary parties**

A mortgagee of land in local improvement district could not attack validity of foreclosure of local improvement district bonds on ground

**Waiver** The right to attack the validity of bonds issued by a water district may be waived <sup>54</sup>

**Evidence** In actions attacking the validity of bonds issued by a water district the general rules of evidence apply <sup>55</sup>

§ 243(7). — Taxes and Assessments

Subject to constitutional restrictions, a water district may be authorized to impose taxes or levy assessments on property in the district to pay the costs of its water system, and where such authority is granted it must be exercised in the manner prescribed

In the absence of constitutional restriction, the legislature may authorize the imposition of an assessment on the property in a water district to pay the cost of its water system, <sup>56</sup> and may delegate the power of taxation to the governing body of such district, <sup>57</sup> and, under various statutes, taxes

that mortgagee's wife was not made a party to foreclosure proceeding and that all property acquired during coverture is presumed to be community property as to which wife would have equal interest with her husband, in absence of evidence as to when mortgagee and wife were married, there being no presumption that they were married at time of execution of the mortgage—Chase v Carney, supra

54. Wash—Chase v Carney, supra

**Waiver held shown**

Where prior to time of execution of mortgage on land included in local improvement district created within a water district, certain of local improvement district assessments had been paid by mortgagors and their predecessors, mortgagees could not attack bonds issued by the local improvement district on ground that the water district was organized under an unconstitutional law—Chase v Carney, supra

**55. Evidence held insufficient**

To establish alleged irregularities in refunding bonds—Fruitt v Pine Bluff Water & Sewer Extension Dist No 2, 214 SW 2d 489, 214 Ark 64

56. Okl—Price v Water Dist No 8, 293 P 1092, 147 Okl 11

67 C J p 1172 note 52

57. Fla—Coral Gables v Crandon, 25 So 2d 1, 157 Fla 71

67 C J p 1172 note 53

**Delegation not within constitutional prohibition**

(1) A statute making board of county commissioners ex-officio board of commissioners of water conservation district and authorizing board to impose a tax for construction, installation, and support of conservation district was not unconstitutional as imposing a tax without authority

and assessments to pay the cost of construction and operation of a water system in a water district, or other obligations, are authorized<sup>58</sup> Power is sometimes conferred to levy a tax if the revenue from the operation of the water system is not sufficient to pay the principal or interest on the bonded debt of the district or to carry out the objects or purposes of the district<sup>59</sup> Under some statutes, the fact that the proposed water system is to consist

of an extension of the system of an adjacent city will not preclude the use of tax funds raised by the district for its construction<sup>60</sup>

Taxes and assessments must be levied in conformity with constitutional and statutory requirements,<sup>61</sup> including mandatory constitutional or statutory requirements as to what property is to be assessed or taxed<sup>62</sup> A general statute under which

of law—Coral Gables v Crandon, supra

(2) Other statutes held not unconstitutional see 67 C J p 1172 note 53 [a]

58 U S—Houck v Eastchester Public Utility Dist, D C Alaska, 104 F Supp 588

Cal—Helvey v Sax, 237 P 2d 269, 38 Cal 2d 21

Tex—Snelson v Murray, Civ App, 252 S W 2d 720

#### Nature of funds

Funds in possession of county treasurer which were collected from taxpayers within water storage district were public and county funds—Maryland Cas Co v Kern County, C C A Cal, 83 F 2d 774

#### Statute held valid

Objection that statute permitted residents of district to decide by referendum election whether county should be liable for local water supply improvements, was held obviated by amendment which provided for no referendum and authorized county commissioners to extend water mains on petition of three fifths of registered voters in particular area—Toomey v Shipley, 192 A 288, 172 Md 463

#### Anticipated obligations

Statute was construed to impliedly empower water district to provide annually for raising of funds by taxation to meet expenses reasonably to be anticipated during fiscal year without first incurring obligations therefor—Blacker v Bakersfield Municipal Water Dist, Cal App, 134 P 2d 277

#### Power to issue bonds

(1) The power of a water district to levy general taxes may not be presumed from the power to issue bonds conferred by statute on the district where a limitation is contained in the statute itself, which dispels the inference of such general grant of power—Gordon v Wheatridge Water Dist, 109 P 2d 899, 107 Colo 128

(2) The power conferred on a water district to issue bonds did not carry with it the power to levy general taxes on both realty and personalty, where the act creating the district purported to prescribe a complete method for the payment of the bonds in its provisions for the method and manner of levy of tax on real estate

only—Gordon v Wheatridge Water Dist, supra

#### Assessments held authorized

Ky—Fraley v Beaver-Elkhorn Water Dist, 257 SW 2d 536

Wash—Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326

#### Taxation held not authorized

(1) To raise money to construct equipment for fire protection or to construct a sewerage system—Tri-City Fresh Water Supply Dist No 2 of Harris County v Mann, 142 SW 2d 945, 135 Tex 280

(2) Where water and sanitation district was expressly authorized to levy ad valorem taxes on all taxable real estate in the district, succeeding provisions of statute authorizing "additional levies of taxes" and power "to levy taxes and collect revenue" for creating a reserve fund were referable to the limited tax on realty and did not authorize levy of general taxes on both real and personal property so as to meet constitutional requirements of uniformity and exemption—Gordon v Wheatridge Water Dist, 109 P 2d 899, 107 Colo 128

59 Cal—General Engineering & Dry Dock Co v East Bay Municipal Utility Dist, 14 P 2d 828, 126 Cal App 349

67 C J p 1172 note 54

60. U S—Houck v Eastchester Public Utility Dist, D C Alaska, 104 F Supp 588

61. Colo—Gordon v Wheatridge Water Dist, 109 P 2d 899, 107 Colo 128

Wash—Hargreaves v Mukilteo Water Dist, 224 P 2d 1061, 37 Wash 2d 522

#### Intent of taxing officials

If taxing officers of water district adopted an illegal plan or scheme of valuation calculated to result in a lack of equality or uniformity of taxation and which as to plaintiffs in fact had such effect, it would be immaterial whether the taxing officers acted with willful design or purpose, or with conscious intention to assess plaintiff's property at an excessive valuation—Brown County Water Imp Dist No 1 v McIntosh, Tex Civ App, 164 SW 2d 722, error refused

#### Deficiency assessment

Where certain property in a water district has been assessed in accordance with statutory requirements, it will not be liable for a deficiency assessment until all the rest of the property in the district has had assessments placed on it in accordance with the statutory requirement—Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326

#### Reassessment

Under some statutes, the reassessment of all the tracts of land within an entire district is authorized when the original assessment of all the tracts of land within the district is for some reason invalid, and where the assessments on a portion of the property within a district have been declared invalid that portion may be reassessed, but when the assessments on a portion of the property within the district have been declared invalid, the portion of the burden which should have been borne by that property cannot by means of reassessment be charged to the other property within the district against which original valid assessments still stand—Wrightsmen v Stephenson, 33 P 2d 499, 168 Okl 63

62 Neb—State v Metropolitan Water Dist of City of Omaha, 177 N W 836, 104 Neb 495

67 C J p 1173 note 57

All property, real and personal, within the district may be taxed—Snelson v Murray, Tex Civ App, 252 SW 2d 720

#### Distributable property of public utility

Wire transmission lines of public utility corporation engaged in producing and selling and distributing electric energy to public were not subject to assessment and levy of taxes for use of water district in which lines were located—State ex rel Halferty v Kansas City Power & Light Co, 145 SW 2d 116, 346 Mo 1069

#### Personalty

The statute providing for creation and organization of water and sanitation districts was void in so far as such act authorized the district to levy an ad valorem tax on real estate solely, thereby exempting per-

a waterworks system is established may, in a proper case, determine the mode of levying the tax rather than a provision of the charter of the municipal corporation in which the improvement district is located<sup>63</sup> Where the obligations of a water district remain its own and do not become the obligations of the town within which the district is located on the abolition of the separate governing body of the district and the vesting of its functions in the town board, taxes and assessments to obtain funds to pay the water district's obligations should be levied and assessed against the taxable property of the water district, and not against all the property of the town<sup>64</sup>

There must be a substantial compliance in all material particulars with statutory conditions precedent to the imposition of a valid tax or assessment<sup>65</sup> Procedural requirements in the imposition of the tax or assessment which are for the benefit and protection of the individual taxpayer are mandatory and compliance therewith must be regarded as con-

ditions precedent essential to a valid tax or assessment<sup>66</sup> Except where required by constitutional or statutory provision,<sup>67</sup> the terms and details of a proposed water system project need not be worked out in advance of the levying of a tax by the water district for the system or for preliminary work essential to the construction contemplated,<sup>68</sup> and it is not essential to the validity of the resolution making the tax levy that it contain a specification of the improvement<sup>69</sup>

**Benefits** Under some statutes, property in a water district may be assessed for a water system only on the basis of the benefits conferred,<sup>70</sup> and special assessments for special benefits cannot substantially exceed the amount of the benefits<sup>71</sup> It has been held that a special benefit which will sustain a special assessment must be immediate and of such a character that it may be seen and traced<sup>72</sup> Under other statutes, it has been held that the benefit which will support the inclusion of land in a water district need not be direct,<sup>73</sup> but it may be

sonality and violating the uniformity and exemption clauses of the constitution—Gordon v Wheatridge Water Dist, 109 P 2d 899, 107 Colo 128

63 Cal—Security Trust & Savings Bank v City of Los Angeles, 7 P 2d 1061, 120 Cal App 518  
67 C J p 1172 note 55

64 NY—Grishaber v Town of Callicoon, 27 NYS 2d 522, 176 Misc 323, reversed on other grounds 33 NYS 2d 508, 263 App Div 471

65 Cal—Blacker v Bakersfield Municipal Water Dist, App, 134 P 2d 277  
67 C J p 1173 note 56

#### Adoption of budget

(1) The statutory provisions for preparation, printing, and publication of preliminary municipal water district budget, notice and holding of hearings thereon, and adoption thereof before fixing district tax rate, are for taxpayer's benefit and mandatory, and if any of prescribed steps are omitted, district tax levy is invalid—Blacker v Bakersfield Municipal Water Dist, Cal App, 134 P 2d 277

(2) Where municipal water district's board of directors never furnished county auditor itemized estimates of district's revenues and expenditures during fiscal year, and board's statement of sum required with direction to levy tax at certain rate, was not given to county board of supervisors until after date fixed for consideration of preliminary budgets, county board's levy of district tax assessment was invalid—Blacker v Bakersfield Municipal Water Dist, supra

66. Conn—Rocky Hill Incorporated

Dist v Hartford Rayon Corp, 190 A 264, 122 Conn 392

#### Provisions held mandatory

Provisions for lodging of abstract of list of municipal tax district, for notices of assessment, or valuation, or meeting of assessors and selectmen for review of assessment, and for holding of such meeting, were mandatory—Rocky Hill Incorporated Dist v Hartford Rayon Corp, supra

#### Requirements held not mandatory

Where tax of water district of town was based on town assessment list with certain exceptions, and validity of procedure in making of town list was not attacked, failure to follow procedural requirements as to district list would not invalidate entire taxes levied on corporation by district, but only item for acreage, which was within such exceptions, in that town list included lands part of which were within district and part without—Rocky Hill Incorporated Dist v Hartford Rayon Corp, supra

67. Ark—Missouri Pac R Co v Waterworks Improvement Dist No 1 of Tillar, 203 SW 696, 134 Ark 315

67 C J p 1173 note 56 [a]

68. US—Houck v Eastchester Public Utility Dist, D Cal Alaska, 104 F Supp 588

69. US—Houck v Eastchester Public Utility Dist, supra

#### Grade level

Since establishment of grade level is essential to construction of water system, resolutions providing that tax levy by public utility districts is for construction, operation, and maintenance of a water system is a suffi-

cient specification—Houck v Eastchester Public Utility Dist, supra

70. Wash—Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326  
67 C J p 1173 note 60

71. Wash—Hargreaves v. Mukilteo Water Dist, Snohomish County, supra

**Entire cost of improvement** made by utilities district may be levied on property specially benefited, if not in excess of such benefits, and may be levied according to foot frontage where benefits are equal and uniform—Murphy v Metropolitan Utilities Dist, 255 NW 20, 126 Neb 663

#### Reduction

If special assessments substantially exceed benefits conferred by improvement they should be reduced to an amount that will reflect benefits conferred—Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326

#### Substantial excess required

Unless the excess of cost over special benefits is of material character it should not be regarded by court when its aid is invoked to restrain enforcement of special assessments—Hargreaves v Mukilteo Water Dist, Snohomish County, supra

72. Colo—Pomroy v Board of Public Waterworks, Dist No 2, of City of Pueblo, 136 P. 78, 55 Colo 476.  
67 C. J. p 1173 note 61.

73. NY—Syracuse, B & N Y R Co v Van Amburgh, 229 NYS 10, 223 App Div 485, affirmed 168 NE 422, 251 NY 548.  
67 C J p 1173 note 62

present or prospective,<sup>74</sup> and may result from general benefits to the surrounding community.<sup>75</sup> So, it has been held that, where all real property within water and fire districts is liable, under statutes, for the support and maintenance of such districts, real property within the districts is not exempt from taxation for such support where the districts are legally created, merely because there has been no direct service or benefit to the property from the districts,<sup>76</sup> and the fact that a property owner has an

adequate supply of water of his own does not necessarily show that no benefit accrues to him from the establishment of a district.<sup>77</sup>

Benefits must be assessed in the manner required by statute.<sup>78</sup> Ordinarily, the question of benefits is one of fact.<sup>79</sup> Under some statutes, the determination by a body, to which authority in this regard is duly delegated, as to whether certain property will be benefited is judicial in its nature<sup>80</sup> and is subject to review by the courts,<sup>81</sup> but, in the absence of

**74. NY—Syracuse, B & N Y R Co v Van Amburgh, supra**

**Present use of the property does not alone control the determination as to the existence of benefit—Ball v Merriman, Civ App, 245 SW 1012, reversed on other grounds 296 SW 1085, 116 Tex 527**

**It is sufficient if it is reasonably to be anticipated that benefit may accrue in the future—Rocky Hill Incorporated Dist v Hartford Rayon Corp, 190 A 264, 122 Conn 392**

**75. Tex—Ball v Merriman, Civ App, 245 SW 1012, reversed on other grounds 296 SW 1085, 116 Tex 527**

**76. NY—People ex rel Zerega v Markvart, 244 NYS 219, 230 App Div 767**

**77. Conn—Rocky Hill Incorporated Dist v Hartford Rayon Corp, 190 A 264, 122 Conn 392**

**NY—In re Assessment of Water Tax in Water Dist No 3 of Town of Niskayuna, Schenectady County, 258 NYS 690, 235 App Div 566, modified on other grounds 258 NYS 745, 236 App Div 294**

**78. Neb—Murphy v Metropolitan Utilities Dist, 255 NW 20, 126 Neb 663.**

#### **Incorporation by reference**

Statutes governing metropolitan cities as to method in making levy and assessment for public improvement was held incorporated into utilities district statute by reference and controlled in making levy and assessment for improvement of utilities district—*Murphy v Metropolitan Utilities Dist, supra*.

#### **Foot front rule**

Statute authorizing levy of cost of water main according to the foot-front rule, which contained provision for equalization of the special assessments was held not unconstitutional—*Murphy v Metropolitan Utilities Dist, supra*.

#### **Zone and termini method**

(1) Under the zone and termini method of assessment the assessments must be in proportion to area and proximity to the improvement—*Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326*.

(2) The zone and termini method in assessing cost of water system against property within local improvement district established by water district is not a method of spreading assessment without regard to benefits, but is a method of apportioning benefits, and assessments under this method may be reduced to an amount that will not substantially exceed benefits conferred—*Hargreaves v Mukilteo Water Dist, Snohomish County, supra*.

(3) A water district in creating local improvement district and assessing the cost of local improvement against property within the district may follow the termini and zone method provided by statute or, in ordering the improvement, the district may provide for assessments to be made against the property of the district in accordance with the special benefits such property will derive from the improvement, without regard to zone and termini method—*Hargreaves v Mukilteo Water Dist, 224 P 2d 1061, 37 Wash 2d 522*.

#### **Equalization**

A water district commission, in assessing cost of water system against property, can reduce assessments which are substantially in excess of benefits conferred, but if it reduces some assessments it must raise others, because under zone and termini method sum of all assessments equal cost and expense of improvement—*Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326*.

#### **Correction**

Where the taxing authorities are authorized by statute to correct, revise, raise, lower, change, or modify the assessment roll, or any part thereof, any such action must be done within the framework of the zone and termini method, and that method cannot be abandoned on a pretext of revising—*Hargreaves v Mukilteo Water Dist, Snohomish County, supra*.

#### **Change of method**

Where water district commissioners followed zone termini method in spreading assessments over property in local improvement district to pay for improvements that district was created to provide if a new assess-

ment roll was to be made up apportioning special benefits, it would have to be done under authority to set aside assessment roll and order assessment to be made de novo, and assessment de novo would not need to be by zone and termini method—*Hargreaves v Mukilteo Water Dist, Snohomish County, supra*.

**Assessment held improper where it was not made pursuant to zone and termini method—Hargreaves v Mukilteo Water Dist, 224 P 2d 1061, 37 Wash 2d 522**

**79. Wash—Hargreaves v Mukilteo Water Dist, Snohomish County, 261 P 2d 122, 43 Wash 2d 326 67 C J p 1173 note 67**

**80. NY—Syracuse, B & N Y R Co v Van Amburgh, 229 NYS 10, 223 App Div 485, affirmed 168 NE 422, 251 NY 548**

#### **Sufficiency of finding**

Finding of board of equalization levying special assessment for construction of water main that lands were specially benefited to full amount of assessment was held tantamount to finding that such benefits were equal and uniform, warranting adoption of foot-front rule—*Murphy v Metropolitan Utilities Dist, 255 NW 20, 126 Neb 663*.

**81. NY—Syracuse, B & N Y R Co v Van Amburgh, 229 NYS 10, 223 App Div 485, affirmed 168 NE 422, 251 NY 548**

#### **Collateral attack**

Finding of board of directors of metropolitan utilities district, sitting as board of equalization of special assessments for construction of water main, is in nature of judgment, and if board had jurisdiction, errors can be reviewed only in direct proceeding in error to district court, and are not subject to collateral attack—*Murphy v Metropolitan Utilities Dist, 255 NW 20, 126 Neb 663*.

#### **New apportionment**

(1) On appeal from apportionment of assessment, new apportionment should be made by commissioners appointed by court where original apportionment failed to allow for difference in distances of properties from water mains—*Seyfang v Reister, 277 NYS 695, 154 Misc 308*.

any statute or rule of law providing that the particular property involved is not benefited or of any evidence whatever that such property is benefited, the determination cannot be annulled as a matter of law on review by certiorari,<sup>82</sup> and in such case the sole question for the court is whether or not there is sufficient evidence to justify the determination.<sup>83</sup>

**Imposition not tax** The imposition of the burden of increased cost of construction of works connected with a water system of a water district, resulting from a statute requiring the payment of the prevailing rate of wages on public work, is not the imposition of a tax within the meaning of a constitutional prohibition against the imposition of a tax by the legislature.<sup>84</sup>

**Items for which tax or assessment levied** Under some statutes the propriety of apportioning the amount of principal and interest on bonds, issued for district purposes, according to benefit to the property within the district,<sup>85</sup> and of levying the amount of a water deficiency,<sup>86</sup> and the amount of the compensation of the managing officers of the district<sup>87</sup> against the property in the district in accordance with assessed valuation, has been recognized, but the view was taken that the amount of other items of the district budget could not properly be levied as a tax or assessment<sup>88</sup> and, as discussed supra § 243 (6) a, must be provided for by water rents to be collected from consumers

**Opportunity for hearing, notice.** Considering a water district as a taxing district, where the legislature does not establish the boundaries but delegates the authority to a local body, it is essential to due process of law that the owners of land affected shall be accorded an opportunity to be heard as to the location of the boundaries and the creation of the district,<sup>89</sup> and on the question of benefits and the proportion of the cost of the improvement which may be assessed by a special tax or assessment against him.<sup>90</sup> In the absence of constitutional restrictions, notice of every step in the tax or assessment proceedings is not necessary.<sup>91</sup> A notice which follows the language of the statute has been held sufficient.<sup>92</sup> Notice by publication, as provided for by the statute under which the district is organized, of the various steps in the organization of the district<sup>93</sup> and in other proceedings looking to the imposition of the tax or assessment<sup>94</sup> is a sufficient basis for such imposition. Where due notice has been given, a landowner who fails to appear and object in the course of the proceedings for organization and for the imposition of the assessment, and who does not appeal from a determination of the court which, under the applicable statute, has jurisdiction of such proceedings, waives his right to call in question the validity of the assessment.<sup>95</sup>

**Form of levy** Ordinarily, mere technical defects in the form of the levy will not render it ineffective,<sup>96</sup> and courts will sustain a levy, otherwise valid and authorized, whenever sufficient appears to

(2) Commissioners appointed by court to reapportion assessment of property for benefits in water district should be permitted to obtain expert assistance—*Seyfang v Reister*, supra.

**Assessment held erroneous**

Assessment of tax equally on acreage basis regardless of water main frontage or distance from mains was held erroneous as inequitable, where some of land was one and one-fifth miles from nearest water mains, and mains and water could not be brought to it except at an excessive cost—*Seyfang v Reister*, supra.

82. N.Y.—*Syracuse, B & N Y R Co v Van Amburgh*, 229 N.Y.S. 10, 223 App.Div. 485, affirmed 168 N.E. 422, 251 N.Y. 548.  
67 C.J. p 1173 note 70

**Questions not considered**

Taxpayer could not review formation of town water district or question benefit of water supply to him in certiorari proceeding against water commissioners—*People ex rel Smith v Parker*, 283 N.Y.S. 343, 246 App.Div. 674.

95. Ky.—*Ryan v Commissioners of Water Dist No 1 of Kenton County*, supra.

96. Or.—*Smith v Hurlburt*, 217 P. 1093, 108 Or. 690.

make plain the intent of the duly authorized officers to make the levy<sup>97</sup>

**Effect of validating statute** The view has been taken that statutory provisions validating the organization of a water district and bonds issued pursuant to the statute under which the attempted organization was made, which statute had been declared violative of constitutional provisions, rendered valid and effective the assessment and levy of an otherwise valid tax made prior to the enactment of the validating statute to pay the interest on, and provide a sinking fund for, the bonds<sup>98</sup>

**Suit or proceeding to attack tax or assessment** A property owner in a water district may challenge any assessment or tax on his property at the time and in the manner provided by statute<sup>99</sup> In the absence of a lack of power or jurisdiction on the part of the water district involved, the procedure provided by statute for questioning the validity of a tax or assessment imposed by a water district is exclusive<sup>1</sup> On appeal by property owners in a water district from an apportionment of assessment, the failure of the commissioners of the district to perform acts legally required of them does not constitute a ground of objection to the assessment<sup>2</sup> Under some statutes a property owner is not con-

fined to an appeal from the assessment but may institute a suit to invalidate the assessment<sup>3</sup>

Complainant in an action to void a tax and to recover back the amount of such tax must set forth facts sufficient to state a cause of action<sup>4</sup> In such action several taxpayers may properly be joined as plaintiffs under the code provision authorizing the joinder, as plaintiffs, of persons having an interest in the subject matter and in obtaining the relief demanded<sup>5</sup> Plaintiff in a suit to enjoin the collection of a tax, based on the theory that the district was not duly incorporated, is not entitled to relief because he had an adequate water system before the water district was organized, where it is found that the district was duly incorporated and the district has not been made a party to the suit<sup>6</sup> In an action to enjoin the collection of taxes and the enforcement of tax liens and to obtain a refund of taxes already paid, issues with respect to an alleged misapplication of a part of the tax funds and which do not involve the validity of the levy will not be considered<sup>7</sup> Willful design or purpose, or conscious fraudulent intent on the part of the taxing authorities has been held not an essential element of a cause of action for cancellation of tax assessments on the ground of discrimination<sup>8</sup> In a certiorari proceeding petitioner has the burden of establishing his case<sup>9</sup> A landowner may waive

99 Wash—Hargreaves v Mukilteo  
Water Dist, Snohomish County, 261  
P 2d 122, 43 Wash 2d 326

#### Statute of limitations

Action to cancel tax assessments as a cloud on title to land was held not subject to statute of limitations, since if the assessments were void, the apparent liens thereof constituting clouds on title to the land would constitute "continuing injuries" so that a suit to remove such clouds would not be subject to limitations—Brown County Water Imp Dist No 1 v McIntosh, Tex Civ App, 164 S W 2d 722, error refused

1. Wash—McKenzie v Mukilteo Water Dist, 102 P 2d 251, 4 Wash 2d 103

#### Failure to object

Where water district complied with statutory requirements, landowner who did not file written objections to assessment roll or appeal from action of water district confirming assessment roll was not entitled to

maintain action to restrain attempt to collect local improvement assessment in improvement district created in and by the water district and to have land declared free from lien of assessment and stricken from assessment roll—McKenzie v Mukilteo Water Dist, supra

2. NY—Seyfang v Reister, 277 N Y S 695, 154 Misc 308  
Proper remedy is by mandamus—Seyfang v Reister, supra

#### Approval of operation of water system

Failure of water district to obtain approval of water power and control commission for operation of town water system was no defense on appeal by property owners from apportionment of assessment—Seyfang v Reister, supra

3. Ark—Missouri Pac R Co v Waterworks Improvement Dist No 1 of Tillar, 203 S W 696, 134 Ark 315  
67 C J p 1174 note 86

4. Cal—Blacker v Bakersfield Municipal Water Dist, App, 134 P 2d 277

6. Or—Smith v Hurlburt, 217 P 1093, 108 Or 690

7. US—Houck v Eastchester Public Utility Dist, D C Alaska, 104 F Supp 588

#### Procurement of loan by city

A contention that a tax levy by a water district was invalid because the financing of the water system project was contingent on the procurement of a loan by an adjacent city whose system was to be extended into the district was not directed at the validity of the levy itself, and, hence, was not before the court—Houck v Eastchester Public Utility Dist, supra.

8. Tex—Brown County Water Imp Dist No 1 v McIntosh, Civ App, 164 S W 2d 722, error refused

9. Mass—Worcester Gas Light Co v Commissioners of Woodland Water Dist in Town of Auburn, 49 N E 2d 447, 314 Mass 60

#### Error of law

The burden was on petitioner to show an error of law apparent on its face—Worcester Gas Light Co v Commissioners of Woodland Water Dist in Town of Auburn, supra.

the right, or be estopped, to question the validity of an assessment against his land,<sup>10</sup> or that his lands are properly included within the district so as to be liable to a tax or assessment by the district,<sup>11</sup> and where he fails to make his protest against the tax or assessment at the time and in the manner provided by statute, he may waive his right to do so<sup>12</sup>

**Collection** Under some statutes, where officers whose duty it is to collect taxes and assessments imposed by water districts fail to do their duty, the remedy is by mandamus or mandatory injunction against such officers<sup>13</sup> Where taxes levied by a water district are not paid the district may sell the property taxed<sup>14</sup> The right of a water district to declare and enforce assessment and tax liens on

property within the district is purely statutory, and the terms of the statute must be substantially complied with in order for a lien to exist<sup>15</sup> In an action to quiet title by or against a water district which bases its title to the property involved on unpaid district taxes and a collector's deed to the property, the general rules governing such actions apply.<sup>16</sup>

**Taxation of district's property** Property of a district outside the district has been held not subject to taxation by the county wherein it is located.<sup>17</sup>

## § 243(8). — Actions

In a proper case, where authorized by statute, an action may be brought by or against a water district

### Exemption from tax held not established

Gas company was held not to have established right to exemption from tax by water district on the ground that its distributing system was not benefited by the water supply system—*Worcester Gas Light Co v Commissioners of Woodland Water Dist in Town of Auburn*, supra

10 Wash—*McKenzie v Mukilteo Water Dist*, 102 P 2d 251, 4 Wash 2d 103

11 Conn—*Rocky Hill Incorporated Dist v Hartford Rayon Corp*, 190 A 264, 122 Conn 392

### Waiver held shown

Corporation which had actual or constructive knowledge of proceedings to establish water district to include its lands, and made no claim that lands were not included in district until after bonds had been issued and four years' taxes had been assessed on lands was held estopped to deny lands were in district—*Rocky Hill Incorporated Dist v Hartford Rayon Corp*, supra

12. Wash—*Hargreaves v. Mukilteo Water Dist*, Snohomish County, 261 P 2d 122, 43 Wash 2d 326

### Estoppel held shown

Landowner who for many years without protest paid local improvement assessment in local improvement district created in and by the water district, was estopped to question validity of the assessments levied against the land—*McKenzie v Mukilteo Water Dist*, 102 P 2d 251, 4 Wash 2d 103

13. Ark—*Dickinson v Mingea*, 38 S W 2d 807, 191 Ark 946

**Appointment of receivers** to collect waterworks improvement district taxes to pay bonds was void under statute abolishing remedy of receivership to collect such taxes and substituting remedy by mandamus or mandatory injunction against officers of district—*Dickinson v. Mingea*, supra.

14 Cal—*Helvey v Sax*, 237 P 2d 269, 38 Cal 2d 21

### Consideration for deeds back to taxpayers

Where water district board by way of compromise to collect taxes had deeded lands to taxpayers who had permitted tax liens to be foreclosed and such deeds included in recited consideration contributions of taxpayers to the drilling of a well taken over by the district, on an audit of the books of the district, secretary who had received money paid for deeds was entitled to credit for such contributions as deductions from recited consideration charged to him—*Murphy v Marshall*, 159 SW 2d 741, 203 Ark 986.

15. Ky—*Theobald v Board of Com'rs of Buechel Water Dist*, 157 SW 2d 285, 288 Ky 720

### Potential lien

(1) Where water district proposed to pay bonds and interest with revenues exclusively, but if necessary to levy assessments against properties embraced in the district under plan calling for postponement of actual assessment until it should be needed to supplement revenues, there was only a potential lien and not a present lien during suspension of the procedure—*Theobald v Board of Com'rs of Buechel Water Dist*, supra

(2) Where water district's bonds and interest thereon were to be paid with revenues exclusively, but if necessary district was to levy assessments against properties embraced in the district, and assessment was in no event to exceed one tenth of the whole sum which, without use of the revenue payment plan, it would have been necessary to levy in the beginning, property owners had no right to pay annual partial assessments in installments—*Theobald v Board of Com'rs of Buechel Water Dist*, supra

### Redemption from tax sale

Where owner of realty, which was sold pursuant to judgment in tax suit,

did all that was required and all that could have been done to redeem the realty under statute, and judgment and sale of realty were specifically conditioned on right to redeem, water improvement district and those holding through and under it were in no position to say that redemption was not available to the owner—*Graham v Caballero*, Tex Civ App, 243 S W 2d 286, error refused no reversible error

16. Cal—*Taylor v. Coachella Val Water Dist*, 239 P 2d 454, 108 Cal App 2d 743

### Issues

Plaintiff could not successfully contend that taxes were void on ground that realty involved received no benefits by being included in the district, where assessed owners through whom plaintiff claimed, did not avail themselves of their statutory remedy to have their realty excluded from the district on ground that it was not benefited by inclusion therein—*Helvey v. Sax*, 237 P 2d 269, 38 Cal 2d 21

**Statute of limitations** held to bar action—*Helvey v Sax*, supra.

### Evidence

(1) Tax deeds were held properly admitted in evidence—*Helvey v Sax*, supra.

(2) Tax deeds from county water district were prima facie evidence that realty was assessed by the district as required by law—*Helvey v Sax*, supra

(3) Evidence held sufficient to show title in water district—*Taylor v Coachella Val County Water Dist*, 239 P 2d 454, 108 Cal App 2d 743

17. Cal—*Laguna Beach County Water Dist v Orange County*, 87 P. 2d 46, 30 Cal App 2d 740

**Land outside boundaries of district** Cal—*Laguna Beach County Water Dist v. Orange County*, supra.

in its corporate name, or by or against the officers of a water district in their official capacity

Where due provision is made therefor by statute a water district may sue<sup>18</sup> and be sued<sup>19</sup> in its corporate name<sup>20</sup> Questions as to the capacity of officers of a water district to sue or be sued in their official capacity,<sup>21</sup> and in respect of suits, involving district affairs, by or against a town in which such district is located<sup>22</sup> are dependent on the terms of the controlling statutes at the time of the action. The rule that public corporations, and agents, and officers thereof, acting as such, are an exception to the general rule that a person who pays money voluntarily without fraud, duress or mistake of fact cannot recover it back, as discussed in Payment § 139, has been recognized in upholding an action by the officers of a water district<sup>23</sup>

*Suits by taxpayers and others based on allegedly wrongful acts of officers of district* While the right of the taxpayer of a water district to sue in a representative capacity to compel the restoration of funds wrongfully disbursed or expended by officers of the district,<sup>24</sup> or to prevent waste, mismanagement, or improper diversion of funds of the district,<sup>25</sup> has been recognized, there is authority for the view that a taxpayer may not sue to prevent the consummation of an invalid contract by a waterworks district to purchase certain property where the obligation to pay would not create a debt of, or impose general liability on, the district and where there could be no levy of a tax to raise funds for payment for such property<sup>26</sup> Where the revenues of the district are raised, not by taxation, but by rates paid by individual consumers of water, and

the district is subject to regulation and control by the state public utilities commission, it has been held that individual rate payers may not maintain a bill to compel restitution of funds illegally paid out by trustees,<sup>27</sup> in such case suit should be instituted by the attorney general on his own initiative, or on a report of the public utilities commission, against all the trustees<sup>28</sup>

The right of a water district to recover on the official bond of an officer of such district, given for the faithful performance of his duties, because of such officer's wrongful acts in entering into a contract for the purchase of a water system at an exorbitant price and his making payments under such contract, has been recognized,<sup>29</sup> as has the right of the district to recover back from persons to whom such payments were made any sum or sums wrongfully received by them in violation of the rights of the district<sup>30</sup> Under some general statutes a district or county attorney is authorized to institute proceedings against an officer of a water district, intrusted with the collection or safekeeping of public funds, to compel the performance of duty by such officer and to protect the public interests<sup>31</sup> In giving effect to such a statute the view has been taken that suit should be brought in the name of the water district,<sup>32</sup> and not in the name of the state,<sup>33</sup> and that a taxpayer of the district, acting in a representative capacity, is a proper,<sup>34</sup> but not a necessary,<sup>35</sup> party plaintiff In an action based on defendant's participation in the misappropriation of the funds of a water district, it has been laid down in general terms that the defenses of estoppel, laches, and the like are not available against such district<sup>36</sup>

*Breach of contract* The law of the state in which a water district is located and in which work on realty is to be done under a contract for the laying of pipe for such district's water system will determine the rule of damages in an action based on a breach of such contract by the district<sup>37</sup> In a contractor's action for breach of contract by a water district for failure to pay amounts due in the construction of a water system or parts thereof, a motion by the water district for a directed verdict at the close of the evidence is proper where the evidence is sufficient to show a breach of contract entitling plaintiff to at least nominal damages<sup>38</sup> In an action by a seller against a water district on obligations given in payment of equipment purchased by the district, a tender back of the property purchased must be unconditional and include all that is due<sup>39</sup> Under some statutes, where a water district in a town has been dissolved, the town board of the town is the proper party to be sued on an unfulfilled contract by the district for the purchase

of property<sup>40</sup> In a suit by taxpayers to recover money allegedly due a water district under a contract in which defendant agreed to furnish consumers in the district with water, defendant may not insist on a reasonable return on capital already lost, even though the loss was the result of decreased cost of materials or labor which entered into the original investment<sup>41</sup>

*Evidence.* In actions by or against water districts, the general rules of evidence govern as to admissibility<sup>42</sup> and the weight and sufficiency of the evidence<sup>43</sup>

### § 243(9). — Alteration of, Abolishment of, and Withdrawal of Municipality from, Water District

The legislature may provide for the dissolution or alteration of water districts

The legislature may provide for the dissolution of water districts, and the statutory procedure prescribed therefor should be followed<sup>44</sup> Where there

#### Relief

Whether vendors who contracted with water district for sale of realty to district could recover from town for damages sustained when district was dissolved with contract unfulfilled depended on whether water board acted in good faith in attempting to fulfill conditions in contract, or in bad faith delayed action while awaiting dissolution of district—Echo Lake Corp v Town of Mt Pleasant, 285 NYS 545, 247 App Div 743

41. Ark.—Arkansas Power & Light Co v Gantt, 136 SW2d 180, 199 Ark 893

42. Ark.—Arkansas Power & Light Co v Gantt, 136 SW2d 180, 199 Ark 893

43. Evidence held sufficient

(1) To establish value of certain land—Arkansas Power & Light Co

v Gantt, 136 SW2d 180, 199 Ark 893

(2) To justify allowance of two cents per K W H for electric current used to supply water, and allowance of items for repairs, stationery, and office expenses by company furnishing consumers in district with water—Arkansas Power & Light Co v Gantt, supra

(3) To show use of a certain amount of electricity in pumping water—Arkansas Power & Light Co v Gantt, supra

(4) To support finding that water main in its original location interfered with construction of state highway and that its relocation was necessary to permit improvement of highway and to insure safety of traveling public—State v Marin Municipal Water Dist, 111 P2d 651, 17 Cal 2d 699

(5) To warrant allowance of specified amount as taxes in determining reasonable return to be allowed company furnishing water to consumers in district—Arkansas Power & Light Co v Gantt, 136 SW2d 180, 199 Ark 893

(6) To show that money paid to construction engineer by water district was a fair settlement, pursuant to arrangement made when engineer was employed for future work for reorganized district, for work done by engineer pursuant to contract with the old district—McCarthy v Potts, CCAN Y, 99 F2d 784

44 Procedures held not exclusive

The statute providing for dissolution of water districts in proceedings initiated by individual voters with

the final decision being made by voters at an election was not repealed by implication through the enactment of statute providing for such dissolution in proceedings initiated by majority of board of water district commissioners with the final decision being made by the superior court—State ex rel Reed v Spanaway Water Dist, 229 P2d 532, 38 Wash 2d 393

#### Right to vote in election

(1) One who is innocently mistaken or has a bona fide confusion as to location of precinct boundaries should not be and is not disfranchised, as long as he in fact lives within precinct where he presents himself to vote—Graham v Villareal, Tex Civ App, 242 SW2d 258

(2) Where voters purchased poll taxes for purpose of voting outside of their precinct and their receipts in fact show they lived outside water district, they in law had no poll tax receipts at all—Graham v Villareal, supra

(3) Burden is on voter to have his poll tax receipt reflect correct precinct information at time he presents himself at polls—Graham v Villareal, supra

(4) Fact that voters at election made oath required by statute that they were qualified voters of county and resident property taxpayers in district and had not voted before in election did not prevent invalidation of their votes on determination that poll tax receipts were obtained by voters by misrepresentation, rather than honest confusion or mistake—Graham v Villareal, supra

#### Validity of ballots

Fact that voter initialed stub to

is no statutory inhibition against the inclusion of a county water district within the boundaries of a utility district, its inclusion therein does not dissolve, terminate, or affect the legal existence of the included water district<sup>45</sup> Under some statutes, where a material change is made in the plans and specifications for a water system filed by a water district, an action for dissolution of the district may be maintained by property owners therein<sup>46</sup>

Where a statute so provides, the existing indebtedness of a water district which has been dissolved is a charge on the property in the district<sup>47</sup>

The legislature also has plenary control over matters pertaining to the alteration or change of boundaries of water districts<sup>48</sup> A grant of power by the legislature to a metropolitan utilities district

to extend its water mains beyond the limits of the city into adjacent territory has the effect of enlarging the boundaries of the district to include the territory served by such extension<sup>49</sup> Where the governing statute prescribes the method of withdrawal by a municipality from a water district in which it has duly been included, such method must be followed,<sup>50</sup> and, where such statute is a general statute whose general purpose is beyond the narrow scope of dealing with a merely municipal affair, its provisions in respect of withdrawal are superior to, and control, charter provisions of a municipality, the withdrawal of which is sought<sup>51</sup> In Rhode Island a fire district may be abolished and its territorial limits changed at the will of the legislature<sup>52</sup>

### C. FRANCHISE OF, AND OPERATION, CONTROL, AND DISPOSAL OF WATER SYSTEM BY, PRIVATE INDIVIDUAL

#### § 244. In General

A franchise to construct and maintain a waterworks system may be granted to an individual.

It has been stated in general terms that the right to sell water is not a governmental prerogative, but is a business in which any person may engage without legislative authority,<sup>53</sup> and under some statutes

a municipal corporation may grant to an individual a franchise to construct and maintain a waterworks system<sup>54</sup> Even though a permit or grant to an individual to lay and maintain pipes in streets to furnish a water supply is not authorized, such individual's claimed rights or privileges in this regard may be rendered effective by a subsequent recognition thereof by the state legislature<sup>55</sup> However,

ballot instead of signing it did invalidate the vote—*Graham v Villareal*, supra

#### Evidence in election contest

(1) Evidence was held to sustain finding that voters did not receive assistance in preparing their ballots in Spanish language—*Graham v Villareal*, supra

(2) Evidence was held to sustain finding that certain voters purchased their poll tax receipts for wrong precinct for political and personal reasons and not by reason of an innocent confusion—*Graham v Villareal*, supra

#### Waiver of objection to ballot

Where on opening of ballot and stub box, it was discovered that four stubs to ballots cast in election were not signed but neither defendants nor contestant contested ballots, each party, having taken calculated risk that votes were favorable to their respective causes and pursued that theory of trial, could not, without challenge or pleading, or proof, on unfavorable outcome of tally, be permitted to compel other side to try case again—*Graham v Villareal*, supra

Franchises in general see Franchises § 1 et seq

Franchise and privileges of public service water company see infra §§ 250–253

Franchises to use streets granted by municipal corporations in general see Municipal Corporations §§ 1716–1743

#### Franchise to sink artesian well

A person who obtains from a city a franchise authorizing him to sink an artesian well to supply water to the public therefrom for pay, through mains and pipes which he is authorized to lay over certain streets in a particular part of the city, is conducting a system of "waterworks," within the meaning of a statute imposing a privilege tax on waterworks—*Randall v. Smith*, 51 So 917, 96 Miss 647

55. Vt—*City of Barre v McFarland*, 73 A 577, 82 Vt 310  
67 C J p 1177 note 35.

it has been held that an individual does not obtain a statutory franchise by the mere entry on, and use of, the public highways with his water supply system under a statute limiting the use to which the public highways may be put to water power, telegraph, telephone, pneumatic tube, or light, heat, or power companies<sup>56</sup> While it has been held that under a statute providing that no prescriptive right may be obtained in a public street or highway, an individual who has a water supply system in the public highways of a municipality may not claim authority or franchise on the ground of municipal acquiescence for a long time,<sup>57</sup> it has also been held that, even though there was originally no formal authorization for the laying of pipes to supply water by an individual, he may, under certain circumstances, acquire certain rights in this regard as the result of acquiescence by the taxpayers and the municipality and by the latter's recognition of his rights<sup>58</sup> Since an easement is repugnant to the object of a utility, it has been held that the law will not imply an easement or enforce an express one in a waterworks system in favor of particular individual members of the public whereby they may acquire special rights in, or control over, the system to the exclusion of any other member of the public,<sup>59</sup> and certainly, in no case, over the power or authority of the builders and owners of the system<sup>60</sup>

The general rule as to the grant of a franchise that, where on a fair reading of the instrument reasonable doubts arise as to the intent of the parties, the grant must be construed in favor of the public applies to the grant of such a franchise to an individual,<sup>61</sup> or, as sometimes stated, such grant is to be construed strictly against the grantee<sup>62</sup> An

exclusive privilege granted to an individual in respect of furnishing a water supply is restricted in its operation by the terms of the grant<sup>63</sup> In general the question as to what obligations are imposed on the grantee of a franchise is determinable from the terms of the grant,<sup>64</sup> but in determining the question the long-continued practical construction of the franchise by the parties thereto is entitled to great weight and may, under certain circumstances, prevail<sup>65</sup> A permit to an individual to construct and maintain pipes in the streets to supply the inhabitants with water has been regarded as a license, carrying with it possibility of interest<sup>66</sup> An easement granted for the maintenance of a water distribution system in certain streets should be construed in accordance with the intent of the parties as determined by the language of the grant<sup>67</sup>

The right of an individual owner of a water system to recover from a municipal corporation damages naturally and necessarily flowing from the physical destruction of plaintiff's business has been recognized<sup>68</sup> The right of the owner of a water system to abandon operation has also been recognized<sup>69</sup> with the limitation that under certain circumstances patrons should be given a reasonable time in which to provide themselves with water<sup>70</sup>

## § 245. Duration of Franchise or Privilege, and Revocation, Cancellation, or Forfeiture

The privilege of laying and maintaining water pipes in streets may be limited to a grant for a reasonable time. A franchise may be forfeited and canceled under proper conditions.

Where the governing body of a municipality has no authority to grant in perpetuity the privilege of

Easement construed

In deed granting exclusive easement for maintenance of water distribution system in certain streets "subject only to rights taken by eminent domain," quoted words qualified easement granted and such easement was not exclusive of rights taken by eminent domain by town for highway purposes—Flower v. Suburban Land Co, supra.

68. NY—Boyer v. Little Falls, 38 NYS 1114, 5 App Div 1.

67 CJ p 1177 note 29

69. Tex.—West v. Probst, Com App, 6 SW 2d 96

70. Tex.—West v. Probst, supra.

laying and maintaining water pipes in streets, a grant may properly be limited to a grant for a reasonable time in the absence of any restriction in this regard either in the municipal charter or in the grant itself,<sup>71</sup> and the question of the revocation of the grant, where it has been followed by a substantial expenditure for the benefit of the municipality, must be considered with reference to the time which will satisfy requirements of equity.<sup>72</sup> The view has been expressed that a permit to an individual to construct and maintain pipes in the streets to supply the inhabitants with water may become irrevocable.<sup>73</sup> An individual who maintains, under a revocable license, pipes in the streets of a municipality to deliver water, cannot, it has been held, recover damages from the municipality for not allowing him to carry on the business.<sup>74</sup>

*Cancellation or forfeiture of franchise* While forfeitures are not favored by the law,<sup>75</sup> under proper conditions equity will forfeit and cancel a franchise,<sup>76</sup> but a municipality which seeks forfeiture must come into court with clean hands and must be willing to do equity.<sup>77</sup> Notice to the grantee of the municipality's intention to bring suit to cancel for nonperformance of the grantee's obligations is not required,<sup>78</sup> at least where the grantee had, for some time prior to suit, knowledge of the municipality's claim that the grantee was not fulfilling his obligations.<sup>79</sup>

Failure of the grantee to furnish an adequate supply of water as required by the franchise may be ground for cancellation and forfeiture,<sup>80</sup> and in such case whether or not the grantee has furnished an adequate supply as required by his franchise

must be determined with reference to the rule of reasonable use.<sup>81</sup> A provision of a waterworks franchise that, if the grantee shall not furnish an adequate supply, the municipality may bring in an additional supply is not necessarily an exclusive remedy so as to preclude such municipality from maintaining a suit to forfeit the franchise for the grantee's failure to furnish an adequate supply,<sup>82</sup> nor is the fact that the municipality might rescind by resolution a defense to the suit.<sup>83</sup> Where in such case the grantee relied on waste of water on the part of consumers as defense it will be presumed, where he contracted for a flat-rate system, that he contemplated such extravagance of use as is ordinarily and necessarily incident to such system,<sup>84</sup> and he has the burden of proving waste where there is evidence of lack of sufficient water to supply all reasonable needs.<sup>85</sup> In a suit to cancel a franchise for nonperformance of the grantee's obligations, an absolute decree for cancellation rather than a conditional decree for cancellation unless the grantee should, within a reasonable time prescribed, comply with certain conditions has been deemed proper where such absolute decree would best serve the ultimate interests of the parties.<sup>86</sup>

## § 246. Control and Regulation by State Authorities

A waterworks system owned and operated by a private individual is subject to regulation by a state regulatory body.

While, under certain statutes, a waterworks system owned and operated by a private individual has been regarded as a public utility<sup>87</sup> and, as such, subject to regulation by the state regulatory body,<sup>88</sup> the

87. U.S.—Van Dyke v Geary, Ariz., 37 S.Ct. 483, 244 U.S. 39, 61 L.Ed. 973 Vt—McFeeters v Parker, 30 A.2d 300, 113 Vt 139

Landowner supplying water to vendees and others The supplying of water by land-

owner and predecessors in interest, without franchise from county commissioners, to vendees and certain others in an unincorporated village for a nominal charge and not for profit, was held insufficient to constitute the water system a public utility—Clark v Olson, 31 P.2d 534, 177 Wash. 237, 93 A.L.R. 210

88. U.S.—Van Dyke v Geary, Ariz., 37 S.Ct. 483, 244 U.S. 39, 61 L.Ed. 973 Vt—McFeeters v Parker, 30 A.2d 300, 113 Vt 139

### Order to rehabilitate and reconstruct

The Public Service Commission's order authorizing individual owning water utility "to take whatever steps were necessary to rehabilitate and reconstruct the water works system," etc., did not authorize reorganization of a water corporation under statute relating to reorganizations—Webster v Joplin Water Works Co., 177 S.W. 2d 447, 352 Mo. 327

view has been expressed that an individual does not become a "public utility" within the meaning of some statutes so as to become subject to the regulatory authority of the board of public utility commissioners unless he owns, operates, manages, or controls a water plant or system for public use under privileges granted by the state.<sup>89</sup> The right of the owner of a water system to an injunction to prevent the enforcement of an order of the state regulatory body requiring such owner to extend the system to supply additional consumers in territory outside that already served has been recognized where the sufficiency of the supply for the territory already being served is questionable.<sup>90</sup>

Under some statutes the owner of a water system may not transfer it without the authorization of

the state public service or utility commission,<sup>91</sup> and a transfer without such an authorization is void.<sup>92</sup> Some statutes require that the owner of the system shall make the application to sell,<sup>93</sup> and the commission may not act, in this regard, on the application of the proposed transferee or purchaser.<sup>94</sup> So, the view has been taken that the commission is concerned only with the question as to whether the proposed transfer will be injurious to the rights of the public<sup>95</sup> and that it has no authority to determine whether or not a valid contract of sale has been made<sup>96</sup> or whether either party has a valid claim against the other on such a contract,<sup>97</sup> if an owner does not desire to sell the commission cannot compel him to do so,<sup>98</sup> nor can it determine that the owner should carry out his contract to sell on his refusal to do so.<sup>99</sup>

## D PUBLIC SERVICE WATER COMPANIES

### § 247. Status and Character

A corporation engaged in the furnishing of water to a municipality and its inhabitants is a public utility and subject to regulation and control.

A corporation engaged in the furnishing of a supply of water to a municipality and its inhabitants has been variously regarded as a quasi-public corporation,<sup>1</sup> a public service corporation,<sup>2</sup> and a public

utility,<sup>3</sup> serving a public use,<sup>4</sup> exercising in some degree at least, a governmental agency,<sup>5</sup> and is, therefore, entitled to the support and protection of the police power in discharging its functions.<sup>6</sup> Such a corporation is affected with a public interest,<sup>7</sup> and subject to regulation and control by the public authorities for the public benefit,<sup>8</sup> notwithstanding

N.Y.—City of New Rochelle, on Complaint of Conlon, v Burke, 43 N.E.2d 463, 288 N.Y. 406.

Tenn.—Nashville Water Co v Dunlap, 138 S.W.2d 424, 176 Tenn. 79.

67 C.J. p 1179 note 73.

**Regulation and control with respect to**  
Construction and operation of waterworks see *infra* § 261.  
Establishment of rates see *infra* §§ 291-296.

**Public utilities providing water are subject to special regulation by the state beyond that imposed on private industry generally**—State v Traffic Tel Workers' Federation of N.J., 66 A.2d 616, 2 N.J. 335, 9 A.L.R.2d 854.

it does not exercise all its powers and privileges<sup>9</sup>

*Determination of character as public utility* The fact that a corporation is, by its articles of incorporation, empowered to supply water does not, of itself, constitute proof that it is engaged in a public service,<sup>10</sup> and in determining whether a company supplying water is a public utility its mode of operation and the nature of its service are controlling.<sup>11</sup> It cannot be so classed until it engages in public service or holds itself out to serve the public for compensation,<sup>12</sup> it is not enough that it merely supply water to one individual or corporation or to a privileged few,<sup>13</sup> even though by its character it is authorized to distribute water in such a manner as would render it a public service corporation.<sup>14</sup> A company whose business is confined to selling water under contract to other companies or municipalities which in turn distribute and sell to the public is operating a water system for a public use<sup>15</sup> and it is immaterial that the sale of water is at wholesale.<sup>16</sup>

## § 248. Incorporation, Organization, and Consolidation

A water company may be incorporated or organized under general or special laws

In accordance with the requirements of the particular jurisdiction involved, a water company may be incorporated or organized under general<sup>17</sup> or special<sup>18</sup> laws. Under some statutes it is a prerequisite to the incorporation of such a company that it should obtain the consent of the municipality which it proposes to supply with water,<sup>19</sup> and under such a statute the city may lawfully condition its consent on terms protective of its public interest and germane to the subject.<sup>20</sup> The city's grant of its consent does not carry with it a grant of an exclusive franchise to the company.<sup>21</sup> A statute providing that after approval of an application for permission to form a water company the persons named therein shall organize as a water company has been held not to require that the original applicants shall alone be members of the corporation,<sup>22</sup> and the fact that names in addition to those contained in the application are contained in the certificate of incorporation does not make the incorporation invalid.<sup>23</sup>

An application for a charter must be made in accordance with statutory regulations and provisions.<sup>24</sup> Where a charter sets out the corporate purposes provided for in one statute, the company will be held to be organized under that statute.<sup>25</sup>

14 C.J. p 119 note 55

### Revocation of consent

Where franchise to use streets was

granted by legislature to water company, and city board of estimate succeeded to powers of authorities of old town, board of estimate could not by resolution without notice or hearing revoke consent previously granted by old town to incorporators of company, which approval the statute required merely as a step preliminary to incorporation, so that board of estimated resolution had no effect on right of company to use city streets.—In re New York Water Service Corp, 67 N.Y.S.2d 850, affirmed 69 N.Y.S.2d 508, 271 App Div 1019, affirmed 73 N.E.2d 724, 296 N.Y. 1016

25. U.S.—Etowah Light & Power Co v Yancey, C.C. Tenn., 197 F 845, appeal dismissed 199 F 988, 117 C. C.A. 663.

and this is true, although an attempt is made in the charter to insert certain powers given under another statute<sup>26</sup> The charter of a water company conferring powers and imposing duties appropriate to a public utility is itself a public profession,<sup>27</sup> and when accepted becomes of binding force,<sup>28</sup> and must be taken as a whole with all its conditions and burdens, as well as its privileges<sup>29</sup>

**Members and stockholders** The eligibility of a person for membership in a water company may depend on the provisions of its charter and bylaws,<sup>30</sup> and where a person has qualified under such provisions, it has been held that the board of directors may not refuse to admit him to membership<sup>31</sup> The stockholders in a water company hold the same relation to the corporation that any stockholder holds to a private corporation<sup>32</sup> They have the same rights and liabilities,<sup>33</sup> and the same rules as to the maintenance of suits apply<sup>34</sup>

**Consolidation** A statute which authorizes the merger of corporations engaged in the same or similar line of business does not authorize a merger of a water company with an electric light, heat, and power company<sup>35</sup> After a merger of several water

companies the consolidated company has all the franchises, rights, and privileges of each of its constituent companies<sup>36</sup> A statute providing that water companies organized before a certain date may consolidate without losing the power of eminent domain is not invalid as discriminatory or class legislation<sup>37</sup>

## § 249. Officers and Agents

Officers and agents of private corporations are discussed in Corporations §§ 715-932

Examine Pocket Parts for later cases.

## § 250 Grants of Privileges or Franchises

A franchise to use the streets and highways for the purpose of maintaining and operating a system of waterworks is the subject of a grant from the state which can be made only by the duly constituted authorities to whom the legislative power in this particular has been delegated

The right or privilege to use the streets and highways for the purpose of maintaining and operating a system of waterworks is considered to be a franchise,<sup>38</sup> and is a subject of a grant from the

Grants of franchises generally see Franchises §§ 9-19.

"It is everywhere agreed that the right to lay pipes in public highways is itself a franchise"—Nashville Water Co v Dunlap, 138 S.W.2d 424, 427, 176 Tenn 79.

state,<sup>39</sup> which can be made only by the duly constituted authorities to whom the legislative power in this particular has been delegated.<sup>40</sup> The legislative requirements for granting a franchise,<sup>41</sup> particularly directions as to the form and manner of granting,<sup>42</sup> must be strictly observed, and an agency of the state in making the grant cannot limit the authority of its principal.<sup>43</sup> The terms of a franchise, as proposed in the published notice of application, cannot be materially changed after the notice, or after the question has been submitted to a vote of the people as originally drawn.<sup>44</sup>

If required by statute, a company which supplies water to the public must obtain a permit from the health department of the state.<sup>45</sup> Under a statute which vests the city with the exclusive control and regulation of public utilities located within its boundaries or operated principally for its benefit, a water company so located or operated need not secure a certificate of authority to do business in that city from the public utilities commission of the state.<sup>46</sup> The question of the right of a water company to lay its mains in the public streets must

be raised by a direct action instituted for this purpose, and the right may not be attacked collaterally in another proceeding.<sup>47</sup> A grant of a franchise by a municipality cannot be avoided on any ground other than its illegality.<sup>48</sup>

*Necessity for obtaining consent of municipality*  
If a statute or the charter so provides, a water company must obtain the consent or permission of the local authorities before occupying the public streets for its purpose.<sup>49</sup> If the company has laid its pipes before the enactment of such a statute it need not secure the consent of the city.<sup>50</sup> Where the statute requires consent of the city to the incorporation of the water company, as well as to the privilege to lay pipes in the streets, the consent to laying the pipes may be given at the same time as the consent to the incorporation.<sup>51</sup>

A water company may obtain the right to lay and maintain pipes in streets and highways from the legislature of the state,<sup>52</sup> and if the right to lay its pipes and mains in the streets of a city or town is granted to a water company by its charter or the general statute regulating the subject, such

right cannot in the absence of constitutional provision be denied by the municipality, nor is it necessary to obtain its permission,<sup>53</sup> and this applies not only to the municipality which is to be supplied with water, but also to the laying of mains in the streets of a city or town which is situated between the source of supply and the city to be served,<sup>54</sup> but, if the water company has merely the right to lay its mains and pipes, it must obtain the consent of the municipality before it can supply it with water.<sup>55</sup> If the right to occupy the streets is given by statute and the city withholds its formal permit, it may be restrained by injunction.<sup>56</sup>

### § 251. — Nature and Scope in General

A franchise granted to a water company constitutes a contract after it is accepted and acted on in accordance with its terms. The franchise is governed by the same rules of construction as are applicable to franchises generally.

The grant of a franchise to a water company constitutes a contract after it is accepted<sup>57</sup> and acted on in accordance with its terms,<sup>58</sup> and the rights ac-

quired under it are property,<sup>59</sup> within the protection of the federal Constitution.<sup>60</sup>

*Rules of construction.* The same rules of construction that are applicable to franchises generally govern the construction of a grant of a privilege or franchise to a public service water company.<sup>61</sup> Such a grant of a privilege or franchise is to be strictly construed against the company,<sup>62</sup> and ambiguities and doubts are to be resolved in favor of the public,<sup>63</sup> but, in the construction of a grant of power to condemn private property by right of eminent domain, the tendency has been said to be liberally to construe grants in favor of the company.<sup>64</sup>

While a provision will not be read into a franchise by implication,<sup>65</sup> a franchise will not be construed so as to be meaningless,<sup>66</sup> and, if a strict construction would be highly penal and destructive as to both the city and the company, the court will favor a liberal construction to preserve the substantial rights of both parties.<sup>67</sup> If material rights have been acquired under a certain construction,

they will be protected by the courts<sup>68</sup> A construction of ambiguous provisions of the franchise by one consumer or beneficiary is not binding on others who have not acquiesced therein<sup>69</sup>

*Extent of territory* A water company, by its charter or by statute, may be limited to the supply of but one municipality or district,<sup>70</sup> but, even under such restrictions, by permissive merger with other companies similarly chartered, it may supply two or more<sup>71</sup> In the absence of statutory or charter restrictions a water company may supply more than one municipality<sup>72</sup> or even supply water outside the state of its domicile<sup>73</sup> If the right to supply a certain territory and vicinity is given, the water company may supply separate municipalities in that vicinity,<sup>74</sup> and this right is not lost by the acceptance of another incorporation act or statute which does not impair its franchise privileges<sup>75</sup> Where the charter of a water company authorizes it to supply water for a certain city and the towns adjoining, it has been held that the right to supply adjoining townships is given.<sup>76</sup> The territory of a water company is not extended by a consolidation of the town, which it is authorized to supply, with another town<sup>77</sup>

## § 252. — Exclusiveness of Rights or Privileges

A water company may be granted an exclusive franchise, but such a franchise will not be raised by inference or implication, or, when expressly granted, extended beyond the exact scope of the grant

An exclusive franchise may be granted to a water company by the legislature<sup>78</sup> or by a municipality if

legislative authority has been given to it<sup>79</sup> Where an exclusive franchise has been granted the company will be fully protected not only against other incorporated water companies, but also against individuals and unincorporated associations,<sup>80</sup> and the city will be bound not to operate a system of waterworks of its own during the life of the franchise,<sup>81</sup> if it does so it may be restrained by injunction<sup>82</sup> or the water company may obtain compensation in damages for the consequent diminution or destruction of the value of its franchise and property<sup>83</sup> Where a charter to supply water in a certain territory gives the exclusive right, a charter will not be granted to another company for that territory,<sup>84</sup> but, where the charter gives an exclusive right to only part of the territory, another company may be authorized to do business in that which is nonexclusive<sup>85</sup>

While a municipal corporation has no power to grant an exclusive franchise to a water company, unless authorized by the legislature,<sup>86</sup> it may exclude itself from constructing and operating waterworks of its own for the term covered by the contract<sup>87</sup> Notwithstanding a contract with a water company may be void in so far as it attempts to create an exclusive privilege, it will bind the city to pay the price stipulated in the contract as long as it accepts the service offered in pursuance of the contract<sup>88</sup>

Grants of exclusive privileges will not be raised by inference or implication, or, when expressly granted, extended beyond the exact scope of the

grant,<sup>89</sup> and, hence, unless a franchise granted is very clearly made exclusive, it will not prevent grants of similar privileges to a rival or competing company,<sup>90</sup> or prevent the municipality from constructing and maintaining its own water supply system.<sup>91</sup> A city is not precluded from constructing a water system of its own by a franchise which provides that it would not contract with anyone else for a supply of water,<sup>92</sup> or by a contract that it would not grant to anyone else the right to maintain water pipes in the streets.<sup>93</sup> The fact that a city had granted the exclusive right to conduct a waterworks plant in the city does not preclude it from permitting a railroad or manufacturing company to lay pipes in the streets so as to obtain water for its own consumption from another source.<sup>94</sup> An exclusive franchise for a definite term does not prevent the city from issuing bonds for and constructing its own waterworks to be operated after the franchise expires.<sup>95</sup> Although the franchise of a water company is not exclusive, the city may not distribute water in that territory if expressly forbidden to do so by statute.<sup>96</sup>

*Loss or termination of exclusive rights.* A water company may surrender its exclusive rights by laches and acquiescence in the invasion of those rights to the extent of the invasion.<sup>97</sup> Where a statute provides that the right to enjoy the franchise shall be exclusive until the company has paid from its earnings a dividend equal to a certain per cent of

its capital stock, the company no longer enjoys an exclusive right after it has paid the amount stated in the statute.<sup>98</sup>

## § 253. — Duration and Termination

### a. In general

### b. Forfeiture

### a. In General

The franchise of a water company may be perpetual, in the absence of a limitation by the terms of the grant or the law of the jurisdiction.

If the duration of a franchise of a water company is not limited by the terms of the grant or the law of the jurisdiction, it is perpetual,<sup>99</sup> but it is not perpetual if so limited.<sup>1</sup> Where a municipality is without power to grant a perpetual franchise to a water company, it will not be presumed to have intended to do so.<sup>2</sup> Where the powers of a municipal corporation with respect to the length of time for which a franchise of this kind may be granted is limited, it has no power whatever to exceed the specified period,<sup>3</sup> and this is also true with respect to granting an extension of such a franchise.<sup>4</sup> In the absence of such a limitation, the grant of a franchise for twenty or thirty years is not unreasonable or an abuse of discretion.<sup>5</sup> The duration of a franchise for a specified period or until the works should be purchased by the municipality has been construed to be indeterminate as to time.<sup>6</sup> Under a statute fixing the maximum length

### Right to maintain system until purchase

Under ordinances granting right to construct and operate waterworks "for the term of 20 years or until purchased by the city," and referring to and granting "the exclusive right and privilege to use all streets," giving city right to purchase waterworks system at end of 10 years or of any 5 year period thereafter, water com-

of time for which a franchise by the city may be granted, a grant for a specified longer period may be invalid,<sup>7</sup> but, if it is for an indefinite term, the grant is valid for the length of time named in the statute<sup>8</sup>

A grant of a franchise for the corporate life of the grantee has been construed as for a period of time for which the company is chartered to exist,<sup>9</sup> including extensions of corporate life which the company may be authorized to secure by its original charter,<sup>10</sup> and such construction is not altered by the fact that a grant to the company's predecessor was limited to a specified number of years.<sup>11</sup> A franchise is not invalid because it is to last longer than the term for which the councilmen voting it hold office.<sup>12</sup> Where a town for which a franchise to supply water has been given subsequently merges with another municipality, the consent of the municipality with which the merger has been made is not necessary for the continuation of the rights given in the franchise.<sup>13</sup>

*Effect of expiration* On the expiration of the franchise by limitation the rights under it of both the water company and the city cease,<sup>14</sup> but, where service is continued and accepted, a quasi-contractual relation arises which is terminable by either party<sup>15</sup> at such time and under such circumstances as may be consistent with the duty that both owe to the inhabitants of the city,<sup>16</sup> but as long as the service continues the company is subject to regula-

tion by the state or the municipality,<sup>17</sup> and is bound to supply water adequate to its reasonable capacity and at reasonable rates.<sup>18</sup> An agreement to continue to act under the franchise after its expiration is invalid where the constitution of the state provides that such rights can be vested only through the acquisition of a franchise in a prescribed manner.<sup>19</sup> Under an agreement granting a franchise for a prescribed period and giving the municipality an option of buying the plant from the company, and providing that if, at the expiration of the franchise, the municipality has not purchased the property the franchise shall be renewed, it has been held that the failure of the municipality to exercise its option prior to the expiration of the franchise automatically renews the franchise.<sup>20</sup>

### b. Forfeiture

The franchise of a water company may be forfeited where the proper grounds are shown to exist.

A franchise to a water company cannot be recalled at will<sup>21</sup> unless, as drawn, it is made subject to legislative repeal,<sup>22</sup> and the legislature has no power to alter the time for its expiration.<sup>23</sup> A franchise may lawfully provide for forfeiture,<sup>24</sup> and such provision may be enforced.<sup>25</sup>

Apart from, or because of, an express provision for forfeiture, the privileges or franchise of a water company may be forfeited for failure to furnish an adequate supply of water,<sup>26</sup> or for fur-

pany had right to maintain system until city should purchase, as against contention that franchise expired by limitation after 20 years, especially in view of acts of the parties construing the ordinance as granting perpetual franchise and electors' rejection of proposal that city purchase—State ex inf McKittrick, ex rel City of Springfield v Springfield City Water Co, 131 SW 2d 525, 345 Mo 6

### Appointment of receiver

Where a receiver for the water company had been appointed with the consent of the city, the city had no right to insist on a forfeiture of the franchise for the nonsupply of water—Illinois Trust, etc, Bank v Burlington, 101 P 649, 79 Kan 797—67 C J p 1188 note 10

nishing impure water,<sup>27</sup> persistent overcharging,<sup>28</sup> refusal to connect fire hydrants with the main,<sup>29</sup> or other willful violations of public duty,<sup>30</sup> but a forfeiture will not be enforced where the legislature has specifically provided another remedy for the particular wrong complained of<sup>31</sup>

The interest of the public must be the foundation on which a forfeiture rests,<sup>32</sup> and to justify a forfeiture it must be shown that the company has willfully abused its franchise,<sup>33</sup> although particular breaches, even if willful, might not of themselves be ground for forfeiture<sup>34</sup> If a duty sought to be imposed on the water company does not arise by clear implication, a failure in good faith to perform it will not be regarded as a willful breach of duty<sup>35</sup> The proper procedure is to determine in an appropriate action whether the duty exists,<sup>36</sup> and, if it is determined to exist, a subsequent violation constitutes ground for forfeiture of the franchise<sup>37</sup> If insolvency of the water company is the ground for forfeiture, the company must be shown to be in such a financial condition as to make it reasonably certain that it is unable to perform its contract<sup>38</sup>

*Franchise separable from contract* Where a franchise and contract with a water company are separable, the city may enforce a forfeiture of the franchise, although it has failed to perform its part of the contract<sup>39</sup>

*Proceedings to enforce* Breach of duty will not

ipso facto terminate the franchise,<sup>40</sup> and, if no method of procedure for forfeiture is provided for, the city or state must resort to the proper judicial proceedings,<sup>41</sup> but where the franchise provides that it may be forfeited by the city council for breach, a repealing ordinance declaring the franchise ordinance void is sufficient<sup>42</sup> Long acquiescence by the city in the company's failure to fulfill certain of its obligations may operate as a waiver of the right to enforce a forfeiture by reason thereof<sup>43</sup> Under a franchise which contemplates that notice of breach of duty shall be served on the water company, the city need not serve notice on the trustee or president of the company, but service on the superintendent is sufficient<sup>44</sup> The remedy for the mere misbehavior of a water company in the exercise of its franchise is a proper proceeding at the instance of the commonwealth and not at the instance of an individual,<sup>45</sup> and if a constitutional provision limits the parties interested in the forfeiture of a franchise to the state and the city, a statute authorizing a forfeiture on the complaint of any person is unconstitutional<sup>46</sup> Mortgagees of a water company's plant are necessary parties to a suit by the city to annul the company's franchise<sup>47</sup> Although the court may adjudge a charter forfeited, it has the power, if public necessity demands, to suspend the enforcement of the judgment until arrangements can be made by the city to obtain another water supply<sup>48</sup>

## § 254. Rights, Powers, and Duties

A water company has such rights as are granted in its charter or franchise, and such incidental ones as are necessary to carry into effect those specifically conferred

A water company has only such rights as are granted in its charter or franchise,<sup>49</sup> including not only those expressly granted, but also such incidental ones as are necessary to carry into effect those specifically conferred.<sup>50</sup> It may enter into contracts and engage in transactions which are incidental or auxiliary to its main business,<sup>51</sup> such as cutting and storing ice from its reservoirs<sup>52</sup> or furnishing water power,<sup>53</sup> but it has no authority to engage in the sale of water power when such is outside of its legitimate corporate business.<sup>54</sup> Authority to engage in pursuits usually outside a water company's powers may be given by the legislature,<sup>55</sup> and so a company may supply both gas and water if incorporated for such a dual purpose.<sup>56</sup> A water company has the right to make and enforce reasonable rules and regulations for the conduct of its business.<sup>57</sup>

Ordinarily the water company may exercise control over the source of its supply,<sup>58</sup> but if it has no legislative grant to a source of supply, it has no right to it after the city to whom the grant had been given withdraws its permission,<sup>59</sup> and if it has never

condemned the stream or any portion of it relied on for the supply, its rights as against another company seeking to appropriate water from the stream<sup>60</sup> or against coal mine operators draining mine waters into the stream,<sup>61</sup> are merely those of a riparian owner. If prohibited by statute, a water company cannot transport or divert water out of the state.<sup>62</sup> A mere legislative permission to a municipality to buy water bestows no right to divert water from a stream on the seller,<sup>63</sup> but the water company may receive whatever right the municipality had to divert water by reason of its contract with it.<sup>64</sup> The fact that the ordinance granting the franchise does not directly refer to the rights granted in the charter does not prevent the company from exercising charter rights not inconsistent with the ordinance.<sup>65</sup>

A water company must fulfill all its obligations to the public arising directly or impliedly from its franchise.<sup>66</sup> It must render adequate service,<sup>67</sup> irrespective of its financial condition,<sup>68</sup> and must so maintain its plant as to be efficient for that purpose.<sup>69</sup>

## § 255. — Rights of Way

A public service water company may acquire a right of way for the purpose of conveying its product on or across private property by a grant or license from the owner of the property to be traversed, or the power of eminent domain may be exercised.

69. Del—Thoroughgood v. Georgetown Water Co, 77 A. 720, 9 Del Ch 84.

A public service water company has no inherent right to convey its product on or across private property,<sup>70</sup> but a right of way for this purpose may be acquired by grant or license from the owner of the property to be traversed,<sup>71</sup> or the power of eminent domain may be exercised.<sup>72</sup> Where the company obtains a right of way by grant, it must continue to fulfill the conditions of the grant as long as it enjoys the easement.<sup>73</sup> A license to lay water mains across land may be granted by parol,<sup>74</sup> but it may be revoked.<sup>75</sup> A grant of a right of way below the surface does not imply the grant of a right to make surface improvements.<sup>76</sup> The use of rights of way and reservoir sites by a water company is not exclusive, and another public service corporation may be permitted to use them jointly with the first company.<sup>77</sup>

A water company may acquire an easement by

prescription,<sup>78</sup> but where the use is permissive, an easement by prescription cannot be acquired,<sup>79</sup> and a recognition by the water company of a superior title refutes its claim of a prescriptive right.<sup>80</sup>

## § 256. — Streets and Highways

A water company is subject to reasonable supervision and control in its use of the streets and highways.

The use of the streets and highways by a water company is subject to reasonable supervision and control by the state<sup>81</sup> and municipal authorities,<sup>82</sup> but such regulation must not in fact amount to prohibition.<sup>83</sup> Although a municipality may have granted the privilege of occupying the streets, such rights are in subordination to such police ordinances as are reasonably necessary to protect the public health, safety, and convenience.<sup>84</sup> The company may be required to secure a permit in con-

### Additional pipe line

A water company acted within its rights in adding to four inch water pipe line, an eight inch line, where easement of right of way for line was created for purpose of supplying a city with water, and the additional line was reasonably within such purpose and additional line was laid entirely within right of way to which servient land was subject—Ozehoski v Scranton Spring Brook Water Service Co, supra

### Constructive notice

Where easement of right of way for water pipe line was mentioned as existing in recorded deed to one of plaintiffs' predecessors, plaintiffs could not question existence of easement, notwithstanding deed to plaintiffs made no reference thereto and reference in prior deed did not designate with definiteness part of land to which easement attached, where inquiry would have informed plaintiffs as to location of pipe line—Ozehoski v Scranton Spring Brook Water Service Co, supra

Creation of easement by prescription generally see Easements §§ 6-22

### Evidence

(1) Conflicting evidence supported finding of trial court that mutual water company had acquired an easement to maintain and operate reservoirs, pumps, and water lines on land which it had used for that purpose for more than nine years without objection by owner—Chapman v Sky L'Onda Mut Water Co, 159 P 2d 988, 69 Cal App 2d 667.

(2) Where mutual water company, the nature of whose original entry was not explained, had openly and exclusively used land of another for more than nine years maintaining reservoirs and distributing system thereon and exercising control and domination of the property, without recognizing record title owner's superior right to possession, adverse nature of claim and owner's notice thereof would be presumed—Chapman v Sky L'Onda Mut Water Co, supra.

79. Mont.—Great Falls Waterworks Co v Great Northern R Co, 54 P 963, 21 Mont. 487.

Or.—Minto v Salem Water, Light & Power Co, 250 P 722, 120 Or 202

### Change to adverse easement

Where permission to lay a water

main was originally given by the city, since it was to be laid in the bed of a street which had been laid out but not opened, and the street is subsequently vacated and the owners take no action, the easement changes from a permissive to an adverse one—Reading Co v Maguire, 82 Pa Dist & Co. 599

Consent of municipality see supra § 250

"The local agency may not nullify the legislative franchise grant, it may regulate its exercise to serve the public convenience and necessity and the interests of the abutting landowners, but it may not destroy it by inaction. It may impose such conditions as shall be found necessary for the protection of the easement of passage and the public safety and welfare, and the streets and highways against injury and damage, and the contiguous landowners against loss or undue interference with their rights and interests"—Hackensack Water Co v Ruta, 69 A 2d 321, 324, 3 N J 139.

83. Pa.—Shryock v North Braddock Borough, 43 Pa Super. 508

67 C J. p 1190 note 52

84. Fla.—Anderson v Fuller, 41 So 684, 51 Fla 380, 6 L.R.A., N.S., 1026, 120 Am S R 170.

nection with its use of the streets and highways,<sup>85</sup> such as a permit to make an opening,<sup>86</sup> and where it fails to secure the required permit, it may be restrained by injunction.<sup>87</sup> The municipality may prohibit the company from laying its mains if it has not fulfilled the conditions precedent to that right,<sup>88</sup> or if it is doubtful if the company has been validly incorporated,<sup>89</sup> and a preliminary injunction to restrain the city from interfering will not be issued where the mains would be laid before the matter could be decided.<sup>90</sup> The use of the streets is not limited to present needs but the company may provide for the future.<sup>91</sup>

Although the consent of the municipality need not be obtained, a company is not entitled to excavate in streets or highways if its purpose is unlawful,<sup>92</sup> or if it is laying mains of excessive size,<sup>93</sup> or if it is insolvent and without adequate means to carry out the work.<sup>94</sup> After the right to excavate has been given, the city cannot prohibit the water company from making excavations necessary in order to work on its pipes.<sup>95</sup> Where a water company has merely a bare license to put water pipes in the street it has no right to keep them there without the consent of the owners of the fee in the street.<sup>96</sup> A private water company which supplies the municipal water company has been held not to have the right to use the ground under any street under a statute

which grants the right to a company acting under authority of the city.<sup>97</sup>

*Furnishing water beyond municipal limits.* A grant by a city to a water company of the right to use the streets for mains and pipes does not preclude the water company subsequently from supplying another city from extensions from those mains,<sup>98</sup> and an injunction will not be granted to restrain the company from using the street for an additional main to furnish water beyond the city limits where the main will also be of great use to the city.<sup>99</sup>

*Reconstruction of highway after flooding.* A statute requiring a water company which floods any portion of a public highway to reconstruct and relocate the same at its own expense is mandatory,<sup>1</sup> and such a statute gives a water company the absolute right to reconstruct and relocate any part of a public road when necessary for its corporate purposes.<sup>2</sup>

*Expiration of franchise.* After the expiration of the company's franchise it has an implied right to continue to occupy the streets for a reasonable length of time to negotiate a renewal of the franchise or to close out its business,<sup>3</sup> and it may enter on the streets to remove its pipes and appliances.<sup>4</sup> Where the company no longer has a right to occupy the streets, the city cannot be enjoined from requiring the removal of the system from the

streets,<sup>5</sup> whatever rights of property the company may have in its reservoirs and water rights<sup>6</sup>

§ 257. — Pipes, Mains, and Other Works in General

- a In general
- b Duty to extend mains and pipes
- c. Duty to install service connections
- d Duty to relocate mains and pipes

a. In General

Mains and pipes are generally considered to be the property of the water company.

Although mains and pipes may be privately owned, they are generally, at least as far as to the consumer's property line, the property of the water company,<sup>7</sup> and it alone has the right to tap the mains<sup>8</sup> The water company must lay all the mains and pipes that may be necessary at its own expense,<sup>9</sup> unless such is a matter of contract,<sup>10</sup> as where the city agrees to pay the cost of the fire hydrants or of grading or relaying the streets torn up,<sup>11</sup> it must furnish equipment of a kind necessary to supply all customers if a reasonable return is assured<sup>12</sup> Where there is no agreement to the contrary, if the company uses water pipes of the city, the latter is entitled to compensation<sup>13</sup> The municipality has authority, in the public interest, to prescribe the

plan and location of the pipes and hydrants,<sup>14</sup> and to require the completion of the works within a designated reasonable time<sup>15</sup>

*Composition of mains* The water company will not be compelled to replace wooden mains by iron ones if the former render satisfactory service,<sup>16</sup> even though the street above the main is about to be paved<sup>17</sup>

*Privately owned mains and pipes* Where an abutting property owner installs the appliances constituting the conduit from a street water main to his premises, such appliances belong to him as appurtenant to his realty<sup>18</sup> A privately owned water main may be a facility of the water company with whose main it connects,<sup>19</sup> but this fact does not destroy its private character or impress it with a public use,<sup>20</sup> and the owner of the main may contract to furnish water to others,<sup>21</sup> and the water company cannot be compelled to supply from the main those who have not contracted with the owner<sup>22</sup> Where water is furnished under a contract through a private pipe line, if there is nothing in the contract to the contrary, the duty of keeping the pipe line in repair is on the owner and not the water company<sup>23</sup>

*Pipes on consumer's premises* Where, by the terms of a contract between a water company and the city, the consumers are required to install the pipes

**Participation in cost**

(1) Although it is not ordinarily the obligation of a water consumer to construct any part of a public utility's system, the Public Utility Commission may, in special circumstances and in exercise of its administrative discretion, withhold exercise of its power with respect to such utility unless patrons offer to participate in the cost of construction—Ridley Tp v Pennsylvania Public Utility Commission, 94 A 2d 168, 172 Pa Super 472

(2) An order of Public Utility Commission requiring water consumers to participate in cost of construction of extension to the public utility's system must rest on evidence which shows that, without the contribution of the consumers, the cost of construction would materially handicap the utility in securing a fair return on all its operations—Ridley Tp v Pennsylvania Public Utility Commission, supra

and fixtures on their premises, the water company has no power to prevent a plumber who has not been licensed by it from laying connecting pipes on the premises at the instance of the owner<sup>24</sup>

### b. Duty to Extend Mains and Pipes

A water company may be compelled to make reasonable extensions of its mains.

A water company may be compelled to make reasonable extensions of its mains to accommodate the growing needs of the public,<sup>25</sup> but it is not under an absolute duty to extend its mains irrespective of circumstances or conditions.<sup>26</sup> Whether extension should be required depends on the test whether it is reasonable to call on the company to give such service,<sup>27</sup> with consideration to the return which will be derived therefrom.<sup>28</sup> So it is not required to extend its mains at the request of individual users<sup>29</sup> or to extend its pipes to remote places for fire protection.<sup>30</sup>

The water company may be compelled to extend the service before the extension itself will be profitable,<sup>31</sup> even though the immediate result of the extension may entail financial loss,<sup>32</sup> and the fact that the rate of return will be low is not sufficient

to show confiscation if the company makes an adequate return on all its operations.<sup>33</sup> While it has been held that if an extension is otherwise necessary and proper, the water company cannot refuse to make it on the ground of financial inability<sup>34</sup> or on the ground that the rates paid by all consumers are inadequate,<sup>35</sup> in some cases it has been held unreasonable to demand an extension when the company is unable to finance it,<sup>36</sup> and to require the extension would force it into bankruptcy.<sup>37</sup>

A water company will not be compelled to extend its facilities to districts not contemplated in its charter,<sup>38</sup> and the rule is not changed by the fact that voluntary extensions have been made beyond the chartered territory.<sup>39</sup> Where a company has dedicated its property only to the public use of the inhabitants of a certain territory, it may not be compelled to extend its facilities to such additional territory as may be in need of water.<sup>40</sup>

The duty and power of determining the need of the extension is a ministerial or administrative function of the proper authority,<sup>41</sup> and the discretion of the authorities ordering the extension will not be reviewed by the court further than to see if there is sufficient evidence to support it.<sup>42</sup> In the

42. Pa—*Riverton Consol Water Co v Public Service Commission*, *supra*.

absence of fraud, violation of law, or invasion of private rights<sup>43</sup> A town board may order extensions if express or implied authority is given it by statute.<sup>44</sup> Where, by the terms of the statute, the company must extend its mains when demanded by popular vote, a vote which fails of the necessary majority does not impose the obligation on the company<sup>45</sup>

The company may make reasonable rules and regulations governing the extension<sup>46</sup> or may take an agreement whereby it will be guaranteed a fair return on the investment<sup>47</sup>

*Contractual obligations* A water company may bind itself by contract to extend its mains,<sup>48</sup> or it may agree to reimburse a real estate development company for the cost of laying mains within a subdivision on the performance of certain conditions<sup>49</sup> Where a water company binds itself by contract to install new mains when needed, it must do so pursuant to its agreement unless the demand is arbitrary, capricious, or unreasonable,<sup>50</sup> and the fact that the company's rights are founded on a contract instead of a technical franchise will not absolve it from that duty.<sup>51</sup>

#### c. Duty to Install Service Connections

A water company may be required to construct and

pay for service connections from the main to the consumer's property line.

Franchises and charters, not providing otherwise, have been held to impose on the water company the duty to construct and pay for service connections from the main to consumer's property line,<sup>52</sup> since the company has been granted the right to occupy and excavate the streets,<sup>53</sup> and its full duty of supplying water is not fulfilled except by conveying the water to the premises of the consumer,<sup>54</sup> and, if the consumer must pay the cost of the connections, water is not being furnished at a fixed<sup>55</sup> and uniform<sup>56</sup> rate Hence, a regulation of the company compelling the consumer to pay for the connections has been held to be unreasonable<sup>57</sup> There is authority, however, holding that, in the absence of contract or provisions in the charter or franchise providing otherwise, the company need not bear the cost,<sup>58</sup> and that the duty to construct service pipes and pay the cost is not imposed by the fact that the company has a right to excavate the streets,<sup>59</sup> nor is it imposed by the obligation to extend the same public service without discrimination<sup>60</sup>

Municipalities may, if authorized by statute, require the water company to connect service pipes with the mains as part of the consideration for the franchise<sup>61</sup> Where the franchise requires the com-

59. Ala.—Birmingham Waterworks Co. v. Hernandez, 71 So. 443, 196 Ala. 438, L.R.A. 1916E 258  
67 C.J. p. 1195 note 28.

60. Ala.—Birmingham Waterworks Co. v. Hernandez, supra

61. Ala.—Birmingham Waterworks Co. v. Hernandez, supra.

pany to pay the cost of service pipes, an ordinance punishing the failure to do so is valid,<sup>62</sup> but, if the franchise is silent on this matter, an ordinance requiring the company to pay the cost cannot be sustained as an exercise of the police power to regulate the use of the streets<sup>63</sup> or as an exercise of the power to regulate rates,<sup>64</sup> and, where the city and the company for many years have treated the duty as not imposed, a subsequent ordinance imposing the duty is invalid<sup>65</sup>

When, prior to the granting of a charter to a water company, it has been clearly settled by statute law and decisions that such a corporation must furnish service connections, the compelling of such a duty does not amount to an impairment of the charter contract,<sup>66</sup> nor does it deprive the corporation of its property without due process of law.<sup>67</sup>

*Acquiescence of consumers* It has been said that the court will be slow to hold that a consumer of water has become bound by acquiescence of other consumers, over whom he has no control, in a custom requiring consumers to pay for connections with the water mains<sup>68</sup>

*Maintenance* The duty to maintain service pipes for supplying private consumers has been held to be the same as that to lay them, and rests on the same party, whether the company or consumer,<sup>69</sup> but there is authority that, even though the consumer has paid for laying the pipes, the water company may be compelled to maintain them<sup>70</sup>

*Connections with competitors* A water company will not be required to install connections from

its water system to that of a competitor so that the latter will have ample water in case of emergency.<sup>71</sup>

#### d. Duty to Relocate Mains and Pipes

A water company may be required to shift or relocate its mains or pipes.

When demanded by the public good or necessity, a water company may be required to shift or relocate its mains or pipes,<sup>72</sup> and, in the absence of a contract providing otherwise, the water company must bear the expense<sup>73</sup> The rule that the company must bear the expense has been applied when it is necessary that the mains and pipes be readjusted because of a change in the grade of the street<sup>74</sup> or when relocation is necessary to conform to another public utility subsequently established<sup>75</sup> It has been held that the expense of relocating the pipes when a new sewer or drainage system is to be constructed by the city should be borne by the water company,<sup>76</sup> but there is other authority to the effect that the city should compensate the company therefor as a seizure of property under eminent domain<sup>77</sup>

### § 258. — Injuries to Works, Mains, or Pipes

A water company may recover damages for injuries to its mains, pipes, or other works.

A water company may maintain an action to recover damages for injuries to its mains, pipes, or other works,<sup>78</sup> and where a pipe line has been broken by reason of defendant's blasting operations, the water company is not necessarily precluded from

78. N.J.—Hackensack Water Co v Public Service Gas & Electric Co., 142 A. 563, 6 N.J. Misc 707.

In action by dissolved water corporation's trustees for damages for defendant's malicious destruction of water works utility property and appropriation of corporation's customers, defendant was not estopped to interpose defense of invalidity of transfer of the property to corporation because made without order of Public Service Commission, on theory that defendant could not claim greater rights than corporation's transferor, since it was trustees who were claiming through corporation's transferor—Webster v Joplin Water Works Co, 177 S.W 2d 447, 352 Mo 327

recovery by reason of the fact that a representative of the company was present when the charge was laid and set off<sup>79</sup> Although a water company lays its pipes over private property without compensation, the owner thereof has no right to injure the pipes willfully and intentionally,<sup>80</sup> but he owes no positive duty to support the pipes<sup>81</sup> Similarly, a city has no right to convert or injure the company's piping system, although the contract under which it was built is unenforceable<sup>82</sup>

§ 259. — Purchase, Lease, Sale, and Mortgage of Waterworks

- a Purchase
- b Lease
- c Sale or assignment
- d Mortgage

a. Purchase

A water company may purchase works or property necessary to the completion of its system.

A water company may purchase such works or property as is necessary to the completion of its system,<sup>83</sup> and, if authorized by statute, may issue stock for such a purpose<sup>84</sup> Under some statutes a water company may purchase the franchises and property of another water company which has been organized under the same act<sup>85</sup> Where one company takes over the property and franchise of an-

other, it is obligated to discharge the latter's public obligations,<sup>86</sup> and it takes the property subject to easements which exist on it<sup>87</sup> A water company's franchise, giving the city the right to purchase the works at the net cost, does not entitle the city to enjoin the company from purchasing the franchise and property of another water company,<sup>88</sup> and, in an action so to enjoin, the burden is on the city to show that the transaction would be a clear invasion of its right to acquire the original works<sup>89</sup>

b. Lease

A water company may lease the property and right of other water companies

If a statute so provides, a water company may lease the property and rights of other water companies and thereby acquire their rights<sup>90</sup> If a water company is operating under a charter from the state and no power to lease the waterworks is given, the company cannot do so,<sup>91</sup> even with the consent of the municipality which it serves<sup>92</sup>

c. Sale or Assignment

A water company may be authorized to sell its entire plant, property, and franchises

A water company may be authorized by statute,<sup>93</sup> or by its franchise, or charter,<sup>94</sup> to sell its entire plant, property, and franchises, provided it secures the consent of the proper public agency,<sup>95</sup> but even

**Clarifying basin**

Where water company was required under certificate from state commerce commission to serve city and adjoining territory with water, and many people of city were employed in area outside of city, and city's welfare required that industries be served, not only for their profit but for welfare of citizens of the city, utility had power to obtain land in city adjacent to its plant and to erect thereon a clarifying basin so that it might better serve city and surrounding territory—Baird v. 67 C.J. p 1197 note 64

**A sale of all property of water company except its franchise** to new corporation, which was organized to furnish water to the public, was authorized on securing of authority from the Public Utilities Commission, and plaintiff who furnished money to third person which was used in improving plant and facilities of new corporation could not recover therefor from the old company on theory that it remained the owner of the plant and facilities—Hodges v South Berwick Water Co, 26 A. 2d 645, 139 Me. 40

**Transfer to municipality**

(1) Private waterworks corpora-

then it may not sell before the authorized time<sup>96</sup> Where such a sale is made the purchaser or the succeeding utility company succeeds to, and has imposed on it, the obligation of continuing the service of furnishing water,<sup>97</sup> and it has been held that even though a water company has the power to transfer its plant and franchise, a transfer is invalid if the transferee has not the power to continue the public service<sup>98</sup>

The water company may have the right to sell such machinery and equipment as are no longer necessary in the operation of its plant,<sup>99</sup> and this right is not affected by the fact that the municipality has an option to purchase the plant at the expiration of the franchise<sup>1</sup> It cannot divest itself of water rights it has acquired in its capacity of a public utility unless such action is in good faith and the property is not necessary.<sup>2</sup> If the city has acquiesced in an assignment for a long period of time, it may not question the legality of the assignment to reap an advantage thereby<sup>3</sup> A contract attempting to grant an easement in the public use to the detriment of the public is subject to modification by the public authorities<sup>4</sup>

*Termination of corporation by sale* Under some

statutes a water company ceases to exist after it sells its franchises and property.<sup>5</sup>

#### d. Mortgage

A water company may mortgage its property under its express or implied powers.

If the power is expressly or impliedly given by the state or an agency thereof, a water company may mortgage its property<sup>6</sup> The after-acquired property of a water company may be subject to the mortgage,<sup>7</sup> and a municipality subsequently acquiring a water plant has been held estopped to claim that extensions and additions made by it were not covered by the mortgage<sup>8</sup> However, after-acquired property is not subject to the mortgage where it is not clearly within the terms of the agreement<sup>9</sup> and mortgages of the property of a corporation which constructed and operated both a water plant and an ice plant have been held not to include after-acquired property in the ice plant where the special description referred only to the water plant<sup>10</sup>

*Bondholders* Mortgage bondholders are bound at their peril to ascertain the terms of the ordinance

tion cannot transfer its property to a municipality without the written consent of the Public Service Commission, and, lacking such consent, was not entitled to specific performance of municipality's contract to purchase system, which contract was conditioned on consent of any regulatory agency which might have jurisdiction—Spring Brook Water Co v Village of Hudson Falls, 56 NYS 2d 722, 269 App Div 515, appeal denied 57 NYS 2d 654, 269 App Div 913

(2) On an application to transfer waterworks system from private corporation to municipality, Public Service Commission has jurisdiction to determine whether or not such transfer is in the public interest, since, once the transfer is made, commission would have no jurisdiction over service or rates—Spring Brook Water Co v Village of Hudson Falls, supra.

(3) Public Service Commission, on an application to transfer waterworks system from a private corporation to a municipality, has jurisdiction to inquire into price at which transfer is to be made, since municipality must establish rates in accordance with price paid and, if price is excessive, consumers would be forced to pay excessive rates—Spring Brook Water Co v Village of Hudson Falls, supra.

10. Ky—United States Cast Iron Pipe & Foundry Co v Henry Vogt Mach Co, 206 S.W. 806, 182 Ky 473.

creating or licensing the company<sup>11</sup> Such bondholders are also charged with notice of all the provisions of the mortgage or deed of trust securing the bond,<sup>12</sup> where apt and sufficient reference is made in the bond to the mortgage or deed of trust,<sup>13</sup> and this rule has been applied with respect to provisions for payment and satisfaction.<sup>14</sup> The bonds cannot be paid off before maturity other than in accordance with the terms specified in the agreement.<sup>15</sup>

**§ 260. — Proceedings to Restrain Company from Exceeding Rights or Violating Duties**

A water company may be restrained from exceeding its rights.

A landowner may restrain the water company from exceeding its rights on his property,<sup>16</sup> but the court will not grant an injunction that will summarily cut off the water supply of a city but will provide a reasonable time for the company to condemn the rights involved or change its plans<sup>17</sup> If the landowner has established an unwarranted use by the water company, the latter must show a

prescriptive right or estoppel of the landowner.<sup>18</sup> If a water company without the right to do so attempts to use the streets for the laying of water pipes, the city may forcibly prevent the excavation<sup>19</sup> or may obtain equitable relief by injunction,<sup>20</sup> and so, when the necessary consent of the city is not obtained, an injunction lies to prevent the laying of the pipes in the streets without such consent,<sup>21</sup> and the court may compel the removal of such as are laid pending suit<sup>22</sup>

**§ 261. Authority of Public Service Commissions Relative to Construction and Operation of Waterworks**

The construction and operation of waterworks by water companies are subject to regulation and control by public service or public utility commissions.

In some jurisdictions, the construction and operation of waterworks by water companies are subject to regulation and control by public service or public utility commissions<sup>23</sup> Since such a commission derives its authority or jurisdiction wholly from constitutional or statutory provisions,<sup>24</sup> it has only such authority or jurisdiction as is derived there-

Authority and power of public utility commissions generally see Public Utilities §§ 38-45

**Charter provision held not repudiated**

Rule of statutory construction contained in New York charter provision that no provision thereof was deemed to be repealed or amended unless repeal or amendment was expressly stated, or legislative intention to that effect was unmistakable, was not repudiated when provision of Public Service Law extending jurisdiction of Public Service Commission over water companies was enacted—City of New York v New York Water Service Corp, supra.

from,<sup>25</sup> and, accordingly, a public service commission whose jurisdiction is limited by statute to matters relating to the safety and sufficiency of the service has no power to order relocation of pipes in order to prevent damage to the streets from frequent repair of the pipe lines<sup>26</sup> When authorized by statute, a commission may order extensions of the distributing system of a water company,<sup>27</sup> but it does not have such power when it has been delegated to the city wherein the company is located and operated<sup>28</sup> The fact that a water company is authorized by its act of incorporation to adopt such bylaws, rules, and regulations as shall not contravene the constitution and laws of the United States, or of the commonwealth, does not authorize it to enforce rules and regulations contrary to the expressed policy and rules of the Public Service

Commission<sup>29</sup> Under a statute which leaves to each city the regulation and control of water companies operated within its boundaries and which supply water principally to it, a public service commission has no jurisdiction to entertain an application for authority to issue mortgage bonds from a water company so operated.<sup>30</sup>

The orders of the commission must be reasonable and in conformity with the law,<sup>31</sup> and an order of a commission requiring a water company to reconstruct its plant, when such is unnecessary and no adequate return would be made on the investment, is void<sup>32</sup>

*Review* While the decision or order of the commission is subject to review by the courts,<sup>33</sup> if based on substantial evidence it will not be disturbed,<sup>34</sup> unless it is so capricious, arbitrary, or

25 W Va.—City of Bluefield v Public Service Commission, 118 SE 542, 94 W Va. 334

#### Issuance of securities

Public Service Commission was without jurisdiction to require public service water company to secure approval of commission prior to entering into agreements with holders of mortgage bonds for reduction of interest rates, to be accomplished by delivery of bonds to company by owners, substitution of lower interest figure, and return of bonds to owners, since transaction was not an "issuing of securities" within statute conferring jurisdiction on commission—Blue Mountain Consol Water Co v Public Service Commission, 189 A 545, 125 Pa. Super 1

#### Certificate of public convenience

Stipulation by public service water company that any loss in proposed extension would be taken care of from proceeds and would not result in increased rates was held incompetent evidence on which to base certificate of public convenience permitting extension of service—Borough of Clarks Summit v Public Service Commission, 92 Pa. Super 591

#### Order directing uniform system of accounts

(1) Validity of an order of Public Utilities Commission directing water utilities to keep a uniform system of accounts does not depend on that part of order reserving to commission power to require utilities to write off any part of amounts in a designated account, since utility affected by any future write off order would have opportunity to question such order directly—Scranton-Spring Brook Water Service Co v Pennsylvania Public Utility Commission, 67 A 2d 735, 165 Pa. Super 286

(2) Order directing water utilities to keep a uniform system of accounts showing, among other things, original cost of property first devoted to public use, is not restricted to prospective application—Scranton-Spring Brook Water Service Co v Pennsylvania Public Utility Commission, supra

(3) The term "original cost" as used in order directing water utilities to keep an account showing original cost of utility plant is equivalent to the statutory phrases "original cost of such property when first

devoted to the public service" and "original cost of construction," and does not necessarily mean cost to the present owner, or book cost, or include increase in market value—Scranton-Spring Brook Water Service Co v Pennsylvania Public Utility Commission, supra.

#### Controlling question

On appeal from order of Public Utility Commission that it was unlawful for water company to continue to serve unfiltered water to the public and that it was unreasonable to require the company to serve filtered water to certain persons in view of cost of such service, the controlling question was whether there was substantial evidence with rational probative force in the record to sustain the findings of fact and the order of the commission, since the question before the commission was largely an administrative one which must be left to the sound judgment and discretion of the commission—Cole v. Pennsylvania Public Utility Commission, 22 A 2d 121, 146 Pa. Super 257

#### Matter not placed on record

Copies of letters which were printed as exhibits to Public Service Commission's brief on appeal by water company from orders entered in pro-

unreasonable as to amount to error of law<sup>35</sup> or a violation of constitutional rights<sup>36</sup>

## § 262. Licenses and Taxes

A water company may be liable for a license or privilege tax.

A license or privilege tax may be imposed on a water company,<sup>37</sup> and it may be liable for penalties where there is a failure to comply with the requirements of the statute imposing such a tax<sup>38</sup>. However, if unauthorized by its charter or statute, a city may not impose license taxes or fees on the franchise and plant of a water company for revenue purposes<sup>39</sup> or for the permission to carry on the business,<sup>40</sup> but it may impose a reasonable tax or fee as incident to the exercise of police supervision and inspection<sup>41</sup> and to defray the cost thereof<sup>42</sup>. Where a fee has been imposed by the city, the

presumption is that it is imposed for police inspection and surveillance purposes rather than for revenue or as a return for permission to carry on the business<sup>43</sup>. The burden of showing the unreasonableness of the fee is on the water company,<sup>44</sup> and payment cannot be avoided by showing that it is somewhat in excess of the actual expense of supervision,<sup>45</sup> since the city is ordinarily unable to tell in advance the exact cost and is at liberty to make the charge large enough to cover any reasonably anticipated expense<sup>46</sup>.

*Percentage of gross receipts* Under a constitutional provision that any individual or corporation may establish and operate waterworks to supply a city and its inhabitants with water under such conditions and regulations as the city may prescribe under its organic law, a municipality has no power

ceeding to require company to extend its facilities, but which were never placed on record, would not support orders of commission, since all parties must be fully apprized of evidence on which commission proposes to act, and must be afforded an opportunity to cross-examine opposing witnesses—*Latrobe Water Co v Public Service Commission*, 186 A 294, 123 Pa Super 21

### Orders held sustained by evidence

#### (1) Generally

#### Foreclosure according to terms

A trust deed to the public trustee of a county to secure bonds of a land and water company was foreclosable according to its terms, and not to require a foreclosure proceeding—Walpole v Rogers, 185 P 346, 66 Colo 573

#### Persons entitled to prosecute action and necessary parties

(1) Where, by terms of trust deed covering waterworks system, trustee in case of default at his own option could, and on demand of majority of holders of bonds secured by deed must, declare entire indebtedness due and proceed with foreclosure, and where, after default and demand made, trustee in recognition thereof and on his own election declared indebtedness due and proceeded with foreclosure, alleged fact that such demand was made in violation of independent contract between bondholder

er making the demand and mortgage debtor did not impair right of trustee to prosecute foreclosure action—West Nichols Hills Water Co v American-First Trust Co in Oklahoma City, 158 P 2d 691, 195 Okl 428

(2) Where mortgagor answered to the merits without challenging trustee's right to maintain action to foreclose mortgage trust deed covering waterworks system, and filed a cross action alleging breach of contract between mortgagor and holder of majority of bonds secured by trust deed, mortgagor could not thereafter challenge trustee's right to maintain action on ground that holder of majority of bonds was a foreign corporation doing business in state without complying with domestication statutes and that action was for its benefit—West Nichols Hills Water Co v American-First Trust Co in Oklahoma City, supra.

(3) Where, by terms of trust deed covering a waterworks system, trustee was made representative of rights of beneficiaries, such beneficiaries were not necessary parties to action by trustee to foreclose trust deed, even though beneficiaries under terms of trust were authorized to and did demand that trustee prosecute foreclosure action—West Nichols Hills Water Co v American-First Trust Co in Oklahoma City, supra.

#### Cross action or counterclaim

Trustee, having duty under mortgage trust deed covering waterworks system to declare entire indebtedness due on any default in payment and proceed with foreclosure, would not be liable in damages for breach of bondholder's agreement to which trustee was not a party not to de-

## § 263. Remedies of Creditors and Enforcement of Liabilities

The mortgage creditors of a water company may be entitled to a foreclosure and the sale of its property

The mortgage creditors of a water company may be entitled to a foreclosure<sup>53</sup> and a judgment directing the sale of its property<sup>54</sup>. As a general rule, the property of a water or waterworks company, as a quasi public service company, is not subject to a mechanic's lien,<sup>55</sup> but there is also some authority to the contrary,<sup>56</sup> and under the provisions of some statutes such a lien may attach to the property of a waterworks company.<sup>57</sup> Where the property of a water company is subject to foreclosure and sale, the court will make such directions, as to selling the plant as an entirety and carrying on the business, as will protect the public.<sup>58</sup>

mand foreclosure, and hence claim for damages for such breach could not be interposed by mortgage debtor as cross action or counterclaim in foreclosure action by trustee—West Nichols Hills Water Co v American-First Trust Co in Oklahoma City, supra

54 Okl—West Nichols Hills Water Co v American-First Trust Co in Oklahoma City, 158 P 2d 698, 195 Okl 436

#### Advertisement of sale

Advertisement of sale of realty and personalty comprising waterworks plant and facilities, on special execution issued pursuant to judgment foreclosing mortgage deed of trust in newspaper published in city located in same township as the realty, was sufficient, although circulation of such newspaper was small—West Nichols Hills Water Co v American-First Trust Co in Oklahoma City, supra

E. SUPPLY AND DISTRIBUTION OF WATER

§ 264. To Municipalities

Particular matters with respect to the supply and distribution of water to municipalities are discussed infra §§ 265-276, 283.

Examine Pocket Parts for later cases.

§ 265. — Power and Authority of Municipality to Contract

- a. In general
- b. Restrictions
- c. Particular contracts

a. In General

A municipal corporation generally has the authority to contract for a supply of water for municipal uses, but such authority must be conferred on it either expressly or by implication

Subject to the rules of law applicable to municipal contracts generally, particularly with reference to public improvements, as discussed in Municipal Corporations §§ 1035-1652, a municipal corporation ordinarily has the authority to contract for a supply of water for municipal uses,<sup>59</sup> but the power of a municipality to contract for the procurement of a water supply must be conferred on it either expressly or by implication<sup>60</sup> The power to enter into contracts for the supply of water to the municipality and its inhabitants may be expressly given<sup>61</sup> or may be implied<sup>62</sup> Such power may be implied from the power to provide for a water supply,<sup>63</sup> establish a water system of its own,<sup>64</sup> contract for and procure,<sup>65</sup> construct<sup>66</sup> or purchase<sup>67</sup> waterworks,<sup>68</sup> or make contracts for the welfare of the city or contract generally in connection with the

power to provide for the health and welfare of the inhabitants<sup>69</sup> However, the power to purchase water cannot be inferred from a grant of power to erect a waterworks in a statute in which there is found elsewhere express authority for the exercise of the power to purchase, although in a different manner<sup>70</sup> The right of contract conferred on municipalities by statute is not a right to contract for a water supply with any and every company, but only with such as have the power to make such a contract with a municipality.<sup>71</sup>

*Municipality as agent of individual citizen* Although it has been said that where municipal authorities are empowered to contract with a water company for a supply of water, they act as agents of all the people of the city, then and thereafter,<sup>72</sup> strictly speaking the contract is on behalf of the municipality as principal,<sup>73</sup> and the inhabitants will not be regarded as principals by reason of the fact that they are interested that the obligations of contractors toward the municipal corporation should be faithfully complied with, or the fact that they, as taxpayers, contribute the money with which the payments under the contracts of the municipality are to be made<sup>74</sup> Although, by statute, any contract for a municipal water supply must be confirmed by a two-thirds vote of the qualified electors of the city, a city, in entering on such a contract, is not the agent of a single elector or of the aggregate two thirds<sup>75</sup>

b. Restrictions

The authority of a municipality to contract for a supply of water may be subject to certain restrictions, such as limitations on the indebtedness which it may lawfully contract.

|--|--|---|

Although a municipal corporation generally has the authority to contract with an individual or corporation for a supply of water for municipal uses, such authority may be subject to certain restrictions.<sup>76</sup> Thus, the municipality may not exceed the amount authorized by statute to be paid or raised by taxation for such service,<sup>77</sup> and it may not exceed the indebtedness which it may lawfully contract,<sup>78</sup> including, for this purpose, the fixed payment for each current year, not the aggregate of such payments for the whole term of the contract,<sup>79</sup> although there is also authority for the view that the aggregate of payments for the whole term of the contract is to be included.<sup>80</sup> Mere power to enter into a contract with a water company<sup>81</sup> or to contract for a certain period<sup>82</sup> does not authorize a municipality to enter into a contract for such period or for a stated period at a fixed rate. Under a provision of the constitution that the supply of water is subject to the regulation of the state, a municipality has no power to bind itself to pay fixed rates for water for any period beyond the change of rates by statute.<sup>83</sup>

**Exhaustion of authority** Where a municipality is authorized to obtain a water supply either by contract with a private corporation, as discussed supra subdivision a of this section, or by constructing and operating its own works, as considered supra §§ 234-242, it has been held that the adoption of one method exhausts the power of the municipality to adopt the other as long as the first continues the supply according to law.<sup>84</sup>

**Monopoly.** Where its charter confers on a municipality the power to contract for a supply of water, a contract entered into therefor, although it

create a monopoly and is void to that extent, has been held valid to the extent of the powers delegated in the charter.<sup>85</sup> A municipality authorized to buy water for its own distributing system may agree to purchase water up to a given quantity exclusively from one company.<sup>86</sup> A statute prohibiting the grant of an exclusive right for the supply of water is not violated by a contract which contemplates the possibility of the municipality purchasing water from other sources in the future.<sup>87</sup>

**Pledge of municipal credit.** In the absence of express authority, a municipal corporation cannot enter into a contract for the purchase of water from a private corporation which amounts in effect to a pledge of the municipal credit for the support of a private enterprise.<sup>88</sup> A constitutional prohibition of the lending of the credit of a municipality is not violated by a contract with a water company under which the municipality obligates itself to pay for a certain minimum amount for a certain period, although to supply such water it is necessary for the water company to extend its system.<sup>89</sup>

**Source of supply** Although it may be unlawful for a municipality to go outside the state for its supply of water, where a contract for a water supply is silent as to the source from which the water is to be taken, an illegal execution of the contract will not be presumed.<sup>90</sup>

**Supply for portion of town** Under an act authorizing a town to establish a water-supply district and contract for a supply of water for such district, a town, all of which is included in a water district, is not authorized to contract for a supply of water for a portion only of the town.<sup>91</sup> On the other hand,

76 Ky—Beard v Hopkinsville, 24 S W 872, 95 Ky 239, 15 Ky L 756, 44 Am SR 222, 23 L R A 402

**Purchase from "public corporation"**

Under statute providing that city or village owning a distribution system and having an inadequate water supply may purchase water from any "public corporation," city was authorized to contract with the United States for a water supply—Harding v City of Dickinson, 33 NW 2d 626, 76 ND 71

91. NY—People v Sisson, 77 NYS 376, 75 App Div 138, 140, affirmed 66 NE 1115, 173 NY 606.  
67 C J. p 1202 note 65.

under an act authorizing a municipal corporation to contract for a supply of water, it has been held that the fact that the water supply is not carried to every part does not invalidate the contract<sup>92</sup>

### c. Particular Contracts

- (1) Contract by municipality to supply other municipality
- (2) Furnishing water directly
- (3) Further or other supply
- (4) Use of streets

#### (1) Contract by Municipality to Supply Other Municipality

Where statutory authority therefor exists a municipality may contract with another municipality for the sale or purchase of water, but in the absence of statutory authority, a municipality which has purchased a supply of water for its own use is without power to contract to furnish water to another municipality.

Where statutory authority therefor exists a municipality may contract with another municipality for the sale<sup>93</sup> or purchase<sup>94</sup> of water. However, a municipality having no water supply of its own cannot, in the absence of any legislation vesting such power, contract with a water company for water to be supplied to another municipality,<sup>95</sup> nor, in the absence of statutory authority,<sup>96</sup> where a city has purchased a supply of water for its own use, has it the power to contract to furnish water to another municipality<sup>97</sup>. Where the authority to contract for a water supply is limited by statute to

adjoining municipalities, such authority does not extend to municipalities that are not contiguous<sup>98</sup>. Likewise, under a statute authorizing a municipality with waterworks of its own to enter into a contract with a contiguous municipality for the supply of the latter with water and also to dispose of surplus water for manufacturing and other purposes, a noncontiguous municipality cannot contract for a water supply from the municipality with its own waterworks<sup>99</sup>. The board of a town, which has established a water supply district including a village which is afterward incorporated, has been held to lack power, under the statutes applicable to the authority of the municipalities in question, to enter into a water contract to supply such village after its incorporation<sup>1</sup>.

*Water supply commission.* The power and authority of a water supply commission to contract with municipalities for the supply and distribution of water are statutory and depend on, and are measured by, the terms of the statutory grant of power and authority reasonably construed<sup>2</sup>.

*Restriction by contract.* The attempt of a water company, in selling its waterworks to a municipality, to restrict the sale of water to such municipality and other designated municipalities is beyond its powers and against the policy of the state<sup>3</sup>.

*Approval of district, state, or federal officers.* Where a municipality is authorized to contract with

96 Ill.—Baltis v Village of Westchester, 121 N.E.2d 495, 3 Ill 2d 388

97 N.J.—Rehul v Jersey City, 58 A 175, 71 N.J. Law 109

98 N.J.—Bayliss v Borough of North Arlington, 76 A 1024, 80 N.J. Law 124

99 Ohio—Wright v Kennedy Heights, 1 Ohio Cir Ct, N.S., 195, 25 Ohio Cir Ct 409  
67 C.J. p 1202 note 71.

1. N.Y.—Villa Park Ass'n of Great Neck v Town of North Hempstead, 146 N.Y.S 1047, 162 App Div 45

2. N.J.—City of Bayonne v North Jersey Dist Water Supply Commission, 105 A.2d 19, 30 N.J. Super 409

#### "May" as mandatory

"May," within statute providing that water supply commission, under certain circumstances, may contract to supply a municipality with water is mandatory, and commission is obliged to enter into such a contract, if applying municipality is willing to do so on the basis of the price to be fixed under the statutory formula, but this does not require that the words "may allow" appearing in later portion of the statute are to be construed to mean "shall allow"—City of Bayonne v North Jersey Dist Water Supply Commission, supra

#### Determination of adequacy of supply

Determination of whether water supply under control of water supply commission was adequate to justify contracting to supply nonparticipating city was within the commission's administrative responsibility and special competence, subject to limited statutory superintendency.—City of

Bayonne v North Jersey Dist Water Supply Commission, supra

#### Duty of village to contract

Where two villages pursuant to statutory authority passed identical ordinances providing for joint acquisition and operation of common source of water supply, and each village appointed a commissioner to serve on water commission which had been created pursuant to statute, and circuit court of county appointed third commissioner as provided by statute, thus constituting a commission vested with statutory power, and one village entered into contract with commission for water pursuant to statute, officers of the other village had duty under statute to contract with commission for water, as against contention that such village could disclaim any right, obligation or duty in connection with further functioning of commission—People ex rel Morgan v Village of Berkeley, 94 N.E.2d 550, 342 Ill App 117, affirmed 98 N.E.2d 743, 409 Ill. 160.

3. N.J.—East Jersey Water Co v City of Newark, 130 A. 557, 558, 98 N.J. Eq 672  
67 C.J. p 1202 note 73.

another municipality for a water supply, but is required to have the consent of the district water supply commission and the board of conservation and development, it is immaterial that such consent was obtained subsequent, rather than prior, to the making of such contract<sup>4</sup> In the absence of any statutory requirement, a municipality contracting to purchase water from another is not required to have the consent of the conservation commission<sup>5</sup> or the approval of the state board of health<sup>6</sup> A contract of a municipality purchasing water from another is not invalidated by the fact that the consent of the war department of the United States and that of the state board of commerce and navigation has not been obtained, although one or both would be necessary if delivery is to be made by a main laid according to the plan presented by the contract, where this is not the sole means by which the contract may be performed<sup>7</sup>

### (2) Furnishing Water Directly

A statute authorizing water commissioners to contract for the furnishing of water to the city for public purposes does not authorize a contract for the furnishing of water directly to the inhabitants through the private pipes of the company

A statute authorizing water commissioners to contract for the furnishing of water to the city for public purposes does not authorize a contract for the furnishing of water directly to the inhabitants through the private pipes of the company.<sup>8</sup>

### (3) Further or Other Supply

The fact that a municipality has a contract for a supply of water will not prevent it from contracting for a further or other supply.

The fact that a municipality has a contract for a supply of water will not prevent it from contracting for a further or other supply.<sup>9</sup> A city may be authorized to procure by purchase or otherwise ad-

ditional water supply for temporary and emergency use<sup>10</sup>

*Board of water commissioners* expressly granted power to make contracts for supplying a village with water may contract with an individual for supplying the balance of water needed after it has acquired a municipal plant and has found it inadequate<sup>11</sup>

### (4) Use of Streets

The power of a municipality to contract for a water supply includes the power to contract for the use of the streets for that purpose by private persons.

The power of a municipality to contract for a water supply includes the power to contract for the use of the streets for that purpose by a private corporation or individuals.<sup>12</sup>

## § 266. — Form and Requisites of Contract

- a In general
- b Bids and deposits

### a. In General

A contract for a water supply must be made as the law directs, and a municipal ordinance may constitute the contract

A contract for a water supply must be made by means of an ordinance, resolution of the municipal authorities, or otherwise as the law directs<sup>13</sup> An ordinance prescribing the conditions on which a water supply company may lay its mains and pipes in the streets of a city, and furnish water to it and its inhabitants, when accepted by the water company, constitutes the contract between it and the city<sup>14</sup>

*Invalid ordinance; ordinance procured by fraud*  
Where an ordinance embracing a contract between a municipality and a water company was void because a member of the common council of the municipality was interested in the water company, the former is not estopped to assert the invalidity of

nectady, 60 NYS 2d 911, 186 Misc 385

67 CJ p 1203 note 85

#### Formal requirement inapplicable

Failure to obtain formal approval by common council of arrangement made by city manager concerning water supply did not prevent city from being obligated under implied contract, in view of emergency confronting city when arrangement was made and council's full knowledge of situation requirement of formal action by council being inapplicable under such circumstances—People v City of Schenectady, supra.

<sup>14</sup> Va.—Portsmouth, Berkley & Suffolk Water Co v City of Portsmouth, 70 SE 529, 112 Va. 158.

the ordinance where most of the acts relied on to work an estoppel were required of the municipality under a previous valid ordinance and the presumption is that, relative to the invalid ordinance, the water company knew the law<sup>15</sup> It has been held, however, that the fact that an ordinance granting to a person the right to supply water was procured by bribing members of the council will not affect the right of a water company which purchased the franchise of such person, without notice of the fraud, and expended money in the construction of waterworks, to collect the agreed rent for hydrants actually furnished to, and used by, the city.<sup>16</sup>

### b. Bids and Deposits

Generally, a contract to supply water is not required to be awarded to the lowest of competitive bidders, but where competitive bids are called for, bidders may be required to deposit a reasonable sum as a guaranty of good faith

Generally, a contract to supply water is not required to be awarded to the lowest of competitive bidders,<sup>17</sup> but where competitive bids are called for, bidders may be required to deposit a reasonable sum as a guaranty of good faith<sup>18</sup>

## § 267. — Ratification of Defective Contract

A defective contract may be ratified by appropriate action.

Where a municipality possessing the power to contract for supplying itself and its inhabitants with water, in entering into a contract for this purpose, exercises its power in an improper or defective manner, it may by appropriate action subsequently ratify the contract<sup>19</sup> Thus, where a municipality possesses the requisite power to contract, the making of a subsequent contract modifying the original may operate to ratify the original<sup>20</sup> However, where a municipality is without authority to contract for supplying itself and its inhabitants with

water, the subsequent execution of an agreement modifying the original one, unless expressly authorized by statute as such ratification, does not validate the original contract<sup>21</sup>

*Legislative action* A contract originally ultra vires may be rendered valid by subsequent legislative action<sup>22</sup>

## § 268. — Terms and Conditions of Contract in General

- a. In general
- b. Duration, extension, and renewal
- c. Quantity of water; force or pressure
- d. Compensation

### a. In General

In the absence of a controlling statute, the terms and conditions on which a city will exercise its authority to contract for a water supply are largely within the discretion of its authorities

In the absence of a controlling statute, the terms and conditions on which a city will exercise a statutory authority to contract for a supply of water are largely within the discretion of its authorities,<sup>23</sup> which will not be reviewed in the absence of fraud or abuse<sup>24</sup>

*Regulation by commission.* Where, under a public utilities act, the terms of the contract between a water company and a municipality are determined by the public utility commission, it has power to prescribe not only the rates to be paid, as discussed infra § 275, but the character of the service to be furnished<sup>25</sup>

### b. Duration, Extension, and Renewal

In the absence of a constitutional or statutory restriction, the duration of the contract may be fixed in the discretion of the municipal authorities, and provision may be made for its extension and renewal, but, under the circumstances of particular cases, a contract for a term of twenty or thirty years has been held to be unreasonable.

Ohio—Wagner v City of Youngstown, 75 NE 2d 724

Utah—Barlow v Clearfield City Corp, 268 P 2d 682, 1 Utah 2d 419 67 C J p 1204 note 94

**Designation of connecting point by mayor**

A municipal contract for a new water supply is not invalid because, instead of fixing the point at which the new water supply is to be connected, it leaves the designation of such point to the mayor of the municipality—Brady v Bayonne, 30 A. 968, 57 N J Law 379

24. Cal—Wehrle v Board of Water and Power Com'rs of Los Angeles, 293 P 67, 211 Cal 70. 67 C J p 1204 note 95.

25. N J—Hackensack Water Co v Borough of Tenafly, 111 A. 261, 95 N J Law 25.

In the absence of constitutional<sup>26</sup> or statutory<sup>27</sup> restriction, the duration of the contract may be fixed in the discretion of the municipal authorities,<sup>28</sup> although for a longer period than their term of office<sup>29</sup> Accordingly, a contract for a municipal water supply for a term of ten,<sup>30</sup> twenty, or thirty,<sup>31</sup> and even of forty years,<sup>32</sup> is not so unreasonable per se as to be illegal. However, under the circumstances of particular cases, a contract for a term of twenty or thirty years has been held to be unreasonable and void.<sup>33</sup> A statute limiting the contracts of a municipality with a corporation for a water supply to a term of twenty years does not apply to a contract with individuals, although such individuals intend to, and subsequently do, transfer their rights to a corporation.<sup>34</sup>

**Contract for year.** By adopting a contract that provided for an annual rental and paying on that basis, a municipality and a water company became mutually bound at least for the current year.<sup>35</sup> In the absence of proof to the contrary, a contract for a year is a contract for the calendar year.<sup>36</sup> Authority to contract for a water supply is not limited to the making of annual contracts by the use of the phrase "for supplying the said city . . . with water . . . from year to year."<sup>37</sup>

**Indefinite term.** In the absence of constitutional or statutory provision to the contrary, a city and a company may contract for a supply of water for an unlimited period.<sup>38</sup> Where the contract is for an unspecified term, the city may terminate the contract on giving due and reasonable notice of its election so to do.<sup>39</sup>

**Renewal or extension.** Where a city is authoriz-

ed to enter into a contract for a water supply, provisions for a renewal or extension at the expiration of the first term have been held valid.<sup>40</sup> The provision of a contract to furnish water for a municipality extending its term in case a sale has not been made until new terms could be reached is not abrogated by the powers vested in a public utilities commission created since the contract was made,<sup>41</sup> but, where the act establishing a public utilities commission provided that any agreement of the parties for an extension of the contract was subject to the approval of the commission, the authority of such commission supersedes a contractual provision for arbitration in case of failure of a municipality and water company to agree on terms of renewal.<sup>42</sup> Where the terms of a contract between a city and a water company comprehend beside rates the elements that go to make up service, and the contract contains no provision permitting the settlement of the terms of renewal to be determined by any agency other than the parties themselves, a provision of the contract that on the expiration of the stated term, if the city does not elect to purchase the waterworks, it shall renew the contract on such terms as are to be mutually agreed on at that time, provided that the rates shall in no case exceed those fixed by the contract, imposes no obligation on the city to renew on failing to purchase.<sup>43</sup> Where, according to its contract, a city was to be furnished water without charge for certain purposes, and had the right to purchase the water plant at a date beyond the term of the franchise, and both franchise and contract were treated by both parties as extended, the contract period, including the obligation to furnish water free for certain purposes, continued

67 C J p 1205 note 17.

until the time necessary to complete the purchase, which the city had elected to make<sup>44</sup> A contract by a city to pay hydrant rentals to a water company for the term of twenty years, containing no express limitations as to the time during which the company is to furnish water, is not extended by the fact that the city permits the company to continue to occupy the streets with its mains and hydrants<sup>45</sup>

### c. Quantity of Water; Force or Pressure

Contractual requirements as to the quantity of water and pressure will be enforced unless waived

A requirement in the contract of a municipality with a water company that the latter should furnish an "ample supply" of water, or "first class fire protection," or a specified quantity and pressure, obligates the water company to maintain a plant and equipment capable of filling the requirement,<sup>46</sup> provided the requirement of the contract has not been waived by the municipality, as by its acceptance of an inadequate plant<sup>47</sup> However, where the city has contracted for results and not for the means or appliances by which such results may be reached, the acceptance of mains smaller than the maximum size specified does not relieve a company from its obligation to supply the stipulated quantity and force of water,<sup>48</sup> unless the acceptance of smaller pipes in consideration of a reduced rental modifies the original obligation<sup>49</sup> An agreement to supply water to the extent it may be needed only is not void for lack of mutuality merely because the amount needed may be a variable quantity<sup>50</sup>

*Notice* Where the contract between municipality and water company provides for notice of in-

sufficient supply or pressure, proper notice must be given to relieve the municipality of its obligation to make payments under the contract<sup>51</sup> However, formal notice and demand of requisite pressure in emergencies have been said to be unnecessary<sup>52</sup>

### d. Compensation

- (1) In general
- (2) Remission or payment of taxes

#### (1) In General

Authority to purchase water implies authority to pay for it, and provisions for reasonable compensation will be sustained.

Authority to purchase water necessarily implies authority to pay for it,<sup>53</sup> and provisions for reasonable compensation will be sustained<sup>54</sup> Where statutory authority therefor exists a municipality may bind itself to raise the money to pay for the water purchased in such a manner as would secure for it the most efficient and economical contract<sup>55</sup>

*Rate of contract with other parties* Where a company, which had been furnishing a city with water, joined with others, who had contracted to furnish the city a new water supply, in an agreement with the city to continue to furnish it water until the city should obtain its new supply, and the rate at which water was to be furnished in the interim was different from that at which it was to be furnished from the new supply, those who had contracted for the new supply were not obliged to furnish the water at the temporary rate<sup>56</sup> However, by express contract between a municipality and a water company, the rate to be paid by the former may, under

Regulation by city or state see *infra* § 275

**Rates "reasonable" in relation to costs**

Under a contract for the sale of water by a city to a township providing that the rates should always be "reasonable" in relation to the costs incurred by the city for the supply of water, method employed by city of dividing in proportion to the total income, the customary account-

ing and collection costs and the administrative and general expenses was not unreasonable, and where township's demands for water were partially met by supplying water through pipes financed by bond issues, it was not unreasonable that the township should pay a share of the bond service charges regardless of the fact that the construction of facilities was not directly occasioned by the township's demands, and prudent business administration required that the item of costs incurred include, among others, operating expenses, upkeep of property, and a fair return on the value thereof—Meridian Tp v City of East Lansing, Mich., 71 NW 2d 234, 342 Mich 734

55. ND—Harding v City of Dickinson, 33 NW 2d 626, 76 ND 71

56. NJ—Jersey City v Flynn, 70 A 497, 74 N J Eq 104, modified on other grounds 76 A. 3, 76 N J Eq 607.

certain circumstances, depend on the rate paid by other municipalities<sup>57</sup>

## (2) Remission or Payment of Taxes

When not in contravention of applicable constitutional provisions, a city generally may agree, as part of the consideration for a municipal water supply, to remit municipal taxes on the property of the water company, and it may also generally agree to pay, or to exempt the company from the payment of, such taxes.

When not in contravention of applicable constitutional provisions,<sup>58</sup> a city generally may agree, as part of the consideration for a municipal water supply, to remit municipal taxes on the property of the water company<sup>59</sup> It may also generally agree to pay,<sup>60</sup> or to exempt the company from the payment of,<sup>61</sup> such taxes in excess of a certain amount, provided the consideration for such agreement, on the part of the municipality, is reasonably adequate, and the contract is for a reasonable length of time and in other respects reasonable and fair<sup>62</sup>

**Federal taxes** Where a municipality has contracted, in case "any franchise or other tax, except upon its tangible property" is assessed against the water company, to save it harmless from a defined part thereof, or, on failure to do so, pay a specified sum for certain services by such company, the phrase does not include federal income and capital stock taxes.<sup>63</sup>

**State tax.** Where a city agrees, as part of the consideration for a water supply, to pay a sum equal to all taxes which may be assessed on the franchise and real and personal property of the company, this includes a tax assessed by the state.<sup>64</sup>

## § 269. — Purity and Quality of Water

### a. In general

### b. Waiver or estoppel

### a. In General

A requirement that a water company furnish "pure and wholesome water" obligates the company to furnish water which is ordinarily and reasonably pure and wholesome and fit for domestic use

A requirement that a water company furnish "pure and wholesome water" obligates the company to furnish water which is ordinarily and reasonably pure and wholesome and fit for domestic use, but not necessarily chemically pure<sup>65</sup> The municipality is under no obligation to pay for water which is not up to such standard<sup>66</sup>

**Notice** Where a contract provides that in case the water company neglects or refuses to maintain a filtering process to keep the water pure, after reasonable notice by the municipality, the latter is under no obligation to pay a stipulated hydrant rental until such filtering process is provided, proper notice must be given and a reasonable time allowed thereafter to perfect the filtering process required in order to discharge the municipality from its obligation<sup>67</sup>

**Hydrant rental.** The obligation of the city to pay for water supplied at hydrants for fire protection or sanitary purposes is unaffected by the failure to supply water which is "good and wholesome" and suitable for domestic uses<sup>68</sup>

### b. Waiver or Estoppel

A municipality may waive its rights as to quality of water, but the waiver of a former breach of the obligation to supply pure water, which is a continuous obligation, does not estop a municipality to set up a present breach

A municipality may waive its rights as to the quality of water to be supplied under a contract<sup>69</sup> Thus, where the water is not "wholesome," as contemplated by the contract, but the municipality receives such water without objection within a reasonable time, it will be held to have waived its rights as to quality,<sup>70</sup> likewise, if the water is accepted

69. Mo.—Lamar Water & Electric Light Co v City of Lamar, 39 S.W. 768, 140 Mo 145

70. Mo.—Lamar Water & Electric Light Co v City of Lamar, *supra*

as good and used by the city and its people generally for some length of time, the fact that it was actually impure will not relieve the city of its obligation to pay for such water<sup>71</sup> However, this does not apply where there was a mere occasional use of the water without fair examination,<sup>72</sup> or an examination merely of samples submitted<sup>73</sup> The right to insist on a filtering process to provide good and wholesome water, suitable for drinking or other domestic purposes, is not waived by the acceptance of the waterworks, where no filtering processes had been installed but it is not shown that the city authorities then knew that the water was unfit for domestic use<sup>74</sup> The waiver of a former breach of the obligation to supply pure water, which is a continuous obligation, does not estop a municipality to set up a present breach<sup>75</sup> Where a water company, supplying impure water in breach of its contractual obligation, has the only supply and the municipality is compelled to take its service or none at all, acceptance of such service is not a waiver of the breach<sup>76</sup> Where a municipality treated a contract as terminated by refusing to recognize it as of binding force and by resisting an action for specific performance, continued receipt of water service, which the company was under a franchise, as well as contractual, obligation to furnish, was not a waiver of the company's failure to perform its contract<sup>77</sup>

*Authority of city council* A city council has power, acting in good faith, to waive strict compliance with a contract as to the quality of the water furnished<sup>78</sup>

*Exercise of police power despite waiver.* Although a municipality may waive its contract right

to pure and wholesome water by continuing to accept performance, this does not involve waiver of its police power to secure the inhabitants such water<sup>79</sup>

## § 270. — Hydrants and Hydrant Rentals

- a In general
- b Conditional payments

### a. In General

Subject to constitutional and statutory conditions and limitations, a municipality authorized to contract for a water supply may agree to pay hydrant rentals, and the rights and obligations of the parties under such contract depend on its terms, reasonably construed

Subject to constitutional and statutory conditions and limitations,<sup>80</sup> where a municipality is authorized to contract for a water supply, it may agree to pay a stipulated rental for a certain number of fire hydrants,<sup>81</sup> likewise, where a statute authorizes a municipality to provide the necessary means for extinguishing fires, it may lawfully contract with a water company, under agreement to furnish water for extinguishing fires, to furnish the necessary hydrants in an extension of the waterworks<sup>82</sup> The rights and obligations of the parties under such contract depend on its terms, reasonably construed<sup>83</sup> The municipality is under no obligation to pay for any hydrants which do not come up to the standard fixed by the contract or ordinance<sup>84</sup>

*Attempted modification of contract* Notice of the adoption of a resolution, contemplating the continued performance of an existing contract, which provides for payment of the reasonable rental of additional hydrants, by which resolution the city assumed to declare what should be such rental, to

which the company made no response, does not change the contract or affect the company's rights<sup>85</sup>

*Delegation of right to use.* Where a city has an unlimited right to use hydrants for sprinkling the streets, it may exercise such right by employing others to perform the service<sup>86</sup>

### b. Conditional Payments

The obligation of a municipality to pay hydrant rentals may be subject to certain conditions

Where, according to the agreement between a city and a water company, on failure of the water system to meet a certain test, the city should be free from the obligation to pay hydrant rental until such test can be met, the obligation of the city is subject to the condition that the water system meet such test.<sup>87</sup> The provision of a contract suspending the liability of the city for the payment of hydrant rentals for the period during which the company's service is shown by test to be inefficient exempts the city from payment for such period and does not merely postpone the time of payment<sup>88</sup> A provision that, if the water company fail to furnish pure and wholesome water for drinking and other domestic purposes, the city should be relieved from paying hydrant rentals while still using the water from such hydrants for fire and other prescribed purposes, has been held to be not a forfeiture but a valid stipulation for liquidated damages<sup>89</sup>

*Improvement of water system.* Where the obligation of a municipality to pay hydrant rentals is dependent on the obligation of the water company to extend and improve its system, there is no obligation to make such payments where the company has failed to perform its obligation<sup>90</sup> The municipality does not waive performance of such condition by continuing to accept and use the water

furnished,<sup>91</sup> nor, under such circumstances, does an obligation of payment arise because of the use of the water, where refusal of payment is not based on the repudiation of the debt but is merely a suspension of payment until performance by the water company, according to the terms of the contract,<sup>92</sup> and a waiver by the municipality of its right to annul the franchise for failure to make the specified improvements is not a waiver of its right under the contract to suspend the payment of hydrant rentals<sup>93</sup>

## § 271. — Construction, Operation, and Assignment of Contracts

a Construction and operation of contracts

b Assignment of contract

### a. Construction and Operation of Contracts

The contract between a municipality and a water supplier is not subject to interpretation concerning any matter on which it is clear, but, if a question of construction arises, the rules governing the construction of contracts generally are applicable.

The contract between a municipality and a water company or other water supplier is not subject to interpretation concerning any matter on which it is clear,<sup>94</sup> however, should a question of construction arise, the general rules governing the construction of contracts apply<sup>95</sup> In accordance with the primary rule of construction, the intention of the parties should, if possible, be ascertained and given effect<sup>96</sup> Where there is ambiguity in the terms of the contract, courts will generally give it the construction placed on it by the parties,<sup>97</sup> especially where they have acted under it for a great length of time<sup>98</sup> General terms are to be restricted and limited by particular recitals, used in connection

67 C.J. p 1209 note 80.

with them<sup>99</sup> Since the public interest is affected by a contract between a municipality and a water company, the language of such contract should be construed so as to protect that interest<sup>1</sup> The language of a provision of a contract inserted for the benefit of the water company must be construed most strongly against the company<sup>2</sup> However, a waterworks ordinance accepted by a water company is not to be strictly construed against the city on the theory that it was prepared with care and at leisure by the city and accepted by the company without opportunity to consider its provisions<sup>3</sup> Where, under the constitution of the state, a municipality could not enter into a contract that would constitute a monopoly, its contract with a water company must be construed in the light of the presumption that all parties knew of such limitation<sup>4</sup>

*Obligations as independent or dependent.* As to whether or not the covenants of a contract between a municipality and a water company are dependent or independent, the intention of the parties, to be gathered from the contract according to the ordinary rules of construction, must govern<sup>5</sup>

#### b. Assignment of Contract

A water company deriving its supply under contracts from another company may effectively assign its rights under such contracts to a municipality, and a municipality may waive its right to object to the assignment by a water company of its rights and privileges under a contract with the municipality

Where a water company, acting as an intermediary and deriving its supply under certain contracts from another company, assigns all its rights to a municipality, which, among others, it had supplied, such municipality is entitled to the continued supply of water to itself from the supplying company for the period for which compensation by both municipality and the assigning water company had been agreed on and is ascertainable,<sup>6</sup> and, likewise, for the periods for which other municipalities, to be

supplied by such municipality under the assignment, were to be supplied by the assigning water company at an agreed percentage to the supplying water company of the compensation to be received,<sup>7</sup> but such municipality has no right, under the assignment, to the continued supply of water to itself for a further period for which the compensation of the supplying water company is to be an agreed percentage of the to-be-agreed-upon compensation which was to be obtained from the municipality by the assigning water company<sup>8</sup>

*Waiver of right to question* Where for a number of years a city has acquiesced in the assignment by a water company of its rights and privileges under a contract with the city, and allowed the new company during such time to perform the contract of its assignor, the city cannot question the legality of the assignment for the purpose of avoiding performance of the contract on its part<sup>9</sup>

### § 272. — Modification, Rescission, or Abandonment of Contract

- a. Modification of contract
- b. Termination, abandonment, or rescission of contract

#### a. Modification of Contract

The contract between a city and a water company may be modified and changed by the parties, and under a statute in effect so providing, where a designated state regulatory agency determines that the terms of the contract are unjust or unreasonable, the agency must modify the unreasonable terms

The contract between a city and a water company may be modified and changed by the parties,<sup>10</sup> but neither party may vary the contract by unlawful means<sup>11</sup> Where a statute authorizes a municipality to make contracts for a period not to exceed ten years, the municipality has power to revise its contracts with the water company as to the rates for public consumption at the end of every decade<sup>12</sup>

#### Personnel transfers

Neither the city nor the waterworks company can vary the contract between them by having an officer of the city become a stockholder of the waterworks company or by having an officer or stockholder of the waterworks company become a city official and then, in violation of a statute, attempt to change the contractual obligations of the parties—City of Iron Mountain v Iron Mountain Waterworks, supra

12. N.J.—Long Branch Commission v Tintern Manor Water Co, 62 A 474, 70 N J Eq 71, affirmed 71 A 1134, 71 N J Eq 790.

*By state regulatory agency* Under a statute in effect so providing, where a designated state regulatory agency, such as a Public Utilities Commission, determines that the terms of the contract between a water company and a municipality are unjust or unreasonable, the agency must modify the unreasonable terms,<sup>13</sup> or, if necessary, as discussed infra subsection b of this section, abrogate the contract altogether

#### b. Termination, Abandonment, or Rescission of Contract

A contract for water supply may be terminated or rescinded at any time by mutual consent of the parties, or by one of the parties if the other fails to perform its obligations, and under a statute in effect so providing, subject to the conditions contained therein, a designated state regulatory agency may abrogate the contract

A contract for water supply may be terminated at any time by mutual consent of the parties<sup>14</sup> The municipality<sup>15</sup> or the water company<sup>16</sup> may terminate or rescind the contract between them, if the other party fails to perform its obligations. If a water company under obligation to supply pure and wholesome water fails therein for other than unforeseen causes, or fails to remedy promptly defaults due to the latter, it is the duty of the municipality to avoid the contract, absolutely or in the alternative of compelling full performance.<sup>17</sup> However, it has been held that a water company which contracts with a city to supply water for fire protection through hydrants supplied by the city becomes a municipal agency and, even though it may have a contractual right to terminate the contract, cannot summarily shut off the water from such hydrants without other provisions being made for protection from fire.<sup>18</sup> Likewise, inasmuch as the

supply of water to the public schools is a public necessity, a municipality or its water board has no right to cut off the schools' water supply because of rates unpaid by the board of education.<sup>19</sup> Where there has been no breach of duty on the part of the company the city cannot arbitrarily abandon or withdraw from the contract.<sup>20</sup> A contract by which a company agrees to construct waterworks and furnish a borough and its inhabitants with an adequate supply of water, to be taken from certain springs, will not be canceled merely because the springs prove inadequate, where the mistake as to the capacity of the springs is no more the fault of the company than the borough.<sup>21</sup>

*Abrogation by state regulatory agency* Under a statute in effect so providing where a designated state regulatory agency, such as a Public Utilities Commission, determines that the terms of the contract between a water company and a municipality are unjust or unreasonable, the agency must modify the unreasonable terms, as discussed supra subsection a of this section, or, if necessary, abrogate the contract altogether.<sup>22</sup>

#### § 273. — Performance or Breach

The contract of a company to furnish an adequate supply of wholesome water is not met by intermittent performance, and is not excused by climatic conditions which are likely to happen, and it has been held that a contract to supply water from artesian wells is not complied with by supplying water from other sources, although it is equally good

As in any contract of continuing obligation, the contract of a company to furnish an adequate supply of wholesome water is not met by full performance intermittently or in the beginning.<sup>23</sup> Nonperformance of such obligation is not excused by the

#### No voluntary acceptance

Where association constituting a limited municipality functioning within territorial limits of city did not request furnishing of water for

### (1) In General

A city may be required to pay for water used under an implied contract, and when a water company performs a statutory duty to furnish water, there may be a corresponding legal duty on the part of the city to pay for it, but there is no obligation to pay for water furnished with the understanding that it is free.

In the absence of a statutory requirement of a formal written contract, a city, although there is no express agreement to that effect, may be required to pay for water which it uses <sup>29</sup> Thus, the city is liable where it attaches fire hydrants to the mains of the water company and passes an ordinance regulating the charges to be made therefor, <sup>30</sup> where it continues to accept <sup>31</sup> or insist on <sup>32</sup> service after the termination of the formal contract, or where it permits a purchaser of the water company's rights to perform the contract which the city had entered into <sup>33</sup> Likewise, where for a number of years a water company has furnished and a town has paid for water in accordance with the terms of a contract, the company having only a de facto existence, on such company acquiring a de jure status while continuing to furnish, and the town to accept, water, the necessary inference is that the parties adopted the contract between them as far as they legally might <sup>34</sup> Where, however, a statute provides that no city shall make a contract otherwise than in writing and in compliance with certain other requirements, a city, in the absence of such contract, is not liable for the reasonable value of water used, <sup>35</sup> or, on expiration of its written contract with the water company, on the ground of holding over as lessee <sup>36</sup> On the other hand, it has been held

fire protection, but merely accepted water while city was paying for it under contract with water company, and refused to acknowledge responsibility when city denied liability for water charges, there was no voluntary acceptance of the water which would render the association liable for the charges—New Haven Water Co v City of New Haven, 40 A 2d 763, 131 Conn 456

<sup>32</sup> US—Quarles v City of Appleton, CCA Wis, 299 F 508 67 C J p 1212 note 16

<sup>33</sup> US—Austin v Bartholomew, Tex, 107 F 349, 46 CCA 327, certiorari denied 22 S Ct 934, 183 US 698, 46 L Ed 395.

<sup>34</sup> NJ—Belvidere Water Co v Town of Belvidere, 83 A. 241, 82 N J Law 601 67 C J p 1212 note 18

<sup>35</sup> US—City Water Co of Chillicothe v City of Chillicothe, D C Mo, 196 F 234, affirmed 207 F 503, 125 CCA 165

<sup>36</sup> US—City Water Co. of Chillicothe v. City of Chillicothe, supra.

that, although the formal contract between a city and a water company is void because of failure to comply with certain constitutional requirements, the former must pay for water actually used.<sup>37</sup> A statute requiring certain formalities relative to contracts for the public water supply will not prevent an implied obligation to pay for water supplied to the city as to any other householder.<sup>38</sup> Where a city, on the expiration of its contract with a water company, refused to renew the contract and did not thereafter use water from the company's hydrants, the company could not recover hydrant rentals on a quantum meruit for the period following such expiration on the theory that the city was given fire protection and could have used the water, if necessary.<sup>39</sup> An obligation on the part of the city to take water or use fire plugs will not be implied, unless compelled by the plain language of the contract, where to do so would render the contract void.<sup>40</sup> A municipality cannot be held liable on an implied contract for water or service furnished by a person in his own interest and without expectation of compensation.<sup>41</sup>

*Statutory obligation to furnish water.* When a waterworks company performs a statutory duty to furnish water for domestic purposes or fire protection, there is, in the absence of a contract, a corresponding legal duty on the part of the city to pay for such services.<sup>42</sup> Thus, where a water company is under a statutory obligation to furnish water at reasonable rates for extinguishing fires, such rates to be determined by commissioners appointed by the company and city, and the rates were lawfully so determined, the city is liable under an implied contract to pay for water so furnished and used, although the schedule of rates was never adopted by the city council and the city had notified the water company of its refusal to pay.<sup>43</sup>

*Water furnished free.* There is no obligation to pay for water furnished with the understanding that it is free,<sup>44</sup> before notice that the promise is withdrawn.<sup>45</sup> Where, according to its original contract, the term of which had expired, a city was to be furnished water without charge for certain purposes, a promise to pay for the continued use of such water is not implied where the city refused to pay for it and the water company voluntarily continued to furnish it.<sup>46</sup> Where a city furnishes water to the county as a mere volunteer, or under the mistaken impression that it is required to furnish a free supply, not expecting payment, payment cannot be enforced.<sup>47</sup>

*Water furnished county by city.* In the absence of anything to show that the service was gratuitous, where a city furnished water to the county, the latter by accepting the water impliedly promised to render an equivalent.<sup>48</sup>

*Where a municipality purchases the plant of a water company supplying another municipality,* the former must, if it is authorized to do so, continue to furnish such service, as long as it retains possession and control of the property so charged.<sup>49</sup>

## (2) Amount and Rate of Compensation

A city under a noncontractual or implied contractual duty to pay for water furnished must, in the absence of any agreement as to amount, pay a reasonable compensation for the service rendered.

A city, under obligation to pay for the performance of a statutory obligation to furnish water<sup>50</sup> or because of continued use after expiration of its contract,<sup>51</sup> must, in the absence of any agreement as to the amount, pay a reasonable compensation for the service rendered, but a municipality has been held liable for hydrant rental at the rate previously paid where, after a demand of the water company for a higher rate had been rejected, the hydrants

were used by the local fire company,<sup>52</sup> and where a water company is under a statutory obligation to furnish water at reasonable rates for extinguishing fires, such rates to be determined in a specified manner, and they are so determined, but never adopted by the city council, the liability of the city under an implied contract to pay for water so furnished and used is in accordance with the schedule rates<sup>53</sup> Where a water company continued to furnish water to a city after the expiration of a contract, and a state commission was in existence with authority to fix reasonable compensation for water service furnished cities, pending action by such commission on application by both the city and the water company, the city is liable for the reasonable value of the service rendered,<sup>54</sup> and such, likewise, is the liability of the city for the service rendered after the state commission had fixed the price at which the city might acquire the plant of the water company for the period during which the city, continuing to use the water, failed to raise the money to pay for the property<sup>55</sup>

#### b. Of Water Company

If an obligation to furnish water may be fairly implied from the language actually used in a contract, it is just as binding on the company as if it were specifically mentioned, and a water company may be under a statutory duty to furnish water.

If an obligation to furnish water may be fairly implied from the language actually used in a contract, it is just as binding on the company as if it were, in so many words, specifically mentioned.<sup>56</sup> Where a school board, under no obligation to do so, paid accrued water bills to have the service continued, which the water company was under no obligation to continue, the school board cannot recover the amount of such payments<sup>57</sup>

*Obligation to install hydrants* Although the contract between a water company and a municipality has expired, where the former is under the statutory duty to furnish water for fire protection, the fire commissioners, under their statutory powers,

may direct the company to install an additional hydrant<sup>58</sup>

### § 275. — Rates

- a Prescription by company
- b Regulation by municipality
- c. Regulation by state

#### a. Prescription by Company

Under a statute so providing where a water company has complied with the prescribed statutory steps, a rate fixed by such company is binding on a municipality until declared unreasonable by the public service commission, but a rate fixed for fire protection should bear a reasonable proportion to the rates established for other service.

Under a statute so providing, where a water company has complied with the prescribed statutory steps, a rate fixed by such company is binding on a municipality, until declared unreasonable by the public service commission<sup>59</sup> A rate fixed by a water company for fire protection should bear a reasonable proportion to the rates established for other service<sup>60</sup>

#### b. Regulation by Municipality

Where authority therefor exists, a municipality may regulate the rates for water furnished to another municipality or county, or the rates at which water may be delivered to it by a public service corporation.

Under the authority to regulate rates for the use of water conferred on the governing body of a municipality by the constitution of the state, water supplied to a city or county is as fully covered by the provision as is water supplied to individual consumers,<sup>61</sup> accordingly, the municipality may, in its governmental capacity, regulate the rates at which water may be delivered to it by a public service corporation and received by the municipality in its role as consumer,<sup>62</sup> but the power of a municipality to regulate rates, conferred by the constitution, does not apply to a sale of water to a municipality purchasing water in bulk for sale to its inhabitants<sup>63</sup> Where a municipality is authorized to enter into a contract with a water company for a certain

67 C J p 1214 note 51.

period and is likewise authorized to regulate the rates of such water company, the legislative powers of succeeding municipal officers cannot be curtailed by a contract purporting to fix the rate to be paid by the municipality for an extended future period <sup>64</sup>

A water supply commission has power, under a statutory grant of authority, to determine the rate of charge for water supplied to municipal corporations <sup>65</sup>

*Regulation subject to referendum* Where certain officers of a municipality are authorized to regulate the price of water for municipal purposes, subject to the approval of, or rejection by, the qualified electors, and no referendum is invoked, the rates fixed by such officers are binding on the municipality, although there has been no ratification by the electors <sup>66</sup>

### c. Regulation by State

- (1) Power to regulate
- (2) Manner of regulation
- (3) Effect of regulation
- (4) Effect of failure to regulate

#### (1) Power to Regulate

The rates charged by water companies for water supplied to municipalities are subject to regulation by the state.

The rates charged by water companies for water supplied to municipalities are subject to regulation by the state <sup>67</sup> The power of a municipality to enter into a contract with a water company <sup>68</sup> for a certain period <sup>69</sup> cannot restrict the power, reserved by the state, to regulate the rates to be paid by the municipality, although a contract between a municipality and a water company fixing the rates to be paid by the former for water furnished by the latter cannot be altered by either party without the consent of the other, the contract is subject to the sovereign power of the state to fix just and reasonable rates such as subsequent conditions might make desirable <sup>70</sup> Where statutory authority therefor exists, a state board or agency, such as a public service commission, may fix the rates to be paid by a municipality for water service, <sup>71</sup> and unless it is expressly denied power to approve or reject rates fixed by contract, <sup>72</sup> it may determine the fair and reasonable rates which the company is entitled to receive, notwithstanding a prior contractual provision fixing the rates, <sup>73</sup> and may fix higher rates than those provided by contract <sup>74</sup> Even if, as to the water company itself, the contract might be unalterable except with its consent, inasmuch as the municipal corporation is but a political subdivision of the state, a city has no absolute property right to demand continued service at a given rate, which

Town of Kingwood, 9 SE 2d 532, 122 W Va 374

#### Construction and operation of order

Where order of Public Utilities Commission fixed rates water company could charge town for fire protection, on basis of one hundred fifty dollars hydrant rental for each of first forty-eight hydrants, and sixty dollars for each additional hydrant, and it was clear, from consideration of order together with previous orders of commission relating to same matter, that commission was endeavoring to provide adequate revenue for water company and for a proper apportionment of charges between town and private consumers, town did not have right to discontinue use of some of forty-eight hydrants, and pay only for balance at scheduled rates, notwithstanding order of commission did not call for a fixed minimum amount—Milo Water Co v Inhabitants of Town of Milo, 7 A 2d 895, 136 Me 228

72. NY—Jamaica Water Supply Co v City of New York, 18 NE 2d 523, 279 NY 342

73. Pa—Springfield Tp v Public Service Commission, 74 Pa Super 217

74. NJ—Hackensack Water Co v Board of Public Utility Com'rs, 115 A 528, 96 NJ Law 184.

was named in the franchise granted by the city, as against the right of the state to modify such rates of service with the consent of the water company.<sup>75</sup> It has been held that the jurisdiction of a state commission to impose charges on municipalities for the service of a water company is dependent on whether, with respect to the services for which the charges are sought to be imposed, the company has actually devoted its property to a public use.<sup>76</sup> Where a water company is rendering a material municipal service, dedicated to all municipalities requiring such service, there is a dedication to a public use,<sup>77</sup> and in such case the fixing of charges by the commission for water supplied to various municipalities by a water company is within the rate-fixing power of the commission,<sup>78</sup> it is neither the imposition of a tax<sup>79</sup> nor an interference with a municipal affair within the control of the municipalities<sup>80</sup> within the meaning of a constitutional prohibition or limitation. Where a municipality has no contract with a water company and no hydrants in use for fire protection, a state commission has no authority to impose on the municipality the burden of a fire protection service which it cannot contract for generally, and to pay for which its officers can neither levy taxes on the inhabitants nor incur indebtedness.<sup>81</sup>

*City as consumer.* A city, purchasing water from a water company for the use of its citizens in the exercise of its corporate powers, is a consumer within the meaning of a statute relative to the regulation of public service companies.<sup>82</sup>

*Charges by receiver.* Under a statute providing therefor, a receiver duly appointed to take charge of a self-liquidating municipal water system may charge the municipality involved the reasonable rental value of hydrants within the municipality.<sup>83</sup>

## (2) Manner of Regulation

A water company must be compensated for the cost

of operating and maintaining the portions of its system devoted to the requirements of the municipalities it serves, and generally where the determination of rates is committed to a state regulatory agency, unless there is some palpable mistake of fact or law, the courts are not inclined to disturb its decision.

A water company must be compensated for the cost of operating and maintaining the portions of its system devoted to the requirements of the municipalities it serves.<sup>84</sup> The reasonable rental value of the hydrants is not required to be measured by the supply of water that may in the past have passed through, or is likely in the future to pass through, the hydrants.<sup>85</sup> Where the rates for hydrant service to a municipality represent the maximum reasonable value of the service, they are not confiscatory as to the company, whatever may be the returns.<sup>86</sup> Rates which should be paid a water company for municipal service cannot be measured by the amount of taxes received by the municipality from the water company.<sup>87</sup> It is immaterial that a municipality has not provided for the payment of the amounts required, under the order of the state authority, in the budget for the year.<sup>88</sup> The amount to be charged for furnishing water for municipal purposes, such as fire protection is an administrative question, which the state regulatory authority is best fitted to decide,<sup>89</sup> and, unless there is some palpable mistake of fact or law, the courts are not inclined to disturb such decision.<sup>90</sup> Thus, a finding of fact by the state authority that the rates paid by a municipality were all that the service of the water company was reasonably worth, if supported by substantial evidence, is final.<sup>91</sup> However, inasmuch as an allocation based on estimate presents the possibility of an abuse of the rate-fixing power, the court will closely scrutinize rates so fixed, lest the exercise of the rate-fixing power merge into a system of confiscation.<sup>92</sup> Enforcement of an order fixing the rates to be charged for water furnished a municipality which is invalid for lack of jurisdic-

tion of the agency or board making the order may be enjoined<sup>93</sup>

### (3) Effect of Regulation

A change in rates, on order of a state regulatory authority, does not abrogate the contract between a city and a public utility, but the contract, as modified, remains binding.

A change in rates, on order of a state regulatory authority, does not abrogate the contract between a city and a public utility, but the contract, as modified, continues to be binding on the parties<sup>94</sup>. Where a city agrees that the state, through its regulatory agency, may modify a contract between itself and a water company with respect to the rates to be charged by the company, the city is bound by any modification so made with the consent of the company<sup>95</sup>.

### (4) Effect of Failure to Regulate

The rates for public service, fixed by its contract with a municipality and filed by a water company with a state regulatory body in accordance with statutory requirement, continue to be lawful rates until changed.

The rates for public service, fixed by its contract with a municipality and filed by a water company with a state regulatory body in accordance with statutory requirement, continue to be lawful rates until changed<sup>96</sup>.

## § 276. — Actions and Proceedings

- a Right of action
- b Form of action
- c. Defenses
- d Set-off
- e Equity jurisdiction
- f Parties
- g Pleading
- h Evidence
- i Trial
- j. Judgment or decree
- k Damages
- l. Proceedings before public service commission

### a. Right of Action

#### (1) Against municipality or officers

- (2) Against water company
- (3) Of particular officers and others

#### (1) Against Municipality or Officers

A water company or other entity may maintain an action against a municipality to recover water rents based on an express or implied contract.

A water company may maintain an action against a municipality to recover the rents or rentals stipulated in the contract between them<sup>97</sup>. Where there is an implied obligation on the part of the city to pay a reasonable compensation to a water company for service rendered, as discussed supra § 274, failure to do so gives the company a right of action on implied assumpsit<sup>98</sup>. Although a contract prescribes the manner in which water shall be used for a particular municipal purpose, there is no liability on the part of the municipality for water used in another manner unless more water is used by the latter method<sup>99</sup>.

*Certiorari* Certiorari will not lie to review a contract for a municipal water supply into which provisions are inserted which are not authorized by the resolution of the water commissioners under which the contract is entered into but which are for the benefit of the city and impose additional burdens on the contractor.<sup>1</sup>

*Conversion* A city cannot be held liable in tort for the conversion of water, used from fire hydrants of water company without any contract therefor, where such use was with the company's consent<sup>2</sup>.

*Injunction* The right to an injunction to prevent a municipality or its officers from shutting off a water supply is discussed in Injunctions § 124.

*Mandamus* will lie against the water commissioners to compel them to supply water to the municipal parks, although the park commissioners refuse to pay a balance alleged to be due for water and the city has failed to raise by general tax sufficient funds to pay a deficit in the accounts of the former.<sup>3</sup>

*A water supply commission* has been held to have

3. N.Y.—People v. Barrows, 119 N.Y.S. 32, 65 Misc. 158, affirmed 124 N.Y.S. 270, 140 App. Div. 24, affirmed 97 N.E. 1113, 204 N.Y. 664.

authority to bring an action to recover for water lawfully sold to a municipality <sup>4</sup>

### (2) Against Water Company

In a proper case a municipality may maintain a suit for specific performance of its contract with a water company, but before resorting to the courts for equitable remedies against a water company, the municipality should invoke the relief provided by statute

Where a water company has an exclusive franchise and a provision of its contract with the municipality makes it the duty of the company to filter the water intended for domestic use, it will be compelled to do so in an action for specific performance at the suit of the municipality <sup>5</sup>

*Exhaustion of statutory remedy* Before resorting to the courts for equitable remedies, a city, complaining of the service of a water company under the contract between them, should invoke the relief provided by statute <sup>6</sup>

*Injunction* The right to an injunction to prevent a water company from shutting off a water supply required for public or municipal purposes is discussed in Injunctions § 124

### (3) Of Particular Officers and Others

Suit to enforce a municipal water supply contract or obligation to pay for water furnished may be brought, in a proper case, by the mayor and council of the municipality involved, a board of water commissioners, or the trustee of the bonds of a water company

Where the mayor and council of a city, representing the citizens, made a contract for a water supply, the mayor and council are authorized, in their representative capacity, to bring suit to enforce the contract <sup>7</sup> A statute, creating a board of water commissioners of a municipality as a body corporate and authorizing such board to fix a rate to be paid by the municipality for water for municipal use, has been held not to authorize the board to bring suit against the municipality to collect the rate <sup>8</sup> Where a municipality has obligated itself to pay rentals directly to the trustee of the bonds of a water company, such liability may be enforced by the trustee <sup>9</sup>

### b Form of Action

The remedy of a water company, alleging that a resolution of a municipality is a breach of the contract between them, is not certiorari to review the resolution

The remedy of a water company, alleging that a resolution of a municipality is a breach of the contract between them, is not certiorari to review the resolution <sup>10</sup> The form of action that will lie against a water company or a municipality has been considered in dealing with the right to bring such action, as discussed supra subsection a of this section

### c. Defenses

- (1) In general
- (2) Under control of state commission

#### (1) In General

Against an action on a contract for the supply of water, a municipality may set up as a defense failure on the part of the water company to perform a condition of the contract, but where a city receives the benefit of a part performance of the contract, with knowledge that the contract is not being fully performed and without attempting to terminate it for that reason, it cannot insist on full performance as a condition precedent to liability to pay for what it has received. Various other matters have been held sufficient or insufficient as defenses

Against an action on a contract for the supply of water, a municipality may set up as a defense failure on the part of the water company to perform a condition of the contract <sup>11</sup> When the sole consideration for the payment of rentals for hydrants not used, in a contract between a waterworks company and a municipality, is a full and reliable supply of water for fire protection and other purposes, failure to furnish such supply is a complete defense, <sup>12</sup> but where a city receives the benefit of a part performance of the contract, with knowledge that the contract is not being fully performed and without attempting to terminate it for that reason, it cannot insist on full performance as a condition precedent to liability to pay for what it has received <sup>13</sup> Accordingly, in a suit against a city for hydrant rentals under an ordinance, where the city fails to

11. Minn.—State Trust Co v Duluth, 73 N.W. 249, 70 Minn. 257  
67 C.J. p 1217 note 6

12. Fla.—City of Palatka v Palatka Waterworks, 67 So. 71, 68 Fla. 525

13. U.S.—Columbia Ave Sav Fund, etc., Co v Dawson, C.C.Ga., 130 F. 152, reversed on other grounds 25 S.Ct. 420, 197 U.S. 178, 49 L.Ed. 713  
67 C.J. p 1217 note 8.

deny the use of the hydrants, but pleads plaintiff's failure to comply with certain specifications in the ordinance relating to water pressure, such plea is insufficient as a complete defense<sup>14</sup>

*Ultra vires* Where waterworks have been constructed according to a contract and accepted by the municipality, fact that the grant of an exclusive right to use the streets to conduct water to the inhabitants is *ultra vires* and invalid is no defense to an action for hydrant rentals<sup>15</sup> On the other hand, in a suit to restrain a water company from discontinuing its service, where a water district made an unauthorized contract for the purchase of water from a water company, but the water company, with knowledge of the facts, acquiesced in the transaction and induced the district to act on such acquiescence, the company will be estopped to set up *ultra vires*<sup>16</sup> Although a condition in a contract between a water company and a municipality may be *ultra vires* on the part of the former, where such condition has been performed and the contract thereafter recognized as binding and acted on by both parties, it is as if the condition had never been inserted, and it is no defense to an action to recover payments alleged to be due under the contract<sup>17</sup>

*Test as conclusive.* Where a city contracted for a water supply, all tests to be made by the city engineer, whose report should be conclusive on both parties, a report by the engineer after a test showing that there was neither complete nor substantial performance of the contract is a bar to a recovery of the contract price<sup>18</sup>

## (2) Under Control of State Commission

Violation of orders of a state commission vested with regulatory authority may constitute a defense to an action by a water company to recover for water furnished a municipality.

Where a public utility commission is authorized to determine the character of the service to be furnished as well as the rates to be paid, and has so determined, in an action by a water company to recover the rates, a denial that the order of the commission relative to service has been complied

with is a good defense,<sup>19</sup> but a defense that the service furnished was inadequate is insufficient<sup>20</sup> In a suit against a municipality for fire protection service at rates prescribed by the state commission, the fact that a part of the municipality was not furnished with water at the required pressure and quantity is a defense to that extent<sup>21</sup> In an action against a city by a water company for charges made at the rate fixed by the state public utilities commission, no defense, or partial defense, is established by evidence that a lower rate has been agreed on between the parties,<sup>22</sup> that plaintiff has served other persons at a lower rate,<sup>23</sup> or that plaintiff has in various ways violated city ordinances and rules of the commission<sup>24</sup> The failure of a water company to comply with a statutory requirement that it file with a state commission the rate charged the city is not a bar to an action for the reasonable value of the service rendered where there was sufficient compliance by the company in informing the commission that the rate was in dispute and requesting the commission to fix the rate<sup>25</sup>

## d. Set-Off

In an action for recovery of hydrant rentals under a contract with a municipality, the latter may plead by way of set-off rentals previously paid but which plaintiff water company, it is alleged, has no right to retain, but a municipality cannot set off damages sustained by private citizens, whose property has been destroyed by fire because of insufficient water pressure.

In an action for the recovery of hydrant rentals under a contract with a municipality, the latter may plead by way of set-off rentals previously paid but which plaintiff water company, it is alleged, has no right to retain,<sup>26</sup> but a municipality cannot set off damages sustained by private citizens, whose property has been destroyed by fire because of insufficient water pressure, in a suit to recover for water supplied for extinguishing fires and for sanitary purposes<sup>27</sup>

## e. Equity Jurisdiction

The fact that a city has failed to levy and collect a specific tax to create a special fund for the payment of water rentals, as required by contract, does not give

14. Ala.—Greenville v Greenville Water Works Co, 27 So 764, 125 Ala 625

22. Kan—Leavenworth City & Ft Leavenworth Water Co v City of Leavenworth, 166 P 234, 101 Kan 346

23. Kan—Leavenworth City & Ft Leavenworth Water Co v City of Leavenworth, supra

24. Kan—Leavenworth City & Ft Leavenworth Water Co v City of Leavenworth, supra

25. US—Quarles v City of Appleton, CCA Wis, 299 F 508

26. Pa—Middletown, etc, Cons Water Co v Middletown Borough, 3 Pa Dist & Co 587

27. Ala—Montgomery v Montgomery Waterworks, 79 Ala 233

equity jurisdiction of a suit to collect rentals previously accrued, and a court of equity is without jurisdiction to enforce the payment of water rentals, although it has acquired jurisdiction to determine other matters in controversy between the parties; but the obligation of a city to pay hydrant rentals to the trustee on behalf of the bondholders may be enforced in a suit, to which the city is a party, to foreclose the mortgage on the waterworks, which the city has purchased subject to such mortgage.

The fact that a city has failed to levy and collect a specific tax to create a special fund for the payment of water rentals, as required by its contract, does not give equity jurisdiction of a suit to collect rentals previously accrued,<sup>28</sup> and, although a suit will lie in equity to restrain a threatened diversion of the fund so collected, the water company must seek its remedy at law to have the contract declared valid and to compel the city to levy such tax.<sup>29</sup> A federal court of equity is without jurisdiction to enforce the payment of water rentals claimed to be due under a contract, although it has acquired jurisdiction to determine other matters in controversy between the parties.<sup>30</sup> However, the obligation of a city to pay hydrant rentals to the trustee on behalf of the bondholders may be enforced in a suit, to which the city is a party, to foreclose the mortgage on the waterworks, which the city has purchased subject to such mortgage.<sup>31</sup> Independently, however, suit will not lie in a federal court of equity to enforce payments, under a contract for the supply of water, to the trustee.<sup>32</sup>

#### f. Parties

The mortgagees of a water company's plant are necessary parties in a suit by a municipality to cancel its contract with the company, and in an action between two water companies each claiming exclusive rights in supplying water to a town, consumers who had spent substantial sums in connecting their properties with the mains of one of the companies may intervene for the purpose of contesting the exclusive rights.

The mortgagees of a water company's plant are

necessary parties in a suit by a municipality to cancel its contract with the company.<sup>33</sup> In an action between two water companies each claiming exclusive rights in supplying water to a town, consumers who had spent substantial sums in connecting their properties with the mains of one of the companies may intervene for the purpose of contesting the exclusive rights.<sup>34</sup>

#### g. Pleading

General rules of pleading have been applied in actions of the type under consideration.

General rules of pleading have been applied in actions of the type under consideration.<sup>35</sup> In an action to recover hydrant rentals it has been held that a municipality is not required to file an affidavit of defense.<sup>36</sup>

#### h. Evidence

- (1) Presumptions and burden of proof
- (2) Admissibility
- (3) Weight and sufficiency

##### (1) Presumptions and Burden of Proof

Where municipal authorities, authorized to contract with a company for a supply of water, acted within the scope of their authority, it is presumed that they knew the state of the matter in which they undertook to act, and where payment by the municipality is subject to a certain condition precedent, the water company must show that such condition was fulfilled or performed.

Where municipal authorities, authorized to contract with a company for a supply of water, acted within the scope of their authority, it is presumed that they knew the state of the matter in which they undertook to act.<sup>37</sup> Where payment by the municipality is subject to a certain condition precedent, the water company must show that such condition was fulfilled or performed,<sup>38</sup> it must show such fulfillment or performance by a preponderance of evidence.<sup>39</sup>

## (2) Admissibility

In actions of the type under consideration certain evidence has been held admissible or inadmissible

In actions of the type under consideration certain evidence has been held admissible<sup>40</sup> or inadmissible<sup>41</sup> in accordance with general rules.

## (3) Weight and Sufficiency

In actions of this type certain evidence has been held sufficient or insufficient to establish certain issues.

In actions of this type certain evidence has been held sufficient<sup>42</sup> or insufficient<sup>43</sup> to establish certain issues

## 1. Trial

Questions arising under evidence susceptible of different inferences and conclusions are for the jury to determine.

Questions arising under evidence susceptible of different inferences and conclusions are for the jury to determine<sup>44</sup>

*Directed verdict* In a suit against a city for fire protection at rates prescribed by the state commission, where part of the city was not furnished with water at the required pressure but part was, it is proper to direct a verdict at such rates for water furnished the latter part<sup>45</sup>

## j. Judgment or Decree

Where it is for the interest of a city, seeking a decree for conveyance of a water plant under an option to purchase but failing to tender any amount in payment, that it be charged with water rents, instead of interest on the purchase price of the plant up to the time of the decree, it will be so charged, especially where the water company concurs in demanding it

Where it is for the interest of a city, seeking a decree for conveyance of a water plant under an op-

tion to purchase but failing to tender any amount in payment, that it be charged with water rents, instead of interest on the purchase price of the plant up to the time of the decree, it will be so charged, especially where the water company concurs in demanding it<sup>46</sup>

## k. Damages

In the event of a breach of the contract between a city and a water company, the city, or any of its inhabitants, or the water company is entitled to such damages as are fairly contemplated by the parties, and if the city, breaking its contract unjustifiably, erects waterworks of its own, the measure of damages is the sum which would make the water company whole for the breach. Various other measures of damages have been adopted in particular cases.

In the event of a breach of the contract between a city and a water company, the city, or any of its inhabitants, or the water company is entitled to such damages as are fairly contemplated by the parties, whether expressly provided in the contract or fairly implied<sup>47</sup>. If the city, breaking its contract unjustifiably, erects waterworks of its own, the measure of damages is the sum which would make the water company whole for the breach<sup>48</sup>. Under particular contracts,<sup>49</sup> or the obligation to pay without contract,<sup>50</sup> the measure of damages which a municipality has to pay has been variously determined. Although, where water is furnished without contract as to price, it has been held that the water company is entitled to recover a reasonable return on the fair value of the property devoted to such service,<sup>51</sup> compensation for inadequate service rendered a municipality by a water company is not to be based on a reasonable return on the fair value of the property devoted to such service, but rather on the worth of such service to the municipality<sup>52</sup>

# 1. Proceedings before Public Service Commission

A public service commission has authority to require a water company to furnish an adequate supply of reasonably pure water, and the procedure and proceedings before such commission have been the subject matter of judicial decision

Although a public service commission may not be empowered to require the performance of a private contract, according to its terms between a water company and a municipality, it has authority to require a water company to furnish an adequate supply of reasonably pure water as long as it exercises its charter powers<sup>53</sup> The dismissal of a complaint is improper until it is made to appear by the water company that the method of treatment of the water supplied has rendered it reasonably free from odors, taste, and color which have made it unfit for domestic use<sup>54</sup> On complaint by a borough that a water company's supply is inadequate and not of the quality required by their contract, the public service commission, dismissing the complaint as to rates, may retain the petition pending the completion of tests to determine the adequacy of the supply and pending compliance with an order to the company to take certain steps to prevent the pollution of the water<sup>55</sup> Relative to rates, the courts in reviewing proceedings before public service commissions have ruled as to various matters of procedure as indicated in the appended note<sup>56</sup>

## § 277. To Private Consumers

The right of a municipality to distribute water and to make charges therefor is not a "franchise" subject to execution, and the terms "consumer" and "domestic purposes" have been defined

As discussed supra § 241, it is usually recognized that in supplying water to consumers for general or domestic purposes a municipal corporation acts in the capacity of a private corporation and not in the exercise of the power of local sovereignty, that is, the municipal corporation acts in a proprietary

and not in a governmental capacity. The right of a municipality to distribute water derived from its waterworks to its customers, and to make charges therefor, is not a "franchise" within the meaning of a statute providing for the sale of franchises under execution<sup>57</sup>

*"Consumer" defined* A consumer of water within the meaning of a regulation governing the supply and distribution of water has been held to be each householder using water and occupying a separate house, either as tenant or owner<sup>58</sup>

*The use of water for "domestic purposes"* has been defined as all uses of water which contribute to the health, comfort, and convenience of a family in the enjoyment of their dwelling as a home<sup>59</sup>

## § 278 — Right and Duty to Supply

- a Right and duty of municipalities to supply
- b Right and duty of water companies to supply

### a. Right and Duty of Municipalities to Supply

- (1) In general
- (2) Nonresidents

#### (1) In General

While it has been declared that a municipality owes no absolute duty to supply water to its inhabitants, it may be bound to do so by contract or statute, and when it does offer to furnish water it is under a duty to furnish all persons similarly situated applying therefor without discrimination, where the service requested is within reasonable range of its plant, equipment, or mains

The general power of a municipality to supply its inhabitants with water is treated in Municipal Corporations § 1051, and the construction, acquisition, and operation of municipal waterworks has already been discussed supra §§ 234-239, 241, 242 While it has been declared that a municipality owes no absolute duty to supply water to its inhabitants,<sup>60</sup> it may be bound to do so by contract<sup>61</sup> or statute,<sup>62</sup>

58 NC—Thompson v Goldsboro, 65 SE 901, 151 NC 189, 190

59 Ala—Crosby v Montgomery, 18 So 723, 108 Ala 498

Okl—Mitchell v Tulsa Water, etc, Co, 95 P 961, 21 Okl 243  
Duty of water company to supply water for "domestic purposes" see infra § 278 b (3)

#### Other definitions

(1) The term has reference to the use of water for domestic purposes as known and recognized at common law by riparian proprietors—Crawford Co v Hathaway, 93 NW 781,

67 Neb 325, 108 Am SR 647, 60 L R A 889

(2) Other definitions see 19 C J p 388 note 42 [b] 3, 4

60 Ohio—Kraus v City of Cleveland, Com Pl, 116 NE 2d 779, affirmed, App, 121 NE 2d 311, affirmed 127 NE 2d 609, 163 Ohio St 559

61 Ohio—Kraus v. City of Cleveland, supra  
Contracts with, or for benefit of, consumers see infra § 279

62. NY—Dexter Sulphite Pulp & Paper Co v Shaver, Sup, 51 NY S 2d 37, 183 Misc 275.

and when it does offer to furnish water it is under a duty to furnish all persons similarly situated applying therefor without discrimination,<sup>63</sup> where the service requested is within the reasonable range of its plant, equipment, or mains.<sup>64</sup> While the municipality has a governmental discretion as to the extension of service, governed largely by the extent of the need and economic considerations,<sup>65</sup> this discretionary authority must be fairly and reasonably exercised,<sup>66</sup> and the remedial processes of the courts may be invoked for an abuse of discretion if an extension of service is arbitrarily refused.<sup>67</sup> The ordinance of a municipality, operating its own waterworks, denying a tenant the right to water unless in possession of the entire building,<sup>68</sup> and a regulation, providing that water would be furnished only on application of the owner of the building,<sup>69</sup> are

unreasonable and void. However, a municipality, under duty to supply the occupiers of premises with water, owes no duty to the owner of property to supply his tenants,<sup>70</sup> or, apart from any contractual obligation, to a land company.<sup>71</sup>

*License to tap private line* of a municipality may be revoked at any time.<sup>72</sup>

*Quality* A municipality under an obligation to furnish water is bound to furnish water that is wholesome, pure, or free from contamination,<sup>73</sup> and is potable and palatable.<sup>74</sup> Fluoridation may constitute a breach of the municipality's duty if shown to be harmful,<sup>75</sup> but not otherwise.<sup>76</sup>

*Resale* A town engaged in supplying water to its inhabitants is under no obligation to supply water

#### "Reasonable distance" from line

Water commissioners of a city, required by statute to furnish water to inhabitants of a town "within a reasonable distance from the line of main pipes" by furnishing water for over eight years to all inhabitants of the town who complied with certain conditions have put a construction on the term "reasonable distance" and cannot thereafter limit its meaning to a narrower construction.—*West Hartford v Hartford Water Com's*, 36 A 786, 68 Conn 323

to a resident for resale to others, either within or without the municipal limits.<sup>77</sup>

(2) Nonresidents

- (a) Right to supply
- (b) Duty to supply

(a) Right to Supply

A municipality, supplying water as a public utility beyond its boundaries, must be authorized to do so, but a municipality, owning and supplying water to its inhabitants, as an incident of its right to supply its inhabitants, has the power to dispose of surplus water outside the municipal limits for the benefit of the municipality without express legislative authority

A municipality, supplying water as a public utility beyond its boundaries, must be authorized to do so<sup>78</sup> The general power of a municipality to provide a water supply for its inhabitants does not include the right to furnish water to persons outside

its limits or the inhabitants of other municipalities<sup>79</sup> However, provisions authorizing a municipality to furnish water to its inhabitants do not imply a prohibition against furnishing water to those outside its limits,<sup>80</sup> nor does a constitutional provision, authorizing a municipality to furnish water to individuals, firms, and private corporations, limit the service to those within the municipal limits<sup>81</sup> A municipality, owning and supplying water to its inhabitants, has the power, as an incident of its right to supply its inhabitants, to dispose of surplus water outside the municipal limits for the benefit of the municipality without express legislative authority<sup>82</sup> Likewise, where a city is authorized to operate the waterworks of an improvement district, the city, in the absence of any statutory limitation, may supply surplus water to consumers beyond the limits of the district.<sup>83</sup> Where a municipality purchases a water

**Places closely adjacent**

Municipality having prior appropriation of waters of stream for municipal use held entitled to dispose of

surplus of water to places closely adjacent to city which, as far as municipal use of water is concerned, may be considered as parts of city—Van Tassel Real Estate & Live Stock Co v City of Cheyenne, 54 P 2d 906, 49 Wyo 333, certiorari denied 57 S Ct 38, 299 US 574, 81 L Ed 423

**Contract not ultra vires**

The contract of a municipality to furnish surplus water to consumers outside of the corporate limits of the city is not ultra vires—Larimer County v Ft Collins, 189 P 929, 68 Colo 364—44 C J p 176 note 53

**Municipally owned company**

Where all of capital stock in incorporated water company was owned by sinking fund of city and corporation was directed by board of waterworks composed of mayor of city and four other members appointed by him with approval of Board of Aldermen water company was "municipally owned" within rule allowing municipally owned water company to sell water outside city limits, and company was not, by organization of water district, deprived of its right to furnish water to those consumers being served at time of district's incorporation and as to consumers which it was in position to serve and which district could not serve within immediate future—Board of Com'rs of Louisville Extension Water Dist v Yunker, Ky, 239 S W 2d 984

**Limiting the beneficial use of water appropriated by city to area of the municipal water system does not prohibit city from leasing water not needed for immediate use**—City and County of Denver v Sheriff, 96 P 2d 836, 105 Colo 193.

83. Ark.—Armour v. City of Ft. Smith, 174 S W 234, 117 Ark 214. 67 C J, p 1221 note 76.

system supplying water to persons outside the municipal limits it has been held that continued supplying of water to the outside territory is within the power of the municipality.<sup>84</sup> The rights of municipalities to supply water beyond their limits may be by express provision of statute or charter.<sup>85</sup> However, authority to sell water outside municipal limits may be subject to limitations,<sup>86</sup> such as a limitation that the facilities for conveying the water beyond the municipal limits be constructed by the consumers without expense to the municipality.<sup>87</sup>

**Compelling acceptance of service** A municipality may not compel persons outside its territorial limits to accept water service.<sup>88</sup>

**Consumption within municipality** Although it has been said that where the charter of a municipality limits its power to the supply of its inhabitants, the city is not only limited to the sale of water within the city but to the sale for consumption within the city,<sup>89</sup> it has been held that the municipality has the power to deliver within the city water from its waterworks system to a railroad company, an inhabitant of the city, which stores the water outside the city limits for use partly within and partly without the city.<sup>90</sup> Likewise, a town which has acquired the rights of a water company, authorizing the company to distribute water throughout the town, may deliver water to a mill corporation therein, although the mill property lies partly within and partly without the town, and the water is distributed by the corporation throughout its premises.<sup>91</sup>

**Consent of state board or of officials of municipality supplied.** A municipality, operating its own waterworks, authorized by statute to supply water beyond its limits, is not within the provisions of a statute requiring a water corporation to secure a certificate of convenience and necessity from the public service commission.<sup>92</sup> A statute forbidding any person, firm, or corporation to supply water within a municipality without the consent of the board in charge of the water supply does not apply to a municipal corporation.<sup>93</sup> A statute prohibiting the obtaining of water from without a municipality without the consent of the board in charge of the water supply applies only to municipalities maintaining an adequate water supply with respect to the consumer in question.<sup>94</sup>

**Supply as consideration for right of way.** A municipality with power to enlarge its plant, relocate its pipes, acquire locations for such purposes, and enter into contracts necessary to carry out the purpose of supplying its inhabitants with water, may contract, as part consideration for the grant of rights of way for its mains, to furnish water from such mains to the owners or occupants of the tracts through which the rights of way run.<sup>95</sup>

**Supply as bonus or donation** Although a city has authority to furnish water to nonresidents, a contract obligating it to do so where the consideration is the establishment of a public road, to be deeded to the county, is a mere bonus or donation for such purpose and void.<sup>96</sup>

Free supply of water generally see infra § 283.

(b) Duty to Supply

- aa Distinction between residents and nonresidents
- bb Distinctions among nonresidents

- aa Distinction between residents and non-residents

Assuming it possesses power to sell water outside the municipal limits, there is no duty on the part of a municipality to do so in the first instance, at least in the absence of a statute or contract imposing such duty.

In the absence of authority to furnish water to persons outside its limits, there is no duty to do so on the part of a municipality<sup>97</sup> Even where authority is not lacking, there is no duty on the part of the municipality in the first instance to furnish water to persons outside its limits,<sup>98</sup> in the absence of a statute imposing such duty<sup>99</sup> However, it has been held that where a municipality, authorized to supply water to nonresidents, purchases the plant of a water company, and undertakes to distribute water for domestic purposes, it becomes the duty of the municipality to furnish water in the areas through which the water mains of the water company are laid, although outside the municipal limits<sup>1</sup>

*Contractual obligation* Where a municipality acquired the property of a private water company, including a pipe extending beyond the municipal limits used to supply a number of families, and contracted to continue such supply, it was under obligation to do so<sup>2</sup>

99. Va—City of South Norfolk v City of Norfolk, 58 S E 2d 32, 190 Va 591

**Statute amended by charter**

Where general statute required all cities on acquiring a water plant operating in contiguous territory, to furnish water to the customers of that plant, and charter of the city involved, which became effective at a later date, authorized the city to op-

erate a water system and to sell surplus water to consumers located outside the city limits, there was no irreconcilable inconsistency and repugnancy between the statute and charter which would result in an implied repeal of the former by the latter, but charter would be construed as a qualified amendment of the general law to the extent that the city was permitted to sell only surplus water—City of South Norfolk v City of Norfolk, supra

1. Cal—City of South Pasadena v Pasadena Land and Water Co, 93 P 490, 152 Cal 579  
Md—Meiryman v Baltimore City, 138 A 324, 153 Md 419

**Purchase impressed with trust**

City purchasing water plant, supplying water to persons residing outside city limits, by continuing to furnish water to such persons, is not selling the surplus or excess waters to the prior users, but rather purchase of system is impressed with a trust and the city holds title as a mere "trustee," bound to apply it to use of those beneficially interested—Durant v City of Beverly Hills, 103 P 2d 759, 39 Cal App 2d 133.

*Nonresident using water for residents* A water company, under duty to supply the residents of a city, is under duty to supply a nonresident who uses the water solely for the inhabitants<sup>3</sup> Where a city furnished water to a village through village mains, and also to private users by extension beyond the village limits, the supply to such users, it was held, could not be cut off when the village installed its own system, but the court could decree that, pending construction of main by the city to supply such users, the village should supply them<sup>4</sup>

bb Distinctions among Nonresidents

Although there is authority to the contrary, it is generally held that in the absence of contract, a municipality, in selling and delivering any surplus water to other than inhabitants, does not become such a public utility as to be bound to serve indiscriminately all who may demand such service, but that the municipality may sell and dispose of its surplus water in such quantities and in such manner as the municipal authorities determine to be in the best interest of the municipality and its inhabitants, restricted only by pertinent constitutional and statutory limitations

Although a municipality may refuse to supply any consumers beyond its limits, if, as authorized, it supplies certain consumers, it has been broadly stated that it cannot refuse to supply others applying for service under like conditions,<sup>5</sup> and that where a municipality, authorized to do so, extends its water system beyond its corporate limits, it must supply water to all along its mains without discrimination<sup>6</sup> It has been held that when a municipality contracts to supply water to the public of another municipal-

2 NY—Bradley v Village of Union, 150 N Y S 107, 164 App Div 565, appeal denied 151 N Y S 1106, 166 App Div 953, affirmed 117 NE 1062, 221 NY 591

5. Pa—Reagle v Smith, 134 A 380, 287 Pa 30

**Refusal subject to review**

Where city extended service of its city waterworks to some customers beyond city limits, refusal of city to serve other customers similarly situated was subject to review by Public Utility Commission—City of Altoona v Pennsylvania Public Utility Commission, 77 A 2d 740, 168 Pa Super 246

6 Ala—City of Montgomery v Greene, 60 So 900, 180 Ala 322  
67 C J p 1222 note 89.

ity, it dedicates itself in that respect to the service of the public of such other municipality,<sup>7</sup> and while it may limit, by contract, the scope and extent of its duty to the municipality as such, it cannot, while enjoying the privileges and immunities of a public utility, by contract absolve itself from the duties toward the public that are cast on it by law by reason of such dedication.<sup>8</sup> However, there is also authority to the effect that the fact that a municipality allows sale of its water to some residents of an adjoining municipality under a contract with the adjoining municipality on agreed limitations does not give rise to a presumption of dedication to public use so as to impose on the municipality the duties of a public utility with respect to supplying water to all residents of the adjoining municipality,<sup>9</sup> and it has also been held that in the absence of contract, a municipality, in selling and delivering any surplus water to others than inhabitants, does not become such a public utility as to be bound to serve indiscriminately all who may demand service,<sup>10</sup> but that the municipality may sell and dispose of its surplus water in such quantities and in such manner as the municipal authorities determine to be in the best interest of the municipality and its inhabitants,<sup>11</sup> restricted only by pertinent constitutional and statutory limitations.<sup>12</sup> Further, the fact that a municipality by contract with an adjoining town has assumed to serve small, isolated, and precisely limited portions of the town with water has been deemed not to impose an obligation to

serve the entire town.<sup>13</sup> Where a municipality undertakes to serve county institutions outside the municipal limits through mains and equipment furnished by the county under a contract giving the county control of the tapping of its mains, it has been held that the municipality may not be charged with illegally discriminating against persons outside the municipality desiring to obtain water from the county mains by refusing to serve them without county approval.<sup>14</sup>

#### b. Right and Duty of Water Companies to Supply

- (1) In general
- (2) To tenants
- (3) Particular purposes

##### (1) In General

The power of private corporations to sell water to consumers in any given community depends on legislative grant, and while the mere fact that a water company is authorized to supply water to the public in a certain community does not impose on it the duty to supply water to all the public in the community, generally speaking, a water company engaged in supplying water to the public is bound to supply water without discrimination to all persons within its zone of service who comply with its proper rules and regulations.

The power of private corporations to sell water to consumers in any given community depends on legislative grant.<sup>15</sup> The paramount rights of the public must be controlled by the legislature, or the

municipality, acting under delegated authority,<sup>16</sup> and in granting the privilege to sell water the granting power has authority to attach conditions to its exercise.<sup>17</sup> While the mere fact that a water company is authorized to supply water to the public in a certain community does not impose on it the duty to supply water to all the public in the community,<sup>18</sup> especially where the water company is not given a monopoly,<sup>19</sup> and the community to be served is sparsely settled,<sup>20</sup> generally speaking, a water company engaged in supplying water to the public is bound to supply water without discrimination to all persons within its zone of service who comply with its proper rules and regulations.<sup>21</sup> That is to say, a water company operating as a public utility is bound to supply water without discrimination to all persons within its zone of service.<sup>22</sup> The test to be applied in determining whether or not a water company can be considered a public utility, at least under some statutory provisions, is whether the company holds itself out, expressly or impliedly, as engaged in supplying water to the public as a class, not necessarily all the public, but to any limited portion of it, as contradistinguished from holding itself out as serving, or ready to serve, only particular individuals, either as a matter of accom-

modation or for other reasons peculiar and particular to them.<sup>23</sup> A water company is not bound to supply water beyond the zone of its service,<sup>24</sup> or, in the absence of a contract or statutory provision to that effect, for any particular purpose.<sup>25</sup> A water company operating as a public utility, in making a contract with applicants for the extension of service into an area not previously served and with reference to which it has no existing contracts of service, and which it owes no obligation to serve, has a right within limits to make the contract on such terms as may be agreed on between itself and the applicant, as long as the contract thus made does not interfere with the public interest, or impair, or restrict the service of the utility or the power of the utility to render service to the public which it is already under obligation to serve.<sup>26</sup> If there is no duty on the part of a water utility to serve claimants, no just claim of discrimination is available as a basis for equitable relief.<sup>27</sup> There is no obligation on the owner of a private main<sup>28</sup> or of a private water supply,<sup>29</sup> or on a private corporation, organized to supply water to stockholders only,<sup>30</sup> to furnish water to others. A waterworks corporation, operating as a public utility, cannot discontinue its service without giving its patrons a

#### 20. Supply to public of township

(1) Where a township is the only recognized governmental division in the state for more sparsely settled communities, a water company applying for a charter and stating that its purpose is to supply water to the public in a certain township does not, ordinarily, hold itself out as ready to perform its corporate functions everywhere throughout the township, unlike a water company chartered to serve a borough or city—Wyoming Valley Water Supply Co v Public Service Commission, 159 A. 340, 104 Pa Super. 432

(2) So, the assumption by merger of a water company's power to supply water in a certain township does not impose on the company the obligation of supplying service through-

out that township—Cole v Pennsylvania Public Utility Commission, 22 A 2d 121, 146 Pa Super 257

reasonable time in which to provide themselves with similar service<sup>31</sup>

*Adequate supply* A private company engaged in furnishing a water supply to a community owes it the duty of providing an adequate supply of water<sup>32</sup> A water company, in accepting a contract with a municipality to supply its inhabitants with water for domestic use and fire protection, is impressed with a public duty to furnish a supply which shall be equal to all emergencies which may be reasonably anticipated<sup>33</sup> and to bear constantly in mind the prospective increase in population and a consequent increased demand for water<sup>34</sup> A water company is under no duty, in the absence of a contract or statutory provision to that effect, to furnish water in any specified quantity<sup>35</sup>

*"Pure and wholesome" water* Under certain acts, with respect to chartered water companies, a water company is bound to supply water that is ordinarily and reasonably pure and wholesome, but not water that is chemically pure<sup>36</sup>

*Defective plumbing* Where the consumer owns, or holds under one who owns, the service line, if the line is not in a fit condition to receive the water, in the absence of stipulations to the contrary, the water company is under no obligation to continue to furnish water<sup>37</sup> Likewise, where a consumer has the duty of maintaining a private pipe line in good repair so as to save water from waste, the water company may refuse to continue to furnish water until the line is repaired.<sup>38</sup>

*Size of connection* Where, at the time a water company by its agreement with a municipality undertook to furnish water, the majority of the service connections were of a certain size and it was the

intention of the parties that the size of such connections should remain as they were, a consumer, during a continuance of the contract, is not entitled to a supply through a connection of greater diameter.<sup>39</sup>

*Limited dedication for public use* The owner of a water supply is not compelled to dedicate all of it to public use, he may dedicate a part of it to public use, reserving the remainder for private purposes or private sale.<sup>40</sup>

*Right to supply under special charter* depends on its terms<sup>41</sup>

## (2) To Tenants

In the absence of legislation to the contrary, the occupant of premises dependent on a public service corporation for a supply of water, if otherwise entitled to service, cannot be denied because he is a tenant.

In the absence of legislation to the contrary, the occupant of premises dependent on a public service corporation for a supply of water, if otherwise entitled to the service, cannot be denied because he is a tenant<sup>42</sup> However, the right of a tenant to exact service of water necessarily presupposes premises suitably equipped for that purpose<sup>43</sup> Although a tenant may make an application for water service, a regulation of the water company that such application must be for service through connections made, or applied for by the owner, is not unreasonable<sup>44</sup> The owner of the premises has no standing to complain of the refusal of the water company to supply his tenant with water<sup>45</sup>

## (3) Particular Purposes

Public service water companies may be required by statute to furnish water adequate for proper fire protection, and a water company bound by its charter to supply

water for "domestic purposes" is required to supply water for any domestic use, although incidentally it might be converted into power and used in that form.

Public service water companies may be required by statute to furnish water adequate for proper fire protection<sup>46</sup> The obligation to supply the municipality with water for fire protection, as provided for by a contract between a municipality and a water company, does not, however, include the obligation to furnish water for a private system of fire protection<sup>47</sup> or to maintain pressure sufficient to make a private sprinkler system serviceable in case of fire,<sup>48</sup> but where supplying water for a private sprinkler system is contemplated by the contract between water company and municipality, the mere fact that water pressure is also furnished cannot be offered as an excuse for refusing to supply such water as for other uses<sup>49</sup>

*"Domestic purposes"* A water company bound under its charter to supply water for "domestic purposes" is required to supply water for any domestic use, although incidentally it might be converted into power and used in that form<sup>50</sup>

# § 279. — Contracts with, or for Benefit of, Consumers

- a. Contracts of municipalities
- b. Contracts of water companies
- c. Contracts of others

## a. Contracts of Municipalities

- (1) In general
- (2) Particular terms

### (1) In General

Contracts of municipalities with, or for the benefit of, private consumers of water are subject to the rules governing contracts generally with respect to their validity, construction, and operation, and, generally speaking,

a municipality may enter into such contract on such terms and conditions as the municipal authorities consider proper and necessary

Contracts of municipalities with, or for the benefit of, private consumers of water are subject to the rules governing contracts generally with respect to their validity,<sup>51</sup> construction, and operation<sup>52</sup> Generally, speaking, a municipality may enter into a contract for a water supply to a private consumer on such terms and conditions as the municipal authorities deem proper and necessary as long as they are not unconscionable or oppressive, and do not impair the obligation of the municipality to discharge its public duties<sup>53</sup> A municipality, purchasing the plant of a private water company and undertaking to distribute water for domestic purposes, occupies the same position as the corporation to whose rights and duties it succeeds in its relations with those with whom it contracts<sup>54</sup> Where a municipality furnishes water and the consumer pays for it, without written agreement,<sup>55</sup> for a period of years,<sup>56</sup> a contract is implied which, on the part of the municipality, imposes the obligation of continuing the service The acceptance by a municipality of an application for the service of water creates an implied contract to supply the water asked for, subject to its reasonable rules and regulations<sup>57</sup> Where consumers, accepting the offer of a municipality, make connections with its water mains, there is a contract between the municipality and the consumers for the supply of water<sup>58</sup> However, under a contract between a municipality and a consumer for the supply of water, based merely on a supply for a time and compliance with the municipality's requirements by the consumer, where the municipality is unauthorized to furnish the water, there is no obligation to continue the supply<sup>59</sup>

municipal corporation to private consumers, at a fixed compensation, is a sale of goods <sup>60</sup>

**Assumption of obligations** The exercise by a municipality of the power to purchase a water system, by which it assumed the obligations of contracts between the water company and consumers as part of the consideration, binds the water board of the municipality, although a separate corporation, <sup>61</sup> but the mere purchase of part of a water company's plant, essential to the carrying out of a contract between the water company and a consumer, although imposing on the municipality the duty to supply water, imposes no obligation to supply the water at the price of the contract <sup>62</sup>

**Covenant running with land** A contract to furnish water on certain premises on the part of a municipality in consideration of certain property rights is a covenant running with the land, subject to reasonable regulations to be made by the city <sup>63</sup>

**Authority of officers to contract** Under a statute by which the street and water commissioners of a first class city is the governing body of the city with respect to water, a contract made under a statute authorizing the governing body of a municipality owning or controlling waterworks to supply water to a private corporation in an adjoining municipality does not require the consent of any other board <sup>64</sup>

**Consideration** Contracts between municipalities and private consumers with respect to water supply must be supported by consideration <sup>65</sup>

**Contract with county** A contract entered into between a municipality and a county for a supply of water to the latter is not void as against public

policy by reason of the county authorities being permitted to control the municipality in its operation to the extent that the municipality must have the consent of the county authorities to serve other applicants from a main constructed and maintained by the county <sup>66</sup>

## (2) Particular Terms

- (a) Commencement of service
- (b) Duration of service
- (c) Sufficiency of supply
- (d) Purposes for which water may be used

### (a) Commencement of Service

The acceptance by a municipality of an application for water service creates an implied contract to supply water within a reasonable time

The acceptance by a municipality of an application for the service of water creates an implied contract under which the municipality agrees to supply the water within a reasonable time <sup>67</sup>

### (b) Duration of Service

A contract for water service, not specifying or implying the time it is to continue, is a contract terminable by either party on reasonable notice to the other, and a municipality may be authorized to enter into a long term contract

A contract between a municipality and a consumer for the supply of water, without specifying or implying the time for which the contract should continue, is a contract terminable by either party on reasonable notice to the other <sup>68</sup> Where connection with municipal water mains by nonresidents was made on the understanding that the city ordinances were to be complied with, one of which provided

NY—*Berwin Paper Corp v Village of Danville*, 50 NY S 2d 636, appeal dismissed 70 NY S 2d 581.

### Insufficient consideration

(1) Fact that company had taken and paid for water at rate specified in contract was not sufficient consideration to support contract which required village to furnish water, but did not require company to take any, and the fact that a market for water, which otherwise would not have been used, had been provided by consumer, did not constitute consideration for such contract—*Berwin Paper Corp v Village of Danville*, *supra*

(2) Various other alleged consideration has been held insufficient—*Berwin Paper Corp v Village of Danville*, *supra*

### Agreement supported

Where, after owner had constructed private water system line to her residence, tract was divided, defendant became owner of tract traversed by the line and connected his residence with the line, and plaintiffs be-

came owners of the residence originally serviced, and town refused to enter into agreement to furnish water to both residences unless defendant agreed to be responsible for payment of all water passing through the line, the agreement executed by plaintiffs, defendant, and the town was supported by consideration—*Wood v Williams*, 184 S W 2d 799, 299 Ky 167

<sup>66</sup> Mich—*Nelson v Wayne County*, 286 NW 617, 289 Mich 284

<sup>67</sup> Md—*Meiryman v Baltimore City*, 138 A 321, 153 Md 419

<sup>68</sup> US—*Seldovia Public Utilities Dist v Cook Inlet Packing Co*, D C Alaska, 95 F Supp 528

NC—*Corpus Juris cited in Fulghum v Town of Selma*, 76 SE 2d 368, 370, 238 NC 100

<sup>67</sup> C J p 1225 note 46.

that any contract made by the city with nonresidents should be terminable by the city on a certain notice, the city is not estopped to terminate the agreement on such notice.<sup>69</sup> A municipality, operating its own waterworks, may, under a general grant of power in the absence of statutory limitation, enter into a contract to furnish a certain consumer with a large amount of water for a period of twenty years at a rate lower than that charged consumers of ordinary amounts,<sup>70</sup> but the express legislative prohibition of a sale of water by a certain municipality to a corporation located outside the city, if the supply of water for the city or its inhabitants shall thereby be insufficient, renders invalid a contract to furnish such outside corporation with a fixed quantity of water for a fixed term without limiting the supply to the surplus water remaining after the needs of the city and its inhabitants have been supplied.<sup>71</sup>

### (c) Sufficiency of Supply

A municipality under an implied contract to furnish water is under obligation to furnish a sufficient supply.

Under the implied contract arising where a municipality furnishes water and the consumer pays for it, the municipality is under obligation to furnish a sufficient supply.<sup>72</sup>

### (d) Purposes for Which Water May Be Used

The obligation to supply water for certain purposes does not include a supply for other purposes.

A municipality may enter into a contract to supply water for certain specific purposes.<sup>73</sup> The obligation to supply water for certain purposes does not include a supply for other uses.<sup>74</sup>

## b. Contracts of Water Companies

- (1) In general
- (2) Particular terms

### (1) In General

Express contracts between a water company and

consumer are governed by the general rules applicable to all contracts, and a water company may be under an implied contractual obligation to serve a consumer.

Express contracts between a water company and consumer are governed by the general rules applicable to all contracts.<sup>75</sup> The public duty imposed on a water company, as discussed supra § 278, raises an implied promise of performance.<sup>76</sup> Where a water company, duly paid, has been furnishing water for a number of years to a consumer, an implied contract exists between them for the supply of water.<sup>77</sup>

*Rules and regulations of water company*, to be applicable to a contract with a consumer, must enter into it by express or implied adoption at its inception.<sup>78</sup> They are not part of a contract made in terms and on conditions radically different.<sup>79</sup>

*Sale of "goods"* Within the meaning of a statute defining "goods," the furnishing of water by a water corporation to private consumers, at a fixed compensation, is a sale of goods.<sup>80</sup>

*Contract by agent* Contracts within the real or apparent scope of an agent's authority are binding on the company.<sup>81</sup>

### (2) Particular Terms

- (a) Duration of service
- (b) Sufficiency of supply
- (c) Purposes for which water may be used
- (d) Repair of water pipes

#### (a) Duration of Service

Generally speaking, the duration of a contract for water supply between a water company and a private consumer is measured by the terms of the contract as reasonably construed.

Generally speaking, the duration of a contract for water supply between a water company and a private consumer is measured by the terms of the contract as reasonably construed.<sup>82</sup> A contract with

82. Ky—Beutel v Camp Taylor Development Co., 105 SW.2d 632, 268 Ky. 544.

a water company for a supply of water for one year and thereafter to be discontinued on thirty days' notice cannot be construed as a contract running from year to year after the first year, binding the water company to supply water during all of a subsequent year on delaying to act on the consumer's alleged default at the commencement of such year <sup>83</sup> A contract by a water company to furnish a consumer water, at a specified price, as long as such consumer uses the premises as a dwelling, is not defective for indefiniteness as to the length of time it is to run <sup>84</sup>

### (b) Sufficiency of Supply

Under the implied obligation of a water company to furnish water the supply should be sufficient for the ordinary uses to which the consumer has put it

Under the implied obligation of a water company to furnish water, as discussed supra subsection b (1) of this section, the supply should be sufficient for the ordinary uses to which the consumer has put it <sup>85</sup>

### (c) Purposes for Which Water May Be Used

Where different rates are charged for different uses, the company is entitled to hold the consumer strictly to the use for which he pays, and where the contract limits the purposes for which a consumer may use water, the consumer has no right to use water for other purposes.

Where different rates are charged for different uses, the company is entitled to hold the consumer strictly to the use for which he pays. <sup>86</sup> Where by contract with a water company a consumer has the right to use pure water for certain purposes only, there is no right to use water taken from the pure water supply for other purposes <sup>87</sup>

### (d) Repair of Water Pipes

The consumer must repair his service pipe where

the rule to that effect has been assented to by him and made a part of his contract

The consumer is under obligation to repair the service pipe leading to his property from the main pipe in the street where the rule to that effect by the water company has been assented to by him and made part of his contract <sup>88</sup>

### c. Contracts of Others

An agreement between private parties for the supply and distribution of water is governed by the rules applicable to contracts generally with respect to the requisites of a valid contract, and relating to construction and operation

An agreement between private parties for the supply and distribution of water is governed by the rules applicable to contracts generally with respect to the requisites of a valid contract, <sup>89</sup> and relating to construction and operation, <sup>90</sup> and enforcement <sup>91</sup> When the language of the agreement is ambiguous and uncertain resort may be had to the construction of the parties to resolve the ambiguity or uncertainty <sup>92</sup>

## § 280. — Regulation of Supply and Use

- a By water company or municipality as proprietor
- b By state or municipality as government agency

### a. By Water Company or Municipality as Proprietor

- (1) In general
- (2) Water meters
- (3) Shutting off supply for violation of regulations

### (1) In General

A water company, or a municipality operating its

Fla.—Wilson v Wakulla Edgewater Co, 36 So 2d 440, 160 Fla 702

### Agreement held to run with land

Where agreement between country club and purchasers of lots from the club for maintenance of water system by it to provide water to it and to each lot owner who desired water, expressly provided that agreement was to run with the land and was to be binding on all assigns and successors of the parties, such agreement did run with the land and was binding on defendant, as successor to the club—John v Marshall, 229 P 2d 367, 103 Cal App 2d 172

### Validation of contract by association

If association incorporated by residents of community to establish community water system ratified or adopted contract between residents or accepted benefits thereof, association would be bound by contract—Porterfield v Black Bill & Doney Parks Water Users' Ass'n, 210 P 2d 335, 69 Ariz 110

<sup>91</sup> Cal.—John v Marshall, 229 P 2d 367, 103 Cal App 2d 172.

<sup>92</sup> Cal.—John v Marshall, 229 P 2d 367, 103 Cal App 2d 172.

own waterworks, has the right to adopt reasonable rules governing the supply of water to its customers

A water company,<sup>93</sup> or a municipality operating its own waterworks,<sup>94</sup> has the right to adopt reasonable rules governing the supply of water to its customers. Where a water company's franchise imposes a burden on the company, any regulation by which it attempts to shift the burden on the consumer is unenforceable.<sup>95</sup>

**Waiver by company** The regulations of a water company, approved by the public service commission, which are for the convenience of the company, may be waived by it.<sup>96</sup>

**97 U S—Sierra Pac Power Co v City of Reno, D C Nev, 33 F Supp 878**

#### **Statute not invalid**

The Nevada statute making it unlawful for any public utility to install, operate, or use within any city or town containing more than four thousand five hundred inhabitants any mechanical water meter is not

invalid as applied to the city of Reno on ground that the meter is the most efficient method for accurately measuring quantity of water service and prevents extravagant use or needless waste of service, where nearly all water used by Reno inhabitants except for irrigation is, shortly after use, by means of sewerage, returned to the river which is the source of supply and becomes available in supplying irrigation needs at various points down the course of the river—**Sierra Pac Power Co v City of Reno, supra**

**98 Ark—Arkansas Water Co v Furnish, 193 S W 80, 127 Ark 585**  
**67 C J p 1227 note 83**

#### **Duty to construct meter box**

Under ordinance authorizing operation of waterworks by water company but not expressly providing who should construct services connecting company's mains in the street with customers' houses, company had no duty to construct meter box which was part of services, but duty of construction rested on customer, especially where company's regulations provided for customer installation of services, and such regulation was reasonable in the absence of a contract to the contrary—**Williams v Independence Waterworks Co, 171 S W 2d 759, 237 Mo App 1231**

**99 Ky—City of Raceland v Colvin, 95 S W 2d 1113, 265 Ky 12**  
**67 C J p 1227 note 84**

#### **Meter for each building**

Ordinance providing that no water meter should be used to supply more than one building held reasonable, so that city which operated water system was not required to furnish water to owner of premises where water was piped to and supplied not only owner's house, but also garage on owner's premises, in which there was an apartment which was occupied—**City of Raceland v Colvin, supra**

#### **Ownership and control**

Fact that water consumer was re-

## **(2) Water Meters**

In the absence of a statute otherwise providing, a water company or a municipality operating its own waterworks, may require the installation of water meters, and under certain ordinances a consumer may require the installation of a meter

In the absence of a statute otherwise providing,<sup>97</sup> a water company<sup>98</sup> or municipality operating its own waterworks,<sup>99</sup> may require the installation of water meters.<sup>1</sup> On the other hand, under certain ordinances, a consumer supplied by a water company<sup>2</sup> or municipality<sup>3</sup> may require the installation of a meter. Where an ordinance provides for the installation of meters at the wish of consumers, a rule that after a meter has been installed a con-

quired under city water rent regulation to bear cost of water meter did not necessarily constitute him owner of meter in sense of personal property, and meter, although personal property of owner when unconnected, becomes part of city water supply system when it is annexed thereto, and consumer impliedly surrenders dominion, possession and control of the meter to water department—**Vitacolonna v City of Philadelphia, 115 A 2d 178, 382 Pa 399**

#### **Installation by city**

Fact that, prior to city's uniform water metering plan, business of buying, selling, and installing water meters was handled by private enterprise did not bar city from exercising power to install meters itself, and, where city water rent regulation provided that water department would contract for installation of water meters by competitive bidding, regulation did not result in discrimination—**Vitacolonna v City of Philadelphia, 115 A 2d 178, 382 Pa 399**

**1. Charges for installation, meters, meter rent, reading meters, and other service charges see infra § 301**

#### **Definition and nature of water meter**

(1) A water meter is "a contrivance to regulate the distribution of water by adjusting the quantity and price"—**Red Star Line SS Co v Jersey City, 45 N J Law 246, 249**

(2) A water meter, however actuated, is not designed for exerting or transmitting power, but simply for measuring and registering fluid volume, and, as a matter of applied art, a water meter and a water motor are essentially different—**National Meter Co v Neptune Meter Co, C C N J, 122 F 75, 78, reversed on other grounds 127 F 563, 62 CCA 345**

**2. Ariz—Nogales Water Co v Neuman, 100 P 794, 12 Ariz 306**  
**67 C J p 1228 note 85.**

**3. Minn—Powell v Duluth, 97 N W 450, 91 Minn 53**  
**67 C J p 1228 note 86.**

sumer cannot return to a flat rate without the consent of the board of water commissioners is reasonable.<sup>4</sup> However, certain regulations by a water company<sup>5</sup> or municipality operating its own water system,<sup>6</sup> with respect to the installation of meters, have been held unreasonable.

**Kind of meter** A municipality, operating its own waterworks, may designate the kind of water meter to be used by consumers.<sup>7</sup> Where the method of payment refers to one building or residence, a consumer, although supplied by meter, may not furnish water to his tenants in adjoining residences.<sup>8</sup>

**Meter as security** An ordinance of a city, operating its own waterworks, requiring a consumer, as an alternative to a deposit, to assign his meter as security is not unreasonable.<sup>9</sup>

**Test of meter** Where a statute entitles the user of water supplied by a municipality or company and measured by a meter to have a test of the accuracy of the meter made in any quarter or period before the expiration of the time when the rate is required to be paid, by implication the right to object for inaccuracy is lost if application for the test is not made before such date.<sup>10</sup>

### (3) Shutting Off Supply for Violation of Regulations

A water company or a municipality operating its own waterworks, may enforce a reasonable regulation by shutting off the supply of a consumer violating it.

A water company<sup>11</sup> or municipality operating its own waterworks<sup>12</sup> may enforce a reasonable regulation by shutting off the supply of a consumer violating it.<sup>13</sup> Under certain ordinances,<sup>14</sup> in the absence

of a regulation authorizing the water to be shut off,<sup>15</sup> there is no such right. Water service may not be shut off because of a collateral matter.<sup>16</sup> Under certain circumstances, notice and opportunity to comply are necessary.<sup>17</sup>

### b. By State or Municipality as Government Agency

- (1) By state
- (2) By municipality

#### (1) By State

- (a) In general
- (b) Persons subject to regulation
- (c) Exercise of power

#### (a) In General

The police power of the state extends to the regulation of matters connected with water service.

The police power of the state extends not merely to regulating rates at which water is to be supplied to the public, as discussed *infra* §§ 288-296, but to the regulation of other matters connected with the service.<sup>18</sup> Such power may be exercised by the legislature directly, or its exercise may be committed to a board, commission, or court, as discussed *infra* subdivision b (1) (c) of this section. In the absence of such delegation of authority state boards or commissions have no jurisdiction to regulate matters connected with water service.<sup>19</sup>

#### (b) Persons Subject to Regulation

Generally speaking, dedication of a water system to public use invests it with the character of a public utility and subjects it to regulation as such, and under certain provisions and circumstances a municipality in fur-

17. Tex—Van Alstyne v Morrison, 77 SW 655, 33 Tex Civ App 670, 67 C J p 1229 note 2.

18. Md—Yeatman v. Towers, 95 A 158, 126 Md 513.

19. Pa—Public Service Commission of Commonwealth of Pennsylvania v Sinking Spring Water Co., Com Pl., 46 Dauph Co 9.

20. Ariz—City of Phoenix v Kasun, 97 P 2d 210, 54 Ariz 470, 127 ALR 84.

State Corporation Commission held without jurisdiction to regulate actions of municipal corporations in service and delivery of water for public purpose to consumers—City of Phoenix v Kasun, *supra*—City of Phoenix v Wright, 80 P 2d 390, 52 Ariz 227.

furnishing water service may be subject to the jurisdiction of a designated regulatory agency.

Whether or not a water system is a public utility subject to regulation depends on the character of its business and operations<sup>20</sup> Generally speaking, dedication of a water system to public use invests it with the character of a public utility and subjects it to regulation as such<sup>21</sup> However, the mere fact that a person furnishes within a limited area a portion of his water supply to a certain number of consumers, each individually receiving the use and benefit of the same and paying an agreed sum, does not of itself show a dedication of property to public use and invest it with the character of a public utility<sup>22</sup> So, a private manufacturing corporation, which does not hold itself out as ready to supply the public but merely furnishes water to a single consumer, does not thereby subject itself to public regulation as a public utility<sup>23</sup> The fact that a private corporation furnishes water to individuals without authority under its charter does not bring it within the jurisdiction of the commerce commission<sup>24</sup>

*Municipal waterworks*, under certain provisions and circumstances is not subject to the jurisdiction of the public service or utilities commission<sup>25</sup> Under other provisions and circumstances, a municipality in furnishing water service within the municipality may be subject to the jurisdiction of a designated court,<sup>26</sup> and in furnishing service outside the cor-

porate limits may be subject to the jurisdiction of a state public service or utility commission.<sup>27</sup>

### (c) Exercise of Power

The power to regulate the water supply to the public is one which may be exercised by the legislature directly, or its exercise may be committed to a board or commission, or a court, the nature and extent of whose power depend on the statutory delegation of authority construed in accordance with general rules of statutory construction, and an order of such regulatory agency must be reasonable.

The power to regulate the water supply to the public is one which may be exercised by the legislature directly, or its exercise may be committed to a board or commission,<sup>28</sup> or a court.<sup>29</sup> The nature and extent of the power of the board or commission over the regulation of water supply depend on the statutory delegation of authority construed in accordance with the general rules of statutory construction<sup>30</sup> Where authority is duly conferred a state public service commission may pass on the reasonableness of the rules of a water company regulating the conditions on which service will be supplied to a customer<sup>31</sup> Where, by statute, a department of public utilities in determining an applicant's right to water, has jurisdiction of all rights involved, those of others as well as those of applicant, where the contract rights involved are those of a municipality, although not an applicant, the department may disregard such contractual rights, if inconsistent with public necessity or appropriate ac-

#### Extraterritorial supply

Where city as successor to properties of water company acquired properties for sole purpose of supplying water for inhabitants, city held such water as was not needed by it

for immediate use in its proprietary capacity in which it had a property right, and therefore fact that city permitted adjoining city an extraterritorial supply of water on the non-utility basis did not subject city's activity to jurisdiction of Public Utilities Commission—City of Englewood v City & County of Denver, 229 P 2d 667, 123 Colo 290

26. Pa.—City of Altoona v Pennsylvania Public Utility Commission, 77 A 2d 740, 168 Pa Super 246—Pyle v Oakmont Municipal Authority, 70 Pa Dist & Co, 97 Pittsb Leg J 193

31. Pa—Panther Valley Water Co v Public Service Commission, 70 Pa Super. 8.

tion,<sup>32</sup> but, under a statute requiring grievances to be set forth, the state department is without jurisdiction to hear and determine matters involving a water company which are not set out in the complaint<sup>33</sup> Where the public is affected indirectly, if at all, the authority of a commission to regulate the service of a water company does not include the right to dictate the manner in which the company shall do business<sup>34</sup> To be valid, an order of a public service or utility commission must be reasonable<sup>35</sup> It is unreasonable for the commission to make an order that cannot be complied with<sup>36</sup> The state regulatory body is powerless to compel a company, after the complete abandonment to the public of all its property devoted to the supply of water, to resume operations at a loss<sup>37</sup>

*Quality of water* A statute providing that persons, companies, or municipalities furnishing water beyond a certain extent for human consumption shall be guilty of maintaining a nuisance, unless the water supplied is the purest and most healthful procurable, no matter how pure and healthful the water actually supplied is, is an unreasonable exercise of the police power<sup>38</sup>

*Effect of order of board or commission.* An order made by a board or commission with respect

to water services within the jurisdiction of the board or commission has the effect of a judgment,<sup>39</sup> and in the absence of a timely application for administrative or judicial review such order is final,<sup>40</sup> and not subject to collateral attack<sup>41</sup>

*Review of action of board or commission.* As a general rule, resort should be had to administrative remedies before recourse is made to the courts for review, and the remedies provided by statute should be pursued before other remedies are sought<sup>42</sup> Findings<sup>43</sup> and orders<sup>44</sup> of the board or commission made within the scope of its powers will be upheld on appeal if supported by substantial evidence.

## (2) By Municipality

A city, granting a franchise to a water company supplying the city and its inhabitants with water, may enforce reasonable regulations

A city, granting a franchise to a water company supplying the city and its inhabitants with water, may enforce reasonable ordinances regulating the performance by the company of its duty to the inhabitants,<sup>45</sup> but such ordinance, to be valid, cannot create new duties<sup>46</sup>

*Permit to open paved street* The rule of a municipality that when an application is made for water for premises on a paved street the water depart-

67 C J p 1229 note 15

**Order for extension held unreasonable**

Order of Public Utility Commission requiring city which was supplying water to some properties outside of city limits in adjacent township, to extend specified number of feet of two inch pipe for specified residential properties outside of city limits and in adjacent township, was unreasonable where two inch extensions might not be adequate for water supply of area involved when improved in future, and extension of water service further into township which might become necessary by additional annexation of township lands by city, or otherwise, would require re-

placement of the pipe by mains of adequate size—City of Altoona v Pennsylvania Public Utility Commission, supra

**Order for reconnection not unreasonable**

Where cost of replacing water mains to serve a residence previously served was chargeable to depreciation reserve rather than to addition of applicant as a customer, order directing utility to resume service was not unreasonable as calling for a large expenditure on which no return could be expected, nor was it unreasonable or unlawful on any other ground—Northern States Power Co v Public Service Commission, 16 NW 2d 790, 246 Wis 215.

46. Mo—City of Joplin v Wheeler, supra.

ment will not furnish such water until applicant has obtained a permit from other officers in charge of the pavement of the streets is not unreasonable <sup>47</sup>

*Quality of water* An ordinance prohibiting the sale for human consumption of water containing certain elements or compounds as unwholesome must set up an accurate standard to be valid <sup>48</sup>

## § 281. — Actions

- a Right of action
- b. Defenses
- c. Jurisdiction
- d Pleading
- e. Evidence
- f. Trial
- g Judgment or decree
- h Damages

### a. Right of Action

- (1) Against municipality
- (2) Against water company
- (3) Against third persons

#### (1) Against Municipality

An action may be maintained against a municipality for failure to perform its duties in connection with the supply and distribution of water.

Although the water service of a municipality is contingent on compliance with such reasonable rules and regulations as the proper officers may adopt, as discussed supra § 280, their action is subject to the control of the courts where they discriminate or act unreasonably <sup>49</sup> Where a city owning waterworks wrongfully refuses to furnish water to a citizen, he has no adequate remedy at law, and may bring a suit in equity <sup>50</sup> A city water consumer may maintain an action against the city for an injunction restraining the furnishing of impure water <sup>51</sup> However, an omission to provide a

pure and wholesome water supply, imposed on a city for the convenience of the public, gives a citizen no cause of action to compel its performance, unless such action is given by statute <sup>52</sup> Where an implied contract exists on the part of the city to continue the supply of water, as discussed supra § 279, the consumer is entitled to injunctive relief restraining the city from cutting off his supply as long as he pays its rates <sup>53</sup> Where a municipality operates its own waterworks, one is entitled to damages from the city for the wrongful refusal of water <sup>54</sup> The owner of property who, in violation of municipal ordinances, lays water lines across a street which does not abut his property and the fee-simple title to which is in the municipality, has no cause of action against the municipality, its officers, or employees for disconnecting the lines <sup>55</sup>

*Owner of building who has leased it for a term of years, and has paid the water rent, cannot complain of the action of the water commissioners in cutting off the water supply from the building because the tenant did not comply with their regulations* <sup>56</sup>

#### (2) Against Water Company

A private consumer may maintain a suit for injunction against a water company to enjoin the cutting off or diminishing of his supply, and may maintain an action to compel a water company to comply with the terms of its contract with the municipality for the benefit of the inhabitants.

A person who has the right to be supplied with water by a water company may enforce this right by mandamus, as discussed in Mandamus § 231 g, and he may prevent by injunction the cutting off or diminishing of his supply <sup>57</sup> A user of water in a municipality has a right to maintain an action to compel a water company to comply with the terms of its contract with the municipality for the benefit of the inhabitants <sup>58</sup> So, a consumer may enforce a

58. Ky—Nerren v Kentucky Water Service Co, 230 S W 2d 615, 313 Ky 151

67 C J p 1230 note 38

Restraining enforcement of improper charges see infra § 307.

contract to lay new mains made for his benefit,<sup>59</sup> and he is not precluded from suit because of a refusal to pay excessive water rates.<sup>60</sup> However, unless there is a contract authorizing the inference of an intention to compensate the individual members of the public in the event of default, either expressed or implied, it has been held that a private individual may not bring an action against the company for its failure to construct a main.<sup>61</sup> If one entitled to service is refused, he need not go to the expense of installing a service line in order to perfect his right of action.<sup>62</sup>

*Railroad company* that is a party to an instrument whereby a water company in consideration of the grant of an easement for its pipe line is to furnish a supply of water for railroad purposes, although, under provisions of the constitution and a public utilities act vesting the regulation of railroads in a railroad commission, the former may apply to the commission for relief, it may also resort to an ordinary action for the enforcement of its rights under such instrument.<sup>63</sup>

### (3) Against Third Persons

The owner of a private service line, through which he receives water from a public service company, may, by suit in equity, prevent the unauthorized tapping of the line by others.

The owner of a private service line, through which he receives water from a public service company or municipality, may, by a suit in equity, prevent the unauthorized tapping of the line by others.<sup>64</sup>

### b. Defenses

Various matters relied on as defenses have been held

insufficient in an action against a municipality or a water company based on contracts to furnish water.

Various matters relied on as defenses have been held insufficient in an action against a municipality<sup>65</sup> or a water company<sup>66</sup> based on contracts to furnish water. To a petition attempting to enjoin a city from carrying out a regulation establishing a method of charging for water and setting out unlawful discrimination in that two methods were used, an answer setting up later regulations providing for a single method is good against demurrer.<sup>67</sup>

### c. Jurisdiction

A court of equity has jurisdiction in the case of an infringement of a consumer's legal right by a municipal waterworks, but jurisdiction of the courts is subject to statutory limitation.

A court of equity has jurisdiction in the case of the infringement of a consumer's legal right by a municipal waterworks.<sup>68</sup> Where, by statute, certain courts have jurisdiction of a suit against a water company, on complaint of a citizen, to enforce its duty to furnish pure water, the court is not deprived of such jurisdiction by the correction of the defect complained of before the final hearing.<sup>69</sup> Where, by statute, a department of public utilities in determining an applicant's right to water has jurisdiction of all rights involved, including the rights of the municipality of which applicant is a resident, on such application, although not the application of the municipality, the jurisdiction of the department attaches, preventing the municipality from bringing suit thereafter in another forum, except to review the decision of the department pursuant to the statute providing for such appeal.<sup>70</sup>

59. N.Y.—*Baker v. New York Inter-urban Water Co.*, 184 N.Y.S. 833, 113 Misc. 459.

#### Main of required size

A private consumer may compel the installation of a main of the size required by contract between the city and the water company, and the fact that the city might enjoin the water company from violating its duty does not preclude his suit.—*Alabama Water Co. v. City of Jasper*, 100 So. 486, 211 Ala. 280.

64. W. Va.—*Stifel v. Hannan*, 123 S.E. 673, 95 W. Va. 617.

#### Temporary injunction unnecessary

In action by water district as assignee of private pipeline owner to enjoin landowner from taking water from water pipeline passing over his land where easement granted by landowner to pipeline owner provided that landowner could remove water from pipelines when water was sold to water district for residential uses, and there was no evidence that landowner was wasting water, or interfering with pipeline owner's or water district's use of easement, or doing irreparable injury to pipeline, temporary injunction was not necessary to preserve the status quo.—*McDaniel v. San Patricio Municipal Water Dist.*, Tex. Civ. App., 279 S.W.2d 697, error refused, no reversible error.

65. Tex.—*Van Alstyne v. Morrison*, 77 S.W. 655, 33 Tex. Civ. App. 670.  
67 C.J. p. 1231 note 42.

66. N.Y.—*Whitehouse v. Staten Island Water Co.*, 91 N.Y.S. 544, 101 App. Div. 114.

67 C.J. p. 1231 note 43.

67. Ohio.—*Rogers v. Cincinnati*, 32 O.C.A. 394.

68. Pa.—*Youngman v. Commissioners of Waterworks in City of Erie*, 110 A. 174, 267 Pa. 490.

Right of consumer to maintain suit in equity where municipality wrongfully refuses to furnish water see supra subsection a. (1) of this section.

Right of owner of private line to maintain suit in equity to prevent unauthorized tapping of line by others see supra subsection a. (3) of this section.

#### Furnishing impure water

Court of equity has jurisdiction over suit by city water consumer to restrain city from furnishing impure water.—*McGurren v. City of Fargo*, N.D., 66 N.W.2d 207.

69. Pa.—*City of New Castle v. City of New Castle Water Co.*, 95 A. 534, 250 Pa. 341.

70. Mass.—*Inhabitants of Town of Salisbury v. Salisbury Water Supply Co.*, 181 N.E. 194, 279 Mass. 204.

**d. Pleading**

In a suit for an injunction, involving a supply of water, the rules of pleading applicable to suits for injunction generally apply, and as to what must be proved in an action against a water company for breach of its contract to supply a private consumer, the rules applicable to actions on contracts generally apply.

In a suit for an injunction, involving a supply of water, the rules of pleading applicable to suits for injunction generally apply.<sup>71</sup> Likewise, as to what must be proved in an action against a water company for breach of its contract to supply a private consumer, the rules applicable to actions on contracts generally apply.<sup>72</sup>

**e. Evidence**

- (1) In general
- (2) Admissibility
- (3) Weight and sufficiency

**(1) In General**

The rules governing the burden of proof in civil actions generally apply in suits or actions involving the supply of water to private consumers.

The rules governing the burden of proof in civil actions generally apply in suits or actions involving the supply of water to private consumers.<sup>73</sup>

**(2) Admissibility**

The general rules with respect to the admissibility of evidence apply to actions against a municipality or water company for failure to furnish water to a consumer.

The general rules with respect to the admissibility of evidence apply to an action against a municipality<sup>74</sup> or water company<sup>75</sup> for failure to furnish water to a consumer.

**(3) Weight and Sufficiency**

The general rules as to the weight and sufficiency of evidence apply to suits or actions involving the supply of water to a private consumer.

The general rules as to the weight and sufficiency of evidence apply to suits or actions involving the supply of water to a private consumer.<sup>76</sup>

**f. Trial**

- (1) Questions of law and fact
- (2) Instructions

**(1) Questions of Law and Fact**

General rules with respect to questions of law and fact have been applied in actions involving the supply of water to private consumers.

In accordance with the general rule, in an action against a water company for breach of an alleged oral contract to supply water, whether or not the contract existed was a proper question for the jury.<sup>77</sup> It cannot be said as a matter of law that it was not a willful and wanton act to cut off a consumer's water supply without notice and with knowledge of the probability of damage.<sup>78</sup> Where the tenant of premises has been refused a further supply of water because of nonpayment of rates and his cotenant applies for such service, it is a question for the jury whether such application is made in good faith.<sup>79</sup>

**(2) Instructions**

The general rules with respect to instructions apply in actions for breach of the duty to furnish water.

The general rules with respect to instructions apply to actions involving the supply of water to private consumers.<sup>80</sup>

<sup>71</sup> Tex.—Paris v. Sturgeon, 110 S W 459, 50 Tex Civ App 519 67 C J p 1231 note 50

**Allegations held sufficient**

Complaint by consumer seeking to enjoin city from mixing fluorides with water which alleged an implied contract between city and consumer to furnish pure water, that city had breached the contract by mixing fluorides, alleged to be poisonous, with the water, that consumer and others similarly situated suffered irreparable damage therefrom, and that there was no adequate remedy at law held sufficient to state a cause of action—McGurren v City of Fargo, ND, 66 NW 2d 207

<sup>72</sup> Ala.—Birmingham Water Works Co v Ferguson, 51 So 150, 164 Ala 494 67 C J p 1231 note 51

<sup>73</sup> Tex.—Sturgeon v City of Paris, 122 S W 967, 58 Tex Civ App 103 67 C J p 1231 note 54.

**Issues presented by answer**

Water company, sued by customer for damages for alleged breach of contract to supply water, had burden of proving issues properly presented by answer and not replied to, but controverted, by customer—Beutel v Camp Taylor Development Co, 105 S W 2d 632, 268 Ky 544

<sup>74</sup> Md.—Merryman v Baltimore City, 138 A 424, 153 Md 419 67 C J p 1232 note 56

<sup>75</sup> Ala.—Alabama Water Co v Knowles, 124 So 96, 220 Ala 61 67 C J p 1232 note 57

<sup>76</sup> Ky.—City of Hazard v. Minge, 92 S W 2d 768, 263 Ky 535. 67 C J p 1232 note 59

<sup>77</sup> Ala.—Birmingham Water Works Co v Ferguson, 51 So 150, 164 Ala 494

<sup>78</sup> Ala.—Alabama Water Service Co v Johnson, 137 So 439, 223 Ala 529.

<sup>79</sup> Miss.—Ginnings v Meridian Waterworks Co, 56 So 450, 100 Miss 507, Ann Cas 1914A 540

<sup>80</sup> Ala.—Alabama Water Co. v Knowles, 124 So 96, 220 Ala 61

**Instructions held erroneous**

(1) Instruction that if city, and water and light company, by bringing suit against plaintiff to enjoin him from laying water lines during drouth when company could not furnish adequate water supply, made it necessary for him to equip truck with tank to haul water to his garage, then plaintiff was entitled to recover cost of obtaining water supply, was erroneous, since proper measure of damages was difference in cost of conducting water through garage owner's water lines and cost of hauling it in truck—Goodloe v. City of Richmond, 113 S W 2d 834, 272 Ky 100

(2) Other instructions, see 67 C J p 1232 note 67 [a].

### g. Judgment or Decree

The rules with respect to decrees in suits for an injunction, or specific performance, apply to such suits or proceedings involving the supply of water.

The rules with respect to decrees in suits for an injunction<sup>81</sup> or specific performance,<sup>82</sup> apply to such suits or proceedings involving the supply of water.

### h. Damages

A water company is liable in damages for whatever injury a consumer sustains as a proximate result of its breach of duty to the consumer, and various amounts of damages have been held excessive or not excessive.

In refusing to let an inhabitant of a municipality to whom it owed the duty of supplying water have such water, a water company is liable in damages for whatever injury he may have sustained as a proximate result of the breach<sup>83</sup> The liability of a water company for failure to furnish water fit for drinking and bathing is not measured by whatever consumer has elected to pay in order to secure wholesome water from other sources, but only by the reasonable cost of accomplishing the desired result<sup>84</sup> With respect to the amount awarded for improperly shutting off the supply of water, certain sums, under the circumstances, have been held excessive<sup>85</sup> or not excessive<sup>86</sup>

*Inconvenience and annoyance* in obtaining water, resulting from the shutting off of the supply<sup>87</sup> or the refusal to supply water on application,<sup>88</sup> in connection with proof of pecuniary loss or the loss of time and labor in securing water elsewhere form an item of recoverable damages

## § 282. To Water Companies

A municipality with authority to furnish water outside its corporate limits may contract to supply it to a

private utility operating a water plant outside the corporate limits, and the rights under such contract depend on its terms.

A municipality owning and operating a water plant and having authority, subject to statutory limitations, to furnish service outside its corporate limits may contract with a private utility operating a water plant outside the corporate limits to supply it with water<sup>89</sup> In entering into such contract the municipality and the utility act in the same capacity as though the business in which they are engaged was not affected by a public interest<sup>90</sup> The right to service under such contract depends entirely on the terms of the contract<sup>91</sup> Where a municipality in supplying a water company beyond its limits is not acting as a public utility but merely disposing of surplus water, in the absence of any contractual obligation to the contrary, the municipality may impose the requirement of storage reservoirs on the water company as a condition of such supply<sup>92</sup> Where a contract by a municipality to furnish water to a water company does not specify or imply the time for which it is to continue, but is for an indefinite period, either party has the right to terminate it on reasonable notice to the other<sup>93</sup> What is a reasonable time has been held to constitute a matter within the authority of a state public service commission to determine<sup>94</sup> The authority vested in a state commission to regulate utilities does not authorize it to require a municipality to furnish water to a private utility beyond the zone undertaken to be served in the municipality's charter<sup>95</sup>

*Contract between water companies.* The right to service under a contract by which a water company undertakes to supply another water company with water depends on the terms of the contract reasonably construed<sup>96</sup>

§ 283. Free Supply or Nominal Charge

- a By municipality
- b By water company

a. By Municipality

- (1) In general
- (2) Statutory and charter limitations on right to charge

(1) In General

A municipality owning its own waterworks may furnish water for municipal, public, religious, educational, or charitable purposes free, but generally speaking, an agreement to supply particular private consumers with water free of charge constitutes discrimination against consumers required to pay, and is void

A municipality owning its own waterworks may furnish water for municipal, public, religious, educational, or charitable purposes free<sup>97</sup> In doing so, a municipality cannot be said to be unjustly discriminating against persons required to pay for water service<sup>98</sup> So, a municipality may furnish free water to a state institution within the municipality where such institution is of great public benefit, both to the municipality and its inhabitants<sup>99</sup> However, under a statute authorizing a municipality with a waterworks system of its own to assess such rates

for the use of the water supplied by the waterworks as the common council or board of trustees shall deem just and expedient, it has been held that a city cannot agree to furnish water for a nominal sum to a state institution in consideration of its location within the city<sup>1</sup> Where a hospital is entitled to free water under a will establishing a water system, a water district succeeding to the rights of such system is bound by the legacy<sup>2</sup> Public institutions which do not belong to the city are not entitled as a matter of right to be supplied with water free of charge<sup>3</sup>

*Supply to private consumers* Generally speaking, an agreement of a municipality to supply particular private consumers with water free of charge constitutes discrimination against consumers required to pay,<sup>4</sup> and is void as against public policy<sup>5</sup> Authority vested in a municipality to fix rates or to agree on prices does not allow it to give water free of charge<sup>6</sup> However, a municipality may be required by statute, or the terms of its charter, to furnish free water to all its inhabitants<sup>7</sup> A municipality may, in consideration of a transfer of property to it, agree to furnish free water to the transferor<sup>8</sup> So, a municipality having power to enlarge its plants, to relocate its pipes, to acquire

7. Cal—Page v City of Santa Rosa, 65 P 2d 775, 8 Cal 2d 311

Statutory and charter limitations on right to charge see *infra* subsection a (2) of this section

**Landlord cannot assert tenant's right**

Landlord held not entitled to require municipality to furnish water free to his tenants under charter provision of municipality requiring that a reasonable quantity of water be supplied free for domestic quantity use to its "inhabitants," since tenants were "inhabitants" within charter provision, water was supplied to them in that capacity, and they would be responsible for any excess use while landlord would not—Page v City of Santa Rosa, *supra*

8 Kan—City of Iola, Allen County v Lytle, 187 P 2d 378, 164 Kan 33  
Utah—East Mill Creek Water Co v Salt Lake City, 159 P 2d 863, 108 Utah 315.

locations for such purposes, and to enter into contract which may be necessary to carry out the purpose of supplying its inhabitants with water, may, as part consideration for the grant to it of rights of way for its mains in another municipality, contract to furnish water from such mains to the owners or occupants of the tracts through which the rights of way run,<sup>9</sup> and the consent of the other municipality need not be obtained<sup>10</sup> The extent of the right to free water under a contract between a municipality and a private consumer depends on the terms of the agreement reasonably construed<sup>11</sup> A municipality may also be authorized to furnish free water to private consumers whose own supply of water has been destroyed or rendered useless by the municipality<sup>12</sup> A municipality acquiring a water system from one who purchased it from the owners under a contract and conveyance reserving and excepting a portion thereof and the water flowing therein for certain purposes has been held not entitled to collect rent for the use of water for the purposes specified,<sup>13</sup> and failure to collect such rent has been held not to constitute a preference which is prohibited by statute<sup>14</sup> Where there has been a concession of free water in acknowledgment of the gift of certain lands, and where, by statute, a water district is directed to assume all the obligations of its predecessor, such district must continue the gratuitous supply<sup>15</sup> In the absence of statutory authority a municipality may not bind itself by contract to furnish water free of charge to private persons for an indefinite period,<sup>16</sup> or for a definite period extending far into the future<sup>17</sup>

*Prescriptive right to free supply.* Where a school district claimed a right to receive free water from a municipality by virtue of exemption from taxation, not by the assertion of rights hostile to the municipality, it acquired no prescriptive right to the gratuitous use of water<sup>18</sup>

*Purchase of plant of water company* A city, purchasing the plant but not the franchise of a water company, does not assume the duty of furnishing a free supply of water imposed on the company by its franchise from the legislature,<sup>19</sup> nor does the purchase of the plant of a water company, under contract with the city to furnish water without charge to public schools, impose on the city itself the obligation to continue to supply such water without charge<sup>20</sup>

## (2) Statutory and Charter Limitations on Right to Charge

The legislature in the absence of any constitutional limitation may prohibit a municipality from making any charge for water supplied to certain institutions, but statutes so providing will be strictly construed.

The legislature, in the absence of any constitutional limitation, may prohibit a municipality or the trustees of a municipal waterworks from making any charge for water supplied to certain institutions,<sup>21</sup> such as churches,<sup>22</sup> or a state hospital<sup>23</sup> However, such statutes,<sup>21</sup> or more specifically, statutes prohibiting a municipality or its waterworks from making a charge for supplying water to charitable institutions,<sup>25</sup> or collecting compensation

**Statute invalid as discriminatory**

A statute, in so far as it imposes the obligation of furnishing free water service to charitable institutions

for furnishing water to public school buildings,<sup>26</sup> hospitals,<sup>27</sup> owners of private fire lines,<sup>28</sup> or against the fire department for supplying or installing fire hydrants,<sup>29</sup> have been held to violate a constitutional provision authorizing municipal corporations to acquire and operate waterworks. While water rates may not be, strictly speaking, taxes, as discussed infra § 284, for the purpose of construing an exemption statute, regular water rates must be deemed to be in the nature of a general tax and, inasmuch as exemptions from taxation of a general nature are not favored, a statute authorizing such exemption will be strictly construed.<sup>30</sup> A provision in the charter of a city that water is to be supplied without charge to "the several hospitals, orphan asylums, and all other charitable and benevolent corporations, societies, and institutions" has been held to be limited to the class specifically named.<sup>31</sup> A city water board, in the absence of an express provision in the charter requiring the city or its departments to pay water rents, may not charge the city or any department for water.<sup>32</sup>

#### b. By Water Company

##### (1) Under statute

##### (2) Under contract

##### (1) Under Statute

The legislature may require water companies to furnish the municipalities in which they exercise their franchises water for public purposes without charge.

on municipalities owning or operating waterworks, discriminates against them and is to that extent invalid, where a subsequent constitutional provision authorizes municipal corporations to acquire and operate waterworks free from any such restriction—*Village of Euclid v. The legislature may require water companies to furnish the municipalities in which they exercise their franchises water for public purposes without charge.<sup>33</sup> A city cannot object to a change in the statutory obligations of water companies which relieves them of a duty to furnish water without charge for extinguishing fires and imposes on them the duty to furnish such water at reasonable rates.<sup>34</sup>

##### (2) Under Contract

A water company may contract for free water service to a municipality, public institutions, and private consumers.

Where a city is authorized to contract for a water supply, as discussed supra § 265, it may stipulate that no charge shall be made for city purposes,<sup>35</sup> or it may require the water company to furnish a free supply to public institutions.<sup>36</sup> Thus, a municipality, leasing its waterworks, may stipulate with the lessee for a free supply to certain public institutions.<sup>37</sup> A municipality, under its contract with the water company, may provide that no charge shall be made for water furnished for the purpose of extinguishing fires,<sup>38</sup> for sprinkling streets, watering parks, flushing sewers, and other municipal uses,<sup>39</sup> and for a public fountain for watering animals,<sup>40</sup> and it may stipulate for a free supply to schools,<sup>41</sup> including parochial schools,<sup>42</sup> and churches.<sup>43</sup> At common law, a contract for free supply of

**42. NY**—*St. Patrick's Church Soc. v. Heermans*, 124 N.Y.S. 705, 68 Misc. 487, 67 C.J. p. 1235 note 17.

**43. Ohio**—*M. E. Church v. Ashtabula Water Co.*, 20 Ohio Cir. Ct. 578, 10 Ohio Cir. Dec. 648.

water to a municipality is not illegal as discriminating against other users,<sup>44</sup> nor is a contract to supply a city with water for a certain rental for a period of twenty years, and thereafter the supply to be free, illegal as a discrimination by a public utility, where the permanent supply is paid for in twenty installments instead of annually.<sup>45</sup> A statute forbidding unreasonable preferences and making it unlawful for any corporation to receive any discrimination in respect to the service of a public utility has been held to be a prospective, and not a retroactive, statute, which does not invalidate a contract previously made for the free supply of water to a municipality.<sup>46</sup> Whether or not the contract in question imposes an obligation to furnish water without charge,<sup>47</sup> and if it does, the scope and extent of the obligation imposed,<sup>48</sup> depend on the terms of the contract construed in accordance with the rules governing the construction of contracts generally. After a contract between a municipality and a water company has been entered into, another municipality, to which the former is annexed, cannot arbitrarily provide by ordinance for the free supply of water to charitable, religious, and educational institutions.<sup>49</sup>

*Private consumers* A water company may contract to furnish free water to a private consumer.<sup>50</sup> The rules governing the construction and operation of contracts generally are applicable in determining the construction and operation of such contracts.<sup>51</sup>

*Regulation by state* Although a municipality, as authorized by a general provision of its charter, may contract with a water company for free water for certain municipal purposes in consideration of the damage caused the city by the disturbance and excavation of street improvements by the installation of the water mains, such provision is subject to the action of the state, which, through its public service commission, may invalidate such provision as a discrimination against the paying patrons of the company.<sup>52</sup> A contract between a municipality and a company, under which, after a certain period, the company is to install and maintain fire hydrants without charge to the city, is not exclusively a proprietary matter on the part of the city but one in which the general public has an interest, and the city, as much a customer of the company as any private consumer, is subject to the jurisdiction of a public service commission, which may order the company to discontinue its free service and make a certain charge.<sup>53</sup> However, a statute with respect to the regulation of rates of a water company by the department of public works gives the department no authority to abrogate the provision in the franchise of a company from a municipality providing for the free supply of water for certain municipal purposes, where "contract," as used in such section, refers to contracts with "person" or "corporation," which words, as defined by statute, do not include a municipal corporation.<sup>54</sup>

## F WATER RENTS OR RATES AND OTHER CHARGES TO CONSUMERS

### § 284. In General

Municipal charges for water are generally not taxes, unless made so by the legislature.

"Water rents" and "water rates" have been held to be synonymous terms,<sup>55</sup> which may designate either a tax or compensation for water service.<sup>56</sup>

**Notice as to nonuse of meter**

Where water commissioner charg-

ed contractor for water used on ba-

sis of amount of masonry and plas-

tering being used, as authorized by

ordinance, because meter had been

tampered with, charges did not con-

stitute taxes but were based on con-

tract, especially where contractor ex-

pressly applied to be supplied with

water "subject to city ordinance,"

hence contractor was not entitled to

give the municipality the authority or power to collect water charges as delinquent taxes <sup>64</sup>

However, it has been held that water rents and charges may be collected either as taxes or as compensation for water consumed <sup>65</sup> The legislature may, unless hampered by constitutional restrictions, bring compensation for water furnished by a municipality within the category of a tax, <sup>66</sup> and, where the rate is established with respect to the dimensions, value, use, and exposure of buildings, and the like, and is required to be paid regardless of the quantity of water used, or whether any water is used, such rate is a tax <sup>67</sup> Water rates or charges by a municipality are not classed as taxes so long as their use is limited to waterworks purposes enumerated in the statute, <sup>68</sup> but if they are employed as a mere device to lessen the burden of taxation for general governmental purposes, then such funds should be considered in the category of taxes <sup>69</sup> Charges for the use of water, as a general rule, are governed by principles somewhat different from those regulating and controlling the imposition of taxes <sup>70</sup>

Water rents have been held not municipal claims within a statute relating thereto, <sup>71</sup> nor are they improvements <sup>72</sup> or municipal improvements. <sup>73</sup> Likewise, water rent, unless made so by statute or contract, is not a ground rent, <sup>74</sup> a levy, <sup>75</sup> a public debt, <sup>76</sup> or a charge <sup>77</sup>

*Permitting customers to read meters* A water company should, at the reasonable request of its customers, permit them to read the meters, <sup>78</sup> and on proper showing may be compelled to do so, <sup>79</sup> but the company is not required to furnish them with keys required for access to the meters <sup>80</sup>

### § 285. Right to Charge for Water Service

A municipality has a right to charge for water supplied by it

A municipal corporation operating a water system has a right, the same as a private water corporation, to charge consumers for water supplied to them, <sup>81</sup> and it may properly, in its proprietary capacity as operator of the water system, make a

notice that meter readings would no longer be used as basis for charges — *Parsons Const Corp v City of New York*, 298 N Y S 276, 163 Misc 932

#### Charge for "baths"

An extra or miscellaneous water rate or charge, imposed by city ordinance for "baths" where water supply is not metered, and not based on the quantity of water consumed, is a tax, which is without statutory authority, and hence void as applied to washtubs in private apartments — *Effel Realty Corp v City of New York*, 299 N Y S 373, 165 Misc 176, affirmed 11 N Y S 2d 250, 256 App Div 972, affirmed 24 NE 2d 978, 282 NY 541

67 C J p 1237 note 38

Right and duty to furnish free service or service at nominal charge see supra § 283

"The city is entitled to be paid for water that it supplies to any one" — *City of New York v Psaty & Fuhrman*, 3 N Y S 2d 230, 232, 166 Misc 938

#### Reasonable rules for payment

Water company, whether privately or publicly owned, has right to require compliance with reasonable rules for payment of sums due for

charge for water furnished itself in its governmental or public capacity <sup>82</sup>

Inasmuch as rates for water service from a municipal water system are not, ordinarily, a tax, as discussed supra § 284, a municipality may charge for water furnished to a school district,<sup>83</sup> or to a charitable or eleemosynary institution, even though such institution is exempt from taxation,<sup>84</sup> but, for the same reason, it can make no charge for water supply where there is no contract for service, and no service has been supplied.<sup>85</sup> Likewise, a municipality cannot collect a water charge where no water is furnished and none is available.<sup>86</sup>

The question whether a water company has a right to make a charge for a particular type of service has been held to be within the jurisdiction

of a superior court <sup>87</sup>

*Right to charge as franchise* The right to collect compensation for the use of water has been held a franchise <sup>88</sup>

*Charge for fire protection service* Where it is established that there is some reasonable basis for charging for fire protection service because it is an additional service, a municipal waterworks cannot be required to perform such service without compensation,<sup>89</sup> so, water service for private fire protection has been held to confer a special benefit for which persons protected can be charged, where the charge is not unreasonable.<sup>90</sup> Even though a water company is bound by contract or otherwise to furnish a municipal corporation with water for fire protection, it is entitled to charge a private con-

service to customers—*Schultz v Town of Lakeport*, 54 P 2d 1110, 55 P 2d 485, 5 Cal 2d 377, 108 A L R 1168

**Service to nonresidents**

Ga—*Collier v City of Atlanta*, 173 S E 853, 178 Ga 575

**Effect of void ordinance fixing rates**

A consumer of water is under duty to pay a reasonable rate for such use, even though the ordinance undertaking to fix rates is void—*Almaras v City of Hattiesburg*, 180 So 392, 181 Miss 752

**Effect of reservation and exception in sale**

Where contract for sale of water system, supplied from springs on sellers' farm, "reserved" and "excepted" pipe lines to sellers' "buildings" and water flowing therein for domestic, stock watering, garden, and lawn purposes only without charge to sellers, a town, acquiring system from buyer, had no right to collect rent for use of water for such purposes from owner of land excepted from conveyance of farm to another—*Duus v Town of Ephrata*, 128 P 2d 510, 14 Wash 2d 426, reheard 134 P 2d 722, 14 Wash 2d 426

82 Wash—*Uhler v City of Olympia*, 151 P 117, 152 P 998, 87 Wash 1

"The supply of city owned water to the inhabitants thereof is a 'governmental function' of a public service character for which [the city] is entitled to compensation fixed by law"—*Parsons Const Corp v City of New York*, 298 N Y S 276, 285, 163 Misc 932

**Charging electric board with tax equivalents**

A fourth-class city has right to require its electric board, in operation of municipal waterworks, acquired from a private utility corporation, to pay to city reasonable tax equivalents, and may charge such amounts

as operating expenses in computation of net earnings of waterworks, and use earnings so computed as a basis for possible reduction of rates—*Electric Plant Board of City of Mayfield v City of Mayfield*, 185 SW 2d 411, 299 Ky 375

83. La—*Amite City v Tangipahoa Parish School Board*, 123 So 419, 11 La App 309

Pa—*School Dist of Bedford Borough v Schnably*, 89 Pa Super 486

84 Pa—*City of Pittsburgh v Phelan*, 85 Pa Super 548

85. N J—*Austin v Mayor and Common Council of Borough of Union Beach*, 160 A 318, 10 N J Misc 670

86 Pa—*City of Philadelphia v Philadelphia & Reading R Co*, 62 Pa Dist & Co 434

**Private garages without water**

An ordinance establishing a water charge for automobiles in private garages without water cannot be construed to permit the collection of a charge against automobiles in garages which not only had no water, but for which no water was available, the intention was to impose a water rate only where there was some appliance or ferrule on the property, adjacent to the garages, from which water could be obtained—*City of Philadelphia v Philadelphia & Reading R Co*, supra

87. Wash—*State v Hoquiam Water Co*, 127 P 304, 70 Wash 682

88 US—*City and County of San Francisco v U S*, C C A Cal, 106 F 2d 569, reversed on other grounds 60 S Ct 749, 310 US 16, 84 L Ed 1050, rehearing denied 60 S Ct 1071, 310 US 657, 84 L Ed 1420

"The doctrine that the right to collect rates for water distributed or furnished is a franchise independent of the creative or corporate franchise is by no means new or strange. This rule and other analogous rules find

support in many well-considered cases"—*San Joaquin, etc., Canal, etc., Co v Merced County*, 84 P 285, 2 Cal App 593, 599

89 N H—*Chicopee Mfg Corp v Manchester Board of Water Com'rs*, 81 A 2d 837, 97 N H 109

**Use or nonuse of water**

Charge imposed by commissioners of municipal waterworks for standby service for private fire protection was a charge for service whether water was used or not—*Chicopee Mfg Corp v Manchester Board of Water Com'rs*, supra

**Sprinkler system**

A city was authorized to assess a furniture warehouse for a water fire line service for a sprinkler system, statute prohibiting charge by city or village for supplying water for extinguishing fire, etc., applied only to water taken from mains under direct control and through equipment of city or village fire department, and did not prohibit charge for special service to water sprinkler system through private fire line—*Wayne Furniture Co v City of Dayton*, Ohio App, 57 N E 2d 687

90 N H—*Chicopee Mfg Corp v Manchester Board of Water Com'rs*, 81 A 2d 837, 97 N H 109

Reasonableness of rates see infra § 289

**Service to suburbs**

A municipally owned water utility was authorized to collect its expense of fire protection service furnished to suburban retailer by including a charge therefor in the suburb's general water rate—*Village of Fox Point v Public Service Commission*, 7 N W 2d 571, 242 Wis 97, followed in *Village of Shorewood v Public Service Commission*, 7 N W 2d 574, 242 Wis. 105 and *Village of Whitefish Bay v Public Service Commission*, 7 N.W 2d 575, 242 Wis 106.

sumer for supplying water to a sprinkler or fire extinguishing system on his premises, that being a peculiar and personal service furnished him beyond, and in addition to, the service furnished the public generally,<sup>91</sup> and, for a similar reason, a municipality operating a water system may rightfully make a charge for such service, notwithstanding the sprinkler system and the use of water in connection therewith reduce the burden on the municipality in supplying fire protection, and even though the consumer has no right to take or use water through the system except in case of fire<sup>92</sup>

## § 286. Establishment of Rates

- a By water company
- b By municipality for service from municipally operated system

### a. By Water Company

Except as restricted by statute, contract, or its charter, a water company may fix its rates, subject to public regulation and the requirements as to reasonableness and the absence of unjust discrimination.

Unless withdrawn or superseded by statute,<sup>93</sup> or restricted by contract, as discussed infra § 287, or

by its charter,<sup>94</sup> the right to fix the rates to be charged by a public service water company for its services belongs to the company itself,<sup>95</sup> subject to the power of the state or its duly authorized agency to modify or supersede such rates, as discussed infra §§ 291-296, and subject also to the requirement that they be reasonable, infra § 293, and not unduly discriminatory, infra § 297.

*Rates lower than lawful maximum* Where the maximum rates to be charged are prescribed by public authority, with no indication that they are also to be the minimum rates, a water company may establish a rate less than such maximum<sup>96</sup>

### b. By Municipality for Service from Municipally Operated System

Except as restricted by statute or contract, a municipality may fix rates for its water service, subject to requirements as to reasonableness and, in some jurisdictions, to regulation by public service commissions.

In the absence of statute providing otherwise,<sup>97</sup> and except as it may be restricted by contracts previously made,<sup>98</sup> a municipal corporation owning or operating a water system has power to fix the rates to be charged for service to consumers,<sup>99</sup> sub-

91. Ga—Washington Water & Electric Co v Pope Mfg Co, 167 SE 286, 176 Ga 155  
67 C J p 1237 note 44

92. Mass—Shaw Stocking Co v City of Lowell, 85 NE 90, 199 Mass 118, 18 L R A, N S, 746, 15 Ann Cas 377  
67 C J p 1237 note 45

93. City waterworks leased by company

Statute authorizing city to fix rates for water served to city and inhabitants under contract, limited in its term and ratified by city electorate, vested city with power to fix rates for water served by company leasing city waterworks—Gulf Public Service Co v Louisiana Public Service Commission, 149 So 517, 177 La 911

94. La—Levy v New Orleans Waterworks Co, 38 La Ann 25.

96. Ala—State v Birmingham Waterworks Co, 51 So 354, 164 Ala 586, 27 L R A, N S, 674, 137 Am SR 69, 20 Ann Cas 951

Contract with municipality fixing maximum rates see infra § 287 a (1)

97. Mass—Merrill v Inhabitants of Town of Revere, 98 NE 99, 211 Mass 468  
67 C J p 1237 note 55.

### Act as not limiting lawful rates

The act authorizing city authorities to fix water rates and to provide funds necessary for servicing the bonded indebtedness, is not a limitation on lawful rates, but looks to rendering the enterprises self-liquidating insofar as reasonable rates would provide such funds, and thus relieve taxpayers of the burden of such indebtedness—Mitchell v City of Mobile, 13 So 2d 664, 244 Ala 442

### Provision not exempting municipalities

Provision in Public Service Law that subdivision relating to filing of schedules and contracts by water companies should not apply to state, municipal, or federal contracts did not exempt municipalities from operation of provisions of law governing fixing of rates—City of New York v Maltbie, 8 NE 2d 289, 274 N Y. 90

### Charter provision not conferring power

Section of charter, providing that, in case of controversy over just and reasonable water rates, question should be determined by court, provides no notice or proceeding to fix rate, so that no rate-making power is conferred, there is not such conflict between the Public Service Law and such charter, with respect to power to fix water rate, that both cannot stand, since the law provides for rate-making power and charter fails in attempt to do so—City of New York v Maltbie, 289 NYS 562,

248 App Div 39, affirmed 8 NE 2d 289, 274 NY 90

98. Ark—Arkansas Light & Power Co v City of Paragould, 225 S W. 435, 146 Ark 1  
67 C J p 1237 note 56

Contracts as to rates between municipality and

Patrons see infra § 287 b (2)  
Security holders see infra § 287 c

99. Iowa—Sloan v City of Cedar Rapids, 142 N W 970, 161 Iowa 307  
67 C J p 1237 note 57

"The municipality has all the powers of an owner to initiate rates and classifications of rates"—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 323, 189 Md 58

### Power under charter

(1) In general—State v City of St Petersburg, 198 So 837, 145 Fla 206

(2) Power given city by charter to police certain sections in other municipality was held not to affect rights of city in charging for water service rendered residents of latter municipality—Collier v City of Atlanta, 173 SE 853, 178 Ga 575

Power of public utility district to fix rates for water furnished exists by necessary implication—Seldovia Public Utilities Dist v Cook Inlet Packing Co, D C Alaska, 95 F Supp 528

### Power in board of commissioners of city

Utah—Fjeldsted v Ogden City, 28 P 2d 144, 83 Utah 278

ject to any constitutional or statutory requirements as to the time or frequency of so doing,<sup>1</sup> and to the rules as to reasonableness, as discussed *infra* § 289, and, in some jurisdictions, to the authority of the state public utility commission to modify or regulate such rates, *infra* § 290. So, the power of a municipality to fix rates to be charged the customers residing within its boundaries has been held incidental to the power to "establish and operate" public utility systems conferred by the constitution,<sup>2</sup> and where the operation of the water system is but incidental to the main purpose of service to the inhabitants of the city, the municipal authorities have the same right to fix the charges to be paid by those served in the outside territory as they have to fix those charged by the city's own inhabitants.<sup>3</sup>

It has been held that the power of a municipality to fix and regulate water rates is a legislative or governmental power,<sup>4</sup> and that fixing, or making,

rates is a legislative act,<sup>5</sup> but may be delegated by law to an administrative agency,<sup>6</sup> free from interference by the court except to preserve constitutional rights.<sup>7</sup> Under other authority, in fixing rates a municipality acts in its private or proprietary, and not its governmental, capacity,<sup>8</sup> so, where a municipal corporation purchases a water system which extends into another municipality, it has the right to fix rates for the whole system, notwithstanding the authorities of such other municipality are vested by statute with irrevocable authority to fix rates therein.<sup>9</sup>

A statute authorizing a municipality operating a water system to fix the rates to be charged contemplates the establishment of general rates, and not the making of special contracts with individual consumers,<sup>10</sup> and it does not give the municipality power to fix or change rates retroactively.<sup>11</sup> A municipality acquiring a water system from its former owners may fix rates superseding lower rates

#### Hearing not required

Board of aldermen was not required to hold public hearing before fixing New York City water rates—*Franc v Davidson*, 278 NYS 559, 155 Misc 382

#### Power to increase rates

(1) The fact that a city construed the statute under which it gave a deed of trust on its waterworks as authorizing it to increase rates to private consumers by inserting a clause in the deed providing for increase of rates and raised no objection for thirteen years is not to be lightly considered in determining its authority to increase rates, the fact that the public knew the language of the statute, knew the city's interpretation of it, as expressed in the recorded deed, as authorizing it to increase rates, knew that rates to private consumers had been increased, and yet raised no objection to the interpretation for thirteen years, does not appeal to a court of equity in support of the contention that the city cannot raise rates, the result of which would prevent the enforcement of a valid foreclosure judgment and preserve to the city its water plant practically without cost, and the fact that a city ordinance approving the form of the deed was not recorded did not affect the power of the city to increase rates if necessary to pay the secured certificates—*Connett v City of Jerseyville*, CCA Ill., 96 F2d 392

(2) The provision of the original statute authorizing cities to issue certificates of indebtedness payable solely from the water fund for the purpose of acquiring waterworks, for a sale, on foreclosure of the deed of trust securing the certificates, to the

person offering to satisfy the decree for the income of the system for the least number of years, during which period the purchaser shall be entitled to rates prescribed in the ordinance therein provided for, has no application to a creditor whose decree is unsatisfied where there has been no sale, so as to preclude him from having rates raised, but the remedial and procedural provisions of the amendatory statute, including the provisions for rates sufficient to pay cost of operation, the principal and interest on the bonds, etc., and for the enforcement of the duties of the city by mandamus, apply in favor of holders of water fund certificates issued under the original statute—*Connett v City of Jerseyville*, *supra*

1. Pa—*Central Iron & Steel Co v City of Harrisburg*, 114 A 258, 271 Pa 340

Contracts between municipality and consumers as to rates see *infra* § 287 b (2)

11. NJ—*Federal Shipbuilding & Dry Dock Co v City of Bayonne*, 141 A 455, 102 NJ Eq 475, affirmed 144 A 918, 104 NJ Eq 196.

agreed on in contracts previously made by such owners, in the absence of agreement to be bound by any such contracts<sup>12</sup>

A patron of a municipal water system who, without objection, makes numerous payments of charges imposed by the municipality for water, under the mistaken belief of both parties that the municipality had power to establish rates without the intervention of the state public utility commission, is estopped to deny the power of the municipality to establish such rates<sup>13</sup>

The courts are not managers of municipal water utilities and have no rate-making powers<sup>14</sup>

*Repeal of rate ordinance.* An ordinance prescribing the rates for water furnished the city and its inhabitants by a water company is repealed by ordinances fixing the rates for water sold by the city to the company for supply of its consumers outside the city after the city purchases the company's distribution system and other properties in the city<sup>15</sup> Such repeal constitutes a legislative recognition of the interim validity of the repealed ordinance<sup>16</sup>

## § 287. Contracts as to Rates

- a Contracts between municipality and water company
- b Contracts with patrons
- c Contracts between municipality and security holders

### a. Contracts between Municipality and Water Company

- (1) In general
- (2) As binding on parties
- (3) Modification of contract rates under regulatory power

### (1) In General

Except as prohibited by law or public policy, a municipality may contract with a water company as to the rates to be charged consumers, but cannot so contract for an indefinite or unreasonably long term

Authority conferred by its charter or general statute on a municipal corporation to provide for supplying the municipality or its inhabitants with water authorizes it to contract with a water company as to the rates to be charged by the latter to consumers,<sup>17</sup> and, independently of statute, a municipality, in granting a franchise to a water company or consenting to the use of its streets by such a company, may lawfully stipulate as to such rates, for a definite and reasonable period of time,<sup>18</sup> unless such a contract is contrary to the declared public policy of the state,<sup>19</sup> or is prohibited by law,<sup>20</sup> and except where the company has, by statute, the right to maintain its system in the streets, in which case a grant or consent by the municipality is, as to a provision fixing the rates to be charged consumers, void for want of consideration<sup>21</sup>

A contract as to rates to be charged, for an indefinite term, or unreasonably long term, is void as infringing the police power of the state,<sup>22</sup> and the legislature cannot authorize a municipality to enter into a contract as to rates for an unlimited or unreasonable term<sup>23</sup>

The passage of a franchise ordinance, specifying the rates to be charged by a company for water service, and its acceptance by the company, constitute a contract as to such rates<sup>24</sup> A contract between a municipality and a water company fixing the rates to be charged to private consumers and also the rates for water for municipal purposes is not supplanted or abrogated, as to rates to private consumers, by a later contract referring only to

12 U.S.—Cudahy Packing Co v City of Omaha, CCA Neb., 24 F.2d 3, certiorari denied 49 S.Ct. 9, 278 U.S. 601, 73 L.Ed. 530

23 Conn.—New Haven Water Co v City of New Haven, *supra*  
Fla.—City of Tampa v Tampa Waterworks Co., 34 So. 631, 45 Fla. 600, affirmed 26 S.Ct. 23, 199 U.S. 241, 50 L.Ed. 170

24 U.S.—Armour Packing Co v Metropolitan Water Co., N.J., 130 F. 851, 65 CCA 335, certiorari denied 25 S.Ct. 791, 195 U.S. 631, 49 L.Ed. 354

67 C.J. p. 1239 note 76

rates for water used for municipal purposes<sup>25</sup> Where a contract between a municipality and a water company provides that the rates charged by the latter shall be the same as those charged in a designated city, and there is no established rate in such city for service of a particular class, no rate for such service can be said to be fixed by such contract<sup>26</sup>

*Contract fixing maximum rates only* A contract between a municipal corporation and a water company which merely fixes maximum rates for water service, so placing a limitation on the amounts which may be charged by the company, but does not fix absolute or minimum rates which it may or must charge, does not prevent either the municipality, under its regulatory power,<sup>27</sup> or the company, under its inherent power to fix the rates for its service,<sup>28</sup> from establishing rates lower than the maximum prescribed by such contract.

*Extension of corporate limits of municipality* Persons who resided beyond the corporate limits of a municipality when a contract was made between the municipal corporation and a water company as to the rates to be charged for water service, but who are subsequently brought within the municipality by an extension of its corporate limits, thereupon become entitled to water at the contract rates<sup>29</sup>

## (2) As Binding on Parties

A contract between a municipality and a water company as to rates to be charged to consumers, for a definite and reasonable time, binds both parties and, except as the contract provides, neither may depart from the prescribed rates without the other's consent

A contract between a municipal corporation and a water company as to the rates to be charged to consumers for water service for a definite and rea-

sonable time in the future is binding on both parties thereto,<sup>30</sup> and neither can alter or depart from the rates thereby prescribed without the consent of the other,<sup>31</sup> except as the contract may provide otherwise, expressly or by implication<sup>32</sup> Accordingly, where the municipality consents to an increase of rates on specified conditions, the company cannot put such an increase into effect without complying with the conditions<sup>33</sup> Such a contract as to rates should, however, be strictly construed so far as it limits or restricts the power of the municipality over rates,<sup>34</sup> and doubtful or ambiguous provisions must be construed against any restriction or surrender of such power<sup>35</sup>

*Where contract fixing rates is indeterminate or indefinite as to time or duration*, the rates thereby fixed may be changed or departed from, on notice, where conditions have so changed as to render them no longer fair and reasonable,<sup>36</sup> in accordance with the general rule as to termination of contracts fixing no limit of duration, as discussed in Contracts § 398

## (3) Modification of Contract Rates under Regulatory Power

Except where authority has been clearly conferred on a municipality to contract inviolably as to rates, a contract between a municipality and a water company as to rates to consumers is subject to the state's paramount authority to regulate rates

While a contract between a municipal corporation and a water company, fixing the rates to be charged for water service to consumers, is binding on the parties, as discussed supra subdivision a (2) of this section, it must be deemed to have been made subject to the paramount authority of the state to regulate rates,<sup>37</sup> and the rates fixed by the contract may, accordingly, be modified or superseded by the legislature or its duly authorized agency, if they are or

67 C J p 1240 note 94

Power to regulate rates in general see infra § 292

Regulation of rates in general see infra §§ 291–296.

become unreasonable,<sup>38</sup> except where authority has been conferred by the state on the municipality to contract inviolably as to rates for a fixed period,<sup>39</sup> which authority will not be implied, but must be clearly and unmistakably bestowed<sup>40</sup> Unless and until the contracts are so modified or superseded, however, the contract is valid as between the parties, and continues in effect<sup>41</sup>

#### b. Contracts with Patrons

- (1) Of water company
- (2) Of municipal water system

##### (1) Of Water Company

Where rates have not been established by public authority, a water company may contract with consumers as to rates, which are then subject to modification by such authority

Where the rates to be charged for its service by a water company have not been established by public authority, or where special services not covered by established rates are involved, the company may make its own contracts with consumers as to the rates to be charged,<sup>42</sup> provided that in so doing it does not discriminate unjustly among them<sup>43</sup> Such contracts are not without consideration,<sup>44</sup> but are

valid and binding on both parties unless and until public authority intervenes and modifies the rates thereby fixed,<sup>45</sup> and cannot be changed by either party, without the consent of the other, before the expiration of the contract term<sup>46</sup> Rates so fixed by private contract are, however, subject to modification by public authority where they are or become unreasonable,<sup>47</sup> they remain in force only as long as the legislative body having authority to establish rates refrains from the exercise of its powers,<sup>48</sup> and must yield when rates are established by or under the authority of law<sup>49</sup> So, every such contract must be deemed to have been made with the knowledge or understanding that the rates fixed by the parties are subject to change by the rate-making power of the state,<sup>50</sup> and a change of rates so made, even though on the company's application, does not constitute a breach of such contract or authorize the consumer to rescind it<sup>51</sup>

A water company cannot, by a simple written agreement with a town which purchased a distribution system from the company, bind itself and its successors in perpetuity to a rate not charged by the company to the remainder of the public served by

<sup>38</sup> Me—Milo Water Co v Inhabitants of Town of Milo, 173 A 152, 133 Me 4

<sup>67</sup> C J p 1240 note 94

Reasonableness of rates in general see *infra* § 293

#### Revision by city council

Where city bought portion of water plant lying within its own limits, which plant served both it and another city, and agreed to sell water to company for distribution in other city, rates fixed in contract were subject to revision by city council of first city, since contract called for public utility service, and not merely for sale of surplus water—North Little Rock Water Co v Waterworks Commission of City of Little Rock, 136 SW 2d 194, 199 Ark 773

<sup>39</sup> Me—In re Guilford Water Co's Service Rates, 108 A 446, 118 Me 367

<sup>41</sup> Conn—New Haven Water Co v City of New Haven, 139 A 99, 106 Conn 562

<sup>67</sup> C J p 1241 note 97

#### Referendum required for modification

Where a city had contracted with a water company to furnish water to the city and its citizens at specified rates for thirty years, a subsequent

ordinance, modifying the original contract and establishing rates different from those specified, constituted a municipal grant of a franchise which must be submitted to referendum, and, the people having voted adversely thereon, it never became effective—Birmingham Waterworks Co v Birmingham, D Cal, 211 F 497, affirmed 213 F 450, 130 CCA 96

#### Right to intracity rates not affected

(1) Order of Public Service Commission authorizing city to raise rates both inside and outside city limits did not authorize city to change rate of purchaser of water delivered and metered within city, but used outside city, from intracity to extracity rates, where, under contract, purchaser was entitled to intracity rates—City of Wheeling v Benwood-McMechen Water Co, 176 SE 234, 115 W Va 353

<sup>51</sup> Me—American Thread Co v Milo Water Co, *supra*.

it,<sup>52</sup> and cannot enforce that agreement by a covenant made to run with its property, already subject to a larger public use<sup>53</sup>

*Rates in territory annexed to municipality as subject to existing ordinance* Where a water company extends its mains outside the corporate limits of the municipality in which it operates, and contracts with a large consumer outside such limits for water service to him at higher rates than those established by municipal ordinance within the city, the subsequent extension of the territorial limits of the municipality so as to bring such consumer within its boundaries does not abrogate or affect such private contract<sup>54</sup>

## (2) Of Municipal Water System

A municipality has been held bound by a contract with a consumer as to water rates, if it is not ultra vires and the contract period is not unreasonably long, under other authority, the contract rates are subject to change under a statute authorizing the municipality to fix rates

A special contract, express or implied, by a municipal corporation operating a water system to supply water to a consumer at a specified rate or price is, it has been held, binding on the municipality,<sup>55</sup> provided the contract period is not unreasonably long,<sup>56</sup> and provided the contract is not ultra vires<sup>57</sup> Under other authority, while a municipality authorized to regulate its rates for water cannot use its power to abrogate entirely a valid contract under which it furnishes water to a consumer,<sup>58</sup> a statute authorizing the municipality to fix its rates necessarily becomes a part of any such contract, so that the contract rates are subject to change<sup>59</sup> to meet changed conditions,<sup>60</sup> although no such change may be made capriciously or arbitrarily, or unless the contract rate is unjust, unreasonable, or discriminatory,<sup>61</sup> and the municipality has the burden of showing the impropriety of the rate sought to be changed or superseded<sup>62</sup>

52 Va—Town of Vinton v City of Roanoke, 80 SE2d 608, 195 Va 881

Annexed territory as becoming subject to laws and ordinances of municipality in general see Municipal Corporations § 73

55 Pa—Central Iron & Steel Co v City of Harrisburg, 114 A 258, 271 Pa 340

### Publication of rates as contract

(1) The promulgation and publication by municipality of rates for water service constituted offers to furnish such services to all eligible persons who might apply therefor, so that on acceptance by consumer a continuing contract with municipality resulted, by which municipality was bound to furnish services to consumer at stipulated rates so long as he complied with conditions of contract and until rates were changed in manner authorized by law—Hall v Village of Swanton, 35 A2d 381, 113 Vt 424

(2) Contracts with consumers for water generally see supra § 279

### Change from annual to meter rate

Where a consumer for a considerable time has paid for water used at a certain price per annum, the municipality cannot, in violation of its contract, change the price in the mid-

dle of the term to a meter rate—Penn Iron Co v Lancaster, 25 Pa Super 478

### Contract held not improvident

Pa—Griffith v McCandless Tp, 77 A 2d 430, 366 Pa 309

56 Ill—Eastern Illinois State Normal School v City of Charleston, 111 NE 573, 271 Ill 602 67 C J p 1241 note 11

57 Ga—Barr v City Council of Augusta, 58 SE2d 823, 206 Ga 756

### Lack of express approval by city council

Where city council acquiesced in arrangement whereby water board agreed to sell water to the United States at the city reservoir at within-city rates, rather than at outside-city rates, fact that city council did not expressly approve contract did not render it ultra vires—Department of Water and Power of City of Los Angeles v U S, 62 F Supp 938, 105 Ct Cl 72

### Limiting powers of future city bodies

(1) Board of commissioners of city may not by contract restrict or curtail the powers of future boards to fix and determine rates—Fjelsted v Ogden City, 28 P2d 144, 83 Utah 278

(2) The power of a municipality to fix and regulate water rates falls within the limitation placed on councils of municipalities by statute providing that one council may not, by contract or ordinance, bind itself or its successors so as to prevent free legislation in matters of municipal government—Barr v City Council of Augusta, 58 SE2d 823, 206 Ga 753—Screws v City of Atlanta, 8 SE2d 16, 189 Ga 839

(3) Alleged contract entered into

between city and corporation predecessor in title to plaintiffs' lands, located outside the city limits, whereby city agreed to charge for water to consumers within that area same price charged for similar services within corporate limits of city, was ultra vires and void in that it restricted legislative and governmental powers of future councils of the city, and plaintiffs did not acquire any rights to water service under the contract—Barr v City Council of Augusta, 58 SE2d 825, 206 Ga 756

### Water line easements

Portion of water line easement contracts providing that landowners could purchase water at specified rate was ultra vires and not binding on future administrations of city, but city could not continue to use easements by virtue of contracts and at same time refuse to pay consideration agreed to be paid by selling water to landowners at agreed rate—Boiles v City of Abilene, Tex Civ App, 276 SW2d 922, error refused

58 NY—Tonawanda Board & Paper Co v City of Tonawanda, 190 NY S 874, 880, 198 App Div 760

59 NY—Tonawanda Board & Paper Co v City of Tonawanda, supra

60 NY—Tonawanda Board & Paper Co v City of Tonawanda, supra

67 C J p 1230 note 23

61 NY—Tonawanda Board & Paper Co v City of Tonawanda, supra

62 NY—Tonawanda Board & Paper Co v City of Tonawanda, supra

A contract fixing no time limit is terminable at will,<sup>63</sup> even if it is made orally and is subsequently ratified by the public utility district.<sup>64</sup>

A court has no jurisdiction to coerce a municipality to furnish water at rates other than those required by its contract.<sup>65</sup> Where a contract by a municipality to furnish water to another municipality at specified rates has terminated, the rates fixed by the contract do not fix the rates thereafter.<sup>66</sup>

A statute authorizing a municipality to contract with patrons as to rates for water does not authorize it to increase, retroactively, a rate fixed by a contract made pursuant to the statute.<sup>67</sup> A municipal ordinance fixing rates, and providing that the water year shall commence on the first day of January of each calendar year, does not amount to, or effectuate, a contract between the municipality and one who accepts water from the municipal system, so as to prevent an increase of such rates within the year.<sup>68</sup>

A contract by which a city agrees to sell water to the United States at the city reservoir at the within-city rates, rather than at the rates applicable where water is furnished for use outside the city by means of facilities constructed and maintained by the city, is not rendered illegal merely by the fact that the water delivered to the United States within the city is used in a government institution outside the city.<sup>69</sup>

*Burden of proof as to contract* A patron seeking to establish a contract between himself and the municipality as to rates has the burden of proof.<sup>70</sup>

*Approval by public service commission* Under statute, it has been held that a municipal water works board may enter into contracts with the users of water without obtaining the approval of the state

public service commission.<sup>71</sup>

*Municipality acquiring water system as bound by existing contracts with patrons* Where a municipality acquires a water system from a water company, contracts theretofore made between the company and consumers of its water as to the rates to be charged therefor are not binding on the municipality,<sup>72</sup> except where it assumes them or agrees to be bound by them, in which case it cannot, under general authority given it by statute to regulate rates, increase the rates charged to such consumers during the term of the contracts,<sup>73</sup> and, even where existing contracts are in terms assumed by the municipality, a contract providing that the water company shall be held harmless and released from further obligation if the municipality shall acquire the water system and increase the rates above the contract price does not prevent the municipality from increasing the rate, since the obligation of the water company ceases with such increase and the municipality therefore assumes nothing.<sup>74</sup>

#### c Contracts between Municipality and Security Holders

Under a statute authorizing a municipality issuing securities for the purchase price of a water system to enact an ordinance fixing rates, which shall not be reduced until the securities are paid, the rates fixed by such ordinance cannot be reduced during its effective period.

Under a statute authorizing a municipal corporation, on acquiring a water system and issuing certificates of indebtedness or other securities for the purchase price, to enact an ordinance fixing the rates to be charged, which shall not be reduced until such securities are fully paid, the enactment of such an ordinance creates a valid and binding contract between the municipality and the holders of such securities, and the rates fixed by it cannot be reduced by the municipality during its effective period.

tive period,<sup>75</sup> nor, on the other hand, can the security holders complain that the rates thereby fixed are inadequate or confiscatory.<sup>76</sup> The fact that, in such a contract, the municipality expressly or impliedly reserves the right to increase the rates does not make the contract lacking in mutuality, since such an increase could not harm the security holders,<sup>77</sup> nor does such reservation of power to increase the rates imply any obligation on the part of the municipality to do so where necessary to obtain sufficient revenues to pay such securities and interest thereon.<sup>78</sup>

The covenant of a municipality, issuing water revenue certificates for improvements to its water system, to maintain rates which will maintain both the system and the pledged fund set up as security for the payment of the certificates is a valid covenant enforceable by the certificate holders.<sup>79</sup>

In the absence of special authorization by law, however, a municipality is without power to make such a contract as to rates, which would deprive it of power to fix or alter rates for the period of the contract,<sup>80</sup> in violation of the rule prohibiting contracts by municipal corporations which will embarrass or control their legislative powers and duties, as discussed in *Municipal Corporations* § 979 c.

## § 288. Propriety and Regulation of Rates of Municipal Water System

Courts should not hesitate to strike down a municipality's illegal system of water charges because it has

gone unchallenged, or has been successfully resorted to, for years

The courts should not hesitate to strike down an illegal system of water charges by a municipality simply because the system has gone unchallenged for years,<sup>81</sup> or because it has been successfully resorted to for years and has been productive of revenue for the municipality.<sup>82</sup>

A statutory grant to a city of the right to regulate private utilities has been held to contain no restriction on the city's right to regulate the rates of a water utility operated by itself.<sup>83</sup>

## § 289. — Amount and Reasonableness of Rates

- a In general
- b Rate producing profit or surplus revenue
- c Matters considered
- d Judicial review

### a. In General

A municipality must generally fix reasonable rates for water furnished by it, or rates reasonably proportionate to the value of the service rendered

As a general rule, a municipal corporation authorized by law to fix the rates to be charged for service from a water system operated by it is not free to exact whatever rates it may see fit,<sup>84</sup> but must fix reasonable rates, or rates reasonably proportionate to the value of the service rendered.<sup>85</sup>

The service received is the test of reasonableness—Simons v City Council of Charleston, supra

In exercise of police power, municipality, by ordinances not arbitrary or discriminatory, can fix reasonable service water rate and charge—Macmahon v Baumhauer, 175 So 299, 234 Ala 482

In absence of fixed rate, inhabitants of city have no greater rights than to receive water at reasonable rates without discrimination—Parsons Const Corp v City of New York, 298 NYS 276, 163 Misc. 932

### Evidence

(1) Held to establish that rates to be charged by municipal water plant as fixed by resolution and ordinance of city council were reasonable—P J Ritter Co v Mayor of City of

and a water rate ordinance must have reasonable standards<sup>86</sup> This rule is subject, however, to the qualification that a municipality is under no obligation to furnish service at less than cost,<sup>87</sup> and it does not apply where the municipality is authorized by statute to furnish water at such rates as may be fixed by agreement,<sup>88</sup> or where rates are required by statute to be sufficient to cover specified items of expense, such as the cost of constructing or acquiring the system, or of maintaining, repairing, or extending it,<sup>89</sup> although even under such a statute the powers of the municipality must not be abused or grossly misused<sup>90</sup> Likewise, a constitutional requirement of reasonable rates must be obeyed regardless of a bond ordinance requiring the city to charge and collect sufficient rates for water furnished to provide for all payments and reserve specified therein<sup>91</sup>

The rates should be made as low as is consistent with good business judgment,<sup>92</sup> but the rule as to reasonable rates does not contemplate rates sufficient only to maintain and operate the water system, so that the cost of erection of the original system and of any necessary additions must come from the general tax fund<sup>93</sup> The fact that a rate schedule promulgated by a water company has been judicially

held not unreasonable or confiscatory does not prevent a municipality, on taking over the water system, from increasing such rates<sup>94</sup> Where it is provided by statute that municipal water systems shall "as far as possible" be self-supporting, but that rates need not be charged which are unreasonably high, consideration is to be given to the justness and propriety, and the probable results, of fixing rates high enough to make the system self-supporting<sup>95</sup>

Fair return to a municipality should not exceed that allowed private concerns,<sup>96</sup> and may be less, as the municipal authorities decide<sup>97</sup>

The question of reasonableness of rates is ordinarily a question of fact<sup>98</sup> to be decided by the rate-making authority<sup>99</sup>

*Presumptions and burden of proof.* A municipal water rate ordinance is presumed to be reasonable and valid,<sup>1</sup> until the contrary is shown<sup>2</sup> Likewise, the rate charged to persons residing outside the city limits, as fixed by the lawful rate-fixing body, must be presumed to be reasonable, fair, and lawful,<sup>3</sup> and the city is entitled to rest on that presumption until some showing is made to the contrary<sup>4</sup>

A taxpayer asserting that the rates charged by a municipally owned utility are unreasonable has the

buiden of proof as to the value of the water system<sup>5</sup>

*Water for resale* A resident of a municipality cannot complain of its refusal to furnish him, at the rate charged resident consumers, with water for resale to nonresidents<sup>6</sup>

### b. Rate Producing Profit or Surplus Revenue

Under most authorities, the fact that a municipal water system produces a profit does not show that the rates are unreasonable

Subject to any statutory restrictions as to the items which may be included or covered in water rates,<sup>7</sup> a municipal corporation operating a water system has authority to charge such rate for its service as to yield a fair profit, or revenue in excess of the cost of furnishing the service, if such rate is reasonably proportionate to the value of the service rendered,<sup>8</sup> and it is not precluded from charging a rate representing the reasonable value of the service by the fact that such rate produces a profit,<sup>9</sup> the mere fact that a profit is made not showing that the rate is unreasonable or excessive<sup>10</sup> Moreover, a municipality does not, by operating its water system for a time at cost, become bound to persist in such policy, but may at any time abandon it for a policy of charging rates which will produce

a profit or surplus revenue, subject always to the rule as to reasonableness<sup>11</sup>

In determining the amount of profit a municipality may receive, a rate base must be found,<sup>12</sup> which is the fair value of all the property used and useful in the business<sup>13</sup> Ordinarily, the purpose for which any profits are used is within the sound discretion of the municipal authorities,<sup>14</sup> and this discretion will not be interfered with unless it is abused<sup>15</sup>

On the other hand, it has been held that, since the primary purpose of a municipal waterworks is to provide adequate water and water service at reasonable charges,<sup>16</sup> revenue not needed to maintain the system will spell out a case of unreasonable water charges<sup>17</sup>

### c. Matters Considered

Numerous factors enter into the determination of the reasonableness of a municipality's water rates, including reproduction costs, operating expenses, depreciation, and the nature of the use by the consumer

It is only on a fair value of all the property used and useful in the business that the question of reasonable or oppressive rates charged by a municipality for water can be determined<sup>18</sup> The determination of the fair value of a municipality's water system must be made in the same manner as that

18 Pa.—Shirk v City of Lancaster, 169 A 557, 313 Pa 158, 90 A L R 688

### **Construction fund not expended**

No portion of a construction fund not expended because of material priorities imposed by the government, can be added to the rate base as representing the value of property used and useful in rendering the service—State College Borough Authority v Pennsylvania Public Utility Commission, 31 A 2d 557, 152 Pa Super 363

### **Segregation of property on basis of usage**

A borough authority should segregate property, for purposes of water rates, between various types of users and service within and outside borough limits on basis of "usage," which means consumption or quantity of service, not number of customers—State College Borough Authority v Pennsylvania Public Utility Commission, *supra*.

of a private corporation<sup>19</sup> In determining the reasonableness of rates, reproduction costs,<sup>20</sup> like historic costs<sup>21</sup> and actual costs,<sup>22</sup> are a relevant fact requiring consideration, but are not an exclusive test,<sup>23</sup> and the weight to be given to each of these factors is to be determined in the light of the facts of the particular case under consideration<sup>24</sup>

Coincidentally with the determination of the fair value of the property, the cost of operating the plant must be ascertained,<sup>25</sup> it includes all charges or expenses involved in the production, supply, and distribution of the water<sup>26</sup>

The depreciation of the system<sup>27</sup> and the cost of extending water mains<sup>28</sup> may be considered in de-

termining whether a particular rate is reasonably proportionate to the service rendered; and under a particular statutory provision as to price, cost has been held but one factor in fixing reasonable value<sup>29</sup>

The quantity of water used by each consumer is not the sole criterion of the reasonableness of the rate,<sup>30</sup> there must also be considered the nature of the use,<sup>31</sup> the benefit obtained therefrom,<sup>32</sup> the number of persons who want the water for such use,<sup>33</sup> and the effect of a certain method of determining prices on the revenues to be obtained by the municipality<sup>34</sup> and on the interests of property holders<sup>35</sup> Taxes paid to a municipality are not an

31 Md—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

Mass—Ladd v City of Boston, 49 NE 627, 170 Mass 332, 40 L R A 171

32 Md—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

Mass—Ladd v City of Boston, 49 NE 627, 170 Mass 332, 40 L R A 171

33 Md—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

Mass—Ladd v City of Boston, 49 NE 627, 170 Mass 332, 40 L R A 171

34 Md—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

Mass—Ladd v City of Boston, 49 NE 627, 170 Mass 332, 40 L R A 171

35 Md—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

accurate measure of the reasonable charge that should be made for municipal water service,<sup>36</sup> and water service to a property is not to be measured solely by the value of the property served<sup>37</sup>

Rates which are sufficient to cover all operating expenses, repairs, and improvements, and interest on the cost of the water system, and to repay the purchase price in a period of twenty years, have been held so high as to be unreasonable,<sup>38</sup> but the imposition of rates sufficiently high to produce the necessary income to pay bonds issued to provide for a necessary extension of the municipal water system has been held not unreasonable,<sup>39</sup> and a municipality may be empowered by its charter to impose a rate sufficient to pay, as they mature, the certificates issued to pay the cost of the waterworks property purchased<sup>40</sup> So, if the municipal authorities decide not to make a profit, or to make a profit less than ordinary, fair return may properly include consideration of such items as debt service charge to the extent that the value of the property warrants,<sup>41</sup> a return may be allowed which will compensate the municipality for any debt service

charge on any funded debt the money from which was used directly or indirectly in building or improving the water system<sup>42</sup>

*The amounts voluntarily paid by other communities to a municipality for water is immaterial in determining whether the charge fixed by a commission for water taken by a particular community is arbitrary or capricious.*<sup>43</sup>

#### d. Judicial Review

Apart from statutory regulation, courts may pass on the reasonableness of a municipality's water rates, but will not interfere if discretion appears to have been reasonably exercised

The reasonableness of water rates fixed by a municipality is subject to judicial review at the suit, or on the complaint, of consumers,<sup>44</sup> the power of a court to pass on the reasonableness of charges made by a municipal waterworks, when not otherwise regulated by statute, is generally recognized<sup>45</sup> Reasonable discretion must be allowed the municipal officers charged with the duty of fixing rates, and unless the court can say from all the circumstances that the rate fixed is excessive and dispro-

Mass—Ladd v City of Boston, 49 N E 627, 170 Mass 332, 40 L R A 171

Petition for certiorari held defective Mass—Lucia v Water and Sewer Com'rs of Medford, 125 NE 2d 776

#### Bill challenging reasonableness of rates dismissed

Pa—Rankin v Chester Municipal Authority, Com Pl, 36 Del Co 73, exceptions dismissed 36 Del Co 144, affirmed 68 A 2d 458, 165 Pa Super 438.

#### Allegation raising question of fact

Pa—Rankin v Chester Municipal Authority, Com Pl, 36 Del Co 53

#### Joinder of individual members of authority as defendants

Pa—Rankin v Chester Municipal Authority, Com Pl, 36 Del Co 53

#### Supply to nonresidents

However, the relationship between city and consumers of city water outside of city limits was purely contractual, in absence of any obligation on part of city to furnish water, and therefore reasonableness or unreasonableness of rates was not subject to review by court in suit by parties affected to restrain enforcement of ordinance increasing rates, court could only determine whether city was complying with terms of contract—City of Phoenix v Kasun, 97 P 2d 210, 54 Ariz 470, 127 A L R 84

45. NH—Chicopee Mfg Corp. v Manchester Board of Water Com'rs, 81 A 2d 837, 97 NH 109

#### Jurisdiction of court of common pleas

Pa—Rankin v Chester Municipal Authority, Com Pl, 36 Del Co 53  
—Rankin v Chester Municipal Authority, Com Pl, 36 Del Co 52

portionate to the service rendered, their determination must stand,<sup>46</sup> the court will not interfere with the discretionary rights of the municipality as long as they appear to have been reasonably exercised<sup>47</sup> and no fraud or discretion is charged.<sup>48</sup> Accordingly, the action of a municipality in fixing or increasing rates is not reviewable in the absence of a showing that the new rates are unreasonable,<sup>49</sup> and changes should be proposed to the municipality, as the rate-making authority, and not to the court.<sup>50</sup>

The well-recognized procedure for review is by bill of injunction or by declaratory judgment proceedings wherein complainant offers to do equity.<sup>51</sup>

In a suit by a consumer for relief against rates charged by a municipal water system under an order of a public utility commission, the validity of a prior order of the commission fixing the wholesale rates to be paid by the municipality for water supplied to it, to be by it distributed through its system, is not open to consideration.<sup>52</sup>

*Laches* such as to bar the prosecution of a writ

of certiorari to review a resolution and ordinance fixing municipal water rates has been held not shown by particular proof adduced.<sup>53</sup>

## § 290. — Regulation by Public Utility Commission

Authorities differ as to whether, under the variously worded statutes, public utility commissions have power to regulate municipal water rates.

According to some authorities, the power to regulate rates for water supplied by municipally owned water systems is not conferred on a state public utility commission by constitutional or statutory provisions authorizing such commission to regulate the rates of public utilities,<sup>54</sup> except where it is provided otherwise.<sup>55</sup> There is, however, also authority, to the contrary, that a municipal corporation engaging in the business of supplying water to its inhabitants or the public is subject to the same constitutional and statutory provisions as to the manner of fixing reasonable rates as individuals and private corporations,<sup>56</sup> particularly where the

### Statute held valid

Provision of Revenue Bond Act with respect to appointment of receiver for municipally-owned utility was held not invalid as interfering with constitutional rate-making power of commission, as applied to part of projected water system which town proposed to operate outside its corporate limits—*Crandall v Town of Safford*, 56 P 2d 660, 47 Ariz 402

### Effect of contract; repeal of charter provision

(1) Under Public Service Law, commission cannot fix rates for public use where municipality has contract with waterworks company, but if municipality has no such contract, commission can conduct investigation and fix rate on written complaint, provisions of law vesting in commis-

municipality is selling water for profit,<sup>57</sup> and except where municipalities or water systems owned by them are in terms excepted from the operation of such provisions<sup>58</sup>

The determination, by a commission, as to the rates which a municipality is entitled to charge is conclusive on the courts, where such determination is fully sustained by the evidence<sup>59</sup> In its order fixing rates, a commission cannot require a municipality to carry out a provision of its contract with a water company to reimburse the company for taxes assessed by the municipality<sup>60</sup>

In a proceeding before a commission for the reduction of the rates charged to consumers outside the municipality, it is the duty of the commission, as the agency of the legislature, to carry out the legislative policy, expressed in a statute, of protecting the bondholders of municipal authorities<sup>61</sup> Where such proceeding is on the ground that the

rates are unjust, unreasonable, and discriminatory, the burden of proving the reasonableness of the rates is on the municipality, in the absence of compliance by it with the statutory requirements as to filing, and subscribing to, tariffs<sup>62</sup> The provisions of an ordinance authorizing the issuance of water revenue bonds for the extension of a city water-works system are subject to any authority vested in the public service commission as to rates<sup>63</sup>

*Quasi-municipal corporations*, such as a fire district,<sup>64</sup> a water district,<sup>65</sup> and a water authority<sup>66</sup> are subject to regulation by a public utility commission or officer, as to their rates, under general statutes authorizing such commission or officer to regulate the rates of public utilities, where not specifically excepted therefrom

*Notice of change of rate or classification.* A city subject to the power of a public service commission to regulate rates cannot change an established

sion jurisdiction over rates of water companies were held to repeal prior charter provision authorizing city commissioner of water supply to exercise superintendence, regulation, and control in respect of rates of water companies, to extent of vesting in commission the fixing of rates between city and water companies, in absence of contract—City of New York v Maltbie, 8 NE2d 289, 274 NY 90

(2) Contracts between municipalities and water companies as to rates generally see supra § 287 a

#### Effect of statute as to filing rates

Section of law providing that municipality had power to require companies to file and keep open to public inspection schedules of all rates to be charged and contracts relating thereto, does not indicate that rights of municipality to fix rates were not affected by commission's power—City of New York v Maltbie, 289 NY 562, 248 App Div 39, affirmed City of New York v Maltbie, 8 NE 2d 289, 274 NY 90

#### Ordinance as to rates for nonresidents held invalid

57. W Va.—City of Wheeling v Benwood-McMehen Water Co., 176 SE 231, 115 W Va 353

58. Or.—Gates v Public Service Commission of Oregon, 167 P 791, 168 P 939, 86 Or 442

67 C J p 1243 note 53

**Statute held not to deprive commission of jurisdiction** to revise rates to be charged by municipality for water under contract executed prior to April 1, 1907, where rate prescribed by contract was claimed to be un-

reasonable—City of Milwaukee v Railroad Commission of Wisconsin, 258 NW 854, 217 Wis 606

#### Statute repealed by implication

Statute authorizing municipality to fix rates for water furnished to any purchaser outside municipality was held to repeal, by implication, prior statute authorizing Public Service Commission to fix prices for water so sold by municipality and to give city exclusive jurisdiction over such rates—State ex rel West Side Imp Club v Department of Public Service of Washington, 58 P 2d 350, 186 Wash 378

#### Supplying water outside corporate limits

City's statutory exemption from regulation of commission as to rates charged and service rendered by it in furnishing water to its citizens ceased when it supplied water to patrons outside its corporate limits—Louisville Water Co v Preston St Road Water Dist No 1, Ky, 256 SW 2d 26

59. NY—City of Syracuse v Gibbs, 28 NE 2d 835, 283 NY 275

60. Me—Milo Water Co v Inhabitants of Town of Milo, 173 A 152, 133 Me 4

#### Order contingent on remission of taxes

Where commission implied, in ordering increase in rates, that continuance of order was contingent on town's remission of taxes to company as provided in contract, and subsequently made order increasing rates to compensate company for tax assessment, company could not recover increased rates for period preceding time when subsequent order became operative, where company did not ex-

cept to subsequent order, since contract was abrogated by parties' conduct and commission's orders—Milo Water Co v Inhabitants of Town of Milo, supra

61. Pa—State College Borough Authority v Pennsylvania Public Utility Commission, 31 A 2d 557, 152 Pa Super 363

#### Additional allowance to meet obligations

Where reasonable return, based on proper water rates and allowable operating costs, as determined by commission, would be inadequate to enable authority to meet its obligations to its bondholders or seriously jeopardize security of bonds, additional allowance should be made, and consumers outside borough limits should be required to carry proper share of burden—State College Borough Authority v Pennsylvania Public Utility Commission, supra

62. Pa—State College Borough Authority v Pennsylvania Public Utility Commission, supra

63. Mo—City of Lebanon v Schneider, 163 SW 2d 588, 349 Mo 712

66. RI—Kennelly v Kent County Water Authority, 89 A 2d 188, 79 RI 376

#### Filing rates with utility administrator required

RI—Kennelly v Kent County Water Authority, supra

rate or classification except after the required statutory notice to the commission and the public<sup>67</sup>

*Setting aside order, party in interest* An order of the Public Service Commission determining the rates for a municipally-owned water utility is prima facie lawful,<sup>68</sup> and the burden of showing unlawfulness is on the party seeking to set aside the order.<sup>69</sup> The fact that a city sells water to another city does not make the former a party in interest so as to entitle it to maintain an action to set aside an order of the Public Service Commission fixing the rates to be charged by the latter city in extending its services.<sup>70</sup>

*On appeal* from a commission's order to reduce the rates charged by a municipal authority to consumers outside the municipality, the court is bound to consider the question whether the commission had jurisdiction to regulate and control the rates, whether or not the question was raised before the commission.<sup>71</sup>

## § 291. Propriety and Regulation of Rates of Water Companies

An ordinance regulating a water company's charges must fix the rates with certainty and definiteness

A municipal ordinance regulating the charges to

be made by a water company must fix the rates with certainty and definiteness<sup>72</sup>

## § 292. — Power to Regulate Rates

- a In general
- b Power of municipality

### a In General

Water companies' rates are subject to regulation by the state or any agency to which it has lawfully delegated the power of regulation

The business of supplying the public with water is one impressed with a public use,<sup>73</sup> and the rates to be charged by companies and persons engaged in public water service are subject to regulation under the police power of the state,<sup>74</sup> a water company can lawfully charge no higher rates than those duly established by public authority.<sup>75</sup> The right to establish and regulate the charges to be made for public water service belongs to the state,<sup>76</sup> and can be exercised only by it or by some agency to which it has lawfully delegated such power.<sup>77</sup> The state may delegate its power to municipal corporations, as to the rates of water companies operating within their respective limits,<sup>78</sup> but a statute attempting to confer such power on the courts is unconstitutional, as providing for the exercise by the judicial

67 W Va.—City of Wheeling v Benwood-McMeehan Water Co, 176 S E 234, 115 W Va 353

68 Wis.—Village of Fox Point v Public Service Commission, 7 NW 2d 571, 242 Wis 97, followed in Village of Shorewood v Public Service Commission, 7 NW 2d 574, 242 Wis 105, and Village of Whitefish Bay v Public Service Commission, 7 NW 2d 575, 242 Wis 106

67 C J p 1244 note 66

77. N Y.—New York Interurban Water Co v City of Mt Vernon, 180 NYS 304, 110 Misc 281  
Tex.—Ball v Texarkana Water Corporation, Civ App, 127 SW 1068

78. Ill.—City of Danville v Danville Water Co, 53 NE 118, 178 Ill 299, 69 Am SR 304  
67 C J p 1244 note 68  
Power of municipalities see infra subdivision b of this section

department of powers which belong to the legislative department,<sup>79</sup> and, in general, a court of equity has no power to prescribe water rates<sup>80</sup>

Even a provision in a water company's charter as to the rates which it may charge for its service may be modified or superseded,<sup>81</sup> and is superseded by subsequent general legislation providing for the regulation of rates<sup>82</sup>

*Continuing power; nonuser or abandonment* The power to regulate water rates is not exhausted by exercise, but is a continuing one, which may be exerted, from time to time, whenever necessary in the public interest<sup>83</sup>

*Nonuser of power* to regulate water rates is not an abandonment of it<sup>84</sup>

*Private water companies* The rates to be charged by private water companies, organized to furnish water merely to their own members or stockholders, are not subject to public regulation,<sup>85</sup> the power to fix rates by public authority depending on whether the company has devoted its property to public use<sup>86</sup> A state cannot entirely divest itself of, or abandon, its powers to regulate water rates<sup>87</sup>

## b. Power of Municipality

Apart from contract with a water company, a municipality has power to regulate such company's rates only where clearly given such power by statute

A municipal corporation has authority to regulate the rates to be charged by a public service water company for its service, where it is given such authority by statute,<sup>88</sup> except as it may have restricted its rights by contract<sup>89</sup> In the absence of statute, a municipality has no power to regulate water rates,<sup>90</sup> except as it may do so by contract with the company, as discussed supra § 287 a.

Such power is not to be implied, and cannot be exercised unless it is clearly and unmistakably granted by the state<sup>91</sup> Thus, a municipality is not given power to regulate rates by a general welfare clause in its charter or the statute under which it is organized,<sup>92</sup> or by a statute merely authorizing it to provide a water supply for its inhabitants, or to cause such supply to be provided,<sup>93</sup> or by a statute conferring on it power to regulate the measuring of water sold within its boundaries and to regulate and inspect water meters,<sup>94</sup> and a statute authorizing a municipality to contract for a water supply does not empower it to regulate or control rates for water service except by contract with the person or corporation furnishing the service<sup>95</sup>

94. Pa.—*York Water Co v City of York*, 95 A. 396, 250 Pa. 115

95. Ga.—*Washington Water & Electric Co v Pope Mfg Co*, 167 SE 286, 176 Ga. 155

Under a statute conferring power to regulate the rates to be charged, a municipality may establish absolute rates, and is not limited to fixing maximum rates,<sup>96</sup> but it may establish rates for the future only, and is not empowered to make retroactive rates.<sup>97</sup> A municipal corporation's power to regulate water rates is not affected by the fact that it is itself a patron of the water company.<sup>98</sup>

**Annexation of territory** Where the territory of one municipality is annexed to another and larger one, the power of regulating water rates is thenceforth to be exercised by the larger municipality.<sup>99</sup>

**Control of state** A statute authorizing a municipal corporation to fix water rates is ordinarily of the nature of a license, revocable at will, and does not amount to a surrender of the state's power to regulate such rates,<sup>1</sup> and so a municipality has no power to fix rates inviolably, and free from the control of the legislature, at least where such power has not been clearly and expressly conferred on it by statute.<sup>2</sup>

**Delegation of power.** Statutory authority conferred on a municipal corporation to regulate rates for water service is a purely legislative function,<sup>3</sup> and cannot be delegated by the legislative body of the municipality to a municipal officer or a commission.<sup>4</sup>

## § 293. — Reasonableness of Rates

- a In general
- b Matters considered
- c Change of rates
- d Presumptions and burden of proof

### a. In General

A water company is entitled only to such rates as will give it a fair and reasonable return on its property devoted to the public service. The rates must not be so low as to be confiscatory or so high as to exceed the value of the service to consumers.

Ultimate conclusions as to the reasonableness of rates to be charged by a water company must be reached with due regard to their effect both on the company and on the public.<sup>5</sup> A public service water company is entitled to charge for its services such rates, and such only, as will give it a fair and reasonable return on its property devoted to the public service,<sup>6</sup> or a fair and just compensation for the services which it renders,<sup>7</sup> while the public is entitled to demand that no more be exacted by the company than the services are reasonably worth.<sup>8</sup> Rates established by public authority, under the power of regulation, must be reasonable, compensatory, and nonconfiscatory,<sup>9</sup> and cannot be arbitrarily established or made unreasonably low,<sup>10</sup> but must be such as, after due allowance is made for depreciation, upkeep, and legitimate operating expense, will afford a fair return to the company.<sup>11</sup>

8. Me.—Gay v Damariscotta-Newcastle Water Co, 162 A 264, 131 Me 304

67 C J p 1246 note 93

9. Va.—Roanoke Water Works Co v Commonwealth, 124 SE 652, 140 Va 144

67 C J p 1246 note 95

10. NY.—Silberberg v Citizens' Water Supply Co of Newtown, 190 NYS 349, 116 Misc 595

67 C J p 1246 note 96

11. Conn.—City of New Haven v New Haven Water Co, 172 A 767, 118 Conn 389

RI.—Town of Narragansett v. Ken-

and, on the other hand, must not be unreasonably high so as to produce an excessive profit to the company and inflict hardship upon the consumers<sup>12</sup> Thus, the rates must not be so low as to be confiscatory<sup>13</sup> or so high as to exceed the value of the service to the consumers<sup>14</sup> The company is not entitled to charge rates which, in addition to giving it a fair return, provide revenues sufficient to pay the cost of construction, acquisition, or extension of the system<sup>15</sup>

No satisfactory definition of "reasonable," as applied to rates, applicable to each case, can be made,<sup>16</sup> each case must be decided on its own facts,<sup>17</sup> and on a consideration of many varying elements<sup>18</sup> The nature and scope of the inquiry are such that the question of what constitutes a reasonable rate is primarily one of fact,<sup>19</sup> depending largely on the circumstances of the particular case<sup>20</sup>

Generally, the courts will not, at the instance of an individual consumer, interfere with the collection of rates fixed by legislative authority on the ground that such rates are excessive or unreasonable, if the rates charged are less than the maximum or within

the limits prescribed by the public authorities<sup>21</sup>

*Unit for rate-making* Normally, the unit for rate-making purposes would be the entire interconnected operating property used and useful for the convenience of the public in the territory served,<sup>22</sup> without regard to particular groups of consumers or local subdivisions,<sup>23</sup> but conditions may be such as to require or permit the fixing of a smaller unit<sup>24</sup>

## b. Matters Considered

(1) In general

(2) Value of company's properties

### (1) In General

In determining the reasonableness of a water company's rates, principles governing public utilities generally, with respect to such matters as going value, working capital, operating expenses, depreciation, and adequacy of return, apply.

In determining the reasonableness of rates to be charged by water companies for water service, there are to be applied the general principles applicable in the cases of other public utilities, as discussed in Public Utilities §§ 13-30, as to the rate base and the elements thereof<sup>25</sup> In fixing reasonable rates, it is

nelly, 114 A 2d 393, reargument denied 115 A 2d 693  
67 C J p 1246 note 97

12 Fla—State v Tampa Water Works Co, 47 So 358, 56 Fla 858, 19 L R A NS, 183  
67 C J p 1246 note 98

#### Evidence; increased rate

Evidence warranted decision of Board of Public Utility Commissioners that an increased rate for service furnished by a consolidated water company serving certain municipalities was reasonable—City of Long Branch v Board of Public Utility Com'rs, 24 A 2d 505, 128 N J Law 91

13. Conn—City of New Haven v New Haven Water Co, 172 A 767, 118 Conn 389

#### Temporary rate; effect of statute

The fact that the Public Utility Act authorizes a temporary larger rate than the final rate determined to recompense a utility for losses occasioned it by the establishment of a temporary rate less than the final did not alter the confiscatory nature of an order of the Public Service Commission for a rate base, where no assurance exists as to the length of time the temporary rate will be in effect, or that the present water consumers will remain such—Beaver Val Water Co v Driscoll, D C Pa, 23 F Supp 795

#### Effect of erroneous valuation of property

Even though value of property of company, as fixed by Public Service

Commission is erroneous, if revenue from schedule of rates fixed by commission is sufficient to constitute fair and reasonable return on actual value, commission's action in determining erroneous value does not constitute confiscation—Indianapolis Water Co v McCart, D C Ind, 13 F Supp 110, reversed on other grounds, C C A, 89 F 2d 522, modified on other grounds McCart v Indianapolis Water Co, 58 S Ct 324, 302 US 419, 82 L Ed 336

#### Dividends on company's stock held improperly included

RI—Town of Narragansett v Kennelly, 114 A 2d 393, reargument denied 115 A 2d 693

#### Cost of plant disconnected from system

Evidence was held not to show that department acted arbitrarily when it refused to include in rate base the cost of company's plant which was disconnected from system after use of water from creek was condemned—State ex rel Winlock Water Co v Department of Public Works, 39 P 2d 603, 180 Wash 278

essential to take into consideration the principles applicable to going value,<sup>26</sup> working capital,<sup>27</sup> operating or other expenses of the company,<sup>28</sup> overhead cost items,<sup>29</sup> taxes,<sup>30</sup> the income of the company,<sup>31</sup> its past losses and profits,<sup>32</sup> the adequacy of

#### Nonproducing wells

Evidence was held not to show that department acted arbitrarily when it refused to include in rate base the cost of nonproducing wells which had been dug several years before hearing, and cost of which had been previously taken care of out of earnings of company—*State ex rel Winlock Water Co v Department of Public Works*, supra

#### Inflated or fictitious base not shown

In water rate proceeding before public utility administrator, evidence relied on by administrator did not show that rate base was inflated or fictitious, but sustained his rate order—*Town of Jamestown v Kennelly*, R I, 100 A 2d 649

26 US—*Indianapolis Water Co v McCart*, CCA Ind, 89 F 2d 522, modified on other grounds *McCart v Indianapolis Water Co*, 58 S Ct 324, 302 US 419, 82 L Ed 336

67 C J p 1250 note 5

#### Matter of judgment

The determination of "going concern value" is largely a matter of sound judgment—*Alexandria Water Co v City Council of Alexandria*, 177 SE 454, 163 Va 512

#### Finding of particular value sustained

Commissioner's finding that going concern value of company was sixty thousand dollars was held sustained by evidence—*Alexandria Water Co v City Council of Alexandria*, supra

#### Conjectural and arbitrary estimate

A water company's claim of value, for rate-making purposes, for the intangible element of good will or standing as a going concern, in addition to property value, will be disallowed, and is not entitled to adoption in any measure in determining rates, where going concern value is a conjectural estimate, arbitrary in character—*State v Hampton Water Works Co*, 18 A 2d 765, 91 NH 278, rehearing denied 19 A 2d 435, 91 NH 278

27 US—*McCardle v Indianapolis Water Co*, Ind, 47 S Ct 144, 272 US 400, 71 L Ed 316

67 C J p 1251 note 6

#### Allowance for cash or supplies

Public Utility Commission properly refused an allowance for cash working capital, but made allowance of working capital for materials and supplies—*City of Pittsburgh v Pennsylvania Public Utility Commission*, 101 A 2d 761, 174 Pa Super 363

#### Allowances held arbitrary and unreasonable

Allowances of Department of Public Works for capital invested in materials and supplies, and for cash

working capital, were held arbitrary and unreasonable—*State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington*, 51 P 2d 610, 184 Wash 451

28 Pa—*Beaver Val Water Co v Pennsylvania Public Utility Commission*, 14 A 2d 205, 140 Pa Super 297—*Scranton-Spring Brook Water Service Co v Public Service Commission*, 181 A 77, 119 Pa Super 117

67 C J p 1251 note 8

Company's report showing actual amount of expense in year should be considered by commission—*State v Hampton Water Works Co*, 18 A 2d 765, 91 NH 278, rehearing denied 19 A 2d 435, 91 NH 278

#### Undistributed construction costs

US—*Indianapolis Water Co v McCart*, CCA Ind, 89 F 2d 522, modified on other grounds *McCart v Indianapolis Water Co*, 58 S Ct 324, 302 US 419, 82 L Ed 336

#### Company engineer's statement held erroneously adopted

R I—*Town of Narragansett v Kennelly*, 114 A 2d 393, reargument denied 115 A 2d 693

#### Office salary expense

Finding of State Corporation Commission that office salary expense paid by company under management contract should be reduced by four thousand five hundred dollars a year was held not sustained by evidence—*Alexandria Water Co v City Council of Alexandria*, 177 SE 454, 163 Va 512

#### Municipal taxes

Commissioners properly reduced item of municipal taxes, included in company's operating expenses, in ratio which assessment on its used and useful property bore to total assessment—*New Jersey Suburban Water Co v Board of Public Utility Com'rs* 8 A 2d 350, 123 N J Law 303, certiorari denied *McGregor v Board of Public Utility Com'rs*, 60 S Ct 582, 309 US 663, 84 L Ed 1010

#### Expenses in rate case

Under statutory requirement, the expense of Public Service Commission in rate case should be charged to the company's operating expenses and amortized over such period as the commission should fix, company's rate case expenses should be amortized over a five-year period, in absence of evidence that another investigation would be had in five years, notwithstanding difficulty in determining reasonable allowance—*State v Hampton Water Works Co*, 18 A 2d

765, 91 NH 278, rehearing denied 19 A 2d 435, 91 NH 278

#### Finding upheld with exceptions

Finding of Department of Public Works as to future operating expenses and other proper deductions from gross revenue by disallowance of increased labor costs, costs for services of tax, sanitary, and other experts, failure of department to make sufficient allowance for taxes, elimination of certain items of general expense, and refusing to allow all of expense incurred in rate proceeding, held not error except that items of labor costs and taxes should be reexamined—*State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington*, 51 P 2d 610, 184 Wash 451

#### 29 Items included by company's engineers

Municipalities objecting to Public Service Commission's order fixing rates could not object to inclusion of overhead cost items included by their engineers as part of rate base—*Scranton-Spring Brook Water Service Co v Public Service Commission*, 181 A 77, 119 Pa Super 117

30 Pa—*Beaver Val Water Co v Pennsylvania Public Utility Commission*, 14 A 2d 205, 140 Pa Super 297

67 C J p 1251 note 8 [b]

31 Company's report showing actual amount of receipts in year should be considered by commission—*State v Hampton Water Works Co*, 18 A 2d 765, 91 NH 278, rehearing denied 19 A 2d 435, 91 NH 278

#### Acceptance of special master's figures

Company, declining to offer proof of its net income for first year under new rates promulgated by state Public Service Commission when given opportunity by special master before making his report of company's income applicable to return for such year, is in no position to complain of his finding, approved by district court, and circuit court of appeals will accept his figures—*Indianapolis Water Co v McCart*, CCA Ind, 89 F 2d 522, modified on other grounds *McCart v Indianapolis Water Co*, 58 S Ct 324, 302 US 419, 82 L Ed 336

32 US—*Bluefield Waterworks & Improvement Co v Public Service Commission of West Virginia*, W Va, 43 S Ct 675, 262 US 679, 67 L Ed 1176

67 C J p 1251 note 10

#### Overruled case

*Hackensack Water Co v Board of Public Utility Com'rs*, 119 A 84, 98 N J Law 41, affirmed 124 A 925, 100 N J Law 177, is expressly overruled

the return to the company,<sup>33</sup> and other matters affecting the reasonableness of the rates<sup>34</sup> Comparative rates in localities similarly situated have been held properly considered,<sup>35</sup> but evidence of rates prevailing in several neighboring communities is properly rejected where similarity of conditions does not appear and there is no evidence of improvident investment or any other evidence which would justify a comparison of rates<sup>36</sup>

In a proceeding to fix permanent rates, disputed questions as to the rate of return are questions of fact for a public service commission to determine from the evidence<sup>37</sup>

*Depreciation* of the company's property is a matter to be considered in determining the reasonableness of rates,<sup>38</sup> a water plant, with all its additions, begins to depreciate in value from the moment

—New Jersey Power & Light Co v State Dept of Public Utilities Board of Public Utility Com'rs, 104 A 2d 1, 15 NJ 82

33 Va—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512  
67 C J p 1252 note 11

**Return higher than bare cost of capital**

Rate of return of five and eighty-one hundredths per cent was not excessive, although higher than the bare cost of capital, which was found by commission to be five and thirty-eight hundredths per cent—City of Pittsburgh v Pennsylvania Public Utility Commission, 101 A 2d 761, 174 Pa Super 363

**Return held confiscatory and unreasonable**

(1) Less than four per cent of the present fair value of the company's property—Beaver Val Water Co v Driscoll, D C Pa., 23 F Supp 795—67 C J p 1252 note 11 [f] (4)

(2) Other rates of return—City and County of Denver v Denver Union Water Co, Colo., 78 S Ct 278, 246 US 178, 62 L Ed 649—67 C J p 1252 note 11 [f] (1)–(3), (5), (6)

**Return held not confiscatory or unreasonable**

(1) Four and eight tenths per cent on average of depreciated original and reproduction costs—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 403, 171 Pa Super 409

(2) Four and ninety-eight hundredths per cent—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

(3) Six per cent  
US—Indianapolis Water Co v McCart, CCA Ind., 89 F 2d 522, modified on other grounds McCart v Indianapolis Water Co, 58 S Ct 324, 302 US 419, 82 L Ed 336

NY—People ex rel Consol Water Co of Utica v Maltbie, 9 NE 2d 961, 275 NY 357, appeal dismissed  
People ex rel State of New York ex rel Consol Water Co of Utica, NY v Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 724  
67 C J p 1252 note 11 [g] (8)

(4) Evidence was held to show that return at rate of six and three-fourths per cent was fair and just

—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 NJ Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

(5) Finding of Department of Public Works that return of six and seventy-five hundredths per cent per annum for ensuing period of two or three years was reasonable was held not arbitrary—State ex rel Oregon—Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 610, 184 Wash 451

(6) Other rates of return—State ex rel City of St Joseph v Public Service Commission, 30 SW 2d 8, 325 Mo 209—67 C J p 1252 note 11 [g] (1)–(7), (9), (10)

**Six per cent held adequate**

US—Indianapolis Water Co v McCart, D C Ind., 13 F Supp 110, reversed on other grounds, CCA, 89 F 2d 522, modified on other grounds McCart v Indianapolis Water Co, 58 S Ct 324, 302 US 419, 82 L Ed 336

67 C J p 1252 note 11 [g] (8)

**Six per cent held justified**

34 US—Middlesex Water Co v Board of Public Utility Commissioners of New Jersey, D C N J., 10 F 2d 519, appeal dismissed 48 S Ct 18, 275 US 483, 72 L Ed 385

67 C J p 1251 note 7

**Statutory requirement of water for fire protection**

Statute requiring companies to provide water adequate for proper fire protection was held not to prevent company from including cost of such service and reasonable return on property used and useful therefor in amount to be raised by rates charged—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

**Managerial and supervisory services by other company**

In setting a temporary rate base, the public Service Commission should have allowed some reasonable amount for managerial and supervisory services rendered the company by another water company, which owned all its

stock—Beaver Val Water Co v Driscoll, D C Pa., 23 F Supp 795

**Comparative cost as between group and individuals**

Calculations by company as to comparative cost of water furnished to industrial housing group supplied by manufacturer, who received water through single pipe, and individual consumers held unreasonable, in absence of consideration of fact that water consumed by group included fire protection and sewage disposal and that manufacturer bore expenses of distribution—Viscose Co v Public Service Commission, 187 A 454, 123 Pa Super 223

**Output charge; average use**

Where manufacturer received water through single pipe for housing group and distributed it through own pipes for domestic use, fire protection, and sewage disposal, water company's output charge, sought to be applied to average use of each building, family, or establishment supplied, held unreasonable as seeking to allocate to each dwelling unit, as part of domestic use, proportionate part of wholesale consumption of water used for fire protection and sewage disposal—Viscose Co v Public Service Commission, supra

35 NJ—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 NJ Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

Pa—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 903, 171 Pa Super 409—Beaver Val Water Co v Pennsylvania Public Utility Commission, 14 A 2d 205, 140 Pa Super 297

67 C J p 1249 note 4 [b], p 1251 note 9

Depreciation in connection with reproduction cost see *infra* subdivision b (2) (b) of this section.

of its use, so as to require reduction from its value for depreciation from such time, in fixing the water rate.<sup>39</sup> A depreciation reserve is an asset of the company,<sup>40</sup> and does not belong to the customers,<sup>41</sup> and if, by its use in maintenance, it adds to actual value, the addition inures to the benefit of the owners of the utility.<sup>42</sup> A company's actual depreciation reserve, found by the commission to be adequate and proper, should be applied in proportion to reproduction costs.<sup>43</sup> A public utilities commission, in fixing the rates to be charged by a water company, may properly allow an annual accrual for depreciation reserve for the replacement of worn-out units, notwithstanding a provision in the contract between the company and the municipality limiting the company to the amount necessary for current annual renewals, repair, and replacement of plant only.<sup>44</sup>

#### **Compound interest or straight line method**

(1) Whether compound interest method or straight line method of computing accrued depreciation should be used was a matter for the Public Utility Commission to decide, and its determination was essentially a matter of judgment, commission, in using compound interest method, properly considered result of application of that method as a guide merely, rather than as an absolute measure of accrued depreciation.—*City of Pittsburgh v Pennsylvania Public Utility Commission*, 101 A 2d 761, 174 Pa Super 363

(2) "Straight line method" is a calculation based on age and on the estimated assumed useful life of the elements entering into the property.—*State ex rel Winlock Water Co v Department of Public Works*, 39 P 2d 603, 180 Wash 278

(3) Commission's deduction for accrued depreciation of an amount twice as large as largest amount estimated by any witness was held arbitrary and confiscatory, where computation was on straight-line method, and was mere paper calculation unsupported by any proof.—*New Rochelle Water Co v Maltbie*, 289 N Y S 388, 248 App Div 66

#### **Replacement or reproduction cost as basis**

State Corporation Commission, in determining amount to be allowed as an expense item for annual depreciation, need not base estimate on present fair cost of replacement of the property or reproduction cost new.—*Alexandria Water Co v City Council of Alexandria*, 177 SE 454, 163 Va 512.

#### **Allowance held fair and reasonable**

(1) In general.—*Alexandria Water Co v City Council of Alexandria*, 177 SE 454, 163 Va 512

In a proceeding to fix permanent rates, disputed questions as to depreciation are questions of fact for a public service commission to determine from the evidence.<sup>45</sup>

#### **(2) Value of Company's Properties**

- (a) In general
- (b) Reproduction cost

##### **(a) In General**

In determining the reasonableness of a water company's rates, the value of its properties must be considered, the ascertainment thereof is not a matter of formulas but of reasonable judgment, based on the proper consideration of all relevant facts

In determining the reasonableness of the rates charged, or to be charged, by a water company, there must be considered the value of the company's physical and other properties<sup>46</sup> and the factors

(2) Finding that nature of the enterprise and other factors peculiar to it which produce strength and soundness of investment created an increase of value over value tested only by investment costs, with due adjustment for price changes in costs, was not inadequate as not making allowance for depreciation, though depreciation reserve was treated as an asset.—*State v Hampton Water Works Co*, 19 A 2d 435, 91 NH 278

#### **Determination held not reversible error**

Determination by commission of accrued depreciation by ascertaining expected life of items based on their past conditions of service, their present physical condition, and possibility of their continued usefulness in public service, and by following age-life method of computing allowances for depreciation of four per cent sinking fund basis was held not reversible error.—*Scranton-Spring Brook Water Service Co v Public Service Commission*, 181 A 77, 119 Pa Super 117

**Evidence was held to support reduction of eighty-three thousand three hundred fifteen dollars from value of company's property for depreciation at two per cent per annum for thirty-two years on basis of fifty-year life thereof by Board of Public Utility Commissioners**—*New Jersey Suburban Water Co v Board of Public Utility Com'rs*, 8 A 2d 350, 123 N J Law 303, certiorari denied *McGregor v Board of Public Utility Com'rs*, 60 S Ct 582, 309 US 663, 84 L Ed 1010

39. US—*City of Knoxville v Knoxville Water Co*, Tenn., 29 S Ct 148, 212 US 1, 53 L Ed 371

45. N Y—*New Rochelle Water Co v Maltbie*, 288 N Y S 82, 158 Misc 752, reversed on other grounds 292 N Y S 650, 249 App Div 378

46. Pa—*Orlosky v Pennsylvania Public Utility Commission*, 89 A 2d 903, 171 Pa Super 409

67 C J p 1247 note 3

**Fair value as basic consideration**  
In determining reasonable and proper rates to be charged by company, basic consideration is fair value of its property useful and being used in service of public, as just compensation consists in fair return on such reasonable value

Conn—*City of New Haven v New Haven Water Co*, 172 A 767, 118 Conn 389

entering into the ascertainment or determination thereof,<sup>47</sup> including the original cost of construction,<sup>48</sup> the cost of additions to the physical plant

Wash—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 610, 184 Wash 451  
67 C J p 1246 note 2 [a]

**Value of property necessarily employed**

RI—Town of Narragansett v Kennelly, 114 A 2d 393, reargument denied 115 A 2d 693

**Present value**

(1) In setting a temporary rate base, the Public Service Commission erred in disregarding all evidence of the present value of the company's property and adopting as a rate base, solely and alone, an estimate of the original cost of certain of the company's property less depreciation—Beaver Val Water Co v Driscoll, D C Pa., 23 F Supp 795—67 C J p 1247 note 3 [a]

(2) In determining value of properties, any increase or decrease in values at time under consideration should be recognized in order to reach fair valuation, not only for moment, but for reasonably near future—Indianapolis Water Co v McCart, C C A Ind., 89 F 2d 522, modified on other grounds 58 S Ct 324, 302 US 419, 82 L Ed 336

**Periods after determination of value**

Public Service Commission's determination of fair value of company's property for three consecutive periods after July 1, 1928, when value was determined, by applying to 1928 valuation the unit prices on labor and materials entering into construction of company's works prevailing during those periods held proper—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A 77, 119 Pa Super 117.

**Value of water rights attaching to property acquired by company must be included in total value of its property for rate-making purposes**

US—Indianapolis Water Co v McCart, D C Ind., 13 F Supp 110, reversed on other grounds, C C A., 89 F 2d 522, modified on other grounds 58 S Ct 324, 302 US 419, 82 L Ed 336

Wash—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 610, 184 Wash 451

**Main and pipe**

(1) A company is entitled only to fair and just return based on fair valuation of its main, with due regard to its excessive size and fair and just value of services rendered by company, even though it was obliged to use such main to serve only one of several customers originally served by it—New Jersey Suburban Water Co v. Board of Public Utility

Com'rs, 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

(2) Commission should not determine quantity of water pipe where engineers of company and of municipalities objecting to company's schedule of rates could not agree on quantity by accepting testimony of engineers to which there was no rebuttal testimony, but should arrive at correct figure by having its own engineering force go over measurements, if measurements were made by scaling maps, or if quantity could not be determined by scaling maps, by some other method—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A 77, 119 Pa Super 117

**Money advanced by consumers for extensions**

A commission has no authority to deduct, from the value of the property used and useful in providing the service, the sums advanced by consumers for extensions, title to which is in the company—New Rochelle Water Co v Maltbie, 289 N Y S 388, 248 App Div 66

47. Pa—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 903, 171 Pa Super 409

67 C J p 1246 note 2, p 1248 note 4

**Value dependent on use and profitability**

(1) The value of company's plant for rate-making purposes depends on use and is measured, or at least significantly indicated, by profitability of present and prospective services which are just and reasonable as between owner of, and those served by, property—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

(2) Commissioners, in fixing base values for rate-making purpose, were justified in finding present value of only that portion of company's property which was used and useful, with respect to value of service rendered—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 4 A 2d 47, 123 N J Law 54, affirmed 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

**Price paid, cost of improvements or additions**

(1) The cost price of the property to the water company, although a relevant fact, is not an exclusive or final test of value of property, since the actual price paid may not have represented the fair value of the property—Town of Jamestown v Kennelly, R I., 100 A 2d 649

(2) Present value of property cannot be determined by addition of cost of improvements, or their value, to previously found value of property, since cost of additions is merely relevant and is not final test, original cost of property plus cost of additions, etc., which aggregate amount of investments, is not proper method of determining present value—Indianapolis Water Co v McCart, D C Ind., 13 F Supp 110, reversed on other grounds, C C A., 89 F 2d 522, modified on other grounds 58 S Ct 324, 302 US 419, 82 L Ed 336

**Inadequacy or overadequacy**

Value of a plant or unit may be adversely affected by either inadequacy or overadequacy to meet present or reasonably probable future use thereof, even though it is rendering efficient service—Alexandria Water Co v City Council of Alexandria, 177 S E 454, 163 Va 512

**Distribution system; payment under contract**

Fact that city which obtained water at wholesale rates from company through distribution system owned by company made additional annual payments to company under contract did not render improper the inclusion in company's rate base of value of the distribution system—City of Pittsburgh v Pennsylvania Public Utility Commission, 101 A 2d 761, 174 Pa Super 363

**Receipt of assets from other company**

Evidence sustained commission's finding that item carried on company's books, as representative of assignment of assets received from another company, legitimately represented property transferred to company in exchange for stock, as against contention that item represented an illusory transfer because of the close relationship between the two companies—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 903, 171 Pa Super 409

48. Pa—Scranton-Spring Brook Water Service Co v Pennsylvania Public Utility Commission, 67 A 2d 735, 165 Pa Super 286

Wash—State ex rel Winlock Water Co v Department of Public Works, 39 P 2d 603, 180 Wash 278

**Determination in prior proceeding**

In fixing rate base in 1952, commission properly based its finding of original cost on determination made in prior rate proceeding in 1949, adding to that figure the cost of subsequent additions—City of Pittsburgh v Pennsylvania Public Utility Com-

as well as improvements and betterments,<sup>49</sup> a world-wide depression,<sup>50</sup> or a general, persistent rise in commodity prices during the period between the date on which the valuations of the company's properties were fixed, for rate-making purposes, by the state Public Service Commission and the date on which a federal court decree was entered sustaining the rates promulgated by the commission.<sup>51</sup> So, the judicial determination of the fact of value is usually of controlling importance on the question whether an order relating to rates constitutes a confiscation of the company's property.<sup>52</sup> Disputed questions as to values are questions of

fact for a public service commission to determine from the evidence, in a proceeding to fix permanent rates.<sup>53</sup> A decree determining the value of the company's property as of the date of the decree, although the evidence before the court related to an earlier date, is erroneous because it is without basis in the evidence.<sup>54</sup>

The ascertainment of the fair value of the property of a water company, as a basis for reasonable rates, is not a matter of formulas,<sup>55</sup> but of reasonable judgment,<sup>56</sup> having its basis in the proper consideration of all relevant facts.<sup>57</sup> So, in valuing

mission, 101 A 2d 761, 174 Pa Super 363

#### Property not being used held improperly considered

RI—Town of Narragansett v Kennelly, 114 A 2d 393, reargument denied 115 A 2d 693

#### Value of stocks

General rule that aggregate market value of stocks and bonds of public utility may not be considered in determining fair value of its property for rate purposes held not to apply to purchase of all stock of water company at practically one time, where transaction was, in substance, a purchase of all the property and franchises of the utility, of which part of purchase price was paid by assumption of mortgage on the physical

properties—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

#### Payment by company of more than fair value

Finding of department of public works that company had paid more than fair value for system held sustained by evidence—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 613, 184 Wash 460

#### Purchase of company; deductible items

In order to use the purchase price paid for company to arrive at its value for rate purposes, there must be deducted, as items which cannot be included in rate base, value of right to be a corporation, franchise to occupy roads and streets, amount by which current assets exceeded current liabilities, plus working capital reasonably necessary, purchase price of lands, and other physical properties not used or useful held deductible as items which could not be included in rate base—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

#### Particular amounts; evidence

(1) Evidence held to sustain determination of commission of value of company's property used and useful in public service—People ex rel Consolidated Water Co of Utica v Maltbie, 9 NE 2d 961, 275 NY 357, appeal dismissed People of State of New York ex rel Consolidated Water Co of Utica, NY v Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 721

(2) Evidence held to show that fair value of company's property used and useful was one million three hundred fifty thousand dollars—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

(3) Evidence held to show that present value, as the rate base, was five hundred sixty thousand dollars—State v Hampton Water Works Co., 18 A 2d 765, 91 NH 278, rehearing denied 19 A 2d 435, 91 NH 278

(4) Evidence held to show that fair

a company's property for rate purposes, a public service commission is not required to adopt the lowest figures testified to by any witness for the company,<sup>58</sup> but should exercise its independent judgment<sup>59</sup>

The judgment of a court fixing a basic valuation of the company's property as of a certain date in the past, after a full consideration of the constitutional elements entering into such determination, and affirmed by the supreme judicial authority of the state, must be accepted and followed by a public service commission in fixing future rates,<sup>60</sup> the commission should start with such judgment, making the necessary deductions and additions to provide for intervening changes<sup>61</sup>

It is not feasible, practicable, or necessary for a public service commission, in determining the value of a company's plant, used and useful in the public service, to itemize and value every piece of pipe, fitting, and tract of land,<sup>62</sup> but a fair measure of

the value arrived at for an item of property can be applied to other items similarly placed and bearing a relation which justifies approximately the same valuation<sup>63</sup>

A commission's finding as to value is not res judicata,<sup>64</sup> and is subject to change<sup>65</sup>

*Issuance of stock; promoters' fees and expenses*  
A commission is not required to include, in base value, any allowance for the issuance of stock<sup>66</sup> or promoters' fees and expenses<sup>67</sup>

*The base price for common labor* should be fixed at the fair average rate for which labor is obtainable,<sup>68</sup> and not at the "distress" prices for which labor is sporadically obtainable during the extreme depth of the depression<sup>69</sup>

*Lands* The value of a water company's property, for rate-making purposes, includes the fair market value of lands for all of its available used and useful purposes,<sup>70</sup> including any peculiar value or

valuation of suburban company's property was one hundred thirty thousand one hundred eighty dollars, as fixed by order of Board of Public Utility Commissioners—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 532, 309 US 663, 84 L Ed 1010

(5) Evidence held not to show that department of public works acted arbitrarily when it fixed thirty-four thousand eight hundred dollars as fair value of property of company serving two hundred fifty-six customers in town—State ex rel Winlock Water Co v Department of Public Works, 39 P 2d 603, 180 Wash 278

(6) Fixing by department of public works of ninety thousand dollars as the fair value of all operating property held arbitrary—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 613, 184 Wash 460

(7) Valuation placed by the department of public works on company's operating property held not sustained by evidence—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 610, 184 Wash 451

(8) Evidence held to sustain determination by commission of value of company's property used and useful in public service, on which determination commission based orders requiring company to cancel its suspended tariff schedule and to put into effect new schedule reducing annual operating revenues one hundred twenty

thousand dollars below those for years 1930 and 1931—People ex rel Consolidated Water Co of Utica v Maltbie, 282 NYS 412, 245 App Div 866, affirmed 9 NE 2d 961, 275 NY 357, appeal dismissed People of State of New York ex rel Consolidated Water Co of Utica, N Y, v Maltbie, 58 S Ct 506

(9) Evidence held to sustain commission's finding as to depreciated original cost of company's property—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 903, 171 Pa Super 409

58 Pa.—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A 77, 119 Pa Super 117

70. Pa.—Scranton-Spring Brook Water Service Co v Public Service Commission, supra

**Farm lands** bought to preserve water supply from contamination and thereafter devoted to woodland should be valued as improved or tillable lands, and not as "raw" lands—Scranton-Spring Brook Water Service Co v Public Service Commission, supra

**Allowance for reforestation**

Company held not entitled to allowance for reforestation of lands bought to preserve water supply, where reforestation was included in

special adaptation that it may have for water supply purposes<sup>71</sup> Other decisions as to lands of water companies as property, for rate-making purposes, are summarized in the note<sup>72</sup>

### (b) Reproduction Cost

**Reproduction cost must be considered in determining**

determination of real estate values—Scranton-Spring Brook Water Service Co v Public Service Commission, *supra*

71. Pa—Scranton-Spring Brook Water Service Co v Public Service Commission, *supra*

#### Combination of separate tracts

Fair market value of lands did not include added value supposed to result from combining separate tracts purchased for water supply purposes into one and operating unit as a whole—Scranton-Spring Brook Water Service Co v Public Service Commission, *supra*

#### 72 Land purchased for future needs

Value of land, providently purchased in good faith by company to establish reservoir for future water needs and reasonably useful for its business, should have been included in valuation of its property by Public Service Commission, even though depression retarded consumption of water and completion of project, time and manner of bringing land into active use being for owners thereof to determine—Indianapolis Water Co v McCart, CCA Ind., 89 F 2d 522, modified on other grounds 58 S Ct 324, 302 US 419, 82 L Ed 336

#### Tract adjacent to water supply

For rate-making purposes, value of entire tract adjacent to canal and bounded on north, west, and south sides by river constituting source of water supply held required to be included in value of company's property, where, if strip of two hundred feet only was used for means of access to canal, owner of balance would be deprived of ingress or egress, except by water or across strip—Indianapolis Water Co v McCart, D C Ind., 13 F Supp 110, reversed on other grounds, CCA, 89 F 2d 522, modified on other grounds 58 S Ct 324, 302 US 419, 82 L Ed 336

#### Computation of engineering and construction costs

In determining value of property of company, inclusion of realty when computing costs of "engineering and supervision" and "interest during construction" held not error, since engineering assistance is needed to determine necessity or advisability of securing lands for purposes of water plant and proper layout of system, and money must be expended in purchase of lands before any works or impounding and distribution systems

the fair value of a company's property, but it is not a conclusive or exclusive test, or the sole criterion, and its weight must be determined in the light of the facts of the particular case

The cost of reproduction is relevant, and must be given consideration, in determining the fair value of a water company's property,<sup>73</sup> but such cost is not a conclusive<sup>74</sup> or exclusive test in determin-

can be started—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A 77, 119 Pa Super 117

73 US—Indianapolis Water Co v McCart, D C Ind., 13 F Supp 110, reversed on other grounds, CCA, 89 F 2d 522, modified on other grounds 58 S Ct 324, 302 US 419, 82 L Ed 336

NH—State v Hampton Water Works Co, 19 A 2d 435, 91 NH 278

NJ—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

Pa—Olosky v Pennsylvania Public Utility Commission, 89 A 2d 903, 171 Pa Super 409

Wash—State ex rel Winlock Water Co v Department of Public Works, 39 P 2d 603, 180 Wash 278 67 C J p 1249 note 4 [a]

#### Production of substantially similar system

Estimate of cost of reproduction of company's plant and property by use of materials and methods which would produce a system substantially, if not exactly, similar furnished a criterion of value which was not unreasonable—People ex rel Consol Water Co of Utica v Maltbie, 9 NE 2d 961, 275 NY 357, appeal dismissed People of State of New York ex rel Consol Water Co of Utica, N Y v Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 724

#### Period for averaging prices

In fixing rate base in 1952, commission properly computed reproduction cost on basis of average prices from 1947 through 1951 rather than basing estimates on ten-year average prices—City of Pittsburgh v Pennsylvania Public Utility Commission, 101 A 2d 761, 174 Pa Super 363

Modern inventions apart from modern conditions could not be applied to reproduction of company's plant, with respect to valuation—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A 77, 119 Pa Super. 117

#### Allowance for overheads

(1) In proceeding to determine legality of proposed rates, weight of evidence on amount of overhead charges to be included in reproduction cost was for Public Utility Com-

mission—City of Pittsburgh v Pennsylvania Public Utility Commission, 101 A 2d 761, 174 Pa Super 363

(2) In considering allowances for general overheads in arriving at reproduction cost, certain administrative, legal, engineering, and supervision costs, and interest on money expended in acquisition and construction until property is usable are as much a part of cost of producing or reproducing a property as is the cost of labor and materials, and in estimating cost of producing or reproducing a property, the sums added to labor and material costs and to present value of land for general overheads should be determined in same general manner, with neither more nor less stringency, as labor and material costs—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

(3) Preliminary and organization expense relating to organization and establishment of company and cost of acquisition of business, and administrative and legal expenses not directly connected with cost of acquisition of land or acquisition or construction of other physical properties, may be amortized over a period of years, but should not be capitalized or carried into a rate base—Alexandria Water Co v City Council of Alexandria, *supra*

(4) Reasonable allowance should be made for cost of overlooked items, but no allowance should be made in respect of present value of land, although some allowance is proper, in some circumstances, for contingencies and omissions in the amount added to present land value for engineering, supervision, interest during construction, and administrative and legal costs incident to acquisition and development for use—Alexandria Water Co v City Council of Alexandria, *supra*

(5) Allowance by commission of thirteen and ninety-one hundredths per cent of stipulated undepreciated reproduction cost of physical properties, for general overheads, held sustained by evidence—Alexandria Water Co v City Council of Alexandria, *supra*

74. NJ—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed. 1010

ing the present fair value of the plant for rate-making purposes,<sup>75</sup> or the sole criterion on the issue of value,<sup>76</sup> and the weight thereof must be determined in the light of the facts of the particular case.<sup>77</sup> It is not necessary that reproduction costs be studied in the light of the fact that the necessity of complete reproduction of the plant as a result of physical deterioration, obsolescence, or major disaster, is improbable.<sup>78</sup>

Estimates of costs of reproduction new less depreciation are at best, to a material extent, conjectural.<sup>79</sup> In making a study of the cost of reproduction new, less depreciation, of a property, the depreciation to be ascertained is depreciation in value whatever the cause to which it may be due,<sup>80</sup> while observable physical deterioration is always an important factor in determining accrued depreciation,<sup>81</sup> due weight should also be given to every other existing factor which has the effect of re-

ducing the present fair value of the property below its reproduction new cost.<sup>82</sup>

The fact that a plant or a unit thereof is not well adapted to, or is inappropriate for, its present use or its future use which is reasonably to be anticipated tends materially to reduce its value below its reproduction new cost.<sup>83</sup>

### c. Change of Rates

A water company's rates may require revision in consequence of changing circumstances and conditions.

A company's water rate which, when fixed, is just and reasonable may become unreasonable, and require revision, in consequence of changing circumstances and conditions, even within a short time.<sup>84</sup> A company is not entitled to an increase of rates, however, because conditions have changed to its detriment, where such change was due to its own voluntary acts.<sup>85</sup>

### Cost not synonymous with fair value

The fair value of the property is not necessarily synonymous with reconstruction cost depreciated, especially where the reconstruction cost is based on abnormally low prices—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, 51 P 2d 610, 184 Wash 451.

### Denial of benefits of returning prosperity

Rates should not be based on reconstruction costs where to do so would be to deny to the company all of the benefits of returning prosperity generally believed to be at hand—State ex rel Oregon-Washington Water Service Co v Department of Public Works of Washington, supra.

75. NJ—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 NJ Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010.

76. NH—State v Hampton Water Works Co, 19 A 2d 135, 91 NH 278.

77. NJ—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 NJ Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010.

### Preponderant weight over book value

Commission did not err in giving preponderant weight to cost of reproduction less depreciation over "historical value," or "book value," which was cost of property to company which acquired assets of ex-

isting corporation in exchange for capital stocks and bonds—People ex rel Consol Water Co of Utica v Maltbie, 9 NE 2d 961, 275 NY 357, appeal dismissed People of State of New York ex rel Consol Water Co of Utica, N Y v Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 724.

78. Pa—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 903, 171 Pa Super 409.

79. Va—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512.

Evidence held to sustain commission's finding as to depreciated reproduction cost—Orlosky v Pennsylvania Public Utility Commission, 89 A 2d 403, 171 Pa Super 409.

80. Va—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512.

Depreciation of company's property generally see supra subdivision b (1) of this section.

### Finding held too large

State corporation commission's finding that accrued depreciation amounted to three hundred sixty-five thousand seven hundred forty-six dollars, or a composite depreciation of twenty-four and seven tenths per cent of reproduction cost new, including overheads, held approximately fifty thousand six hundred dollars too large—Alexandria Water Co v City Council of Alexandria, supra.

81. Va—Alexandria Water Co v City Council of Alexandria, supra.

82. Va—Alexandria Water Co v City Council of Alexandria, supra.

### Particular factors

In this connection, depreciation is the loss, not restored by current maintenance, which is due to all the

factors causing the ultimate retirement of the property, which factors embrace wear and tear, decay, inadequacy, and obsolescence—Alexandria Water Co v City Council of Alexandria, supra.

### Obsolescence

A unit may not be depreciated on ground of obsolescence on mere conjecture that improvements may render unit obsolete, but obsolescence must actually exist, although a unit still rendering efficient service may be obsolete or outmoded in whole or in part to a degree that affects the value of the property—Alexandria Water Co v City Council of Alexandria, supra.

83. Va—Alexandria Water Co v City Council of Alexandria, supra.

Inappropriate engineering layout is one of the forms of inappropriateness—Alexandria Water Co v City Council of Alexandria, supra.

84. Ill—Danville v Danville Water Co, 54 NE 224, 180 Ill 235.

Appeal from commission's order involving change of rate see infra § 296.

Increase or reduction as affecting uniformity or discrimination see infra § 297 a.

Burden of establishing case for increase see infra subdivision d of this section.

Reasonable expenses for additions or improvements to system as a whole, which are required in order to provide adequate service to all consumers of the same class, must be considered—Petition of Fryeburg Water Co, 115 A 2d 420, 99 NH 487.

85. NY—Town of Mamaroneck v New York Interurban Water Co, 212 NY S 639, 126 Misc 382.

67 C J p 1253 note 13.

A reduction in the rate of interest paid for money borrowed by a water company should be reflected in lower rates.<sup>86</sup>

On the question of the confiscation of a company's property by an order of the public service commission directing it to reduce its rates, the company is entitled to an independent judicial determination of the law and the facts,<sup>87</sup> including the valuations involved.<sup>88</sup> Certiorari to review the order does not afford a remedy in the scope indicated,<sup>89</sup> and a plenary action in equity will lie,<sup>90</sup> in which the judicial function does not go beyond the decision of the constitutional question of confiscation.<sup>91</sup>

A statute authorizing a public utility administrator to make investigations as to the propriety of a proposed change in rates has been held not to require that a public utility engineer or an accountant be called in.<sup>92</sup>

*Charter restriction on amount of property* Complainants seeking to compel a reduction in the rates charged by a water company may not make use of the restriction, contained in the company's charter, on the amount of property which the company may hold.<sup>93</sup>

#### d. Presumptions and Burden of Proof

A rate established for a water company by public authority is presumed reasonable. Authorities differ as to whether rates fixed by a company are to be presumed reasonable.

A rate established by public authority for water service furnished by a water company is presumed

to be reasonable,<sup>94</sup> although the presumption is rebuttable by evidence,<sup>95</sup> and the burden of proving its unreasonableness is on the one asserting it.<sup>96</sup>

There is authority for the view that rates fixed by a water company are to be presumed to be reasonable,<sup>97</sup> but other authority is opposed to this view,<sup>98</sup> holding that the burden of establishing the reasonableness of the rates is on the company,<sup>99</sup> except as acquiescence in such rates by the consumers may have created an estoppel.<sup>1</sup>

It has been said that rates fixed by voluntary contract between a water company and a municipality are to be presumed to be just and reasonable until otherwise determined.<sup>2</sup>

*A company petitioning for an increase in the rate* has the burden of establishing its case.<sup>3</sup>

#### § 294. — Establishment, Filing, and Promulgation of Rate Schedules

Where the mode of filing or promulgating water rates is prescribed by law, there can be no legal rate in effect except one so filed or promulgated. A schedule promulgated as contemplated by law cannot be departed from or varied until set aside or changed in the manner provided by law.

Where the mode of filing, establishing, or promulgating water rates is prescribed by law, there can be no legal rate in effect for a water company except one filed, established, or promulgated in such mode,<sup>4</sup> and the last rate published is the legal, suable rate,<sup>5</sup> and controls.<sup>6</sup> A rate schedule established and promulgated in the manner contemplated

#### Allowance of time to file schedules

Municipalities objecting to Public Service Commission's order fixing rates of water company were not hurt by allowance in order to company of sixty days from date of final adjudication to file tariff schedules, where schedules became effective from respective dates fixed in order—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A. 77, 119 Pa. Super 117.

5. Pa—Brown v Pennsylvania Public Utility Commission, 31 A.2d 435, 152 Pa. Super 58.

6. Pa—Brown v Pennsylvania Public Utility Commission, supra.

by law becomes a rate established by law, which cannot be departed from or varied until set aside or changed in such manner as the law may provide.<sup>7</sup>

Where a municipal corporation or public water district takes over the plant and system of a water company, and adopts the rates then in force, such rates are no longer those of the company, but such adoption amounts to the establishment of rates by the municipality or district,<sup>8</sup> so as to come within a statute requiring schedules of rates on establishment or promulgation to be filed with the state public utility commission<sup>9</sup>

*Change of contract rates* Where water rates have been fixed by contract between a municipality and a water company, as discussed supra § 287 a, the company cannot establish new rates, superseding those fixed by contract, merely by filing a schedule with the public utility commission in the manner prescribed for the establishment of rates in the first instance, but must institute proper proceedings to have it determined that the contract rates are unreasonable and inadequate, and have them set aside<sup>10</sup>

# § 295. — Proceedings for Relief against Unreasonable Rates

- a. By water company
- b By, or on behalf of, consumer

## a. By Water Company

A water company may maintain an action or proceeding for relief against unreasonable or inadequate rates prescribed by public authority; but rates so established may be enjoined or set aside only where so palpably inadequate as to amount to confiscation.

A proper action or proceeding may be maintained by a water company,<sup>11</sup> or, under proper circumstances, by its receiver,<sup>12</sup> or by its mortgagee, or the trustee of its mortgage bonds,<sup>13</sup> for relief against unreasonable or inadequate rates prescribed by public authority While the court in such a proceeding is without authority to fix or establish rates,<sup>14</sup> it may interfere to enjoin or set aside rates which are confiscatory,<sup>15</sup> and may determine what rate would be reasonable for the sake of deciding whether or not a particular rate is unreasonable.<sup>16</sup> Rates established by public authority will not be interfered with by the courts, however, merely because they are lower than the court itself would fix if it had authority to do so,<sup>17</sup> but may be enjoined or set aside

7. Pa—Beaver Valley Water Co v Public Service Commission, 114 A 373, 271 Pa 358—Suburban Water Co v Borough of Oakmont, 110 A 778, 268 Pa 243

## Failure to apply or contract for service

Consumer's failure to make written application for water service, as required by company regulation, or to enter into written contract for service, did not preclude company from enforcing its published schedules for service furnished—Brown v Pennsylvania Public Utility Commission, 31 A 2d 435, 152 Pa Super 58

- Pa—Beaver Val Water Co v Driscoll, Com Pl, 51 Dauph Co 105  
67 C J p 1254 note 33

## Effect of changed circumstances

An action for injunction has been held to lie in favor of a water company to determine whether the rate fixed by a commission was originally confiscatory and whether the rate

was confiscatory because of changed circumstances after it was fixed by the commission, the failure of company to apply for an increase of rates prior to bringing of equitable action to determine whether rates fixed by commission were confiscatory because of changed conditions did not defeat the action, where the commission denied an application for rehearing made by the company, which contended that the rate was confiscatory when fixed, since the denial of the application constituted a final legislative act—Consolidated Water Co of Utica v Maltbie, 3 N Y S 2d 799, 167 Misc 269

## Effect of supreme court decision

An action for injunction will lie where United States supreme court, on company's appeal from certiorari proceedings to review order of the commission, declined to consider merits of contention that company did not have benefit of exercise of independent judgment of court as to law and facts on issue of confiscation, because company had not sought to invoke equitable jurisdiction of court—Consolidated Water Co of Utica v Maltbie, supra.

16. N.Y—Town of Mamaroneck v New York Interurban Water Co, 212 N Y S 639, 126 Misc 382

17. US—Spring Valley Water Co v City and County of San Francisco, D C Cal, 252 F 979, appeal dismissed 253 F 991, 165 C C A 672.

only where they are so palpably unreasonable and inadequate as to amount to confiscation,<sup>18</sup> particularly where they have not been in force for a sufficient length of time to demonstrate their actual effect<sup>19</sup>

It is incumbent on a water company assailing rates as inadequate and confiscatory to make full disclosure of the value of its property and of its earnings and expenses,<sup>20</sup> and, where the rates have been in effect a sufficient length of time to show the actual results, it cannot prevail on mere opinions of experts as to probable results<sup>21</sup>. A company is not precluded or estopped to seek relief against rates, on the ground that they are unreasonable, by its failure to render adequate service, particularly where the inadequacy of the service is due to inadequate rates,<sup>22</sup> or by the fact that it did not produce any evidence as to the value of its property at the hearing at which the rates complained of were established,<sup>23</sup> or that the rates were established subject to permission given the company to apply for their modification after a specified period of trial,<sup>24</sup> and the bringing of an action by a water company against a municipal corporation to recover for water furnished it, at rates established by a municipal ordinance, does not estop the company to maintain a suit to enjoin the enforcement of the ordinance rates as inadequate or confiscatory<sup>25</sup>

*When suit may be brought* Where a rate schedule established by public authority is alleged to be confiscatory, a water company need not wait to apply for relief until the rates thereby prescribed have become effective, but may bring suit at once to enjoin their enforcement<sup>26</sup>

*Contract rates.* Rates fixed by contract between

a municipal corporation and a water company cannot be enjoined or set aside at the suit of the latter, on the ground that they are inadequate, or will result in its bankruptcy, any more than contracts between private persons can be interrupted on such ground,<sup>27</sup> except where the term of the contract is indefinite, or unreasonably long, in which case the company is entitled to relief against the rates thereby fixed where they have become unreasonable<sup>28</sup>

*Preliminary, temporary, or interlocutory injunction* Where a public service commission, in studying a temporary rate base for a water company, disregards all evidence of the present value of the company's property, and does not accord it due process of law, a preliminary or interlocutory injunction will be granted<sup>29</sup>. A temporary injunction restraining the enforcement of the rate fixed by the commission may be granted on the company's furnishing a sufficient undertaking<sup>30</sup> and on condition that the injunction will be vacated if, for any reason attributed to the company, a trial on the issues is not commenced by a date specified by the court<sup>31</sup>

*Amendment of commission's answer; evidence of value.* In a suit to enjoin the enforcement of a rate schedule made by a public service commission, it has been held not error to permit the commission, after the introduction of evidence, to amend its answer and aver that the value of the company's property did not exceed a certain sum, instead of substantially that amount, as alleged in the original answer<sup>32</sup>. In such a suit, defendants may introduce evidence of value different from that found by the commission on the rate hearing,<sup>33</sup> since the

commission's finding as to value is not res judicata<sup>34</sup>

**Costs** The successful party in proceedings for relief against unreasonable rates is ordinarily entitled to costs<sup>35</sup>

### b. By, or on Behalf of, Consumer

A patron of a water company may maintain a proper proceeding for relief against unreasonable rates. The court may annul or set aside such rates, but will do so only in a clear case.

A patron of a water company is entitled to maintain a proper action or proceeding, in a court of competent jurisdiction,<sup>36</sup> for relief against unreasonable water rates,<sup>37</sup> and is not estopped to question or attack such rates by ordering or using water from the system, at least where it has a monopoly in the locality,<sup>38</sup> nor is he precluded from bringing suit to enjoin the enforcement of unreasonable rates by the fact that he might wait and defend against an action for water charges, the latter not being an adequate and convenient remedy<sup>39</sup>

The court, in such an action or proceeding, may determine the reasonableness or unreasonableness of the rate complained of,<sup>40</sup> and, if it finds the rate to be unreasonable and excessive, may annul it or set it aside,<sup>41</sup> but it is unauthorized to act as

a supervisory or reviewing body and readjust or correct the rate,<sup>42</sup> and it has no jurisdiction to fix or establish a rate for the future, or to compel the furnishing of water at a rate determined by it to be proper,<sup>43</sup> except, it has been held, where rates have not been regulated by public authority and no provision has been made by law for such regulation.<sup>44</sup> On the other hand, the court may not, in setting aside as excessive the rate against which relief was sought by a consumer, restore or permit the restoration of a former rate schedule which, according to undisputed evidence, is inadequate and confiscatory.<sup>45</sup> If the court finds that the rate complained of is not unlawful, its duty and authority in the matter cease.<sup>46</sup>

The court will interfere with, or set aside, a lawfully established rate, as excessive, only in a clear case of unreasonableness, amounting to a violation of the consumer's legal rights,<sup>47</sup> but where it is demonstrated by a fair preponderance of the credible evidence that rates are unfair and excessive, the consumer is entitled to relief.<sup>48</sup>

**Parties** Where the statutory intention is that the Public Service Commission be made a necessary party to an action attacking its rate order, and, in such an action, the commission is not made a party,

### Holding held proper

Holding of trial court that rates exacted by the municipal authority were necessary for completion of water supply project under construction and that they were reasonable was proper—*Rankin v Chester Municipal Authority*, 68 A.2d 458, 165 Pa.Super. 438.

### Deduction of value of property used outside city

Court, in proceeding to enjoin collection of rates by municipally-owned plant, has power to ascertain value of property used and useful in connection with service outside city and deduct such value from value of entire property, in determining rate base for charges within city—*Shirk v. City of Lancaster*, 169 A. 557, 313 Pa. 158, 90 A.L.R. 688.

### Company owned by city

Water company, capital stock of

which was owned solely by city, had authority to collect water rents in excess of sum sufficient to pay operating expenses, maintenance, and debts of company, and courts could not interfere as long as the rates were not exorbitant or unreasonable—*Dolan v Louisville Water Co*, 174 S.W.2d 425, 295 Ky. 291.

41. *U.S.—Osborne v San Diego Land & Town Co*, Cal., 20 S.Ct. 860, 178 U.S. 22, 44 L.Ed. 961.

45. *Ark.—Van Buren Waterworks v City of Van Buren*, 237 S.W. 696, 152 Ark. 83.

46. *Iowa.—Knotts v Nollen*, 218 N.W. 563, 206 Iowa 261.

47. *Iowa.—Knotts v Nollen*, *supra* W.Va.—*City of Huntington v Public Service Commission*, 110 S.E. 192, 89 W.Va. 703.

Right of consumer to be served at reasonable rates see *supra* § 293 a.

48. *N.Y.—Town of Mamaroneck v. New York Interurban Water Co*, 212 N.Y.S. 639, 126 Misc. 382.

the court has no jurisdiction to enjoin the operation of increased rates authorized by the commission's order,<sup>49</sup> even though the property owner did not seek to enjoin the operation of the rate structure established by the order<sup>50</sup>

**Pleading** A bill by a consumer to enjoin the enforcement of an unreasonable rate schedule for water service must allege that such rates are unreasonable<sup>51</sup> A petition alleging that the water rates charged by a company of which the city was the sole stockholder were exorbitant and unreasonable, but not alleging the rates charged or showing the value of the property used and useful in the public service has been held not to state a cause of action for an injunction<sup>52</sup>

**Admissibility of evidence** In an action to enjoin municipal commissioners from imposing charges for water service for private fire protection, evidence that plaintiffs are paying twenty-five per cent of the total of the metered water charges while their property is only twenty per cent of the assessed valuation of the city is competent<sup>53</sup>

**Burden of proof; weight of evidence** One seeking to restrain municipal authorities from collecting water rates on the ground that the rates are unreasonable and excessive has the burden of proof,<sup>54</sup> or, in such action, the burden is on plaintiff to show that the charges are unreasonable and discriminatory<sup>55</sup> In such action, evidence has been held not to require a finding, as a matter of law, that the rates were unreasonable or discriminatory,<sup>56</sup> and a taxpayer has been held not to have sustained the burden of proof as to the value of the water system<sup>57</sup> Particular evidence has been held to sustain a commission's finding that a water company's new tariff eliminating flat service rates and substituting meter rates was reasonable, equitable, and provi-

dent, and would conserve the company's water supply and its distribution capacity, as well as provide for more equitable distribution of service charges<sup>58</sup>

A municipality seeking an injunction restraining another municipality from collecting increased water rates from domestic consumers in the former municipality has the burden of proving that an ordinance relied on is a contract, and not an easement on condition,<sup>59</sup> that it was not terminated by any breach,<sup>60</sup> and that it was perpetual in term.<sup>61</sup>

**Right to jury trial.** The question whether a particular rate is excessive is one of fact,<sup>62</sup> on which, it has been held, either party may demand a jury trial<sup>63</sup>

**Matters considered.** Where a new schedule of water rates, proposed or promulgated by the company and attacked by a consumer, is much higher than the rates theretofore in force, that fact, while not conclusive on the question of reasonableness vel non,<sup>64</sup> suggests the possibility of unreasonableness and calls for careful consideration of the grounds on which the advance is made<sup>65</sup> In a suit for relief against rates for domestic water service, the rates charged for industrial service are not relevant to the inquiry<sup>66</sup>

**Proceeding by municipality in behalf of consumers** A municipal corporation, where it is not a patron of a water company, has no such interest as to entitle it to maintain an action to enjoin or set aside, as unreasonable and excessive, the rates charged by such company to inhabitants of the municipality<sup>67</sup>

**Injunction pendente lite** A temporary injunction will not ordinarily be granted to restrain a water company from putting into effect or collecting rates, alleged to be excessive, pending a determination of

the reasonableness or unreasonableness of such rates,<sup>68</sup> at least where no facts are alleged which, prima facie, justify a conclusion that such rates will produce unreasonable compensation for the service rendered,<sup>69</sup> and where there is no showing that the company is not financially responsible and could not be made to refund the excess if such rates should finally be determined to be unreasonable.<sup>70</sup> It is not an abuse of discretion to deny an injunction pendente lite to restrain a municipality from collecting increased water rates, pending a determination of the reasonableness of such increase, in view of the relative inconveniences to the parties which would result from granting or denying it.<sup>71</sup>

#### Application of general powers under statute

Whether company acted illegally in collecting charges above those in effect before Nov 1, 1939, when the commission authorized the company to charge increased rates, must be determined by the application to the situation of the general powers of the commission over rates vested in it by 1935 statute—City of New Haven v New Haven Water Co, 45 A 2d 831, 132 Conn 496

#### Commission's failure to exercise power

Failure of commission to exercise power over rates charged and services rendered by city-owned water company in furnishing water to consumers residing outside of city limits for sixteen years since passage of act defining commission's powers did not amount to acknowledgment, by contemporaneous construction, that com-

pany had right to fix rates outside city—Louisville Water Co v Preston St Road Water Dist No 1, KY, 256 S W 2d 26

**Arbitration not required by contract**  
Under contract between city and water company as to rates, water company held under no obligation to resort to arbitration instead of applying to commission for increase of rates—City of New Haven v New Haven Water Co, 172 A. 767, 118 Conn 389

#### Statutory provision not excluding jurisdiction

(1) Provision of public service law that subdivision relating to rate-fixing should not apply to state, municipal, or federal contracts held not general exclusion of jurisdiction by commission over rate charged by private waterworks corporation to municipal corporation, in absence of existence of contract between them fixing rate—New York City v Maltbie, 287 N Y S 868, 159 Misc 276, affirmed City of New York v Maltbie, 289 N Y S 562, 248 App Div 39, affirmed 8 NE 2d 289, 274 N Y. 90

(2) Contracts between municipalities and water companies as to rates generally see supra § 287 a.

#### Repeal and invalidity of charter provision

Statute vesting commission with jurisdiction over private waterworks corporation, including determination of fair rates, held not to repeal provision of charter investing commissioner of water supply with jurisdiction over rates charged by private companies supplying city, but such provision of charter held invalid delegation of power, notwithstanding provision for judicial review of rates fixed, and hence provisions of statute conferring power on commission to determine water rates applied to hydrant service furnished by private water company to city.—New York

## § 296. — Regulation by Board or Commission

- a. In general
- b. Appeal and review

### a. In General

General principles relating to public utility commissions apply to commissions regulating rates of water companies. A commission's order regulating rates is not res judicata.

The general principles relating to public utility commissions, as discussed in Public Utilities §§ 31-68, are applicable in the case of boards and commissions regulating rates for water service rendered by water companies, as to such matters as the creation and membership of the commission,<sup>72</sup> its power to regulate water rates,<sup>73</sup> and the exercise of such power by the commission.<sup>74</sup>

City v Maltbie, 287 N Y S 868, 159 Misc 276, affirmed City of New York v Maltbie, 289 N Y S 562, 248 App Div 39, affirmed 8 NE 2d 289, 274 N Y 90

#### Private water line

Where owners of a private water line outside of city charged a fee for each neighbor who tapped onto the line, and required signing of a contract whereby owners were not to be held responsible for loss of service, and each person agreed to share expense of maintenance, but the city installed the meters and charged all water users the regular rate, there was not a distribution of water for compensation and the line was not a public utility within the regulatory jurisdiction of the commission—Austin v City of Louisa, Ky, 264 S. W 2d 662

74. Wash—Raymond Lumber Co v Raymond Light & Water Co, 159 P 133, 92 Wash 330  
67 C J p 1256 note 80

#### Board as fact-finding body

(1) The board of public utility commissioners is a fact-finding body, and on petition of company for an increase in rate, its function is to weigh evidence, ascertain facts, and fix, on those facts, a rate which will bring a just return to company for service rendered—New Jersey Suburban Water Co v. Board of Public Utility Com'rs, 4 A 2d 47, 122 N J Law 54, affirmed 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

(2) Change of rates generally see supra § 293 c

#### Finding of reasonableness of service charge

Commission's finding that company's rule as to service charge for each consumer, pursuant to which manufacturer constructed distribution system for industrial housing group, was

In a proceeding involving a water company's rates, it is the function of a public service commission to determine whether the company is receiving a fair return on its property devoted to public use.<sup>75</sup> In such a case, the jurisdiction of a public utilities commission is to determine judicially the fair value of the utility property devoted to public service, figure a just return thereon, and establish a rate which shall be reasonable, to apply with substantial equality to all receiving a similar service.<sup>76</sup> The commission, in fixing the rates to be charged by a water company, is authorized to act irrespective of the provisions and restrictions of a contract between the company and the municipality,<sup>77</sup> and is to be guided and controlled by the rules and principles governing its general functions in rate making rather than by the provisions of the contract.<sup>78</sup>

A commission's order fixing rates is not res judicata,<sup>79</sup> but as long as it stands, a municipality affected thereby is bound by its terms.<sup>80</sup> A commission's order fixing temporary rates is not a final legislative act such as could operate to confiscate the company's property in any permanent sense, where a statute requires the commission, on final determination of the rates, to permit the company to recoup its loss through a temporary increase should the final rates prove to be higher than the temporary ones.<sup>81</sup>

A municipality which feels itself aggrieved by the order of a public utilities commission fixing rates has the right to apply to the commission for a modification thereof.<sup>82</sup> The staying of such orders may also be considered.<sup>83</sup>

reasonable and in conformity with the law, held binding notwithstanding reasonableness of rates was not involved—*Viscose Co v Public Service Commission*, 187 A. 454, 123 Pa Super 223

#### Reconsideration by commission; temporary rates

Where commission prescribed temporary rates, which were sustained, without appeal from federal court to which company resorted, commission could not be required to reconsider matters adjudicated in the order, because of evidence submitted by company bearing on, and relevant to, question of rates finally to be determined—*Beaver Val Water Co v Pennsylvania Public Utility Commission*, 14 A 2d 205, 104 Pa Super 297

#### Duty to hold hearing; rehearing

(1) A letter from corporation counsel asking for a hearing and an order suspending the effective date of new rate schedule filed by company was not such a complaint as the commission was bound to heed, and imposed no duty on it to hold a hearing, but where the commission accepted the assurance given by the company of its willingness to make refunds, the commission could not properly have then suspended the effective date of the schedule—*City of New Haven v New Haven Water Co*, 45 A 2d 831, 132 Conn. 496

(2) Denial by commission of company's application for rehearing held not illegal or abuse of discretion—*Western N Y Water Co v Public Service Commission*, 124 N Y S 2d 612

(3) Commission, in water rate case, acted properly in undertaking investigation of proposed rates filed by company and in holding hearings—*Gulford-Chester Water Co v Loughlin*, 113 A 2d 608, 19 Conn Sup 355.

#### Suspension of new schedule or increase

(1) Until the commission decided to suspend the effectiveness of new rate schedule filed by company because of lack of assurance by the company of its ability and willingness to make a refund, there was no occasion for any "order" in which the commission found no cause to suspend the effective date of the schedule, and such order was a nullity, order purporting to suspend the effective date of new rate schedule filed by company was fatally defective where it failed to give the company the opportunity of filing assurance of its ability and willingness to refund any excess charges and the commission failed to find first that the rates fixed in the new schedule were unreasonably discriminatory and more than just and reasonable—*City of New Haven v New Haven Water Co*, 45 A 2d 831, 132 Conn. 496

(2) Where commission had twice suspended operation of rate increase, whereupon company stipulated that existing rates would continue until fixed otherwise by commission, denial of company's recovery of increased rates could not be attacked on ground that commission could not lawfully suspend increased rates for more than two three-month periods; the statutory limitation on commission's power of suspension of operation of rates increase was intended to furnish a reason for prompt action by commission within the limited period—*New Jersey Suburban Water Co v Town of Harrison*, 3 A 2d 623, 122 N. J Law 189

75. N Y—*New Rochelle Water Co v Maltbie*, 288 N Y S 82, 158 Misc 752, reversed on other grounds 292 N Y S 650, 249 App Div 378

Regulation by commission of rates of municipal water system see supra § 290.

76. Me—*City of Rockland v. Camden & Rockland Water Co*, 181 A. 818, 134 Me 95

Uniformity and discrimination see infra § 297

Provisions of contract between city and water company held to relate to rates to be charged for water services, within jurisdiction of commission—*City of New Haven v New Haven Water Co*, 172 A 767, 118 Conn 389

77. Conn—*City of New Haven v. New Haven Water Co*, supra. Contracts between water companies and municipalities as to rates generally see supra § 287 a

78. Conn—*City of New Haven v. New Haven Water Co*, supra

79. Pa—*Beaver Val Water Co v. Pennsylvania Public Utility Commission*, 14 A 2d 205, 140 Pa Super 297

80. Me—*Milo Water Co v Inhabitants of Town of Milo*, 7 A 2d 895, 136 Me 228

81. US—*Beaver Val Water Co v Driscoll*, D C Pa., 28 F Supp 722

82. Me—*Milo Water Co v Inhabitants of Town of Milo*, 7 A 2d 895, 136 Me 228

#### 83. Substantial questions and irreparable damage

Special term held bound to stay commission's order on company's proof of substantial questions for consideration of appellate division on certiorari, together with proof of irreparable damage, and special term was not first required, nor did it have jurisdiction, to determine that order was unreasonable, arbitrary, or capricious—*New Rochelle Water Co v. Maltbie*, 292 N Y S 650, 249 App Div. 378.

#### Determination of merits; prima facie case

Application for stay of commis-

*Setting aside findings or order.* It has been held, under statute, that where no constitutional rights were violated, the court cannot set aside, or vacate, a water rate order of a public utility commission in whole or part, except for error of law or lack of substantial evidence to support the commission's findings.<sup>84</sup> Where a public utilities commission made findings with respect to water rates, the burden rests on complainants to show that the findings should be set aside.<sup>85</sup> Likewise, where a public utilities administrator fixes rates on the basis of substantial evidence before him, a town objecting to his rates has the duty to shoulder the burden of showing that his order should be set aside.<sup>86</sup>

*Costs of rate proceeding.* An order of a public service commission taxing the costs of a rate pro-

ceeding against a water company has been held valid<sup>87</sup> and not invalidated by the judgment of a federal court enjoining the enforcement of the rates established by the commission's order.<sup>88</sup>

### b. Appeal and Review

General principles relating to public utility commissions apply to appeals from, and the review of, orders of commissions regulating rates of water companies. The reviewing court can ordinarily consider only whether the commission acted reasonably and in accordance with the available evidence.

General principles relating to public utility commissions, as discussed in Public Utilities §§ 64, 65, apply to appeals from, and the review of, the orders of commissions with respect to the rates of water companies,<sup>89</sup> including the right to appeal as a party affected.<sup>90</sup> Statutory provisions as to the time for

sion's order pending review thereof by appellate division, does not involve determination of merits by special term, but calls for exercise of sound judicial discretion, which can be exercised only on finding that petitioner has made prima facie case warranting interlocutory relief—*New Rochelle Water Co v Maltbie*, supra.

#### **Failure to file new rates not fatal to application**

Company's failure to file new rates for one of two divisions of municipalities served thereby to produce necessary revenue for fair return on its property held not fatal to its application for stay of commission's order fixing lower rates for other division without changing rates applicable to former division, where commission found, after considering properties and earnings of both divisions, that rates charged in division not affected by order were just and reasonable—*New Rochelle Water Co v Maltbie*, supra.

#### **Stay by special term pending review**

(1) Special term cannot review commission's order, requiring company to put reduced rates in effect, but will enjoin enforcement thereof, by stay or suspension of order, pending review before appellate division on condition that company file bond to repay excessive amounts charged, if order is affirmed—*Consolidated Water Co of Utica v Maltbie*, 266 N Y S 597, 148 Misc 903.

(2) Change of rates generally see supra § 293 c.

84. Pa—*City of Pittsburgh v Pennsylvania Public Utility Commission*, 101 A.2d 761, 174 Pa Super 363.

85. Conn—*Gulford-Chester Water Co v Loughlin*, 113 A.2d 608, 19 Conn Sup 355.

R.I.—*Town of Middletown v Newport Water Corporation*, 167 A. 114, 53 R.I. 435.

86. R.I.—*Town of Jamestown v Kennelly*, 100 A.2d 649.

The order is entitled to great weight and will be set aside only when clearly unreasonable, illegal, or improper, and prejudicial to party appealing or in excess of the administrator's authority—*Town of Jamestown v Kennelly*, supra.

87. Ind—*State ex rel Thompson v City of Greencastle*, 40 NE 2d 388, 111 Ind App 640.

88. Ind—*State ex rel Thompson v City of Greencastle*, supra.

89. N.J.—*Plainfield-Union Water Co v Board of Public Utility Com'rs of New Jersey*, 140 A. 785, 6 N.J. Misc 267.

67 C.J. p. 1257 note 81.

#### **Laws determining scope of review**

Laws relating to proceedings before the Public Service Commission, rather than the Administrative Procedure Act, determine scope of review by court in passing on validity of order of commission approving a new schedule of rates and charges to be made by privately owned utility supplying water and fire hydrant service—*State ex rel City of St. Louis v Public Service Commission*, 245 S.W. 2d 851, 362 Mo. 977.

#### **Full revision by court; no recommendation**

On company's appeal from rate order of commission, supreme court would fully exercise its revisory powers and would not recommit to commission for further proceedings in nature of general new trial, where company lacked confidence in commission's fairness and commission was aware of that fact—*State v Hampton Water Works Co*, 18 A.2d 765, 91 N.H. 278, rehearing denied 19 A.2d 435, 91 N.H. 278.

#### **Exclusion of evidence**

In reviewing rulings of the Public Utilities Commission, court was not required to decide whether exclusion

of evidence of purchase price of water plant bought from receiver several years previously was technically correct, since substantial prejudice must be shown—*Damariscotta-Newcastle Water Co v Damariscotta-Newcastle Water Co*, 186 A. 799, 134 Me. 349.

#### **Order not appealable because not final**

Order of commission refusing to dismiss appeal of water works company from a rate ordinance enacted by city was not a final order from which city could appeal, since it did not finally dispose of appeal pending before commission, and did not affect a substantial right—*City of Ashtabula v Public Utilities Commission*, 39 NE 2d 144, 139 Ohio St. 213.

#### **Reinstatement of former maximum charge**

Where new schedule of water rates filed by water company had been made effective by commission, court, under statute, could not reinstate a former maximum charge made by company—*Eastport Water Co v Raye*, 4 A.2d 841, 136 Me. 175.

#### **90. City as party affected**

(1) A city is a "party affected" by an application for an increase of rates within the city, and such interest does not terminate on the entry of an order adverse to city's residents but favorable to the city itself, particularly where the resident consumers are not parties before the commission, and hence city may appeal from such order; city recognized by commission and company seeking permission to increase rates, as having sufficient interest to be made a party to the proceeding was a "party affected" by the order awarding an increase in rates of consumers, within provision of Public Utilities Act authorizing any one affected by a rule, regulation, or order to appeal to circuit court or to superior court of county in which subject matter of the hearing is situated—*Inter-State Wa-*

appeal or review must be complied with<sup>91</sup>

Certiorari is available for the review of a rate order of a public service commission<sup>92</sup>

In reviewing the determination of a commission in a water rate case, the court can ordinarily consider only whether the commission acted reasonably and in accordance with the evidence available at the time,<sup>93</sup> and may not substitute its judgment or discretion for that of the commission when acting within its administrative power,<sup>94</sup> so, the court

may not substitute its judgment for that of the commission as to what is the reasonable value of the company's property<sup>95</sup> or whether the rate of return on the company's property, as fixed by the commission, is sufficient, unless the court is to determine that such return is confiscatory.<sup>96</sup> As long as the commission acts in accordance with the due administration of law by affording a hearing, taking evidence, and giving its judgment or award, the court cannot, or must not, interfere with its conclusions<sup>97</sup> However, the reviewing court has been

ter Co v City of Danville, 39 N E 2d 356, 379 Ill 41

(2) Change of rates generally see supra § 293 c

91. Pa—Beaver Val Water Co v Pennsylvania Public Utility Commission, 14 A 2d 205, 140 Pa Super 297

#### Final order

An order of commission, directing company to make certain journal entries found necessary to adjust its accounts, books, and records, was final order, in absence of any move by company with respect to provisions of order until after commencement of certification proceeding over three years after entry of order, so that company's proceeding to review order was barred by statute of limitations—Western N Y Water Co v Public Service Commission, 124 N Y S 2d 612.

92. N Y—City of New York v Maltbie, 289 N Y S 558, 248 App Div 36, affirmed 8 N E 2d 605, 274 N Y 464—Consolidated Water Co of Utica v Maltbie, 3 N Y S 2d 799, 167 Misc 269

93. N Y—People ex rel Consol Water Co. of Utica v Maltbie, 9 N E 2d 961, 275 N Y 357, appeal dismissed People of State of New York ex rel Consol Water Co of Utica, N Y v. Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 724

R I—Town of Narragansett v Kennelly, 114 A 2d 393, reargument denied 115 A 2d 693

**Question presented on appeal from commission's finding** was whether commission had acted illegally, or had exceeded or abused its power, or had acted arbitrarily or without notice and a reasonable opportunity to be heard—Guilford-Chester Water Co v Loughlin, 113 A 2d 608, 19 Conn Sup 355

#### Evidence to support findings

In certiorari proceedings to review an order of the commission establishing a rate, the judicial inquiry generally goes no further than to ascertain whether there is evidence to support the findings of the commission—Consolidated Water Co. of

Utica v Maltbie, 3 N Y S 2d 799, 167 Misc 269

#### Water and fire hydrant service

On appeal from judgment of court approving schedules of rates for water and fire hydrant service, as approved by the Public Service Commission, question was whether order of commission was reasonable and lawful, or, conversely, whether order was arbitrary and without reasonable basis—State ex rel City of St Louis v Public Service Commission, 245 S W 2d 851, 362 Mo 977

94. Pa—City of Pittsburgh v Pennsylvania Public Utility Commission, 101 A 2d 761, 174 Pa Super 363

#### Petition for rate increase

(1) Where there was ample testimony to support, as a reasonable conclusion, findings of commissioners on company's petition for an increase in rate, the reviewing court could not substitute its judgment for that of board, comparability of other rates in adjacent communities and weight of testimony relating thereto were within board's sound discretion—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 4 A 2d 47, 122 N J Law 54, affirmed 8 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct. 582, 309 US 663, 84 L Ed 1010

(2) Court would not disturb findings of commission in hearing to increase rates, where evidence on which findings were based was not before court and there was nothing to indicate that such findings were not justified, determination of commission that town should pay four thousand five hundred dollars instead of two thousand eight hundred thirty-five dollars for fire service on condition that company install specified number of additional hydrants without cost to town, without determining sum chargeable per hydrant, held not shown to be improper, especially where evidence on which findings were based was not before reviewing court—Damariscotta-Newcastle Water Co v Damariscotta-Newcastle Water Co, 186 A 799, 134 Me 349.

(3) Change of rates generally see supra § 293 c

95. N Y—People ex rel Consol Water Co of Utica v Maltbie, 9 N E 2d 961, 275 N Y 357, appeal dismissed People of State of New York ex rel Consol Water Co of Utica, N Y v Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 724

#### Decision only as to proper result

On appeal from judgment affirming order of board of commissioners fixing rate, court need not decide whether board was right in its reasoning that present value of company's plant should be determined on analogous basis of initially overbuilt plant, but must decide only whether board reached proper and right result—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 4 A 2d 350, 123 N J Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

96. N Y—New Rochelle Water Co v Maltbie, 288 N Y S 82, 158 Misc 752, reversed on other grounds 292 N Y S 650, 249 App Div 378

#### Commission's opinion of fair return on valuation

On a judicial review of rates prescribed for company by commission, court is not concerned with the percentage the commission deemed a fair return on its valuation of company's property, but only with the question whether prescribed rates were confiscatory—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512

97. N Y—New Rochelle Water Co v Maltbie, 288 N Y S 82, 158 Misc 752, reversed on other grounds 292 N Y S 650, 249 App Div 378

#### Illegal or arbitrary action not shown

Record on appeal from commission's order disclosed that commission had considered all essential elements involved and arrived at decision based on evidence without acting illegally or arbitrarily or in excess of abuse of powers, although rate fixed was insufficient to pay dividend and provide surplus as requested by company—Guilford-Chester Water Co v Loughlin, 113 A 2d 608, 19 Conn Sup 355.

required to make an independent finding of facts in reaching its determination that an order of commissioners fixing the rate was justified by the proofs.<sup>98</sup> The party attacking the correctness of the decision of the commission must show that intervening events have destroyed the force of the opinion testimony on which the decision is based.<sup>99</sup>

With respect to review, a commission's finding constitutes error of fact where it is without foundation in the record and in the teeth of the record evidence on a former appeal, offered in evidence,<sup>1</sup> and the commission's failure to give effect to its decision on a former appeal is an error of law.<sup>2</sup>

## § 297. Uniformity and Discrimination

### a. In general

### b. Rates outside municipal boundaries

98. NJ—New Jersey Suburban Water Co v Board of Public Utility Com'rs, 8 A 2d 350, 123 NJ Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

### Conflicting proofs; judgment of court not substituted

When conflicting proofs support conclusion that order of board of commissioners was not arbitrary, but based on legal proofs, court does not substitute its judgment for that of board in reviewing such order, for board acts as legislative agency in performance of legislative duty in finding rate—New Jersey Suburban Water Co v. Board of Public Utility Com'rs, 8 A 2d 350, 123 NJ Law 303, certiorari denied McGregor v Board of Public Utility Com'rs, 60 S Ct 582, 309 US 663, 84 L Ed 1010

### Finding held sustained; land excluded

On appeal from order of state corporation commission fixing rates to be charged by company, finding that certain tracts of land suitable for subdividing should be excluded from property on which company was entitled to receive return from rates charged held sustained by the evidence—Alexandria Water Co v City Council of Alexandria, 177 SE 454, 163 Va 512.

### Supplemental report to court

Where report of commission in water rate case was sent back to it with directions to supply court with material necessary to permit court to exercise its independent judgment on commission's findings, valuations, and rates, commission should have referred to its data and made supplemental report supplying needed information, with such changes and

modifications in findings as court had indicated—Scranton-Spring Brook Water Service Co v Public Service Commission, 181 A. 77, 119 Pa Super 117

99. NY—People ex rel Consol Water Co of Utica v Maltbie, 9 NE 2d 961, 275 NY 357, appeal dismissed People of State of New York ex rel Consol Water Co of Utica, N Y v Maltbie, 58 S Ct 506, 303 US 158, 82 L Ed 724

67 C J p 1257 note 87.

Discriminations as to service see supra § 278

Free service or service at nominal charge as unjust discrimination see supra § 283

### Waterworks plant as public utility

In operating a waterworks plant, the city is operating a public utility, and must treat all alike within the

### a. In General

Absolute uniformity or equality of rates is generally not required, but only an absence of unjust discrimination, so, a classification of water users, with different rates, does not constitute unjust discrimination where the classification is on a reasonable basis.

Inasmuch as the rates or charges of a municipality operating a water system, for water service furnished, are ordinarily not taxes, as discussed supra § 284, the rules as to uniformity of taxation, discussed in Taxation §§ 21-38, do not apply thereto,<sup>3</sup> and so no objection can be founded on the fact that such rates do not affect and apply to every citizen of the municipality, but only to those using water<sup>4</sup> It is, nevertheless, a fundamental rule that rates for water service, whether it is furnished by a municipal corporation or by a water company, must be uniform, in the sense that they must not be unreasonably or unjustly discriminatory as between consumers,<sup>5</sup> a municipality operating a water

same classification, making the same charge for water used—Almaras v City of Hattiesburg, 180 So 392, 181 Miss 752

An ordinance fixing water rates for water furnished by municipal plant must have reasonable standards, and the rates must be substantially equal to all within the same classification, or engaged in the same business—Almaras v City of Hattiesburg, supra

### Burden of proving unreasonable reclassification

Pa—First Nat Bank of Strasburg v Borough of Strasburg, Com Pl, 54 Lanc L Rev 45

### Distance from source of supply

Rates imposed on like consumers within water system must be just and reasonable inter se, as well as in toto, and no distinction which would result in unreasonable preference or disadvantage is permitted between consumers of same class on basis of their proximity to, or distance from, source of supply—Petition of Fryeburg Water Co, 115 A.2d 420, 99 N. H 487

### Passing on taxes imposed

Fact that privately owned public utility supplying water service to residents of numerous incorporated and unincorporated areas of county was taxed by certain of the incorporated areas, but not by other incorporated areas or in the unincorporated areas, did not empower commission to approve new schedule of rates and charges passing on to the users of water service in incorporated areas where taxes were imposed the amount of the taxes paid by the company where the consumers resided—State ex rel. City of St. Louis v Public Service Commission, 245 S. W.2d 851, 362 Mo. 977.

plant or system is prohibited from practicing discrimination in rates just as any other public utility is prohibited,<sup>6</sup> or, more precisely, is prohibited from practicing unreasonable or unjustified discrimination.<sup>7</sup> The courts have no broader power over discriminatory rates than over unreasonable rates,<sup>8</sup> the question of unjust discrimination is ordinarily a question of fact<sup>9</sup> to be decided by the rate-making authority.<sup>10</sup>

Absolute uniformity or equality of rates is not required, but only an absence of arbitrary or unjust

discrimination,<sup>11</sup> except where it is otherwise provided by statute or a franchise,<sup>12</sup> and a classification of water users, and the fixing of different rates for different classes, or for service rendered under varying conditions and circumstances, is permissible, and does not constitute unjust discrimination,<sup>13</sup> where the classification is on a reasonable basis.<sup>14</sup> Thus, classification may be made according to the quantity or amount used or received,<sup>15</sup> the time of use,<sup>16</sup> the manner,<sup>17</sup> conditions,<sup>18</sup> character,<sup>19</sup> or cost<sup>20</sup> of the service furnished, the nature and use made

8. Md—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

9. Md—Lewis v Mayor and City Council of Cumberland, supra

#### Best possible classification as not question

On a challenge to a municipal water rate ordinance, court cannot determine whether ordinance embodies best possible classification of rates, but only whether ordinance is so unjustly discriminatory, and therefore so clearly unreasonable, that it is invalid—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

10. Md—Lewis v Mayor and City Council of Cumberland, supra

11. Me—Kennebunk, Kennebunkport & Wells Water District v Inhabitants of Town of Wells, 147 A 188, 128 Me 256

14. Tex—Caldwell v City of Abilene, Civ App., 260 S W 2d 712, error refused

67 C J p 1258 note 90.

#### Practical standards

A city operating a water system is permitted, within reasonable limits, to classify water rates in a practical business manner, determined by practical standards for securing practical justice, but it must use reasonable classifications—Almaras v City of Hattiesburg, 180 So 392, 181 Miss 752

#### Discrimination within class

When classification is justified, question of discrimination is confined to members of the class, and there may be no gain of one of a class at the expense of another of the same class—Village of Fox Point v Public Service Commission, 7 N W 2d 571, 242 Wis 97, followed in Village of Shorewood v Public Service Commission, 7 N W 2d 574, 242 Wis 105, and Village of Whitefish Bay v Public Service Commission, 7 N W 2d 575, 242 Wis 106

#### Discrimination by comparison

A charge made to one patron which is different from that made to another, for same service and under like circumstances, constitutes an undue discrimination and renders charge improper, but fact that a rate is discriminatory by comparison with another rate does not imply that either of them is unreasonable, since a utility may classify its customers on any reasonable basis—Durant v City of Beverly Hills, 102 P 2d 759, 39 Cal App 2d 133

#### Domestic and commercial-industrial consumers

Water company's classification of private consumers as domestic and commercial-industrial was held reasonable—Hunter v Public Service Commission of Pennsylvania, 168 A 541, 110 Pa Super 589

15. Conn—Manchester Gardens Corp v Town of Manchester, 58 A 2d 734, 134 Conn 499

67 C J p 1258 note 96

#### Relation of variation to difference in service

Where difference in rates is based on difference in service, variation must have some reasonable relation to amount of difference and cannot be so great as to produce unjust discrimination—Jarrett v City of Boston, 74 S E 2d 549, 209 Ga 530

20. Conn—City of New Haven v New Haven Water Co, 172 A 767, 118 Conn 389

Tex—Caldwell v City of Abilene, Civ App, 260 S W 2d 713, error refused

#### One of most important considerations

Under statute requiring the commission to classify the service of a utility, taking into account the quantity used, the time when used, the purpose for which used, and any other reasonable consideration, comparative costs of the services is one of the most important considerations in classifying the service of a municipally owned water utility—Village of Fox Point v Public Service Commission, 7 N W 2d 571, 242 Wis 97, followed in Village of Shorewood v Public Service Commission, 7 N W 2d 574, 242 Wis 105 and Village of Whitefish Bay v Public Service Commission, 7 N W 2d 575, 242 Wis 106

#### Minimum charges

(1) Municipality's right of reasonable classification, in determining minimum water rate charges, is not restricted to rates based on determination of cost of serving a family unit or of serving each customer or group of customers—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 189 Md 58

(2) Minimum charge generally see infra § 300.

of the premises to which the water is supplied,<sup>21</sup> the purpose for which the service or product is received,<sup>22</sup> or the line of business carried on therein,<sup>23</sup> or other matters which present a substantial difference as ground for the distinction.<sup>24</sup> Classification of water services, with a different rate for each service, is warranted only if the services are in fact different,<sup>25</sup> and the rates, tolls, and charges are required to conform to a proper classification when made.<sup>26</sup>

Many factors are properly considered in determining the reasonableness of a classification,<sup>27</sup> and no single factor is controlling to the exclusion of all others,<sup>28</sup> each case must be decided on its own facts,<sup>29</sup> and the burden of proof is on the party claiming an unreasonable discrimination.<sup>30</sup> Similarly, higher rates may be charged consumers whose situation, or the character of whose demand

for water, makes it specially expensive or troublesome to serve them.<sup>31</sup>

Where water furnished is all supplied from the same sources, and is supplied to several contiguous communities embraced in one general district, with no unreasonable extensions to serve lean territory or other elements creating material difference in cost, a uniform rate for the entire territory is indicated and ordinarily justified,<sup>32</sup> but it is not essential that all rates throughout a large territory served from a single water system be the same, and rates in each part of such territory may be fixed at a level which is fair and reasonable in view of the existing conditions.<sup>33</sup> Moreover, it is not of itself unjust discrimination to furnish water to some consumers at flat rates and to others of the same class at meter or quantity rates,<sup>34</sup> even though the rate by the gallon actually used is ordinarily lower to

24. Iowa—*Knotts v Nollen*, 218 N.W 563, 206 Iowa 261 67 C.J. p 1258 note 97

#### Apartment houses; consuming units

Classification of apartment houses under residential classification based, for rate purposes, on consuming units, rather than number of meters, is not unreasonable or unjustified, as such water users constitute type or class substantially different and distinct from other users—*Caldwell v City of Abilene*, Tex Civ App, 260 S.W.2d 712, error refused

#### City and suburban service

(1) Where peak demands on municipally owned water utility by service furnished to villages differed in amount from peak demand by service to city consumers, distance which water had to travel to serve villagers differed from average distance required to serve city consumers, suburban rate included cost of fire protection, while city rate did not, and service to suburbs was wholesale, while service to city consumers was retail, classification of service into urban and suburban service with a different rate for each was lawful—*Village of Fox Point v Public Service Commission*, 7 N.W.2d 571, 242 Wis 97, followed in *Village of Shorewood v Public Service Commission*, 7 N.W.2d 574, 242 Wis 105 and *Village of Whitefish Bay v Public Service Commission*, 7 N.W.2d 575, 242 Wis 106

33. Pa—*Scranton-Spring Brook Water Service Co v Public Service*

*Commission of Pennsylvania*, 160 A 230, 105 Pa Super 203

#### Consumers in large and small communities

(1) Where water company served large municipality and smaller surrounding towns in same general district, higher rates may be prescribed for consumers in smaller communities, without unlawful discrimination, provided rate is not unreasonably high in comparison with city rates, and considering respective costs of service and other conditions affecting rates, but departure from uniform rates for entire consuming territory and fixing of special rates for large municipality should not be undertaken unless there are such differences in circumstances and conditions between different parts of territory served as to justify departure—*City of New Haven v New Haven Water Co*, 172 A 767, 118 Conn 389

(2) In these circumstances, action of Public Utilities Commission in prescribing schedule of rates and charges in city identical or uniform with those specified for similar service in smaller municipalities held not to constitute unlawful discrimination which invalidated action fixing rates and charges—*City of New Haven v New Haven Water Co*, *supra*.

34. Ga—*Corpus Juris* cited in *Jarrett v City of Boston*, 74 S.E.2d 549, 551, 209 Ga 530 67 C.J. p 1259 note 1

#### Rates held not unjustly discriminatory

(1) Where city charged consumers having meters a fixed monthly charge of fifty cents, one dollar and fifty cents per month for first three thousand gallons and fifty cents for each additional one thousand gallons, but charged those not having meters fixed charge of fifty cents and one dollar

the former than to the latter;<sup>35</sup> and the imposition on meter-rate consumers of a minimum or "ready to serve" charge, without imposing a like charge on flat-rate consumers, is not necessarily unjust discrimination, since the latter pay a fixed sum whether they use water or not, and the former may likewise be required to pay for the service of being ready to supply them with such quantity of water as they may desire or need to use.<sup>36</sup>

A classification must, however, in order to be valid, comport with the rule or principle of sound legislative classification, in that there must be some actual difference of situation and condition, bearing a reasonable and just relation to the matter of rates,<sup>37</sup> and an arbitrary or unreasonable classification amounts to unjust discrimination.<sup>38</sup> Likewise, it is unjust discrimination to differentiate be-

tween different services by charging rates for one which are out of all proportion as compared with the rates charged for another,<sup>39</sup> or to impose on one consumer, or class of consumers, losses caused by charging inadequate rates to another consumer or class.<sup>40</sup>

The tests of the validity of a classified rate are, therefore, whether there is reasonable ground for the classification, or whether it is arbitrary, discriminatory, and unjust,<sup>41</sup> and, beyond that, whether the particular rate is reasonable, having in view the dissimilarity of the situation, the difference in the cost of furnishing the service, and other relevant factors.<sup>42</sup> Furnishing water to a particular consumer at less than the cost of the service constitutes an improper, discriminatory, and preferential

and fifty cents for all water used, allowing those having meters larger discount for prompt payment for amounts in excess of one dollar and fifty cents, rates were not unjustly discriminatory—*Jarrett v City of Boston*, supra.

(2) Fact that resolution in ordinance fixed a flat rate for all industrial plant consumers who were supplied with meters, while other industrial users and others who had not yet received meters were billed on an outlet basis, did not establish that classification was unjustly discriminatory—*P. J. Ritter Co v Mayor of City of Bridgeton*, 50 A 2d 1, 135 N.J. Law 22, affirmed 59 A 2d 422, 137 N.J. Law 279.

#### Gradual adoption of meter rates

Where municipality originally provided service on a flat rate basis, it was not guilty of unjust discrimination in adopting meter rates gradually, so that at certain times it was serving old customers at flat rates and new customers at meter rates—*Lewis v Mayor and City Council of Cumberland*, 54 A 2d 319, 189 Md 58.

#### Election to use water through meter

Where ordinance fixed flat rates for those engaged in restaurant business and consumer operating restaurant did not, on city's attempt to collect meter rates, proceed to compel furnishing of service at flat rate, or to compel city to make proper classification, giving fair rates to all users of water, but elected to use water through meter, he became liable for reasonable rate for water consumed as measured by meter, and where he admitted that rate was reasonable, he could not escape liability for such rate because others in same business had been furnished water at lower flat rate—*Almaras v City of Hattiesburg*, 180 So 392, 181 Miss 752.

Charge for connecting with water mains held unreasonable and discriminatory—*City of De Pere v Public Service Commission*, 63 N.W.2d 764, 266 Wis. 319.

Imposition of "fire rate" held arbitrary, discriminatory, and void—*Weiskopf v City of Saratoga Springs*, 279 N.Y.S. 878, 244 App. Div. 417, reversed on other grounds 200 N.E. 33, 269 N.Y. 634.

Proposed surcharge held invalid as making unreasonable discrimination, in absence of evidence of change in conditions or additional expenditures, etc.—*City of Malvern v Young*, 171 S.W.2d 470, 205 Ark. 886.

#### Minimum service charge, apartment houses

Ordinance making the minimum service charge for apartment buildings in which only one meter is installed, the minimum service rate multiplied by the number of apartments, thereby basing charges on family unit as a consumer unit, makes a reasonable classification, notwithstanding that a residential building, including an apartment house, might also be a reasonable basis for classification, ordinance is not unreasonable for classifying apartment houses with other dwellings for purpose of determining minimum service charge rather than with hotels or other business establishments, since an apartment house, although a business, remains an aggregation of dwellings—*Lewis v Mayor and City Council of Cumberland*, 54 A 2d 319, 189 Md 58.

#### Itinerant trade; industrial or residential class

Discrimination against apartment house owners by furnishing services to hotels, tourist camps, and other places where itinerant trade is predominant under industrial classification with single minimum charges, instead of residential classification based for rate purposes on number of consuming units, is not arbitrary and unreasonable, although some units in some of such places are used as family units—*Caldwell v City of Abilene*, Tex. Civ. App., 260 S.W.2d 712, error refused.

42. N.Y.—*People v. Albion Waterworks Co*, 125 N.Y.S. 589, 140 App. Div. 646.

67 C.J. p. 1259 note 11.

charge;<sup>43</sup> but a rate is not necessarily unjustly discriminatory merely because, either as to individuals or as to a class, it does not exactly reflect the cost of the service, the determination of the schedule of rates to be charged for particular services or to particular classes of consumers being largely a function of management, into which discretion necessarily enters.<sup>44</sup>

**Classification by commission** The reasonableness of the classification of premises for rate purposes,<sup>45</sup> and of the different rates applicable,<sup>46</sup> has been held an administrative or factual question for the consideration of a public utility commission, whose finding, if supported by competent evidence, may not be disturbed by the court,<sup>47</sup> and if there is no manifest injustice, unreasonable discrimination, or undue preference in the rates fixed by a municipal authority, the courts will not interfere.<sup>48</sup>

**Increase or reduction of rates.** Making an increase of water rates effective as to one or some consumers before it takes effect as to others is unjust discrimination.<sup>49</sup> Where a city water department's contracts with the county provide that water rates shall be uniform to all consumers, the city may increase the rate to users outside the city only when it makes a similar increase to users within the city.<sup>50</sup>

No reduction of rates is valid which is discriminatory in its character, or is not operative alike on all consumers of the same class.<sup>51</sup>

**Discrimination as to deposits or advance payment** A requirement that domestic consumers of water make deposits to cover charges for water to

be furnished, or pay for water in advance, without requiring such deposits or advance payments by commercial or mercantile consumers, is unreasonable and arbitrary, and constitutes unjust discrimination.<sup>52</sup>

**Special contracts fixing discriminatory rates.** As a general rule, a contract between a water company and a customer for furnishing him with water service at rates less than those charged to other consumers of the same class for similar service is void, as nonuniform and discriminatory,<sup>53</sup> and cannot be upheld in favor of such customer on the ground of an estoppel on the part of the company to assert its invalidity.<sup>54</sup> It has, however, been held that where only maximum rates are prescribed by public authority, and not absolute or minimum rates, there is no unjust discrimination in charging one or more consumers a rate less than such maximum and less than that charged other consumers, as long as the discrimination or favor is at the expense of the company, and does not impinge on the rights of any other consumers.<sup>55</sup>

**Rights of consumers discriminated against.** Where a water company unjustly discriminates by charging some of its patrons a lower rate than that charged or enforced generally, the consumers paying the higher rate are not entitled as of right to receive water service at the more favorable rate,<sup>56</sup> but their remedy is rather, by injunction or otherwise, to have an end put to the discrimination in favor of the other patrons,<sup>57</sup> although if lower rates are granted to any considerable number of consumers the fact may be evidential that the general

57. S.C.—Paris Mountain Water Co. v. Camperdown Mills, supra.

rate is unreasonably high, and should be revised by the proper regulatory authorities<sup>58</sup>

**Assessments by state engineer** A state engineer cannot, without some reasonable basis for the differentiation, render services for the users of water on one fork of a stream, and assess them for such services, and omit to render similar services, with assessments, against the users on other forks<sup>59</sup>

#### b. Rates outside Municipal Boundaries

Higher rates may be charged against water consumers outside municipal limits than against those with-

in, provided there is a reasonable basis for the difference other than the mere fact of municipal boundaries.

A municipal corporation may classify rates to be charged in outlying territories<sup>60</sup> The classification of water consumers according to whether they reside within or without the limits of a municipality, and charging higher rates to those outside such limits than are charged to those within the municipality, has been held reasonable and not unjustly discriminatory<sup>61</sup> However, for this principle to apply there has been required to be a reasonable basis for the difference in rates,<sup>62</sup> other than the

58. Ala.—State v Birmingham Waterworks Co., 51 So 354, 164 Ala. 586, 27 L.R.A., NS, 674, 137 Am SR 69, 20 Ann Cas 951

#### Intention of lawmaking body

In adopting ordinance designating as a nonresident bulk user any consumer located outside corporate limits of city to whom water was supplied by city, lawmaking body intended to draw a geographical line of demarcation so that one who used water within city limits would be a resident consumer of water, to be charged a fixed rate, and one who used water outside city limits would be a nonresident consumer, to be charged a different rate—City of Covington v Sohio Petroleum Co., 279 SW2d 746

#### Different rates for city and suburban services

Where service furnished by municipally owned water utility to suburban retailer differed from that furnished to city consumers, fact that rate for each service differed, or that rate of return accorded utility by the rates differed, did not render the rates unlawful, where no question of reasonableness was involved—Village of Fox Point v Public Service Commission, 7 NW2d 571, 242 Wis 97, followed in Village of Shorewood v Public Service Commission, 7 NW2d 574, 242 Wis 105 and Village of Whitefish Bay v Public Service Commission, 7 NW2d 575, 242 Wis. 106

#### Resale by suburb

In classifying service of a municipally owned water utility for rate-fixing purposes, fact that suburb owning its own distributing system bought water from utility for resale was a proper factor to consider—Village of Fox Point v Public Service Commission, 7 NW2d 571, 242 Wis 97, followed in Village of Shorewood v Public Service Commission, 7 NW2d 574, 242 Wis 105 and Village of

Whitefish Bay v Public Service Commission, 7 NW2d 575, 242 Wis 106  
**United States hospital charged with in-city rate**

Where city agreed to furnish water to the United States for a hospital, which was situated within boundaries of the city but was not a part thereof, in consideration of a right of way granted to city by the United States over hospital grounds for constructing a pipe line to serve other within-city customers, city had right to treat the hospital as a within-city customer and charge the within-city rate rather than outside-city rate—Department of Water and Power of City of Los Angeles v U S, 62 F Supp 938, 105 Ct Cl 72

Tex.—Botkin v City of Abilene, Civ App, 262 SW2d 732, refused no reversible error

#### Ordinance held constitutional or valid

(1) Ordinance requiring users of city water outside corporate limits to pay double city water rate was held not unconstitutional, unreasonable, or discriminatory

Ga.—Barr v City Council of Augusta, 58 SE2d 823, 206 Ga 753

Tex.—Botkin v City of Abilene, Civ App, 262 SW2d 732, refused no reversible error

(2) An ordinance fixing rates for water sold by city to water company for supply of consumers outside city, was not void ab initio as discriminating in favor of company against other users charged higher rates by city, but continued in force until repealed by later ordinance increasing rates charged company.—

Water Works Commission of City of Little Rock v North Little Rock Water Co., 180 SW2d 526, 207 Ark 349

#### Allocation of investment and charges

A borough which supplies water to its inhabitants and to consumers in abutting township can establish rate schedule for such consumers different from that used in borough, based on specific investment in township and allocation of proper proportion of general plant investment, in arriving at rate base, and similar division and allocation of operating, maintenance, and depreciation charges, the operation of the plant as a unit and the charging of same rates to customers in municipality and in adjoining township did not prevent municipality from thereafter establishing such rate schedule—Borough of Ambridge v Pennsylvania Public Utility Commission, 8 A2d 429, 137 Pa.Super. 50

#### Water taken from mains inside city

Where water for refinery, although taken from mains at a point inside corporate limits of city adjacent to property owned by refinery operator, was carried through line installed at city's expense to refinery just outside corporate limits, and was there metered, operator was a nonresident consumer of water within ordinance fixing different rates for resident and nonresident consumers—City of Covington v Sohio Petroleum Co., 279 SW2d 746

62. Tex.—City of Texarkana v Wiggins, 246 SW2d 622, 151 Tex 100

#### Rule held not changed by statute

Tex.—City of Texarkana v Wiggins, supra.

#### Purchase of waterworks by bonds

Fact that city waterworks was purchased by bonds on which taxpayers were liable, could be considered as a justification for establishing higher rates for nonresident users than for resident users—Botkin v City of Abilene, Tex Civ App, 262 SW2d 732, refused no reversible error

#### Contributions to cost of constructing plant

A municipally owned water utility was not entitled to earn on special assessments, known as customer contributions, for cost of constructing

mere fact of municipal boundaries,<sup>63</sup> in the absence of some physical difference to justify a separate classification, persons living outside the corporate limits of a municipality must be furnished with water service at the same rates as those within such limits, and a classification based wholly on the corporate line as the line of demarcation is unreasonable and constitutes unjust discrimination.<sup>64</sup> So, such discrimination has been held not justifiable on the ground that the residents of the municipality are liable to taxation to pay for the acquisition of the water system.<sup>65</sup>

It has also been held that a municipal water system may serve residents within the city at cost, but is entitled to a profit on service in territory outside its boundaries,<sup>66</sup> and that it is immaterial that a nonresident deems the rates for nonresidents to be exorbitant or unreasonable.<sup>67</sup>

### § 298. Flat Rates

Flat rates, without reference to the quantity of water used, may be fixed for water. Such rates do not entitle the consumer to use water wastefully, and meter rates have been held more equitable.

Water service is frequently supplied at flat rates, or rates fixed without reference to the quantity of water used, to dwelling houses,<sup>68</sup> or other buildings,<sup>69</sup> which rates may vary with the number of rooms,<sup>70</sup> or the number or character of faucets and

other appliances connected with the water system,<sup>71</sup> and may include the use of water for all ordinary domestic purposes or for certain enumerated purposes only.<sup>72</sup> A particular ordinance has been held to fix a maximum flat rate for the ordinary consumer, based on the fixtures used and the business for which the supply is intended.<sup>73</sup>

A flat rate does not entitle the consumer to use water wastefully, but only to use it in such reasonable quantities as are sufficient, without inconvenient economy, for the purposes covered by the rate.<sup>74</sup> Where flat rates are fixed in contemplation of a general or established practice of using service pipes or connections of a certain diameter, a consumer is not entitled to take water, and the company is not bound to supply it, through a larger pipe or connection at the same rate, and, if so taken or supplied, a higher rate may be charged.<sup>75</sup>

It has been held that meter rates are more equitable than flat rates,<sup>76</sup> since all consumers do not use the same amount of water, a uniform flat rate unfairly distributes the cost,<sup>77</sup> while metering, on the other hand, distributes the cost to the consumer in proportion to his use of the service and facilities of the water company.<sup>78</sup> Flat rate service is naturally conducive to careless and extravagant use of water,<sup>79</sup> metered service, with charges based on quantity used, tends to reduce waste, inasmuch as

the plant, but the contributors were entitled to have the benefit thereof as against consumers outside the city, who did not make such payments—*Village of Fox Point v Public Service Commission*, 7 NW 2d 571, 242 Wis 97, followed in *Village of Shorewood v Public Service Commission*, 7 NW 2d 574, 242 Wis 105 and *Village of Whitefish Bay v Public Service Commission*, 7 NW 2d 575, 242 Wis 106.

63. Tex.—*City of Texarkana v Wiggins*, 246 SW 2d 622, 151 Tex 100

64. Ala.—*City of Montgomery v Greene*, 65 So 783, 187 Ala 196, error dismissed 37 S Ct 20, 242 US 613, 61 L Ed 528—*City of Montgomery v Greene*, 60 So 900, 180 Ala 322

#### Annexation; adjoining city

Adjoining city had power to exact a higher rate to furnish water to residents of area later incorporated into second city than rate at which adjoining city furnished water to its own residents, or in water control and improvement district annexed at same time, but could not arbitrarily thereafter change the rate if in doing so it would further discriminate between residents of annexed area and

residents of adjoining city—*State ex rel Richmond Plaza Civic Ass'n v City of Houston*, Tex Civ App, 270 SW 2d 235, error refused no reversible error

inordinate use will be tempered by consumer self-interest<sup>80</sup>

### § 299. What Rate Applies

The water rate applicable in a particular situation may depend on such factors as the purpose for which the water is used and the quantity used. A doubt as to which rate applies is to be resolved in the consumer's favor.

The use made of the property to which water is furnished is an important factor to be considered in determining the proper applicable rates.<sup>81</sup> Where different rates are established for water taken for uses of different characters, charges are to be made according to the purposes for which the water is used,<sup>82</sup> the criterion being the use actually made of the water and not the character or use made of the building or premises to which it is supplied.<sup>83</sup> If part of the water taken is used for one purpose and part for another, water used for each purpose is to be separately charged for at the rate applicable, even though the whole supply enters the consumer's premises through a single service pipe.<sup>84</sup>

The words "domestic rates," as used in a contract for water supply, have been held to signify rates allowed to be charged where water is furnished for domestic purposes.<sup>85</sup>

Where different rates are established for different classes of water service or water consumers, and it is doubtful in a particular instance which rate is

applicable, the doubt is to be resolved in favor of the consumer.<sup>86</sup>

**Flat rate or meter rate.** Under an ordinance providing that water consumers may demand a meter and pay meter rates, the flat rates apply where no such demand has been made, and the water company, by installing a meter on its own motion, does not become entitled to charge meter rates.<sup>87</sup> Under an ordinance establishing maximum flat rates, but providing that where a meter has been installed water furnished shall be charged for at meter rates, a consumer taking water through a meter is liable therefor at meter rates, even though the amount of the charge exceeds the prescribed maximum flat rate.<sup>88</sup> A patron who takes water through an unmetered line is liable to pay therefor at the established flat rates, even though he supposes he is taking the water through a meter.<sup>89</sup> A schedule of meter rates commencing with the rate for a daily consumption of, or exceeding, a specified amount is not applicable where not as much as such specified amount per day is consumed.<sup>90</sup> Somewhat similarly, a schedule of flat rates based on building heights up to a specified number of stories has no application to buildings of greater height.<sup>91</sup>

Where part of particular premises comes within ordinance provisions as to flat rates, and part within the provisions as to meter rates, water used in the separate parts may be charged and paid for on separate bases where that is feasible,<sup>92</sup> but

80. Pa.—Orlosky v Pennsylvania Public Utility Commission, *supra*

81. Pa.—Brown v Pennsylvania Public Utility Commission, 31 A. 2d 435, 152 Pa Super 58

Purposes for which water may be taken under flat rates see *supra* § 298

**Annual rate basis for "business purposes"**

A building used partly as a lodging house and partly for other business was used wholly for "business purposes" and not for combined business and domestic purposes within rule permitting installation of fire lines on an annual rate basis in buildings used for combined business and domestic purposes or solely for domestic purposes.—N H Lyons & Co v Cannella, 82 N Y S 2d 174, affirmed 88 N Y S 2d 247, 275 App Div. 705.

**Average use in residence; meter tampered with**

Where contractor who used water in construction of apartments knew, from schedule printed on water bills and permits, of rates provided by ordinance for unmetered water, and meter was tampered with, it was proper to charge him on basis of amount of masonry and plastering being used in

construction, plus miscellaneous and extra charges, rather than on basis of average subsequent use of water, as authorized by charter, since he had actual notice of ordinance and charter basis was applicable solely to residences.—Parsons Const Corp v City of New York, 298 N Y S 276, 163 Misc 932

82. Me.—Pejepscot Paper Co v Town of Lisbon, 142 A 194, 127 Me 161

**Washtubs; "baths"**

Fixtures in private apartments without bathrooms, used primarily as washtubs held not "baths" for which ordinance imposes extra water charges, even though some tenants sometimes used them as bathtubs, ordinance fixing rates for baths in barber shops, public houses, and bathing establishments and for washtubs in laundries, imposed no extra or miscellaneous rate for washtubs in private apartments by provision imposing extra charges for baths therein.—Eiffel Realty Corp v City of New York, 299 N Y S 373, 165 Misc 176, affirmed 11 N Y S 2d 250, 256 App Div 972, affirmed 24 NE 2d 978, 282 N Y 541.

89. N Y.—J N Matthews Co v City of Buffalo, 126 N Y S 596

90. Ala.—Birmingham Waterworks Co v. Keiley, 56 So 838, 2 Ala App 629

91. N Y.—In re Herrman, 123 N Y S 752, 138 App Div 780—Johnson-Kahn Co v Thompson, 130 N Y S 216, 73 Misc 103

92. N Y.—Johnson-Kahn Co. v. Thompson, *supra*.

where it is not practicable to distinguish between the water used in the respective portions of the premises, meter rates may be applied to the whole<sup>93</sup>

Where an ordinance fixes a flat rent for restaurants and fixes meter rates without classification of the users of meters, and a restaurant owner protests against the use of a meter and refuses to pay meter rates until compelled to do so under penalty of having the water connection discontinued, a contract to use the meter does not exist<sup>94</sup>

**Applicability of single-unit rate** The fact that the owner of a property is the sole party contracting for water is not controlling in determining whether the consumer is entitled to a rate based on a single unit<sup>95</sup>

**Rates diminishing with quantity used; sliding scales** Whether a schedule of water rates, prescribing progressively lower rates as the quantity used increases, is to be construed as establishing an accumulative or sliding scale, or as classifying consumers according to amount of water taken and establishing absolute rates for each classification, depends on its terms<sup>96</sup> Under such a schedule, a person owning and occupying several buildings is entitled to the benefit of the rate applicable to the entire quantity of water used in all of them, and the rate is not to be computed separately for each building, even though, for convenience, separate meters are installed for each,<sup>97</sup> but where several dwellings or buildings, although under common owner-

ship, are separately occupied and used, the rates are to be separately computed for each and the owner is not entitled to quantity rates for the entire amount of water taken<sup>98</sup>

**Change of rates.** A patron claiming the existence of a contract for water service at particular rates, who continues to take water after being notified that thenceforth he will be charged at different rates, and makes no objection thereto, thereby impliedly agrees to pay at the new rates<sup>99</sup> Where, however, a consumer denies the right of a company, attempting to increase its rates, to do so, and it continues to furnish him with water without making any effort to collect the higher rate, it cannot recover more than the rate previously in effect<sup>1</sup> A municipality having an option to change from a flat rate to a meter rate must do something more than install meters to indicate its election to exercise its option<sup>2</sup>

### § 300. Minimum Charge

A minimum charge may be made for water provided it is reasonable and uniform in its application.

Where the consumption of water, charged at quantity or meter rates, does not reach a reasonable amount, a minimum charge may properly be made, to cover the cost of being ready to serve the consumer and the general overhead expenses which accrue regardless of the quantity of water used,<sup>3</sup> but such minimum charges must be reasonable in

3. SC—Cox v Abbeville Furniture Factory, 54 S E 830, 75 S C 48

67 C J p 1262 note 53

**Application to apartment house**

Minimum charges graduated according to size of meter installed on premises or according to the maximum use at any one time, are combination minimum service charges and readiness-to-serve charges which, as applied to apartment house, give such building benefit of wholesale rates for large average consumption with corresponding responsibility for a capital charge for maximum potential use substantially in excess of average use—Lewis v Mayor and City Council of Cumberland, 54 A 2d 319, 139 Md 58

**Rules held reasonable**

Water company's rules providing for minimum rates, service lines to single buildings only, and minimum charges to each subdivision thereof, held reasonable—Hunter v. Public Service Commission of Pennsylvania, 168 A. 541, 110 Pa Super. 589.

amount<sup>4</sup> and uniform in their application<sup>5</sup> Where water service is supplied to two or more houses or families through a single service pipe, the question whether a single minimum charge or separate charges should be made depends on the circumstances and the terms of the ordinance or rate schedule.<sup>6</sup>

### § 301. Charges for Installation, Meters, Meter Rent, Reading Meters, and Other Service Charges

Authorities are not uniform as to the propriety of charges for installing water connections, the cost of meters and installation thereof, meter rent, reading the meter, turning off water for nonpayment of charges, or turning it on again

A municipal ordinance requiring the payment, by inhabitants of one part only of the municipality, of a fee for installing a water connection, is void, as unjust and discriminatory.<sup>7</sup>

*Cost of meters and installation* A consumer of water cannot be required to pay the cost of a meter installed to measure the amount of water taken by him, or the expense of installing such meter, and cannot be required to furnish or install a meter at his own expense,<sup>8</sup> except where it is otherwise provided by statute<sup>9</sup> Authority to make such a charge, or to compel consumers to furnish and install meters, is conferred by a statute authorizing the adoption of regulations as to the ascertainment of the amount to be paid for water supplied,<sup>10</sup> and, it

has been held, by a statute authorizing the making of all rules and regulations proper and necessary to the operation of a water system or the use of water therefrom,<sup>11</sup> but on the latter point there is also authority to the contrary.<sup>12</sup> A statute conferring on a municipality power to fix the rates to be charged by water companies authorizes it to say who shall provide and pay for meters and service connections, as part of its power to determine the amount the consumer shall pay for water service.<sup>13</sup>

*Meter rent, service charge, or deposit.* It has been held that no separate and additional charge, over and above a charge for water taken, may be made for meter rent,<sup>14</sup> even under a special contract providing therefor, since such a contract will be deemed coercive,<sup>15</sup> but, according to other authority, a service charge, in addition to charges for water consumed, may properly be made, as long as it is reasonable in amount,<sup>16</sup> and a classification of service charges in accordance with the size of the meter or connection is not unreasonable<sup>17</sup> In determining whether a meter charge is excessive, the cost or value of the meter is not the only consideration, since labor is required to install it, keep it in order, and have it read<sup>18</sup>

A meter deposit collected from users of municipal water to guarantee the return of the meter does not become the property of the town,<sup>19</sup> but is held in trust for, and belongs to, the property owner who

4. US—City of Pocatello v Murray, D C Idaho, 206 F 72, affirmed 214 F 214, 130 CCA 628 Reasonableness of charges generally see supra §§ 289, 293

5. US—City of Pocatello v Murray, D C Idaho, 206 F 72, affirmed 214 F 214, 130 CCA 628 67 C J p 1262 note 55 Uniformity and discrimination in general see supra § 297

6. Ala—City of Montgomery v Smith, 88 So 671, 205 Ala 557 67 C J p 1262 note 56

The words "each consumer," as used in ordinance fixing minimum charge for each consumer to whom company supplied its services, regardless of amount of water actually consumed, meant each householder or family unit, and plaintiff was not entitled to pay only such minimum charge for furnishing of water to tract of land owned by him and on which there were several occupied tenant houses—Womack v Peoples Water Service Co, 61 So.2d 785, 216 Miss 169

7. Tex—Town of Highland Park v Guthrie, Civ App, 269 S W 193.

Uniformity and discrimination as to rates in general see supra § 297

8. Ark—Wilson Water & Electric Co v City of Arkadelphia, 129 S W 1091, 95 Ark 605 67 C J p 1262 note 59

Right or duty of company or consumer to install meter in general see supra § 280

9. Ga—Farkas v City of Albany, 82 S E. 144, 141 Ga 833, Ann Cas 1915C 1194, L R A 1915A 320 67 C J p 1263 note 60

**Regulation held not discriminatory**

Fact that persons who had already installed meters on their premises would not have advantage of securing meters on terms offered under water department regulation, did not render regulation discriminatory, and fact that, under universal water metering plan provided for in regulation, large consumers would receive large meters and small consumers would receive small meters was not discriminatory, since charges for meters would be reflected in water rates—Vitacolonna v City of Philadelphia, 115 A 2d 178, 382 Pa 399.

Water charges as not taxes see supra § 284

### Collection by water company

Railroad and Public Utilities Commission was within its authority in

b Persons liable

c Time for payment; payment in advance

### a. In General

By taking water, a consumer obligates himself to pay for it according to the terms and conditions publicly promulgated, or according to his contract Water rates may be collected by methods not available for the collection of taxes.

A city collecting water rates is acting in its proprietary capacity and not as a governmental agency of the state <sup>27</sup> In the exercise of the police power, a municipality may, by ordinances not arbitrary or discriminatory, fix water charges that may be enforced by the usual and appropriate procedure for the collection of such charges, <sup>28</sup> methods not available for the collection of taxes are usually provided for the collection of water rates <sup>29</sup>

A patron of a water system, by taking water therefrom, obligates himself to pay for it according to the terms and conditions publicly established and promulgated, or according to such express contract as he may have made <sup>30</sup> Where the water is taken through a meter, he is liable for all the water passing through the meter, <sup>31</sup> including water which escapes from a leak in his service pipe and of which

approving contract between city and water company whereby company would collect, from users of water service, charges for city's sewer service—Patterson v City of Chattanooga, 241 S W 2d 291, 192 Tenn 267

30. Pa—Rieker v City of Lancaster, 7 Pa Super 149

"One main" rate held applicable, although new main was never laid—Jersey City v Central R Co of New Jersey, 191 A 745, 118 N J Law 176

### Sum claimed not yet due

Where water company filed writ Dec 12, 1938, to recover from town charges for fire protection service, and it appeared that sums claimed became due Dec 31st of each year, company was entitled to recover only for amounts claimed to Dec 31, 1937, since sum claimed for year 1938 was not then due and payable—Milo Water Co v Inhabitants of Town of Milo, 7 A 2d 895, 136 Me 228

31. Ala—Anderson v City of Montgomery, 89 So 857, 18 Ala App 233

### Water going through several meters

Owner of group of buildings supplied with water through separate meters was not entitled to pay smaller charge for total amount used as though the water had gone through one meter, where town had no rule

he has no benefit<sup>32</sup> Where water entering a pipe supplying two consumers is metered, and the water taken by one of such consumers is measured by another meter, the other consumer cannot complain because the amount due from him is ascertained by deducting the reading of one meter from the other, and such an arrangement is not against public policy<sup>33</sup> A provision, in a contract for water service, as to the mode of ascertaining the amount of water used does not furnish the exclusive mode of determining how much water has been furnished,<sup>34</sup> but any proper method of making such determination may be employed<sup>35</sup>

**Right to meter service.** The owner of residence property is not entitled to metered water service under a company rule providing for service through meters to all industries, large commercial establishments, public garages, and consumers whose use of water is unusually large or wasteful<sup>36</sup>

**Requirement of meter; "business purposes," "hotel"** In determining whether premises are used for "business purposes" within a regulation that fire lines in buildings used solely for business purposes shall be metered, the test to be applied is the purpose for which the occupants use the premises, and not the purpose for which the owner uses them<sup>37</sup> A charter provision authorizing the installation of water meters in hotels does not apply to a lodging house<sup>38</sup>

**Single-point meter service** The owner of an eleven-building apartment development has been held entitled to single-point water meter service as a single commercial consumer of water<sup>39</sup> A consumer is not barred from seeking such service by

the fact that he has previously taken water illegally and contrary to existing service contracts and has not paid the water company the amounts demanded as undercharges<sup>40</sup>

**Inaccuracy of meter, or failure to register**

Where a water meter has been out of repair for a long period of time, and has failed to register part or all of the water passing through it, it has been held proper to ascertain the amount due from the consumer by averaging the last known correct amount per month which passed through the meter and the amount registered per month after the repair or replacement of the meter, in the absence of anything to show that such method is not proper under the circumstances,<sup>41</sup> except where it is provided by statute that the charge for water service shall be determined solely by the quantity of water taken as shown by the meter, in which case no charge can be made except for the water, if any, registered by the meter<sup>42</sup> On discovery, however, that a meter registers only a part of the water passing through it, a charge cannot be made on the assumption that the defect has been constant over a long prior period, without any evidence of the fact, and a charge on such basis is too conjectural and speculative to be supported<sup>43</sup> Mere negligence or laxity in failing to repair or replace a water meter known to be inaccurate, or not to be registering the full amount of water passing through it, does not prevent the collection of proper charges for the amount of water actually taken, unless the consumer has been misled thereby to his detriment<sup>44</sup>

**Right to replacement of meter.** A water user is not entitled to have another meter immediately in-

providing for such method of calculating the charges, but only a rule for a smaller charge where all water for several buildings or houses went through one meter—*Manchester Gardens Corp v Town of Manchester*, 58 A 2d 734, 134 Conn 499

stalled when it is ascertained that the original meter has been broken or tampered with.<sup>45</sup>

### b. Persons Liable

In general, and in the absence of statute or ordinance providing otherwise, a person is liable only for water consumed by him and cannot be made liable for water consumed by another.

The obligation to pay for water is ordinarily on him who buys and consumes it,<sup>46</sup> and is not affected by the uses to which the water is put.<sup>47</sup>

It has been held that a purchaser of house property may be liable for unpaid water bills accrued against his vendor.<sup>48</sup> Under other authorities, the rule is otherwise,<sup>49</sup> so, a purchaser of property cannot be compelled to pay for water purchased by former occupants of the purchased property,<sup>50</sup> either by statutes regulating the water system or

regulations issued by commissioners pursuant thereto,<sup>51</sup> and a lessee of property cannot be required to pay the bills of a prior lessee as a condition to his obtaining a supply of water.<sup>52</sup>

As between the landlord and tenant of premises supplied with water, liability for payment of the water rent is usually a matter of private arrangement.<sup>53</sup> In the absence of such arrangement, express or implied, or of statute imposing liability,<sup>54</sup> there is no liability on the part of the former to pay for water supplied to the latter,<sup>55</sup> and, although it has been said that the legislature may authorize a water company to refuse to deal with tenants of premises which it is under obligation to supply with water,<sup>56</sup> it has been held that the company may not impose a condition that the landlord become responsible for the charges.<sup>57</sup> The company may, how-

### Liability under city charter

Minn—Prudential Co of Minn v City of Minneapolis, 277 NW. 351, 202 Minn 70

### Both liable; accrual before and after conveyance

(1) Under statute, the owner of property and his tenant are liable to New York City for water consumed thereon—Dunbar v City of New

York, 164 NYS 519, 177 App Div 647, affirmed 119 NE 1039, 223 NY 597, affirmed 40 S Ct 250, 251 US 516, 64 L Ed 384—City of New York v Idlewild Beach Co., 43 NYS 2d 567, 182 Misc 205, affirmed 50 NYS 2d 341, 182 Misc 213

(2) Where defendant conveyed to its codefendant land on which water rents were delinquent, and became codefendant's tenant on land, both were liable for water rent accruing during defendant's occupancy as a tenant, and defendant alone was liable for water rent which had accrued before the conveyance—City of New York v Idlewild Beach Co., supra

55. Cal—Page v City of Santa Rosa, 65 P 2d 775, 8 Cal 2d 311

Mass—B & B Amusement Enterprises v City of Boston, 8 NE 2d 788, 297 Mass 307

Pa—Roma E Provincia Building & Loan Ass'n v Penza, 175 A. 430, 115 Pa Super 201—Securities Guaranty Corporation v Pacheto Co., 171 A. 291, 112 Pa Super 360—Provident Trust Co of Philadelphia v Judicial Building & Loan Ass'n, 171 A. 287, 112 Pa Super 352—Duddy v Ciccarone, Pa Com Pl., 57 Montg Co 7

67 C.J. p 1264 note 89

### Effect of authority to file lien

(1) Statutory authority to file municipal lien or claim against realty for water rents or rates imposes no personal liability on owner—Provident Trust Co of Philadelphia v Judicial Building & Loan Ass'n, 171 A. 287, 112 Pa Super 352.

(2) Liens generally see infra § 308

56. Vt—Waldron v. International Water Co., 112 A. 219, 95 Vt. 135, 13 A L.R. 340

57. Tenn—Farmer v. City of Nashville, 156 SW. 189, 127 Tenn. 509, 45 L.R.A., NS, 240.

67 C.J. p 1264 note 91.

ever, do so where there is statutory authority therefor,<sup>58</sup> and, under constitutional authority, an ordinance may be adopted making the owner of realty liable for all charges for service and water supplied by the city through connections installed and maintained by him<sup>59</sup>

Where water is used in common by two parties out of one connection, they are jointly liable for the rents,<sup>60</sup> although the house was rented in the name of only one of them,<sup>61</sup> and notwithstanding the water company had no knowledge that the water was being used by the other party,<sup>62</sup> and, on refusal of one of the joint users to pay, the other is liable for the entire rent<sup>63</sup> A party otherwise entitled to service on individual meter connection is not, however, liable to pay additional charges accrued against a common service connection to the group of residences in which he lives<sup>64</sup>

A husband required by court order to provide his wife with a house, pay taxes, "and so on," is liable for water furnished to her.<sup>65</sup>

The lessee of a suite of rooms having separate water fixtures in an apartment house is liable for the rents for water furnished to him under a statute imposing liability on the "occupant of any tenement."<sup>66</sup>

*Notice of purchase.* A regulation providing that one purchasing property without notifying the Water Registrar may be compelled to pay the full current water rate for the property has been held reasonable<sup>67</sup> and to impose no undue hardship on the

purchaser.<sup>68</sup>

### c. Time for Payment; Payment in Advance

In general, a municipality or water company may decide when payment for water shall be due. Payment for a reasonable time in advance, or a reasonable deposit, may be required; but authorities differ as to whether a penalty may be imposed for late payment.

Generally speaking, a municipal corporation operating a water system may adopt such rules as to the time for payment for water supplied to consumers as its authorities may deem expedient,<sup>69</sup> and a water company may make its charges fall due at such times, as quarterly or at other stated intervals, as it may see fit<sup>70</sup>

*Payment in advance, or deposit as security.* Consumers may lawfully be required to pay water rates for a reasonable time in advance,<sup>71</sup> or to make a reasonable deposit as security for payments to become due<sup>72</sup> A regulation, however, requiring takers of water to pay rent for a whole year, in advance, whether or not they actually use water for that length of time, has been held unreasonable and unenforceable, in the absence of special agreement<sup>73</sup>

*Discount for prompt payment* of water rates may be provided for<sup>74</sup>

*Penalty for late payment* It has been held that an extra charge, of the nature of a penalty, may rightfully be made when water rates are not paid when due,<sup>75</sup> but, according to other authority, a regulation requiring the payment of an additional

Duty to supply all applicants see supra § 278

67 C.J. p 1265 note 12.

sum for delay or delinquency is unreasonable and void, in the absence of a statute authorizing it <sup>76</sup>

### § 303. Remedies

A municipality or company may make reasonable rules and regulations to assure payment for water furnished.

The right of the citizen to be supplied with water by a public company, as discussed supra § 278, is qualified by the duty of the citizen to pay or tender the customary rents<sup>77</sup> and provide the means of conveying the water from the water mains onto his property,<sup>78</sup> and a municipality or a company furnishing water may make reasonable rules and regulations to assure the payment of bills therefor <sup>79</sup>

### § 304. — Of Water Company or Municipality Supplying Water in General

A municipality or water company supplying water may have an action for the amount due therefor. In such action, questions as to such matters as pleading, evidence, and instructions are governed by the principles relating to civil actions generally.

It has been held that a city has no right to bring an action of assumpsit against an owner of premises, not in occupancy thereof, for water rents or water rates,<sup>80</sup> its rights against such owner being

limited to filing a municipal claim against the premises, a lien in rem.<sup>81</sup>

Either a municipality or private water company may have an action against a private consumer for the amount due from him,<sup>82</sup> and, although the statute of limitations may be pleaded in defense to such an action,<sup>83</sup> it is no defense that no water was actually used if defendant had the facilities for drawing it and plaintiff was ready and able to supply it <sup>84</sup> So, it is no defense that failure to furnish sufficient pressure was a breach of contract precluding recovery for water actually furnished where the water supplied was accepted and no counterclaim was pleaded,<sup>85</sup> nor is a city estopped to pursue the remedy by having previously accepted less than full payment, there being no plea of accord and satisfaction,<sup>86</sup> or to collect back water taxes from a purchaser at a sheriff's sale by having neglected to collect from year to year <sup>87</sup> Likewise, where a city charter provides for recovery by the city against an owner of property for water used on the premises, the city's failure immediately to shut off the water supply of a tenant in arrears for water does not estop the city to collect from the owner, within a year, the amount of its claim for water used by the tenant <sup>88</sup>

76. Miss—Carmichael v. City of Greenville, 73 So 278, 112 Miss 426—Ford v Vicksburg Waterworks Co., 59 So 880, 102 Miss 717, 43 L.R.A.N.S., 63

80. Pa—Roma E Provincia Building & Loan Ass'n v Penza, 175 A. 430, 115 Pa Super 201

Persons liable see supra § 302 b

#### No subrogation against owner

(1) Water rents are not recoverable by purchaser at sheriff's sale from owner not in occupancy, since city has no right to bring assumpsit to which purchaser can be subrogated against such owner—Roma E Provincia Building & Loan Ass'n v. Penza, supra

(2) Mortgagee purchasing on foreclosure cannot acquire by subrogation

to city's rights any right of personal action against owner not in possession for water rents—Provident Trust Co of Philadelphia v Judicial Building & Loan Ass'n, 171 A 287, 112 Pa Super 352

(3) Mortgagee paying water rents on foreclosure and seeking subrogation to city's rights against mortgagor's alienee, whose tenant occupied premises, was held limited to municipal claim—Securities Guaranty Corporation v Pacheto Co., 171 A 291, 112 Pa Super 360

81. Pa—Roma E Provincia Building & Loan Ass'n v Penza, 175 A 430, 115 Pa Super 201.

Liens generally see infra § 308.

82. Mo—St Louis v. Arnot, 7 S.W. 15, 94 Mo 275  
67 C.J p 1265 notes 19, 20

#### Quantum meruit; judicial questions

Where contract by city to furnish water to adjoining city at specified rates was terminated, city furnishing water, if able to establish that service rendered, on basis of quantum meruit, was worth more than amount which it had received, would be entitled to recover therefor unless precluded on other grounds; and whether it was entitled to recover, and amount of recovery, would be judicial questions not within jurisdiction of Railroad Commission—City of Milwaukee v. City of West Allis, 258 N

W 851, 217 Wis 614, rehearing denied 259 NW 724, 217 Wis 614

#### Revival of right to maintain action; condemnation

Where tax liens and delinquent water rents were bid in for city, and title to realty incumbered thereby had vested in city as result of condemnation proceedings, evidence established that instrument canceling tax liens was properly executed, so that city's right to maintain an action to enforce awardees' personal liability for the water rents was revived—City of New York v. Idlewild Beach Co., 43 N.Y.S 2d 567, 182 Misc 205, affirmed 50 N.Y.S 2d 341, 182 Misc 213

83. Iowa—Marion Water Co. v. Marion, 96 N.W 883, 121 Iowa 306

84. Ala—Montgomery v. Montgomery Water Works Co., 77 Ala 248  
S.C.—Cox v. Abbeville Furniture Factory, 54 S.E 830, 75 S.C 48.

85. Mo—State ex rel. St Joseph Water Co v Eastin, 213 S.W. 59, 278 Mo 662.

86. Mo—State ex rel St. Joseph Water Co v Eastin, supra.  
67 C.J p 1265 note 24.

87. Pa—Girard L. Ins., etc, Co v. Philadelphia, 12 Phila 293

88. Minn—Prudential Co. of Minn v. City of Minneapolis, 277 N.W. 351, 202 Minn. 70.

In an action by a water company to recover charges for water furnished, a defense of deficiency in service, set up by defendant in his answer, will not be stricken by the court for want of jurisdiction, although such matter is within the jurisdiction of the Public Service Commission and must first be determined by it,<sup>89</sup> but a court has been held to be without jurisdiction to determine defendant's right, in such action, to a set-off for allegedly illegal charges made in preceding years, where a statute gives the Public Service Commission sole jurisdiction to determine the propriety of rates fixed and charges made<sup>90</sup>

In a municipality's suit for the cost of water used, an amended petition has been held not subject to defendant's exceptions for vagueness<sup>91</sup> The municipality's claim, in such suit, as alleged in its petition, has been held not based on mere conclusions and suppositions so far as it was predicated on particulars which the municipality failed to allege because such particulars were in defendant's possession<sup>92</sup>

Ordinances adopted by the city under its power to regulate the use of meters and the prices charged are admissible in evidence,<sup>93</sup> as is evidence tending to show that defendant did not use the amount of water alleged,<sup>94</sup> but evidence immaterial to the issue or not tending to prove any issue should be excluded.<sup>95</sup>

A plea that the rates are unreasonable is not es-

tablished where there is no evidence touching the usual rates charged in other cities under like conditions or of the value of the plants during the period involved<sup>96</sup> The amount of the charge for water service must be reached with that certainty which would warrant a recovery in an action for goods sold and delivered<sup>97</sup> In an action by a utility company to recover the value of fire hydrant services rendered to a community, evidence has been held not to show an express agreement by defendant to pay for such services,<sup>98</sup> and in an action by a water company against a municipality to recover increased rates, evidence has been held to show that the company waived its right to immediate enforcement of the rate increase<sup>99</sup> Particular evidence has been held to sustain a finding as to the reasonable value of water supplied<sup>1</sup>

Defendant cannot complain of an instruction that, in order to find for plaintiff, the jury must believe that it furnished the exact number of gallons mentioned in its bill<sup>2</sup> In an action against a city for hydrant water rentals, wherein the city counter-claimed for half the price of hydrants furnished under contract, the court's conclusion fixing the number of the hydrants bought and furnished by the city has been upheld<sup>3</sup>

The recovery may include interest on the amount due,<sup>4</sup> although such recovery has been denied where the contract did not provide for interest and there was no testimony showing that the parties had agreed as to the amount due<sup>5</sup>

shutting off water when bills are overdue and refusing to furnish water until they are paid.

A water company or a municipality may enforce payment of its lawful charges by shutting off the water from particular premises when the bills for water furnished there are overdue, and refusing to furnish water until the bills are paid,<sup>7</sup> such right being specifically granted by some statutes or charters,<sup>8</sup> but the service may not be discontinued arbitrarily,<sup>9</sup> unjustly,<sup>10</sup> inequitably,<sup>11</sup> or without legal right<sup>12</sup> Thus, this measure cannot be resorted to where the company is itself at fault in having failed to furnish a sufficient supply according to contract,<sup>13</sup> nor can it be used to enforce payment of charges for an excess of water not properly measured,<sup>14</sup> or to coerce the consumer into paying an unjust<sup>15</sup> or incorrect<sup>16</sup> bill, or one which, in good faith, he disputes,<sup>17</sup> or a bill for something

11. N J.—Munson Dye Works *v* Mayor and Aldermen of Jersey City, 173 A 92, 116 N J Eq 245, reversed on other grounds 174 A 740, 116 N J Eq 568

17. SC.—Poole *v* Paris Mountain Water Co., 62 S E 874, 81 SC 438, 128 Am SR 923 67 C J p 1267 note 45

#### Dispute as to liability or amount

(1) Generally

Ill.—Barry *v* Commonwealth Edison Co., 29 N E 2d 1014, 374 Ill. 473

Miss.—Womack *v* Peoples Water Service Co., 61 So 2d 785, 216 Miss. 169

(2) While consumer will not be granted relief because of discontinu-

else besides water service.<sup>18</sup>

Likewise, the measure cannot be resorted to as a means of collecting an overdue and disputed installment of water rent after the company has accepted payment of a subsequent installment,<sup>19</sup> or of collecting a debt for water supplied at a previous time and by another company assigned to the one asserting the right,<sup>20</sup> and, when a consumer tenders payment of the established rate in advance for the service he is demanding, the company cannot, as a condition precedent to supplying him, require him to pay an old or disputed bill for water furnished him at some previous time,<sup>21</sup> or for some other and independent use,<sup>22</sup> or at some place other than that for which he is demanding water.<sup>23</sup>

Where the right to shut off the water is given in a contract authorizing the company to require payment of all rents therein agreed to be paid as a condition of turning on the water, the charges referred to are for water supplied under the contract, and not for water supplied previously at a different place.<sup>24</sup> A company may refuse to make stipulations not called for by its contract and subsequently shut off the water on the consumer's failure to pay as a result of such refusal.<sup>25</sup>

Refusal to restore water service is not justified, however, by the customer's refusal to sign a receipt which would constitute evidence that he had paid on another's account, not on his own, and which tended to justify the cutting off of his water, which had already occurred,<sup>26</sup> nor is refusal of water service paid for as per bill erroneously

made out for service at the customer's former residence excused by failure to pay the balance due for service at the new residence,<sup>27</sup> it is not the duty of the customer in such case to assume the initiative in adjusting the difference.<sup>28</sup>

The fact that a resident who has failed to pay water rents refuses to permit the owners of the water system to cut off his water supply, and prevents them from doing so, does not warrant the issuance of an injunction, at the request of the owners, to restrain the residents of the town from interfering with the operation of the water system.<sup>29</sup>

**Period of default** Where the rules of the company authorize termination of the supply a certain time after date of bill, the supply cannot be cut off until the time has elapsed.<sup>30</sup> Where a statute gives a city the right to cut off water service until delinquent charges are paid, an amendment providing that the lien shall not be for more than four months' charges has been held not retroactive,<sup>31</sup> so that the four months' limitation does not apply to charges becoming delinquent before the effective date of the statute.<sup>32</sup>

**Notice.** An ordinance requiring ten days' notice before a company is authorized to shut off a consumer's supply even though he is in arrears with his rent is valid.<sup>33</sup> Where the company refuses to accept the rent tendered until it has investigated the consumer's premises, it must notify him of the result of the investigation or make further demand for payment before cutting off the water.<sup>34</sup>

ance of service for nonpayment of bill where he has not presented basis for bona fide dispute of amount claimed to be due, where facts indicate there is ground in good faith to dispute correctness of amount claimed by company, the consumer, upon tendering rate for current term, is entitled to have service continued pending settlement of disputed overdue account—*Schultz v Town of Lakeport*, 54 P 2d 1110, 55 P 2d 485, 5 Cal 2d 377, 108 A L R 1168

#### Reason for rule

(1) Otherwise the utility, in effect, would pass judgment on its own case—*Barry v Commonwealth Edison Co.*, 29 NE 2d 1014, 374 Ill 473

(2) Summary power of shutting off water to coerce payment of current bills or water rent, vested in water company, is not deemed to exist concurrently with necessity to litigate claim disputed in good faith—*Schultz v Town of Lakeport*, 54 P 2d 1110, 55 P 2d 485, 5 Cal 2d 377, 108 A L R 1168.

34. Ala—*Birmingham Water Works Co v Bailey*, 59 So 338, 5 Ala App 474.

*Statutes providing for a lien for municipal claims* do not take from the municipality or water company the remedy of cutting off the water supply<sup>35</sup>

*Default of one of several joint users* Although it has been held that a municipality, operating its own waterworks, cannot refuse to furnish water to a tenant acting in good faith who is not in exclusive possession of the premises because the tenant of the other portion has not paid for water furnished,<sup>36</sup> in other jurisdictions the rule is that where water is supplied to joint users one of whom is in arrears and on demand refuses to pay the amount justly due, the company is under no duty to supply water through a joint service pipe to consumers who have paid if in doing so the person in arrears would also be supplied,<sup>37</sup> and failure of the party paying his just proportion also to pay that of the defaulter excuses refusal to supply him with water<sup>38</sup> So, a company is not required to supply water to a residence on demand of a member of the family there residing while there is an unpaid bill for water furnished there on demand of another member of the family.<sup>39</sup> The company is not, however, justified in turning off the water on refusal of one joint user to pay the whole amount, there must be a refusal of both to pay<sup>40</sup> If a claim was not justly due, the existence of a demand therefor affords no excuse for refusal to supply the water<sup>41</sup>

*Failure to pay cost of connection.* A regulation providing for discontinuance of service on failure to pay reasonable expenses of making a water connection is valid and enforceable,<sup>42</sup> although, in the absence of statute, charter provision, or regulation, a city, after making the connection and turning on the water under a contract, cannot discontinue it for failure to pay the cost of such connection<sup>43</sup> Ordinances requiring that owners of land formerly for-

feited to the state for delinquent taxes pay, as a connection charge and as a prerequisite to securing water service, that portion of a special assessment against the land, for water improvements, not realized from the proceeds of the sale of land by the city have been held invalid<sup>44</sup>

*Expense of turning water off and on.* When water has been lawfully turned off, it has been held that the company may refuse to restore the supply until reimbursed for the expense of turning the water off and on,<sup>45</sup> but there is authority denying the right<sup>46</sup>

*Waste.* An ordinance providing that water may be shut off in case of unreasonable waste, until such waste is stopped and all arrears are paid, does not authorize the discontinuance of water service for nonpayment of accounts that may be rendered for reasonable waste<sup>47</sup>

*Tender of full amount due,* although after default, defeats the right to shut off the water,<sup>48</sup> and, where the tender is made before the water is turned off, no fee can be charged for turning it on<sup>49</sup>

*Waiver.* The company turning on the water on false representation of the user's nonliability does not waive the right to turn it off again on his failure to pay<sup>50</sup> A city has been held not to waive its statutory right to shut off water service by allowing water charges to accumulate, and failing to cut off the water supply, for a considerable period of time<sup>51</sup>

#### b. Bills Incurred by Third Persons

It is only where a statute expressly or in effect so permits that water may be cut off for nonpayment of bills incurred by one other than the current occupant or consumer.

A municipality or water company cannot resort

|---|--|---|

to cutting off the water supply as a means of collecting bills left unpaid by a former tenant, occupant, or owner of the building, in the absence of a statute expressly authorizing it or making the arrearages a lien on the lands,<sup>52</sup> or of contractual authority,<sup>53</sup> although it may do so where such a statute or lien exists,<sup>54</sup> but not where a lien once had has been lost.<sup>55</sup> In other words, no right exists to cut off the water supply to compel payment of a bill which it is not the duty of the consumer to pay.<sup>56</sup> So, a company's rule that service might be discontinued if the water rates are unpaid for a specified period makes the new owner of property liable for service rendered while the property is owned by him, but not for service rendered while the property was owned by the prior owner.<sup>57</sup>

Except where there is a statute making the charge a lien on the premises,<sup>58</sup> a tenant cannot be denied water service because the landlord is in arrears,<sup>59</sup> and the tenant need not, in such case, pay the arrears of the landlord as a condition to water service;<sup>60</sup> nor may an owner be refused water for failure of a tenant to pay his bill where the owner has not guaranteed payment.<sup>61</sup>

Where the discontinuance of service for nonpayment of another's arrearages is authorized, the water may not be shut off unless the consumer had notice that he would be required to pay.<sup>62</sup> The right to shut off the water for nonpayment of another's bills, where it exists, is not waived by the failure of the city to exercise its statutory right to require a deposit for the payment of the bills.<sup>63</sup>

### § 306. — Water Wrongfully Taken

The full value of water wrongfully taken may be recovered, with interest.

A municipality or water company supplying water to private consumers has the right to maintain an action in tort for unlawfully abstracting water from the public supply,<sup>64</sup> and the same relief may be had by cross bill for an accounting therefor filed by defendant in a suit to enjoin shutting off the water.<sup>65</sup> The right is not divested by a charter providing for water commissioners who would be vested with the ownership of the municipal water plant and the revenue thereof.<sup>66</sup> The liability of a corporation exists even though its officers, directors, and stockholders did not know that the water was being un-

lawfully used,<sup>67</sup> but, where the complaint is predicated on a wilful, intentional, and fraudulent stealing of the water, the question of defendant's knowledge is material<sup>68</sup> and will not be presumed as a matter of law from the mere fact that a valve was opened with the knowledge of defendant's chief engineer.<sup>69</sup>

The measure of damages is the full value of the water at the time of the conversion,<sup>70</sup> together with interest on that value from that time,<sup>71</sup> and, in computing the amount thereof, every presumption will be made against the tort-feasor.<sup>72</sup> The amount of water taken, and for which payment must be made, is necessarily to be arrived at by approximation from such evidence as is available,<sup>73</sup> and, the fault having been the customer's, he cannot require that the amount taken be proved with certainty, but must bear the risk of the uncertainty produced by his own wrong.<sup>74</sup> Where there is no evidence as to the amount, at least a nominal sum is recoverable.<sup>75</sup> Particular evidence has been held sufficient to justify a finding that defendant corporation authorized the opening of a valve connecting its pipes with plaintiff's water mains.<sup>76</sup>

### § 307. — Of Private Consumer

- a. In general
- b. Injunction
- c. Recovery back of amounts paid
- d. Action for wrongful discontinuance of service

#### a. In General

A consumer in a bona fide dispute with a water company as to the amount due must pay the amount demanded and sue for its recovery or seek an injunction against the cutting off of the water supply pending a judicial determination of the matter in issue.

Where there is a bona fide dispute between a water supply company and a consumer as to the

amount due for water supplied or to be supplied under a reasonable regulation requiring payment in advance, the consumer, in order to save his supply of water pending settlement of the dispute, is required to pay the amount demanded, and sue for its recovery if unjust in law and fact, or to invoke the equity jurisdiction of the court to enjoin the company from cutting off the water supply pending a judicial determination of the matter in issue, offering to pay the sum the court may ascertain to be due.<sup>77</sup> If the water supply has wrongfully been cut off, the consumer may bring an action at law for damages therefor, as discussed *infra* subdivision d of this section.

A consumer who protests against the water company's method of computing and billing for water, and persistently renews his objections, does not acquiesce in such method by failing to file promptly a formal complaint with the Public Service Commission.<sup>78</sup>

In an action to declare that the acts and proceedings of a municipality in readjusting the water rates are void, a complaint has been dismissed as not stating facts sufficient to constitute a cause of action, where the rate complained of was fixed by a local law or ordinance enacted in accordance with the charter.<sup>79</sup>

*Accounting and restoration of funds* Within a statute permitting a taxpayer to sue for misapplication of municipal funds only where the city solicitor fails to file suit, plaintiffs are entitled to be regarded as water rent payers, and not necessarily as taxpayers, where they allege that they are water rent payers and sue to compel an accounting and restoration of funds of the water department, and the petition contains no mention of surplus funds or payment of taxes,<sup>80</sup> plaintiffs could institute such action without alleging that they first made demand on the city solicitor to bring the suit.<sup>81</sup>

Water charges as not taxes see supra § 284.

81. Ohio.—Himebaugh v. City of Canton, supra.

**b. Injunction**

- (1) Restraining enforcement of improper charges in general
- (2) Preventing discontinuance of supply

- (1) Restraining Enforcement of Improper Charges in General

A consumer may seek an injunction against enforcement of a charge which he claims to be unreasonable or improper.

A consumer of water may apply to the courts to restrain the enforcement of a charge which he claims to be unreasonable or improper.<sup>82</sup> So, where the water furnished is unfit for domestic use, an injunction against the collection of charges other than for the furnishing of water for the extinguishing of fires and the flushing of pipes and sewers has been held proper.<sup>83</sup>

*Company exceeding lawfully established rates*  
Where rates established by public authority or in the manner contemplated by law have not been changed by proper proceedings, a water company is properly enjoined, at the suit of a customer, from charging higher rates.<sup>84</sup> An order restraining the collection of rates exceeding those theretofore duly established ceases, however, to have restraining force when such rates are changed in the manner provided by law.<sup>85</sup>

A complaint alleging the promulgation and publication of rates for water service, that such rates were the only ones in force during the period in

question, and that defendant charged plaintiff in excess of such rates, states a cause of action for injunctive relief.<sup>86</sup>

- (2) Preventing Discontinuance of Supply

- (a) In general
- (b) Proceedings in suit

- (a) In General

An injunction will lie to prevent the shutting off of a water supply in order to force payment of an unreasonable or improper rate or charge.

Where a water company or municipality threatens to shut off the supply, in order to force payment of an arbitrary, unreasonable, or excessive rate, or an improper charge, a court of equity has jurisdiction to prevent it by injunction,<sup>87</sup> and injunction is the proper remedy where the consumer denies in good faith either his liability<sup>88</sup> or the amount of the charge.<sup>89</sup> The application for injunctive relief should be accompanied by a tender of the amount conceded to be due,<sup>90</sup> or by an offer to pay the sum which the court may ascertain to be due<sup>91</sup> or to furnish security for such sum,<sup>92</sup> and an injunction will not issue at the suit of one who refuses to pay a reasonable amount for the water.<sup>93</sup> Even where plaintiff has unlawfully abstracted water without paying for it, on paying for the water thus wrongfully taken he is entitled to an injunction preventing discontinuance of the supply furnished by meter so long as he complies with the reasonable rules of the company.<sup>94</sup> Discontinuance of water service

82. Ala.—*Mitchell v City of Mobile*, 13 So 2d 664, 244 Ala 442  
67 C.J. p 1255 note 51 [a], p 1269 note 2

**Charge for water wasted; lowering street grade**

A property owner seeking to restrain village from taxing him for water necessarily wasted in an effort to keep pipe from freezing as result of lowering of street grade, and to compel village to abate the nuisance thereby caused, was not required to bring action under statute providing for recovery of damages for change of grade, where his claim is that village owed him same duty as private corporation would owe under same circumstances.—*McCabe v Village of Waterville*, 14 N.Y.S.2d 908, 257 App Div 609.

**Validity of old bill not litigated**

Where a city which has continued to furnish a consumer with water for which he has paid, shuts off his water supply because of his refusal to pay an old water bill, and the consumer sues for an injunction, the city cannot litigate the validity of the old bill in the injunction suit, but must sue thereon at law.—*Hiller v City of Pinckneyville*, 269 Ill App 53

**Claim against city not thus enforceable**

A physician rendering medical services to city employees and refusing, unless the city credited him with his charge therefor, to pay a water bill, was not entitled to a mandatory injunction, issued without notice and continued after answer and mo-

tion to dissolve, to compel the city to restore his water supply which the city had shut off because of nonpayment of water bill, his claim against the city, if any, being enforceable not in such manner, but only by a suit at law.—*Hiller v City of Pinckneyville*, supra.

will also be enjoined where it is threatened as a means of compelling payment of a bill for something other than water <sup>95</sup>

The fact that public utility commissions have jurisdiction in cases involving the correctness of charges does not deprive courts of equity of their jurisdiction,<sup>96</sup> although it has been held that equity has, in an injunction suit, no jurisdiction to consider the reasonableness of effective regulations of a water company where the legislature has made that a matter purely for the public service commission.<sup>97</sup> A municipal corporation has no legal interest to enjoin a discontinuance of service to private consumers refusing to pay increased rates where no contract with the municipality is involved,<sup>98</sup> and the owner of a building in the possession of a tenant has no standing to enjoin a water company from shutting off the supply <sup>99</sup>

The remedy by injunction does not lie where plaintiffs are receiving water, no threats or attempts had been made to shut it off, no suit has been filed to collect the unjust rate, and no irreparable injury would result to plaintiff if the injunction were refused.<sup>1</sup>

The general rule that equitable relief does not lie where there is an adequate remedy at law by mandamus or otherwise, as discussed in Equity §§ 20, 31, is applicable <sup>2</sup>

*Failure to protest against a minimum charge* has been held not to constitute fraud or unclean hands, so as to preclude relief by way of injunction <sup>3</sup>

*A temporary injunction* may issue,<sup>4</sup> at least where the consumer seeking it is apparently quite solvent and an injunction bond with a presumably solvent surety has been given <sup>5</sup> So, a temporary injunction may properly be issued where there is a good-faith dispute as to the correctness of the amount of the bill<sup>6</sup> or of the consumer's liability therefor;<sup>7</sup> and a temporary injunction will issue pending a hearing to determine whether increased rates are reasonable <sup>8</sup> Where the ordinance under which defendant's right to furnish water is secured provides for denial of compensation in case the water furnished is below a certain standard of purity, a temporary injunction based thereon is proper notwithstanding a statute conferring on the public utilities commission jurisdiction over facilities and service of public utilities <sup>9</sup>

*Where water rates have not been fixed* as provided by the legislature, a consumer is entitled to an injunction restraining the municipal authorities from cutting off his water supply, on condition that he permits a meter to be installed to measure the water actually used while the injunction continues <sup>10</sup>

#### (b) Proceedings in Suit

In suits to enjoin the discontinuance of service for nonpayment of water charges, general rules have been applied as to parties, pleading, and evidence.

In a suit to enjoin the discontinuance of service to private consumers for nonpayment of water rents or charges, there has been held to be, in the particular circumstances, no misjoinder of parties plaintiff<sup>11</sup> or, under the specific facts of another case, of

**Controversy as to right to free service**

(1) Where grantors, conveying land to city, and city entered into contract providing for free water service, and right of grantors and subsequent grantees to free service had been uniformly and continuously recognized for 32 years, grantees were entitled to temporary injunction to have status quo preserved pending determination of controversy regarding right to free service—Vinson v City of Winters, *supra*

(2) Free supply generally see *supra* § 283

8. NY—Whitmore v New York Interurban Water Co., 142 NYS 1098, 158 App Div 178—New York Interurban Water Co v City of Mt Vernon, 180 NYS 304, 110 Misc 281

9. Ill—City of Lawrenceville v Central Illinois Public Service Co., 197 Ill App 59

10. NY—Johnson-Kahn Co v Thompson, 125 NYS 443, 68 Misc 639

**11. Interest of owners of realty**

In action by owners of realty and distilling corporation to which realty was leased to restrain city from shutting off water supply to the realty, where part of the rent was based on number of wine gallons of alcohol produced in the distillery, the owners had an "interest" in the litigation, and hence there was no misjoinder of parties plaintiff—Coult v Mayor and Board of Aldermen, City of Gretna, La App, 11 So.2d 424.

parties defendant<sup>12</sup> The complaint must contain a plain and intelligible statement of the grounds for relief,<sup>13</sup> and should allege that complainant has been damaged or would likely be injured by the act complained of<sup>14</sup> If the threatened discontinuance of service is for refusal to pay increased rates, the complaint must allege that the proposed rates are unjust or unreasonable,<sup>15</sup> and, where it is claimed that the rates demanded are excessive, the complaint must allege the establishment of legal rates<sup>16</sup>

It will be presumed that meter readings are accurate,<sup>17</sup> and that the charge for the water is correct<sup>18</sup> or reasonable,<sup>19</sup> also, where a municipal charter requires that water for domestic quantity use in a reasonable quantity be furnished free to inhabitants, a presumption arises, in the absence of a showing to the contrary, that the municipal utilities board fixed a standard of reasonableness in the amount to be used, that a charge would be made for any excessive use, and that service would be discontinued on nonpayment thereof<sup>20</sup> On an issue as to the amount of water furnished, the user has the burden of showing that the charge is incorrect<sup>21</sup> Where, however, the city claims that, because of the improper functioning of the consumer's meter, he has been charged insufficient water rent over a period of months, and the consumer honestly disputes the amount of the present claim, it is held

incumbent on the city to prove the correctness of the amount claimed<sup>22</sup>

Particular evidence has been held sufficient to show that the difference in the parties' estimate of water used was due to a leak in the consumer's pipes,<sup>23</sup> and that plaintiff's bathtubs were being used by his tenants, although without faucets attached<sup>24</sup> There should be a finding as to the amount due, although defendant does not ask for such judgment<sup>25</sup>

#### c. Recovery Back of Amounts Paid

- (1) In general
- (2) Voluntary payments; payments under duress
- (3) Payment under mistake of fact or law
- (4) Proceedings in actions

##### (1) In General

In various circumstances, a consumer of water may recover money paid by him, as where he has been compelled to pay a bill accruing during a prior tenancy or where part of his advance payment remains unearned on discontinuance of the service

Where a water company requires payment of its charges in advance, on discontinuance of service, so much of the payment as is unearned must be returned<sup>26</sup> A consumer may recover money paid by him as a trust fund for water in excess of amounts shown by meters, where such fund is misappropriated<sup>27</sup> He has no right to complain of wrong-

#### 12. Failure to sue sewerage and water board alone

In action against city, its mayor and board of aldermen, and the superintendent of its waterworks, to enjoin defendants from shutting off the water supply, failure to sue the city sewerage and water board alone did not constitute a misjoinder of parties defendant, where board was not a legal entity, but was created by city council and was composed of two members of the board of aldermen, together with the city superintendent, and was operated under the city's general direction—*Coult v Mayor and Board of Aldermen, City of Gretna*, supra

#### Transfer of money to department's general funds

Where water department received money from customer to be deposited in trust fund as guarantee, under agreement requiring determination "by agreement, negotiation or court action," as to payment, if any, due for water deliveries, in excess of those registered by meters, and department, after ex parte determination as to sum due, transferred money to own general funds, department, by so doing, cut off possibility of "court action" for determination of amount owed, and even if its claims were not barred by limitation, they were not valid defense to customer's recovery for misappropriation—*Imperiale v City and County of San Francisco*, supra.

ful collections on the ground that the trustees of a municipal waterworks were not lawfully appointed where all the funds collected were turned over to the city treasurer and properly applied<sup>28</sup>

Where rates have been held unreasonable, the right of water users to recover reparations, in accordance with the order so holding, does not depend on their having signed the original complaint against the proposed rates<sup>29</sup>

Where collection of a water bill is erroneously made and it is paid under protest, and the collector of taxes took no part in the controversy, committed none of the acts which compelled the payment, and had no notice that the bill was being paid under protest, no personal liability rests on him<sup>30</sup> The fact that the citizens of a municipality have not asked for reparations because of excessive payments made by them does not give the municipality the right to have such excess credited on its unpaid debt to the water company<sup>31</sup>

*Recovery by tenant from prior tenant.* A tenant, threatened under statute with the cutting off of his water supply for failure to pay a water bill which accrued during a prior tenancy, has been held entitled to pay such bill and look to the prior tenant for indemnity,<sup>32</sup> regardless of the latter's lack of consent<sup>33</sup> and notwithstanding his protest,<sup>34</sup> and the fact that the tenant paying is himself secondarily liable does not relieve the prior tenant of his primary liability<sup>35</sup> In seeking reimbursement, the tenant paying stands in the shoes of a creditor;<sup>36</sup>

he cannot recover more than was actually due from the prior tenant,<sup>37</sup> and that amount is required to be established by evidence<sup>38</sup>

*Estoppel.* Although a water user might recover an excess of illegal water rates under a complaint demanding treble damages, he is estopped so to recover when he did not question the city's right to collect, and permitted the city to expend money for the benefit of all patrons of the water plant<sup>39</sup>

## (2) Voluntary Payments, Payments under Duress

Payments of excessive water charges are ordinarily not recoverable if voluntarily made, but where payments are made under threat of shutting off the water, the excess over the amount legally due is recoverable.

Voluntary payments for excessive water charges are ordinarily not recoverable;<sup>40</sup> but under an ordinance making it the duty of proper city officials to refund duplicate payments, overpayments, payments on wrong property, or any payment occasioning the necessity, voluntary payments may be recovered<sup>41</sup>

A municipality's demand for the payment of back water rent as a condition to the turning on of water does not constitute duress, so that the payment of such arrearages by a principal tenant is a voluntary act, and the amount paid cannot be recovered<sup>42</sup>

If a consumer pays an excessive water charge, under protest and because of a threat to shut off the water, he may recover back the excess above the amount legally due<sup>43</sup> With respect to the right

Tex.—San Antonio Water Supply Co v. Green, Civ App, 198 S W 631

Assent to delivery of water without protest

Town which contracted with city for water supply was not liable for refund of excess of town rate, charged to an individual, over city rate, notwithstanding individual's application to city for supply, in view of statutes giving town right to supply water to inhabitants and to contract with city therefor, where user had actual knowledge of contract between city and town and had assented to delivery of water without protest—Lefebvre v Town of Pembroke, 194 NE 698, 290 Mass 8

Purpose or importance of water

An owner of premises, seeking to recover money paid under protest for water previously furnished to tenant, was not bound in order to prevent payment from being regarded as voluntary, to show purpose for which it wanted water or importance or necessity of having it, but merely that it would have been deprived of its right to water had it not submitted to unlawful exaction—B & B Amusement Enterprises v. City of Boston, 8 NE 2d 788, 297 Mass 307.

Payment held not voluntary

An apartment house owner's payment of illegal city tax on washtubs in apartments under protest in order to relieve property from lien and avoid penalty for delay in payment, was not so far voluntary as to deprive owner of right to recover amount illegally exacted—Effel Realty Corp v City of New York, 299 N Y S 373, 165 Misc 176, affirmed 11 N Y S 2d 250, 256 App Div 972, affirmed 24 NE 2d 978, 282 N Y. 541

42. D C.—Quick v District of Columbia, Mun App, 90 A 2d 235.

43. Mass.—B & B Amusement Enterprises v City of Boston, 8 NE 2d 788, 297 Mass. 307. 67 C J p 1271 note 39.

Payment by mortgagee

Mass.—Cambridgeport Sav Bank v. City of Boston, 8 NE 2d 790, 297 Mass. 309.

Acceptance of payment under protest

In action against city to recover money paid under protest, defense

to recover excess payments made, such payments are not voluntary where there is a threat to shut off the supply in case of nonpayment,<sup>44</sup> or where unpaid charges become a lien with penalties added for delay,<sup>45</sup> nor does the fact that a consumer may resort to equity to enjoin the collection make the payment without resort to equity a voluntary one.<sup>46</sup>

A payment may be recovered where no threat was alleged, but only that plaintiff was wholly dependent on defendant for its water supply,<sup>47</sup> the power to withhold service places the parties on unequal terms, and the law will regard as involuntary any payment made to secure the service.<sup>48</sup> Where plaintiff permitted by leakage in his pipes an unnecessary waste of much more water than he paid for, he is not entitled to recover the amount involuntarily paid in settlement of his bill.<sup>49</sup>

*Who may sue* The action must be brought by the owner of the claim,<sup>50</sup> and a tenant cannot sue for money paid under protest in his name by the landlord for illegal water rates.<sup>51</sup>

### (3) Payment under Mistake of Fact or Law

An institution entitled to free water may recover back payments made under mistake of fact.

Payments made under a mistake of fact for water furnished to an institution entitled to a free supply may be recovered back.<sup>52</sup> Where a charge does not, on its face, betray any illegality or invalidity, and the rule of law involved is dependent on the solution of a disputed issue of fact, recovery of

money improperly exacted cannot be prevented on the ground that payment was made under a mistake of law.<sup>53</sup>

### (4) Proceedings in Actions

In actions for the recovery of excessive or wrongful payments for water, general rules have been applied as to laches, pleading, evidence, and the amount of recovery.

Unreasonable delay in bringing a suit for an injunction and the refund of alleged excessive payments for water is such laches as to preclude recovery.<sup>54</sup>

In an action by a consumer of water to recover excessive payments made for the water, a complaint is fatally defective if it is not shown that the payment was involuntary.<sup>55</sup> In an action by a mortgagee, a declaration alleging that the city demanded payment by him of back charges contracted for by another, that the city, despite his protest, threatened to shut off the water, and that he made payment under protest, has been held sufficient.<sup>56</sup>

A statute making the fact that a water meter has been tampered with presumptive evidence that the water user tampered with it with intent to defraud has been held applicable in such an action.<sup>57</sup>

The burden is on plaintiff to show an excess charge<sup>58</sup> and the amount of such excess.<sup>59</sup> Where his theory is that the payment was made under duress, he has the burden of proving duress,<sup>60</sup> and,

that collector had no authority to bind city by accepting payment under protest would not preclude recovery, where city cashed check, which recited that it was for payment under protest, without seeking further information or notifying plaintiff that it did not receive money subject to conditions imposed.—*Cambridgeport Sav Bank v City of Boston*, supra.

if he alleges that the water was used for purely manufacturing purposes for which a lower rate was chargeable, he must prove that the water was so used.<sup>61</sup>

Evidence has been held sufficient to support particular findings<sup>62</sup> or insufficient to show duress<sup>63</sup>

A city wrongfully exacting payments is liable for interest thereon<sup>64</sup> and, under at least one statute, for treble damages<sup>65</sup> However, in a customer's action against a city water department for misappropriation of a sum received for deposit in a trust fund as a guarantee of payment, if any, due for water in excess of the amount registered by meters, under an agreement requiring determination by agreement, negotiation, or court action, interest before judgment is not recoverable, even if the department was guilty of tortious conversion<sup>66</sup>

#### d. Action for Wrongful Discontinuance of Service

- (1) In general
- (2) Proceedings in actions
- (3) Damages

##### (1) In General

A municipality or water company is liable in an action for damages for unlawfully discontinuing service.

Although an entry on the premises of the con-

sumer for the purpose of disconnecting water appliances is not a trespass where he has failed to pay just and reasonable charges,<sup>67</sup> a municipality or water supply company is liable in an action for damages for wrongfully discontinuing service,<sup>68</sup> and it is no objection to such an action that plaintiff should have commenced a proceeding for an injunction to restrain the threatened discontinuance of the service<sup>69</sup> Thus, the company is liable if it cuts off its service on the mistaken belief that the user has not paid,<sup>70</sup> or on the refusal of a consumer to pay an erroneous or unjust bill<sup>71</sup> or a bill for something else beside water service<sup>72</sup> In order to recover, plaintiff must show not merely good faith in his refusal to pay the charges demanded,<sup>73</sup> but also reasonable grounds for disputing the claim<sup>74</sup>

The action being individual with plaintiff and for a specific act, the jurisdiction of the public service commissions is not exclusive, and the action may be brought at law<sup>75</sup> The user need not pay, under protest, an amount unjustly demanded in order to maintain his action<sup>76</sup> It is not necessary that there should have been a written contract to supply,<sup>77</sup> nor need plaintiff prove that the tax collector who wrongfully cut off the supply had qualified by giving bond<sup>78</sup> Where it does not appear that plaintiff knew the exact amount due and the amount demanded was exorbitant, the question of tender is not involved<sup>79</sup>

61. Mo—American Brewing Co v City of St Louis, 108 SW 1, 209 Mo 600

62. Refusal to turn on water until charges paid

In action against city to recover money paid under protest for water charges contracted for by person other than plaintiff, evidence held sufficient to sustain finding that plaintiff applied to city to turn on water, but that city refused to do so until back charges were paid—Cambridgeport Sav Bank v City of Boston, 8 NE 2d 790, 297 Mass 309

##### Supplemental agreement

Evidence held sufficient to support finding that plaintiff, suing city to recover money paid for water exceeding the contract rate with city's predecessor, entered into a supplemental agreement with a predecessor, releasing it from further obligation, if the city raised the rates—Cudahy Packing Co v City of Omaha, CCA Neb, 24 F2d 3, certiorari denied 49 S Ct 9, 278 US 601, 73 L Ed 530

## (2) Proceedings in Actions

In actions against a municipality or water company to recover damages for wrongfully discontinuing service, general rules have been applied as to parties, pleading, evidence, questions for court and jury, and instructions.

The action will lie against a town even though its agents who are not liable individually are joined as defendants therein.<sup>80</sup> Where a contract between a municipality and a private company makes it the duty of the latter to supply water to all inhabitants of the former, such an inhabitant may sue in his own name for a breach thereof.<sup>81</sup> A wife has been held entitled to maintain a suit, after her husband's death, to recover damages from a city for the unwarranted discontinuance of water service, as against the contention that no privity of contract exists between the wife and the city.<sup>82</sup>

**Pleading** A general averment in the complaint in an action for wrongful discontinuance of service that the discontinuance or refusal of service was wrongful, negligent, or wanton is sufficient.<sup>83</sup> Where plaintiff alleges that he paid for the water as per bill rendered, it is not necessary to aver that the bill rendered and paid was for the correct amount or that it identified the premises.<sup>84</sup> An allegation that defendant and his servants and employees committed the act is equivalent to an averment that defendant, through his servants and employees, committed the act,<sup>85</sup> and hence is sufficient.<sup>86</sup>

**Evidence.** In an action for damages for cutting off the supply of water, evidence tending to show that the rate demanded was discriminatory has been held admissible,<sup>87</sup> as has evidence on the question whether there was an actual tender before service was discontinued,<sup>88</sup> as to what rate obtained at the time of the tender,<sup>89</sup> and as to the damage done by the discontinuance of service.<sup>90</sup>

General rules as to weight and sufficiency of evidence are applicable.<sup>91</sup>

**Questions for court and jury** In an action for damages for wrongfully cutting off plaintiff's supply of water, on conflicting evidence, it has been held to be for the jury to determine whether the municipality or water company acted wrongfully, or without just cause, in cutting off a customer's water supply,<sup>92</sup> whether the customer was damaged thereby,<sup>93</sup> whether the customer made proper efforts to reduce or minimize his damages,<sup>94</sup> whether the company refused to restore service save on payment of an unlawful exaction,<sup>95</sup> and whether the customer is indebted to the municipality for several months' supply, payment for which is demanded in the counterclaim,<sup>96</sup> and the question of the wantonness of the company in cutting off the supply and refusing to restore it is also for the jury.<sup>97</sup>

Instructions should correctly state the applicable law.<sup>98</sup>

**Confinement to issue in dispute**

An instruction that, if jury believed that meter did not correctly measure water consumed, that bill render-

### (3) Damages

In an action for wrongful discontinuance of water service, plaintiff is entitled to damages that will compensate him for his loss and for inconvenience and annoyance, and punitive damages may be awarded.

A water supply company which wrongfully discontinues service for nonpayment of charges is liable to the amount of damages that will compensate plaintiff for the loss he has suffered,<sup>99</sup> the measure of damages is governed by the rules of tort actions<sup>1</sup> Where plaintiffs had rented the building from which the supply had improperly been cut off, the loss of rents is an element of the damages<sup>2</sup>

Inconvenience and annoyance constitute proper elements of damage in actions of this sort.<sup>3</sup> Where the customer sustained no financial loss, he may be entitled, under the pleadings and proof, to recover only for the trouble, annoyance, and inconvenience caused by the wrongful act<sup>4</sup> The fact that plaintiff's wife was sick when the supply was cut off may be considered in aggravation of damages,<sup>5</sup> but only in so far as it resulted in annoyance and inconvenience of plaintiff himself<sup>6</sup>

When the circumstances justify it, punitive dam-

ed was incorrect, and that, by customer's refusal to pay bill, company turned off the water, jury should find for customer, was not prejudicially erroneous, but instruction should have been confined to the one issue in dispute, which was the correctness of the bill—Camp Taylor Development Co v Wimberg, supra

#### Employees bringing water to place of business

In action in which there was evidence that customer and his employees carried water to customer's place of business, refusal to instruct that customer could not recover damages on account of any one other than himself bringing water to his place of business, if he was thereby put to no expense, was held not error, since customer was entitled to employee's time in service for which employee was engaged—Alabama Water Service Co v Wakefield, 163 So 626, 231 Ala 112

99. Ala.—Sims v Alabama Water Co, 87 So 688, 205 Ala 378, 28 A L R 461

67 C J p 1273 note 85

Right to cut off supply for nonpayment see supra § 305

#### Damages held excessive

(1) Judgment for \$450 was held excessive, in view of evidence showing only partial destruction of consumer's floral and vegetable gardens on one-fifth acre of land, and judgment was reduced to \$226.50—Schultz v Town of Lakeport, 54 P 2d 1110, 55 P 2d 485, 5 Cal 2d 377, 108 A L R 1168.

(2) A verdict of \$1,000 for cutting off, for 27 days in May, the water supply to customer living with wife and seven children, so that they were required to carry water from neighbor's home, about 300 feet, was excessive, where there was no proof that company acted maliciously and evidence disclosed that customer refused to permit company agents to go on his premises to make an investigation to ascertain whether other service lines tapped the water line leading to customer's residence—Camp Taylor Development Co v Wimberg, 113 S W 2d 9, 271 Ky 635

#### Showing required as to loss of business

Operator of restaurant and rooming house, suing for loss of business, was required to produce evidence which, in light most favorable to him, would fairly show that his trade left him because of lack of water supply, that he was damaged thereby, actual damages, and that his conduct did not contribute to damages, where operator gave company no notice, for more than six months after he paid bill in dispute, that he had made improvements to free pipes from leaks, as required by company as prerequisite to reinstating service, and made no demand that company again assume business relations with him, he could not recover damages for such period—Salaban v East St Louis & Interurban Water Co, 1 N E 2d 731, 284 Ill App 358

1. Ala.—Alabama Water Service Co.

ages may be awarded,<sup>7</sup> and it is for the jury to say whether plaintiff is entitled to punitive damages where the company demands more than is due and shuts off the water knowing the bill is excessive<sup>8</sup> Such damages may be awarded even though plaintiff declared on simple negligence, where his complaint stated the facts under which the alleged tort was committed<sup>9</sup> The amount of punitive damages rests largely in the discretion of the jury which is not, however, unbridled<sup>10</sup>

## § 308. Liens and Enforcement Thereof

- a. In general
- b. Nature, operation, and effect
- c. Enforcement

### a. In General

A lien on realty for water charges exists only where created or authorized by statute, and a statute doing so is a valid exercise of the police power. All statutory formalities must be complied with.

In the absence of statute, or legislative authority, there is no lien on real estate for water rents or for water supplied to it,<sup>11</sup> and where such a lien

v Wakefield, 163 So 626, 231 Ala. 112

2. Ala.—City Cleaning Co v Birmingham Waterworks Co, 85 So. 291, 204 Ala. 51.

9. Ala.—Birmingham Waterworks Co v Brooks, 76 So 515, 16 Ala App 209, certiorari denied 76 So 995, 200 Ala 697

10. Ala.—Alabama Water Service Co v. Harris, 129 So 5, 221 Ala 516

67 C J p 1273 note 92.

11. Md.—Home Owners' Loan Corp of Washington, D C, v Mayor and City Council of Baltimore, 3 A 2d 747, 175 Md 676

67 C J p 1273 note 93.

exists, it exists only by force of statute<sup>12</sup> In the absence of such authorization, an ordinance or regulation,<sup>13</sup> or a charter provision,<sup>14</sup> attempting to establish such a lien is invalid; water rents do not constitute a lien on the property supplied unless it is so provided by statute in express terms or by necessary implication,<sup>15</sup> although it has been held that liens cannot be created by construction<sup>16</sup> So, in the absence of such statute, charges for water service furnished to mortgagors are not a lien on the property as against the purchasers at a mortgage foreclosure sale.<sup>17</sup>

The legislature may provide for the establishment and enforcement of such liens,<sup>18</sup> even for water furnished on the order of tenants and in the absence of an express direction by the owner,<sup>19</sup> but it has also been held that a municipality is not entitled to a statutory lien for water supplied at a

tenant's request without the owner's permission, knowledge, or consent<sup>20</sup>

The legislative right is on the broad ground that the liens may aid in providing an adequate supply of water at reasonable rates and hence may be an appropriate element in a scheme of legislation for a public water supply,<sup>21</sup> the lien has been held to be imposed either on the theory that water rents and charges may be collected as taxes or on the theory that they may be collected as compensation for water consumed<sup>22</sup> Where a case does not fall within the statute, a city is not entitled to a lien until it establishes its right to compensation by a judgment<sup>23</sup>

The purpose of the enactment of provisions for liens was to facilitate and increase, and not to restrict and hamper, the collection of water rates,<sup>24</sup> they are designed to prevent losses to the public revenue<sup>25</sup>

#### **Lien held not created or authorized by statute**

(1) In general—*Hohly v State ex rel Summit Superior Co*, 191 NE 1, 128 Ohio St 257

(2) The statutes authorizing city to shut off water supply on failure to pay water bill and providing that city may require owner of premises to guarantee payment before furnishing water to tenant does not impress a lien on property for payment of delinquent water bills or authorize city to pass ordinance impressing such lien—*Home Owners' Loan Corp v Logan City*, 92 P 2d 346, 97 Utah 235

Ohio—*City of Cincinnati v Schultz*, 120 NE 176, 97 Ohio St. 317.  
67 C J p 1273 note 2.

24. Mass.—*Loring v Commissioner of Public Works of City of Boston*, 163 NE 82, 264 Mass 460

25. Mass.—*Loring v Commissioner of Public Works of City of Boston*, supra.

The lien for water charges does not exist until the statutory formalities have been complied with<sup>26</sup> or until the amount has been determined and entered on the books of the water supply company or department<sup>27</sup> No statutory lien exists for water furnished prior to the date of the ordinance required by the terms of the statute to make such lien effective<sup>28</sup> Where the lien is declared by statute, a municipal ordinance undertaking to declare it is unnecessary and ineffective,<sup>29</sup> and, so far as it makes provisions unauthorized by the statute, void<sup>30</sup>

*Validity of statutes* The fact that a lien is given for water rates does not affect the validity of the act imposing such lien,<sup>31</sup> the creation of such a lien is an exercise of the police power,<sup>32</sup> and is not an extreme instance of such exercise,<sup>33</sup> since property interests are not really harmed,<sup>34</sup> on the contrary, the system of which the lien is an incident saves property from the disuse and desolation that, under modern urban conditions, must be the lot of a building without a dependable supply of water<sup>35</sup> Statutory liens on the landlord's estate in leased real property for water rents or charges for water supplied thereon to the tenant must depend for their validity either on the taxing power or on contract<sup>36</sup> If it is the taxing power which is relied on, the imposition, in order to be constitutional, must be laid under uniform rules according to the true value of the property taxed, or in accordance with special benefit to it as a property<sup>37</sup> Such a lien for charges

for water supplied to a tenant by measure at a fixed price per thousand cubic feet cannot be sustained under the taxing power,<sup>38</sup> but must depend on contract expressly or impliedly authorized by the landlord<sup>39</sup>

A statute creating such a lien has been held not invalid because of its failure to fix a date on which the lien shall begin or expire,<sup>40</sup> to provide any manner of enforcement of such lien,<sup>41</sup> to make it clear whether the Department of Water or the city itself shall enforce it,<sup>42</sup> or to prescribe the rights and priorities of other liens<sup>43</sup>

A statute making the lien applicable for water furnished thereafter does not impair the obligation of a contract between the lessor and the lessee that the latter should pay the water rates;<sup>44</sup> an amendment of a lien statute has been held not unconstitutional, as impairing the obligations of contracts, as to a mortgagee, where the right was conferred on the city before the execution of the mortgage and the mortgagee impliedly assented thereto by taking the mortgage with knowledge of the law.<sup>45</sup> A statute making water rents a charge on land with a lien prior to all other encumbrances whether the water was introduced onto the encumbered property before or after the giving of the encumbrance is not objectionable, as to mortgages given after its passage, on the theory that it is a deprivation of property without due process of law.<sup>46</sup>

A statute attempting to impose a lien on real es-

46. U.S.—Provident Institution for Savings v Jersey City, N.J., 5 S.Ct. 612, 118 U.S. 506, 28 L.Ed. 1102.

tate for water rents or taxes without regard to the use of water thereon is invalid <sup>47</sup>

*Where no water has been contracted for, furnished to, or used on, the property, it cannot be subjected to a lien for water rates <sup>48</sup>*

*Authority of tenant to subject leased property to lien* Although it has been held that water furnished a tenant creates no lien on the landlord's property in the absence of privity of contract with the landlord,<sup>49</sup> the fact that a statute providing for a lien against the "premises" for unpaid bills for water supplied thereto by a municipality is on the statute books reads into every lease, when made, an authorization to the tenant to subject such premises to such lien for unpaid bills for water as the circumstances indicate the parties contemplated should be supplied, within the limitations of the statute, to the tenant on the premises, in pursuance of the lease <sup>50</sup>

*Lien as specific and perfected* A lien for water rent, attaching to specific pieces of real property, is specific,<sup>51</sup> and it is perfected, in the sense that there is nothing more to be done to have a choate lien, when the identity of the lienor, the property subject to the lien, and the amount of the lien are established <sup>52</sup>

#### b. Nature, Operation, and Effect

A lien for water charges, although somewhat analo-

gous to a lien for taxes, is not a tax or a special assessment. It is in addition to other remedies available, and not an alternative to any of them.

A lien for water rates or charges is neither a tax<sup>53</sup> nor a special assessment for particular benefits,<sup>54</sup> it is a method of securing the collection of a charge arising from the use on real estate of a public utility essential to the health and safety of the community,<sup>55</sup> and is founded on an underlying contractual relationship between the municipality and the property owner for the sale and purchase of water <sup>56</sup> It is supported on the general principles which justify the imposition of liens of numerous kinds,<sup>57</sup> and the lien, although enforced or enforceable by the same officers,<sup>58</sup> and in the same manner,<sup>59</sup> as a lien for taxes, as by sale of the premises,<sup>60</sup> is really a lien for an indebtedness like that enforced on mechanics' contracts or against ships and vessels <sup>61</sup>

The sale of water being on credit, a lien is imposed on the property as security for the payment of the debt <sup>62</sup> It is somewhat analogous to a lien for taxes, which attaches to the property itself and for the payment of which the property is subject,<sup>63</sup> with this difference, however, that, while the lien for taxes attaches without the consent of the owner, no charge for water can arise against any premises unless the owner or occupant thereof has voluntarily requested the supply to be turned on <sup>64</sup>

53. Mass—Loring v. Commissioner of Public Works of City of Boston, 163 N.E. 82, 264 Mass 460 N.J.—Diorio v Borough of Fair Lawn, 180 A 557, 118 N.J. Eq 556 Nature and legal character of water charge see supra § 284

#### Reason for rule

The amount of the lien is not fixed by governmental authority, a landowner may avoid it altogether by preventing the use of water or by causing the rates and charges to be paid

promptly, and the amount of the lien depends on the voluntary act of the landowner or his tenant in consuming more or less water, the account for which he suffers to remain wholly or in part unpaid—Mechanics Sav Bank v Kennedy, 12 N.E.2d 852, 299 Mass. 404

63. Ga.—City of Atlanta v. Burton, 16 S.E. 214, 90 Ga 486 Pa.—City of Harrisburg v Morrett, Com Pl., 49 Dauph Co 156

#### Preferential treatment in collection

(1) Statute providing that taxes and water rents shall continue to be a lien on realty until paid, and shall be preferred in payment to all other charges, indicates that charges for metered water are to receive the same preferential treatment in collection as taxes—City of New York v Idlewild Beach Co., 43 N.Y.S.2d 567, 182 Misc 205, affirmed 50 N.Y.S.2d 341, 182 Misc 213

(2) Collection of rates and charges generally see supra § 302

64. Ga.—City of Atlanta v. Burton, 16 S.E. 214, 90 Ga 486.

The lien remedy is provided in addition to all other and previous remedies open to the city, and not as an alternative to any of them,<sup>65</sup> it does not impair or cut down such remedies in any particular.<sup>66</sup>

Where the nature of the lien is undefined or limited by statute, it will not be extended by judicial construction.<sup>67</sup>

The default of the tenant in possession does not relieve the real estate from the lien,<sup>68</sup> nor does the fact that the tenant has become insolvent.<sup>69</sup>

*Lien not limited to owner's interest.* A statutory requirement that the name of the owner of the realty shall be given in the statement of lien, and that notice and demand shall be directed to the owner, merely provides workable machinery for the administration of the statute, and shows no intent to limit the lien to the interest of the owner named.<sup>70</sup>

*Subsequent purchaser is charged with knowledge* that, if there was a default, the amount of the water rent was a lien on the premises.<sup>71</sup>

### c. Enforcement

Statutory provisions as to the enforcement of water liens must be complied with. A municipality may be estopped to enforce such lien.

Remedies may be provided by statute for the enforcement of liens for water charges.<sup>72</sup> Where the statute declaring water charges a lien on the property to which the water is furnished authorizes the city council to enforce it, no other body or officer can do so,<sup>73</sup> and, if a specific manner in which the power should be exercised is specified, any other manner is excluded.<sup>74</sup> Where, under statute, water rate liens are like assessment and tax liens, the city may enforce them in the manner provided in its charter for the enforcement of liens in the case of delinquent taxes and assessments.<sup>75</sup> In case of a judicial sale of the property, such a lien must be filed as a claim like other private liens.<sup>76</sup>

The lien of attorneys for services in condemnation proceedings by a city cannot be burdened with the city's lien for water charges, notwithstanding the city by mistake paid to their clients the full amount of their awards without deducting the water charges, where the attorneys are not responsible for any of the water consumed by the clients on the property condemned.<sup>77</sup>

*Failure to shut off water.* Unreasonable delay in shutting off the water for nonpayment of the water bills does not affect the enforcement of the lien where the legislature has not imposed any such limitation on the lien,<sup>78</sup> particularly where the statute

Lien for each separate account; last item

The statute creating a lien on real estate for all charges of gas, water, or electricity furnished to patrons on the real estate does not provide one lien for all charges, but a lien attaches for each separate account and the provision that the lien shall continue for one year from the last item

charged means, not against any patron of premises, but the last item charged in the particular account—Whitefield Village Fire Dist v Bobst, 39 A 2d 566, 93 NH 229

Apportionment on taking land for street

Purpose of statute providing that when part of parcel of land has been taken for the opening, widening, or extension of a street, all water rents which shall be liens on the whole parcel of land from which part has been taken, shall be equitably apportioned between the parcel so taken and the balance remaining, is to facilitate public improvements of streets by enabling the governmental authority to secure title to needed land at its fair value, freed of all such municipal liens—Olbis v. City Council of City of Clifton, 7 A 2d 424, 123 NJ Law 45

75. NY.—Security Bldg & Loan Ass'n v City of Oswego, 18 NYS 2d 511, 259 App Div 42, affirmed Security Bldg & Loan Ass'n v Carey, 36 NE 2d 690, 286 NY. 646.

76. Pa.—Grubb v. Weaver, 19 Pa. Co 609.

77. NY.—City of New York v. Chambers, 17 NYS 2d 46, 258 App. Div 499.

78. Mass.—Loring v. Commissioner of Public Works of City of Boston, 163 NE 82, 264 Mass. 460.

provides that the lien shall become and be a continuing one<sup>79</sup> So, a city is not precluded from invoking its statutory lien by its failure to shut off the water after twenty days' default in payment,<sup>80</sup> since it is the failure to make payments, and not failure to shut off the water, that initiates the lien, which becomes effective when the city official delivers to the Department of Water the list showing unpaid water rates<sup>81</sup>

However, it has been held that, where the statute makes it the duty of the municipality to shut off the supply of water for nonpayment at maturity of any bill for charges for water, there can, in the absence of other authority, be no lien against the landlord's estate in the property for water supplied to the tenant on his contract alone, in violation of this duty, after such default and after a reasonable time thereafter for ascertaining the default and for shutting off the supply<sup>82</sup>

**Estoppel to enforce.** A city is estopped to enforce its lien for water rates as against a bona fide purchaser where no lien appeared of record,<sup>83</sup> or after it has erroneously informed the property owner that none exists and he has released his security therefor<sup>84</sup>

**Action.** With respect to the right to enforce a lien against a mortgagee for water supplied to the mortgagor, where, in an action to enforce the lien, plaintiff obtained judgment and took out execution against the mortgagor, who was the sole defendant named in the writ, the mortgagee does not become a party to the action until the motion to make him a party defendant is filed<sup>85</sup> Where no suit is instituted against the mortgagee within the period prescribed by statute, the lien is lost as far as it extends to the mortgagee's interest,<sup>86</sup> and is unenforceable against his title<sup>87</sup>

## G. LIABILITIES AND INJURIES INCIDENT TO SUPPLY AND USE

### § 309. Injuries from Construction or Maintenance of Works

- a. In general
- b. Lateral service pipes, and meter and stop boxes
- c. Dams, reservoirs, and incidental facilities

#### a. In General

A water company must exercise due care in the construction and operation of its works and is liable

for injuries resulting from its negligence or other tortious conduct.

In constructing its works, a water company must use reasonable care under the circumstances,<sup>88</sup> taking greater precautions in places of potential danger,<sup>89</sup> and competent hydraulic engineers should be consulted and their advice followed<sup>90</sup> The duty of a water company in maintaining its system is that of care proportioned to the danger reasonably to be anticipated.<sup>91</sup> A water company making repairs

<sup>91</sup> Ky.—Stein v Louisville Water Co., 249 S.W.2d 750

#### Not dangerous commodity

Water companies in supplying water to their customers are not dealing with commodity which is dangerous in itself, and they are required only to exercise ordinary care—City of

on a highway must restore the highway to a condition of reasonable safety after completing its work<sup>92</sup> The company is liable for the resulting injury where, in laying its mains and pipes, it is guilty of negligence in using dangerous machinery,<sup>93</sup> or where it maintains excavations or obstructions which render a street or sidewalk unsafe,<sup>94</sup> or leaves dangerous apertures without proper protective devices whereby people are likely to be injured,<sup>95</sup> or damages underground facilities of others<sup>96</sup> Further, the company is liable for damage resulting from the bursting or leaking of underground pipes when the pipes were negligently constructed or laid, or the company has negligently failed to make repairs,<sup>97</sup> but ordinarily there is no liability in the absence of negligence<sup>98</sup> If a water company sees fit to use a protective device constructed by some one else, it thereby becomes re-

sponsible for structural defects therein which are discoverable by due care, and for the maintenance thereof in a reasonably safe condition<sup>99</sup>

A water company is not liable for injuries which it had no reason to apprehend,<sup>1</sup> and the fact that the company afterward took measures to prevent other such accidents is not proof of negligence,<sup>2</sup> but where a defect, although not due to negligence, creates a dangerous condition, the company is liable for injuries which are natural and probable results<sup>3</sup> The water company is not liable for a mutual mistake in making repairs which causes injury.<sup>4</sup> Having cut off water on the instructions of the consumer, a water company has no duty to take precautions against freezing of pipes in the consumer's building, to prevent the water being turned on again, or to warn the consumer of danger<sup>5</sup> In

Richmond v Hood Rubber Products Co, 190 S E 95, 168 Va 11

#### Excavations

A water company may make such obstructions in the street as are reasonably required to make repairs, it must take necessary precautions to inform the public of dangers resulting, but is not required to give warning where the danger is obvious

#### Deposit

Fact that permit granted to water company to do work in street provided for deposit by company to be held

for certain time did not warrant inference that return of deposit released water company from liability for damages caused by negligent replacement of dirt—Rudman v City of Scranton, 173 A 892, 114 Pa Super 148

#### Excavation adjacent to sidewalk

A water company was liable for its negligence in failing properly to refill hole on school property adjacent to sidewalk, where pedestrian stepped off sidewalk into hole—Frye v East St Louis & Interurban Water Co, 14 NE 2d 263, 294 Ill App 468

#### Leaving earth on highway

A water company which left clay from an excavation on the highway was liable for injuries caused by slippery condition—Radnor Water Co v Draughton, 89 S W 2d 186, 19 Tenn App 371

#### No liability as to parkway

Where pedestrian at night alighted from parked automobile and proceeded along parkway at place where there was no walkway, to effect a short cut to her destination, and she tripped over water meter box, which was located in parkway, and which protruded above the ground about two inches, and was injured, water company was not liable for pedestrian's injuries—Dramstadt v City of West Palm Beach, Fla, 81 So 2d 484

95. Cal—Meindersee v Meyers, 205 P 1078, 188 Cal 498

#### Excavation on private property

Where a city left an unguarded excavation on private property, without notice to the owner, it was liable for injuries to the owner's four-year-old child who fell into the excavation—Sample v City of Melrose, 43 NE 2d 665, 312 Mass 170

96. Ohio—Cincinnati & Suburban

5. Tex—City of Bryan v Jenkins, Civ App, 247 S W 2d 925, error refused no reversible error.

an action for injuries from an overflow of a stand-pipe, the fact that no such previous overflow had occurred has been held not to exonerate the city from liability from its overflow.<sup>6</sup> A water company is liable for damage to a customer's plumbing system and property because of sediment in the water,<sup>7</sup> and it is liable for injuries caused by rust in the water resulting from its negligence.<sup>8</sup> A city may be liable to a property owner injured by falling on ice formed from water cast on his property by defendant's negligence in flushing its hydrant.<sup>9</sup> A water company is not liable for injuries on the theory that it maintained a nuisance where the instrumentality is not dangerous to the general public.<sup>10</sup>

An irrigation district in furnishing a supply of water is to be governed by the same rules as to its liability for torts as those which control a municipal corporation<sup>11</sup> and, where engaged in a construction project as a part of a plan for the conveyance and distribution of water, may be liable for the negligence of its agents in permitting water to escape into a tunnel resulting in the death of persons therein through drowning.<sup>12</sup>

A metropolitan water district is a governmental agency, and has been held not to be liable for its torts.<sup>13</sup>

**Inspection.** It is the water company's duty to exercise ordinary diligence to discover defects in its equipment<sup>14</sup> and the duty of a water company to maintain its instrumentalities implies the duty of inspection at reasonable intervals,<sup>15</sup> but it has been held that a water company is not required to maintain a patrol along all of its water pipes to prevent some person from unlawfully cutting off service pipes and plugging them up without permission.<sup>16</sup> A city cannot escape liability for failure to test its water mains by showing that a proper inspection would be expensive,<sup>17</sup> but the city has no duty to inspect a deeply buried main in the absence of some warning of danger.<sup>18</sup> After notice of the presence of water which indicates the possibility of a leak, the company is required to exercise only reasonable diligence to discover and repair it.<sup>19</sup> A mere failure to inspect the appliances of each consumer has been held not to constitute a waiver of a regulation requiring certain safety devices.<sup>20</sup>

**Knowledge of defects or dangerous situation.** A water company is bound to use due diligence in shutting off the water from a water main after it is notified that the main is broken and damage likely to result.<sup>21</sup> The company must be diligent in correcting defects in its instrumentalities when they

N.Y.—Biancaniello v Town of Colonie, 24 N.Y.S 2d 883, 261 App Div 161, appeal dismissed 35 NE 2d 510, 285 N.Y. 848.

#### Company held not negligent

(1) Where city was notified by a property owner of the seepage of water in his basement wall near the place where the break in a main later took place, due care on the part of the city did not require it to expose and examine all the pipes at the intersection where break occurred.—Gerard v City of Boston, 13 NE 2d 415, 299 Mass 488.

(2) A town which controlled and was responsible for maintenance of water mains was not liable for damages resulting from accumulation of water in cellar of a house, where evidence disclosed that town on receiving notice of alleged leak applied customary tests which failed to show any evidence of a leak, and that leak was not discovered until excavations were made by house owner's son about forty feet away from hydrant where leak was thought to be—Biancaniello v Town of Colonie, 24 N.Y.S 2d 883, 261 App Div 161, motion granted 35 NE 2d 510, 285 N.Y. 848.

20. Me.—De Rochemont v Camden & Rockland Water Co, 152 A 534, 129 Me 421.

21. N.Y.—Von Longerke v City of New York, 134 N.Y.S 832, 150 App.

have been brought to its attention,<sup>22</sup> and it has been held that a private water company may be liable for injuries resulting from a dangerous condition even though it has no notice of the defect.<sup>23</sup> Knowledge of employees of defects in a water company's works has been held to be knowledge of the company.<sup>24</sup> Where defendant was chargeable with knowledge of a dangerous situation created by its works, the fact that plaintiff was precipitated on it involuntarily, as a result of a loss of balance, is immaterial.<sup>25</sup>

**Proximate cause.** The water company is not liable for injury not proximately caused by its negligence.<sup>26</sup> Where the condition causing injury is caused by the act of another, the company is not liable unless in the exercise of ordinary care it should have discovered and corrected the condition.<sup>27</sup> The company is liable when its negligence is a proximate cause of the injury, although the

negligence of another is a concurring cause.<sup>28</sup> A water company is liable for injuries resulting from a combination of its negligence and natural causes, provided the injury would not have occurred but for its negligence.<sup>29</sup> Whether a water company had a permit to dig in the street is immaterial to the question whether its negligence caused injury.<sup>30</sup>

**Statutes, franchises, and grants** The grant to a water company by a city of the right to lay its pipes in the streets carries with it an obligation to keep them in repair,<sup>31</sup> and authority granted by franchise to place service pipes in sidewalks does not excuse the water company for a negligent construction of such service pipes.<sup>32</sup> A right to place hydrants in the streets gives the water company no right to use them in such a manner as to impede travel or to imperil the safety of those passing over the street,<sup>33</sup> and if a city does not possess power itself to obstruct streets by fire hydrants, it cannot give a water company such power.<sup>34</sup>

R.I.—Sullivan v Wakefield Water Co., 15 A 2d 23, 65 RI 335

**Act of another correcting condition**  
In action against water company

for injuries sustained when pedestrian stepped on a lid covering a manhole in dirt sidewalk and lid tilted causing pedestrian to fall, where company's employee had removed lid to read meter, and third person, who subsequently noticed lid was tilted, pushed it down with his foot, company was, as a matter of law, not liable for negligence either in permitting cover to become defective or loose, since causal connection was lacking—Wilson v East St Louis & Interurban Water Co, 15 NE 2d 599, 295 Ill App 603

#### Closing house after removing meter

Where water company, through its employees, authorizedly entered plaintiff's vacant house to remove water meter and subsequently closed house as effectively as it had previously been closed, company was not liable for loss sustained by plaintiff when unknown persons subsequently entered house burglariously and stole property, since company's alleged negligence in closing house was not proximate cause of damage—Breker v Lakewood Water Co, 174 A 478, 12 NJ Misc 721.

27. Tex.—Texas Public Utilities Corp v Martin, Civ App, 136 S W 2d 889

28. Cal.—Juchert v California Water Service Co, 106 P 2d 886, 16 Cal 2d 500

#### Negligence of city

A water company which was alleged to have been guilty of negligence in permitting water to escape from broken pipe into filled ground, so as to cause a hole in highway, was not relieved from liability to motorcyclist for injuries sustained when motor-

cycle struck hole in road, on ground that city was under a duty to repair the hole, and, but that for lack of repair, injuries would not have been sustained—Juchert v California Water Service Co, supra.

#### Negligence of another in refilling excavation

Company was liable for injuries sustained by pedestrian from falling into a hole dug by company in school property adjoining sidewalk, notwithstanding alleged intervention of negligence of school janitor in refilling the hole with loose dirt during few days between digging of hole and date of accident since such negligence if any was insufficient to constitute an efficient intervening cause—Frye v East St Louis & Interurban Water Co, 14 NE 2d 263, 294 Ill App 468

29. Utah—Egelhoff v Ogden City, 267 P 1011, 71 Utah 511.

Iowa—City of Des Moines v Des Moines Water Co., 175 N W 821, 188 Iowa 24

33. Kan.—Topeka Water Co v. Whiting, 50 P. 877, 58 Kan 639, 39 L.R.A. 90

34. Ala.—Decatur Waterworks Co. v Foster, 49 So 759, 161 Ala 176. 67 C J. p 1277 note 79.

**Contributory negligence.** Plaintiff is not required to have acted with absolute wisdom, but only to have exercised that care which a man of ordinary prudence would have exercised when so placed,<sup>35</sup> but he must not be guilty of contributory negligence<sup>36</sup>

**Failure to prosecute** The failure of the city to prosecute plaintiff for a failure to install sufficient cellar drains, as required by ordinance, has been held not to affect the situation, when plaintiff's injury was caused solely by such failure<sup>37</sup>

**Duty to turn off water** It has been held that a consumer of water cannot recover against a water company for damages occasioned by the company's breach of an alleged contract to shut off the supply of water at the property line where a consideration is not shown for the promise of defendant to do so<sup>38</sup> However, where a city had been requested to cut off water from a particular pipe in order that the owner might install an additional sprinkler system, and negligently failed to do so, it is no defense that the ordinance granting a permit for the extension of the system across a street provided that the owner would indemnify the city for damages resulting from the laying, existence, or use of the new system<sup>39</sup>

**Adjacent owners.** In the absence of negligence, a consumer is not liable for injuries caused to an adjacent owner by a leak in the consumer's service pipe<sup>40</sup> A consumer who negligently allows water to run onto an adjoining landowner's property is liable for damages resulting,<sup>41</sup> and the fact that it seeped through the foundation of plaintiff's building makes no difference<sup>42</sup>

**Liabilities of those who are not consumers or suppliers of water.** A corporation engaged in laying water pipes under contract with the city,<sup>43</sup> or a company exposing water pipes in the course of its work under contract with a landowner,<sup>44</sup> is not liable for injuries where it has not been guilty of negligence causing the injury

#### b. Lateral Service Pipes, and Meter and Stop Boxes

A water company may be liable for injuries resulting from defects in lateral service lines, and meter and stop boxes where the company has the duty to maintain them

A water company is not bound to repair private lateral service pipes,<sup>45</sup> and it is not liable for defects in lateral service pipes which are inserted in

### c. Dams, Reservoirs, and Incidental Facilities

A water company may be liable for injuries resulting from negligence in the construction or operation of its reservoirs, or for improper diversion, or for flooding of lands.

A water company is liable in damages if its negligence in the construction or maintenance of its dams and reservoirs permits the leakage or escape of water so as to injure the property of others,<sup>53</sup> or unlawfully diverts or abstracts water to which others are entitled,<sup>54</sup> including subsurface water<sup>55</sup> A city may be liable in trespass for damage from water leaking from its reservoir, regardless of the care used<sup>56</sup> Likewise, a city may be liable to riparian owners for damages resulting from its operation of its dams, reservoirs, and filtration plants<sup>57</sup> A water supply corporation is not liable for damage resulting from the opening of the spillway or flood gates on its dam during a storm of unprecedented violence, provided due care is used under the circumstances.<sup>58</sup> A city, in erecting a dam for its reservoir, must use ordinary care in its construction so as to prevent its being swept

Town of Winthrop, 107 NE 414, 219 Mass 471

67 C J p 1275 note 46

**Liability of licensor**

Where owners of mine licensed town to maintain and operate a dangerous reservoir on mine property, owners became liable with town for damages caused by negligent maintenance and operation of reservoir—Shell v Town of Evarts, 178 SW 2d 32, 296 Ky 602

54 Tex—Town of Jacksonville v Ragsdale, Civ App, 202 SW 774 67 C J p 1275 note 47

b. Losses from insufficiency to extinguish fire

### a. In General

A city or a consumer having a definite contract with a company for a supply of water may recover for insufficiency of supply which is a breach thereof A breach by a city of its statutory duty to supply water may be negligence.

Either a municipality or a private citizen having a definite contract with a water company for a supply of water may maintain an action for damages resulting from the failure or insufficiency of the supply,<sup>67</sup> unless caused by unavoidable accident without the company's negligence or fault,<sup>68</sup> but its liability is only such as is created by contract<sup>69</sup> A water consumer's agreement to claim no damage because of stoppage of flow from an accident, or necessary repairs, applies only where the stoppage is necessary and reasonable<sup>70</sup> A consumer's failure to use an ordinary safety device, prescribed by the rules of the company, on his own piping has been held to constitute such negligence on his part as to deprive him of his right to recover for a wrongful temporary cutting off of the water supply<sup>71</sup> A failure to notify consumers that the water supply would be cut off temporarily has been held not to render the company liable for fires caused by gas heaters of which the water company had no notice.<sup>72</sup> A violation by a city of its statutory duty to furnish water, due to failure of its employee to open water gates shut because of a tempo-

rary difficulty, constitutes negligence.<sup>73</sup> A consumer of a city water supply may recover damages from the owner of a part of the supply who cut off the entire supply, even if the consumer's attempts to restore the supply to his line increased the damage.<sup>74</sup>

**b. Losses from Insufficiency to Extinguish Fire**

- (1) Under general rules
- (2) Under rule of liability to consumer on contract with municipality

**(1) Under General Rules**

Generally, the water company is not liable for insufficiency of supply or pressure to extinguish a fire in the absence of express contract. The company is not liable for injuries to the property owner on the company's contract with the municipality.

A water company may bind itself by contract to furnish at all times a sufficient supply of water for protection against fires, in which case, in the absence of a provision to the contrary in the contract,<sup>75</sup> it is liable for property destroyed by a con-

flagration which could have been extinguished if the water supply had been sufficient.<sup>76</sup> When the duty violated by the water company was created solely by contract, a cause of action arising out of such violation is limited strictly to the parties to such contract and those in privity with them.<sup>77</sup> A breach of a contract to furnish water for domestic purposes does not call for damages caused to the house by fire while the water was cut off.<sup>78</sup>

According to the weight of authority,<sup>79</sup> a contract between a municipal corporation and a water company by which the latter undertakes to supply the city with water in sufficient quantities and pressure for extinguishing fires does not give a private consumer who pays water rents a right of action against the company if his property is destroyed by a fire which could have been extinguished but for the failure of the company to supply water as agreed,<sup>80</sup> although the company in failing to supply water was actuated by malice,<sup>81</sup> and the consumer may have had a right to appropriate water during fire because of extreme necessity.<sup>82</sup> Under this rule

67 C.J. p 1279 note 6

**Liability on theory of tort**

The water company cannot be held liable on the theory that its violation of its contractual duty to the city is a tort as to the property owner

Ariz—Cole v Arizona Edison Co, 86 P 2d 946, 53 Ariz. 141

Ga—Wilson v Georgia Power & Light Co, 36 SE 2d 757, 200 Ga 207, answer to certified question conformed to 36 SE 2d 847, 73 Ga App 436—Martha Mills v Moseley, 179 SE 159, 50 Ga App 536

**In Indiana**

(1) The text rule was applied and the water company was held not liable where it was contended that the damage resulted also from deficiencies in the fire fighting equipment provided by the city—Larimore v Indianapolis Water Co, 151 NE 333, 197 Ind 457

(2) Other particulars of Indiana rule see 67 C.J. p 1279 note 6 [d]

**In Louisiana**

(1) On an appeal from a judgment on an exception of no cause of action, which had dismissed a property owner's suit against a city and the water company except as to the water company's duty under a verbal contract with the property owner, the

supreme court indicated that the company might be liable on the contract with the city and remanded that branch of the case for trial.—Planters' Oil Mill v Monroe Waterworks, etc, Co, 27 So 684, 52 La. Ann. 1243

(2) On appeal from a final judgment for defendant, the supreme court affirmed, remarking that the contract with the city contained no stipulation of liability to citizens, but holding the judgment correct on evidence that the loss was attributable to the escape of water from the mains through plaintiff's sprinkler system—Planters' Oil Mills v Monroe Waterworks, etc, Co, 32 So 376, 108 La 236

(3) In a later case the supreme court expressly overruled the decision in *Planters' Oil Mill v Monroe Waterworks, etc, Co*, 27 So 684, 52 La. Ann. 1243, made no mention of its opinion in *Planters' Oil Mills v Monroe Waterworks, etc, Co*, 32 So 376, 108 La. 236, and held that a judgment for a property owner for damages by fire because of a defective hydrant should be reversed because plaintiff was not privy to the contract with the city. The court noted that the suit was *ex contractu* and not *ex delicto* on the breach of a general duty to society or a duty specially imposed by statute—Allen, etc, Mfg. Co v Shreveport Waterworks Co, 37 So 980, 113 La 1091, 104 Am SR 525, 68 L.R.A. 650

81. Ga—Martha Mills v Moseley, 179 SE 159, 50 Ga App 536.

82. Ga—Martha Mills v Moseley, *supra*.

liability for fire loss due to an insufficient supply of water can arise only from express contract,<sup>83</sup> and cannot arise from implication.<sup>84</sup> In some jurisdictions following this rule, where a municipal corporation enters into a contract with a company to supply water for the extinguishment of fires, such contract being entered into for general purposes and for the benefit of all its inhabitants and no protection to any specific property is contemplated, the relation of the water company is not different as to the property of the municipality from the relation of any of its citizens to such company, and it cannot recover for the loss of its property from the failure of the water company to furnish an adequate supply of water as provided for in such contract.<sup>85</sup> A taxpayer does not gain a right of action as a third party beneficiary to the contract between the city and the water company.<sup>86</sup> Engaging in the public water supply business has been held not to be a "dangerous calling" so as to impose such a duty on the persons or corporation so doing as to subject them to liability to property owners for damages caused by mere nonfeasance.<sup>87</sup> A water company's violation of a statutory duty to furnish an adequate supply has been held not to authorize an action by an individual consumer for fire loss resulting from an inadequate supply.<sup>88</sup>

## (2) Under Rule of Liability to Consumer on Contract with Municipality

In some jurisdictions, the company may be liable to an individual citizen for damages resulting from its failure to supply water for fire protection as required by its contract with the municipality.

In a few jurisdictions it is held that the water company is liable to the property owner for failure to supply sufficient water for fire fighting, although its contract to do so is with the municipal corporation,<sup>89</sup> and where a water company continues service after its franchise has expired, its obligation to supply sufficient pressure for fire protection continues, and it can be held liable for breach.<sup>90</sup> However, there can be no recovery against the company where it appears that the apparatus of the fire department was insufficient for the quantity and force of water actually supplied.<sup>91</sup> Likewise, where the water company is required only to have sufficient water in its mains, and the city is to furnish the means of getting the water to its fire engines, the water company is not liable for defective means of getting the water from the mains to the fire engines.<sup>92</sup>

The water company is not liable for a failure to have more than the required amount of pressure, although it may have had more than the required amount at other times,<sup>93</sup> and the water company is

83. Cal—Niehaus Bros Co v Contra Costa Water Co, 113 P 375, 159 Cal 305, 36 L.R.A., NS, 1045 67 C.J. p 1280 note 7

Co, 39 Pa. Dist. & Co 346, 35 Luz Leg. Reg. 241, 32 Mun. L.R. 100 67 C.J. p 1279 note 6 [d], [e], p 1281 note 13

### Franchise

(1) A public service corporation operating a municipality's waterworks under franchise requiring corporation to furnish to the town water necessary to the extinguishment of fires was not liable on basis of breach of franchise to resident of municipality whose property was destroyed by fire in consequence of corporation's failure to maintain proper pressure in water mains—Cole v Arizona Edison Co, 86 P.2d 946, 53 Ariz. 141

(2) A city ordinance, providing that waterworks company, granted franchise thereby and contracting to furnish city sufficient water to extinguish fires therein, should be liable for all damage because of its negligent exercise of privileges granted and hold city free from such liability, meant only such damages as are recoverable under law, and hence did not constitute exception to general rule that resident of city cannot recover damages from waterworks company for loss by fire because of company's failure to furnish sufficient water to extinguish fire—Wilson v Georgia Power & Light Co, 36 S.E.2d 757, 200 Ga. 207, answer to cer-

tified question conformed to 36 S.E.2d 847, 73 Ga. App. 436

(3) Other decisions with respect to liability under franchises see 67 C.J. p 1281 note 13 [a]

89. Ky—Pineville Water Co v Bradshaw, 266 S.W.2d 305—Nerren v Kentucky Water Service Co, 230 S.W.2d 615, 313 Ky 151—Clay v Catlettsburg, Kenova & Ceredo Water Co, 192 S.W.2d 358, 301 Ky 456

67 C.J. p 1281 note 14

90. Ky—Clay v Catlettsburg, Kenova & Ceredo Water Co, supra

91. Ky—Mountain Water Co v Davis, 241 S.W. 901, 195 Ky 193 67 C.J. p 1281 note 15

92. Ky—Terrell v Louisville Water Co, 105 S.W. 100, 127 Ky 77, 31 Ky L. 1281

### Duty to clean fire plugs

Generally, city fire department assumes duty of periodically opening fire plugs and flushing out mud and filth accumulating during periods of nonuse, with respect to liability of water company for destruction of building by fire—Prestonsburg Water Co v Dingus, 111 S.W.2d 661, 271 Ky 240, followed in Prestonsburg Water Co v Neeley, 111 S.W.2d 665, 271 Ky 247.

93. Ky—Georgetown Water, Gas,

not bound to maintain high pressure on its mains until it has notice of a fire, but it is bound to be ready to put on such pressure when it receives such notice<sup>94</sup> A franchise providing that a water company has no obligation to provide service for fire protection and shall be under no liability for failure to furnish it is not void as against public policy,<sup>95</sup> and relieves the company of liability to the consumer.<sup>96</sup> The water company is liable for loss by fire only on its contract with the city, in the absence of a contractual liability to the contrary, and it is not liable for fire losses on its contract to furnish water for domestic purposes<sup>97</sup> The company cannot be held liable on a tort theory<sup>98</sup>

Where the contract requires that the water company put in self-draining hydrants, which it did not properly do, the company cannot relieve itself from liability on the ground that the loss was caused by an act of God freezing water in the hydrant<sup>99</sup> A water company's contract with the city has been held not to be for the benefit of fire insurers, and a breach of such contract not to render the company liable to them<sup>1</sup> No greater force can be given the testimony of the city officials than would be given the same testimony by persons not in the employment of the city<sup>2</sup>

Electric & Power Co v Neale, 125 SW 293, 137 Ky 197

Statutes creating state health board

**§ 311. Liability for Pollution of Water Used for Domestic or Drinking Purposes**

A water company is not an insurer of the purity of its water, but must use reasonable care to supply pure water and may be liable to those injured by its failure to do so

Although, in the absence of a statute to the contrary,<sup>3</sup> a water company is not an insurer or a guarantor of the purity of its water or of its freedom from infection,<sup>4</sup> it is bound to use reasonable care in ascertaining whether there is a reasonable probability that its water supply may be infected with a communicable disease from causes which are known to exist,<sup>5</sup> or which could have been known or foreseen by the exercise of such care,<sup>6</sup> and for a failure to use reasonable care it will be liable in damages to persons injured by reason of the impurity,<sup>7</sup> and if the exercise of such care would have disclosed a reasonable probability of such infection, then it is the duty of a water company to adopt whatever approved precautionary measures are, under the circumstances, reasonably proper and necessary to protect the community which it serves from the risk of infection<sup>8</sup> Under an implied contract to furnish water that is as reasonably pure and wholesome as possible, it is the duty of a city to furnish water free from any contamination rendering it unfit for domestic use<sup>9</sup> It has been held

with subordinate county and city departments was held not to take control of water systems out of the hands of city so as to relieve it of duty to maintain pure water supply—Safransky v City of Helena, 39 P 2d 644, 98 Mont 456—Campbell v City of Helena, 16 P 2d 1, 92 Mont 366

**Liability for contempt**

Pa—Public Service Commission of Commonwealth of Pennsylvania v Sinking Spring Water Co, 46 Dauph Co 9

8. NJ—Corpus Juris quoted in Seiden v Passaic Valley Water Commission, 199 A. 420, 422, 16 NJ Misc 301

67 C J p 1282 note 29

9. ND—McGurgen v. City of Fargo, 66 N.W 2d 207.

that although a town may assume that water once inside a house would be used properly, and need not inspect inside the house,<sup>10</sup> if the town knows that water supplied is to pass through a lead service pipe, it must supply water which will be potable after passing through the pipe.<sup>11</sup> It is no part of the duty of the consumer to investigate the water supply and ascertain possible sources of pollution.<sup>12</sup>

Where polluted water was permitted to pass into a city main through a by-pass connection at a mill, any promise made by the mill company to remove such by-pass does not relieve the city from liability to users of such water.<sup>13</sup> It is no defense to a city that pollution resulted from its performance of a related governmental function.<sup>14</sup> One using a single supply line to get water from the city water main and another source may be liable for injuries resulting to a customer of the city from pollution of the city supply.<sup>15</sup>

**Notice.** Complaints made to the health officers of the polluted condition of the water have been held to be at least some notice to the city.<sup>16</sup> A statute

requiring notice to the city of injuries suffered because of a defect in public works has been held not to apply where a consumer contracted a disease from contaminated water furnished by the city.<sup>17</sup>

## § 312. Actions

- a. In general
- b. Persons liable and parties
- c. Pleadings
- d. Evidence
- e. Trial and judgment
- f. Damages

### a. In General

Notice or presentation of claim may be a condition precedent to an action against a municipality for injuries incident to the water supply. Such an action must be instituted within the time limited by statute.

Requirements of notice and presentment of claim in tort actions, considered generally in Municipal Corporations § 922 et seq., may be applicable to actions for injuries incident to the water supply,<sup>18</sup> and where applicable must be satisfied.<sup>19</sup>

18. Wash—Dempsey v City of Seattle, 59 P 2d 923, 187 Wash 38

#### Statute held inapplicable

(1) Statute requiring notice within sixty days of injury by reason of any defect in bridge, street, road, sidewalk, culvert, park, public grounds, ferryboat, or public works of any kind is not applicable to suit by one injured by drinking contaminated water—Safransky v City of Helena, 39 P 2d 644, 98 Mont 456—Campbell v City of Helena, 16 P 2d 1, 92 Mont. 366

(2) The statute requiring filing of claim with officer and city within ninety days for injuries or damages resulting from dangerous or defective condition of any public property was inapplicable to plaintiff's claim against city for permitting water of river which it had diverted for considerable length of time to again flow into lake thereby damaging plaintiff's plant for extraction of chemicals from subsurface of lake—Natural Soda Products Co v City of Los Angeles, 143 P 2d 12, 23 Cal 2d 193, cer-

tiorari denied City of Los Angeles v Natural Soda Products Co, 64 S Ct 790, 321 US 793, 88 L Ed 1082, rehearing denied 64 S Ct 942, 322 US 768, 88 L Ed 1594

19. Wash—Dempsey v City of Seattle, 59 P 2d 923, 187 Wash 38

#### Sufficiency of notice

Where notice to city with respect to plaintiff's claim for damages from flooding of basement of building occupied by plaintiff when leak developed in cutoff pipe leading from city water main described plaintiff's general grievance, as set out in petition, against city and in a general way apprised city of time, place, and extent of alleged injury, notice was sufficient, and there was no fatal variance between notice and petition—City of Tallapoosa v Goebel, 10 SE 2d 201, 63 Ga App 1

#### Claim held filed with appropriate officer

Cal—Natural Soda Products Co v City of Los Angeles, 143 P 2d 12, 23 Cal 2d 193, certiorari denied City of Los Angeles v Natural Soda Products Co, 64 S Ct. 790, 321 US 793, 88 L Ed 1082, rehearing denied 64 S Ct 942, 322 US 768, 88 L Ed 1594.

#### Time of notice or filing of claim

(1) The cause of action for damage by water escaping from a broken water main accrued when the main broke and was barred when notice was not filed within six months as required by city charter—National Lead Co v City of New York, CC AN Y., 43 F.2d 914.

**Limitations** The action must be instituted within the time limited by statute.<sup>20</sup> Where the injury complained of is a negligent laying of mains and pipes, the cause of action accrues at, and the statute of limitations runs from, the date of such laying,<sup>21</sup> and the fact that the extent of the resulting damage does not become at once apparent is immaterial.<sup>22</sup>

### b. Persons Liable and Parties

Water companies are liable only for their own negligence. A city is not a necessary party to a consumer's suit for fire loss based on the city's contract with a water company.

A water company is liable only for its own negligence.<sup>23</sup> Where a construction company has contracted with the water company to guard all excavations, the construction company may be held liable for injuries resulting from a failure properly to guard excavations.<sup>24</sup> It has been held, in a

jurisdiction which permits a consumer to sue the water company for its failure to provide the water pressure required by its contract with the city, for fire prevention, that the city need not be made a party defendant.<sup>25</sup>

### c. Pleadings

In an action for injuries incident to a public and municipal water supply, the complaint must state a cause of action, and matters of defense must be pleaded in the answer.

Applying the general rules, the complaint or petition must state a cause of action,<sup>26</sup> and must be reasonably definite and certain.<sup>27</sup> In an action based on the negligence of a water company, the complaint must show the existence of such negligence,<sup>28</sup> set out the duties of defendant,<sup>29</sup> allege damages,<sup>30</sup> allege that the negligence of defendant was the proximate cause of the injury complained

(2) Cause of action for damage by water escaping from broken water main accrued when main broke and was barred against city not notified within 30 days thereafter, even if claim was filed within 30 days after damage was discoverable—*Dempsey v City of Seattle*, 59 P 2d 923, 187 Wash 38.

(3) Plaintiff's claim against city for permitting water of river which it had diverted for considerable length of time to again flow into lake thereby damaging plaintiff's plant for extraction of chemicals from subsurface of lake was filed within six months after the "occurrence from which the damage arose," as required by city charter, where it appeared that city opened gates in its dam intermittently beginning on February 6 until the last day of June, that water reached its peak in May and did not entirely disappear until some time in September, and that plaintiff's claim was filed on December 30—*Natural Soda Products Co v City of Los Angeles*, 143 P 2d 12, 23 Cal 2d 193, certiorari denied City of Los Angeles v Natural Soda Products Co, 64 S Ct 790, 321 US 793, 88 L Ed 1082, rehearing denied 64 S Ct 942, 322 US 768, 88 L Ed 1594.

(4) Where lessee of lake bed property brought action against city for damages caused by inundation of lake bed by negligent operation of aqueduct system, although statutory claim might have been filed with city as late as six months from time waters in lake bed dissipated, filing of claim before dissipation of waters did not preclude maintenance of action—*Natural Soda Products Co v City of Los Angeles*, 240 P 2d 993, 109 Cal App 2d 440.

27. Ga.—*City of Tallapoosa v Goebel*, 10 SE 2d 201, 63 Ga App 1.

#### Complaint held sufficient

In action against city for damages from flooding of basement of building occupied by plaintiff when leak developed in cutoff pipe leading from city water main, where act of negligence alleged in one paragraph of petition was a nonfeasance and act

of negligence alleged in another paragraph was a misfeasance, petition was not subject to special demurrer on grounds of indefiniteness and uncertainty, where there was a subsequent allegation that damage to plaintiff's property was direct and proximate result of defendant's negligence as alleged, which subsequent allegation was a general allegation of negligence—*City of Tallapoosa v Goebel*, supra.

28. Cal.—*Bouris v Spring Valley Water Co*, 97 P 530, 8 Cal App 588.

Pa.—*Elkins v Philadelphia Suburban Water Co*, Com Pl, 70 Montg Co 127.

#### Notice

Injured pedestrian's complaint alleging that water company negligently failed to maintain the portion of a street occupied by unused water meter box between sidewalk and curb or immediately adjacent thereto in reasonably safe condition for travel of pedestrians implied notice to water company for a sufficient time in which to remedy the defect or negligence in not discovering the defect, if water company had duty to maintain the adjoining strip of land—*Birmingham Water Works Co v Walker*, 8 So 2d 827, 243 Ala. 149.

29. Ky.—*Mountain Water Co v Davis*, 241 SW 801, 195 Ky. 193.

**Complaint held sufficient to show duty of defendant**—*Birmingham Water Works Co v Walker*, 8 So 2d 827, 243 Ala. 149.

30. N.Y.—*Thompson v. City of New York*, 133 NYS. 934, 74 Misc 271.

Pa.—*Burkholder v Philadelphia Suburban Water Co*, Com. Pl., 41 Del. Co 222.

of,<sup>31</sup> and in some jurisdictions it has been held that it must show plaintiff's freedom from contributory negligence.<sup>32</sup> Plaintiff is not bound to plead his evidence.<sup>33</sup> In an action for death from drinking polluted water furnished by the city, plaintiff is not bound to specify the cause or place of the pollution.<sup>34</sup> If the water became polluted, and the city, on knowledge thereof, notified the users to boil the water, such matter is affirmative defense,<sup>35</sup> and plaintiff is not required to negative such matter by his complaint.<sup>36</sup> It is unnecessary to allege that the consumer's contract with the water company had been made in compliance with the rules and regulations as a state public service commission.<sup>37</sup> If liability for failure to supply sufficient water or pressure to extinguish a fire is based on the water company's contract with the municipality, the complaint must allege a breach of contract.<sup>38</sup> Where contributory negligence is a defense, it must be pleaded in the answer.<sup>39</sup>

*Issues, proof, and variance.* Under general rules, only evidence which is within the issues made by the pleadings is admissible.<sup>40</sup> If there is a substantial variance between the complaint and the proof adduced in support thereof, plaintiff cannot recover.<sup>41</sup>

#### d. Evidence

The plaintiff has the burden of proving all matters essential to recovery by a preponderance of the evidence. In a proper case the doctrine of *res ipsa loquitur* may be invoked.

Following the general rules, plaintiff has the burden of proof as to matters necessary to his recovery,<sup>42</sup> for example, when such are relied on as a basis for recovery, he has the burden of proving a contract to furnish water to fight fire, and its breach,<sup>43</sup> the negligence of defendant in constructing, maintaining, or repairing its piping system,<sup>44</sup> and that defendant's negligence was the proximate cause of his injury.<sup>45</sup> Plaintiff must also prove his

#### Knowledge of defect

Customer suing for damages caused by water escaping from defective meter was required to show that city maintaining water system had knowledge of defect.—City of Richmond v Hood Rubber Products Co, 190 SE 95, 168 Va 11

#### Standard of care

Customer suing for damages caused by water escaping from defective meter had burden of proving what common usage required in such cases as standard of ordinary care, and also of proving that city failed to measure up to that standard.—City of Richmond v Hood Rubber Products Co, supra.

45. Ohio.—Republic Light & Furniture Co v City of Cincinnati, 127 NE 2d 767, 97 Ohio App 532—Cincinnati & Suburban Bell Tel Co v City of Cincinnati, 85 NE 2d 393, 84 Ohio App 521

Tex.—City of Wichita Falls v Swartz, Civ App, 57 SW 2d 236

#### Absolute precision not required

In action against city for injuries sustained by four-year-old boy when he fell into excavation dug without knowledge of occupants of premises, by city water department's employees on premises occupied by boy's parents

damages<sup>46</sup> In some jurisdictions, defendant has the burden of proving plaintiff's contributory negligence<sup>47</sup>

In those jurisdictions where the water company is liable to the consumer on its contract with the city to provide water to fight fires it has been held that the burden of proof is on plaintiff to prove that the water company failed to supply water in the quantity called for by its contract with the city,<sup>48</sup> and that but for such failure plaintiff's property could have been saved from destruction<sup>49</sup>

In an action for injuries from impure water furnished for drinking purposes, plaintiff must establish by a fair preponderance of the evidence three propositions, namely, that the sickness from which he suffered was contracted from the use of the water furnished by defendant,<sup>50</sup> that defendant was guilty of negligence in supplying him with such contaminated water,<sup>51</sup> and that plaintiff exercised due care on his part and was not guilty of contributory negligence.<sup>52</sup> However, plaintiff is not required to prove by positive testimony and with absolute certainty that the injury was caused by impure water furnished by the water company,<sup>53</sup> since the burden of proof is satisfied by proving facts and circumstances from which it might reasonably appear that the drinking water was the probable efficient cause of the injury<sup>54</sup> It is only where it appears that the

injuries were occasioned by one of two causes, for one of which defendant is responsible, but not for the other, that plaintiff must prove such facts and circumstances as will exclude the equal probability of the injury having resulted from the cause for which defendant is not liable<sup>55</sup>

**Presumptions** In an action against a water company for negligently causing the death of a person found dead in one of its excavations, the presumption against contributory negligence has been recognized<sup>56</sup>

**Res ipsa loquitur** Invoking the rule *res ipsa loquitur*, it has been held that the breaking of a tank appurtenant to a waterworks system proves negligence in the absence of proof that such was caused by the wrongful act of a third person or an act of God,<sup>57</sup> the bursting of a water main<sup>58</sup> which was under great pressure<sup>59</sup> has been held to be of itself evidence of negligence in maintaining it The presence of sand in a customer's plumbing system supplied exclusively by a company's mains has been held evidence of negligence.<sup>60</sup> However, the doctrine has been held inapplicable when the facts do not permit an inference that the injury was caused by the company's negligence,<sup>61</sup> or where the cause of damage is established,<sup>62</sup> or where the instrumentality involved was not in defendant's exclusive control<sup>63</sup> It has been held that when the doctrine is

and negligently left unguarded, proof of precisely what act or movement of the boy or his playmates immediately preceded the fall was not necessary to warrant recovery—*Sample v City of Melrose*, 43 NE 2d 665, 312 Mass 170

N J—Seiden v Passaic Valley Water

ages from the breaking of a water main, that much evidence of negligence should not be required of plaintiff, who is in no position thoroughly to investigate the cause of the break, since evidence must be weighed according to the respective power of parties to prove or contradict matters in issue.<sup>71</sup>

### e. Trial and Judgment

In actions involving damages incident to a public or municipal water supply, questions of fact should be submitted to the jury under proper instructions from the court.

General rules as to trial and judgment apply in actions involving injuries incident to a water supply.<sup>72</sup>

*Questions of law and fact.* The weight and probative effect of evidence,<sup>73</sup> and the credibility of witnesses,<sup>74</sup> are for the jury. Where the evidence is sufficient to present an issue of fact, whether defendant is liable generally,<sup>75</sup> whether defendant was negligent,<sup>76</sup> whether such negligence was the

67 C.J. p. 1284 note 70 [b].

#### Circumstantial evidence

(1) Circumstantial evidence would justify verdict against city for death by typhoid allegedly caused by drinking city water polluted by water from river, if there could be drawn therefrom rational inference that such water was source of infection, and while something more than possibility, suspicion, or surmise must be created in minds of jurors it is sufficient if existence of such fact is made more probable hypothesis when considered with reference to possibility of others, and reasoning to be employed is that of ordinarily intelligent understanding—Boguski v. City of Winoski, 187 A. 808, 108 Vt. 380

(2) In action against city for damages by one contracting typhoid fever from drinking contaminated water from city's water system, circumstantial evidence that water contained typhoid bacilli was sufficient—Safransky v. City of Helena, 39 P.2d 644, 98 Mont. 456

(3) Where user of public sidewalk was found dead from rupture of heart vein in excavation across public sidewalk, the causal relation between his fall into excavation and water company's failure to guard excavation properly might be shown by circumstances pointing to a reasonably probable relation between the two, so strong that jury might properly, on ground of probability, rather than certainty, exclude inference favorable to defendant—McManus v. New Jersey Water Co., 91 A.2d 868, 22 N.J. Super. 253

#### Findings

(1) Where lessee of lake bed property brought action for damages caused by inundation of lake bed by negligent operation by city of its aqueduct system, finding that city had or had not been guilty of negligent engineering practice in failing to construct sufficient headwater storage was without legal effect when supreme court in lessor's suit for injunction had ruled that city owed no duty to lessee to construct additional headwater surface storage facilities.—Natural Soda Products Co. v. City of Los Angeles, 240 P.2d 993, 109 Cal.App.2d 440

(2) A finding that the failure of a city to shut off water from a broken main for over an hour after notice of the break was negligence was not erroneous as a matter of law—Monomoy Co. v. City of New York, 132 N.Y.S. 438

73. Utah—Stoker v. Ogden City, 54 P.2d 849, 88 Utah 389

#### Cause of typhoid fever

In action for death of consumer from typhoid fever, weight and probative effect of evidence tending to show another probable source of infection are for the jury—Stoker v. Ogden City, supra.

#### Absence of constructive notice

Whether city operating water  
works system had constructive no-  
tice of defect causing damage to pri-  
vate property is ordinarily a question  
for jury, but where defect was not  
observable and could only be discov-  
ered by a close examination, absence  
of constructive notice was established  
as a matter of law—Stein v City of  
Newark, 52 A 2d 66, 25 N J Misc 170

#### Matters held not established as a matter of law

Del—Fine v Mayor & Council of  
Wilmington, 94 A 2d 393

#### 85. Instructions held proper or er- roneously refused

(1) In action against city for death  
of resident from typhoid fever alleg-  
edly caused by drinking impure city  
water, instruction stating that plain-  
tiff was required to prove case by  
preponderance of evidence and that

jury could refuse to find for plaintiff  
even if they believed defendant had  
not proved its contentions was not  
objectionable as requiring plaintiff to  
prove case to a moral certainty—  
Stoker v Ogden City, 54 P 2d 849, 88  
Utah 389

(2) Instruction should have been  
given that if jury found that overflow  
was caused by erection and operation  
of waterworks, and not from some  
other factors such as excessive rain-  
fall, then it might find for plaintiff,  
and omission in instruction given of  
reference to such other factors was  
improper—City of Henryetta v Run-  
yan, 249 P 2d 425, 207 Okl 300

(3) In action by owners of farm  
against city for damages to farm al-  
legedly caused by improper construc-  
tion of pipe line through farm to  
reservoir built by city, instruction  
that mere construction and exist-  
ence of the reservoir was not basis  
for damage was proper—Heyman v  
City of Bellevue, 108 NE 2d 161, 91  
Ohio App 321

(4) Where no damage to entire  
farm as unit was alleged and no evi-  
dence was submitted to show damage  
to farm north of highway, trial court  
properly excluded that portion of  
farm north of highway from con-  
sideration of jury—Heyman v City  
of Bellevue, supra

(5) Instruction that finding that  
damages were caused by acts of de-  
fendant was prerequisite to liability  
—City of Henryetta v Runyan, 249  
P 2d 425, 207 Okl 300

(6) Instruction that "ordinary  
care" means that degree of care  
which is usually exercised by ordi-  
narily careful and prudent persons  
operating water systems under same  
circumstances or circumstances simi-  
lar to those existing in this case is  
sufficient—Stein v Louisville Water  
Co., Ky, 249 S W 2d 750

(7) Instruction that rules of water  
company, placing on property owner  
the burden of construction and main-  
tenance of curb box, over which  
plaintiff tripped, would not relieve  
company of the duty to exercise care  
so as not to obstruct the lawful use  
of the street, was proper—Indianap-  
olis Water Co v Schoenemann, 20  
NE 2d 671, 107 Ind App 308

(8) Refusal of instructions that  
city was chargeable with negligence  
only if damage was caused by leak-  
ing after notice thereof, or if leak

**f. Damages**

Damages should be proportionate to the injury suffered by the plaintiff.

Damages should be awarded which are proportionate to the injury suffered by plaintiff,<sup>86</sup> and, if such damages are based on a breach of contract, which are within the contemplation of the contract<sup>87</sup> Personal inconvenience, in connection with proof of pecuniary loss, may form an item of recoverable damages,<sup>88</sup> although it has been held that, where the action is based on a breach of contract, the only recovery that plaintiff could have would be such as naturally flowed from a breach of the contract, and that damages could not be recovered for personal inconvenience<sup>89</sup> Where a water company has shut off the water from a house, a person who did not live in it, or who did not personally use the water, has been held not to be entitled to damages for mental harassment or vexation that he may have suffered.<sup>90</sup> In a suit by a municipal corporation, damages suffered by individuals by reason of the failure to furnish the stipulated quantity of water cannot be taken into account<sup>91</sup> The damages awarded must not be excessive<sup>92</sup> Punitive damages may be allowed where the act complained of has been committed wilfully and maliciously,<sup>93</sup> or where, in the absence of actual malice, it has been committed under circumstances of violence, oppression, outrage, or wanton recklessness.<sup>94</sup> Where a

water consumer violated rules of the company which provided that the company could turn off the water for such violations, and the water was turned off, he was not entitled to exemplary damages in the absence of an ulterior motive on the part of the company<sup>95</sup>

The damages which the owner of property may recover for injuries thereto by a bursting main have been held to be limited to those caused by failure of the water company to exercise due diligence in shutting off the water after it had notice of the break in the main<sup>96</sup> Where a person's water right is wrongfully interfered with by a city in taking water under a supposed statutory authority, he may have his damages assessed in a proceeding for an injunction without resorting to the proceeding for the assessment of damages provided in the statute under which defendants are supposedly acting,<sup>97</sup> and this is true, although while the proceeding for an injunction is pending defendants comply with the statutory requirement with respect to the taking<sup>98</sup>

**§ 313. Criminal Offenses; Penalties**

Some statutes and ordinances provide punishments or penalties for acts interfering with the water supply

Frequently there are statutory provisions or appropriate municipal ordinances making it a criminal

had existed for such time that city should have known of defect, was error—*Yearsley v City of Pocatello*, 210 P 2d 795, 69 Idaho 500

(9) Other instructions held proper see 67 C J p 1284 note 72 [a]

**Instructions held improper or properly refused**

(1) Concerning subordination of local health officers to state board of health—*Safransky v City of Helena*, 39 P 2d 644, 98 Mont 456

offense to turn on water without authority<sup>99</sup> or to pollute a public water supply,<sup>1</sup> or to go without permission on lands or waters outside a city set aside for water supply purposes<sup>2</sup> or to interfere with machinery used in supplying water,<sup>3</sup> or to wantonly and maliciously waste water<sup>4</sup> The general rules in criminal cases apply to prosecutions of

such an offense.<sup>5</sup> Where a water company is justified in turning off the water supplied a borough and the corporate officers of the borough turn it on again, although under cover of a resolution of the borough council, they are liable for the penalty imposed by statute for turning on the water of a water company without authority.<sup>6</sup>

## X. IRRIGATION

### A. IN GENERAL

#### § 314. Right to Use of Water for Irrigation Generally

- a. Riparian owner
- b. Other persons

##### a. Riparian Owner

- (1) In general
- (2) Quantity

##### (1) In General

In jurisdictions in which the doctrine of riparian

rights obtains, every riparian owner has a limited right to use the water to irrigate his riparian lands.

In jurisdictions wherein the doctrine of riparian rights obtains, as discussed supra § 6, every riparian owner on a stream has a limited right to use the water to irrigate his riparian lands.<sup>7</sup> The rights of different riparian owners are coequal in this respect<sup>8</sup> and there is no superiority growing out of prior riparian ownership by one.<sup>9</sup>

*Place of taking and use.* A riparian right to use water for irrigation is confined strictly to riparian

Tex—Chicago, R I & G Ry Co v Tarrant County Water Control & Improvement Dist No 1, 73 S W 2d 55, 123 Tex 432, certiorari denied 55 S Ct 921, 295 US 762, 79 L Ed 1704

67 C J p 1287 note 3

Right to supply of water from irrigation company see infra §§ 352-363

Right of riparian owner to use of water generally see supra §§ 10-12

##### Vested right

Right of riparian owners to use water for irrigation is a vested right which constituted part of grants of land when grants were made

Tex—Chicago, R I & G Ry Co v Tarrant County Water Control & Improvement Dist No 1, 73 S W 2d 55, 123 Tex 432, certiorari denied 55 S Ct 921, 295 US 762, 79 L Ed 1704.

##### Dual doctrines under riparian theory

The riparian theory comprises two doctrines: that of natural flow, which provides that each riparian owner is entitled to have the water-course maintained in its natural state without being sensibly diminished, and that of reasonable use, which enables the landowner to make any reasonable use, provided it does not unreasonably interfere with the beneficial use of the stream by others

Ark—Harrell v City of Conway, 271 S W 2d 924

Under doctrine of reasonable use, riparian owner may use water for irrigation or for any other purpose with reasonableness of the use being only measure of riparian rights Ark—Harrell v. City of Conway, supra

##### Ownership

Neither carrier nor landowner owns water diverted from natural stream, but they have only the use thereof under regulations prescribed by state with whom ownership remains

Colo—Northern Colorado Irr Co v Board of Com'rs of Arapahoe County, 38 P 2d 889, 95 Colo 555

8. Kan—Frizell v. Bindley, 58 P 2d 95, 144 Kan 84

9. Or—Little Walla Walla Irr Co v Finis Irr Co, 124 P 666, 62 Or 348, modified on other grounds 125 P 270, 62 Or 348  
67 C J p 1287 note 5.

lands;<sup>10</sup> and the limit is generally determined by the natural watershed of the stream.<sup>11</sup> However, a riparian owner having a right to take water for irrigation from a stream may take it from any convenient point on the stream, whether at a point on his own land or the land of another, with the consent of the latter, as long as the taking does not injuriously affect the rights of riparian owners between the point of diversion and the land to be irrigated.<sup>12</sup>

### (2) Quantity

A riparian owner is not entitled to use the entire volume of the stream to irrigate his lands, but his use of water for such purpose must be reasonable in the light of all the circumstances.

A riparian owner is not entitled to use the entire volume of the stream to irrigate his lands.<sup>13</sup> Also, he is not entitled to use for irrigation such quantities

of water as will deprive lower owners of a sufficient supply for their natural wants or domestic needs<sup>14</sup> or such quantities as will destroy or materially impair the rights of lower proprietors to use their due proportion of water for the irrigation of their riparian lands.<sup>15</sup> His use of water for irrigation must be reasonable,<sup>16</sup> and what is reasonable is ordinarily a question of fact depending on the circumstances of the particular case,<sup>17</sup> although there are some things which are clearly and obviously unreasonable,<sup>18</sup> such as a needless waste of water to the injury of other owners.<sup>19</sup> Reasonableness of use is not affected by the mode of diversion.<sup>20</sup>

The quantity of water which a riparian owner is entitled to use for irrigation is necessarily indefinite, uncertain,<sup>21</sup> and subject to fluctuations,<sup>22</sup> it depends on, and varies with, the volume of water in the stream,<sup>23</sup> seasons and climatic conditions,<sup>24</sup> and

10. Tex.—Watkins Land Co v Clements, 86 SW 733, 98 Tex 578, 107 AmSR 653, 70 LRA 964 67 CJ p 1287 note 6

11. Cal.—Bathgate v. Irvine, 58 P 442, 126 Cal 135, 77 AmSR 158 67 CJ p 1287 note 7

#### Restoring flow to old channel

Where an old channel of creek had been dry for more than sixty years with the possible exception of periods during flood conditions when the banks of the main channel overflowed, landowner could not require that water be permitted to flow in the old channel during irrigation season

17. Idaho—In re Robinson, 103 P 2d 693, 61 Idaho 462 67 CJ p 1288 note 13

#### Determination of duty of water

There is no statute fixing a minimum or maximum duty of water, and the question is left to determination of courts, which must consider question with reference to territory to be irrigated, climatic conditions, and soil conditions, and, in absence of abuse of discretion, a decree fixing duty of water will be sustained Colo.—Trinchera Irr Dist v First Nat Bank, 102 P 2d 909, 106 Colo 128

18. Neb.—Meng v Coffey, 93 NW 713, 67 Neb 500, 108 AmSR 697, 60 LRA 910

19. US—U S v Gerlach Live Stock Co, Ct Cl, 70 S Ct 955, 339 US 725, 94 LEd 1231, 20 ALR 2d 633, U S v James J Stevinson, 70 S Ct 955, 339 US 725, 94 LEd 1231, 20 ALR 2d 633

Neb.—Meng v Coffey, 93 NW 713,

67 Neb 500, 108 AmSR 697, 60 LRA 910

"The lone star of utility of irrigation water is application to a beneficial use without waste, i e., using no more than is necessary according to the standards and practices of good husbandry for the particular crops sought to be grown, soil and all other essential factors and conditions being taken into consideration, but it does not place any restriction on the kind of crops one may desire to raise"

Idaho—In re Robinson, 103 P 2d 693, 61 Idaho 462

#### Statutory enforcement of economy

Statutes relating to irrigation manifest legislative intent to enforce and maintain rigid economy in use of waters of state.

Neb.—Enterprise Irr Dist v Willis, 284 NW 326, 135 Neb 827

20. Cal.—Charnock v Higuerra, 44 P 171, 111 Cal 473, 52 AmSR. 195, 32 LRA 190 67 CJ p 1288 note 16

21. SD.—Redwater Land & Canal Co v Jones, 130 NW. 85, 27 SD 194 67 CJ p 1288 note 17

22. Or.—Little Walla Walla Irr Co v Finis Irr Co, 124 P 666, 62 Or 348, modified on other grounds 125 P 270, 62 Or 348 67 CJ p 1288 note 18

23. US—State of Colorado v State of Kansas, Colo & Kan, 64 S Ct 176, 320 US 383, 88 LEd 116, rehearing denied 64 S Ct 633, 321 US 803, 88 LEd 1089 67 CJ p 1288 note 19

24. Or.—Jones v Conn, 64 P 855, 65 P 1068, 39 Or 30, 87 AmSR. 634, 54 LRA 630 67 CJ p 1288 note 20.

the needs of other riparian proprietors,<sup>25</sup> as well as his own needs,<sup>26</sup> and in determining such needs it is necessary to consider the area of irrigable land,<sup>27</sup> and the character of the soil,<sup>28</sup> owned by each riparian proprietor. Where a riparian owner or his grantor acquired title to the land from the government subsequent to the adoption by congress of the Desert Land Act and the statute is applicable to the land, he is entitled, as against a subsequent appropriator, to water for irrigation only to the extent to which he is a prior appropriator<sup>29</sup>

### b. Other Persons

In some jurisdictions, the doctrine that only riparian owners may divert water from streams for irrigation does not obtain; and in any event, the right to use such waters for irrigation may be granted by local law to persons other than riparian owners

Rights to the water of a stream for purposes of irrigation may be granted by local law to persons other than riparian owners,<sup>30</sup> at least, in accordance with the rules discussed supra §§ 169, 170, where the stream is a public one or is on public land and vested rights are not impaired, and in some jurisdictions the common-law doctrine that only riparian owners may divert water from streams for the purpose of irrigation does not obtain<sup>31</sup> It has been

held that surplus or waste waters remaining after irrigation are the property of the owner of the land as long as they exist and remain on his land<sup>32</sup> and that he may transfer to other persons a right thereto for irrigation<sup>33</sup>

In accordance with the rules, discussed supra §§ 167-172, public waters and streams flowing on public domain may, in a proper case, be appropriated for irrigation purposes<sup>34</sup>

## § 315. Public Rights, Supervision, and Control

- a. In general
- b Water officials

### a. In General

By virtue of its police power, a state may regulate and control irrigation and the distribution and use of water therefor.

The irrigation of all land in the state susceptible to irrigation is in the public interest,<sup>35</sup> hence, by virtue of its police power,<sup>36</sup> a state may regulate and control irrigation<sup>37</sup> and the distribution and use of water therefor<sup>38</sup> Regulatory statutes have been enacted in some jurisdictions<sup>39</sup> and such statutes, when free from constitutional objections,<sup>40</sup> are con-

25. US—State of Colorado v State of Kansas, Colo & Kan, 64 S Ct 176, 320 US 383, 88 L Ed 116, rehearing denied 64 S Ct 633, 321 US 803, 88 L Ed 1089.  
67 C J p 1288 note 21

### For domestic, agricultural, and manufacturing purposes

The general rule that every riparian proprietor has equal right to have stream flow through his lands in its natural state, without material diminution in quantity or alteration in quality, is qualified by limitation that each proprietor is entitled to a reasonable use of the water for domestic, agricultural, and manufacturing purposes

67 C J p 1289 note 34

39. Kan—State ex rel Emery v Knapp, 207 P 2d 440, 167 Kan 546  
67 C J p 1289 note 35

### Purpose

The Irrigation Code was enacted in the furtherance of a public policy to afford an economical and speedy remedy for those whose rights were wrongfully disregarded by others, as well as to prevent unnecessary waste and useless diminution of the waters of streams, and to avoid unseemly controversies that may occur where many persons are entitled to share in a limited supply of public water for irrigation and power purposes  
Neb—State ex rel Cary v Cochran, 292 NW 239, 138 Neb 163

40. Colo—Hinderlider v Everett, 19 P 2d 211, 92 Colo 159.  
67 C J p 1289 note 36

trolling in so far as they are applicable,<sup>41</sup> indeed, in some jurisdictions rights of irrigation have their foundation and source in statutory enactments and constitutional provisions and exist only as thus created and defined, and such rights are necessarily limited in their scope by the language of their creation.<sup>42</sup> Some regulatory statutes do not apply to owners in common of a ditch for irrigation purposes who are not carriers of water for hire.<sup>43</sup> Also, drawing water through a canal from one state into another for the purpose of irrigating lands in the latter state is not necessarily a violation of the constitution, laws, or policy of the former state.<sup>44</sup> The mere management and operation of an irrigation system for the benefit of the landowners is not an exercise of any of the powers of state sovereignty.<sup>45</sup>

*Supplying of water as public use* The supplying of water for irrigation is a public use when the water rights and system are dedicated to a service offered as a utility to the public generally or such portion thereof as can be served,<sup>46</sup> but not where there is no offer or holding out to the public and the

service is extended only to certain individuals as a matter of accommodation or for particular reasons.<sup>47</sup> This test is applied in determining whether the power of eminent domain may be exercised, as discussed in Eminent Domain § 47, and whether the individual, association, or corporation supplying the water is subject to control and regulation by a public utility commission.<sup>48</sup>

#### b. Water Officials

The administration of laws relating to the distribution of water for irrigation purposes may be committed by statute to certain officers or boards.

The administration of laws relating to the distribution of water for the purpose of irrigation may be committed by statute to certain officers or boards.<sup>49</sup> "Water commissioners," "water masters," "superintendents of irrigation," and other similar officials are generally public officers,<sup>50</sup> appointed or elected as provided by statute,<sup>51</sup> and compensated by the state or the counties,<sup>52</sup> except in some special cases where particular work is done for private persons<sup>53</sup> or a statute provides that the compensation shall be borne pro rata by the users of water.<sup>54</sup>

#### Statute held constitutional

The act to conserve, protect, control, and regulate the use, development, diversion, and appropriation of water for beneficial and public purposes, and to prevent waste and unreasonable use of water, is not unconstitutional as taking of pre-existing vested riparian rights of down stream owners

Kan—State ex rel Emery v Knapp, 207 P 2d 440, 167 Kan 546

They are executive officers<sup>55</sup> or administrative agents,<sup>56</sup> their powers and duties are variously described as executive,<sup>57</sup> ministerial,<sup>58</sup> or quasi-judicial,<sup>59</sup> and they have such,<sup>60</sup> and only such,<sup>61</sup> jurisdiction, powers, and duties as are committed to them by statute. Such an officer does not have territorial jurisdiction beyond the boundaries of the state.<sup>62</sup>

### § 316. — Reclamation of Arid Land by Public Authorities

- a By state
- b By United States

#### a. By State

The reclamation of arid land by irrigation is a matter of public interest, and statutes providing therefor are within the power of the legislature to enact. In a number of states, reclamation projects have been provided for under the terms of a federal statute, known as the Carey Act, enacted to aid states in this respect.

The term "reclamation" is sufficiently broad and comprehensive to include the control or regulation of waters to the extent necessary to bring lands into a state suitable for cultivation, not only by draining, or excluding water from, lands which are excessively wet, as discussed in Drains §§ 1, 4, but also by irrigating lands which are excessively dry

and arid.<sup>63</sup> The reclamation of arid land by irrigation is a matter of public interest, for the general welfare, and is a governmental function.<sup>64</sup> So, a statute providing for reclamation by the state of arid land by an irrigation project is for a public purpose<sup>65</sup> and hence is within the power of the legislature to enact.<sup>66</sup>

*Under Carey Act* A federal statute, known as the Carey Act and enacted for the purpose of aiding states in the reclamation of public desert lands and the settlement, cultivation, and sale thereof in small tracts to actual settlers, authorizes the secretary of the interior to contract with each state in which public desert lands are situated to donate, grant, and patent to the state such desert lands as the state may cause to be irrigated, reclaimed, and occupied, and it authorizes each state so contracting to make all necessary contracts to cause the lands to be reclaimed and to induce their settlement and cultivation.<sup>67</sup> Furthermore, the statute, as amended, authorizes a contracting state to create liens on separate legal subdivisions of reclaimed land for the actual cost and necessary expenses of reclamation and reasonable interest thereon from the date of reclamation until the land is disposed of to actual settlers.<sup>68</sup> In carrying out this statute and state

67 C J p 1291 note 64

#### Intent

The intention of congress, in enacting Carey Land Act, and of Montana legislature, in enacting statutes establishing machinery to accept benefits of the Carey Land Act, was that such Carey Act lands could be finally acquired only by actual settlers thereon in separate tracts and not to exceed 160 acres to each qualified settler.

Mont—Valier Co v State, 215 P 2d 966, 123 Mont 329, certiorari denied 71 S Ct 63, 340 US 827, 95 L Ed 607

68 US—Equitable Trust Co of New York v Cassia County, CCA. Idaho, 5 F 2d 955

67 C J p 1291 note 65

#### Intent of provision

The language of amendment to Carey Land Act empowering states to provide for granting liens to construction companies for their construction costs by appropriate legislation does not manifest intent to authorize acquisition of large areas of lands by individuals or companies or to change provisions of original act prohibiting states from disposing of more than one hundred and sixty

legislation relating to the same subject matter, there are contracts between the government and a state,<sup>69</sup> between the state and a construction company,<sup>70</sup> between the construction company and an operating

company, at least in some cases,<sup>71</sup> and between the construction company or operating company and settlers;<sup>72</sup> and the reclamation is carried forward pursuant to the contracts.<sup>73</sup> The various contracts

acres of lands to any one person  
Mont—Valier Co v State, 215 P2d 966, 123 Mont 329, certiorari denied 71 S Ct. 63, 340 US 827, 95 L Ed. 607

#### Statute as not creating lien

The Carey Act providing for grant of desert lands by federal government to state in which lands are located, conditioned upon state causing land so segregated to be reclaimed, occupied and cultivated by actual settlers, does not create a lien nor does it define any lien so created, and amendment to the act empowering states concerned to provide for liens by appropriate legislation is an "enabling act"  
Mont—Valier Co v State, supra.

#### Right to, and extent of, lien

US—North Side Canal Co v Idaho Farms Co, CCA Idaho, 107 F2d 481, rehearing denied 109 F2d 354 67 CJ p 1291 note 65 [b]

#### Effect of foreclosure

(1) Statutes compelling a Carey Act construction company to sell its water rights within a certain time limit do not apply after purchase of land at foreclosure or by deed, and a construction company after the foreclosure of its lien on land, for failure of entryman to pay contract price, does not hold land as a construction or selling agent of the state in view of statute disclaiming any liability on part of state for a Carey Act construction project  
Idaho—North Side Canal Co v Idaho Farms Co, 96 P2d 232, 60 Idaho 748

(2) Where a Carey Act construction company has obtained title to land and water rights by foreclosure of its lien for construction costs, transfer of place of use of water owned by construction company would be governed by same rules applicable to any other water user, and company is not prohibited from selling the land at an increased price over original price  
Idaho—North Side Canal Co v Idaho Farms Co, supra

(3) A Carey Act construction company by foreclosing its liens on lands in the district for construction costs or by obtaining deeds in lieu of foreclosure did not acquire title to the land and water appurtenant thereto, but such title was within framework of the statutes and contracts of the project, and was still subject to the covenants until sold to settlers  
Mont—Valier Co v State, 215 P2d 966, 123 Mont 329, certiorari de-

nied 71 S Ct. 63, 340 US 827, 95 L Ed 607

#### Statute allowing maintenance assessments

Statute allowing maintenance assessments by operating company on lands purchased by Carey Act construction company, on foreclosure of its lien for construction costs is not unconstitutional as impairing obligation of construction company's contract for full reimbursement for construction costs, where construction company by statute was limited in default of payments of its costs, to sale of lands and water and recovery of whatever sum was paid at sale

Idaho—North Side Canal Co v Idaho Farms Co, 96 P2d 232, 60 Idaho 748

69. Idaho—State v Twin Falls-Salmon River Land & Water Co, 166 P 220, 30 Idaho 41 67 CJ p 1292 note 67

70. US—Twin Falls Land & Water Co v Twin Falls Canal Co, CCA Idaho, 79 F2d 431, certiorari denied 56 S Ct. 381, 296 US 654, 80 L Ed 466 67 CJ p 1292 note 68

#### Operation and effect generally

US—Twin Falls Land & Water Co v Twin Falls Canal Co, supra.  
Mont—Valier Co v State, 215 P2d 966, 123 Mont 329, certiorari denied 71 S Ct. 63, 340 US 827, 95 L Ed 607

#### Transfer of contractor's interest

US—Twin Falls Land & Water Co v Twin Falls Canal Co, DCA Idaho, 7 F Supp 238, affirmed, CCA, 79 F2d 431, certiorari denied 56 S Ct 381, 296 US 654, 80 L Ed 466 67 CJ p 1292 note 68 [1]

#### Rights and title of construction company

(1) Corporation organized to construct irrigation system under Carey Act, although originally holding legal title to irrigation system and water rights, holds property subject to public use and in trust for state and prospective owners, it does not become owner of water rights or irrigation system, but is only given right to sell water rights for purpose of reimbursing it for cost of construction  
US—Twin Falls Land & Water Co v Twin Falls Canal Co, supra.

(2) Other rights see 67 CJ p 1292 note 68 [d]

71. US—Twin Falls Land & Water Co v Twin Falls Canal Co, supra.

#### Construction and operation of contract

US—Idaho Farms Co v. North Side Canal Co, DCA Idaho, 24 F Supp 139, reversed on other grounds, CCA, North Side Canal Co v Idaho Farms Co, 107 F2d 481, rehearing denied 109 F2d 354—Twin Falls Land & Water Co v Twin Falls Canal Co, DCA Idaho, 7 F Supp 238, affirmed, CCA, 79 F2d 431, certiorari denied 56 S Ct 381, 296 US 654, 80 L Ed 466

#### Lien of operating company

Liens of a Carey Act operating company on land and water rights for maintenance costs were not merged because construction company obtained title to the land by foreclosure proceedings, where liens of operating company were asserted only after successor of construction company had acquired title by foreclosure proceedings, and the operating company is not prevented from foreclosing liens for maintenance assessments on land of Carey Act construction company obtained by foreclosure of its lien for construction costs because of fact that the statute does not limit the lien of construction company for construction costs to time of foreclosure, but gives one until payment, since payment, in case of default is under the statutes, accomplished by foreclosure or deed in lieu thereof

Idaho—North Side Canal Co v Idaho Farms Co, 96 P2d 232, 60 Idaho 748

72. Idaho—State v Twin Falls-Salmon River Land & Water Co, 166 P 220, 30 Idaho 41 67 CJ p 1292 note 69

#### Construction company taking over land of settlers

Land and water rights obtained by a Carey Act construction company on foreclosure of its lien for construction costs are subject to maintenance assessments by Carey Act operating company and operating company is entitled to foreclose its lien on such land for maintenance assessments, and construction company was required to pay such assessments, although land was almost valueless and no water had been used on it.

Idaho—North Side Canal Co v Idaho Farms Co, 96 P2d 232, 60 Idaho 748.

73. Or—Skinner v. Jordan Valley Irr. Dist, 300 P 499, 137 Or. 480, modified on other grounds and rehearing denied 3 P2d 534, 137 Or. 480.

are to be read together,<sup>74</sup> and they must not only conform to the pertinent statutory provisions,<sup>75</sup> but they must also be read in the light thereof,<sup>76</sup> all parties to the contracts are charged with knowledge of,<sup>77</sup> and are bound by,<sup>78</sup> the pertinent state and federal laws, as well as all the provisions of the respective contracts,<sup>79</sup> and state officials must not act in contravention of the statutes<sup>80</sup>

Statutes of the character under discussion have been held valid as against various constitutional objections,<sup>81</sup> and, where they are susceptible of another construction, neither the statutes<sup>82</sup> nor contracts entered into pursuant thereto<sup>83</sup> should be so construed as to impair the obligations of a prior contract

#### b. By United States

Under the terms of the National Reclamation Act, the

United States, through the secretary of the Interior, has power to construct, operate, and maintain irrigation works, and to enter into contracts for related purposes with irrigation districts, water users' associations, and others.

Congress has power to promote the general welfare through large scale projects for reclamation, irrigation, and other internal improvements<sup>84</sup> In the valid exercise of this power, it enacted the National Reclamation Act, 43 USCA. § 371 et seq,<sup>85</sup> and under this act and the construction placed thereon, the secretary of the interior is authorized to construct,<sup>86</sup> operate, and maintain<sup>87</sup> irrigation works, make an equitable apportionment per acre of the construction charges on the entries and privately owned lands which may be irrigated by the waters of the project,<sup>88</sup> fix an operation and maintenance charge to be paid by each water-right

74. US—Twin Falls Land & Water Co v Twin Falls Canal Co, D C Idaho, 7 F Supp 238, affirmed, C CA, 79 F 2d 431, certiorari denied 56 S Ct 381, 296 US 654, 80 L Ed 466

#### Change of policy

Congress had power to change its standing policy that primary purpose in Reclamation Laws was irrigation, and that development of hydroelectric power was incidental

US—Winston Bros Co v. U S, Ct Cl, 130 F Supp 374

85. US—United States v Hanson, Wash, 167 F 881, 93 CCA 371  
67 C J p 1293 note 79

86. US—U S v Ide, CCA Wyo, 277 F 373, affirmed 44 S Ct 182, 263 US 497, 68 L Ed. 407  
67 C J p 1293 note 80

87. DC—Burley Irr Dist v Ickes, 116 F 2d 529, 73 App DC 23, certiorari denied 61 S Ct 614, 312 US 687, 85 L Ed 1124

The primary object of statute dealing with reclamation of land by federal government is the reclamation of arid lands through irrigation, and production of power for pumping in connection with irrigation is an important incident to the main object, but disposition of surplus power not required for pumping or other uses of irrigation for commercial uses is authorized only as an incidental phase of reclamation and not as a primary or independent act in itself  
DC—Burley Irr Dist v Ickes, supra.

#### Powers of secretary of interior

The secretary of interior had power to execute a plan of conservation whereby he stopped winter flow of water through power plant in irrigation district, ceased producing power in nonirrigating season for purpose of conserving such water for irrigating season, contracted with private power company to supply commercial demand in district, and preserved the profitable commercial power business which would otherwise have been lost through lack of dependable source of power during irrigation season

DC—Burley Irr Dist v. Ickes, supra.

#### Incidental legislative authorization

Congress had power to enact the statute authorizing the secretary of the interior to purchase and improve suitable land for a townsite to replace a portion of a town flooded by a reservoir of a reclamation project, and under such a statute, the fee-simple title to land purchased by the secretary of the interior for such townsite is in the United States until it disposes of it  
US—U. S v. Power County, DC Idaho, 21 F Supp 684

88. US—Ickes v Fox, App DC, 57 S Ct 412, 300 US 82, 81 L Ed 525,

applicant, entryman, or landowner according to the quantity of water delivered,<sup>89</sup> and to enter into contracts for specified purposes with irrigation districts, water users' associations, corporations, entrymen, or water users.<sup>90</sup> The rights, obligations, and liabilities under such contracts are governed by

the terms and provisions thereof as affected by general rules of law and applicable statutes,<sup>91</sup> and in a number of cases courts have had occasion to construe and apply provisions for the government to receive credit for return flow, drainage water, and waste water.<sup>92</sup>

rehearing denied 57 S Ct 504, 300 US 640, 81 L Ed 888  
67 C J p 1293 note 82

#### Propriety of charges

The secretary of interior can make only such charges to reimburse reclamation fund for construction of project as are provided for in the Reclamation Act

DC—Fox v Ickes, 137 F 2d 30, 78 US App DC 84, certiorari denied 64 S Ct 204, 320 US 792, 88 L Ed 477, Ickes v Park, 64 S Ct 204, 320 US 792, 88 L Ed 477, and Ickes v Eder, 64 S Ct 204, 320 US 792, 88 L Ed 477

#### Unauthorized construction

Where construction of new reservoir was undertaken in violation of Reclamation Act providing that no work shall be undertaken on which construction charge has been fixed by public notice if work increases construction charge above charge in notice unless water right applicants and entrymen agree to pay cost thereof, secretary of interior could not collect costs for unauthorized construction on ground of unjust enrichment of water users

DC—Fox v Ickes, 137 F 2d 30, 78 US App DC 84, certiorari denied 64 S Ct 204, 320 US 792, 88 L Ed 477, Ickes v Park, 64 S Ct 204, 320 US 792, 88 L Ed 477, and Ickes v Eder, 64 S Ct 204, 320 US 792, 88 L Ed 477

89. US—Ickes v Fox, App DC, 57 S Ct 412, 300 US 82, 81 L Ed 525, rehearing denied 57 S Ct 504, 300 US 640, 81 L Ed 888

91. US—U S v Warm Springs Irr Dist, DCO, 38 F Supp 239  
DC—Burley Irr Dist v Ickes, 116 F 2d 529, 73 App DC 23, certiorari denied 61 S Ct 614, 312 US 687, 85 L Ed 1124

#### Validity of statute

Statute providing for application of net revenues from operation of power plant in connection with Shoshone irrigation project was within constitutional power of congress  
DC—U. S ex rel Shoshone Irr Dist v Ickes, 70 F 2d 771, 63 App DC 167, certiorari denied 55 S Ct 82, 293 US 571, 79 L Ed 670

#### Applicability of state law

The United States, in the construction of reservoirs for impounding waters of river and of irrigation system and in the distribution of water therefrom, acted solely under and subject to appropriation and irrigation laws of the state  
Wash—Lawrence v Southard, 73 P 2d 722, 192 Wash 287, 115 ALR 1308

#### Right to collect seepage waters

(1) Under Reclamation Act, right of United States as storer and carrier was not exhausted when waters had been once used, but extended to recapture and re-use of waters  
US—Hudspeth County Conservation and Reclamation Dist No 1 v Robbins, CA Tex, 213 F 2d 425, certiorari denied 75 S Ct 56, 348 US 833, 99 L Ed 657.

(2) The scope of the United States appropriative rights in connection with a federal reclamation project are the same, under the Nebraska law, as those in connection with any

irrigation canal, and includes the right, by proper means, to collect seepage waters from any part of the land and to reapply them on other lands within the project and under the appropriation, hence under Nebraska law, the fact that the United States has divided reclamation project into several divisions which have been completed at different times does not preclude the United States from recapturing seepage waters from lands in one division for use of another division, where the grouping of the lands into divisions was simply a matter of mechanical organization and administrative convenience in the sound development of the project as a whole and the reservoirs and diversion works by means of which the waters were supplied remain in the control of the United States  
US—U S v Tilley, CCA Neb, 124 F 2d 850, certiorari denied Scott v U S, 62 S Ct 1281, 316 US 691, 86 L Ed 1762

#### Actions to enforce rights

US—American Falls Reservoir Dist No 2 v Crandall, CCA Idaho, 82 F 2d 973, modified on other grounds and rehearing denied 85 F 2d 864

92. US—U S v Warm Springs Irr Dist, DCO, 38 F Supp 239

"Drainage" as used in contract involving water rights can be the result of a subsurface flow, and the word may express the concept of water which has escaped from a reservoir by percolation and is drawn off when it appears again on the surface

US—U S v Warm Springs Irr Dist, supra

"Return flow" is water drawn from a stream and impounded or used in irrigation which subsequently arrives again at the stream from which it was initially abstracted, and may be found either in surface or in percolating waters

US—United States v. Warm Springs Irr Dist, supra.

#### Public character of percolating water

Water escaping from United States government irrigation project by deep percolation was, under Oregon law, of a "public character," even against the United States

US—U. S v. Warm Springs Irr Dist, supra.

#### Consideration

A contract between United States and local irrigation district downstream from government irrigation

*Rights of landowner or water user* The right, if any, to water from a government irrigation project is limited to such water as is reasonably necessary,<sup>93</sup> the rights of the users being determined not by contract, but by beneficial use.<sup>94</sup> However, a landowner cannot be compelled to use his water right on any particular part of his land.<sup>95</sup> Vested rights of a water user may not be destroyed by action of the secretary of the interior,<sup>96</sup> but interference with such rights by action pursuant to acts of congress and authorized by state legislation cannot be prevented by landowners and other water users, although they may be entitled to damages.<sup>97</sup> Interference by the manager of a reclamation project

with private ditches and water rights constitutes a trespass<sup>98</sup> for which the manager is personally liable.<sup>99</sup> Diversion, storage, and distribution of the water by the federal government does not vest the United States with ownership of the water rights, which remain vested in the owners as appurtenant to the land wholly distinct from the property of the government in the irrigation works;<sup>1</sup> and the government remains a carrier and distributor of water with the right to receive the sums stipulated in the contract for construction and the annual charges for the operation and maintenance of the works.<sup>2</sup>

project, providing that government should receive credit for "return flow" in lieu of stored water to which local district would otherwise be entitled, was based on sufficient consideration, where not all the water for which the government received credit was of public character, and district could promise to return more water than it received from surface runoff, within the limits of beneficial use and the terms of appropriation.

US—U S v. Warm Springs Irr Dist, *supra*.

93. US—Scheer v Moody, DC Mont, 48 F2d 327, reversed on other grounds, CCA, Moody v Johnston, 66 F2d 999.

94. DC—Fox v Ickes, 137 F2d 30, 78 US App DC 84, certiorari denied 64 SCt 204, 320 US 792, 88 LEd 477, Ickes v Park, 64 SCt 204, 320 US 792, 88 LEd 477, and Ickes v Eder, 64 SCt 204, 320 US 792, 88 LEd 477.

95. Idaho—Nampa & Meridian Irr Dist v Petrie, 223 P 531, 37 Idaho 45.

96. US—Rank v Krug, DC Cal, 90 F Supp 773.

#### Action held unauthorized

Notice issued by secretary of interior expressly limiting measure of water right of water users in Sunnyside division of Yakima reclamation project to three acre feet and providing that water in excess of three acre feet might be rented by water users and money collected applied to payment of unsecured portion of reservoir system of Yakima project was a nullity, as unauthorized and constituting an attempt to destroy vested rights.

Wash—Lawrence v Southard, 73 P 2d 722, 192 Wash 287, 115 ALR 1308.

#### Intent of congress

Congress, in making appropriations for construction of dam on river which was navigable in part, regardless of whether dam was for improvement of navigation or flood

control, did not intend that riparian owners whose lands were located on river below dam should have no water rights and did not authorize the taking of any water rights without just compensation.

US—Rank v Krug, DC Cal, 90 F Supp 773.

#### Question of fact

Declaration by congress that the works to be constructed under the Central Valley Project were for river regulation, improvement of navigation, flood control, irrigation, and domestic uses and power, coupled with requirement that all such works would be constructed and operated under the reclamation laws, established that the relation to navigation, flood control, irrigation, river regulation or power of each dam or works should be determined as a question of fact, with due regard to private rights and rights of the State of California.

US—Rank v Krug, *supra*.

#### Rights not protected

Riparian owners whose lands were located on river below dam constructed under federal reclamation laws were not, as parties in interest entitled to enforce any right of use to flow of waters of river for spawning and fishing of salmon and other fish for both general commercial purposes and general recreational purposes of plaintiffs and public under federal statute requiring that adequate provision be made in construction by United States of any dams or diversionary works for the conservation, maintenance and management of wild life resources and its habitat.

US—Rank v Krug, *supra*.

99. US—Scheer v Moody, DC Mont, 48 F2d 327, reversed on oth-

er grounds, CCA, Moody v Johnston, 66 F2d 999.

1. US—State of Neb v State of Wyo, Neb & Wyo, 65 SCt 1332, 325 US 589, 89 LEd 1815—Ickes v Fox, App DC, 57 SCt 412, 300 US 82, 81 LEd 525, rehearing denied 57 SCt 504, 300 US 640, 81 LEd 888.

#### Acquisition of rights by landowner

Where water rights on which federal water project rested pursuant to Reclamation Act had been obtained in compliance with state law, and pursuant to government's action individual landowners had become the appropriators of the water rights, the United States being the storer and carrier, the rights acquired by landowners were as definite and complete as if they were obtained by direct cession from the federal government, so that even though the government owned unappropriated rights, they were acquired by landowners in manner contemplated by congress.

US—State of Nebraska v. State of Wyoming, Neb & Wyo, 65 SCt 1332, 325 US 589, 89 LEd 1815.

2. US—State of Nebraska v State of Wyoming, *supra*—Ickes v Fox, App DC, 57 SCt 412, 300 US 82, 81 LEd 525, rehearing denied 57 SCt 504, 300 US 640, 81 LEd 888—Ickes v Parks, 57 SCt 412, 300 US 82, 81 LEd 525, rehearing denied 57 SCt 504, 300 US 640, 81 LEd 888—Ickes v Ottmuller, 57 SCt 412, 300 US 82, 81 LEd 525, rehearing denied 57 SCt 504, 300 US 640, 81 LEd 888.

Hudspeth County Conservation and Reclamation Dist No 1 v. Robbins, CA Tex, 213 F2d 425, certiorari denied 75 SCt 56, 348 US 833, 99 LEd 657.

#### Property rights distinguished

In constructing reclamation project pursuant to Reclamation Act, property right in water right is separate and distinct from property right in reservoirs, ditches, or ca-

*Withdrawal of lands from entry* The secretary of the interior may, as directed by statute, withdraw from public entry the lands required for any irrigation works contemplated under the provisions of the statute.<sup>3</sup> Under his general statutory authority to perform any acts and to make such rules and regulations as may be necessary and proper to carry out the provisions of the statute, the secretary may establish rules as to the use of withdrawn lands while not needed for the purpose for which they are reserved,<sup>4</sup> and may lease them for grazing.<sup>5</sup>

### § 317. Actions to Establish and Protect Rights

A person, corporation, district, or government claiming a right to the use of waters or works for irrigation

purposes may bring an appropriate action or suit to establish, protect, and enforce the right.

Provided the assertion of the right is not barred by laches<sup>6</sup> or estoppel,<sup>7</sup> a person, corporation, district, or government possessing or claiming a right to the use of waters or works for irrigation purposes may bring an appropriate action or suit to establish, protect, and enforce the right,<sup>8</sup> such as an action for damages,<sup>9</sup> a suit to enforce a contract,<sup>10</sup> an action of ejectment to recover possession of a water ditch or canal,<sup>11</sup> an action to abate a defective impounding dam as a nuisance causing the loss of water to plaintiff for irrigation purposes,<sup>12</sup> a suit to quiet title,<sup>13</sup> or, where there is no adequate remedy at law, a suit to restrain wrongful and injurious acts,<sup>14</sup> as, for example, interference with, or in-

nals, in that water right is appurtenant to land owner of which is the appropriator, and is acquired by perfecting an "appropriation," that is, by an actual diversion followed by an application within a reasonable time of the water to a beneficial use

US—State of Nebraska v State of Wyoming, 65 S Ct 1332, 325 US 589, 89 L Ed 1815

3. US—U S v Hanson, Wash, 167 F 881, 93 CCA 371

Cal—Donley v. West, 189 P 1052, reheard 193 P 519, 49 Cal App 796, error dismissed 43 S Ct 87, 260 US 697, 67 L Ed 469

4. Utah—Clyde v Cummings, 101 P 106, 35 Utah 461

5. Utah—Clyde v. Cummings, supra

6. Cal—Empire West Side Irr Dist v Stratford Irr Dist, 74 P 2d 248, 10 Cal 2d 376

Colo—Putnam Ditch Co v Bijou Irr Co, 114 P 2d 284, 108 Colo 124

Wyo—Anderson v Wyoming Development Co, 154 P 2d 318, 60 Wyo 417

67 CJ p 1294 note 94

#### Facts held to show laches

Doctrine of laches was applicable to plaintiff's claim that they acquired not only a proportionate perpetual water right but also proportionate interest in all irrigation works constructed by vendor, where plaintiffs had stood by and observed vendor and agents protecting, caring for and operating the irrigation works, with acquiescence of everyone concerned, over a period far beyond the ten-year limitation of actions statute

Wyo—Anderson v Wyoming Development Co, supra.

#### Facts held not to show laches

(1) Riparian owners whose lands were located on river below dam constructed under federal reclamation laws would not be denied in-

junctive relief against officials of the Bureau of Reclamation, operating dam to enjoin interference with their right of use of waters of river for agricultural and domestic purposes on grounds of laches under the circumstances

US—Rank v Krug, DCCal, 90 F Supp 773

(2) Where it is not shown that a diversion of water was such as to challenge the notice of an irrigation district, it cannot be charged with laches in failing to bring an action to enforce its rights

Mont—Canyon Creek Irr Dist v Martin, 159 P 418, 52 Mont 339

7. Wyo—Anderson v Wyoming Development Co, 154 P 2d 318, 60 Wyo 417

8. Neb—Robinson v Dawson County Irr Co, 8 NW 2d 179, 142 Neb 811

67 CJ p 1294 note 95

#### Statutory remedy

Where parties use water which should have been placed on certain other lands to which it was appurtenant without permission of state engineer and in violation of irrigation code, party suffering the wrong has a remedy under the statute

NM—Chavez v. Gutierrez, 213 P 2d 597, 54 NM 76

9. US—Denver & R. G. W. R. Co v Himonas, CA Utah, 190 F 2d 1012

10. Cal—Daly v. Ruddell, 70 P 784, 137 Cal 671

67 CJ p 1295 note 96

11. Cal—Dondero v O'Hara, 86 P 985, 3 Cal App 633

12. Colo—Seven Lakes Water Users' Ass'n v Fort Lyon Canal Co, 4 P 2d 1112, 89 Colo 515

13. US—Idaho Farms Co v North Side Canal Co, D C Idaho, 24 F Supp 189, reversed on other grounds North Side Canal Co v Idaho Farms Co, 107 F 2d 481, rehearing denied 109 F 2d 354

Utah—Whittaker v Spencer, 206 P 2d 612, 115 Utah 499

67 CJ p 1295 note 99.

#### Nature of suit

Suit to quiet title to water rights for irrigation purposes is in the nature of an action to quiet title to real estate

Utah—Hammond v Johnson, 66 P 2d 894, 92 Utah 20, rehearing denied 75 P 2d 164, 94 Utah 35

#### Issues involved

In government's suit to quiet title and determine rights to use of waters of Walker River used for irrigating lands in Nevada and California, and wherein Nevada and California defendants appeared and submitted themselves to jurisdiction, all of the rights of parties were before court

US—U S v Walker River Irr. Dist, D C Nev, 11 F Supp 158, exceptions dismissed 14 F Supp 10, reversed on other grounds, C. CA, 104 F 2d 334

14. Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111

Wyo—Linck v Brown, 96 P 2d 909, 55 Wyo 100

67 CJ p 1295 note 1.

#### Remedy at law adequate

The statute providing that any public power and irrigation district shall be liable for all seepage damage, and that damages from seepage shall be recoverable when and if it accrues, gives a plain, complete, adequate, and speedy remedy at law, and landowners were not entitled to injunctive relief to abate seepage on their lands allegedly caused by irrigation districts

Neb—Halligan v Elander, 25 N.W 2d 13, 147 Neb 709

State may maintain action in equity to compel irrigation district to refrain from using water without complying with regulatory statute, although purpose of action is to

jury to, a ditch, canal, or other works,<sup>15</sup> the unauthorized taking of water from plaintiff's ditch or source of supply,<sup>16</sup> or the diversion or shutting off of a supply of water to which plaintiff is entitled.<sup>17</sup> Also, in a case of continuing wrong and irreparable injury, a landowner may sue to restrain the maintenance of an irrigation ditch on his lands<sup>18</sup> or the use of water by an upper owner for irrigation purposes in such a way as to interfere with his lands<sup>19</sup>

In an action to establish or enforce water rights necessary parties must,<sup>20</sup> and proper parties may, be joined.<sup>21</sup>

To warrant recovery or relief, the facts must disclose plaintiff's substantive right, defendant's violation or threatened violation thereof, and the appropriateness of the particular relief sought;<sup>22</sup> but, where a right to recovery or relief is established,

protect rights of all users of water for irrigation purposes

Neb—State ex rel Sorensen v Mitchell Irr Dist, 262 NW 543, 129 Neb 586, certiorari denied Mitchell Irr Dist v State of Nebraska ex rel Sorensen, 56 S Ct 667, 297 US 723, 80 LEd 1007

15 Cal—San Juan Gold Co v San Juan Ridge Mut Water Ass'n, 93 P 2d 582, 34 Cal App 2d 159 67 C J p 1295 note 2

16 Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111 67 C J p 1295 note 3

17. Mont—Koch v Colvin, 105 P 2d 334, 110 Mont 594—Sherlock v Greaves, 76 P 2d 87, 106 Mont 206 Tex—City of Wichita Falls v Bruner, Civ App, 165 S W 2d 480, error refused 67 C J p 1295 note 4

#### Adequacy of remedy at law

Riparian owners whose lands were located on river below dam constructed under federal reclamation laws would not be denied injunctive relief against officials of the Bureau of Reclamation, in operation of the dam, from interfering with their right of use of waters of river for agricultural and domestic purposes on ground that they had a plain, speedy and adequate remedy at law under the Tucker Act US—Rank v Krug, D C Cal, 90 F Supp 773

#### Appointment of water master

In suit by the United States to enjoin an irrigation company from diverting irrigation water allegedly purchased and owned by the United States, the appointment of a water master was unnecessary, since injunction could enjoin company from interfering with diversion and storage of water by the United States and could enjoin company from diverting and storing water, and by such an injunction the district court could protect the United States against unlawful invasions of its rights by company without the appointment of a water master US—U S v Humboldt Lovelock Irr Light & Power Co, 97 F 2d 38, CCA Nev, certiorari denied Humboldt Lovelock Irr, Light & Power Co v U S, 59 S Ct. 94, 305 US 630, 83 LEd 404.

#### "Public interest"

With respect to right to enjoin diversion of water from creek, use to which appropriators of water, who supplied people of community with water, applied their rights, was a "public use," since property becomes clothed with a "public interest" when it is used in a manner to make it of public consequence, and affect the community at large, and it is the extent and character of use which make it "public" Mont—Sherlock v Greaves, 76 P 2d 87, 106 Mont 206

#### Conditions precedent

Injunction may issue in proper case to compel distributor to supply water for irrigation to consumer, but relief will not be granted unless consumer pays amount properly payable for delivery of water Wyo—McHale v Goshen Ditch Co, 52 P 2d 678, 49 Wyo 100

18 SD—Geiger v McMahon, 139 NW 958, 31 SD 95

19. Nev—Johnston v Rosaschi, 194 P 1063, 44 Nev. 386

20. Colo—Cox v Olsen, 41 P 2d 296, 96 Colo 233 67 C J p 1295 note 7

#### Who are necessary parties

Owners of seven-eighths of water decreed to irrigation ditch were indispensable party to proceeding wherein decree was made placing burden of maintenance on owners of one-eighth of ditch water and placing regulation of headgate in control of water commissioner with directions concerning interests of parties to action only Colo—Cox v Olsen, supra

#### Who are unnecessary parties

(1) Irrigation district that brought action against water master to require distribution in accordance with its adjudicated rights and joined as defendant drainage district, the recipient of water allegedly diverted from irrigation district was not required to join as defendants water users of the drainage district, since their rights depended on the rights of the drainage district from which they obtained use of the water and they could have no defense not available to drainage district

Idaho—Nampa & Meridian Irr. Dist

v Barclay, 47 P 2d 916, 56 Idaho 13, 100 ALR 557.

(2) An action to establish and protect an irrigation company's water rights or enjoin the unlawful diversion of its supply by water may be brought by the company without joining its stockholders or consumers as parties

Neb—Robinson v Dawson County Irr Co, 8 NW 2d 179, 142 Neb. 811

#### (3) Other parties

Colo—Hackett v Larimer & Weld Reservoir Co, 109 P 965, 48 Colo 178

21. Tex—Arneson v Shary, Civ App, 24 S W 2d 1116 67 C J p 1295 note 7 [b]

#### Parties plaintiff

Ditch companies, operating separate canals diverting water from river, could join as plaintiffs to bring suit for wrongful diversion of water by parties over whom plaintiffs had priorities

Colo—Reorganized Catlin Consol Canal Co v Sunnyside Park Ditch Co, 54 P 2d 560, 98 Colo 148

#### Proper parties defendant

Ditch companies, operating canals diverting water from river, who brought suit for wrongful diversion of water, properly joined as defendants several separate offenders who were not acting jointly in diverting water

Colo—Reorganized Catlin Consol Canal Co v Sunnyside Park Ditch Co, supra

#### Improper parties defendant

In action to restrain adjoining landowner from interfering with the use of an irrigation ditch constructed through plaintiff's land, it was improper to join attorneys as defendants on ground of alleged unsound legal advice given by them to defendant concerning removal of a dam in ditch in question

Colo—Lestoque v Arnold, 180 P 2d 862, 116 Colo 293

22. Cal—Hannah v Pogue, 147 P 2d 572, 23 Cal 2d 849

Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111

Mont—Hansen v Galiger, 208 P 2d 1049, 123 Mont 101

Or—Smyth v Jenkins, 33 P 2d 1007, 148 Or 165

matters not constituting a defense will not defeat the action.<sup>23</sup> Where the remedy of injunction for enforcement of provisions of the irrigation laws are conferred on a water improvement district by statute, the granting of such relief does not depend on

equitable principles.<sup>24</sup>

*Pleadings, evidence, and trial* In order that recovery or relief may be warranted, the pleadings must be sufficient under the rules governing pleadings generally.<sup>25</sup> The issues are confined to those

Utah—Yardley v Long Canal Co, 177 P 2d 530, 111 Utah 247  
67 C J p 1295 note 8

#### Parties in interest

(1) In general  
NM—Middle Rio Grande Conservancy Dist v Chavez, 101 P 2d 190, 44 NM 240

(2) Riparian owners of land below dam constructed under reclamation laws are not proper parties in interest to enforce maintenance of flow for commercial or recreational fishing or spawning for reason that state of California in Water Code and Fish and Game Code placed that responsibility on public officials of the state of California

US—Rank v. Krug, D C Cal, 90 F Supp 773

(3) Protective association alleging facts showing that it represented, as a corporate entity, its own rights and the rights of its constituent members who were littoral owners around a lake and reservoir was a real party in interest in suit to enjoin breach by reservoir company of contract relative to the maintenance and variation of lake levels

Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111

(4) Attorney general, on behalf of state, was authorized to institute and carry on action to compel irrigation district to refrain from using water for irrigation purposes without complying with regulatory statute

Neb—State ex rel Sorensen v Mitchell Irr Dist, 262 N W 543, 129 Neb 586, certiorari denied Mitchell Irr Dist v State of Nebraska ex rel Sorensen, 56 S Ct 667, 297 US 723, 80 L Ed 1007

(5) In suit by landowners to prevent irrigation district from depriving them of full use of water rights decreed to them by using waste water, which had escaped from land of district to natural flow of river, to satisfy water rights junior to plaintiffs, that there were other parties with water rights superior to plaintiffs, did not prevent plaintiffs from maintaining suit against district

#### Right to use water

As general rule, the right to use of water is requisite to valid claim for damages for deprivation of its use

US—Denver & R G W R Co v Hironas, C A Utah, 190 F 2d 1012

#### Right to use ditch

In suit to enjoin wrongful interference with exclusive use of irrigation ditch, in absence of written evidence of contract, plaintiff was required to find basis for claimed right in acts or omissions of parties giving him easement by adverse possession or application of some equitable principle

Wyo—Lanck v Brown, 96 P 2d 909, 55 Wyo. 100

#### Continuing trespass

A complaint for injunction and damages for interfering with irrigation rights stated a cause of action, notwithstanding that primary trespass complained of occurred before plaintiffs acquired title, where trespass was in fact and of necessity a continuing one

Colo—Young v Corey, 73 P 2d 1384, 101 Colo 463

23. Utah—Whittaker v Spencer, 206 P 2d 612, 115 Utah 499  
67 C J p 1296 note 12

#### Waiver of defense

In suit for injunction and damages for interference with irrigation rights, defendant's point that property rights, which could not be determined in injunction suit, were involved, was waived where defendant also prayed injunction and damages

Colo—Young v Corey, 73 P 2d 1384, 101 Colo 463

24. Tex—Biggs v Red Bluff Water Power Control Dist, Civ App, 131 S W 2d 274, error refused

#### Trivial trespass

An injunction sought by water power and improvement district to prevent owner of land bordering on lake created by district's dam from using lake for recreational purposes, without paying customary charge imposed on general public, would not be denied because petition for injunction alleged a technical trespass too trivial to be considered by a court of equity, since district's right to injunctive relief did not depend on equitable considerations but on a statute

Tex—Biggs v Red Bluff Water Power Control Dist, supra

25. Idaho—Gerber v Nampa, etc, Irr Dist, 100 P 80, 16 Idaho 1, 22 Tex—Rowles v Hadden, Civ App, 210 S W 251  
67 C J p 1295 note 9

#### Pleadings construed

(1) In general

Wyo—Lanck v Brown, 96 P 2d 909, 55 Wyo 100

(2) The prayer for a "physical solution" as that term is used and understood in the laws and by the courts of California, in complaint by riparian owners whose lands were located on river below dam constructed under federal reclamation laws against officials of the bureau of reclamation, which operated dam, was another way of asking court to determine total amount of water which each plaintiff and each member of their class had vested in each separate parcel of land for reasonable and beneficial uses under California law, and to restrain defendants from taking any but the excess of such total waters of the river as were put to reasonable and beneficial uses

US—Rank v Krug, D C Cal, 90 F Supp 773

#### Pleadings held sufficient

(1) In general.

Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111

Neb—Central Nebraska Public Power & Irrigation Dist v Walston, 299 N W 609, 140 Neb 190

Tex—Biggs v Red Bluff Water Power Control Dist, Civ App, 131 S W 2d 274, error refused  
67 C J p 1295 note 9 [c]

(2) Complaint by owners of riparian lands located on river below dam constructed under federal reclamation laws, which alleged that certain officials of the bureau of reclamation in operation of dam were threatening to take their water rights without compensation by diverting entire flow of river at the dam, that such taking would be an irreparable injury, and that such acts would be in excess of powers granted to defendants by any act of congress, stated cause of action for injunctive relief as far as water rights of plaintiffs were concerned relating to agricultural and domestic uses, unless shown that plaintiffs had a plain, speedy and adequate remedy at law

US—Rank v Krug, D C Cal, 90 F. Supp 773

#### Pleadings held insufficient or demurrable

US—Rank v. Krug, supra

Idaho—Reynolds Irr Dist v Sproat, 151 P 2d 773, 65 Idaho 617.

#### Allegations held insufficient

Cal—San Juan Gold Co v San Juan Ridge Mut Water Ass'n, 93 P 2d 582, 34 Cal App 3d 159.

raised by the pleadings,<sup>26</sup> and the evidence must conform to the pleadings<sup>27</sup> Any competent, material, and relevant evidence tending to prove or disprove an issue in the case is admissible, while incompetent, irrelevant, or immaterial evidence is inadmissible<sup>28</sup> The questions of burden of proof<sup>29</sup> and weight and sufficiency of the evidence<sup>30</sup> are governed by general rules of evidence in civil cases. The findings should conform to the issues<sup>31</sup> In an action tried before a

jury, questions of fact are to be submitted to the jury<sup>32</sup> with correct instructions applicable to the evidence,<sup>33</sup> and where a prima facie case is made out by the evidence, grant of a nonsuit is error<sup>34</sup>

*The judgment or decree should conform to the pleadings and evidence,<sup>35</sup> and the findings<sup>36</sup> should grant the relief warranted by the facts,<sup>37</sup> and should contain provisions which are adequate to guard and protect the rights of the parties,<sup>38</sup> and it should*

#### Amendment

Where landowners brought suit against city for mandatory injunction to require city to remove obstruction placed in canal leading from lake to their land and enjoining city from closing canal but no damages were sought or recovered when court heard injunction phase of case, plaintiffs could, by timely amendments in same suit, properly present their claims for damages caused by city's acts which court had required it to remedy  
Tex—City of Wichita Falls v Bruner, Civ App, 191 SW 2d 912

#### 26. Title in injunction suit

Generally, title to water and rights to its use may not be established between the parties where the action is solely for injunctive relief and the rights are not clear or certain  
Colo—Blanchard v Holland, 103 P 2d 18, 106 Colo 147, 139 A L R 159

27. Idaho—Reynolds Irr Dist v Sproat, 206 P 2d 774, 69 Idaho 315

#### 28. Evidence held admissible

(1) In general  
Utah—Christenson v Nielsen, 54 P 2d 430, 88 Utah 336  
67 C J p 1296 note 10 [e].

(2) In suit to enjoin construction of irrigation ditch, evidence that defendant gave up old ditch for unkept promise of plaintiff to get defendant right of way through ditch was admissible because relevant to chancellor's discretion to refuse injunction despite infringement of plaintiff's rights  
Utah—Christenson v Nielsen, supra

67 C J p 1295 note 9 [b]

36 Cal—Parks v Gates, 199 P 40, 186 Cal 151

Tex—Pitts v Zavala-Dimmit Counties Water Improvement Dist No 1, Civ App, 81 SW 2d 801.

Utah—Christenson v Nielsen, 54 P. 2d 430, 88 Utah 336

37. Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111.

#### Injunctive relief held proper

Cal—Furtado v Taylor, 194 P 2d 770, 86 Cal App 2d 346—Morris v. George, 135 P 2d 195, 57 Cal App 2d 665

#### Injunction as to past acts

Where there was no evidence that one taking dirt and branches on two occasions from land over which he had easement for maintenance of dam and ditch intended to continue such taking, judgment enjoining him from taking dirt or branches from such land was erroneous as violating rule that injunction is ordered against past acts only if there is evidence that they will probably recur

Cal—Hannah v Pogue, 147 P 2d 572, 23 Cal 2d 849

38 Colo—Cox v. Olsen, 41 P 2d 296, 96 Colo. 233

Utah—Christenson v. Nielsen, 54 P 2d 430, 88 Utah 336.  
67 C J p 1296 note 17

#### Defendant's rights held adequately guarded

In action involving oral contract made between predecessors in inter-

not be so indefinite as to be unenforceable<sup>39</sup> Rights of defendants inter sese will not ordinarily be adjudicated,<sup>40</sup> but under some statutes it is otherwise as to equitable matters.<sup>41</sup> In an action against a company owning an irrigation canal by a stockholder and water user, the decree should not take the control of the corporate property away from the company unless it is absolutely necessary to do so in order to secure the right of plaintiff<sup>42</sup>

General rules governing construction and operation of judgments, as discussed in Judgments §§ 436-453, and of decrees in equity, as discussed in

Equity §§ 612-615, are applicable to judgments and decrees in actions to protect and enforce water rights<sup>43</sup> The right to use waters to irrigate certain lands conferred on a party by a decree extends only to the reasonably necessary use of the water for the proper irrigation of the lands specifically described<sup>44</sup> A decree conferring the personal right on certain parties to use the water of a certain stream in specified quantities grants a privilege which cannot be delegated to third persons<sup>45</sup>

*Costs.* In a proper case, costs should be apportioned among the unsuccessful parties.<sup>46</sup>

## B. IRRIGATION DISTRICTS AND SIMILAR DISTRICTS FOR PURPOSES OF IRRIGATION

### § 318. Character, Status, and Power of Legislature to Create

- a. In general
- b. Power of legislature to create

#### a. In General

An irrigation district is a creature of statute, a legal

entity in the nature of a public corporation rather than a private corporation. In some respects it is regarded by some courts as a public body, exercising some public or governmental functions, while in other respects or by other courts it is regarded as no political subdivision and as performing no governmental functions.

While an irrigation district is purely a creature of statute,<sup>47</sup> such a district has a legal exist-

est of the respective parties concerning delivery of irrigation water to lands of plaintiff, judgment in effect that contract, providing for delivery perpetually and without cost to plaintiff's predecessor of two second feet of water, with right of accumulation, was valid and existing, was not erroneous because placing no limitation on plaintiffs' right to accumulate their flow of water since right to accumulate water was of necessity limited to capacity of ditch

Cal—Corporation of America v Durham Mut Water Co, 123 P 2d 81, 50 Cal App 2d 337

Tex—Grand Lodge of Order of Sons of Hermann in Texas v Curry, Civ App, 108 SW 2d 574, error refused

67 CJ p 1297 note 23, p 1299 note 54

#### Purpose

(1) An irrigation district is created and exists for the primary benefit of the owners of land within its limits

Ariz—Taylor v Roosevelt Irr Dist, 232 P 2d 107, 72 Ariz 160

Idaho—Eldridge v Black Canyon Irr Dist, 43 P 2d 1052, 55 Idaho 443

Wash—In re Horse Heaven Irr Dist, 118 P 2d 972, 11 Wash 2d 218

Wyo—In re Greybull Valley Irr. Dist, 76 P 2d 339, 52 Wyo 479, followed in Brewer v Greybull Valley Irr Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479

(2) The purpose of an irrigation district is to furnish water for irrigation purposes to be usefully and beneficially applied to lands within the district, and the appropriation of the district is dedicated to the lands within the district to which water has been beneficially applied and which has not come within provisions of the nonuser statute

Neb—In re Birdwood Irr Dist, Water Division No 1-A, 46 NW 2d 884, 154 Neb 52

(3) Irrigation districts are established under governmental authority to accomplish the purpose of irrigation by the united efforts of landowners

Kan—Mizer v Kansas Bostwick Irr. Dist. No. 2, 239 P 2d 370, 172 Kan. 157, appeal dismissed 72 S Ct. 1053, 343 US 954, 96 L Ed 1355.

#### Construction of statute

(1) Water Conservancy District Act must be construed so as to give

ence and is a legal entity,<sup>48</sup> a body corporate<sup>49</sup> in the nature of a public corporation rather than a private corporation,<sup>50</sup> although, with respect to ordinary business, it has the status of a private corporation<sup>51</sup> and its directors are on the same footing as private individuals or the directors of a private corporation similarly situated<sup>52</sup> In the absence of statute an irrigation district is not a public service corporation in the sense that it is a common

carrier<sup>53</sup>

The nature and status of irrigation districts, with respect to whether they exercise governmental functions or partake of the nature of political bodies, have been variously described by the courts Thus, it has been held, on the one hand, that an irrigation or reclamation district is a quasi-municipal corporation,<sup>54</sup> or state agency,<sup>55</sup> or that it is a public

force and effect to all of its provisions

Colo—People ex rel Dunbar v San Luis Val Water Conservancy Dist, 261 P 2d 704, 128 Colo 193

(2) In construing Water Conservancy Act, the purpose of the act, not only as disclosed by its words, but also in the light of the physical conditions of the state, its needs, and character, and extent of the projected benefits, must be considered

Colo—People ex rel Rogers v Letford, 79 P 2d 274, 102 Colo 284

48 Or—Harney Valley Irr Dist v Weittenhiller, 198 P 1093, 101 Or 1

67 CJ p 1297 note 25—14 CJ p 74 note 15

#### Quasi-public

An irrigation district is a quasi-public corporation for which no stock is issued

Idaho—Hale v McCommon Ditch Co, 244 P 2d 151, 72 Idaho 478

#### Filing acceptance of constitution

The constitutional provision, requiring corporations existing at time of adoption of constitution to file acceptances of provisions thereof with secretary of state, does not apply to irrigation districts

Idaho—Reynolds Irr Dist v Sproat, 151 P 2d 773, 65 Idaho 617

51. Ariz—Taylor v Roosevelt Irr Dist, 232 P 2d 107, 72 Ariz 160—Maricopa County Municipal Water Conservation Dist No 1 v La Prade, 40 P 2d 94, 45 Ariz 61

Idaho—Nampa & Meridian Irr Dist v Barclay, 47 P 2d 916, 56 Idaho 13, 100 A L R. 557.

#### Characteristics compared

Irrigation districts are municipal in nature in some respects, as they exercise taxing power and compel inclusion of unwilling owners' lands within their bounds, but in other ways they resemble private corporations, for they are liable for their servants' torts in same manner and to same extent and generally have same rights and responsibilities as such corporations

Ariz—Taylor v Roosevelt Irr. Dist, 232 P 2d 107, 72 Ariz 160

#### Service of process

An irrigation district is a "corporation," within statute providing for service of process in suit against

corporation on president, secretary, cashier, or managing agent thereof, and service of process is not required to be made on members of district's board of directors personally. Idaho—Tingwall v King Hill Irr Dist, 129 P 2d 898, 64 Idaho 207

52. Mont—State v Dilworth, 246 P 167, 76 Mont 218

#### Not administrative agency

An irrigation district is a body corporate and its board of directors is not an administrative agency as it lacks requisite of state-wide jurisdiction, and rules of appellate procedure applicable to such agencies do not apply in irrigation matters ND—In re Heart River Irr Dist, 49 NW 2d 217, 78 ND 302

#### Interference by federal government

Irrigation district organized under state statute permitting creation of political divisions of state was a "political subdivision of state" created for local exercise of her sovereign powers and possessing right to borrow money as necessary incident to its operation, and, as such, its fiscal affairs were those of the state, not subject to control or interference by national government, unless right to do so was definitely accorded by federal Constitution

US—Ashton v Cameron County Water Improvement Dist No 1, Tex, 56 S Ct 892, 298 US 513,

80 L Ed 1309, rehearing denied 57 S Ct 5, 299 US 619, 81 L Ed 457

60. Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

#### Attributes of sovereignty

Irrigation districts are corporations having public purpose, which may be vested with so much of attributes of sovereignty as are necessary to carry out such purpose, and are subject only to constitutional limitations and responsibilities appropriate thereto

Ariz—Taylor v Roosevelt Irr Dist, 232 P 2d 107, 72 Ariz 160

61. Cal—La Mesa, Lemon Grove & Spring Valley Irr Dist v Halley, 239 P 719, 197 Cal 50

#### Rights and duties

An irrigation district being public in its purpose and nature, its rights and duties must be determined generally by same considerations as determine those of municipal or public bodies

Utah—Upper Blue Bench Irr Dist v Continental Nat Bank & Trust Co, 72 P 2d 1048, 93 Utah 325

#### Distinction

A water conservancy district is an arm of the government separate and distinct from any municipality, with powers and rules of its own, and the mere fact that its territorial boundaries may encompass boundaries of a city does not make it a part of the city

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

67. US—Fletcher v Mapes, D C Cal, 62 F Supp 351—In re Lindsay-Strathmore Irr. Dist, D C Cal,

21 F Supp 129, motion denied U S v Bekins, 58 S Ct 647, and

589, 82 L Ed 1549

Ariz—Maricopa County Municipal Water Conservation Dist No 1 v

La Prade, 40 P 2d 94, 45 Ariz 61.

ty,<sup>68</sup> or subdivisions of the sovereignty<sup>69</sup> possessing in any degree general powers of government<sup>70</sup> or performing governmental functions<sup>71</sup> Under some statutes, it is held that an irrigation district, in the operation of its irrigation system, acts in a proprietary rather than a public capacity,<sup>72</sup> but under other statutes the property of irrigation districts is state owned for governmental purposes, not in a proprietary sense<sup>73</sup>

*Nature of interest of landowners.* Members of an irrigation district have been held to have a proprietary interest in the district's property,<sup>74</sup> and for practical purposes bear the same relation to it that stockholders in a private corporation sustain to the corporation<sup>75</sup> While an irrigation district owning stock in a water company has legal title thereto, the

landowners within the district have been held to be the beneficial and equitable owners of such stock.<sup>76</sup>

*Public nature of water use.* The use to which the water owned and controlled by an irrigation district is put is a "public use"<sup>77</sup>

#### b. Power of Legislature to Create

Legislation relating to the creation of an irrigation district is a valid exercise of legislative power and, in the absence of constitutional limitation, may control the operations of such district.

Since the formation of irrigation districts for the taking of water for irrigation purposes in arid regions is for a public purpose,<sup>78</sup> legislation relating to the creation of an irrigation district is a valid exercise of legislative power<sup>79</sup> or of the state's po-

#### What law governs

Irrigation district organized under

lice power,<sup>80</sup> or plenary power.<sup>81</sup> In the absence of a constitutional limitation, the legislature may control the manner in which the affairs of the district shall be carried on,<sup>82</sup> describe the boundaries of the district<sup>83</sup> and the water supply and irrigation system by which the land shall be irrigated,<sup>84</sup> designate the land which will be benefited by such irriga-

tion,<sup>85</sup> and the method of calculating and apportioning such benefits,<sup>86</sup> without giving the property owners an opportunity to be heard on the matter.<sup>87</sup> Likewise, the legislature may provide that the formation of such irrigation district shall be accomplished by procedure before some designated tribunal<sup>88</sup> and vest such tribunal with jurisdiction

laws of Nebraska and irrigating lands wholly within Nebraska was subject to Nebraska irrigation laws, notwithstanding district's headgates and diversion works were in adjoining state, and that district's appropriation was granted by adjoining state

Neb—State ex rel Sorensen v Mitchell Irr Dist, 262 N W 543, 129 Neb 586, certiorari denied Mitchell Irr Dist v State of Nebraska ex rel Sorenson, 56 S Ct 667, 297 US 723, 80 L Ed 1007

#### Statutes or particular provisions upheld

##### (1) In general

Mont—State ex rel Normile v Cooney, 47 P 2d 637, 100 Mont 391  
Neb—Nebraska Mid-State Reclamation Dist v Hall County, 41 N W 2d 397, 152 Neb 410—State ex rel Loseke v Fricke, 254 N W 409, 126 Neb. 736

Tex—San Saba County Water Control & Improvement Dist No 1 v Sutton, Com App, 12 SW 2d 134, 70 A L R 1255

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

(2) Statute authorizing development of electric power by irrigation district to be financed by special assessment was not unconstitutional on theory that such development by district was not for a public purpose, even though power could be sold outside district

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, C C A Cal, 85 F 2d 886, certiorari denied 57 S Ct 493, 300 US 662, 81 L Ed 871

(3) Statutory amendment allowing irrigation districts to be organized to provide funds to pay for irrigating systems already serving lands of district or for indebtedness incurred in construction of such systems by another organization is within legislature's power

Ariz—Reichenberger v Salt River Project Agr Improvement and Power Dist, 70 P 2d 452, 50 Ariz 144

(4) The statute creating conservation district contemplating construction of dam on river did not violate constitutional provision authorizing legislature to provide for systems of levees, drains, and ditches

Okl—Sheldon v Grand River Dam Authority, 76 P 2d 355, 182 Okl 24.

#### Statutes construed

Statute providing for creation of water conservation board and for financing of projects only by sale of revenue bonds, and pledging of gross revenues, was not impliedly repealed by later statutes providing for construction of projects with federal aid and creation of revolving fund to insure repayment of moneys borrowed, since all the statutes may stand together

Mont—State ex rel Normile v Cooney, 47 P 2d 637, 100 Mont 391

80. Kan—Mizer v Kansas Bostwick Irr Dist No 2, 239 P 2d 370, 172 Kan 157

81. Cal—Sutter Basin Corp v Brown, 253 P 2d 649, 40 Cal 2d 235, certiorari denied Brown v Sutter Basin Corp, 74 S Ct 71, 346 US 855, 98 L Ed 369  
67 C J p 1299 note 54 [a]

82. Cal—Barry v Board of Directors of Imperial Irr Dist, 46 P 2d 298, 7 Cal App 2d 412, followed in McIver v Board of Directors of Imperial Irr Dist, 46 P 2d 307, 7 Cal App 2d 754

Or—Twohy Bros Co v Ochoco Irr Dist, 210 P 873, 216 P. 189, 108 Or 1, 52

#### Unconstitutional application

State legislature of Texas has complete and perfect constitutional power to create reclamation and conservation districts, but if the consequences and effect of provisions by which such exercise of legislative power is effectuated are unconstitutional and invalid when applied to a complainant, the court should so declare and award relief accordingly

US—Hydrocarbon Production Co v Valley Acres Water Dist, C A Tex, 204 F 2d 212, certiorari denied 74 S Ct 44, 346 US 825, 98 L Ed 350

#### Reposing government in board of directors

The Water Conservancy Act reposing the government of a water conservancy district in a board of directors to be appointed by district court was not invalid on ground that act denied to property owners within district any voice with respect to government of district

Colo—People ex rel Rogers v Letford, 79 P 2d 274, 102 Colo 284

83. Cal—Barry v Board of Directors of Imperial Irr Dist, 46 P 2d 298, 7 Cal App 2d 412, followed in McIver v Board of Directors of

Imperial Irr Dist, 46 P 2d 307, 7 Cal App 2d 754

Or—In re Harper Irr Dist, 216 P 1020, 108 Or 498

#### Provision for modification by court

The Water Conservancy Act is not violative of "due process of law" on theory that there is no provision by which court can modify boundaries of proposed district

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

84. Or—In re Harper Irr. Dist, 216 P 1020, 108 Or 498

Or—In re Harper Irr Dist, 216 P 1020, 108 Or 498

#### Effect of legislative conclusion

With respect to constitutionality of statute authorizing development of electric power by irrigation district, legislative conclusion that land included in district would be benefited was correctly upheld, unless court could see that it was contrary to any rational view of fact and that lands had been included that plainly could not by any fair or proper view of facts be benefited

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, C C A Cal, 85 F 2d 886, certiorari denied 57 S Ct 493, 300 US 662, 81 L Ed 871

#### Provision for determination by court

The Water Conservancy Act is not violative of "due process of law" on the theory that there is no provision by which the court can determine that individual properties will not benefit by creation of the district.

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

86. Or—In re Harper Irr Dist, 216 P 1020, 108 Or 498

87. Cal—In re Bonds of South San Joaquin Irr Dist, 119 P. 198, 161 Cal 345

67 C J p 1298 note 42.

88. Mont—O'Neill v. Yellowstone Irr Dist, 121 P 283, 44 Mont. 492  
67 C J p 1299 note 43

#### Propriety of delegation of functions

Statute providing for organization of water conservancy districts through the agency of district court does not delegate nonjudicial functions to court in violation of constitution.

and power to determine any or all of the questions of fact essential to the organization of the same <sup>89</sup>

The legislature is not precluded from exercising its power in this respect by the fact that the proposed district embraces a municipality<sup>90</sup> or land which happens to be covered by a building or other structure which unfits it for cultivation<sup>91</sup> Likewise, the fact that the use of the water is limited to the landowner is not a fatal objection to such legislation,<sup>92</sup> and the right of the individual landowner in the district to assign the whole or any portion of the water apportioned to him does not alter the use from a public to a private one <sup>93</sup>

The requirement as to due process of law has been held to give a property owner an absolute right to notice and hearing before his property may be included in an irrigation district by a tribunal <sup>94</sup> The fact that the landowner does not desire the inclusion of his land in an irrigation district does not render its inclusion contrary to due process of law <sup>95</sup> According to some authority it is not necessary that property receive direct benefits in order to be lawfully included in the district and under its taxes <sup>96</sup> Statutes creating or authorizing the organization of such districts are valid and constitutional, although they invest such corporations with quasi-

legislative powers, authorize the condemnation of private property for the public use, and provide for the levy of taxes and assessments <sup>97</sup>

*Curative statutes.* Statutes curing defects or irregularities in the organization, not jurisdictional in character, have been held to be a valid exercise of legislative power.<sup>98</sup>

### § 319(1). Organization of District

The method by which an irrigation district may be organized depends on the governing statutory provisions.

Since, as discussed supra § 318 a, an irrigation district is purely a creature of statute, the method by which an irrigation district may be organized, depends on the statutory provisions of the particular jurisdictions <sup>99</sup> Such statutes are not subject to the rule of strict construction<sup>1</sup> and should be so construed as to effectuate their purpose to irrigate arid lands,<sup>2</sup> although it has been held that the statutory requirements for the organization of such a district must be fully met <sup>3</sup>

Generally all proceedings in connection with the organization of an irrigation district are in rem,<sup>4</sup> presenting all the elements of a judicial proceeding.<sup>5</sup> Mere irregularities, not jurisdictional, in the formation of the district do not affect the validity of the district.<sup>6</sup>

98. Mont.—State v Board of Com'rs of Fergus County, 285 P. 932, 86 Mont. 595.

99. Kan.—Mizer v Kansas Bostwick Irr Dist No 2, 239 P 2d 370, 172 Kan 157, appeal dismissed 72 S Ct 1053, 343 US 954, 96 L Ed 1355 67 C J p 1300 note 55.

#### Naming of district

(1) Where a statute requires the board of county commissioners to name a proposed irrigation district, although it also authorizes reclamation districts, the name "Wenatchee Reclamation District" is not so confusing as to warrant a holding that an irrigation district could not be organized with such a name

Wash.—In re Board of Directors of Wenatchee Reclamation Dist, 157 P 38, 91 Wash 60

(2) Under a statute requiring the petition to give the name of the irrigation district, the insertion of the number of the district by the clerk filing a petition omitting such number has been held to be sufficient

Cal.—Bliss v. Hamilton, 152 P 303, 171 Cal 123

1. Wyo.—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253 67 C J p 1300 note 63

2. Idaho.—Nampa & Meridian Irr Dist v. Petrie, 153 P. 425, 28 Ida-

ho 227, error dismissed 39 S Ct 25, 248 US 154, 63 L Ed 178.

3. Mont.—In re Gallatin Irrigation Dist, 140 P 92, 48 Mont 605

4. Wyo.—Corpus Juris cited in In re Greybull Valley Irr Dist, 76 P 2d 339, 343, 52 Wyo 479 67 C J p 1300 note 57

5. Cal.—Chambers v. Board of Sup'rs of Tehama County, 207 P 288, 57 Cal App 401

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

6. Utah.—State v Weber County Irr Dist, 218 P 732, 62 Utah 209.

#### Nonjurisdictional irregularities

(1) Failure to give notice of filing of petition for organization of irrigation district, amendment of petition as to name of district, inadequacy of engineer's report, and organization of another district within district did not deprive trial court of jurisdiction it had once rightly acquired, since, generally, jurisdiction once acquired is not defeated by subsequent events

Wyo.—Padlock Ranch v. Washakie Needles Irr Dist, 61 P 2d 410, 50 Wyo 253

(2) Failure to verify the petition is not a jurisdictional defect

Wyo.—In re Bear River Irr Dist, 65 P 2d 686, 51 Wyo. 343.

*Political activity prior to organization* Ordinarily, mere political activity prior to the formation of an irrigation district has no bearing on the validity of the district<sup>7</sup>

*Superimposing districts* One irrigation district may be superimposed on another since one merely supplements the other<sup>8</sup>

*What law governs.* In the absence of a subsequent retroactive statute the power to create an irrigation district must be governed by the law in existence at the time of the exercise of the power<sup>9</sup> In an action to exclude land from the district it has been held that a statute repealing the former statute and intended to apply to districts organized under the former statute governs the right to have land excluded from the district<sup>10</sup>

## § 319(2). — Proceedings to Establish

- a. Petition
- b. Bond
- c. Notice

#### Effect of validating acts

The fact that certain persons had conspired together and were promoting the creation of a water control and improvement district with evil intentions and fraudulent purposes would not render creation of district invalid where statute was actually complied with and especially where legislature passed two validating acts after district was created

Tex—Miller v State ex rel Abney, Civ App, 115 SW 2d 1027, reversed on other grounds State ex rel Abney v Miller, 128 SW 2d 1134, 133 Tex 498

7. Or—Harney Valley Irr Dist v Weitenheller, 198 P 1093, 101 Or 1  
67 C J p 1300 note 62

8. Wash—Board of Directors of Riverside Irr Dist v Cummings, 230 P. 649, 131 Wash 532

9. Tex—Hester & Roberts v Donna Irr Dist, Hidalgo County, No 1, Civ.App, 239 SW 992, error refused

#### Subsequent change of statute

The applicable statute in force

when irrigation district is organized does not constitute such a contract between state and incorporators of district and other landowners therein that it cannot be changed by subsequent legislation

Kan—Mizer v Kansas Bostwick Irr Dist No 2, 239 P 2d 370, 172 Kan 157, appeal dismissed 72 S Ct 1053, 343 US 954, 96 L Ed 1355

#### Constitutionality

Statutes providing that majority of qualified owners of irrigable lands, within proposed drainage district may petition and make application to chief engineer of Division of Water Resources for establishment of

### (a) In General

Proceedings for the organization of an irrigation district are generally instituted by the presentation of a petition to the proper officer or body, and the contents of such petition must satisfy the statutory requirements

Under some statutes proceedings are begun by the presentation to the board of supervisors of the county<sup>11</sup> or to the state engineer<sup>12</sup> of a petition signed by a prescribed number or majority of the landowners in the proposed district The petition constitutes the basis of all the proceedings,<sup>13</sup> all else being merely evidentiary and procedural<sup>14</sup> In the absence of statutory provision to the contrary, the petition need not enumerate the qualifications of the petitioners<sup>15</sup> In the absence of statutory permission for the petition to consist of a number of separate instruments, it is permissible, for convenience, to have separate petitions circulated to obtain the necessary signatures, and then to bind them together and to present them as one petition.<sup>16</sup>

*Contents generally.* The proponents of the formation of an irrigation district should furnish the board of supervisors with sufficient information as to the source of the water supply,<sup>17</sup> and also such information as to enable them intelligently to exercise their discretion in establishing the boundaries of the proposed district<sup>18</sup> Where the statute so requires, the petition must include a preliminary engineering report on the feasibility of the project, the sufficiency of the water supply, the approximate area of irrigable land within the proposed district, and an estimate of the cost of construction, all of which must be approved by the state engineer<sup>19</sup> A

an irrigation district which may cooperate with United States under reclamation laws, are not unconstitutional as improperly conferring legislative or judicial powers on the chief engineer

Kan—State ex rel Emery v Knapp, 207 P 2d 440, 167 Kan 546

13. Cal—Rich v Connelly, 199 P 540, 52 Cal App 556

14. Cal—Rich v Connelly, supra

15. Or—Greig v Owyhee Irr Dist, 202 P 222, 102 Or 265—William Hanley Co v Harney Valley Irr Dist No 1, 180 P 724, 182 P 559, 93 Or 78

16. Or—In re Harper Irr Dist, 216 P. 1020, 108 Or 598

17. Cal—Miller & Lux, Inc v Board of Sup'rs of Merced County, 258 P 2d 570, 119 Cal App 2d 29—Sleeper v Board of Sup'rs of Lake County, 214 P 292, 60 Cal App 744

18. Cal—Sleeper v Board of Sup'rs of Lake County, supra.

19. Wyo—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d

petition containing all that is required of it by the statute is sufficient<sup>20</sup> Under a statute requiring that "the petition shall state the proposed means of water supply," a mere designation of the lake, stream, or body of water by its usual name has been held to be sufficient<sup>21</sup>

**Date of filing** In at least one jurisdiction it has been held that the petition need not be filed in the county court before the day it is presented for action<sup>22</sup>

**Protests.** Under a statutory provision that protests to the proposed irrigation district must be filed within a certain time before the hearing, it has been held that protests not filed within the required time need not be considered<sup>23</sup>

### (b) Petitioners

**The proper number of qualified petitioners must sign the petition**

The legislature may authorize the initiatory proposal for organization of the district to be made by such persons as it sees fit<sup>24</sup> Under statutes making holders of title or evidence of title to land within the district qualified petitioners, it has been held that

holders of small residence lots in towns and villages,<sup>25</sup> a wife, by virtue of her interest in community property,<sup>26</sup> holders of certificates of purchase from the state,<sup>27</sup> and a homestead entryman prior to the making of final proof,<sup>28</sup> are not such landowners within the spirit of the act as to qualify them to be signers of the petition In the absence of a statutory disqualification a person with a special interest may sign the petition<sup>29</sup> Under a statute permitting entrymen on lands under federal or state statutes to be competent to sign the petition, entrymen holding such receipts may be counted in computing the requisite number of signers<sup>30</sup> The signature of a duly authorized attorney in fact to the petition will bind the principal as fully as though he had personally signed the petition.<sup>31</sup> In the absence of a statutory provision to the contrary, a guardian or administrator need not get authority from the probate court to sign the petition<sup>32</sup>

**Number of petitioners** The required statutory number of petitioners must have signed the petition before the district may be organized.<sup>33</sup> Under a statute providing that fifty or a majority of holders of title of land susceptible of one mode of irrigation

319, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

20. Or—Herrett v Warm Springs Irr Dist, 168 P 609, 86 Or. 343 67 C J p 1300 note 71

#### Necessary allegations

The petition must allege that all the property in the proposed district will be benefited by one of the named purposes of the organization

NM—In re Arch Hurley Conservancy Dist, Hudson Irr Extension, 191 P 2d 338, 52 N.M. 34

#### Cure of omissions

A petition for the creation of water improvement district which omitted name of county and number from name of proposed district was sufficient, where application and notice of hearing stated that proposed district was situated wholly within designated county, and order calling election properly described name of proposed district, since it would be presumed, and all persons interested would be charged with knowledge, that, when created, name of county and consecutive number would be included in name

Tex—Amberson v Henderson, Civ App, 127 S W 2d 553, error refused

#### Effect of accompanying letter

Fact that part of petition for organization of irrigation district was circulated for signature with letter attached providing that district would not be formed if cost exceeded designated average per acre did not deprive district court of juris-

diction to hear proceedings on ground that signatures obtained to such petition were conditional, where letter was but mere representation, and it did not appear that parties signing petition relied on condition as to costs, or that such parties had complained

Wyo—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

21. Utah—State v Weber County Irr Dist, 218 P 732, 62 Utah 209 67 C J p 1301 note 76

22. Or—Greig v Owyhee Irr Dist, 202 P 222, 102 Or. 265

30. Idaho—Gem Irr Dist v Johnson, 109 P 845, 18 Idaho 386 67 C J p 1301 note 84

31. Idaho—Black Canyon Irr Dist v. Marple, 112 P. 766, 19 Idaho 176.

32. Or—In re Harper Irr Dist, 216 P 1020, 108 Or 598 67 C J p 1301 note 86

33. Utah—Eames v Board of Com'rs of Cache County, 199 P 970, 58 Utah 495

#### Majority or specified number

Under the statute, the requisite number of petitioners is either a majority in number and assessed value of the landowners or at least five hundred petitioners, each of whom is an elector, residing in the proposed district, or the holder of title to land therein, and who in the aggregate own not less than twenty per cent in assessed value of the land proposed to be included within the contemplated district.

Cal—Miller & Lux, Inc v Board of Sup's of Merced County, 258 P.2d 570, 119 Cal App 2d 29.

from a common source, and by the same system of works, may propose the organization of an irrigation district it has been held that fifty freeholders, although they are a minority of freeholders in the district,<sup>34</sup> or less than fifty freeholders, if they are a majority of the freeholders in the district,<sup>35</sup> are all that are required to sign the petition for organization. Where it is so provided by statute, a county and city lying within a proposed district are authorized to sign the petition in a representative capacity on behalf of the owners of the land of such public corporation, as they appear on the tax rolls, thereby dispensing with signature of the petition by individuals within such county or city.<sup>36</sup>

**Fraud** Fraud in the obtaining of the requisite number of signatures to the petition has been held not to render the organization void, but merely voidable,<sup>37</sup> and persons dealing with the district after the organization was completed and perfected on the face of the record would not be presumed to know of the fraud<sup>38</sup> and, if ignorant thereof, would be protected against it.<sup>39</sup> Where the signers of the petition were made freeholders temporarily and nominally only by a conveyance to them of undivided interests of land in the district, on condition that they were to take the deeds, sign, and present the petition, and reconvey to the grantor after the organization was effected, such conduct has been held to be fraud in the organization of the district.<sup>40</sup>

**Withdrawal of petitioners.** Petitioners for the organization of an irrigation district may effectively

withdraw from the petition at any time prior to the presentation of the petition to the petitioned body on the date fixed in the notice for such presentation,<sup>41</sup> with the result that at the time of such presentation they can no longer be considered by the board as petitioners.<sup>42</sup>

*The relationship between the state and petitioners for the creation of an irrigation district is not contractual, but the proceeding is in invitum.*<sup>43</sup>

### (c) Description of District

The petition must contain an adequate description of the proposed district and the lands to be contained therein.

Ordinarily the statutes provide that the petition must contain a description of the proposed district and the lands to be included therein.<sup>44</sup> The description must be sufficiently definite and certain to enable the land to be identified<sup>45</sup> or to furnish the means of identifying the land under the maxim that, "that is certain which may be rendered certain."<sup>46</sup> Descriptions by the legal subdivisions of the United States government survey,<sup>47</sup> and descriptions which would be good in a deed,<sup>48</sup> or which would be sufficient in an act of the legislature creating a political district or a municipal corporation,<sup>49</sup> have been held to be sufficient. If the course of a boundary is given, it is not necessary that such course shall have been actually surveyed on the ground before the boundary can be said to be particularly described.<sup>50</sup> A reference to an official map, or to a landmark designated on such map, is as definite as would be a reference to the landmark it-

### Rights of petitioners and nonpetitioners

After organization of irrigation district under statute authorizing contract between district and United States, pursuant to federal reclamation laws, for construction of irrigation works and levy and collection of assessments against lands benefited, landowners who signed original organization petition have no other or additional rights than those of other property owners, residents and electors in district.  
Kan—Mizer v Kansas Bostwick Irr. Dist. No. 2, supra

45. Tex—Dallas County Fresh Water Supply Dist. No. 7 v Mercantile Securities Corp., Civ. App., 110 SW 2d 187, error dismissed

### General description

Petition for formation of irriga-

tion district is required to give only a general description of land proposed to be included, and absolute accuracy is not required

Cal—Miller & Lux, Inc. v. Board of Sup'rs of Merced County, 258 P 2d 570, 119 Cal App 2d 29

self,<sup>51</sup> and if the landmarks called for in the petition can be found on the ground the description is sufficiently definite.<sup>52</sup>

### b. Bond

Under some statutes the petition must be accompanied by a bond conditioned to pay all costs if the organization is not completed

Under some statutes the petition must be accompanied by a bond conditioned to pay all costs if the organization is not completed<sup>53</sup> As long as the sureties are worth the sum in which the bond is conditioned, the bond is sufficient,<sup>54</sup> and the fact that the sureties were also signers of the petition has been held immaterial<sup>55</sup> Under a statute requiring the bond to be conditioned to pay in a certain contingency, a bond conditioned to pay in any event is sufficient.<sup>56</sup> A bond, reciting that certain persons, including some persons not signers of the petition presented, propose to present a petition, accompanied in part by the petition, and no other petition is presented, identifies the petition sufficiently<sup>57</sup> Where the bond must be filed with the petition, a bond filed eight days after the petition has been held sufficiently within the spirit of the statute when the date for hearing had been postponed due to a faulty notice.<sup>58</sup> Where it is evident that the parties intended to make a statutory bond, a repugnant condition caused by a clerical error does not vitiate the bond<sup>59</sup>

*Determination of sufficiency* The tribunal authorized to receive a petition to organize an irrigation district has been held to be the sole judge of the sufficiency of the bond,<sup>60</sup> and, where an in-

formal bond presented with the petition for organization of an irrigation district is not invalid and binds those who signed it, the determination of its sufficiency by the board of supervisors is conclusive<sup>61</sup>

*Bond as not jurisdictional.* Since the bond is designed as security for costs only, it is not a jurisdictional prerequisite,<sup>62</sup> and under a statutory provision that the court should disregard any error, irregularity, or omission in the organization of the district which did not affect the substantial rights of the parties, a failure to file the required bond is not a jurisdictional defect.<sup>63</sup>

### c. Notice

Due notice must be given of the meeting of the tribunal which is to determine the advisability of organizing the district.

Under most statutes a notice must be given in a prescribed manner containing the time of the meeting of the tribunal which is to determine the advisability of organizing the irrigation district<sup>64</sup> This giving of notice is generally a jurisdictional requirement,<sup>65</sup> a failure to have the required number of days between the last publication of notice and the hearing renders the court without jurisdiction to enter a decree binding on the landowners not appearing,<sup>66</sup> but the court can determine the legality of the district as against the objections of a landowner who appeared and answered<sup>67</sup> However, under some statutes it is held that, at least with respect to the subject matter, the court acquires jurisdiction on the filing of the petition and before the giving of any notice<sup>68</sup> There is no

67 C J p 1303 note 16

#### Places of posting

The posting of notices of hearing on petition for creation of water improvement district on gates of three farms more than one mile apart within territorial limits of proposed district and facing on public highway traversing district was in substantial compliance with requirement of statute for posting of notices in three public places within proposed district

Tex—Amberson v Henderson, Civ App, 127 SW 2d 553, error refused

#### As not "process"

The statutory notice required of

time and place of hearing on petition to establish water conservancy district is not a "process" within constitutional provision requiring process to be in name of the state Utah—Patterick v Carbon Water Conservancy Dist., 145 P 2d 503, 106 Utah 55

65. Mont—Scilley v Red Lodge-Rosebud Irr Dist., 272 P 543, 83 Mont 282

67 C J p 1303 note 17

66. Or—Board of Directors of Medford Irr Dist. v. Hill, 190 P 957, 96 Or 649

67. Or—Board of Directors of Medford Irr Dist v Hill, supra.

68. Wyo—Padlock Ranch v Washakie Needles Irr. Dist., 61 P 2d 410, 50 Wyo 253

#### Time of notice

Failure to give notice of filing of petition for organization of irrigation district "forthwith" or within reasonable time was not jurisdictional, and hence did not deprive

legal objection to embodying the notice and petition in one document and using it for each purpose successively.<sup>69</sup> A failure of the notice to state whether the hearing was to be held at a regular or special meeting of the board of supervisors, if otherwise proper, is immaterial.<sup>70</sup> The fact that the landowner was ignorant of the statutory provisions has been held not to release him from the binding effect of a notice given in conformity with the statute.<sup>71</sup>

*Description of district.* The notice need not describe the different tracts or legal subdivisions within the boundaries of the proposed district.<sup>72</sup> A notice which described the section, township, and range of a point in the boundary line of the district by numbers, without using the words "section," "township," and "range" has been held sufficient.<sup>73</sup>

*Who must sign notice.* The question of what persons must sign the notice is generally determined by the governing statutory provisions.<sup>74</sup> In the absence of statutory authority a notice signed only by the clerk of the county court is insufficient.<sup>75</sup> It is not material in what part of the notice it appears that the signers signed in their official capacities.<sup>76</sup> A notice of hearing signed by the petitioners has been held sufficient.<sup>77</sup>

*Publication.* Under some statutes, publication of notice of the hearing, as well as of the petition, is required,<sup>78</sup> and such publication must be made in all the counties whose lands are included in the proposed district.<sup>79</sup> Publication conforming to the statutory method of constructive notice is sufficient to give all interested their day in court,<sup>80</sup> and under a statute not requiring personal service of notice such service is unnecessary.<sup>81</sup> It is unnecessary that the notice be addressed to anyone, if it is published in connection with the petition which describes the lands fully.<sup>82</sup> Under a statute requiring a publication of the petition once a week for two "successive" calendar weeks, two publications one week apart have been held sufficient.<sup>83</sup>

#### d. Engineer's Report

The statutes may require a survey to be made by the state engineer on the feasibility of the proposed district and a report of his findings.

Under some statutes the state engineer is to make a survey of the feasibility of the proposed district and is to report his findings to the board of supervisors, after the receipt of which they are to hold a hearing.<sup>84</sup> The hearing on the report of the state engineer is not a jurisdictional matter.<sup>85</sup>

district court of jurisdiction to hear proceedings

67 C J p 1303 note 25

#### Constitutionality of provision

The Water Conservancy Act provision that after filing of petition for organization of district, court shall fix place and time for hearing thereon, and cause notice by publication to be made thereof, is not violative of due process clause of constitution in failing to give due notice to bring property or property owners into court and subject their property to taxation.

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

81. Mont—In re Ft Shaw Irr Dist, 261 P 962, 81 Mont 170

83. Mont—Scilley v Red Lodge-Rosebud Irr. Dist, 272 P 543, 83 Mont 282

84. Certificate based on engineer's report

Where certificate of state engineer

approving feasibility and cost of constructing irrigation district was based on engineer's report which was two years old and failed to show in the face of changed conditions that project was feasible, objectors to formation of new district were entitled to a new engineer's report and a finding by district court as to effect of formation of such district

Wyo—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

85. Cal—Rich v Connelly, 199 P 540, 52 Cal App 556.

#### Time of making report

Date of making of engineer's report in proceedings for organization of irrigation district cannot ordinarily be considered jurisdictional unless time intervening between making of report and filing of petition is so great that trial court must say that it is equivalent to no report at all

Wyo—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P. 2d 410, 50 Wyo 253

#### Stale report

Fact that engineer's report filed with petition for organization of irrigation district was two years old did not render report of no value so

Under a statute requiring the state engineer to make a water survey and water allotment it has been held that the fact that the survey was imperfect and insufficient in certain particulars did not defeat the jurisdiction of the board or invalidate the organization of the district <sup>86</sup>

**e. Hearing, Determination and Order, and Expenses**

- (a) In general
- (b) Determination and order
- (c) Expenses incident to organization

**(a) In General**

Where the statutes so require, a sufficient hearing must be held on the proposal to organize the district

Several statutes provide that there shall be a hearing on the formation of the proposed irrigation district,<sup>87</sup> which affords due process of law to the property owner on the question of whether or not his property should be included in the district <sup>88</sup> The same technical precision that should be observed in a regular law action is not required in a hearing for the organization of an irrigation district <sup>89</sup> The hearing may be continued <sup>90</sup> A statutory provision that the hearing be set not less than a certain number of days from the making of the order for hearing has been declared to be mandatory,<sup>91</sup> but a provision that the hearing be set within a certain time has been held to be merely di-

rectory<sup>92</sup> The tribunal conducting the hearing must acquire jurisdiction of the subject matter and of the parties before it can order a district created<sup>93</sup> The report of the state engineer on the feasibility of the project,<sup>94</sup> the certificate of acknowledgment,<sup>95</sup> or the affidavit of the petitioner,<sup>96</sup> may be considered by the tribunal conducting the hearing in reaching its conclusion on jurisdictional facts On requests to exclude land included within the proposed district, an issue is raised which requires proof of the actual conditions existing before the tribunal can determine whether the land should be excluded<sup>97</sup> The organization of an irrigation district is not "county business" within a constitutional provision requiring the county commissioners to sit with the county judge in the transaction of county business<sup>98</sup>

**(b) Determination and Order**

The official or body passing on the petition must determine the questions raised by the proceedings, and make an order predicated on a proper showing and sufficient findings.

The official or body passing on the petition must determine the questions raised by the proceedings <sup>99</sup> Under some statutes such official or body is given the power to make an order allowing the petition and to call an election of the landowners of the district on the question of its establishment<sup>1</sup> The order must be predicated on a proper showing and

as to deprive district court of jurisdiction to hear proceedings

Wyo—Padlock Ranch v Washakie Needles Irr Dist, *supra*

67 C J p 1304 note 37

**Requirement of finding**

The provision of the Conservancy Act requiring that conservancy court, before it can declare district organized, must find, among other things, that allegations of petition are true, one of the prime allegations being that property in proposed district will be benefited by one of the named purposes of organization, constitutes a provision for a hearing as to whether or not lands included in proposed boundaries will be benefited within constitutional requirement of due process.

**99. Feasibility**

District court has duty in proceedings for organization of irrigation district to determine feasibility of district based on cost of construction

Wyo—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

1. Cal—Miller & Lux, Inc. v Board of Sup'rs of Merced County, 258 P 2d 570, 119 Cal App 2d 29 ND—In re Fort Clark Irr Dist of Mercer and Oliver Counties, 48 N W 2d 741, 78 ND 107. 67 C J p 1304 note 52.

**Ungrounded objections**

An order for an election on petition for creation of a water improvement district was not subject to attack on ground that officials would so operate irrigation system as to impair individual property and vested rights, since courts could not assume that citizens and officials would unlawfully destroy rights and could not be called on to interfere until unlawful acts were threatened and had become immediately imminent Tex—Amberson v Henderson, Civ. App, 127 S W 2d 553, error refused.

sufficient findings.<sup>2</sup> Thus, under various statutes, it must be shown by satisfactory proofs and determined that there is a reasonably definite irrigation plan<sup>3</sup> which is feasible and practical from an engineering view,<sup>4</sup> together with a source of an adequate water supply therefor, available to, and obtainable by, the district when organized,<sup>5</sup> that the purposes of the statute will best be accomplished by the organization of an additional district,<sup>6</sup> and what lands are susceptible to irrigation from the proposed system and will be benefited thereby.<sup>7</sup>

The order should state all the facts found or determined,<sup>8</sup> and should not be uncertain,<sup>9</sup> but superfluous in the order does not vitiate it.<sup>10</sup> The or-

der need not set out specifically within itself the boundaries of the district as this may be done by reference to the petition.<sup>11</sup> The order for allowing the petition for organization, establishing the boundaries, and naming the district need not be made separate from the order calling the election.<sup>12</sup> A person against whom an order is entered by default must move to set it aside at the earliest practicable moment.<sup>13</sup> The legislature has the power to declare that the order of the county court should be conclusive of the facts found.<sup>14</sup>

Under some statutes, the board is given discretionary power to refuse to organize a district, even though all the statutory procedural requirements for formation of the district have been met.<sup>15</sup>

2. Tex.—*Amberson v. Henderson*, supra  
67 C.J. p 1304 note 54 [a]

3. Or.—In re Harper Irr. Dist., 216 P 1020, 108 Or 598

#### Definite terminus

In proceeding to establish irrigation district, evidence of definite plan of irrigation system is required, but such evidence need not include fixing of definite terminus of canal. *Mont—Blaser v. Clinton Irr. Dist.*, 53 P 2d 1141, 100 Mont 459.

#### Change of plan

The plans for obviating serious defects in proposed reservoir which were likely to produce great leakage and cause expense to prevent heavy water losses should be considered at time of creation of irrigation district and should not be deferred until after costly experiments have been imposed upon property owners, and the changes should be reasonable in view of the original plan and not formulated with the idea of adding a heavy item of cost for construction under plans never intended or considered originally when the scope of those plans is viewed as an entirety.

*Wyo—In re Washakie Needles Irr. Dist.*, 76 P 2d 617, 52 Wyo 518.

4. Or.—In re Harper Irr. Dist., 216 P 1020, 108 Or 598

*Wyo—In re Washakie Needles Irr. Dist.*, 76 P 2d 617, 52 Wyo 518

#### Relationship to cost of construction

(1) Statute authorizing organization of irrigation district contemplates that feasibility thereof based on cost of construction shall fairly and reasonably appear at time of organization of district, and the petitioners have the burden of proving such feasibility.

*Wyo—Padlock Ranch v. Washakie Needles Irr. Dist.*, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

(2) Under statute providing that

petition for organization of irrigation district must show by an accompanying engineering report approved by state engineer, the feasibility of the project, and requiring court to determine issue of feasibility before establishing district, the cost of the project is a determining factor in deciding whether project is capable of being utilized or dealt with successfully, since the word "feasible" means practically possible or capable of being managed, utilized, or dealt with successfully. *Wyo—In re Washakie Needles Irr. Dist.*, 76 P 2d 617, 52 Wyo 518

5. Or.—In re Harper Irr. Dist., 216 P 1020, 108 Or 598

#### Evidence held sufficient

In proceeding for organization of irrigation district, evidence sustained finding that there would be sufficient storable water to make the project feasible.

*Wyo—In re Washakie Needles Irr. Dist.*, 76 P 2d 617, 52 Wyo 518

#### Sufficiency of finding

Where petition for organization of a Conservancy District specifically alleged that property of proposed district would be benefited by accomplishment of any one of specified purposes, including the preventing of floods and protection of property from inundation, a finding of the conservancy court that that allegation of the petition was true was a sufficient determination that the purposes of the Conservancy Act warranted the creation of an additional district.

*NM—In re Sandia Conservancy Dist.*, 259 P 2d 577, 57 NM 413

7. Mont.—*Blaser v. Clinton Irr. Dist.*, 53 P 2d 1141, 100 Mont 459

#### Evidence held sufficient

*Wyo—In re Washakie Needles Irr. Dist.*, 76 P 2d 617, 52 Wyo 518.

#### Benefit to all property

Under requirements of the Conservancy Act that petitioners must

allege and that conservancy court must find that property described in petition will be benefited by organization of conservancy district, not merely some of property described in petition, act is not unconstitutional as an unlawful delegation of legislative powers by permitting individual petitioners to determine whether or not property included will be benefited.

*NM—In re Arch Hurley Conservancy Dist., Hudson Irr. Extension.*, 191 P 2d 338, 52 NM 34.

14. Or.—*Links v. Anderson*, 168 P 605, 1182, 86 Or 508

15. Ariz.—*Peters v. Frye*, 223 P 2d 176, 71 Ariz 30

#### Ground of refusal

Under statute authorizing county board of supervisors to hear and consider objections to proposals to create an irrigation water delivery district, board could refuse to organize proposed district on ground that there was no present need for such district, notwithstanding all statutory procedural requirements for formation of district had been met.

*Ariz—Peters v. Frye*, supra.

#### Constitutionality

The statutory power granted to county board of supervisors to refuse in its discretion to create an irrigation water delivery district is not a

## (c) Expenses Incident to Organization

An irrigation district is liable for expenses incident to its organization only to the extent provided for by statute.

In the absence of express statutory authorization, an irrigation district is not liable for legal services rendered to procure its organization.<sup>16</sup> Under a statute permitting the district to become indebted not to exceed a certain sum for preliminary expenses, and providing that all preliminary indebtedness in excess of that sum should be void, it has been held that warrants for salaries of the regular officers of the district must be deducted in determining whether outstanding unpaid warrants exceed the limitation permitted,<sup>17</sup> and that, taking the warrants in the order in which the obligations were incurred, every warrant which carried the aggregate sum beyond the limitation is void,<sup>18</sup> as is also every warrant issued after the aggregate sum of valid warrants had equalled the limitation.<sup>19</sup> The objectors to the creation of an irrigation district are entitled, on the dismissal of the petition for want of a requisite number of qualified signers, to recover as costs fees of witnesses to testify to facts on the merits, although they were not subpoenaed, sworn, or examined.<sup>20</sup>

*Who may raise question* A taxpayer and resident of the district may sue to restrain an expenditure of the district funds, in payment of organization expenses, which is not sanctioned by law.<sup>21</sup>

## f. Submission to Voters of District

Under some statutes, the question of organizing the district must be submitted to a vote of the people within the territory proposed to be included.

Under some statutes the question of organizing the district must be submitted to a vote of the people within the territory proposed to be included,<sup>22</sup> of which notice must be published in com-

pliance with the directions of the statute.<sup>23</sup> The clerk, under direction of the court, has been held to be the proper person to sign the notice of election.<sup>24</sup> A notice posted in conformity with the statute is sufficient.<sup>25</sup> Under a statute requiring that the notice shall describe the boundaries of the district, a notice which exempted a different tract of land from that described in the original petition and final order was not fatally defective,<sup>26</sup> particularly where the area involved was almost negligible in comparison to the area of the district.<sup>27</sup> Where a statute provides that publication of notice may be made in any newspaper of general circulation in the county, a publication in a newspaper of general circulation very near the proposed district is sufficient, although such newspaper is not the one designated generally by the county commissioners as the official newspaper of the county.<sup>28</sup>

It is not necessary that the court state the facts from which it derives its authority in an order calling an election.<sup>29</sup> A failure to recite in the order calling an election that the persons designated as judges and clerks of the election are qualified voters of the district constitutes a mere irregularity not invalidating the election.<sup>30</sup> The fact that the tribunal conducting the organization proceedings did not declare the district duly organized or the day that the vote for organization of the district was taken has been held not to affect the order declaring the organization of the district.<sup>31</sup>

*Election contests* In contesting an election it is necessary to plead and prove the ground of disqualification of votes,<sup>32</sup> and that such votes were cast adverse to the contesting parties.<sup>33</sup> Where the election is contested, and not the canvass of election, the failure of the election board to make certificates of canvass has been held not to be before the court.<sup>34</sup>

delegation of power to make a law and is not an unconstitutional delegation of legislative power

§ 319(3). — Lands Included

- a. Lands included
- b. Inclusion or exclusion after organization

a. Lands Included

Generally speaking, the lands to be included within an irrigation district are those which will be benefited by the irrigation system to be adopted, which are susceptible to irrigation from such system, and which are not already irrigated.

Under a statute providing that the district shall include lands which will be benefited by irrigation by the system to be adopted, the benefit to the land must be substantial<sup>35</sup> and not limited to the creation of an opportunity thereafter to use the land for a new kind of crop, while not substantially benefiting it for the cultivation of a crop already produced thereon in reasonable quantities without the aid of artificial irrigation<sup>36</sup>. The question of whether any particular land would thus be benefited is necessarily one of fact,<sup>37</sup> and objections to the inclusion of land must be made at the hearing afforded for that purpose<sup>38</sup>. Generally, the determination of the lands which are susceptible of irrigation and which will be benefited in the irrigation district must be made at the time the district is organized or before bonds are issued<sup>39</sup>.

In the absence of an abuse of discretion the decision of the tribunal conducting the hearing as

to the inclusion in, or exclusion of, lands from the district will not be disturbed<sup>40</sup>. So, where an opportunity has been given to be heard before a proper tribunal on the question of benefits, in the absence of actual fraud and bad faith, the decision of such a tribunal is conclusive<sup>41</sup> except as to grounds arising since such decision<sup>42</sup> and on matters affecting its jurisdiction<sup>43</sup>. The question of benefits is to be determined with reference to the natural state and condition of the land, and not with reference to the use being made of such land<sup>44</sup>.

A statute providing that all lands susceptible of irrigation from the same system of works applicable to other lands in such proposed district should be included in the district has been held to withdraw from the tribunal hearing the organization proceedings all jurisdiction to determine whether a particular tract of land would be benefited by the contemplated improvement,<sup>45</sup> and that lands included within the district by such tribunal are conclusively presumed to be benefited by the improvement,<sup>46</sup> in the absence of a contrary determination obtained later on a petition for the exclusion of particular tracts of land by the owners thereof<sup>47</sup>.

Under a statute providing that the directors of a district may change the boundaries of the divisions of the district when they deem it advisable for the best interest of the district, provided such changes shall be made to keep each division as

35. US—Fallbrook Irr. Dist. v. Bradley, Cal., 17 S Ct 56, 164 US 112, 41 L Ed 369.  
67 C J p 1305 note 82

**Land not currently used for agriculture**

Under statute, brick company which owned property which it did not contemplate using as a source of clay for brick for 10 or 12 years to come, but which would be directly benefited at small expense by proposed stream storage project by reason of enhanced value of property for agricultural purposes from which it could profit by renting, was not entitled to have such property excluded from irrigation district, notwithstanding its charter did not authorize it to engage in irrigation or agricultural pursuits, although such refusal to permit exclusion was without prejudice to maintain subsequent proceeding for exclusion under changed conditions.

Nev.—In re Reno Press Brick Co., 73 P 2d 503, 58 Nev 164.

**Railroad right of way**

The inclusion of a strip of railroad right of way in an extension of a conservancy district created for irrigation purposes because of incidental economic benefits to railroad, al-

though it would not be directly benefited by irrigation, was not an abuse of legislative purpose of Conservancy Act in applying act to a factual situation not contemplated.

N M.—In re Arch Hurley Conservancy Dist., Hudson Irr. Extension, 191 P 2d 338, 52 N M 34.

**Water district's reservoir and distributing system** could not be benefited by irrigation, even though irrigable in its natural state, and therefore, reservoir and system were not properly included within district, even though district's board of directors found that reservoir and system could be irrigated from works of district and that sole owner had consented in writing to its inclusion within district.

47. Or.—In re Harper Irr. Dist., supra.

nearly equal in area and population as may be practicable, the motives of the directors in changing the boundaries are immaterial if they have power so to change them,<sup>48</sup> and the elements of both area and population are to be taken into consideration and the question of which element should be considered the more important rests in the discretion given to the directors.<sup>49</sup> The courts should sustain the directors in making a change in boundaries unless a plain abuse of discretion appears from the records.<sup>50</sup>

*Legislative inclusion.* Where the legislature establishes the boundary of the district, it is assumed that it took such evidence and made such inquiry as was necessary in order to determine whether or not the property included by it would be benefited by its action,<sup>51</sup> and in such case, a statute establishing the procedure for the creation of districts by petition of landowners and affording landowners a hearing on the question of exclusion of their lands on the ground of absence of benefits, is inapplicable.<sup>52</sup> The mere fact that the finding of a benefit was made after the boundaries of the irrigation district were fixed does not militate against the validity of such a finding by the legislature.<sup>53</sup> However, the inclusion of land in the irrigation district by the legislature should not be palpably unjust and absurd.<sup>54</sup>

*Incapability of irrigation.* Under some statutes, land which, from any natural cause, cannot be irrigated, may not be included in an irrigation district,<sup>55</sup> and whether a particular tract of land falls within this category is a question which goes to the jurisdiction of the tribunal over such tract,<sup>56</sup>

and may be raised at any time in a proper case,<sup>57</sup> although the inclusion of such land cannot be raised by a collateral attack.<sup>58</sup> The fact that there are comparatively small knolls or sloughs on a tract of land does not necessarily require that the tract be excluded.<sup>59</sup> However, under other statutes, the inclusion of nonirrigable land is not a material defect.<sup>60</sup> In at least one jurisdiction a statutory provision prohibiting the inclusion of land which from any natural cause cannot be irrigated applies only where proceedings are brought for the exclusion of such nonirrigable lands from a legally organized district, and not to the lands included in the district on its formation,<sup>61</sup> the inclusion of such lands does not render illegal and void organizational proceedings had in compliance with all applicable statutory requirements.<sup>62</sup>

*Lands already irrigated.* Land already irrigated by an irrigation company should be excluded.<sup>63</sup> A statute providing that lands which are already irrigated from another source should be excluded from the district has been held not necessarily to mean another system of irrigation works similar to that provided by the district,<sup>64</sup> but also to include irrigation systems which have their origin in wells.<sup>65</sup> Under such a statute land should not be excluded from the district because of a right to obtain water elsewhere for mining purposes,<sup>66</sup> nor does the fact that the landowner had a plan to acquire independent means of irrigation entitle his lands to be excluded from the district.<sup>67</sup> Whether or not land is exempt from inclusion in an irrigation district because it is provided with water by a pump is a question which goes to the jurisdiction of the county board over such land

#### Pump

Land provided with water by pump for its irrigation may not be included in an irrigation district except on written application or consent of owner thereof.

Neb—Smith v. Frenchman-Cambridge Irr Dist, 51 N.W.2d 376, 155 Neb 270

66. Cal—Hand v. El Dorado Irr Dist, 276 P 137, 97 Cal App 740.

67. Cal—Hand v. El Dorado Irr Dist, *supra*

67 C J. p 1307 note 6.

and which may be raised at any time in a proper case.<sup>68</sup> Realty owned jointly by two irrigation districts may be included within each of the owning districts.<sup>69</sup>

*Public lands, towns, villages, etc.* The organization is not necessarily invalidated by the fact that public lands are included,<sup>70</sup> or excluded,<sup>71</sup> provided all requirements of the federal statutes are met,<sup>72</sup> and under some statutes it has been held that land entered under the federal land laws may be included in the district.<sup>73</sup> Whether or not state-owned school lands may be included in an irrigation district depends on the legislative policy as ascertained from the legislative acts in force when the district is created.<sup>74</sup> Towns, villages, and even cities may be included in an irrigation district, if their gardens, orchards, and other lands are susceptible of irrigation by the system.<sup>75</sup>

*Conservancy districts.* A statutory provision that conservancy districts formed for the protection and conservation of property cannot include a certain designated area has been held not to prohibit the inclusion of part of this area in a conservancy district organized for irrigation only.<sup>76</sup> In the organization of an artesian conservancy district, all land overlying the artesian basin underlying the land of the district should be included.<sup>77</sup> Land embraced within a conservancy district organized primarily for irrigation purposes may be included in a proposed new conservancy district organized

primarily for the purpose of protecting the public and private property from damages resulting from flash floods and in which irrigation is only an incidental purpose.<sup>78</sup>

*Water storage districts.* The word "may," in a statute providing that water storage districts "may include the major portion of the lands situated within two or more district agencies of the state," has been construed not to mean "must."<sup>79</sup>

*Objections to, or applications for, exclusion or inclusion of particular lands.* Under a statute providing that any person whose lands are susceptible of irrigation from the same source shall, on application, be entitled to have such lands included, it has been held that a verbal application is sufficient.<sup>80</sup> The inclusion of a small tract of land which was not included in the petition, or for the inclusion of which the owner did not petition, has been held not to invalidate the organization.<sup>81</sup>

In the absence of an agreement not to have the exclusion of plaintiff's lands determined in such proceedings,<sup>82</sup> a landowner who fails to appear before such a tribunal and make a showing why his lands should be excluded from the district, and who does not appeal in the prescribed manner from the order there issued establishing the district, is bound by its action in that respect.<sup>83</sup>

If a substantial portion of a tract sought to be excluded is properly included in the district, the

69. Cal.—Oakdale Irr Dist v Calaveras County, App, 283 P 2d 732.

**Lands held in trust**

Where two irrigation districts jointly owned certain realty, such realty from each district was, in limited sense, held in trust for benefit of district's landowners, but inclusion proceedings, by which each district included all of such jointly owned realty within its boundaries, did not constitute a violation of such trust in view of fact that there was not any conveyance or transfer of the realty involved, and the realty remained subject to the same ownership and subject to the same control and operation as it had before the inclusions.

**Lands not subject to entry**

Lands within irrigation district which were designated as public or which were owned by the United States resettlement administration were not "public lands" subject to entry within federal statute making such land subject to state laws relating to irrigation, and hence were not subject to assessment to pay debts of district, notwithstanding state law making public lands within irrigation district, whether entered or not entered, subject to taxation for irrigation purposes.

67 C J p 1307 note 11

entire tract must be included unless the portion which is not benefited can be reasonably defined and segregated from the tract <sup>84</sup>

The owner seeking to have his land excluded has the burden of proving the facts warranting its exclusion,<sup>85</sup> but a preponderance of the evidence is sufficient <sup>86</sup>

#### b. Inclusion or Exclusion after Organization

- (a) In general
- (b) Proceedings for inclusion
- (c) Proceedings for exclusion

##### (a) In General

Statutory provisions for the changing of boundaries of an irrigation district after its organization should be liberally construed.

A liberal rule of construction should be adopted in carrying out the provisions of a statute providing for the changing of boundaries of a district

and the annexation of additional territory,<sup>87</sup> although jurisdictional requirements must be substantially met,<sup>88</sup> in the absence of which the action of the board of directors is void and subject to collateral attack <sup>89</sup> The fact that, after the original organization of the district, changes were made in its boundaries does not render the mere name of the district insufficient as an identification, since, if the proceedings to change the boundaries were regular and valid on their face, they are matters of record which can be ascertained by examination <sup>90</sup>

##### (b) Proceedings for Inclusion

There must be a substantial compliance with statutory requirements in order to bring lands within an irrigation district after its organization.

In a proceeding for the inclusion of land in an irrigation district the petition must be sufficient to confer jurisdiction on the board,<sup>91</sup> which ques-

**84.** Cal—San Joaquin Agr Corporation v Board of Sup'rs of Madera County, 8 P 2d 1051, 121 Cal App 468.

67 C J p 1308 note 23

#### Validating acts

Any defect in proceedings by which land owned by irrigation district and located outside its boundaries was included within the district in 1947 with respect to authority of district to itself file the petition for such inclusion was cured by validating acts of 1949 in so far as county and its power to tax such land were concerned.

Cal—Vista Irr Dist v. San Diego County, supra

#### Validity of provision

The provision of the Conservancy District Reclamation Contract Act giving the secretary of interior the same voice that is ordinarily extended to other money lenders or mortgagees regarding any change calculated to increase or diminish acreage which, in part at least, constitutes security for money advanced, in light of purpose of act to permit a conservancy district to avail itself of government aid in constructing its works and irrigation system, is not invalid as an unlawful delegation of legislative power.

N.M.—In re Arch Hurley Conservancy Dist, Hudson Irr Extension, 191 P 2d 338, 52 N.M. 34.

#### Particular terms

In statute providing that in no case shall any land be held in an irrigation district if from any cause it cannot be irrigated thereby, the word "any" land does not mean all lands, and the word "shall" may be construed as "may"

N.D.—In re Heart River Irr Dist, 49 NW 2d 217, 78 N.D. 302

**88.** Cal—People v Cardiff Irr Dist of San Diego County, 197 P 384, 51 Cal App 307

67 C J p 1308 note 24

**89.** Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, Civ App, 128 S.W.2d 535, affirmed 153 S.W.2d 463, 137 Tex 338

#### By original petitioner

A landowner was not precluded from questioning an order of the board of directors of a water improvement district approving his petition to annex land to the district by previous ex parte proceedings to establish validity of district and securities issued by it, where matters involved in proceedings questioning the order had not been determined in the ex parte proceedings, and landowner was not a party thereto

Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, supra

**90.** Cal—Fogg v Perris Irr Dist, 97 P 316, 154 Cal 209

**91.** Colo—People ex rel Dunbar v San Luis Val Water Conservancy Dist, 261 P 2d 704, 128 Colo 270

Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, Civ App, 128 S.W.2d 535, affirmed 153 S.W.2d 463, 137 Tex 338—Grand Lodge of Order of Sons of Hermann in Texas v Curry, Civ App, 108 S.W.2d 574, error refused

67 C J p 1308 note 24 [b].

#### Description of land

(1) In inclusion proceedings, an area contiguous or noncontiguous to water conservancy district may, by petition, be made part of district, and in such petition, it is not the area, but the territory in the area, which must be generally described

Colo—People ex rel Dunbar v San Luis Val Water Conservancy Dist, 261 P 2d 704, 128 Colo 270

(2) Where petition to annex lands to water improvement district failed to describe lands by metes and bounds as provided by statute, the board of directors acquired no jurisdiction to act, and its order attempting to annex such lands to district was void

Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, 153 S.W.2d 463, 137 Tex 338

(3) Term "metes and bounds" as used in statute providing for the annexation of adjacent land to water improvement district meant the boundary lines of land with their terminal points and angles

Tex—Grand Lodge of Order of Sons of Hermann in Texas v Curry, Civ. App., 108 S.W.2d 574, error refused

(4) Fact that petition referred to records which, if pursued, might have ultimately disclosed descriptions by metes and bounds was not sufficient to satisfy express requirement of statute concerning annexation of an existing district

Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, Civ App, 128 S.W.2d 535, affirmed 153 S.W.2d 463, 137 Tex 338

#### Number of petitioners

(1) Under provision of Water Conservancy Act requiring that petition for inclusion of additional areas to

tion is to be determined at the hearing thereon held pursuant to the order of publication.<sup>92</sup> Under statutory provisions to such effect, nonirrigable lands may be included in an existing district even though such lands could not have been embraced within the district on its formation.<sup>93</sup> Where the statutory method of bringing land within an irrigation district is exclusive, such inclusion cannot be effected indirectly by any other method.<sup>94</sup>

An order extending the boundaries of a district amounts to a finding of every fact necessary to the validity of the order,<sup>95</sup> and express findings will not be disturbed if there is evidence to support them.<sup>96</sup> A statutory provision that the board of

directors, to whom a petition for inclusion in an irrigation district is presented, may require as a condition precedent to granting the prayer that the petitioners pay a pro rata share of the bonded indebtedness of the district,<sup>97</sup> and may be waived by the board.<sup>98</sup>

*On appeal*, since a proceeding for the extension of the boundaries of a district is wholly statutory, it has been held that the reduction of the testimony to narrative form does not violate a rule of court providing testimony be presented in question and answer form in equity cases or proceedings of an equitable nature.<sup>99</sup>

an organized conservancy district be signed by not fewer than five per cent of owners of nonirrigated lands "and/or" lands embraced within incorporated limits of a city or town, requirement is satisfied when petition is signed by either five per cent of owners of nonirrigated lands or five per cent of owners of lands within corporate limits of city and town. *Colo—People ex rel Dunbar v San Luis Val Water Conservancy Dist*, 261 P 2d 704, 128 Colo 270.

(2) Requirement of irrigation district law that a petition for inclusion of land might be filed by holders of title representing half or more of any body of land adjacent to boundary of district does not mean that there must be more than one property owner involved.

*Cal—Mariposa County v Merced Irr Dist*, 196 P 2d 920, 32 Cal 2d 467.

#### **Irrigation district as petitioner**

(1) An irrigation district, as holder of title to land located outside its boundaries, may itself petition for the inclusion of such land within the district.

*Cal—Mariposa County v Merced Irr Dist*, supra.

*Vista Irr Dist v San Diego County*, 219 P 2d 793, 98 Cal App 2d 270.

(2) Provisions of Water Code authorizing irrigation district to petition for inclusion in district of land owned by district and located outside its boundaries are not unconstitutional on ground that they permit district to pass on and judge the advisability of its own act, since district has no such personal or private interest as would disqualify it to pass on its own petition for such inclusion. *Cal—Vista Irr Dist v San Diego County*, supra.

#### **Validation of proceedings**

(1) On failure to follow mode created by legislature for inclusion of land within irrigation districts, legislature could, by ratifying that which was done, validate the inclu-

sion proceedings notwithstanding defects in such proceedings.

*Cal—Oakdale Irr Dist v Calaveras County*, App, 283 P 2d 732.

(2) Failure of water district to comply with statutory requirements governing mode of inclusion within its boundaries of reservoir and distributing system was cured by validating act which was thereafter passed by legislature, and effect of such act was to ratify and confirm inclusion of such property within district boundaries, and, therefore, county could not thereafter tax such property after effective date of validating act.

*Cal—Rock Creek Water Dist v Calaveras County*, 283 P 2d 740.

92. *Colo—People ex rel Dunbar v San Luis Val. Water Conservancy Dist*, 261 P 2d 704, 128 Colo 270.

#### **Similar or duplicate petitions**

Under Water Conservancy District Act where petition is filed for inclusion of lands within conservancy district, court is not empowered to determine its jurisdiction until date of hearing fixed in order and published notice, and until full opportunity has been afforded all persons desiring to file similar or duplicate petitions to do so, and when similar and duplicate petitions are filed, all must be considered as if filed contemporaneously with the first petition; hence where on day of hearing petition for inclusion of lands in water conservancy district, the original inclusion petition, together with similar or duplicate petitions theretofore filed by petitioners, contained signatures of owners of various classes sufficient to satisfy requirements of Water Conservancy District Act, court had jurisdiction of persons and subject-matter involved, notwithstanding insufficiency of original petition, with respect to signers, at time of its filing.

*Colo—People ex rel. Dunbar v San Luis Val Water Conservancy Dist*, supra.

#### **Protesting petition**

In proceeding for inclusion of lands in water conservancy district, failure of protesting petition to contain signatures of any owners of irrigated lands in area described in inclusion petition, as required by statute, made it obligatory upon trial court, on day of hearing, to dismiss protesting petition, leaving for court's determination the legal sufficiency of inclusion petition only.

## (c) Proceedings for Exclusion

Substantial compliance with statutory requirements is necessary in order to effect the exclusion of particular lands from an irrigation district after its organization

Provision is made in the various jurisdictions for proceedings whereby lands may, in proper cases, be excluded from irrigation districts in existence.<sup>1</sup> Under a statute prescribing the procedure whereby a landowner might obtain the exclusion of his land from the district after its organization, but specifying no time within which such petition for exclusion must be filed, it has been held that participation in the election forming the district,<sup>2</sup> and the fact that an opportunity was given at the hearing to object to the inclusion of the land,<sup>3</sup> do not estop the landowner from subsequently objecting to the boundaries established, although a district bonded indebtedness and a sale of the bonds creating a lien on the land may raise a question of estoppel,<sup>4</sup> but the mere voting of a bonded indebtedness,<sup>5</sup> and the passing of a resolution by the board of directors of the district authorizing the issuance of bonds,<sup>6</sup> before the time of the filing of the petition for exclusion are insufficient to create a lien on the land raising the question of estoppel. A statute requiring the consent of bondholders, if any, to the exclusion of any territory

after organization of the district has been held not to apply to successful bidders on bonds who have been relieved from their offer.<sup>7</sup> Ordinary rules applying to civil actions do not apply to matters governed by provisions of a special statutory proceeding for the exclusion of lands.<sup>8</sup> The following of a statutory procedure for the exclusion of some of the land included in the district does not destroy the identity of the district.<sup>9</sup> Lands included in an irrigation district after its bonded indebtedness was authorized may be excluded on application of the owner when it appears that no irrigation system has been furnished the lands and extension of the system is improbable.<sup>10</sup>

Under a statute to such effect, lands which are not susceptible to irrigation or would not be benefited thereby should, or at least may, be excluded on proper application therefor,<sup>11</sup> and such a statute may be mandatory,<sup>12</sup> but lands which are irrigable should not be excluded on the basis of a petition alleging that they are nonirrigable.<sup>13</sup>

The determination of whether the land sought to be excluded will or will not be benefited by the operations of the district rests in the first instance on the board, not on the landowners,<sup>14</sup> and unless

4. Cal.—Harelsan v. South San Joaquin Irr. Dist., supra, 67 C.J. p. 1308 note 31.

5. Cal.—Harelsan v. South San Joaquin Irr. Dist., supra.

6. Cal.—Harelsan v. South San Joaquin Irr. Dist., supra.

7. Cal.—Modesto Irr. Dist. v. Tregea, 26 P. 237, 88 Cal. 334, error dismissed 17 S.Ct. 52, 164 U.S. 179, 41 L.Ed. 395.

8. Or.—In re Central Pac. Ry. Co., 25 P.2d 927, 144 Or. 527.

#### Notice of appeal

Landowners who appeared and objected to exclusion of railroad's lands from irrigation district were not adverse parties entitled to notice of appeal to circuit court from order denying petition, and railroad's service

of notice of appeal on secretary of district only was sufficient.

Or.—In re Central Pac. Ry. Co., supra.

9. Cal.—Modesto Irr. Dist. v. Tregea, 26 P. 237, 88 Cal. 334, error dismissed 17 S.Ct. 52, 164 U.S. 179, 41 L.Ed. 395.

10. Utah.—Whitcher v. Bonneville Irr. Dist., 256 P. 785, 69 Utah 510.

11. Idaho.—Nielson v. Board of Directors of Big Lost River Irr. Dist., 117 P.2d 472, 63 Idaho 108.

N.D.—In re Heart River Irr. Dist., 49 N.W.2d 217, 78 N.D. 302.

Or.—In re Central Pac. Ry. Co., 25 P.2d 927, 144 Or. 527.

#### Requisites and sufficiency of petition

##### (1) In general

Idaho.—Nielson v. Board of Directors of Big Lost River Irr. Dist., 117 P.2d 472, 63 Idaho 108.

(2) The statute providing for exclusion from irrigation districts of lands which cannot derive benefit therefrom requires that landowner desiring to have his land excluded from irrigation district shall describe it in his petition filed for that purpose with board of directors of irrigation district.

Idaho.—Nielson v. Board of Directors of Big Lost River Irr. Dist., 117 P.2d 472, 63 Idaho 108.

(3) Petition, alleging that petitioner was successor in interest to one

whose land had previously been decreed to be excluded from irrigation district which wrongfully levied and collected assessments on such land, was not demurrable on ground that petitioner had no legal capacity to sue, that action was barred by statute of limitations, and by laches of petitioner.

Idaho.—Nielson v. Board of Directors of Big Lost River Irr. Dist., supra.

#### Description of excluded and retained lands

Where statute providing for manner of describing lands in petition for exclusion from irrigation district contained no provision that lands must be described by metes and bounds, but required description to be no more definite than that provided by law to be used by assessor in listing lands for taxation, and where board of directors of irrigation district described lands to be retained in district by legal subdivisions of 10 acres, such descriptions were permissible although certain 10 acre tracts retained in district contained portions of nonirrigable lands.

N.D.—In re Heart River Irr. Dist., 49 N.W.2d 217, 78 N.D. 302.

12. Or.—In re Central Pac. Ry. Co., 25 P.2d 927, 144 Or. 527.

13. N.D.—In re Heart River Irr. Dist., 49 N.W.2d 217, 78 N.D. 302.

14. Cal.—Hobe v. Madera Irr. Dist., 274 P.2d 874, 128 Cal.App.2d 9.

there is no evidence to support its conclusion, the determination by the board will not be overruled by the courts<sup>15</sup> An owner's petition for exclusion should not be denied merely on the ground that such exclusion will result in slightly increased costs of maintenance and operation to the objecting landowners<sup>16</sup> Where land has been improperly included in an irrigation district contrary to the express provisions of the statute, the owner is not necessarily required to resort to the statutory procedure for detachment of land from a district, but he may maintain an original action in equity<sup>17</sup>

Under provisions to such effect, an appeal may be taken from a decision of the board of an irrigation district on a petition for exclusion of particular lands from the district,<sup>18</sup> but such appeal must be taken within the time specified in the statute<sup>19</sup> Where the statute so provides, the matter is heard in the appellate court and determined de novo, and the court may enter such order as it deems just and proper<sup>20</sup> An appeal from that part of a judgment which excluded the lands of a landowner has been held to be the equivalent of an appeal from the whole judgment and not to be within a rule that an appeal will not lie from a part of a judgment.<sup>21</sup>

15. Cal—Hobe v Madera Irr Dist, supra

16. Or—In re Central Pac Ry Co, 25 P 2d 927, 144 Or 527

17. Neb—Smith v Frenchman-Cambridge Irr Dist, 51 NW 2d 376, 155 Neb 270

18 ND—In re Heart River Irr Dist, 49 N.W 2d 217, 78 ND 302

**Hearing**

In proceeding for organization of irrigation district, fact district at time of petition for rehearing in Supreme Court was not adverse to permitting exclusion of objectant's land was not ground for rehearing, since exclusion could be had in trial court and all controversy ended

Wyo—Padlock Ranch v Washakie Needles Irr Dist, 61 P 2d 410, 50 Wyo 253

19 ND—In re Heart River Irr Dist, 49 NW 2d 217, 78 ND 302

**When time commences to run**

Action of board of directors of irrigation district in considering petitions for exclusions from district, designating those lands excluded on map, and directing secretary to prepare order to that effect for approval, did not amount to an order, and time for appeal from such order did not begin to run until subsequent meeting at which board signed and dated order for exclusion and entered it on

minutes, and an appeal prior to second meeting would have been premature

ND—In re Heart River Irr Dist, supra

20 ND—In re Heart River Irr Dist, supra

**Evidence dehors the record**

On trial de novo in district court on appeal from order of board of directors of irrigation district, trial court was not limited to consideration of record made before board, but properly received and considered in addition thereto other competent evidence, oral and documentary, relevant and pertinent to the issues

ND—In re Heart River Irr Dist, supra

**Weight of board's findings**

On trial de novo in supreme court on appeal from decision of district court entered on appeal from order of board of directors of irrigation district, retaining in district portions of lands, owners petitioned to leave excluded therefrom, court was required to find facts independently of trial court's findings, but such findings were nevertheless entitled to appreciable weight

ND—In re Heart River Irr. Dist, supra

**Weight and sufficiency of evidence**

In petitions by landowners for exclusion of their lands from irrigation

**§ 319(4). — Proceedings to Determine Validity**

- a In general
- b Time for attacking organization
- c. Evidence

**a. In General**

The question of the validity of the organization of the district can be raised only by those directly interested in, and affected by, the provisions of such plans, in reviewing the organization of a district, each case to a large extent must be governed by its own facts.

The question of the validity of the organization of the district can be raised only by those directly interested in, and affected by, the provisions of such plans<sup>22</sup> Accordingly, a proceeding whereby no relief is sought on behalf of plaintiffs other than to have it adjudged that the proceedings of organization of the irrigation district were void, in the absence of statutory permission, cannot be maintained by private individuals,<sup>23</sup> and a proceeding by the district's directors to test the validity of organization, provided by statute, is exclusive,<sup>24</sup> although the directors refuse to institute it.<sup>25</sup>

A declaration or order establishing or organizing the district may, under proper authority, be re-

district on ground that certain areas of their lands were nonirrigable from natural causes, evidence was sufficient to establish that lands were irrigable and cost of leveling for irrigability was not so high as to make it economically unsound or prohibitive to do so

ND—In re Heart River Irr Dist, supra

21. Mont—In re Extension and Enlargement of Boundaries of Bitter Root Irr Dist, Ravalli County, 218 P 945, 67 Mont 436

67 C J p 1309 note 39

22. Cal—Reclamation Dist No 108 v Ash, 208 P 394, 58 Cal App 238

**Land outside original boundaries**

A person not interested in land lying outside the original boundaries of a proposed irrigation district, but included by the board of supervisors in the district, may not attack the validity of the district because it includes such land, particularly where the land is an insignificant part of the district

Cal—Imperial Water Co No 1 v Board of Sup'rs of Imperial County, 120 P 780, 162 Cal 14

23. Utah—Surrage v McKay, 206 P. 722, 60 Utah 117.

24. Utah—Surrage v McKay, supra. Confirmation proceedings see infra § 319 (5)

25. Utah—Surrage v. McKay, supra.

viewed on appeal<sup>26</sup> or by certiorari.<sup>27</sup> Under a constitutional provision empowering the courts to entertain writs of review it has been held that a statute providing that a finding of the board of supervisors in favor of the genuineness and sufficiency of the petition and notice should be conclusive against all persons except the state on suit instituted by the attorney-general did not limit the determination of the validity of the formation of the district to quo warranto proceedings by the attorney-general.<sup>28</sup> A statute purporting to limit all inquiry into the action of the board of supervisors in forming the district is unavailing to prevent such inquiry where that board has proceeded without jurisdiction.<sup>29</sup> When it appears at any stage of the proceedings that the county court, in the proceedings to organize the district, has acted without jurisdiction, and the proceedings are subject to review, a duty has been held to devolve on the court to set aside the proceedings on its own motion,<sup>30</sup> to purge the record of informalities<sup>31</sup> and to refuse to proceed further,<sup>32</sup> although the defect has not been challenged in a formal way.<sup>33</sup>

In reviewing proceedings for the organization

of irrigation districts, each case to a large extent must be governed by its own facts.<sup>34</sup> The action or decision objected to, or appealed from, will not be disturbed in the absence of error in the organizational proceedings.<sup>35</sup> Where there has been a radical change in the fact situation between the time of the order establishing the district and the time of the appeal, the appellate court may remand the proceeding for further consideration in the light of the existing circumstances.<sup>36</sup>

**Proof of publication of petition and notice.** If there is proof of the publication of the petition and notice reasonably sufficient to satisfy the board of supervisors, its conclusion of its sufficiency will not be disturbed because additional proof or more satisfactory proof might have been presented.<sup>37</sup>

**Estoppel.** An owner who signed the petition for organization of the district,<sup>38</sup> and who paid district taxes on his land without protest,<sup>39</sup> and who took no appeal from a judgment adjudging the validity of the district is estopped from attacking the validity of the district. A proceeding to compel an irrigation district to comply with the law does not admit the existence of the district

26. Wyo.—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

#### Decisions appealable

(1) The declaration by the county court that the district "has been duly and legally incorporated" is a judicial declaration which, if erroneous, may be reviewed by appeal.

Or.—Smith v Hurlburt, 217 P. 1093, 108 Or 690

(2) In proceedings for organization of irrigation district, appeal from order organizing district was not required to be dismissed because notice thereof was given before final order entered in the cause, where final order was merely an amendment of the original order correcting an honest mistake and no one was misled.

Wyo.—Padlock Ranch v Washakie Needles Irr Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

#### Attempted abrogation of right

The provision of Water Conservancy Act abrogating right of appeal from a judgment allowing or dismissing petition seeking creation of water conservancy district violates constitutional provision giving right of appeal to supreme court from all final judgments of district court, but the sections of the act concerning acts of district board, only duty in respect to which district court has to perform being to sign orders of board, which is a ministerial duty, are not

invalid because of failure to provide for appeal from district board.

Utah.—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55

27. Cal.—Security-First Nat Bank v Board of Sup'rs of Riverside County, 26 P 2d 862, 135 Cal App 208

#### Incomplete return

Where return to writ of certiorari to review proceedings before board of supervisors in organization of irrigation district was incomplete, order requiring supplemental return was proper.

Cal.—Security-First Nat Bank v Board of Sup'rs of Riverside County, supra

#### Matters not reviewable

Matter of canvassing vote at election for organization of irrigation district, declaring result of election, and declaring district organized, held not reviewable on certiorari to review proceedings of board of supervisors in matter of organization of drainage district.

39. Colo.—Montezuma Valley Irr. Dist v. Johnson, 131 P 265, 54 Colo. 400—Montezuma Valley Irr Dist v. Longenbaugh, 131 P. 262, 54 Colo. 391.

as a corporation, so as to preclude determining its de jure existence in a direct attack to review the validity of the order of the county board of supervisors fixing its boundaries and ordering an election to determine whether or not it should be incorporated<sup>40</sup>

### b. Time for Attacking Organization

An attack on the organization must be made within the time provided by statute.

The legislature has power to limit the right to assail the regularity of the formation or organization of a district, provided a reasonable time is given within which to bring an action for that purpose<sup>41</sup>. A statutory provision that, unless the due and lawful organization of the district shall have been questioned by proceedings in quo warranto instituted within one year, the district shall conclusively be deemed to be legally and regularly organized has been held to relate to matters pertaining to the formation and organization of the district,<sup>42</sup> and not to substantive rights which might arise under a statutory proviso that lands already irrigated before the passage of the act should be exempt from the operation of the law<sup>43</sup>. A curative act prohibiting the bringing of any action attacking the organization of a district cannot cure a want of jurisdiction over an individual owner so as to prevent such landowner from setting aside the judgment including his property in the district<sup>44</sup>.

### c. Evidence

In the absence of a statute to the contrary, the common-law rules of evidence apply in judicial proceedings passing on the validity of the organization of the district.

In the absence of a statutory rule to the contrary, the common-law rules of evidence apply with respect to the kind of evidence by which any fact at issue in the proceedings to organize the district may be established in a court of justice.<sup>45</sup>

So, in the absence of statutory provision as to the effect as evidence of the action of the board of supervisors on the petition, facts showing that the board had jurisdiction must be proved by competent evidence<sup>46</sup>. A declaration by the board that a satisfactory petition had been presented, even though such declaration was spread on their records, is not competent evidence in the proceeding, since it is only hearsay<sup>47</sup>. The report of the state engineer on the feasibility of the project,<sup>48</sup> the certificate of acknowledgment,<sup>49</sup> or the affidavit of the petitioner<sup>50</sup> may constitute evidence in proceedings to review the action of the board. On writ of review from an order of a board of supervisors denying a petition to establish an irrigation district, the investigation is limited to the evidence before that board in determining whether it had any discretion to dismiss the petition<sup>51</sup>. The determinations of the board on questions of weight of evidence and credibility of witnesses are conclusive<sup>52</sup>. However, there must be some sort of evidence or proof, not only as to the allegations of the petition<sup>53</sup> but also as to the sufficiency of the signatures thereto,<sup>54</sup> or the order for the organization of the district will be annulled, and, if the evidence is insufficient, the court may remand the proceeding for the taking of additional testimony<sup>55</sup>.

### § 319(5). — Confirmation Proceedings

In some jurisdictions, provision is made for the institution of confirmation proceedings within a limited time after organization of the district.

The statutes sometimes provide for a judicial proceeding, to be instituted within a limited time, to test the validity of the organization of an irrigation district, in which it is the duty of the court to examine into, and decide on, the legality and sufficiency of each essential step in the organization. These proceedings are proceedings in rem,<sup>56</sup> the object and purpose of which are to bind the state as well as all others with respect to all the pro-

53 Cal—Miller & Lux v Board of Sup'rs of Madera County, 208 P 304, 189 Cal 254

54. Cal—Miller & Lux v Board of Sup'rs of Madera County, supra.

55. Wyo—Padlock Ranch v. Wash-akie Needles Irr. Dist, 60 P 2d 819, 50 Wyo 253, rehearing denied 61 P 2d 410, 50 Wyo 253

56. Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, 153 SW 2d 463, 137 Tex. 338 67 C J p 1310 note 65.

ceedings for the organization of the district,<sup>57</sup> its boundaries,<sup>58</sup> and to set at rest at an early date the legal existence of the district.<sup>59</sup> It is the duty of the court to examine every question presented by the record, whether or not discussed in the briefs.<sup>60</sup> Where it appears to the court that the district contains some lands not benefited, the court has jurisdiction to exclude such lands.<sup>61</sup> The court is justified in refusing to approve organization proceedings when no feasible plan of irrigation is presented.<sup>62</sup> Where the organization has already been confirmed, an application for a reconfirmation of all proceedings made in connection with a proceeding for confirmation of an assessment does not waive any benefits secured to the district by the first confirmation.<sup>63</sup>

*Limitations.* Suits to attack the validity of confirmation proceedings may be barred by limitations.<sup>64</sup> When the bar of the statute of limitations appears on the face of the bill, the statute, or objections in analogy to it, on the ground of laches, may be taken advantage of by demurrer, as well as by plea.<sup>65</sup>

*Institution of proceedings.* The directors of an irrigation district may bring these proceedings.<sup>66</sup> If the district officers do not move to have the proceedings for organization confirmed within the statutory period of limitations for such proceedings, anyone interested may, by proper action, have the question as to the legality of the organization determined.<sup>67</sup> A statute providing that the directors of the district "may" institute confirmation proceedings has been construed as permissive rather than mandatory.<sup>68</sup>

*Petition.* Under a statutory provision that the petition for confirmatory proceedings shall state

generally that the district was duly organized, it is unnecessary for the petition to allege that the order establishing the district was filed with the county clerk as it was required to be by statute.<sup>69</sup> A petition and notice asking for the confirmation of the proceedings to issue and sell the bonds have been held sufficient to support a decree confirming the proceedings to organize the district, although such confirmation was not asked.<sup>70</sup>

*Notice.* Since confirmatory proceedings are proceedings in rem, personal service need not be made on the landowners in the district to render a judgment of confirmation binding as against them,<sup>71</sup> constructive service being sufficient to give every person interested his day in court,<sup>72</sup> and to give the court jurisdiction of the person and subject matter.<sup>73</sup> The fact that portions of a notice originally typewritten were erased and rewritten with pen does not invalidate the notice.<sup>74</sup>

*Evidence.* Where the statutory power of the court is judicially to examine the proceedings of the board conducting the hearing it has been held that the right to review is limited to the record made by the board.<sup>75</sup> This does not mean that the findings of fact made by the board may not be reviewed in any manner by the reviewing court,<sup>76</sup> but that such findings can be reviewed only on the evidence introduced before the board.<sup>77</sup> Adjournments of the board may be shown by parol, where such showing is supplementary and not contradictory to the record.<sup>78</sup> Under a statute providing that the county court shall make a determination of the facts requisite to the organization of the district, which shall be conclusive evidence of the facts found, a full and complete order of the county court determining such facts is prima facie sufficient in the circuit court to establish such facts.<sup>79</sup>

79. Or.—Board of Directors of Payette-Oregon Slope Irr. Dist v

*Effect.* Since a confirmation proceeding is in the nature of a proceeding in rem and its object is to determine the legal status of the district, in the absence of fraud, perjury, or bribery,<sup>80</sup> a decree confirming the proceedings is final and conclusive<sup>81</sup> unless an appeal is taken within the time prescribed.<sup>82</sup> However, a confirmation decree is not res judicata as to matters jurisdictional,<sup>83</sup> such as the proper description of the lands.<sup>84</sup> Under a statute giving the court power to "examine and determine the legality and validity of, and approve and confirm," it has been held that the court in confirmation proceedings is without power to grant an injunction against those who might not have seen fit to question the court's action in that proceeding<sup>85</sup> or against those on whom there had been no service except by the publication of the notice directed by the court.<sup>86</sup>

On appeal, in the absence of error, the judgment of confirmation will be affirmed.<sup>87</sup>

### § 319(6). — Collateral Attack

Unless the organization of the district is void on its face, it is not subject to collateral attack.

Unless the order creating the district, or the confirmation of such order, is void on its face,<sup>88</sup> it is not subject to collateral attack,<sup>89</sup> particularly under a statutory prohibition of such an attack,<sup>90</sup> and it can be reviewed only by the method pointed out by the statute.<sup>91</sup> However, it has been held that a landowner whose lands have been included in such a district without his consent and without giving him notice,<sup>92</sup> or without giving him an opportunity to be heard on the question of benefits to his land,<sup>93</sup> may attack the validity of the judg-

ment declaring the organization of the district, where his attack does not go to the existence of the corporation by seeking to destroy it, but goes only to the validity of the judgment in so far as it affects such lands and seeks to take and hold them without due process of law.

*De facto districts.* Even though not regularly organized, an irrigation district acting under forms of law and unchallenged by the state is at least a de facto public corporation and its officers are de facto officers, so that the legality of its organization cannot be collaterally attacked by any private individual,<sup>94</sup> and for which reason its property is not subject to a mechanic's lien.<sup>95</sup> The fact that the electors of the district have voted for incorporation does not render it too late to inquire by a writ of review into the validity of the order calling the election.<sup>96</sup> One who bids for bonds on condition that they be legal and valid can question any proceeding which was so defective as to invalidate the bonds, as discussed *infra* § 331, but he cannot attack the validity of the organization of the district, if the district had a de facto existence when it issued the bonds.<sup>97</sup>

### § 319(7). — Similar Districts

Rules governing the organization of irrigation districts may be applied, in proper cases, to proceedings for the organization of similar districts.

Various rules discussed *supra* §§ 319(1)-319(6), have been applied to the organization of districts similar to irrigation districts although otherwise denominated. Thus, it has been held that the petition for organization of a public utility district need not describe the boundaries of the district by metes and bounds.<sup>98</sup> In the absence of statutory

provision so requiring, such a district need not be composed of contiguous units of land.<sup>99</sup>

**Electrical districts.** A statute providing for the creation of an assessment district for the purpose of supplying power to users primarily for the purpose of pumping water for the irrigation of arid lands is a valid exercise of legislative power.<sup>1</sup> It has been held essential to the validity of a statute creating an electrical district that a hearing be given on the question of benefits.<sup>2</sup> Where authorized by statute, the county board of supervisors may include or exclude lands in the organization of the district on a proper showing being made.<sup>3</sup> Where the board of supervisors accepted a petition for the organization of an electrical district, took evidence thereunder, and treated it in all ways as sufficient, there is no basis for an objection that the board did not find the petition sufficient.<sup>4</sup>

**Improvement districts** The formation of an improvement district within an irrigation district, under appropriate statutory provision, has been held not to be the taking of private property for the benefit of private parties,<sup>5</sup> since the use of water in such a manner is a public use.<sup>6</sup>

## § 320. Officers and Employees

- a. In general
- b. Election
- c. Duties and liabilities
- d. Meetings
- e. Recall or removal
- f. Employees

### a. In General

Officers of an irrigation district are public officers.

They must possess any qualifications set forth in the governing statutes.

The officers of an irrigation district are public officers,<sup>7</sup> although they are not necessarily state officers,<sup>8</sup> and they must possess the statutory qualifications, such as residence or ownership of property in the district, etc.,<sup>9</sup> although it has been held that, where a person acted as the collector of an irrigation district in a sale under an assessment, and his right to the office was not questioned, the proceedings were not invalid because, by reason of his residence, he might have been disqualified to become a de jure officer.<sup>10</sup> The board of directors of an irrigation district is not an administrative agency, since it lacks requisite of state-wide jurisdiction, and the rules of appellate procedure governing such agencies do not apply in irrigation matters.<sup>11</sup>

**Officers as trustees.** The officers of an irrigation district who must provide for the levy and collection of a tax sufficient to meet the interest and principal on irrigation bonds, and the county treasurer who is made the custodian of the funds of the district, stand in the relation of trustees for the bondholders of the district.<sup>12</sup>

**Term of office, qualification** The terms of office must not exceed a constitutional limitation for the terms of such officers.<sup>13</sup> A statute providing that district officers shall hold over on the expiration of their terms until their successors shall qualify does not render vacant such offices, so that where a general irrigation election at which such officers are voted on is declared void, the incumbents continue to hold office for the new term commencing on the expiration of the old term.<sup>14</sup> Moreover, such

9. Tex—Schrock v. Hylton, Civ App, 133 S.W 2d 175  
67 C J p 1313 note 27.

### Length of residence

Candidates for positions of supervisor of, and of assessor and collector of taxes for, fresh water supply district who resided within the district were eligible for the positions even though they had not resided within the district six months next preceding the election as required by general election law, in view of special statutes relating to the fresh water supply districts

Tex—Schrock v. Hylton, *supra*.

10. Cal—Baxter v. Dickinson, 68 P 601, 136 Cal 185.

67 C J p 1313 note 29

14. Cal—Holbrook v. Board of Directors of Imperial Irr Dist, 64 P 2d 430, 8 Cal 2d 158

### Tie vote

Where election for supervisor of and assessor and collector of taxes for fresh water supply district resulted in tie vote, the incumbents were authorized to continue to perform the duties of their office until their successors should be duly elected and qualified

Tex—Schrock v. Hylton, Civ App, 133 S.W 2d 175.

incumbents are not up for election at the next general irrigation election where the election is held before the expiration of the new term so begun<sup>15</sup> A statute requiring a person, if elected to be a director, to file an oath of office and bond before the commencement of his term has been held not to apply to a person claiming to have been elected to the office when another is in possession of the office under a claim of election and the right has not yet been tried<sup>16</sup>

**Compensation** The amount of compensation to be paid irrigation district officers is usually a matter of statutory regulation<sup>17</sup> An officer, having no jurisdiction outside his own district, cannot claim compensation for services performed in some other district<sup>18</sup>

### b. Election

The election of officers of an irrigation district is usually governed by a special statute, and not by the general election statute. The right to contest an election is purely statutory.

Although there is authority to the contrary,<sup>19</sup>

the elective franchise, in irrigation matters, is a privilege,<sup>20</sup> not governed by the general election laws of the state,<sup>21</sup> and one who would enjoy it must comply strictly with all the requirements which the legislature prescribes as a prerequisite to the right to vote,<sup>22</sup> and must possess all the qualifications,<sup>23</sup> otherwise he may not have his vote counted<sup>24</sup> Under some statutes it has been held that directors may be elected at large from the district<sup>25</sup> The secretary of an irrigation district,<sup>26</sup> or the presiding officers at a district election,<sup>27</sup> under some statutes have no authority to determine arbitrarily that certain persons are not entitled to vote, and the proper remedy for preventing unqualified persons from voting is by action in advance to purge the rolls<sup>28</sup> or by a challenge<sup>29</sup>

**Ballots** Under some statutes it has been held that, in order that a candidate for the office of director may get his name on the official ticket prepared by the election officials, it is requisite that he be properly nominated by a petition or an assembly of electors,<sup>30</sup> but this is only permissive,<sup>31</sup> and

15. Cal—Holbrook v Board of Directors of Imperial Irr Dist, 64 P 2d 430, 8 Cal 2d 153

16. Ariz—Post v Wright, 289 P 979, 37 Ariz 105

21. Tex—Schrock v Hylton, Civ App, 133 S W 2d 175  
67 C J p 1313 note 33

#### Absence of poll list

Election of supervisors of, and assessor and collector of taxes for, fresh water supply district was not void for failure of election officers to have poll list at place of voting as prescribed in general election law Tex—Schrock v Hylton, supra

#### Recount of votes

Irrigation district is not a county or a city within meaning of general election laws confining election contests to any election held therein so that losing candidate for office of director of an irrigation district was confined to remedy of recount of votes as provided in Water Code

Cal—Hunt v Superior Court in and for Stanislaus County, 209 P.2d 411, 93 Cal App 2d 504.

22. Tex—Schrock v Hylton, Civ App, 133 S W 2d 175  
67 C J p 1313 note 34

#### Statute construed

Statute pertaining to irrigation ditch elections merely provides two alternative methods of voting and does not destroy any property rights recognized by prior statute defining rights or ownership in public or private ditches

N M—Holmberg v Bradford, 244 P 2d 785, 56 N M 401

23. Colo—People v Milan, 5 P 2d 249, 89 Colo 556

**Persons, who were not residents** of fresh water supply district at time of election of district supervisors and assessor and collector of taxes, were not entitled to vote at the election

Tex—Schrock v Hylton, Civ App, 133 S W 2d 175

24. Colo—People v. Milan, 5 P 2d 249, 89 Colo 556

#### Names on assessment roll

Statute requiring names of voters at irrigation district elections in districts of over five hundred thousand acres to have appeared on last preceding assessment roll as holders of title or evidence of title to realty

held not to authorize secretary of district to determine arbitrarily that certain deeds were void or, in preparing roster of voters, to mark names of particular grantees with asterisks and certify that only persons whose names were not so marked were qualified to vote

Cal—Barry v Board of Directors of Imperial Irr Dist, 46 P 2d 298, 7 Cal App 2d 412, followed in McIver v. Board of Directors of Imperial Irr Dist, 46 P 2d 307, 7 Cal App 2d 754

27. Tex—Schrock v Hylton, Civ App, 133 S W 2d 175.

#### Absence of poll list

Presiding officers at fresh water supply district election are without authority to deprive a qualified voter who has subscribed to prescribed oath affecting elections in such district, of right to vote, merely because of absence of poll list at place of voting

Tex—Schrock v Hylton, supra

28. Cal—Barry v Board of Directors of Imperial Irr Dist, 46 P 2d 298, 7 Cal App 2d 412, followed in McIver v Board of Directors of Imperial Irr Dist, 46 P 2d 307, 7 Cal App 2d 754

29. Cal—Barry v Board of Directors of Imperial Irr Dist, 46 P 2d 298, 7 Cal App 2d 412, followed in McIver v Board of Directors of Imperial Irr Dist, 46 P 2d 307, 7 Cal App 2d 754

30. Or—Henricksen v Clark, 201 P 1071, 102 Or 250

31. Or—Henricksen v. Clark, supra

the voter has the right to write in the name of, and vote for, any person he chooses<sup>32</sup> The failure of the ballot to designate the term of office for which the candidates were nominated, where there are candidates for terms of various durations, has been held to render void for uncertainty not only the returns made by the election officials<sup>33</sup> but the ballots as cast also<sup>34</sup> Specially marking some but not all of the ballots in an irrigation district election has been held to be unauthorized and illegal<sup>35</sup>

**Canvass.** Under a statute providing that the canvassing board shall open the returns and estimate the vote of the district for each person voted for and declare the result thereof, it has been held that the board had no power voluntarily to go behind the returns of the election as certified by the precinct officers and to pass on the original ballots<sup>36</sup>

**Certificate of election** Where new directors have been elected the mere fact that the district officers are suspicious as to the legality of the election has been held not to authorize them to try to extend their own tenure of office,<sup>37</sup> or to withhold certificates of election from the new directors,<sup>38</sup> without making any attempt to show how or why the election was invalid.

**Contest of election** The right to contest an election is purely statutory, and, unless specifically provided for, such contests cannot be had<sup>39</sup> In an election contest, the burden is on the contestants to allege and prove that a different result would be reached by rectifying alleged irregularities in the conduct of the election<sup>40</sup> In contesting the election of an irrigation director it has been held that contest must be against him in his official capacity,<sup>41</sup>

and a contest against private parties wholly disconnected with the district is ineffectual<sup>42</sup> A statement of contest which fails to show that the contestant was a qualified elector at the time of the election has been held to be fatally defective,<sup>43</sup> and, being jurisdictional,<sup>44</sup> incapable of amendment after the time limit permitting contest.<sup>45</sup> In an election contest proceeding it has been held that voters, not claiming privilege, could testify as to for whom they voted.<sup>46</sup> Under a statute providing that the contestant, if successful, may be awarded damages, an award of damages which is not excessive will be sustained<sup>47</sup> On appeal where the county court had jurisdiction, defects relating to procedure cannot be reviewed in a contest of election thereunder by those not making objection in the county court<sup>48</sup>

### c. Duties and Liabilities

Officers of an irrigation district are subject to the duties and liabilities imposed on them by law.

Officers of an irrigation district are subject to the duties and liabilities imposed on them by law.<sup>49</sup> When the district has been organized and the boundaries determined, its officers cannot arbitrarily assume the management of one portion of the district and reject that of another,<sup>50</sup> and mandamus will lie to compel them to perform their duty under the law<sup>51</sup> The officers of an irrigation company are personally liable for funds which they assess and collect to pay interest on bonds and fail to use for that purpose<sup>52</sup> The sureties on the bond of a district tax collector are not liable for funds which were misappropriated after the collector had actually turned over the funds to the district treasurer, although the funds were not properly receipted<sup>53</sup> Under a statute providing for

### Contest in superior court

Elections in irrigation districts are governed by the provisions of the Water Code, and not by provisions of the Election Code, and, therefore, since no provision is made in the Water Code for election contests in superior courts, superior court had no jurisdiction of proceedings to contest election of directors of irrigation district

Cal—Costa v Banta, 219 P 2d 478, 98 Cal App 2d 181

52. U S—Thompson v Emmett Irr Dist, Idaho, 227 F 560, 142 C C A. 192

53. Cal—Turlock Irr Dist v Edwards, 270 P. 936, 205 Cal 320

the liquidation of irrigation districts which have no bonded indebtedness, the obligation of liquidating and distributing assets rests on the directors as trustees of creditors and of the property owners of the district, and directors are not entitled to a discharge until any balance of moneys shall be divided and refunded to the assessment payers, and the directors as trustees are subject to supervisory control of the courts, whose power is not limited merely to entering an order dissolving the district and discharging the directors.<sup>54</sup> Such courts are required to retain jurisdiction for the purpose of supervising the distribution of the assets by the district officers.<sup>55</sup>

#### d. Meetings

A failure to follow the statutory procedure for the calling of a meeting of the board of directors of a district does not necessarily render the acts done in such meeting void.

A failure to follow the statutory procedure for the calling of a meeting of the board of directors of an irrigation district has been held to be but a mere irregularity,<sup>56</sup> not rendering the acts done in such meeting void,<sup>57</sup> and which would be cured by a failure of assessment payers to bring an action within the time permitted by statute for actions on defects in the proceedings.<sup>58</sup> In the absence of statutory direction as to the time when an order calling a special meeting must be entered in the record, it has been held that the appropriate place for such entry would be in the minutes of the meeting held pursuant to the order.<sup>59</sup>

#### e. Recall or Removal

Legislation providing for the recall of irrigation district officials is a valid exercise of legislative power. The directors of an irrigation district are subject to the same laws as other public officials when removal from office is sought.

Under permissive constitutional provision, legislation providing for the recall of irrigation district officials is a valid exercise of legislative power.<sup>60</sup> A statutory provision that the signer of a recall petition shall affix the date of his signing has been held to be mandatory.<sup>61</sup> Under a statute providing that the secretary of the board shall examine and ascertain from the records of registration whether or not the signers of the petition of recall were qualified signers, it has been held that he is not required to go beyond the record to determine this.<sup>62</sup> Filing with the secretary of an irrigation district of the original and duplicate sections of a recall petition makes the petition a public document in the files of such district,<sup>63</sup> and the loss or destruction of such petition does not affect its validity,<sup>64</sup> and does not divest the secretary of the authority to make his certificate thereon to the board of directors of the irrigation district,<sup>65</sup> or divest the board of the jurisdiction to call an election.<sup>66</sup> Where the petition and certificate are sufficient, no justification can be found for the failure of the board to act thereon and proceed to call a special election.<sup>67</sup> The fact that two valid petitions may be on file at the same time does not warrant a refusal to act if either of them is sufficiently certified, since, when the election is called under one petition, any other petition for the same purpose then on file would have no further force.<sup>68</sup>

**Removal.** Directors are subject to the same laws as other public officials when removal from office is sought.<sup>69</sup> An illegal charge and collection of per diem and mileage fees has been held to be within the scope of a statute providing for the removal of a director from office for charging and collecting illegal fees for services in office,<sup>70</sup> although the moneys were illegally collected through taxing channels.<sup>71</sup> A statute authorizing the removal

Order of court restoring lost portions of petition was not necessary to give such petition validity Cal—Box v Young, supra

65. Cal—Box v. Young, supra

66. Cal—Box v Young, supra.

Petition "submitted"

When board of directors of irrigation district examines secretary's certificate and hears evidence of loss or destruction of recall petition, and concludes that a sufficient petition

was filed and properly certified, petition is "submitted" to board as required by statute Cal—Box v Young, supra

67. Cal—Morrow v Board of Directors of Imperial Irr Dist, 26 P 2d 292, 219 Cal 246

68. Cal—Morrow v Board of Directors of Imperial Irr Dist, supra.

69. Tex—J C Engleman Land Co v Donna Irr Dist No 1, Civ App, 209 SW 428, error refused 67 C J p 1315 note 68

70. Cal—Rose v. Superior Court in and for Imperial County, 252 P 765, 80 Cal App 739

71. Cal—Rose v. Superior Court in and for Imperial County, supra.

of irrigation district officials for willful violation of duty does not preclude removal for other causes under the statute providing generally for the grounds for removal of public officers<sup>72</sup> An appeal from a final judgment of the district court in a proceeding to remove a district director has been held to be governed by the statutes and rules of court relative to civil appeals<sup>73</sup>

#### f. Employees

The necessity for appointment of employees and their salaries may be determinable by the board of directors of an irrigation district.

The necessity for appointment of employees and their salaries has been held to be determinable by the board of directors<sup>74</sup> and not a question for a court or jury to decide<sup>75</sup> Under a statute providing that, in case of a vacancy in the board of directors, the vacancy shall be filled by the remaining directors, it has been held that where there are two vacancies on a board of three directors the remaining director cannot appoint another director,<sup>76</sup> and that between them they could not appoint a secretary to the board<sup>77</sup> Where an employee of a district accepts employment with notice that his salary is payable solely out of the proceeds of a bond issue, the employee is limited to such fund, and is not entitled to a general judgment against the district in an action to recover salary<sup>78</sup> The fact that any judgment against

a district in favor of an employee for his wages would be of doubtful value has been held immaterial<sup>79</sup> Neither a dissolved irrigation district nor its officers are liable for false representations of the district's secretary as to the validity of district bonds where neither the district nor the officer had any authority to make such representations as appeared of record<sup>80</sup>

### § 321. Powers and Proceedings

- a In general
- b Incurring debts
- c Contracts generally
- d Purchase and disposition of property
- e Construction of irrigation project
- f Control and disbursement of funds generally
- g Confirmation of proceedings
- h Actions by or against irrigation districts generally

#### a. In General

An irrigation district has only such powers as are given it by the legislature, either expressly or necessarily implied in order to carry out the purposes of the district. The board of directors of an irrigation district are clothed with a wide discretion as to the manner in which it shall manage the business of the district.

An irrigation district derives its powers from the statute under which it is created and acts,<sup>81</sup>

Cal—Selby v. Oakdale Irr. Dist, 35 P.2d 125, 140 Cal App 171.

Tex—Zavala-Dimmit Counties Wa-

ter Imp Dist No 1 v Hays, Civ App, 128 SW 2d 535, affirmed 153 SW 2d 463, 137 Tex 338

67 C.J. p 1316 note 80

Liability of irrigation district for torts see infra §§ 364-367

Power to

Grant option for sale of bonds see infra § 325

Levy assessments and taxes see infra § 332

Powers held granted

(1) To employ attorneys and other persons

Wyo—In re Bear River Irr Dist, 65 P.2d 686, 51 Wyo 343

(2) Other powers held granted see 67 C.J. p 1316 note 80 [b]

Statutes construed

(1) Under statute providing that officers of irrigation district should have same powers with respect to electric power as they had with respect to irrigation, and that irrigation act should be construed to apply to electric power as well as irrigation, board of directors of irrigation district was empowered to use district funds for power purposes

U.S.—Nev-Cal Electric Securities Co v Imperial Irr Dist, CCA Cal, 85 F.2d 886, certiorari denied 57

SCt 493, 300 US 662, 81 LEd 871

(2) The provision of Irrigation District Act that all provisions thereof shall apply to improvement districts, where applicable, does not give irrigation district board of directors all powers concerning improvement districts that board has concerning irrigation district

Nev—Penrose v Whitacre, 147 P 2d 887, 62 Nev 239

(3) Constitutional prohibition against contracting away taxing power was inapplicable to irrigation districts

Ariz—Maricopa County Municipal Water Conservation Dist No 1 v La Prade, 40 P.2d 94, 45 Ariz. 61

(4) Amendatory statute relating to powers and duties of irrigation district board was intended to operate prospectively, rather than retrospectively, and therefore did not impair the obligation of contract in violation of the federal Constitution

Kan—Kansas-Bostwick Irr Dist. No 2 v Larson, 245 P.2d 1213, 173 Kan. 379

Applicability of general laws

All provisions of the general law apply to water control and improve-

and from such other statutes as may have been enacted granting it additional powers or limiting those already granted,<sup>82</sup> and the districts have only such powers as are given by the legislature, either as are expressly stated or are necessarily implied in order to carry out the purposes of the dis-

trict.<sup>83</sup> The powers granted must be exercised in substantial compliance with the mode specified in the statute.<sup>84</sup> The officers of the district are charged with notice of the statutory powers and limitations thereof,<sup>85</sup> and the governing act of an irrigation district being a public statute, one deal-

ment districts when not inconsistent with specific acts of their creation. When specific provisions of the general law, if given effect, would nullify or modify specific provisions of special act concerning particularized rights and duties of water control and improvement districts created by it, the latter provisions must prevail over those of the general law. Tex.—Hidalgo County Water Control & Improvement Dist No 1 v Hidalgo County, Civ App, 134 S W 2d 464, error refused.

#### Questioning power to function

Owner of private property within public power and irrigation district was not in position to complain that district was without power to function until it obtained grant of water rights from department of roads and irrigation, where grant, if necessary, could be subsequently acquired. Neb.—State ex rel Loseke v Fricke, 254 NW 409, 126 Neb 736.

#### Conservancy district

Under the Conservancy Act a conservancy district which acquired after due appraisal and compensation a community ditch, had the right to supply from such ditch, to water user who had paid all assessments due from him to the district, water for use upon his immediately adjoining land.

NM—Middle Rio Grande Conservancy Dist v Chavez, 101 P 2d 190, 44 NM 240.

#### Artesian conservancy district

(1) Waters of artesian basin underlying artesian conservancy district, whether tapped on lands within or without territorial boundaries of district, are subject to conservation by the district and, within statutory limits, to the supervision of governing board of district.

NM—Pecos Val Artesian Conservancy Dist v Peters, 173 P 2d 490, 50 NM 165.

(2) The statutes, making it one of the prime objects of artesian conservancy districts to "conserve" the waters of artesian basins which supplies waters to users of district, uses quoted word in the sense of saving or preserving from loss.

NM—Pecos Val Artesian Conservancy Dist v Peters, supra.

(3) Such districts have no authority, however, under statute summarily to abate waste where well is situated outside territorial boundaries of district.

NM—Pecos Val Artesian Conservancy Dist v Peters, supra.

#### Statute held valid

Statute authorizing irrigation districts and others to contract for federal loans was held not unconstitutional.

Ariz.—Maricopa County Municipal Water Conservation Dist No 1 v La Prade, 40 P 2d 94, 45 Ariz 61.

82. Cal.—Crawford v Imperial Irr Dist, 253 P 726, 200 Cal 318, 67 CJ p 1316 note 81.

83. Cal.—Allen v Hussey, 225 P 2d 674, 101 Cal App 2d 457.

Idaho—Jensen v Boise-Kuna Irr Dist, 269 P 2d 755, 75 Idaho 133—Board of Directors of Wilder Irr Dist v Jorgensen, 136 P 2d 461, 64 Idaho 538—Lewiston Orchards Irr Dist v Gilmore, 23 P 2d 720, 53 Idaho 377.

Kan.—Mizer v Kansas Bostwick Irr Dist No 2, 239 P 2d 370, 172 Kan 157, appeal dismissed 72 S Ct 1053, 343 US 954, 96 L Ed 1355.

Mont.—State ex rel Blenkner v Stillwater County, 66 P 2d 788, 104 Mont 387.

Neb.—Loup County v Rumbaugh, 38 NW 2d 745, 151 Neb 563.

Or.—Payette-Oregon Slope Irr Dist v Coughanour, 91 P 2d 526, 162 Or 458.

Tex.—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, Civ App, 128 SW 2d 535, affirmed 153 SW 2d 463, 137 Tex 338—Grand Lodge of Order of Sons of Hermann in Texas v Curry, Civ App, 108 SW 2d 574, error refused.

Wyo.—Corpus Juris cited in In re Bear River Irr Dist, 65 P 2d 686, 687, 51 Wyo 343.

67 CJ p 1316 note 82.

#### Incidental to direct power

(1) An irrigation district having only limited power, its giving of water storage capacity or water to individual must be at least incidental to its direct powers in order to be valid.

Wyo.—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479, followed in Brewer v Greybull Valley Irr Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479.

(2) In construing irrigation district's powers incidental to its direct power to dispose of surplus water, court must consider state's general public policy.

Wyo.—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479,

followed in Brewer v Greybull Valley Irr Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479.

#### Compliance with special election

Where irrigation district advanced money from its operation and maintenance general fund as part of an agreement whereby Federal Bureau of Reclamation constructed canal for improvement district of the irrigation district, under the Irrigation District Act, the money for completing the canal and repaying the money advanced by the irrigation district could not lawfully be raised without the holding of a special election.

Nev.—Penrose v. Whitacre, 132 P 2d 609, 61 Nev 440, opinion adhered to 147 P 2d 887, 62 Nev 239.

#### Directors of electrical district

The board of directors of electrical district supplying power to users primarily for purpose of pumping water for irrigation, being a creature of statute, can exercise no powers not expressly conferred on it or necessarily implied.

Ariz.—Brown v Electrical Dist No 2, Pinal County, 223 P 1068, 26 Ariz 181.

#### Water conservancy district

(1) It is within discretion of legislature to grant water conservancy district any powers not expressly inhibited by constitution to further its public purpose, including power of taxation.

Utah—Patterick v Carbon Water Conservancy Dist, 145 P 2d 503, 106 Utah 55.

(2) Water Conservancy Act authorizing voluntary application for special benefits, and providing for hearing on notice to persons interested, hearing of objections to assessments, and for appeal to district court from board's findings, sufficiently provides for all safeguards of a party's rights, and if board acts in manner which would be unconstitutional, aggrieved person may resort to court to have his rights protected.

Utah—Patterick v Carbon Water Conservancy Dist, supra.

84. Cal.—Selby v Oakdale Irr Dist, 35 P 2d 125, 140 Cal App 171. Or.—Payette-Oregon Slope Irr Dist v Coughanour, 91 P 2d 526, 162 Or 458.

85. U.S.—Northport Irr Dist v Henry Wilcox & Son, CCA Neb, 131 F 2d 113.

ing with the corporation is charged with notice of the extent of its power and limitations and restrictions on the exercise thereof,<sup>86</sup> and also the mode in which it may be exercised,<sup>87</sup> and any act done in excess of the express or implied provisions of the statutes is ultra vires<sup>88</sup>

From the foregoing, it is clear that the statutes of the particular jurisdiction must be examined in determining the powers, duties, and methods of procedure of the officers of an irrigation district with respect to the government of the district,<sup>89</sup> the records of orders and resolutions of the officers,<sup>90</sup> estimating the cost of the project,<sup>91</sup> the issuance of bonds, as discussed infra §§ 322-331, making changes in the plan of the proposed proj-

ect,<sup>92</sup> employing agents,<sup>93</sup> draining of flooded lands,<sup>94</sup> interference with water rights of private individuals,<sup>95</sup> and the presentation and allowance of claims.<sup>96</sup> A constitutional provision forbidding ownership of corporate stock by a municipality or other subdivision of state does not apply to an irrigation district.<sup>97</sup>

*Interference with discretion of officers* The board of directors of an irrigation district being clothed with a wide discretion as to the manner in which it shall manage the business of the district, the courts are not warranted in interfering on any mere question of good business policy; nothing short of a gross abuse of its powers will warrant interference.<sup>98</sup>

Cal—Selby v Oakdale Irr Dist, 35 P 2d 125, 140 Cal App 171

88. Idaho—Board of Directors of Wilder Irr Dist v Jorgensen, 136 P 2d 461, 64 Idaho 538—Yaden v Gem Irr Dist, 216 P 250, 37 Idaho 300

**Sale and distribution of natural gas**  
Tex—Houston Natural Gas Corp v Nueces County Water Improvement Dist No 1, Civ App, 157 SW 2d 170

#### **Estoppel**

Officers of an irrigation district have no power to contract for the delivery or supplying of water, owned by the district and needed for use within the district, for use outside the district and any attempt by officers of the district to create such an obligation cannot be made the basis of estoppel against the district

Idaho—Jensen v Boise-Kuna Irr Dist, 269 P 2d 755, 75 Idaho 133

89. Wash—Barker v. Sunnyside Valley Irr Dist, 221 P 2d 827, 37 Wash 2d 115

67 C.J. p 1316 note 87

#### **Rules and regulations**

(1) Irrigation district has the right to make reasonable rules and regulations for the guidance of its officers, agents, and employees in the operation and maintenance of the irrigation and distribution system

Neb—Vonburg v. Farmers Irr Dist, 270 NW. 835, 132 Neb 12.

Wash—Barker v Sunnyside Valley Irr Dist, 221 P 2d 827, 37 Wash 2d 115

(2) Such rules and regulations must conform to existing court decrees

Wash—Barker v Sunnyside Valley Irr Dist, supra

(3) Such rules must not be made capriciously, must not be discriminatory in their operation and effect, and must be free from coercive aspects

Wash—Barker v Sunnyside Valley Irr Dist, supra

#### **Municipal powers**

Any municipal powers of an irrigation district are incidental and conferred for its government and regulation

Idaho—Tingwall v King Hill Irr Dist, 155 P 2d 605, 66 Idaho 76—Tingwall & Duffy v King Hill Irr Dist, 129 P 2d 898, 64 Idaho 207—Lewiston Orchards Irr Dist v Gilmore, 23 P 2d 720, 53 Idaho 377

96. Cal—Powers Farms v Consolidated Irr Dist, 119 P 2d 717.  
67 C.J. p 1317 note 95

#### **Filing mandatory**

(1) The compliance with statute requiring the filing of a claim within specified period as prerequisite to maintenance of an action against irrigation district for damages is mandatory, and hence such requirement may not be waived

Cal—Powers Farms v Consolidated Irr Dist, supra

(2) The courts may allow no exceptions to plain provisions of a statute requiring the filing of a claim as prerequisite to maintenance of an action against a public body, under guise of interpretation or construction

Cal—Powers Farms v Consolidated Irr Dist, 119 P 2d 717, 19 Cal 2d 123

(3) Statute providing that any claim against irrigation district must be presented to district court for allowance or rejection is mandatory, and board cannot waive substantial compliance therewith

Wash—Hamilton v Kiona-Benton Irr Dist, 276 P 2d 533, 45 Wash 2d 544

97. Ariz—Maricopa County Municipal Water Conservation Dist No 1 v La Prade, 40 P 2d 94, 45 Ariz 61.

98. Tex—King v Harris County Flood Control Dist, Civ App, 210 SW 2d 438, refused no reversible error

67 C.J. p 1317 note 96

#### **Purchase of land**

The discretion of board of directors of water control and improvement district in purchasing such lands for district as might be necessary or appropriate to its proper operation could not be questioned in the absence of fraud or palpable abuse

Tex—Willacy County Water Control and Improvement Dist No 1 v Nelson, Civ App, 108 SW 2d 271.

**Consolidation of districts.** Under some statutes irrigation districts are authorized to consolidate.<sup>99</sup> Where consolidation takes place with one irrigation district taking over the property of another there is an implied promise to pay the obligations of the absorbed district,<sup>1</sup> and an equitable trust is created making the promisor liable for such obligations.<sup>2</sup>

### b. Incurring Debts

The power of an irrigation district to incur indebtedness or to issue tax warrants is restricted to that granted to the district by statute.

An irrigation district has no power to incur any debt or liability in excess of statutory provisions with respect thereto,<sup>3</sup> or for any purpose not authorized by statute,<sup>4</sup> and, subject to certain exceptions,<sup>5</sup> an irrigation district may not incur any indebtedness except on compliance with prescribed statutory provisions.<sup>6</sup> Where, however, a water improvement district has lawfully incurred

an obligation and accepted the resulting benefits, it should be held as rigidly to its obligations as would an individual or private corporation,<sup>7</sup> notwithstanding it is a public or quasi-public corporation.<sup>8</sup> Under some statutes, the power of an irrigation district to incur obligations is ultimately left in the hands of those whose property is affected.<sup>9</sup>

Statutes relating to the incurring of indebtedness by irrigation districts must not violate the provisions of the constitution;<sup>10</sup> but a constitutional provision prohibiting the creation of debts in excess of taxes for the current year has been held not applicable to irrigation districts, as their exactions are essentially assessments for local benefits, and not levied for general governmental purposes, as are the taxes contemplated in the constitutional provision,<sup>11</sup> and an irrigation district has been held not within the classification of "other mu-

99. Cal—Jordan v Williams Irr Dist, 57 P 2d 566, 13 Cal App 2d 465

1. Cal—Jordan v. Williams Irr Dist, *supra*.

**Failure to apportion former indebtedness** to particular lands comprising consolidated irrigation district would not relieve consolidated district of liability for claim against district, since requirement of apportionment was merely to provide means of satisfying debt

Cal—Jordan v Williams Irr Dist, *supra*

2. Cal—Jordan v. Williams Irr Dist, *supra*

3. U.S.—Northport Irr Dist v Henry Wilcox & Son, CCA Neb., 131 F 2d 113

Nev—Penrose v Whitacre, 147 P 2d 887, 62 Nev 239

67 C J p 1317 note 98

Liability for debts on dissolution see *infra* § 338

### Restriction to revenue

(1) The power of irrigation district to incur debt or liability is not unlimited, but restricted to revenue sufficient to meet obligations voluntarily assumed by landowners within district, as voiced by their votes at elections held for such purpose

Nev—Penrose v Whitacre, *supra*

(2) Irrigation district had no power to incur an indebtedness with respect to airport on irrigation district's land that could not be paid out of revenue derived from the airport

Cal—Allen v. Hussey, 225 P 2d 674, 101 Cal App 2d 457.

### Indebtedness to United States

(1) Statute authorizing irrigation district to incur indebtedness to United States for improving irrigation system and requiring assessments to pay debt does not contemplate creation of specific lien against any land within district except by statutory assessment

Idaho—Van Hollebeke v Wheeler, 41 P 2d 603, 55 Idaho 268

(2) Irrigation district's indebtedness to United States for improving irrigation system under contract authorized by statute constitutes general obligation of district, and, until full payment thereof, all land in district remains subject to assessment

Idaho—Van Hollebeke v Wheeler, *supra*

4. Wyo—Corpus Juris cited in In re Bear River Irr Dist, 65 P 2d 686, 687, 51 Wyo. 343

67 C J p 1317 note 99

### Lawfully incurred indebtedness

Statute authorizing irrigation commissioners to borrow money "for the payment of any indebtedness they may have lawfully incurred" authorized borrowing only for cost of construction of irrigation work and other lawful and proper indebtedness incurred by the district

Wyo—In re Bear River Irr Dist, 65 P 2d 686, 51 Wyo 343.

5. Cal—Ser-Vis v Victor Valley Irr Dist, 214 P 223, 190 Cal 732

67 C J p 1317 note 1

6. Ariz—Ramirez v. Electrical Dist No 4, Pinal County, 294 P 614, 37 Ariz 360

7. Tex—Cameron County Water Improvement Dist No. 8 v. West-

ern Metal Mfg Co of Texas, Civ App, 125 S W 2d 650, error dismissed, judgment correct.

### Note for obligation

After it became apparent that payments could not be made at time of consummation of purchases of merchandise by water improvement district, directors of district could evidence obligation by executing a note under order of board, but directors could not bind district to pay ten per cent attorneys' fees provided for in note

Tex—Western Metal Mfg Co of Texas v Cameron County Water Imp Dist. No 8, Civ App, 105 S. W 2d 700, error dismissed.

8. Tex—Cameron County Water Improvement Dist No 8 v. Western Metal Mfg Co of Texas, Civ. App, 125 S W 2d 650, error dismissed, judgment correct

District as a public or quasi-public corporation generally see *supra* § 318.

9. Ariz—Taylor v Roosevelt Irr Dist, 232 P 2d 107, 72 Ariz 160—Day v. Buckeye Water Conservation & Drainage Dist., 237 P. 636, 28 Ariz 466.

10. Cal—In re Bonds of South San Joaquin Irr Dist, 119 P. 198, 161 Cal 345

67 C J p 1317 note 3.

11. Wyo—Sullivan v. Blakesley, 246 P 918, 35 Wyo. 73

Irrigation assessments as not within purview of constitutional regulations of general taxes see *infra* § 333

Nature of tax as special assessment see *infra* § 333

municipal corporations" in a constitutional provision limiting indebtedness<sup>12</sup>

Under some constitutional provisions relating to water improvement districts, the indebtedness which a legislature can authorize, but which requires the approval of the voters of a district, is any indebtedness, including maintenance costs, which is to be paid out of taxes rather than out of revenue<sup>13</sup> Where a note issued by such a district on the authorization of the district's board of directors, but without an election, creates an indebtedness of the district, the note is void and should be canceled.<sup>14</sup> The true test of whether an obligation is a debt is whether it imposes a burden on revenues of the district for future years<sup>15</sup> Judicial interpretations of what constitutes an indebtedness as defined by cases dealing with cities may control in cases dealing with improvement districts at least where the constitutional provision limiting the power of a water improvement district to incur indebtedness is similar to the constitutional limitations imposed on the power of cities to contract indebtedness<sup>16</sup>

*Issuance of warrants against a general fund levy.* The power of an irrigation district to issue warrants against the general fund levy may be limited by statute to the general fund levy for

the current year, and the fact that general fund warrants had not in a former year been issued against a percentage of the levy of that year affords no justification for the issuance of warrants against such levy in a subsequent year.<sup>17</sup> The issuance of such warrants is not a mere irregularity in the exercise of an existing power, but is wholly unauthorized and any warrants bearing on their face notice that they were chargeable against the general fund levy of a former year are unauthorized and void<sup>18</sup> Where, however, unauthorized and, therefore, void general fund warrants are used to pay just obligations legally incurred by a district, the district becomes obligated to a purchaser of the warrants as for money had and received for the amount paid therefor with interest thereon from the date of payment<sup>19</sup>

*Liens* Under a constitutional provision authorizing the creation of a reclamation district and providing that the legislature shall authorize the indebtedness necessary to provide improvements and maintenance thereof and that such indebtedness shall be a lien on the property assessed, charges and assessments which the district lays on landowners and lands within it take no lien, since indebtedness against the district, and not to it, has a lien thereunder<sup>20</sup>

12 Idaho—Jensen v Boise-Kuna Irr Dist., 269 P2d 755, 75 Idaho 133

67 C.J. p 1317 note 5

#### Lending or pledging credit

Contracts whereby irrigation district agreed to furnish seepage and waste waters to owners of land outside of irrigation district and to augment flow by pumping wells, drilling additional wells and construction of ditches if necessary, in consideration of landowners' drainage activities and assumption of liability for future damages within district caused by overflow of waters of a lake, were not lending or pledging of the credit or faith of the district within constitutional prohibition, directed towards municipalities and subdivisions of state Idaho—Jensen v Boise-Kuna Irr Dist., supra

13. Tex—Austin Mill & Grain Co v Brown County Water Improvement Dist No 1, Civ App., 128 SW2d 829, affirmed Brown County Water Improvement Dist No 1 v Austin Mill & Grain Co., 138 SW2d 523, 135 Tex 140

#### Debt not created

Contract whereby water improvement district employed financial adviser to secure approval of loan to district from Public Works Adminis-

tration and Reconstruction Finance Corporation, although not authorized by vote of qualified taxpayers of district was not ultra vires and did not create "debt" within constitution requiring election, where contract was for personal services to be performed within year, district had on hand sufficient funds available with which to pay for services, and parties contemplated that current revenues of district would be sufficient to make such payment

Tex—Hidalgo County Water Imp Dist No 2 v Feick, Civ App., 111 SW2d 742, error dismissed

14. 15. Tex—Cameron County Water Improvement Dist No 8 v Western Metal Mfg Co of Texas, Civ App., 125 SW2d 650, error dismissed, judgment correct

#### Payment from current revenues

In action to recover for merchan-

dise sold water improvement district, evidence that portion of canal system in district was partially but inadequately constructed at time of purchase, that merchandise consisted of temporary installments, that sales were made on thirty days time with provision for interest after ninety days from date of invoice, and that note subsequently given by district in payment was payable in six months from its date, established that obligation was intended to be paid out of current revenues for year of contract, and therefore was not within inhibition of constitutional provision

### c. Contracts Generally

Contracts which go beyond the power vested by statute in the officers exercising the functions of an irrigation district are void.

Since the powers of an irrigation district are limited to those conferred by statute, contracts

which go beyond the scope of the power vested in the officers exercising the functions of the district are void<sup>21</sup> The statutes in each jurisdiction must be examined in determining the power of an irrigation district to execute contracts generally,<sup>22</sup> contracts with the United States,<sup>23</sup> contracts to ob-

CCA Tex., 103 F2d 509, certiorari denied American Rio Grande Land & Irrigation Co v Hidalgo & Cameron County Water Control & Improvement Dist No 9, 60 SCt 88, 308 US 573, 84 LEd 481

Irrigation assessment as a lien on the lands within the district see *infra* § 336

21. Cal—Bottoms v Madera Irr Dist, 242 P 100, 74 Cal App 681  
Contracts for supply of water to consumers in general see *infra* § 361

#### Lease of airport

(1) Alleged benefit to irrigation district from airport on land of district did not furnish consideration for lease of airport by district to individual for \$1 a year, especially where airport was to be operated for private profit of individual Previous services of individual in assisting in procurement of government funds for construction of airport on land of irrigation district were not a legal consideration for lease Also, assumption by individual of responsibility for operation of airport was not consideration for lease  
Cal—Allen v Hussey, 225 P2d 674, 101 Cal App 2d 457

(2) Where United States government agencies expended about one million five hundred thousand dollars for development of airport on land of irrigation district, and district expended about twenty-five thousand dollars, lease by district of airport for thirty-four or sixty-nine years to individual who was to pay rental of one dollar a year and receive profits from operation of airport was a breach of trust, and airport could be recovered at suit of district or of property owner therein, though board acted in good faith and on legal advice  
Cal—Allen v Hussey, *supra*

(3) Where lease by irrigation district of airport to individual was void because in violation of district's agreement with and guaranty to Works Progress Administration, subsequent redrafting of lease at request of Civil Aeronautics Authority could not validate transaction  
Cal—Allen v Hussey, *supra*

22. Tex—Cameron County Water Improvement Dist No 1 v Parkhurst, Civ App, 46 SW2d 472  
67 CJ p 1318 note 9

#### Liberal construction

The power of water control and improvement district board to build

irrigating system clothed board with reasonable discretion with reference to making advantageous contracts for performance of its duty and grant should be liberally construed to accomplish purpose of the grant of power

Tex—Baugham v Willacy County Water Control & Improvement Dist No 1, Civ App, 112 SW2d 318, error refused

#### Vested water rights

Conservancy district had no authority to barter away vested water rights of landowners, who had applied them to beneficial use

NM—Middle Rio Grande Water Users Ass'n v Middle Rio Grande Conservancy Dist, 258 P2d 391, 57 NM 287

#### Contracts held valid

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, CCA Cal, 85 F2d 886, certiorari denied 57 SCt 493, 300 US 662, 81 LEd 871

Tex—Baugham v Willacy County Water Control & Improvement Dist No 1, Civ App, 112 SW2d 318, error refused

#### Contract held severable

Alleged invalidity of part of contract of irrigation district which called for construction work in state, on ground of failure to contain minimum wage and hour provisions required by state statute, did not affect rest of contract, where part of work to be done in state was easily separable from rest of project

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, CCA Cal, 85 F2d 886, certiorari denied 57 SCt 493, 300 US 662, 81 LEd 871

23. US—U S v Humboldt Lovelock Irr Light & Power Co, CCA Nev, 97 F2d 38, certiorari denied Humboldt Lovelock Irr Light & Power Co v U S, 59 SCt 94, 305 US 630, 83 LEd 404

Idaho—Board of Directors of Wilder Irr Dist v Jorgensen, 136 P2d 461, 64 Idaho 538

Kan—Mizer v Kansas Bostwick Irr Dist No 2, 239 P2d 370, 172 Kan 157, appeal dismissed 72 SCt 1053, 343 US 954, 96 LEd 1355

NM—Middle Rio Grande Water Users Ass'n v Middle Rio Grande Conservancy Dist, 258 P2d 391, 57 NM 287

Wyo—In re Greybull Valley Irr Dist, 76 P2d 339, 52 Wyo. 479,

followed in Brewer v Greybull Valley Irr Dist, 76 P2d 351, 52 Wyo 513, rehearing denied 77 P2d 617, 52 Wyo 479  
67 CJ p 1318 note 10

#### Conditions precedent

The United States, as condition of furnishing financial aid, was at liberty to impose on irrigation district such terms as it deemed necessary and proper as conditions precedent to undertaking construction of airport on land of irrigation district  
Cal—Allen v Hussey, 225 P2d 674, 101 Cal App 2d 457

#### Power to contract

In proceedings for confirmation of contract between irrigation district and United States, record established that irrigation district had been legally organized and that it was qualified to enter into contract with United States

ND—In re Fort Clark Irr Dist of Mercer and Oliver Counties, 48 NW2d 741, 78 ND 107

#### Amended contract

Where the supreme court held that certain provision in reclamation contract between the United States and conservancy district was invalid, and thereafter the district filed in the supreme court an amendatory contract eliminating the invalid provision, and no objection to the amendatory contract was made by the opposing party, amendatory contract would be ratified, approved, and confirmed by the supreme court

NM—Middle Rio Grande Water Users Ass'n v Middle Rio Grande Conservancy Dist, 258 P2d 391, 57 NM 287

#### Contract defective

Commissioners of irrigation district had no authority to pay amounts due federal government for proposed irrigation works without obtaining for the district the property for which they made such payments out of district's assessments over a period of years, and contract between district and Bureau of Reclamation, which made no provision for transferring title to proposed irrigation works from United States to the district after payment therefor by district, was defective

Wyo—In re Owl Creek Irr Dist, 253 P2d 867, 71 Wyo 30, rehearing denied 258 P2d 220, 71 Wyo. 30

#### Inequitable contract

Where contract between Bureau of Reclamation and irrigation dis-

tain rights of way<sup>24</sup> and lands otherwise necessary for its purposes,<sup>25</sup> contracts to pay for services rendered,<sup>26</sup> contracts settling claims or disputes,<sup>27</sup> contracts to furnish water to owners of land outside the irrigation district,<sup>28</sup> contracts in which a director or officer of the district has an interest,<sup>29</sup> and contracts placing management of the system in the hands of others than officers of the district<sup>30</sup>

While an irrigation district has the power to make and enforce reasonable rules and regulations as to the operation and maintenance of the project as discussed supra subdivision a of this section, such rules and regulations must conform to existing contracts.<sup>31</sup> A contract executed by a water improvement district in consideration of the other contracting parties' agreement to commit bonds of the promisor, so that it can obtain a loan,

is supported by a valuable consideration<sup>32</sup>

*Municipal corporation with respect to contracts.* An irrigation district has been held to be a municipal corporation when it is considered in relation to its contracts made in the manner prescribed by law<sup>33</sup>

#### d. Purchase and Disposition of Property

Generally, an irrigation district, through its proper officers, may acquire, by purchase or condemnation, all property necessary for its system of works and the district may also acquire property through delinquencies. The officers of the district are without power to dispose of property of the district other than as provided by law

As a general rule, under the statutes relating to irrigation districts, an irrigation district, through its proper officers, may acquire, by purchase or condemnation, all property necessary for its system of works<sup>34</sup>. Thus, an irrigation district may

tract, and decree approving such contract, entered in proceeding to enlarge boundaries of irrigation district, obligated objecting landowners to liquidate an indebtedness which they had no part in incurring and which was designed only to furnish supplemental water to a comparatively small part of the proposed district, result was inequitable, unfair, and in serious disregard of landowners' rights

Wyo.—In re Owl Creek Irr Dist, 258 P 2d 220, 71 Wyo 70

#### Right to interpret contract

Provision in contract between Bureau of Reclamation and irrigation district, whereby secretary of interior reserved right to make rules, regulations, and directives providing for operating and accounting procedures and practices in district, and for maintenance of reserve funds and depreciation funds, and to add to and modify such rules, regulations and directives as may be deemed proper to carry out true intent and meaning of law and of the contract, undertook to surrender to secretary of interior right to construe and interpret the contract, a function vested only in the courts, and swept away the advantage of having a definite written contract indicating just what each party could rightly exact from the other

Wyo.—In re Owl Creek Irr Dist, supra.

24. Wyo.—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479, followed in *Brewer v Greybull Valley Irr Dist*, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479

25. Wyo.—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479, followed in *Brewer v Greybull Valley Irr Dist*, 76 P 2d 351, 52 Wyo

513, rehearing denied 77 P 2d 617, 52 Wyo 479

26. Cal.—*Bottoms v Madera Irr Dist*, 242 P 100, 74 Cal App 681 67 C J p 1318 note 11

27. Or.—*Barker v Sonner*, 294 P 1053, 135 Or 75 67 C J p 1318 note 12

28. Idaho.—*Jensen v Boise-Kuna Irr Dist*, 269 P 2d 755, 75 Idaho 133

#### Ultra vires contract

A contract attempting to create or impose an obligation on an irrigation district to supply or make available water owned by district and needed for irrigation of lands within the district for use outside the district is ultra vires and void

Idaho.—*Jensen v Boise-Kuna Irr Dist*, supra

#### Seepage and waste waters

Subject matter of contracts whereby irrigation district agreed to furnish seepage and waste waters to owners of lands outside of irrigation district was not ultra vires

Idaho.—*Jensen v Boise-Kuna Irr Dist*, supra

29. Wash.—*Beasley v Assets Conservation Co*, 230 P 411, 131 Wash 439

67 C J p 1318 note 13.

30. Idaho.—*Board of Directors of Wilder Irr Dist v Jorgensen*, 136 P 2d 461, 64 Idaho 538 67 C J p 1318 note 14.

#### Board of control

A contract between an irrigation district and the United States for the construction and operation of works necessary to provide increased water was not ultra vires on ground that it delegated the management of system out of the hands of the district to a board of control, where statute authorized directors

to enter into contract for water supply and to do any and every lawful act necessary to obtain sufficient water, and the board of control was chosen from the directors of districts which organized the contracting district

Idaho.—*Board of Directors of Wilder Irr Dist v Jorgensen*, supra

31. Wash.—*Barker v Sunnyside Valley Irr Dist*, 221 P 2d 827, 37 Wash 2d 115

32. Tex.—*Cameron County Water Imp Dist No 1 v Cameron County Water Imp Dist No 15*, Civ App, 134 S W 2d 491

33. Wash.—*State v Columbia Irr Dist of Stevens County*, 208 P 27, 121 Wash 79

Nature of irrigation district generally see supra § 318

34. Cal.—*Stratford Irr Dist v Empire Water Co*, 111 P 2d 957, 44 Cal App 2d 61

ND.—In re *Heart River Irr Dist*, 49 NW 2d 217, 78 ND 302 67 C J p 1319 note 17.

#### Purchase of canal

Conservation and reclamation district was authorized to purchase canal used to carry water for irrigation and other useful purposes which was constructed by the United States government near river, but which was outside the district

Tex.—*San Jacinto River Conservation and Reclamation Dist v Sellers*, 184 S W 2d 920, 143 Tex 328

#### Repudiation

Water control and improvement district could not keep land and repudiate its purchase-money obligation

Tex.—*Willacy County Water Control and Improvement Dist No 1 v Nelson*, Civ App, 108 S W 2d 271

If only objection to making of purchases for and incurring obliga-

acquire a pumping plant<sup>35</sup> or an existing irrigation system,<sup>36</sup> but it takes such a water system subject to the rights of consumers whether the rights exist by virtue of a contract or by a dedication of the system for use in connection with certain lands<sup>37</sup>. The right of water contract holders to contest assessments purporting to be waived, released, or extinguished by a contract with an irrigation district has been held not included with the classes of property which a district may purchase.<sup>38</sup> So, too, it has been held that an irrigation district has power to contract for the purchase of water.<sup>39</sup> A statute permitting an irrigation district to acquire the stock of water companies has been held to apply to irrigation districts organized prior to the passage of the statute<sup>40</sup>.

*Property acquired through delinquencies* Under permissive statutes, irrigation districts may purchase property which has been deeded for delinquent taxes to the state,<sup>41</sup> and property within the

district may be transferred to the directors of the district where it is subject to delinquent assessments.<sup>42</sup> Property transferred to the district for delinquent assessments is held by the directors of the district in trust for the district and its bondholders,<sup>43</sup> and if such directors use the land for their own profit, they must account to the beneficiaries for the profits.<sup>44</sup> In dealing with a situation not contemplated by the statute governing irrigation districts, and not covered by any clear provision thereof, wherein wholesale delinquencies result in the district's acquiring large tracts of land it cannot resell, a court need not find any express direction in the statute setting forth the exact procedure, but it will construe the general provisions of the statute in the light of equitable principles.<sup>45</sup>

*Disposition of property* While statutes in some jurisdictions expressly authorize irrigation districts to dispose of property,<sup>46</sup> the board of directors

tions on water improvement district was failure of board of directors to first make requisite budget and assessment, such irregularities were cured by subsequent act of district in receiving and using materials.

Tex.—Cameron County Water Improvement Dist No 8 v Western Metal Mfg Co of Texas, Civ App, 125 SW2d 650, error dismissed, judgment correct.

35. Or.—Board of Directors of the Payette-Oregon Slope Irr Dist v Peterson, 128 P 837, 129 P 123, 64 Or 46.

67 C J p 1319 note 18.

67 C J p 1319 note 19.

37. Cal.—Stratford Irr Dist v Empire Water Co, supra.

38. Cal.—Danley v Merced Irr Dist, 226 P 847, 853, 854, 66 Cal App 97, 113.

39. Ariz.—Day v Buckeye Water Conservation & Drainage Dist, 237 P 636, 28 Ariz 466.

67 C J p 1320 note 21.

40. Cal.—Lindsay-Strathmore Irr Dist v Wutchumna Water Co, 296 P 933, 111 Cal App 638.

41. Cal.—South San Joaquin Irr Dist v Neumiller, 42 P2d 64, 2 Cal 2d 485.

42. Cal.—McKaig v Moutrey, 90 P. 2d 108, 32 Cal App 2d 537.

#### **Sale of land**

Where record showed that sale of land in irrigation district for delinquent assessments was noticed for Aug. 11, 1932, and that on Aug. 12, 1932, collector of district sold all of property to district, it would

be presumed, in absence of testimony to contrary that property was offered for sale on August 11, that sale was adjourned until August 12, and that there being no purchaser in good faith collector sold land to district.

Cal.—McKaig v. Moutrey, supra.

#### **Reclamation districts**

(1) Where former owner of land, sold to reclamation district for delinquent interest installments on reclamation district bonds, in accordance with terms of interlocutory decree, quieting title to land in reclamation district subject to right of former owner to redeem land or any portion thereof by payment within specified time of all delinquent assessments and taxes thereon, and within the time specified as extended by subsequent orders of court, exercised right to redeem a particular tract, and there were at the time in the hands of receiver sufficient funds belonging to former owner to effect such redemption, court had no authority to enter final judgment quieting title in reclamation district to all the land, including tract redeemed by former owner.

Cal.—Gibson v River Farms Co of California, 121 P2d 504, 49 Cal App 2d 278.

(2) In action by county treasurer and trustees of reclamation district to quiet title to defendant's land, which county treasurer had sold to himself as trustee for delinquent interest installments, court did not err in application of proceeds of crops on the land to the redemption of particular tracts rather than applying the proceeds to the land as a whole or to the particular tract whereon the crops were produced.

Cal.—Gibson v. River Farms Co of California, 83 P2d 966, 28 Cal App 2d 757.

43. Cal.—McKaig v Moutrey, 90 P 2d 108, 32 Cal App 2d 537.

Title to property generally see *infra* this subdivision.

#### **Reclamation district**

Cal.—Sutter Basin Corp v Brown, 253 P2d 649, 40 Cal 2d 235, certiorari denied Brown v Sutter Basin Corp, 74 S Ct 71, 346 US 855, 98 L Ed 369.

River Farms Co v Gibson, 42 P 2d 95, 4 Cal App 2d 731.

44. Cal.—McKaig v Moutrey, 90 P 2d 108, 32 Cal App 2d 537.

#### **Lease**

Land acquired by irrigation district because of delinquencies in assessments is trust property and proceeds of lease thereof have the same character.

Cal.—Provident Land Corp v Zumwalt, 85 P2d 116, 12 Cal 2d 365, followed in Provident Land Corp v Provident Irr Dist, 85 P2d 122, 12 Cal 2d 791 and Provident Land Corp v Benoit, 85 P2d 122, 12 Cal 2d 790.

45. Cal.—Provident Land Corp v Zumwalt, 85 P2d 116, 12 Cal 2d 365, followed in Provident Land Corp v Provident Irr Dist, 85 P. 2d 122, 12 Cal 2d 791, and Provident Land Corp v Benoit, 85 P2d 122, 12 Cal 2d 790.

46. Cal.—West Coast Life Ins Co v Glenn-Colusa Irr Dist, 122 P. 2d 595, 50 Cal App 2d 204.

67 C J. p 1320 note 25.

#### **Absolute title**

Where there was no showing of any confidential relationship between purchasers of farm at sheriff's sale

of a district is without power to dispose of the property other than as provided by law.<sup>47</sup> An irrigation district cannot convey to another any greater use or title to land than the district possesses.<sup>48</sup> Thus, where a deed of land to an irrigation district for canal and waterway provided that the land should revert if not needed or used or if the canal should be abandoned, the deed conveyed only an easement for irrigation purposes, so that use of the canal for purposes other than irrigation by the grantee of the district, and the abandonment of the use for irrigation by the district, result in a reversion.<sup>49</sup> Moreover, even if the district under such circumstances through use adverse to the grant acquired a prescriptive right in such lands, it cannot by a conveyance create a greater burden than the servient estate was then under.<sup>50</sup> Where the title to the property remains in the landholders, neither the district nor its trustees have any power to transfer, sell, or dispose of the interests, or any part thereof, of the landholders within and under its jurisdiction.<sup>51</sup>

**Title to property** Under statutes in some jurisdictions, the title to all property acquired by an irrigation district, by operation of law, vests immediate-

ly in the district and is held in trust for, dedicated to, and set apart to, the uses and purposes provided by law.<sup>52</sup> An irrigation district owns no lands in a proprietary sense, its property is owned by the state and is held only for governmental purposes,<sup>53</sup> and all assets of an irrigation district are held by the district for the benefit of the district's creditors and of the owners of land in the district.<sup>54</sup> The fact that a water improvement district acquired property as a result of ultra vires operations does not render void its title to such property,<sup>55</sup> nor does the use of such property in an unauthorized manner divest the district of its ownership thereof.<sup>56</sup>

#### e. Construction of Irrigation Project

An irrigation district generally has power to construct, or contract for the construction of, ditches, canals, reservoirs, etc. The liability of a contractor or surety on his bond depends on the terms of the contract, bond, and statutes relative thereto.

Under the statutes creating and regulating irrigation districts, an irrigation district generally has power to construct,<sup>57</sup> or contract for the construction of,<sup>58</sup> ditches, canals, reservoirs, etc., and may contract for, or purchase, surveys and engineering plans.<sup>59</sup> Contractors dealing with irrigation dis-

on execution of judgment, and grantees of that farm from irrigation district, and no showing of fraud in transfer from irrigation district, grantees of irrigation district acquired absolute title by conveyance from district.

Cal—Holcomb v Nunes, 283 P 2d 301, 132 Cal App 2d 776

#### Cash or installment

The right to "sell" would be construed to include not only a sale for cash, but also a sale in which payment of the purchase price was made in installments.

Cal—West Coast Life Ins Co v Glenn-Colusa Irr Dist, 122 P 2d 595, 50 Cal App 2d 204

47. Cal—Allen v Hussey, 225 P 2d 674, 101 Cal App 2d 457—Bottoms v Madera Irr Dist, 242 P 100, 74 Cal App 681

57. Idaho—City of Nampa v Nampa & Meridian Irr Dist, 131 P 8, 23 Idaho 422

67 C J p 1321 note 30

#### Authorization of voters

(1) Assessments collected by an irrigation district cannot be expended for construction work without previous authorization by voters of district.

Cal—Allen v Hussey, 225 P 2d 674, 101 Cal App 2d 457

(2) Other decisions with respect to authorization of voters see 67 C J p 1321 note 30 a

58. US—Cove Irr Dist v American Surety Co of New York, CC A.Mont, 42 F 2d 957, certiorari denied 51 S Ct 103, 282 U.S. 891, 75 L Ed 785

67 C J p 1321 note 31

Power not exceeded

Board of directors of irrigation

district did not exceed power in determining upon project to protect reservoir dike by draining certain lakes

Colo—Rothwell v. Coffin, 220 P 2d 1063, 122 Colo 140

#### Liability

The facts that irrigation company, in light of events after execution of contract obligating it to pay drainage district stated sum in installments for placing pipe under company's main canal and draining company's land, did not receive all benefits which it hoped would flow from such contract and that some of benefits received therefrom might have come as result of district's construction work, did not relieve company from liability under contract.

Neb—Drainage Dist No 2 of Dawson County v Dawson County Irr. Co, 2 NW 2d 321, 140 Neb 866

59. Neb—Willow Springs Irr Dist v Wilson, 104 NW. 165, 74 Neb. 269

67 C J p 1321 note 32

#### Approval of state engineer

(1) Under statute which literally provided for the payment of fees to the state engineer for services on irrigation projects for which approval was requested or to be requested of the state certification board "of" involving examination, supervision, and inspection by the engineer, fees were to be paid when the board ap-

tricts are charged at their peril with knowledge of the authority of the officers of the district,<sup>60</sup> and the contracts for construction work must be let in the manner provided<sup>61</sup>

**Modification** Under statutes in some jurisdictions, a contract for the construction of irrigation works adopted by the voters in a district can be materially modified only in the manner provided by law,<sup>62</sup> and a clause in a contract approved by the voters that the contract may be modified has been held to contemplate only such slight changes as might be found necessary to the accomplishment of the result intended and not to abrogate the statutory provisions<sup>63</sup> Where a contract for the construction of irrigation works as modified is void because not approved by the electors as required, the acceptance by the district officers of the work performed under the contract has been held to be of no force<sup>64</sup>

proved a project "or" when the state engineer was compelled to supervise it without approval

Ariz—State ex rel Sullivan v Burns, 77 P 2d 215, 51 Ariz 384

(2) The lining of the canal of an irrigation district with cement with funds furnished by the Federal Public Works Administration was a "project" within meaning of statute requiring irrigation district to pay state engineer for services rendered on irrigation district "projects" for which approval of the state certification board is requested or to be requested

Ariz—State ex rel Sullivan v Burns, supra

(3) Whenever the approval of the state certification board is required for any project involving the construction or improvement of the works of an irrigation district, whether directly or indirectly, or when the law requires the services of the state engineer in the investigation and supervision of any irrigation project, it is mandatory that the district pay the fee fixed by the statute for services performed by the engineer

Ariz—State ex rel Sullivan v Burns, supra

#### Bridging and maintaining canals

The burden of building bridges over the canals of a water control and improvement district at intersections with county roads is on the district only where such canals were dug across roads already laid out and opened to public use so as to constitute the canal an obstruction of the existing road

Tex—Hidalgo County Water Control & Improvement Dist No 1 v Hidalgo County, Civ App, 134 S W 2d 464, error refused.

#### Mechanic's lien

In the absence of statute, a mechanic's lien does not attach to the property of an irrigation district

Calo—Fisher v Pioneer Constr Co, 163 P 851, 62 Colo 538

Idaho—Storey v Nampa, etc, Irr

Dist, 187 P 946, 32 Idaho 713

Or—Twohy Bros v Ochoco Irr

Dist, 210 P 873, 108 Or 1

60. Or—Twohy Bros Co v Ochoco Irr Dist, supra.

61. Cal—Andrews v Board of Directors & Treasurer of Modesto Irr Dist, 248 P 2d 971, 113 Cal App 2d 780

67 C J p 1321 note 34

#### Competitive bids

(1) Under statute requiring that bids be called for before contracts for construction of any works should be made by irrigation districts, legislature intended to limit requirement to works as defined in the Water Code, and such statute must be read as applying only to construction of works to be paid for by proceeds from sale of bonds or of a limited assessment The multitudinous purchases which irrigation districts must make from time to time in ordinary transaction of their business are excluded from the statute.

Cal—Andrews v Board of Directors & Treasurer of Modesto Irr Dist, supra.

(2) Performance of contract of irrigation district would not be enjoined on ground that it violated statute requiring competitive bidding, where work was to be paid for by bonds or special assessment, where statute afforded plaintiff ample opportunity to resist attempt by directors to raise money by special

**Deposit of contractor.** A contract bidder, who had access to the plans and specifications of an irrigation project, has been held not entitled to recover his deposit from the district on the ground of mistake as to the manner in which the work might be done,<sup>65</sup> or on the ground that the bid was amended, where the record showed the second bid was a separate bid<sup>66</sup>

**Contractors' bonds** The liability of a contractor or a surety on his bond depends, in the absence of an agreement after default, on the terms of the contract, bond, and statutes relative thereto<sup>67</sup> Although a statute exists allowing recovery by a third party on a contract made expressly for his benefit, it has been held that a subcontractor cannot recover against a surety on a bond running to an irrigation district and conditioned on payment of amounts contracted for labor and materials, as such a contract is made for the benefit of the irrigation

assessment or bonds to pay for work, and bill disclosed no actual attempt or imminent threat thereof

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, CCA Cal, 85 F 2d 886, certiorari denied 57 S Ct 493, 300 US 662, 81 L Ed 871

(3) Where contract of irrigation district not awarded on competitive bidding did not recite from what fund payment was to be made, there was no warrant for assuming that statute requiring competitive bidding for work to be paid for by bond issue or special assessment would be violated, since it must be presumed that board of directors would observe the law

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, supra.

(4) Other decisions with respect to competitive bids see 67 C J p 1321 note 34 [a]

62. Colo—Antero & Lost Park Reservoir Co v Lowe, 194 P 945, 69 Colo 409—Colorado Irr Const Co v Nile Irr Dist, 194 P 609, 69 Colo. 366

district,<sup>68</sup> but where the bond to a district is a statutory bond,<sup>69</sup> the claim of all persons contemplated by the statute is secured under the bond after giving preference to the district.<sup>70</sup> A surety, in determining his liability to an irrigation district after a contractor's default, may deduct the interest from the proceeds of the sale of bonds, where such proceeds were payable to the contractor.<sup>71</sup> A surety has been held liable for interest from the date of completion of services rendered by a subcontractor under a fixed price contract,<sup>72</sup> but with respect to a quantum meruit claim, the surety is not liable for interest before a judgment is rendered determining such claim.<sup>73</sup>

*Contracts or agreements after default* An agreement between an irrigation district and the contractor, incorporated after the contractor's default in the surety's agreement with other contractors, has been held to govern the rights of the parties as to payment for completion of the work.<sup>74</sup> A contract releasing the surety from all claims, etc., provided, however, that if it was finally determined that the surety is liable under his bond to subcontractors, laborers, or materialmen, then the release should only operate as between the surety and the irrigation district, has been held to except from the release the claims of such persons.<sup>75</sup>

#### f. Control and Disbursement of Funds Generally

The control and disbursement of the funds of an irrigation or water storage district are generally regulated by statute.

The control and disbursement of the funds of an irrigation or water storage district are generally regulated by statute.<sup>76</sup> It is within the discretion of the directors of an irrigation district to use some portion of the money derived from land acquired by the district for delinquencies, for running expenses,<sup>77</sup> and their discretion will be upheld when such use is necessary.<sup>78</sup> Where a statute requires the deposit of funds of an irrigation district with the county treasurer and regulates the method of disbursement, the district has no power to place the funds in trust for the benefit of third persons,<sup>79</sup> or to disburse them in any manner other than that prescribed.<sup>80</sup> Under such a statute a debtor and creditor relationship is created by the deposit of irrigation district funds with the county treasurer.<sup>81</sup>

The directors or officers of an irrigation district may revoke or rescind a warrant on the custodian of the district funds directing payment of a claim against the district,<sup>82</sup> and where the district officers have stopped payment on warrants after their issuance, the custodian of the funds is justified in refusing payment,<sup>83</sup> and cannot thereafter be compelled by mandamus to pay such warrants.<sup>84</sup> Under a statute authorizing the employment of attorneys, etc., it has been held that the officers of a district have no authority to pay attorneys from district funds for services in defending their right to office in quo warranto proceedings, such statute being applicable only to the protection of rights of the district.<sup>85</sup>

86. *Idaho—Hurlebaus v American Falls Reservoir Dist*, 286 P. 598, 49 Idaho 153.

or held by a state treasurer<sup>87</sup> have been held to be protected by his official bond, and hence an irrigation district has been held precluded from expending money for an additional bond

*Transfer of funds.* Under a statute providing that any surplus in the construction fund after the completion of any project may be transferred to another fund for the redemption of bonds, a direction to transfer money from the construction fund before the completion of a project has been held not effective to change the status of the fund with respect to warrants issued against it.<sup>88</sup>

#### g. Confirmation of Proceedings

Confirmation proceedings are special proceedings in rem wherein jurisdiction is given courts to render judgment on issues involved in a particular case presented.

Confirmation proceedings are special proceedings in rem,<sup>89</sup> wherein, on proper legal notice, jurisdiction is given courts to render a valid judgment on the issues appropriately involved in the particular case presented.<sup>90</sup> A statute, authorizing the bringing of special statutory proceedings to determine the validity of any prior proceeding of an irrigation district, has been held to authorize the directors of an irrigation district to bring such a proceeding to determine the validity of steps taken to authorize the district to contract with the United States.<sup>91</sup> Written, verified objections to a petition for confirmation of irrigation district commissioners' resolution to take over federal irrigation works and assess lands for payments may be considered as answers,<sup>92</sup> but objections not denying any averments of the petition to confirm irrigation district commissioners' resolution to take over federal irrigation works and assess lands for payments admit all material averments.<sup>93</sup>

Whether an irrigation district can assess non-irrigable lands, not affected by federal water right contracts, cannot be considered in a proceeding to confirm a resolution to take over federal irrigation works and assess irrigable lands for payments,<sup>94</sup> and objectors to the confirmation of irrigation district commissioners' resolution to take over federal irrigation works and assess irrigable lands for payments cannot complain of failure to determine in a statutory manner what lands are irrigable, there being still time to do so before attempting to levy and collect the tax.<sup>95</sup> However, a decree confirming irrigation district commissioners' resolution to take over federal irrigation works should exempt lands affected by paid-up federal water right contracts from assessment for payment of cost.<sup>96</sup>

*Conclusiveness of decree.* Where a petition has been presented to the court for confirmation of any proceedings of an irrigation district and a decree is entered and no appeal is taken, it is final and conclusive as to proceedings prior thereto,<sup>97</sup> unless assailed by a direct attack,<sup>98</sup> or unless it appears from the record that the proceedings taken and confirmed were taken in such manner that the court was without jurisdiction.<sup>99</sup>

#### h. Actions by or against Irrigation Districts Generally

Generally, an irrigation district may sue and be sued, and in such actions general rules apply with respect to the pleadings, parties, evidence, trial, etc.

In some jurisdictions, under the express provisions of the statutes, an irrigation district may sue and be sued,<sup>1</sup> and in such actions defendant may assert any defense which he may have,<sup>2</sup> but a de-

Actions relating to bonds see infra § 331

Liability in tort of an irrigation dis-

trict generally see infra §§ 364, 365

#### Statute construed

The term "and/or" within statute providing that whenever it is claimed that person or property has been injured or damaged as result of any dangerous or defective condition of property under control of irrigation district or its officers or employees and/or the negligence or carelessness of any officer or employee, a verified claim for damages shall be presented, refers to a claim for damage grounded upon any one of causes enumerated in statute, the term "and/or" being commonly defined to mean either "and" or "or"

Cal—Powers Farms v Consolidated Irr Dist, supra

2. U S—Cameron County Water Imp. Dist No 8 v De La Vergne Engine Co, CCA Tex, 93 F 2d 373  
67 C J. p 1324 note 75.

fense that the contracts of an irrigation district are ultra vires must be specially pleaded.<sup>3</sup> While it has been held that a taxpayer or landowner within an irrigation district may not, in the absence of fraud,<sup>4</sup> bring an action for the district against the will, discretion, and judgment of the officers of the district,<sup>5</sup> it has also been held that landowners in an irrigation district have a sufficient proprietary interest to entitle them to sue to restrain the dissipation of the district's property,<sup>6</sup> and to recover an amount unlawfully expended where the district officers have refused to compel its restitution,<sup>7</sup> and that injunction will lie in favor of a landowner to restrain the officers from entering into an ultra vires agreement.<sup>8</sup> The performance of a contract entered into by an irrigation district will not be enjoined, however, where adequate relief is afforded the petitioner by statute,<sup>9</sup> or where the work has been

substantially if not entirely completed by the district so that an injunction would be a futile proceeding.<sup>10</sup>

A water improvement district is entitled to a decree directing the cancellation of a note which was issued by the district for the purchase of machinery where such note is unenforceable because it was issued contrary to constitutional and statutory provisions requiring voters' approval of the note,<sup>11</sup> but the seller of the machinery in such case is entitled to the possession of the machinery and he is also entitled to recover the reasonable rental value thereof for the period within the statute of limitations.<sup>12</sup>

The rules applicable in civil actions generally apply in actions by or against an irrigation district with respect to the pleadings,<sup>13</sup> as well as with

#### Want of power or illegality

Where water improvement district had issued note for purchase price of machinery contrary to constitutional and statutory provisions requiring taxpayers' approval, or sale or exchange of bonds, seller's complete performance of contract did not prevent district, in suit upon note, from setting up defense of want of power to enter into contract or illegality of its terms, and seller could not recover on note from improvement district upon basis of a quantum meruit.

US—Cameron County Water Imp Dist No 8 v De La Vergne Engine Co, supra.

#### Laches

Rights of claimants, who rendered services to irrigation district between nineteen and thirty years prior to commencement of the action, and who made no previous efforts to collect for the services rendered, will not be enforced without considering the effect such enforcement will have in promoting justice, and where decrees quieting tax deed titles to more than half the land in the irrigation district had been entered, plaintiffs could not enforce their claims against the land in the irrigation district.

Colo—In re Bent County, Colo Irr Dist, 272 P 2d 995.

#### Defense not available

Where lease of airport by irrigation district to individual for rental of \$1 a year was void ab initio, passage of time did not validate the lease, and hence statute of limitation was not available as defense to action to cancel lease.

Cal—Allen v Hussey, 225 P 2d 674, 101 Cal App 2d 457.

3. Idaho—Jensen v Boise-Kuna Irr Dist, 269 P 2d 755, 75 Idaho 133.

4. Colo—Antero & Lost Park Reservoir Co v Lowe, 194 P 945, 69 Colo 409.

5. Colo—Antero & Lost Park Reservoir Co v Lowe, supra, 67 C J p 1324 note 77.

6. Ariz—Post v Wright, 289 P 979, 37 Ariz 105.

7. Or—Young v Gard, 277 P 1005, 129 Or 534.

8. Cal—Danley v. Merced Irr Dist, 226 P 847, 854, 66 Cal App 97.

9. US—Nev-Cal Electric Securities Co v Imperial Irr Dist, CCA Cal, 85 F 2d 886, certiorari denied 57 S Ct 493, 300 US 662, 81 L Ed 871.

10. US—Nev-Cal Electric Securities Co v Imperial Irr Dist, supra.

#### Minimum wage scale

Performance of contract for construction and election of Diesel engine for irrigation district would not be enjoined on ground that failure to contain minimum wage scale and maximum hour provision violated state statute, where foundation work and other construction had already been substantially completed.

US—Nev-Cal Electric Securities Co v Imperial Irr Dist, supra.

11. US—Cameron County Water Imp Dist No 8 v De La Vergne Engine Co, CCA Tex, 93 F 2d 373.

#### Express or implied contract

Where issuance of note by water improvement district for purchase price of machinery had not been authorized by an election, as required by Constitution, seller could not recover purchase price upon express contract, since contract had been entered into in violation of positive rule of law, and no recovery there-

of can be had on an implied contract, since parties should not be allowed to do indirectly what they are prohibited from doing directly.

#### Exchange or sale of bonds

Where bonds voted by water improvement district were neither exchanged for machinery purchased by district nor sold and proceeds used in purchasing machinery, voting of bonds including an item for "engine pumps, etc.," did not entitle seller to recover on note issued by district for purchase money, in absence of any election authorizing issuance of note.

US—Cameron County Water Imp Dist No 8 v De La Vergne Engine Co, supra.

12. US—Cameron County Water Imp Dist No 8 v De La Vergne Engine Co, supra.

13. Colo—Zimmerman v Hinderlider, 97 P 2d 443, 105 Colo 340, 67 C J p 1325 note 81.

#### Complaint or petition held insufficient

(1) Petition in proceeding by bondholders' committee to compel officers of irrigation district to obtain deeds to lands in district allegedly sold for failure to pay assessments, which failed to state facts relative to assessment, sale, and other proceedings pertaining to property involved, but merely alleged general compliance with Irrigation District Act, was insufficient.

Cal—Noble v Provident Irr Dist, 51 P 2d 896, 10 Cal App 2d 284.

(2) Under statute providing that any "claim" against irrigation district must be presented to district board for allowance or rejection, "claim" includes a claim against dis-

respect to the parties to the actions,<sup>14</sup> and evidence.<sup>15</sup> Also such rules apply with respect to trial,<sup>16</sup> instructions,<sup>17</sup> verdict,<sup>18</sup> judgment,<sup>19</sup> and

tract on asserted tort liability and, in absence of such allegation, complaint was insufficient and it could not be presumed that any evidence with respect to such fact was admitted at trial

Wash—Hamilton v Kiona-Benton Irr Dist, 276 P 2d 583, 45 Wash 2d 544

#### Cause of action stated

(1) In action by owner of storage reservoir for alleged unlawful acts of defendant officials in connection with reservoir and water rights decreed thereto, allegation that officials refused to deliver water to plaintiff's reservoir when water was available to her under her decree after all prior appropriations were supplied stated a cause of action

Colo—Zimmerman v Hinderlider, 97 P 2d 443, 105 Colo 340

(2) In action by owner of storage reservoir for alleged unlawful acts of defendant officials in connection with her reservoir and water rights decreed thereto, allegation that defendant officials opened headgates of plaintiff's reservoir and emptied reservoir of water lawfully accumulated therein stated cause of action

Colo—Zimmerman v. Hinderlider, supra.

(3) Petition of reclamation district alleging that directors of district, and officers of defendant counties, were uncertain as to their rights, powers, and duties under Reclamation Act, and that defendants and others who owned property within district claimed that act was unconstitutional, and that district was not legally organized, and that county officers would not collect taxes levied or perform other duties required of them by act until their rights had been judicially determined, stated a cause of action under Declaratory Judgments Act and also under Reclamation Act

Neb—Nebraska Mid-State Reclamation Dist v Hall County, 41 NW 2d 397, 152 Neb 410

#### Cause of action not stated

(1) Complaint which alleged that Directors and Treasurer of Irrigation District had purchased and paid for three large electrical transformers without advertising for bids, but failed to allege that the equipment purchased came within definition of word "works" as defined in the statute requiring advertisement for bids, failed to state a cause of action

Cal—Andrews v Board of Directors & Treasurer of Modesto Irr Dist 248 P 2d 971, 113 Cal App 2d 780

(2) A cause of action for failure of defendant officials to compile for plaintiff the exchange and storage records kept by defendants, and for failure of defendants to permit plaintiff to have access to such records, failed to state a cause of action, where it was not charged that defendants refused to permit plaintiff access to any records, the keeping of which was required by law, and it was not alleged that any legal duty rested upon defendants to furnish plaintiff with compilations requested

Colo—Zimmerman v Hinderlider, 97 P 2d 443, 105 Colo 340

#### Proof

(1) Under statute providing that any claim against irrigation district must be presented to district court for allowance or rejection, claim must be presented to board before action thereon is commenced against district, and fact of filing of such claim must be alleged and proved

Wash—Hamilton v Kiona-Benton Irr Dist, 276 P 2d 583, 45 Wash 2d 544

(2) In action to recover for merchandise sold to water improvement district, pleadings, disclosing that merchandise was sold for purpose of operating irrigation system and to defray ordinary maintenance and operation expenses, and that merchandise consisted of temporary installments "in a vain attempt" to make certain of lands within district irrigable, entitled seller to introduce proof that obligation incurred by district was for maintenance of irrigation system installed in district and not for installment or extension of system

Tex—Western Metal Mfg Co of Texas v Cameron County Water Imp Dist No 8, Civ App, 105 S W 2d 700, error dismissed

14. Neb—Nebraska Mid-State Reclamation Dist v Hall County, 41 NW 2d 397, 152 Neb 410

#### Service on property owners

In action by reclamation district in which many thousands of residents and property owners were located, for an adjudication that the Reclamation Act was constitutional, and for judicial confirmation of organization of district, and acts of district, and for determination of rights, status, and duties of district, it was not necessary for district to make all property owners defendants and serve them personally with process

Neb—Nebraska Mid-State Reclamation Dist. v Hall County, supra

15. Tex—Brady v. Hidalgo County Water Control & Improvement

Dist No 12, Com App, 91 S W 2d 1058, 127 Tex 123  
67 C J p 1325 note 82

#### Weight and sufficiency

(1) In employee's action to recover salary from water control and improvement district evidence was held sufficient to support finding that district, acting through its board of directors, lawfully incurred obligations, entitling employee to recovery.

Tex—Brady v. Hidalgo County Water Control & Improvement Dist No 12, Com App, 91 S W 2d 1058, 127 Tex 123

(2) Evidence that defendant water improvement district refused, or threatened to refuse, to sign a commitment of bonds of plaintiff district which defendants controlled unless plaintiff district executed a contract, and that directors of plaintiff district under fear of losing an R F C loan, signed contract, was insufficient to show "duress" so as to justify setting aside the contract  
Tex—Cameron County Water Imp Dist No 1 v Cameron County Water Imp Dist No 15, Civ App, 134 S W 2d 491

(3) Other evidence see 67 C J p 1325 note 82 [b]

16. Idaho—Eldridge v Black Canyon Irr Dist, 43 P 2d 1052, 55 Idaho 443

#### Questions for jury

Whether irrigation district superintendent who struck farm employee during altercation over waste water being emptied into irrigation ditch was acting within scope of employment so as to render district liable for injuries, and whether he acted in self-defense

Idaho—Eldridge v. Black Canyon Irr Dist, supra

17. Tex—Peyton Creek Irr Dist v White, Civ App, 230 S W 1060  
67 C J p 1325 note 83

67 C J p 1325 note 84.

19. Tex—Peyton Creek Irr. Dist v White, supra.  
67 C J p 1325 note 85

#### Decree not judgment for money

Decree of district court listing plaintiffs as creditors of irrigation district and approving a proposed bond issue to be issued by the district, which decree was not recorded until approximately 18 years later, did not amount to a judgment for payment of money in favor of plaintiffs who had rendered services to the irrigation district prior to entry of the decree

Colo—In re Bent County, Colo Irr Dist, 272 P 2d 995.

with respect to subsequent review by an appellate tribunal<sup>20</sup>

### § 322. Bonds and Other Obligations

Particular questions relating to bonds and other obligations of irrigation districts are discussed *infra* §§ 323-331

Examine Pocket Parts for later cases

### § 323. — Preliminary Proceedings

Preliminary proceedings necessary to an election, and issuance of bonds by an irrigation district depend on applicable statutory provisions.

The proceedings that must be taken preliminary to an election and issuance of bonds by an irrigation district depend on the statutory provisions relative thereto<sup>21</sup> Under the various statutory provisions in the different jurisdictions, it has been held that the officers of an irrigation district as a

preliminary to the issuance of bonds, or an election thereon, must formulate a general plan for the proposed construction,<sup>22</sup> make an estimate of the amount of money which will be required, based on some definite plan for the construction of works or for the acquisition and distribution of a water supply,<sup>23</sup> declare the necessity of funds therefor,<sup>24</sup> and file a map and list of tracts of land in the district<sup>25</sup> Suits to validate the securities issued by a water improvement district are in the nature of proceedings *in rem*, and the judgments entered therein are binding on all property within the district and on all persons owning property therein<sup>26</sup>

*Election* While the legislature, having plenary power over irrigation districts, may permit them to issue bonds without any election,<sup>27</sup> the statutes generally provide for an election and the details connected therewith<sup>28</sup> Thus, in calling an election

20 ND—In re Heart River Irr Dist, 47 NW 2d 126, 77 ND 827

#### **Trial de novo**

The statute authorizing appeal to district court from any order, act, or decision of board of irrigation district and providing that appeal shall be heard *de novo* is mandatory that the cause be tried *de novo* in the district court, and district court should not determine questions submitted for its decision on record made before the board, but on the evidence actually produced at its own hearing

ND—In re Heart River Irr Dist, *supra*

27. Cal—El Dorado Irr Dist v Browne, 13 P 2d 921, 216 Cal 269

#### **Current revenues**

(1) Under Texas law, if a water control improvement district issues an obligation to be paid out of current revenues or out of revenues not

derived from special taxes on the property in the district, the proposal to create indebtedness is not required to be submitted to the voters for approval

US—Texas Agr Ass'n of Edinburg v Hidalgo County Water Control & Improvement Dist No 1, CCA Tex, 125 F 2d 829, certiorari denied 63 S Ct 35, 317 US 643, 87 L Ed 518, rehearing denied 63 S Ct 199, 317 US 709, 87 L Ed 565

(2) Under statute creating conservation and reclamation district, directors of district could issue bonds of district secured only by current revenues thereof for any of purposes named in statute, without approval thereof by voters of district

Tex—San Jacinto River Conservation and Reclamation Dist v Sellers, 184 SW 2d 920, 143 Tex 328

#### **Statute not applicable**

The statute authorizing irrigation district board to contract with United States for construction, operation and maintenance of irrigation work necessary under Federal Reclamation Act after submitting contract to district electors for approval does not apply to contract for purchase of district's bonds and grant of money to district by federal government

Wyo—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479, followed in Brewer v Greybull Valley Irr. Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479

28. US—Northport Irr Dist v Henry Wilcox & Son, CCA Neb, 131 F 2d 113

#### **Indebtedness**

(1) Under constitutional provision relating to water improvement districts, the word "indebtedness" as

used in provisions empowering legislature to authorize such indebtedness, but requiring approval of voters of a district, has no technical or special meaning attributable to the word "debts" as used in constitutional provision pertaining to cities and towns, but has a broad significance as covering all enforceable obligations which may be incurred regardless of the conditions of their payment or time in which they may be payable and all debts or obligations created for improvements or maintenance

Tex—Brown County Water Improvement Dist No 1 v Austin Mill & Grain Co, 138 SW 2d 523, 135 Tex 140

(2) Where water improvement district voted bonds for construction of dam but did not vote on tax to pay current and maintenance expenses of district, such maintenance tax which under Constitution was a lien on property assessed for payment thereof was void under constitutional provision requiring authorization by qualified property taxpayers voters of district for the incurring of any "indebtedness" against a reclamation district

Tex—Brown County Water Improvement Dist No. 1 v Austin Mill & Grain Co, *supra*.

(3) One of the dominant purposes of the constitutional provision prohibiting Legislature from authorizing issuance of any bonds or providing for any indebtedness against any reclamation district, except with the approving vote of the qualified property tax paying voters of such district was to prevent the burdening of property with tax liens, except with the approval of the taxpayers themselves, formally ex-

the directors or officers must specify in a general way the purpose for which the bonds are to be sold,<sup>29</sup> and the question of the proposed bond issue must be submitted to the electors at a special elec-

tion, held on such notice as the statute requires,<sup>30</sup> and conducted in the manner prescribed by law<sup>31</sup> The officers of the district must then canvass the result of the election,<sup>32</sup> and if the required major-

pressed in an election for that purpose

Tex—Brown County Water Improvement Dist No 1 v Austin Mill & Grain Co, supra.

#### Interim bonds

(1) Interim bonds of water improvement district create no additional indebtedness against the district so as to require a vote of the taxpayers under the Constitution, but are incidental to construction bonds so that authorization of construction bonds by voters is also authorization of interim bonds to extent provided by statute

Tex—State ex rel Abney v. Miller, 128 SW2d 1134, 122 Tex. 498

(2) Interim bonds issued by water control and improvement district pursuant to statute without proposition upon which bonds were to be issued having been first submitted to voters of the district as required by the constitution are void

Tex—Miller v State ex rel Abney, Civ App, 155 SW2d 1012, error refused

(3) That voters of water control and improvement district approved indebtedness to be evidenced by five million five hundred thousand dollars construction bonds and issuance of five hundred fifty thousand dollars interim bonds under then existing law did not authorize issuance of one million one hundred fifty thousand dollars interim bonds under statute subsequently enacted

Tex—Miller v State ex rel Abney, supra.

#### Maintenance tax

Where water improvement district voted bonds for construction of dam but did not vote on maintenance tax, such maintenance tax and the statutes on which it was based were void under constitutional provision requiring authorization by voters of all indebtedness which was to be paid out of taxes

Tex—Austin Mill & Grain Co v Brown County Water Improvement Dist. No 1, Civ App, 128 SW2d 829, affirmed Brown County Water Improvement Dist. No 1 v Austin Mill & Grain Co, 138 SW2d 523, 135 Tex 140

29. Or—Board of Directors of Medford Irr Dist v Hill, 190 P 957, 96 Or 649

67 C.J. p 1326 note 93

30. Cal—Modesto Irr. Dist v Tregae, 26 P 237, 88 Cal 334, error dismissed 17 SCt 52, 164 US 179, 41 L Ed 395

67 C.J. p 1326 note 94.

#### Propositions voted on

(1) The constitutional provision that legislature shall not authorize issuance of any bonds or provide for any indebtedness against any reclamation district unless first submitted to and adopted by taxpaying voters of such district, not only inhibits any provision for indebtedness against any such district, but also prevents authorization for issuance of any bonds unless the proposition upon which the bonds are to be issued is first adopted by the voters

Tex—Miller v State ex rel Abney, Civ App, 155 SW2d 1012, error refused

(2) The act requiring provision for levy of ad valorem taxes sufficient to pay water control and improvement district bonds before issuance of such bonds, and authorizing such districts to levy and collect special assessments against lands benefited by improvements, may be considered as part of proposition voted on at district election to authorize issuance of bonds

Tex—Moore v Maverick County Water Control and Improvement Dist No 1, Civ App, 162 SW2d 1009, error refused, certiorari denied 63 SCt. 993, 318 US 790, 87 L Ed 1156

(3) A deed of trust executed by Texas Water Power Control District to secure indebtedness was not invalid on ground that election held did not authorize the trust deed where proposition submitted to voters was comprised in one question which included execution of the mortgage, and majority voted in favor of issuance of bonds "in conformity with the question submitted"

US—Borron v El Paso Nat Bank of El Paso, CCA Tex, 133 F2d 698

#### Surrender of bonds

Where holders of bonds of Texas water control improvement district, who refused to accept plan for refinancing obligations of district through Reconstruction Finance Corporation which involved scaling down of district's obligations, entered into agreement to surrender bonds for cash together with note of district, and, with knowledge of bondholders, district obtained money to make the cash payment from Reconstruction Finance Corporation and gave original bonds as collateral for loan, the note was invalid on ground that it created an "indebtedness" against

district without vote of the people as required by Texas constitution

US—Texas Agr Ass'n of Edinburg v Hidalgo County Water Control & Improvement Dist No 1, CCA Tex, 125 F2d 829, certiorari denied 63 SCt 35, 317 US 643, 87 L Ed 518, rehearing denied 63 SCt 199, 317 US 709, 87 L Ed 565

#### Bonds payable out of taxes

(1) The constitution authorizing creation of conservation districts requires an election by voters to authorize bonds payable out of taxes, but not if the bonds are payable solely out of property revenues

US—Borron v El Paso Nat Bank of El Paso, CCA Tex, 133 F2d 698

(2) If an obligation is issued by a Texas water and improvement district to be paid out of taxes to be levied in the future, the proposition requires approval of voters in conformity with Texas constitution

US—Texas Agr Ass'n of Edinburg v Hidalgo County Water Control & Improvement Dist, No 1, CCA Tex, 125 F2d 829, reversing 36 F Supp 314, certiorari denied 63 SCt 35, 317 US 643, 87 L Ed 518, rehearing denied 63 SCt 199, 317 US 709, 87 L Ed 565

Tex—Austin Mill & Grain Co v Brown County Water Improvement Dist, Civ App, 128 SW2d 829

#### Liquidation of bonds

A water control improvement district, organized under Texas law for purpose of aiding farmers in the district by supplying water and other improvements, has right to issue bonds and levy taxes on the property in the district for purpose of paying interest and creating sinking fund for ultimate liquidation of bonds, provided the proposition is submitted to and approved by taxpayers of district in an election held for that purpose

US—Texas Agr Ass'n of Edinburg v Hidalgo County Water Control & Improvement Dist No 1, CCA Tex, 125 F2d 829, certiorari denied 63 SCt 35, 317 US 643, 87 L Ed 518, rehearing denied 63 SCt 199, 317 US 709, 87 L Ed 565.

31. Neb—Baltes v Farmers' Irr. Dist, 83 NW. 83, 60 Neb 310

67 C.J. p 1326 note 95.

32. NM—Davy v McNeill, 240 P. 482, 31 NM 7

67 C.J. p 1326 note 96.

ity<sup>33</sup> of the qualified electors<sup>34</sup> validly vote<sup>35</sup> the issuance of the bonds, the directors or officers of the district are required to prepare and issue them as discussed in § 325.

An agricultural improvement district cannot issue refunding bonds without a vote by the electors of the district authorizing such action, although the amount of the indebtedness is not increased, where by statute such vote is required<sup>36</sup>

## § 324. — Form, Requisites, and Validity

- a. In general
- b. Validity
- c. Warrants

### a. In General

The statutes creating and regulating irrigation districts generally provide for the issuance, form, and execu-

tion of bonds. Refunding bonds need not be made payable serially because the original bonds were so payable.

Statutes creating and regulating irrigation districts generally provide for the issuance, form, and execution of bonds,<sup>37</sup> and the power to issue bonds may be necessarily implied in the power to borrow money and pledge security bonds for that purpose,<sup>38</sup> provided, always, that the general credit of the state is not pledged<sup>39</sup> The laws in force when bonds are issued become a part of the bonds, just as much as if they were incorporated in them,<sup>40</sup> but this does not limit the legislature's power to provide for a subsequent method of payment not impairing the bondholder's existing rights,<sup>41</sup> and to authorize the district and bondholder to enter into a subsequent agreement relative to the bonds.<sup>42</sup> The construction given such statutes by the courts measures the obligations of irrigation districts and of the property owners therein<sup>43</sup>

67 C.J. p 1327 note 98

35 Tex.—Roberts v Epperson, supra.  
67 C.J. p 1327 note 99

36 Ariz.—Reichenberger v Salt River Project Agr Improvement & Power Dist., 150 P.2d 758, 61 Ariz. 465.

37 U.S.—Divide Creek Irr. Dist. v Hollingsworth, C.C.A. Colo., 72 F.2d 859, 96 A.L.R. 937  
67 C.J. p 1327 note 2

### Constitutional requirement

(1) A statute creating and validating a water control and improvement district and validating a bond issue recited therein was sufficient to meet constitutional requirement with reference to issuance by district of land purchase notes sued upon, provided that it were shown that property was purchased and debt incurred under authorization of bond election referred to in statute  
Tex.—Willacy County Water Control and Improvement Dist. No. 1 v Nelson, Civ. App., 108 S.W.2d 271

(2) Water control and improvement district bonds, as well as contracts providing for use of funds derived from district's sale of water for purpose of retiring its bonded indebtedness, were held valid and binding, in absence of constitutional provision prohibiting such use of funds

Tex.—Moore v Maverick County Water Control and Improvement Dist. No. 1, Civ. App., 162 S.W.2d 1009, error refused, certiorari denied 63 S.Ct. 993, 318 U.S. 790, 87 L.Ed. 1156.

### Statute held not unconstitutional

Statute authorizing director of conservation and development to issue collateral trust bonds for purpose of borrowing money, to select security for bonds, to hypothecate and pledge security so selected, and to borrow money on such terms and rate of interest and over such period of time as he may see fit, was held not unconstitutional  
Wash.—State ex rel Banker v Yelle, 48 P.2d 573, 183 Wash. 380

38. Wash.—State ex rel Banker v Yelle, supra.

39. Wash.—State ex rel Banker v Yelle, supra.

Mont.—State ex rel Malott v Cascade County, 22 P.2d 811, 94 Mont. 394

67 C.J. p 1327 note 3

### Reclamation districts

(1) The law in force under which reclamation district bonds are issued enters into and becomes a part of the contract between the district and the bondholders

Cal.—Sutter Basin Corp. v. Brown, 253 P.2d 649, 40 Cal.2d 325, certiorari denied Brown v Sutter Basin Corp., 74 S.Ct. 71, 346 U.S. 855, 98 L.Ed. 369—Rand v Bossen, 162 P.2d 457, 27 Cal.2d 61

Reclamation Dist. No. 108 v Gibson, 147 P.2d 80, 63 Cal.App.2d 311—Copeland v Raub, 97 P.2d 859, 36 Cal.App.2d 441—Kentfield v Reclamation Board, 31 P.2d 431, 137 Cal.App. 675—Hershey v. Cole, 20 P.2d 972, 130 Cal.App. 683

N.Y.—McCormack v Houston, 191 P.2d 569, 84 Cal.App.2d 665, cer-

tiorari denied 69 S.Ct. 138, 335 U.S. 868, 93 L.Ed. 412

(2) So the rights of reclamation district bondholders are measured by the statute or other law by virtue of which the bonds are issued  
Cal.—McCormack v Houston, 191 P.2d 569, 84 Cal.App.2d 665, certiorari denied 69 S.Ct. 138, 335 U.S. 868, 93 L.Ed. 412

### Interim bonds

Where construction and interim bonds of water improvement district were approved by voters at time when statute authorized interim bonds up to ten per cent of unsold construction bonds and to mature within five years, interim bonds for a greater amount and for longer term were invalid notwithstanding they were within an amendment to the statute which became effective before the bonds were issued, such amendment being applicable only to bonds voted after its effective date  
Tex.—State ex rel Abney v Miller, 128 S.W.2d 1134, 133 Tex. 498

41. Cal.—Moody v Provident Irr. Dist., 85 P.2d 128, 12 Cal.2d 389

42. Cal.—Moody v. Provident Irr. Dist., supra

43. U.S.—Divide Creek Irr. Dist. v Hollingsworth, C.C.A. Colo., 72 F.2d 859, 96 A.L.R. 937

### Tax remission

That part of statute authorizing San Jacinto River Conservation and Reclamation District to use taxes remitted to counties within district for purpose of paying debts of district only upon approval of commissioners' courts of such counties had reference to general tax remission act by which legislature attempted to remit to all counties of state a portion of state ad valorem tax, and

The provisions of the statutes as to the form, execution, etc., of such bonds must be substantially complied with,<sup>44</sup> such as provisions relating to voters' approval,<sup>45</sup> signatures,<sup>46</sup> date of issue,<sup>47</sup> certification or registration,<sup>48</sup> time of validation,<sup>49</sup> and time of maturity.<sup>50</sup> Under some statutes the officers of an irrigation district are authorized to make binding recitals in the bonds to the effect that they have been regularly issued,<sup>51</sup> and bonds or other obligations of an irrigation district may contain a provision that the collection of principal

and interest shall be made by the county officers, and when such condition is indorsed on the obligation, it is irrevocable until such indebtedness is paid.<sup>52</sup>

*Contract for sale of bonds* Where district irrigation officers possessed interest in the district's contract for sale of bonds, such interest invalidated the entire sale of bonds under the contract, and not merely the bonds which the district officers acquired under such sale,<sup>53</sup> and this is so whether or not the

did not intend that district should secure approval of commissioners' courts of counties before funds donated directly to district by state could be pledged to secure payment of bonds issued by district.  
Tex—San Jacinto River Conservation and Reclamation Dist v Sellers, 184 S W 2d 920, 143 Tex 328

44. Cal—Stowell v. Rialto Irr Dist, 100 P 248, 155 Cal 215 67 C J p 1327 note 4.

#### Contract to purchase bonds

(1) Irrigation district commissioners' contract for purchase of district's bonds and grant of money to district by federal government was not ultra vires, in view of commissioners' statutory power to borrow money and issue bonds, contract provision that bonds should be payable from and secured by exclusive first pledge of district's assessments, which are inferior to general taxes under statute, and provisions declaring conditions precedent to such purchase and grant not being contrary to statute nor unfair as matter of law.

Wyo—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479, followed in Brewer v Greybull Valley Irr Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo. 479

(2) Provisions of contract for purchase of irrigation district's bonds and grant of money to district by federal government that district should convey certain numbers of acre-feet of storage capacity in its reservoir to named person for use on place outside district's boundaries were not illegal.

Wyo—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479 followed in Brewer v Greybull Valley Irr Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479

(3) A provision of contract for purchase of irrigation district's bonds and grant of money to district by federal government that district agreed to rotation of water including exchange of stored for stream flow, for any irrigation season requested by landowners, was

not in derogation of state law requiring permits for such rotation.  
Wyo—In re Greybull Valley Irr Dist, 76 P 2d 339, 52 Wyo 479 followed in Brewer v Greybull Valley Irr Dist, 76 P 2d 351, 52 Wyo 513, rehearing denied 77 P 2d 617, 52 Wyo 479

(4) Statute amending laws governing irrigation district bond elections and carrying emergency clause was held not repealed by general statute enacted at same session of legislature, and hence mandamus to compel state conservation and development director to accept and pay for bonds issued in conformity with former but not latter statute would be granted.

Wash—State ex rel Wenatchee Heights Reclamation Dist of Chelan County v Banker, 37 P 2d 1115, 179 Wash 343

45. U.S.—Cameron County Water Imp Dist No 8 v De La Vergne Engine Co, CCA Tex, 93 F 2d 373

#### Note

Where note issued by water improvement district for purchase of machinery was unenforceable because it was issued contrary to constitutional and statutory provisions requiring voters' approval for issuance of bonds, and machinery purchased had been tendered to seller, improvement district and indorser of note were entitled to decree directing cancellation of note and surrender of bonds of district pledged to secure indorsement.

U.S.—Cameron County Water Imp Dist No 8 v De La Vergne Engine Co, supra

46. U.S.—Wright v. East Riverside Irr Dist, Cal, 138 F 313, 70 C C A 603, certiorari denied 26 S Ct 756, 200 U.S. 619, 50 L Ed 623 67 C J p 1327 note 5

47. Idaho—Turner v Roseberry Irr Dist, 198 P 465, 33 Idaho 746 67 C J p 1327 note 6

48. Ariz—In re Verde River Irrigation and Power Dist Bonds, 296 P 804, 37 Ariz 580 67 C J p 1328 note 7.

49. Ariz—In re Verde River Irrigation and Power Dist Bonds, supra 67 C J p 1328 note 8

50. Cal—Stowell v Rialto Irr Dist, 100 P 248, 155 Cal 215 67 C J p 1328 note 9

#### Note invalid

If provision is not made for payment on note executed by water and improvement district at the time the note is given, the note is "ultra vires," and invalid.

U.S.—Texas Agr Ass'n of Edinburg v Hidalgo County Water Control & Improvement Dist No 1, CCA Tex, 125 F 2d 829

51. U.S.—Shelton v Gas Securities Co, Colo, 239 F 653, 152 CCA 487, certiorari denied 37 S Ct 652, 244 U.S. 654, 61 L Ed 1373

Recital of regularity of issue as estopping district from asserting invalidity see infra subdivision b of this section

52. Idaho—American Falls Reservoir Dist v Thrall, 228 P 236, 39 Idaho 105

53. Cal—City of Los Angeles v Watterson, 48 P 2d 87, 8 Cal App 2d 331

**Competent majority** of board of directors of irrigation district did not accept bid for purchase of district bonds, where director who cast deciding affirmative vote had interest in bid.

Cal—City of Los Angeles v Watterson, supra

#### Acquisition of bonds

Irrigation district officers who agreed with parties submitting bids that officers should have portion of bonds at price paid by bidders, and who actually acquired some of bonds, had interest in district's contract awarding sale of bonds to bidders, so that sale was void.

Cal—City of Los Angeles v Watterson, supra

#### Return of purchase money

Where sale of irrigation bonds was void because district officers were parties to agreement for submission of bid for bonds and so had an interest in district's contract accepting bid, and money paid on purchase was never received by district, but

officers derived any benefit from the sale.<sup>54</sup>

**Refunding bonds** The right or power of an irrigation district to refund outstanding bonds is unqualified, save only that it shall be exercised in the manner provided by statute.<sup>55</sup> The issuance of refunding bonds by a water control improvement district does not create a new indebtedness within the constitutional provision requiring submission to voters of question concerning the creation of an indebtedness.<sup>56</sup> Where the power is thus exercised, the result is binding on all persons, it being a proceeding in rem, provided the proceedings are followed or supplemented by a judicial order of approval and confirmation.<sup>57</sup> Extending the due date of refunding bonds issued by an irrigation district without a vote of the qualified electors of the district does not render them invalid as violative of a constitutional requirement that the indebtedness of any subdivision of the state must be retired within a lesser period.<sup>58</sup> Where refunding bonds are authorized and issued by an irrigation district, it has been held that they need not be made payable serially because the original bonds were so payable,<sup>59</sup> and refunding bonds made a charge on the entire irrigation district have been held not invalid because authorized to be sold to repay only part of the outstanding bonds of a former levee district,<sup>60</sup> or because land which was not a part of the levee

district will be liable to assessment for the payment of the refunding bonds, where such land will be benefited by the levee protection work already constructed as expressly found by the legislature.<sup>61</sup>

A provision in interest coupons, detached from an irrigation district's refunding bonds, for contingent interest in addition to fixed interest, with an express recital that the bondholder assents to all provisions of the refunding plan, constitutes an integral part of the coupon holder's contract, although he disclaims any right to contingent interest.<sup>62</sup>

#### b. Validity

The validity of bonds of an irrigation district, as far as the action of the electors is concerned, depends on the situation as it existed at that time, and such district may be estopped to question the validity of the bonds.

The validity of bonds of an irrigation district, as far as the action of the electors is concerned, depends on the situation as it existed at that time,<sup>63</sup> and where owners of land in the district at the time the bonds were issued did not question the validity of the bonds within the time provided by statute, such bond issue was regarded as valid.<sup>64</sup> While an innocent purchaser of water control and improvement district bonds holds them free of consequences of defects not apparent on the face of the record, he takes them with all their disclosed imperfections.<sup>65</sup>

was misappropriated by officers, maxim that he who seeks equity must do equity, did not require district to return money paid on purchase price as condition to recovery on bonds

Cal—City of Los Angeles v Watterson, supra

54. Cal—City of Los Angeles v Watterson, supra.

55. Wash—In re Petition of Board of Directors of Columbia Irr Dist, 48 P 2d 648, 183 Wash 425

#### Assessments contrary to contracts

That bond refunding proceedings by irrigation district contemplated levying of assessment on land contrary to outstanding contracts, which were unauthorized by law, whereby landowners might pay indebtedness on their separate and individual lands, and free themselves from bonded indebtedness, could not qualify right of district to issue refunding bonds, since such right was unqualified except as to necessary procedural steps

Wash—In re Petition of Board of Directors of Columbia Irr Dist, supra.

#### Lien

Where agricultural improvement district issued refunding bonds to replace a portion of bonds included

in first of three prior bond issues, refunding bonds were properly placed on a parity with unrefunded bonds of first bond issue by making them a first lien on district's property, and provision giving them such status, which was prior to lien of second and third bond issues, did not violate statute providing that lien for bonds of any issue should be a preferred lien to that of any subsequent issue

Ariz—Reichenberger v Salt River Project Agr Improvement & Power Dist, 150 P 2d 758, 61 Ariz 465

56. US—Texas Agr Ass'n of Edinburg v Hidalgo County Water Control & Improvement Dist No 1, CCA Tex, 125 F 2d 829, certiorari denied 63 S Ct 35, 317 US 643, 87 L Ed 518, rehearing denied 63 S Ct 199, 317 US 709, 87 L Ed 565

62. US—Getz v Nevada Irr. Dist, CCA Cal, 112 F 2d 495.

63. Ariz—In re Verde River Irrigation and Power Dist Bonds, 296 P 804, 37 Ariz 580.

#### Bonds held valid

Tex—Moore v Maverick County Water Control and Improvement Dist No 1, Civ App, 162 SW 2d 1009, error refused, certiorari denied 63 S Ct 993, 318 US 790, 87 L Ed 1156

64. Mont—Krueger v Morris, 107 P 2d 142, 110 Mont 559

#### Exemption from lien of bonds

Where owners of land in irrigation district at time bonds of district were issued did not question validity of bonds within time provided by statute, and took no proceedings to assert exemption of lands in district purchased at delinquent tax sale from lien of the bonds, bond issues would be regarded as valid

Mont—Krueger v Morris, supra.

65. US—Holderman v Hidalgo County Water Control and Improvement Dist No. 12, CCA Tex, 142 F 2d 792.

The exclusion of certain lands from the district after an election authorizing bonds has been held not to affect their validity<sup>66</sup> So, too, the agreement of district officers reducing a bond issue under a revised estimate below the amount authorized has been held not to render the remaining bonds invalid,<sup>67</sup> and the validity of bonds is not affected by the failure of the treasurer of the bond fund to make a valid sale of lands against which delinquent payments are chargeable<sup>68</sup> The fact that bonds, by reason of a provision inserted therein, are payable at a place outside of the state has been held not to render them invalid<sup>69</sup>

**Estoppel to assert invalidity** While an irrigation district has been held not estopped to question the proceeding by which its bonds were issued by recitals in the bond that such proceedings were regular, unless the officers executing the bonds had lawful authority to make the recitals and to make them conclusive,<sup>70</sup> where the officers have such authority the district is estopped to question the validity of the proceedings,<sup>71</sup> especially as against an innocent purchaser for value<sup>72</sup> Also, where the bonds issued were regular in form, duly authorized, and negotiable, the district is estopped to deny that the bonds represented valid charges against the district although the act of the district board in accepting a conditional bid for the bonds was *ultra vires* and although the purchasers of the bonds were charged with notice of the limitation of the power

of the board<sup>73</sup> An irrigation district, however, by paying interest on void bonds has been held not to estop itself to assert that the bonds are illegal<sup>74</sup>

**Validating statutes.** In some jurisdictions validating statutes have been enacted with respect to bonds of irrigation districts<sup>75</sup> Such statutes are most frequently applied where there has been an entire failure to follow the procedure specified in a statute,<sup>76</sup> or where there has been an irregular or defective compliance with such procedure,<sup>77</sup> or where proceedings have been taken in the absence of any legislative authority.<sup>78</sup> Thus, such statutes have been held to cure the invalidity of bonds because of issuance at a place not authorized,<sup>79</sup> or in the absence of a proper petition,<sup>80</sup> or because the judgment confirming the bonds was never entered in the minutes of the court,<sup>81</sup> or the meetings of the irrigation commissioners were not held within the district,<sup>82</sup> or the bonds were sold for less than is required,<sup>83</sup> and the curative effect of such validating statutes has been held not removed by the repeal of such validating statutes where the repealing statute expressly provided that it should not operate on, or in any manner impair, irrigation districts which had been organized and incurred indebtedness pursuant to the previous statutes<sup>84</sup>

The comprehensive language of validating statutes, however, does not cure a fraud perpetrated in the sale of bonds,<sup>85</sup> so that such statutes although

#### Approval of voters

The principle of scaling of bonds applies to bonds whose only defect is that in issuing them debt limits have been exceeded and the principle operates to cure that defect by scaling the bonds back to the allowed amount, but the principle is not available to holder of water control and improvement district bonds which were legal and valid only if authorized by vote, but which were issued without a vote

legalizing, ratifying, confirming, and validating proceedings leading up to the sale of irrigation district bonds and making bonds binding obligations of the district were held not to validate the district's sale of bonds under a contract in which the district officers had an interest and which was void under a statute providing a penalty in case district officers were interested in contracts awarded by the board<sup>86</sup>

### c. Warrants

An irrigation district, although a de facto body, may be liable on valid warrants issued by it.

An irrigation district, organized after the county board was induced to believe that the law was complied with, has been held a body corporate de facto and liable on valid warrants issued by it;<sup>87</sup> but an irrigation district is not liable on warrants which are void, such as warrants for a lump sum, based on a single demand, only part of which the officers were authorized to allow,<sup>88</sup> warrants issued in payment of salaries to its members where the officers had no right to employ such members for the work for which compensation is claimed,<sup>89</sup> warrants issued for services of an attorney in defending the right of officers to their office,<sup>90</sup> or warrants issued by the officers prior to a levy and at a time when no funds existed against which a levy could be made.<sup>91</sup> Where, however, warrants of an irrigation district are issued in payment of obligations for which the district is liable, they have been held valid in the hands of an innocent holder, although the motive for issuing them was wrongful.<sup>92</sup> Interest-bearing war-

rants to defray organization expense have been held notes and bonds within a statute which authorized irrigation commissioners to borrow money for the payment of any indebtedness they may have lawfully incurred, and to secure it by notes or bonds.<sup>93</sup> However, the issuance of such warrants to defray expenses of preliminary work and attorney fees in the organization of an irrigation district, before an assessment for the district had been levied, may be unauthorized.<sup>94</sup>

### § 325. — Issuance, Disposition, and Proceeds

In issuing its obligations, an irrigation district must proceed according to the statutes relative thereto, and in some jurisdictions statutes have been enacted authorizing irrigation districts to refund their bonded indebtedness.

In issuing its obligations, an irrigation district must proceed according to the statutes relative thereto.<sup>95</sup> Unless a statute specifies the time for the issuance of the bonds,<sup>96</sup> the time of issuance rests in the sound discretion of the officers of the district,<sup>97</sup> and it has been held that the directors of an irrigation district may sell bonds in such quantities as may seem desirable,<sup>98</sup> delay in acting not nullifying the action of the electors in authorizing the bond issue<sup>99</sup> or depriving them of authority to issue the bonds,<sup>1</sup> and if the amount raised proves to be insufficient, there may be a further bond issue for the completion of the works.<sup>2</sup> Under some statutes, authority for the sale of bonds must be found in both the resolution of the officers of the district and the vote of the district.<sup>3</sup>

3. U.S.—Madera Irr Dist v. Miller & Lux, CCA Cal., 47 F2d 61.  
67 C J. p 1329 note 47

Where, after a confirmatory judgment, supervisors reduced the number of directors to conform to the petition for organization, the remaining directors have been held authorized to sell such bonds,<sup>4</sup> and it has been held that bonds already executed by officers of a district may be negotiated by their successors in office without reexecution.<sup>5</sup> The bonds must be sold in the manner directed by the statutes,<sup>6</sup> as, for instance, after publication of notice,<sup>7</sup> on sealed bids,<sup>8</sup> for cash,<sup>9</sup> at par,<sup>10</sup> or for full value,<sup>11</sup> and an irrigation district has been held without authority to employ a broker to sell the bonds,<sup>12</sup> or to grant an option for the sale of the bonds,<sup>13</sup> but in other jurisdictions as to water control and improvement districts the rule is otherwise.<sup>14</sup>

Under the statutes in some jurisdictions, the bonds themselves may be used, instead of the proceeds of their sale, in acquiring property<sup>15</sup> or in constructing the works of the district,<sup>16</sup> although under other statutes it has been held that bonds may not be issued for construction work.<sup>17</sup> The proceeds from the sale of bonds can be used in acquiring property or constructing the system of works,<sup>18</sup> and for the collection of drainage waters and seepage water and storing it for the irrigation of land,<sup>19</sup> but not for salaries or expenses of management,<sup>20</sup> or for certificates of another irrigation district entitling the holders to a certain amount of water,<sup>21</sup> and after an election authorizing the issuance and sale

of bonds for one purpose, the board of directors of an irrigation district cannot abandon the purpose stated in the order calling the election and sell the bonds to finance a totally different purpose.<sup>22</sup> The fact, however, that the proceeds from the sale of bonds were used for an unauthorized purpose has been held not to affect the rights of the bondholders.<sup>23</sup> Bonds and interest coupons issued by an irrigation district are not general obligations of the irrigation district, but they are special obligations for local improvements payable out of moneys produced by special assessments against the lands within the district benefited,<sup>24</sup> and such bonds are subject to a statutory provision that in no case should any land be taxed for irrigation purposes which from any natural cause cannot be cultivated.<sup>25</sup>

*Destruction of bonds.* Where part of the bonds voted was used for the construction of a system and the plans became impractical, whereupon the district acquired another system, it has been held that the remainder of such bonds may be destroyed,<sup>26</sup> and the finding of the officers of the district that it was not necessary to sell the remaining bonds need not be in writing unless required by statute,<sup>27</sup> and where all the electors voted unanimously in favor of destroying the bonds, it has been held that no substantial rights of the district or property owners or electors therein were affected by irregularities in the calling or holding of the election, or in destroying the bonds.<sup>28</sup>

**Reclamation district** Reclamation district bonds constitute a contract between the property owners of the district and the bondholders.<sup>29</sup> Money in a reclamation district bond fund is not property of the state or district but it is part of a trust fund held for the benefit of the bondholders.<sup>30</sup>

**Refunding bonds** In some jurisdictions statutes have been enacted authorizing irrigation districts to refund their bonded indebtedness, including the total debt arising from the original bond issue,<sup>31</sup> and it has been held that the legislature may constitutionally<sup>32</sup> provide a plan for the authorization and issuance of refunding bonds different from that provided for the issuance of other bonds of an irrigation district.<sup>33</sup> The holders of irrigation district bonds who approved a refunding plan and who exchanged their bonds for refunding bonds, reciting that they were issued under, and subject to the refunding plan, were bound by all the provisions of the plan and by the modification of the interest rate effected pursuant thereto, and such holders could

not object that the modification and approvals thereof were unauthorized.<sup>34</sup> An irrigation district, caused to be organized by a water users association under statute, was authorized to issue bonds to refinance association by paying off bonds which the association had issued to finance structures actually engaged in, and necessary to, proper irrigation of the lands of the district.<sup>35</sup>

**Warrants.** Under some statutes it has been held that the officers of an irrigation district, in the absence of a levy, are without authority to issue warrants for any purpose.<sup>36</sup>

## § 326. — Security

Under statutes in some jurisdictions the holders of bonds of irrigation districts have a continuing, general lien on lands or property within the district, but not on the irrigation system or its physical property.

In some jurisdictions, under the statutes relating to irrigation districts, the holders of bonds of an irrigation district have been held to have a continuing,<sup>37</sup> general<sup>38</sup> lien<sup>39</sup> on the lands or prop-

**Agricultural improvement district** Ariz—Reichenberger v Salt River Project Agr Improvement & Power Dist, 150 P 2d 758, 61 Ariz 465

### Reclamation district

(1) Where refunding bonds issued by reclamation district expressed no right to have reserve funds set up, but such reserves were thereafter set up in order to secure loan represented by the bonds from Reconstruction Finance Corporation pursuant to a subsequent statute authorizing their establishment, reserve funds as to persons who thereafter acquired the refunding bonds from corporation were a gratuity, and they could not complain that withdrawal of funds from such reserves by district constituted impairment of obligation of the bond contract. Cal—McCormack v. Houston, 191 P 2d 569, 84 Cal App 2d 665, certiorari denied 69 S Ct 138, 335 U.S. 868, 93 L Ed. 412.

(2) Also although reserves were thereafter set up in order to secure the loan pursuant to a subsequent statute authorizing their establishment, subsequent curative acts could

not have effect of adding to bond contract the requirement of setting up reserves

Cal—McCormack v Houston, supra

(3) Where statutory provision under which holders of refunding bonds issued by reclamation district relied upon to establish their right to require district to create reserve funds contained no provision as to any specific amount which district was required to retain in reserve funds, even if statute required creation of reserve funds, a proposed transfer of approximately fifteen thousand dollars from reserve funds to regular bond funds, leaving in the reserve fund approximately fifty-three thousand dollars, would not infringe rights of bondholders

Cal—McCormack v Houston, supra

(4) One of purposes of statute authorizing issuance of refunding bonds by a reclamation district was to provide for payment of post maturity interest on all bonds by a regular and systematic scheme which may well be advantageous to the governmental agency

Cal—Irvine v Reclamation Dist No 108, 150 P 2d 428, 24 Cal 2d 468

32. Cal—Mulcahy v Baldwin, 15 P 2d 738, 216 Cal 517

33. Cal—Mulcahy v. Baldwin, supra, 67 C J p 1331 note 74

34. Cal—In re Livingston, 76 P 2d 1192, 10 Cal 2d 730.

### Statute construed

(1) The statute providing for issuance of irrigation district refunding bonds and approval of modifications

of refunding plans manifests intent to clarify former statutes by clearly authorizing modification of refunding plans, and became effective when signed by governor on May 4, 1937, under emergency clause, and hence validated modification which was submitted to bondholders Jan 1, 1937, approved by securities commission June 22, and approved by special election August 11

Cal—In re Livingston, supra.

(2) Where irrigation district bonds originally bore five and one-half per cent interest and refunding bonds bore four per cent fixed interest and one and one-half per cent contingent interest, further change reducing fixed interest to three per cent and increasing contingent interest to two and one-half per cent was a "modification" of refunding plan, as authorized by such refunding plan, and was valid

Cal—In re Livingston, supra

35. Ariz—Reichenberger v Salt River Project Agr Improvement and Power Dist, 70 P 2d 452, 50 Ariz 144.

37. U.S.—Beck v Otero Irr Dist, D C Colo, 50 F 2d 951.

38. Idaho—American Falls Reservoir Dist v Thrall, 228 P 236, 39 Idaho 105

67 C J p 1331 note 78.

39. Mont—State v. Marshall, 52 P. 268, 20 Mont. 510, 67 C J p 1331 note 79.

### Time lien arises

Irrigation district bonds are gener-

erty within the district,<sup>40</sup> but not on the irrigation system or the physical property of the district.<sup>41</sup> Such lien has been held not defeasible by the transfer of the irrigation system<sup>42</sup> on the dissolution of the district,<sup>43</sup> or by the foreclosure of certificates of delinquency in some cases,<sup>44</sup> nor is the lien affected by the failure of the bond fund treasurer to enforce payment or to make a valid sale of lands delinquent in payments.<sup>45</sup> Elsewhere, it has been stated that the statute governing irrigation districts manifests an intent to secure the bonds by the proceeds of the land in the district,<sup>46</sup> although the bonds themselves are not a lien on the land.<sup>47</sup>

Statutory provisions making an irrigation district bonds a first and prior lien on all lands within the district become a part of the bondholders'

contract with the district as if such provisions were incorporated in the bonds.<sup>48</sup>

**Mortgage** Where the statutes so provide, the bonds of an irrigation district may be secured by a mortgage on the lands of the district.<sup>49</sup> A mortgage executed by a water power control district to secure a loan from a government agency may make available the security for the debt, but any provisions that go beyond that, especially in dispossessing the district's directors of their functions should be invalidated, and if ambiguous, should be enforced only in a manner to preserve and apply the security.<sup>50</sup>

**Taking away security.** County commissioners have been held powerless to deprive irrigation district bondholders of their security, either by a resolution abating taxes, or by excluding lands from

al obligations of district, payable out of special assessments to be levied upon property in district, so that when such assessments are regularly levied in accordance with statutory provisions, they become a lien against the specific real property against which they are assessed from and after October 1 in the year in which they are assessed

Neb—Garden County v Schaaf, 17 N W 2d 874, 145 Neb 676

#### Statutes held constitutional

Statutes authorizing water power control districts to execute a lien on property of district to secure bonds in addition to taxes laid for their payment are constitutional

US—Borron v El Paso Nat Bank of El Paso, CCA Tex, 133 F 2d 698

#### "Special assessment liens"

Irrigation district bond, bond interest and warrant liens are "special assessment liens" and not "blanket liens"

Colo—Alpha Corporation v Denver-Greeley Valley Irr Dist, 132 P 2d 448, 110 Colo 179

40. Colo—Sumers v Board of Com'rs of Garfield County, 184 P 2d 144, 117 Colo 57

**No lien or resulting trust** arises from the purchase of irrigation district bonds, notwithstanding statute providing that land acquired by district shall be held in trust for purposes of the statute, and statute providing for trust in favor of person by or for whom consideration is paid for transfer of land

Cal—Clough v Compton Delevan Irr. Dist, 85 P 2d 126, 12 Cal 2d 385

48. Mont—Toole County Irr Dist v State, 67 P 2d 989, 104 Mont 420

49. Cal—Merchants' Nat Bank v Escondido Irr Dist, 77 P 937, 144 Cal 329

67 C J p 1331 note 87

#### Statutes held constitutional

Statutes authorizing water power control districts to execute a mortgage on property of district to secure bonds in addition to taxes laid for their payment are constitutional  
US—Borron v El Paso Nat Bank of El Paso, CCA Tex, 133 F 2d 698

50. US—Borron v El Paso Nat. Bank of El Paso, supra

#### Approval by attorney general

Where statute requiring proceedings of organization of water power control district to be approved by attorney general did not clearly apply to mortgage to be executed by district, attorney general's approval of bonds could not be considered as disapproval of mortgage

US—Borron v El Paso Nat Bank of El Paso, supra

the district, or by any other action they might take,<sup>51</sup> and holders in due course of bonds and interest coupons issued by an irrigation district have the right to levies covering the acreage to be benefited as it existed at the time the obligations were issued, and the acreage cannot be thereafter reduced to their injury.<sup>52</sup>

### § 327. — Cancellation or Return of Bonds

The void bonds of an irrigation district may be canceled without requiring the district to pay the holders of the bonds

It has been held that void bonds of an irrigation district, issued to pay for excavating a canal, may be canceled without requiring the district to pay the holders of the bonds a reasonable value of the work, where the contract was in violation of statute and resulted in no benefit to the district.<sup>53</sup> Where bonds are delivered on a condition which was not fulfilled, it has been held that the bonds must be returned to the district.<sup>54</sup>

### § 328. — Confirmation Proceedings

In some states statutes provide for a special proceeding in which all questions relating to the issue and sale of

bonds of an irrigation district may be judicially examined and confirmed, and the order of the court in such proceedings, unless an appeal is taken, is res judicata as to matters actually and necessarily decided.

In some states the statutes provide for a special proceeding, to be instituted by the board of directors of an irrigation district, in which all questions relating to the organization of the district and the proceedings of the board with respect to the issue and sale of the bonds may be judicially examined, approved, and confirmed,<sup>55</sup> and such a proceeding has been held to be one in rem,<sup>56</sup> the object of which is to determine the validity of prior proceedings for the issuance of bonds.<sup>57</sup> Such proceeding may be commenced as soon as any resolution for the issue of bonds has been adopted,<sup>58</sup> and the jurisdiction of the court is founded on the filing of a petition in the prescribed form,<sup>59</sup> and the publication of a notice of the time and place of hearing,<sup>60</sup> fixed by a judge of the proper court<sup>61</sup> and signed by the clerk.<sup>62</sup>

The petition must comply with statutory provisions as to its form and contents,<sup>63</sup> such as the provisions relating to the description of the boundaries of the district<sup>64</sup> and the establishment of elec-

51. U S—Denver-Greeley Valley Irr Dist v McNeil, C C A Colo, 106 F 2d 288

Colo—Carter v Badger Irr. Dist, 235 P 376, 77 Colo 101.

52. U S—Denver-Greeley Valley Irr Dist v McNeil, C C A Colo, 106 F 2d 288

53. Neb—Paxton Irr Dist v Conway, 142 NW 797, 94 Neb 205

#### Illegal issue

In action to cancel interim bonds issued by Hidalgo County Water Control and Improvement District No 12, evidence sustained findings that bonds were illegally issued pursuant to a fraudulent conspiracy and that holders thereof were not holders in due course

Tex—Miller v State ex rel Abney, Civ App, 155 SW 2d 1012, error refused

54. Colo—Henry L Doherty & Co v Steele, 204 P 77, 71 Colo 33 67 C J p 1332 note 91

55. Mont—Midland Development Co v Cove Irr Dist, 58 P 2d 1001, 102 Mont 479 67 C J p 1332 note 92

#### Proceedings held valid

Decree confirming bond proceedings of irrigation district was held not void for want of jurisdiction, where court had jurisdiction over parties and general subject-matter, on ground that levies and appurtenant reserve fund provided for were not authorized by statute, and decree

could not be set aside in independent action absent showing of excuse for failure to appeal

Mont—Midland Development Co v Cove Irr Dist, supra

#### Judgment held not res judicata

A judgment that district was a duly and legally established, organized and existing water improvement district, and that the refunding bonds thereof were authorized in accordance with law, was not res judicata as to rights of landowner to question in subsequent action the validity of order, annexing his lands to district, which was entered by district board of directors prior to entry of such judgment, where landowner was not a party to proceeding to establish validity of creation of district and of its securities, and matters involved in question of validity of annexing order were not determined in such prior proceeding

Tex—Zavala-Dimmit Counties Water Imp Dist No 1 v Hays, 153 SW 2d 463, 137 Tex 338

56. Neb—Board of Directors of Alfalfa Irr Dist v Collins, 64 NW 1086, 46 Neb 411. 67 C J p 1332 note 93.

#### Refunding bonds

In proceedings in rem to obtain court's confirmation of proceedings authorizing issue of refunding bonds by irrigation district, trial court properly passed upon validity of contracts between irrigation district, bondholders, and landowners which

contracts were part of former readjustment plan, where their validity was necessary in determining validity of proceedings by district for issuance of refunding bonds

64. Wash—Board of Directors of Quincy Valley Irr Dist v Scott, 140 P 391, 79 Wash 434. 67 C J. p 1333 note 2

tion districts,<sup>65</sup> and persons contesting the validity of the bond election must plead and prove facts which would require the court to vacate the election or declare the result to have been otherwise.<sup>66</sup> Proceedings, however, for a bond election are not open to attack on the theory that the question of expending funds to be raised by a bond issue was submitted in violation of the statute, where it appeared that the project of so issuing the bonds was abandoned.<sup>67</sup> The district has the burden of proving<sup>68</sup> by competent evidence<sup>69</sup> the validity of the various steps in the proceedings for the bond issue.

The court has power in such proceedings to pass on any question affecting the legality of the bonds,<sup>70</sup> but confirmation of the bond issue cannot be denied on the theory that the directors of the district would make illegal expenditures, as this is not a question for determination in such proceedings.<sup>71</sup> Where bonds have been sold before the institution of confirmation proceedings, and a judgment rendered confirming the legality of the organization of the district is reversed on appeal, the questions touching the regularity of the sale will be left to be determined in an action by the bondholders against the district.<sup>72</sup> The court should find on all material issues,<sup>73</sup> but where no issue is joined on material allegations, a general finding has been held sufficient to support a judgment of confirmation.<sup>74</sup>

Where it is shown that all the landowners in the district were advised of the proceedings taken and acquiesced therein, a judgment confirming the bond issue is proper,<sup>75</sup> but under statutes authorizing proceedings to confirm an order of sale

or sale of bonds, it has been held that the court is without jurisdiction to confirm an exchange of bonds for property.<sup>76</sup> So, too, it has been held that the court is without power to include a provision in its judgment precluding and debarring all persons interested from disputing, denying, or disclaiming anything which could have been contested in the proceeding.<sup>77</sup>

*Appeal.* An appeal can be taken only within the time allowed by statute.<sup>78</sup>

*Conclusiveness.* While an order confirming preliminary steps in the issuance of bonds does not affect or validate a subsequent unlawful negotiation or transfer of the bonds,<sup>79</sup> in the absence of fraud,<sup>80</sup> or unless an appeal is taken within the time specified,<sup>81</sup> the judgment is *res judicata* as to matters actually and necessarily decided,<sup>82</sup> and is binding on all persons where there has been a proper publication of notice,<sup>83</sup> and hence it cannot be collaterally attacked,<sup>84</sup> and bonds issued after a decree confirming the proceedings in the issuance of the bonds may be held valid in the hands of a bona fide holder and enforceable by the levy of assessments to pay interest notwithstanding a later judgment has declared the issuance of the bonds to have been void.<sup>85</sup> Where an order attempting to annex certain lands to a water improvement district was void for want of jurisdiction of the district board of directors to enter such order, the owner of such lands could not on the basis of the void order be held to have been a party to a proceeding subsequently instituted by the district to validate the bonds of the district so as to be bound by the judgment rendered therein.<sup>86</sup>

## § 329. — Negotiability

In some jurisdictions, the bonds of an irrigation district must be negotiable in form and are negotiable instruments

In some jurisdictions, sometimes by reason of express statutory provisions, the bonds of an irrigation district must be negotiable in form and are negotiable instruments,<sup>87</sup> subject to the same rules as other negotiable instruments,<sup>88</sup> and a provision in the bonds that installments of principal should be payable only on surrender of the coupons covering such installment,<sup>89</sup> or that an assessment be levied and collected by the board of directors sufficient to meet the annual and maturing obligations,<sup>90</sup> or that they are payable from a certain fund,<sup>91</sup> has been held not to destroy the negotiability of the bonds. A person, however, purchasing irrigation district bonds subject to the interest of a third person has been held not entitled to the bonds as against such third person.<sup>92</sup> Where the bonds are negotiable, defects and irregularities in the organization of the district or in the proceedings for the issue and sale of the bonds cannot be set up against a bona fide holder for value and without notice,<sup>93</sup> but it is otherwise as to one who had actual knowledge of the illegality or defect.<sup>94</sup>

*Interest coupons*, providing for payment of stated sums to bearer by an irrigation district on certain dates, unless refunding bonds, from which

such coupons were detached, were called for previous redemption and payment duly provided for, were not negotiable instruments, although such condition did not occur and promise to pay interest became absolute.<sup>95</sup> Thus, one acquiring such coupons stood in no better position than the holder of the bonds and, not being a holder in due course, he could not recover interest at the rate stated therein after modification of the refunding plan by reducing the rate, as authorized thereby, although such coupons contained no language suggesting that the obligation to pay the stated interest was subject to modification.<sup>96</sup>

*Warrants* issued by an irrigation district, although negotiable in form, have been held not negotiable in the sense of the law merchant.<sup>97</sup>

## § 330. — Payment and Collection

The funds or property which may be subjected to the payment of principal and interest of outstanding bonds of an irrigation district and the priority of payment of such bonds depend on the statutes in the particular jurisdiction

The funds or property which may be subjected to the payment of principal and interest of outstanding bonds of an irrigation district depend on the statutes in the particular jurisdiction,<sup>98</sup> which are a constituent part of the contract for the payment of the bonds.<sup>99</sup> So, too, the question of priority of payment depends on statutory provisions,<sup>1</sup> and

under some statutes it has been held that the order of presentation does not create any priority as between different bond issues,<sup>2</sup> and that the bonds are payable in the order of their issuance,<sup>3</sup> while under other statutes it has been held that there is no priority given to any bonds issued,<sup>4</sup> and that the bonds are payable in the order of their registration where payment is not made in the order prescribed,<sup>5</sup> or in the order of their presentation<sup>6</sup> where there are insufficient funds to pay all the bonds,<sup>7</sup> and the

Dist., 85 F 2d 1019, rehearing denied 87 F 2d 355

#### **Straight maturity bonds**

Where irrigation district bonds were not serial bonds but were straight maturity bonds, and they were merely numbered for convenience in handling and for purpose of identification, they were redeemable pro rata, and those of lower numerical order were not entitled to preference

Mont—State ex rel Central Auxiliary Corp v Rorabeck, 108 P 2d 601, 111 Mont 320

**Repeal of statute** which was enacted after issuance of irrigation district bonds, and which placed such bonds on equality, did not show a legislative intent to affect status of the bonds as to equality, where the statute simply declared the law as it already existed

Mont—State ex rel Central Auxiliary Corp v Rorabeck, supra.

#### **Preferred liens**

In proceeding to determine rights of holder of matured bonds and refunded bonds of irrigation district to moneys on hand for payment of legal obligations of irrigation district, statute making liens of bonds of any issue preferred liens to those of any subsequent issue, which was later amended by dropping reference to preferred liens, had no application, where matured bonds were acquired prior to amendment, and most of refunded bonds were converted bonds of issues preceding amendment

Cal—Selby v Oakdale Irr Dist, 35 P 2d 125, 140 Cal App. 171

#### **Preference void**

(1) Under statute directing board of directors of irrigation district to levy tax covering all interest coupons falling due, preference created by levying tax covering only interest coupons on refunded bonds was void, and proceeds of levy would be applied to payment of matured bonds and matured interest coupons, irrespective of date of issue

Cal—Selby v Oakdale Irr Dist, supra

(2) Amendment to Irrigation District Act permitting landowners holding defaulted matured bonds or interest coupons to apply them in payment of assessments, was held unconstitutional as preferring landowning bondholders

Cal—Shouse v Quinley, 45 P 2d 701, 3 Cal 2d 357.

#### **Proceeds of lease**

Where wholesale delinquencies in

irrigation district assessments and wholesale bond defaults resulted in pyramiding of assessments on more valuable land and in the district's acquiring large tracts which it could not sell, district could not give preference to holders of unmatured bonds by leasing such land and buying unmatured bonds with proceeds of the leases, as against contention that assessments only were pledged to payment of matured bonds

Cal—Provident Land Corp v Zumwalt, 85 P 2d 116, 12 Cal 2d 365, followed in Provident Land Corp v Provident Irr Dist, 85 P 2d 122, 12 Cal 2d 791 and Provident Land Corp v Benoit, 85 P 2d 122, 12 Cal 2d 790

#### **Allocation of revenues**

Cal—Meyerfeld v South San Joaquin Irr Dist, 45 P 2d 321, 3 Cal 2d 409

2. Wash—State v Forsyth, 15 P 2d 268, 170 Wash 71.

3. Wash—State v Forsyth, supra.

4. US—In re Imperial Irr Dist, D C Cal, 10 F Supp 832, reversed on other grounds, CCA, Southern Sierras Power Co v Imperial Irr Dist, 85 F 2d 1019, rehearing denied 87 F 2d 355

Cal—Meyerfeld v South San Joaquin Irr Dist, 45 P 2d 321, 3 Cal 2d 409

Selby v Oakdale Irr Dist, 35 P. 2d 125, 140 Cal App 171—Bates v McHenry, 10 P 2d 1038, 123 Cal App 81

5. Cal—Selby v Oakdale Irr Dist, 35 P 2d 125, 140 Cal App 171.

#### **Surplus**

Where directors of irrigation district declare that a surplus exists in money derived from land acquired by the district because of delinquency in assessments over and above the district's operating needs, such surplus should not be given to junior bondholders in preference to those with prior claims, but should be paid on past due bonds and coupons in the order of their registration

Cal—Provident Land Corp v Zumwalt, 85 P 2d 116, 12 Cal 2d 365, followed in Provident Land Corp v Provident Irr Dist, 85 P 2d 122, 12 Cal 2d 791 and Provident Land Corp v Benoit, 85 P 2d 122, 12 Cal. 2d 790

#### **Unjustified preference**

Permitting holders of irrigation district bonds not prior in registration to obtain payment by the proceeds of execution sales of the district's lands under judgments on the

bonds constitutes an unjustified preference

Cal—El Camino Irr Dist v El Camino Land Corp, 85 P 2d 123, 12 Cal 2d 378

**Holders of reclamation district bonds** should present them to county treasurer for registration within four years after maturity thereof to be entitled to preferential payment of bonds from first money received applicable to their payment under registration statute

Cal—Irvine v Bossen, 155 P 2d 9, 25 Cal 2d 652.

6. Cal—Bates v McHenry, 10 P 2d 1038, 123 Cal App 81.

#### **Refinancing bonds**

Neb—State ex rel Brown v Taylor, 249 NW 586, 125 Neb 228

#### **Record of defaulted obligations**

The California statute providing for presentation of obligations to irrigation districts and, on their inability to pay, for indorsement of presentation thereon, intends only to provide plan for orderly record of owners of defaulted obligations and for their notification when fund permits payment, and does not intend to give preference to registered bondholders

US—West Coast Life Ins Co v Merced Irr Dist, CCA Cal, 114 F 2d 654, certiorari denied Pacific Nat Bank of San Francisco v. Merced Irr Dist, 61 S Ct 441, 311 US 718, 85 L Ed 467, rehearing denied 61 S Ct 620, 312 US 714, 85 L Ed 1144

#### **Warrant not required**

Holder of past-due interest coupons on bonds of water conservation district was held entitled to payment on presentation of coupons without necessity of obtaining and presenting warrant for past-due interest evidenced by coupons.

Ariz—Maloney v. Moore, 52 P 2d 467, 46 Ariz 452

7. Cal—Bates v. McHenry, 10 P 2d 1038, 123 Cal App 81

#### **Equitable means of payment**

California statute for presentation of obligations to irrigation districts and on their inability to pay, for indorsement of presentation thereon, merely provides equitable means of ordinary payment when funds are not available for complete payment to all obligees of like debts but instead of giving preference to registered bond owners, is intended to preserve equality between all bond owners

US—In re James Irr Dist., D C Cal, 25 F Supp. 974, affirmed, C.C.A.,

treasurer of the district must either pay a matured bond or interest coupon when presented or, if the funds are insufficient, he must register them<sup>8</sup> and pay them as soon as sufficient money is available.<sup>9</sup> Where the irrigation district is insolvent and large amounts of matured bonds are unpaid, the bonds should not be paid in the order of their registration so as to create a preference over subsequently registered bonds, but available funds should be apportioned pro rata among the holders of all valid claims, notwithstanding the rule allowing preference in order of payment where it will be possible to pay all bonds<sup>10</sup>

In other jurisdictions it has been held that, where the fund for the payment of bonds was insufficient to pay all, it was to be allotted to all who presented their claims within a reasonable time after they became due<sup>11</sup> Where, however, there is a means through which all the creditors may be paid in full, the reason for directing a pro rata payment does not exist<sup>12</sup> Although an irrigation district's fund is not sufficient to pay its bonds in full, the holder of interest coupons may be entitled to have such coupons paid in full, at least where all other

interest coupons have been paid in full to other bondholders<sup>13</sup> The fact that the bonded indebtedness of a district and the low price of farm products indicate that both bondholders and property owners are suffering, and probably will suffer, excessive losses should not enter into or determine the rights of the respective bondholders as to what moneys there may be on hand for making payment of the legal obligations of the district.<sup>14</sup> Also, the equities of the holders of bonds who supplied money to complete the irrigation works to furnish water to the bondholders, without which productivity of the lands in the district would be lessened, would not be considered in determining rights of the matured bondholders to moneys on hand for payment of the legal obligations of the district, where the matured bondholders' rights rested on statute.<sup>15</sup>

The interest on an irrigation district bond has been held to become part of the bond where the statutes provide a single fund for payment of bond and interest,<sup>16</sup> and the bondholders have been held not estopped to collect principal and interest because of a failure to collect coupons for a pe-

Moody v James Irr Dist, 114 F 2d 685, certiorari denied 61 S Ct 712, 312 US 693, 85 L Ed 1129

#### Lien

The presentation for payment by creditors of California irrigation district of bonds, coupons and warrants and on district's inability to pay, indorsement of presentation of such obligations did not create a lien

US—In re James Irr Dist, D C Cal, 25 F Supp 974, affirmed, CCA, Moody v James Irr Dist, 114 F 2d 685, certiorari denied 61 S Ct 712, 312 US 693, 85 L Ed 1129

8. Cal—Bates v McHenry, 10 P 2d 1038, 123 Cal App 81

9. Cal—Bates v McHenry, *supra*

No constitutional prohibition exists against enactment of statute providing for agreement between irrigation district and holder of irrigation district bonds specifying that bonds and coupons shall be paid as soon as money is available therefor and promising to pay bondholder rate of interest which would be payable on money judgment

Cal—Moody v Provident Irr Dist, 85 P 2d 128, 12 Cal 2d 389

#### Reclamation district

Cal.—Irvine v Bossen, 155 P 2d 9, 25 Cal 2d 652

10. Cal—Clough v Baber, 100 P 2d 519, 38 Cal App 2d 50

#### No priority

(1) Statute providing for registra-

tion of matured bonds and coupons when funds are not available for their payment, and providing for interest thereon until they can be paid in order of registration, does not give a right to priority of payment or to interest in cases of insolvency of a district where rights of all creditors must be determined

US—Wells Fargo Bank & Union Trust Co v Imperial Irr Dist, CCA Cal, 136 F 2d 539, certiorari denied 64 S Ct 784, 321 US 787, 88 L Ed 1078, rehearing denied 64 S Ct 940, 322 US 767, 88 L Ed 1593

(2) The proviso clause of amendment of act stating that provisions of section relating to exemption from taxation of improvements upon lands or town lots should not apply to any district then organized unless approved by vote of landholders is valid as a proper classification of irrigation districts organized before adoption of amendment and those organized subsequently, and no preferential treatment, based on theory that proviso was invalid, could be given in composition plan to holders of irrigation district bonds issued subsequent to such amendment, and prior to another amendment

US—In re Imperial Irr Dist, D C Cal, 38 F Supp 770, affirmed, CCA, Wells Fargo Bank & Union Trust Co v Imperial Irr Dist, 136 F 2d 539, certiorari denied 64 S Ct 784, 321 US 787, 88 L Ed 1078, rehearing denied 64 S Ct 940, 322 US 767, 88 L Ed 1593

11. Colo—Thomas v Patterson, 159 P 34, 61 Colo 547  
67 C J p 1334 note 44

#### Forfeiting payment

Ariz—Maloney v Moore, 52 P 2d 467, 46 Ariz 452.

15. Cal—Selby v Oakdale Irr Dist, *supra*

16. Wash—State v Forsyth, 15 P 2d 268, 170 Wash 71.

riod of years, where the bonds had not matured, they being privileged to postpone collection of interest during that period<sup>17</sup> The owners of irrigation district matured bonds have been held entitled to principal and interest to maturity, and not to interest on the bonds and attached coupons after their respective maturities<sup>18</sup> Under statutes relating to reclamation district bonds which provide that bonds shall bear interest until paid, interest is recoverable on the bonds after maturity,<sup>19</sup> but post maturity interest is not recoverable on interest coupons attached to the bonds<sup>20</sup> Where an irrigation district has made a levy to pay the bonds and coupons, but insufficient money was realized therefor, it has been held that the bondholder was not entitled to interest on the coupons since he could procure payment by taking up interest-bearing tax certificates<sup>21</sup> The debts created by the issuance of bonds, coupons, and warrants of an irrigation district are not extinguished although the method provided for realizing funds to discharge them has proved abortive<sup>22</sup>

*Payment on dissolution of irrigation district* Where an irrigation district was dissolved by a decree of court and a water company and land company organized, and the lands, which had been taken over by the irrigation district for nonpayment of assessments were given to the land company to sell and pay the unpaid warrants and bond coupons of the irrigation district, the decree of distribution constituted the measure of the land company's powers, and any attempted execution of pow-

ers in contravention thereof, by one having full knowledge of the circumstances would be absolutely void<sup>23</sup>

*Agreement of bondholders* Where the bondholders of an irrigation district agreed to release a portion of the bonds and to accept a lower rate of interest on the last of the bonds, on condition that the United States should take over the operation of the system and should procure from the secretary of the interior the approval of the United States for the terms of payments of the remaining bonds of the district, it has been held that the district was properly charged with interest on all its bonds prior to the time it procured the approval of the secretary of the interior, although before that date it had performed the condition of securing a contract for the operation and maintenance of its system by the United States<sup>24</sup>

*Promissory notes* A water improvement district, reduced in acreage and validated by the court and legislature, has been held liable on notes issued by the district before the exclusion of certain land from the district<sup>25</sup>

*Warrants* Statutes in some jurisdictions relating to the fiscal management of irrigation districts have been held to contemplate that such management be by distinct years,<sup>26</sup> and that the district should operate on a cash basis,<sup>27</sup> and that the annual revenue of a district must be applied to the discharge of its expenses during the year in which the revenue was raised,<sup>28</sup> and the officers of a dis-

18. Colo—North Denver Municipal Irr Dist v. Heath, 13 P 2d 1116, 91 Colo 210—In re Green City Irr Dist, 13 P.2d 1113, 91 Colo 202

19. Cal—Irvine v Reclamation Dist No 108, 150 P 2d 423, 24 Cal 2d 468

#### Statute construed

That statute relating to bonds of reclamation districts contained no provision for realizing funds for payment of interest after maturity, or for payment thereof, did not evince a legislative intent that none should be payable in view of clear implication in statute that bonds do bear interest after maturity, and even if supplemental assessments may not be made until all bonds of reclamation district mature and all steps for enforcement of assessment have been taken, and may be made only when the supplemental assessment will not exceed value of benefits to landowner from project, that does not preclude running of interest on bonds after maturity.

Wash—Burbank Irr Dist No 4 v Douglass, 255 P. 360, 259 P 881, 143 Wash 385

tract have been held to be without power to make an agreement for payment of warrants for labor and materials dependent on the time funds were provided therefor.<sup>29</sup> Under some statutes, the only source for the payment of warrants issued by an irrigation district for operation and maintenance is the annual assessments levied and assessed by the officers.<sup>30</sup> The fact that the tax levy of an irrigation district is valid notwithstanding the issuance of illegal warrants does not necessarily authorize the payment of all warrants issued.<sup>31</sup> Warrants of a water conservation district are payable only at the office of the treasurer of the district, and they are not payable at any time certain.<sup>32</sup>

### § 331. — Actions

- a In general
- b Parties
- c Pleading
- d Evidence
- e Trial, judgment, and relief

#### a. In General

One holding bonds of an irrigation district may bring an action thereon at law, or where the remedy at law is inadequate he may seek equitable relief.

In the absence of a statute excluding such right,<sup>33</sup> or limiting it,<sup>34</sup> one holding bonds or warrants of an irrigation district may bring an action there-

on<sup>35</sup> without the necessity of a previous formal demand,<sup>36</sup> and the title and right to enforce payment of bonds in the hands of a bona fide holder cannot be impaired by restrictions placed on his power of disposal.<sup>37</sup> Provided he has no adequate remedy at law<sup>38</sup> a bondholder may seek equitable relief,<sup>39</sup> notwithstanding the dissolution of the irrigation district under a decree not providing for the liquidation of its indebtedness,<sup>40</sup> and it has been held that he is not precluded from such relief because the bonds and interest are payable from assessments,<sup>41</sup> and where a levy on lands in an irrigation district has failed to produce funds sufficient to liquidate the indebtedness, it has been held that the bondholders, although failing to take the lands at a tax sale, are entitled to enforce additional levies.<sup>42</sup>

One who bids for bonds on condition that they be legal and valid can question any proceeding which was so defective as to invalidate the bonds.<sup>43</sup> In some jurisdictions no action will lie to recover a money judgment on irrigation district bonds, coupons or warrants, the only remedy available for enforcement thereof being mandamus to compel tax levies provided by statute, or the application of funds derived from such levies to the discharge of such indebtedness.<sup>44</sup> Irregularities in connection with elections for the issuance of bonds of a water control and improvement district may properly

#### Cancellation of void bonds

To prevent a multiplicity of suits against an irrigation district, a court of equity may acquire jurisdiction to cancel void district bonds in the hands of many different holders Neb—Paxton Irr Dist v Conway, 142 N W 797, 94 Neb 205

40. US—Beck v Otero Irr Dist, D C Colo, 50 F 2d 951

41. US—Beck v Otero Irr Dist, D C Colo, 38 F 2d 275

42. US—Beck v Otero Irr Dist, D C Colo, 50 F 2d 951

43. Cal—Metcalfe v Merritt, 111 P 505, 14 Cal App 244

44. US—Kiles v Trinchera Irr. Dist., C C A Colo, 136 F 2d 894

be raised only in an election contest brought in the form and manner provided by statute, and not in a suit by the holders of other bonds to enjoin the sale<sup>45</sup>

*By taxpayers or landowners.* While it has been held that a taxpayer cannot maintain a suit to cancel the bonds of an irrigation district unless the officers of the district have refused to institute such suit,<sup>46</sup> a suit by taxpayers and landowners to compel the return of bonds will not be dismissed because sufficient notice was not given the directors before suit was brought to enable them to exercise their discretion, where the district was a party from the beginning and never made any objection, but asked for the same relief,<sup>47</sup> and it has also been held that the taxpayers of the district may maintain an action, in behalf of themselves and other taxpayers, for the cancellation of bonds claimed to have been illegally issued and to enjoin the further issuance of such bonds, without showing a demand on the district to bring such suit<sup>48</sup> So, too, landowners can maintain a suit to recover the value of bonds unlawfully issued by the officers of the district,<sup>49</sup> without the necessity of litigating the bonds in the hands of an innocent holder.<sup>50</sup>

The fact, however, that some owners of land included in an irrigation district did not have an opportunity to object to an order relating to the issuance of bonds has been held not ground for complaint by an owner of other land seeking to enjoin the sale of bonds where such owners made no complaint<sup>51</sup> The state through the attorney general, on his own motion or on the motion of any person affected by the existence of the bonds of a water control and improvement district may have the validity of such bonds judicially determined<sup>52</sup>

*Limitations and laches* Actions by or on behalf of an irrigation district, or against such district, cannot be maintained where barred by limitations or laches<sup>53</sup> Thus, it has been held that a taxpayer or landowner cannot maintain a suit challenging the validity of bonds where a long period of years has elapsed,<sup>54</sup> or where he has waited until the final step is being taken to divest him of his title for the nonpayment of a special assessment against his land,<sup>55</sup> but in a suit to require the return of bonds delivered on a condition, which was not fulfilled, it has been held immaterial that the contractor was permitted to go on after the time for completion of the work had passed and after a legal modification of the contract had been executed<sup>56</sup>

*Defenses.* Fact that an irrigation district is not liable on bonds issued on a condition that was not complied with is a reason for ordering their return, and not a ground for objecting to a decree ordering defendant to return them or to repay their value to the district,<sup>57</sup> and the fact that property conveyed to an irrigation district was not sufficient consideration for bonds has been held no defense to an action on interest coupons<sup>58</sup> Where a statute provides that the want of consideration will not exonerate the maker of a negotiable instrument from liability to a bona fide holder, it has been held that an irrigation district could not invoke as a defense, to an action on its bonds by a holder in good faith and for a consideration, the alleged fact that it made a bad bargain in purchasing the property taken in exchange for the bonds, there being nothing illegal in the consideration originally paid therefor<sup>59</sup> In an action to recover irrigation district bonds on the ground that the sale was void because of the interest of district officers in the district's contract accepting the bid for bonds, a contention

#### Legal existence of district

Under provision of statute which first referred to certain previous sections relating to the creation of water improvement districts and then provided that attorney general could maintain suit to judicially determine all such matters as the legality of the creation of a district, the validity of bonds of a district or the validity of a contract of the district with the United States, attorney general could maintain suit to challenge validity of bonds issued by the district regardless of whether the legal existence of the district was also challenged

that the holder of the bonds was a bona fide purchaser is untenable where he knew from the face of the bonds that a party to the agreement for submission of the bid was president of the irrigation district.<sup>60</sup>

#### b. Parties

In a suit to cancel the bonds of an irrigation district, it is not necessary that all bondholders should be made parties. A bondholder may intervene and defend an action to enjoin taxation for the payment of bonds.

In a suit to cancel the bonds of an irrigation district, it has been held not necessary that all the bondholders should be made parties and that relief can be had against all who are joined as defendants,<sup>61</sup> and in an action to recover the value of bonds unlawfully issued, it has been held that the officers of the district and the district were properly made parties defendant.<sup>62</sup> Several nonresident bondholders, having acquired judgments against an irrigation district, can sue jointly for equitable relief after the dissolution of an irrigation district,<sup>63</sup> and they are not required to join subsequent bondholders and landowners.<sup>64</sup>

**Intervention** In an action on the bonds of an irrigation district, it has been held proper for a taxpayer to intervene and attack the cause of action and to claim that his property is exempt from the payment of any liabilities of the district,<sup>65</sup> and, similarly, it has been held that a bondholder may intervene and defend an action to enjoin taxation for the payment of the bonds,<sup>66</sup> although in such a case he cannot obtain affirmative relief to which defendant would not be entitled.<sup>67</sup> The owners of a certain issue of bonds, who were entitled to have the revenue under a certain contract allocated to such issue in the same manner as other general

bonds of the district, had a sufficient interest in such revenues under the contract to entitle them to intervene in a proceeding to compel payment of other bonds.<sup>68</sup>

#### c. Pleading

The rules governing civil actions generally apply in actions on the bonds of an irrigation district with respect to the pleadings.

In the absence of a specific statute applicable thereto,<sup>69</sup> general rules with respect to pleadings in civil actions apply in actions relating to bonds of an irrigation district.<sup>70</sup> In an action by a taxpayer or landowner to compel the cancellation or return of bonds, as the taxpayer or landowner could not restore the status quo, the failure to offer in the pleadings to do equity has been held immaterial,<sup>71</sup> especially where the court has treated the matter as if equity had been offered and required the irrigation district to do equity.<sup>72</sup> In an action by a bondholder to recover on the bonds, the irrigation district, if ready, able, and willing to pay them on presentment and surrender, should plead such facts by way of a defense not to a recovery on the bonds, but in defense of the obligation to pay costs, interest, or damage for delay in payment.<sup>73</sup>

#### d. Evidence

In an action on the bonds of an irrigation district, the general rules as to admissibility, weight, etc., of the evidence applies.

In an action on negotiable promissory vendor's lien notes executed by a water control and improvement district, the burden is on the payee to show that such district complied with constitutional prerequisites to issuance of the notes sued on.<sup>74</sup> The general rules as to admissibility,<sup>75</sup> and weight

75. US—Divide Creek Irr Dist v. Hollingsworth, C C A Colo, 72 F 2d 859, 96 A L R 937

Evidence held properly excluded

In action by innocent purchaser for value, on irrigation district bonds

and sufficiency of evidence<sup>76</sup> apply in actions on bonds by, or on behalf of, or against, irrigation districts. On an application for prohibition to prevent the directors of an irrigation district from disposing of bonds, the court must assume that all land within the district is similarly situated and will be capable of irrigation and improvement by the system owned by the district,<sup>77</sup> and in an action on the bonds of an irrigation district sold for an illegal consideration, the burden of proof is on plaintiff to show that he was without notice of such infirmity.<sup>78</sup>

#### e. Trial, Judgment, and Relief

In an action relating to bonds of an irrigation district the relief granted must not be too broad and must be authorized by the pleadings.

In an action relating to bonds, the relief granted must not be too broad,<sup>79</sup> and must be authorized by the pleadings.<sup>80</sup> A recovery may not be had against the district in an action on irrigation district bonds on the ground that the bonds had become a general obligation by reason of an agreement, where the action was not based on the agreement, and the agreement, in so far as it purported to make the bonds general obligations of the district, was void.<sup>81</sup> Whether a district is liable on bonds may not be determined in an action by a bondholder for a money judgment.<sup>82</sup>

The holder of matured bonds is not entitled to

recover a money judgment where it would not give him any additional remedies in seeking to enforce payment.<sup>83</sup> A provision in the judgment that the plaintiff have execution is error, where a judgment creditor must look for payment to revenue provided by statute, and he would not be entitled to execution except to reach moneys collected on assessments in accordance with such statute.<sup>84</sup> Also, since an irrigation district is a quasi-public corporation, a holder of irrigation bonds is not entitled to execution against such district for the property of public corporations, and quasi-public corporations, is not subject to execution.<sup>85</sup> While a suit to cancel irrigation district bonds may be dismissible as against defendants answering and showing no interest, plaintiff in such a suit has been held entitled to a decree against defaulting defendants.<sup>86</sup>

In an action to recover irrigation district bonds, the court may find that money paid on the purchase price was never received by the district but was instead misappropriated by such officers, notwithstanding a statute providing that in an action to contest the validity of irrigation district bonds all findings of fact or conclusions of the board of directors should be conclusive, and a resolution was adopted by the board of directors stating that such money was received by the district.<sup>87</sup> Where an interlocutory judgment was entered ordering delivery of the bonds and coupons to the clerk of

reciting lawful issuance, evidence that bonds were issued for water rights on which no construction work was ever done, reservoir incumbered beyond its value, and stock in ditch company subject to forfeiture for unpaid assessments, held properly excluded.

81. US—Toole County Irr Dist v Moody, CCA Mont, 125 F 2d 498, certiorari denied Moody v Toole County Irr Dist, 62 S Ct 1281, 316 US 690, 86 L Ed 1762, rehearing denied 63 S Ct 24, 317 US 704, 87 L Ed 562

82. Cal—Carpenter v Glenn-Colusa Irr Dist, 94 P 2d 345, 14 Cal 2d 338

83. Cal—Carpenter v Glenn-Colusa Irr Dist, supra.

#### Registry and indorsement

The holder of matured bonds and interest coupons of irrigation district was not entitled to judgment on bond and coupons where, upon presentation thereof, treasurer of district had registered bonds and indorsed agreement thereon that they should bear interest until funds were available for their payment, since holder was put in same position by indorsement as he would have been by obtaining a money judgment.

Cal—Moody v Provident Irr Dist, 85 P 2d 128, 12 Cal 2d 389

84. US—Divide Creek Irr Dist v Hollingsworth, CCA Colo, 72 F. 2d 859, 96 ALR 937.

85. Idaho—Sudler, Wegener & Co v Hillsdale Irr Dist, 123 P 2d 420, 63 Idaho 546.

86. Or—Carico v Crystal Dist Improvement Co, 250 P. 745, 119 Or 629

87. Cal—City of Los Angeles v Watterson, 48 P 2d 87, 8 Cal App 2d 331

court within a stipulated time, and on default thereof plaintiff was to have judgment for the amount of the bonds and coupons, the court had jurisdiction to enter a second judgment for the amount of the coupons which defendants failed to turn over to plaintiffs.<sup>88</sup> In an action to compel the return of bonds of an irrigation district which were delivered on a condition which was not fulfilled, a decree requiring the parties to return the bonds or their par value is not erroneous because of requiring payment of par value instead of market value, on the claim that the district could purchase the bonds on the market for less than their par value, as this course was likewise open to defendants,<sup>89</sup> and a decree requiring the district to return the incomplete system received for the bonds has been held sufficiently to require the district to do equity although it was worthless, it being likewise worthless to the district.<sup>90</sup>

In a suit to test the validity of bonds proposed to be issued by an irrigation district, the trial court has no authority to determine that the bonds, when issued, would be tax exempt, since only the validity of the bonds may be considered in such a suit, and the state, which has a greater interest in the question of exemption than any individual citizen, cannot be made a party to such suit.<sup>91</sup> It has been held that no relief will be granted to one seeking to invalidate warrants of an irrigation district where he makes no tender of what may be found to be lawfully due from him.<sup>92</sup>

In a suit by bondholders holding a judgment against a dissolved irrigation district, it has been held that equity could, so far as possible, restore the system to its original condition pending liquidation of its indebtedness,<sup>93</sup> and could appoint commissioners to administer the system and affairs of

the district for the benefit of such bondholders whose claims had not been liquidated at the time of the district's dissolution,<sup>94</sup> and have the commissioners appointed make levies.<sup>95</sup>

The fact that other bonds of an irrigation district were outstanding and were included in an order directing the sale of lands which had been sold to the county for unpaid taxes does not impair the court's power to enforce the rights of petitioning bondholders who had obtained a judgment against the district.<sup>96</sup>

A judgment rendered in a prior action in which interveners were not parties is not *res judicata* as to their rights in a subsequent action.<sup>97</sup>

### § 332. Assessments and Taxes

Matters pertaining to assessments and taxes by irrigation districts are considered *infra* §§ 333-337

Examine Pocket Parts for later cases

### § 333 — Power and Duty to Assess and Levy

- a In general
- b Character or nature of tax
- c Purposes of levy or assessment
- d Property liable
- e. Benefit to property

#### a. In General

Irrigation districts have the power, and also the duty, to levy such taxes and assessments as the legislature has authorized by statute

The courts have upheld the validity of statutes authorizing irrigation districts, and other districts organized for the same purpose, to levy taxes and assessments,<sup>98</sup> and such statutes do not fall within

Nev—In re Lovelock Irr Dist, 273 P 983, 51 Nev 215

Tex—Moore v Maverick County Water Control and Improvement Dist No 1, Civ App, 162 SW 2d 1009, error refused, certiorari denied 63 S Ct 993, 318 US 790, 87 L Ed 1156

constitutional provisions regulating assessment and collection of taxes for general state purposes.<sup>99</sup> Within the limitations of authorizing statutes, irrigation districts have the power to levy assessments or taxes in the nature of assessments<sup>1</sup> for the purpose of raising revenue to irrigate arid lands,<sup>2</sup> but as a rule may not levy general taxes.<sup>3</sup> It is within the power of the state however to promote and support public improvements of this nature by general taxation<sup>4</sup> and it is optional with the legislature to provide for the redemption of district bonds either through assessments based on benefits or through the exercise of its general taxing power,<sup>5</sup> and consequently within its power to provide that on consolidation or merger of a levee district with a subsequently organized irrigation district the former levee district bonds shall be redeemed through the issuance of refunding irrigation district bonds to be paid by general taxes.<sup>6</sup> Authority to issue irrigation bonds implies an authority to levy a tax to pay them.<sup>7</sup>

*Impairment of obligations* Statutes relating to the assessment, levy, and collection of taxes have

been held invalid where they impair the obligation of the bonds of the district,<sup>8</sup> or other contractual obligations.<sup>9</sup>

*Delegation of taxing power to United States* by a district is not shown by a contract for the operation of an irrigation system by the United States.<sup>10</sup>

*Duty to assess* A district is under a duty to assess and levy such taxes as may be required to meet its obligations,<sup>11</sup> and delinquent assessments levied by an irrigation district are not available as assets so as to excuse a failure to make annual assessments required by statute.<sup>12</sup>

#### b. Character or Nature of Tax

District taxes are generally special taxes for local improvements, and do not constitute taxes in a technical sense.

Ordinarily, district taxes or assessments are not general taxes, but are special taxes for local improvements,<sup>13</sup> or special assessments not constituting "taxes" in a technical sense,<sup>14</sup> and are to be distinguished from taxes levied by a municipality for waterworks,<sup>15</sup> and taxes levied for the maintenance

67 C J p 1338 note 23

15. Colo—Interstate Trust Co v. Montezuma Valley Irr Dist., 181 P 123, 66 Colo 219

Water conservancy district  
A water conservancy district, organized under Water Conservancy Act, is a "quasi-municipal corporation" formed for a public state purpose, and the mill levy tax authorized by the act is an "ad valorem tax" based on the same valuations as all general taxes for a public purpose and not as "assessment for benefits," with respect to contention that tax was in reality a special assessment to which rule that such assessments cannot exceed benefits conferred applied, and owners of realty within limits of incorporated cities and towns lying within water conservancy district, owners of

nance of schools,<sup>16</sup> because in the case of municipal waterworks and school maintenance taxes there is a direct public benefit general in character, whereas in the case of irrigation district taxes the benefit is not directly public in character, the direct benefit being to the particular landowners whose land is supplied with water. Where the legislature has delegated the creation of water improvement districts to commissioners' courts and provided for the levy and assessment of taxes by a board of directors of the district thus created, acting through the assessor appointed by them within the boundaries of the district, on all property alike, it has been held that the tax is not a special assessment but a general tax<sup>17</sup>

### c. Purposes of Levy or Assessment

Subject to constitutional restrictions, the statute conferring the power to levy or assess determines the purposes for which levies or assessments may be made

The purposes for which irrigation assessments may be made by the authorities vested with the power to levy them are determined by the statute conferring such power, subject to constitutional restrictions, and if an assessment is not for a purpose authorized by law it is invalid.<sup>18</sup>

"Construction," as used in statutes providing that the cost of construction of an irrigation system shall be charged against the land within the irrigable limits, is not necessarily limited to building,<sup>19</sup> but may include the preservation, maintenance, and operation of what has been built.<sup>20</sup>

*Meeting warrants.* An assessment levied for the purpose of meeting outstanding warrants of the irrigation district issued in accordance with the provi-

sions of the governing act is not void as not shown to have been made for a purpose for which the irrigation district can make an assessment,<sup>21</sup> and, if the board is required to state the purposes of an assessment, its statement that the assessment is made to raise money for purposes of meeting such outstanding warrants is a sufficient statement of purposes<sup>22</sup>

*Repairs and improvements* Assessments may be made to keep irrigation systems in repair.<sup>23</sup> Under statutes authorizing the directors of irrigation districts to fix rates of tolls and charges for water against persons using its canals, or to levy assessments for the purpose of defraying expenses of the operation, repair, and improvement of such portion of its canal and works as are complete and in use, the laying of a pipe necessitated by the lawful removal of a ditch by municipal authorities is a repair or improvement, funds for which may be included in a maintenance assessment or in increased toll rates charged for water,<sup>24</sup> and is not a new construction which must be defrayed by a special assessment or bond issue under other sections requiring assent of the voters of the district<sup>25</sup>

*Terms "operation" and "maintenance,"* as used in statutes or contracts authorizing assessments for the operation and maintenance of an irrigation system, while of elastic import not susceptible of precise and comprehensive definition,<sup>26</sup> are nevertheless well understood<sup>27</sup> and include within their scope the cost of preserving the system and its lands,<sup>28</sup> although it has been held that, under the item of maintenance and operation, there may not be included the cost of research and investigation with a

lands not susceptible of irrigation, owners of lands already having an adequate water supply, and owners of personalty were subject to general ad valorem tax of district by reason of the situs of their property, and as to such tax the due process clauses of state and federal constitutions had no application

view to the development of hydroelectric power<sup>29</sup> or the cost of "defense of water supply."<sup>30</sup>

#### d. Property Liabile

- (1) In general
- (2) Location
- (3) Property of municipalities
- (4) Property of United States

##### (1) In General

Constitutional and statutory provisions determine what property is subject to assessment for irrigation purposes.

The property subject to assessment for irrigation purposes is determined by provisions of the constitution and statutes, and, generally speaking, the tax is to be assessed on all the real property of the district not exempt by law<sup>31</sup>. Under a statute providing for assessment of all real property within an irrigation district, personal property is not subject to assessment<sup>32</sup>. Where, however, the statute expressly provides for an assessment of all taxable property in the district, real, personal, and mixed, personal property is subject to tax for irrigation purposes<sup>33</sup>.

**Exemptions** It is within the legislative discretion to exempt from assessment for irrigation district purposes urban land within the district occupied and used exclusively for other than agricultural purposes,<sup>34</sup> and, in the absence of violation of constitutional provisions,<sup>35</sup> the exclusion or inclusion of such urban property from irrigation tax is a matter for final determination by the legislature<sup>36</sup>.

A proviso in a statute for the organization of an irrigation district that, where ditches, canals, or reservoirs have been constructed prior to passage of such statute, they and the lands watered thereby shall be exempt under such statute unless the district was formed to acquire such ditches, etc., operates to exempt land so watered under the circumstances specified in the proviso,<sup>37</sup> and other statutory provisions to the effect that an irrigation district shall be conclusively deemed to be legally and regularly organized unless the legality of its organization shall have been attacked by quo warranto proceedings within a specified period do not affect the rights of a landowner under such proviso<sup>38</sup>. An order of county commissioners, defining and establishing the boundaries of a district, construed as a determination that all land within the district would be benefited, has been held not to preclude exemption of land under statutes providing for exemption<sup>39</sup>. Where the primary duty of determining what land is subject to levy and assessment and of passing on claims of exemption is vested in the board of directors, an attempt by the assessor-collector to place land on the tax rolls before the board has made its determination is invalid.<sup>40</sup>

*Neglect of district officials to assess owner for past years does not render his property nonassessable in the future*<sup>41</sup>.

*Patented lands not included in federal reclamation project unit, if irrigable lands and within the district, are subject to assessment for the cost of irrigation works constructed by the United States*

under a contract with the district<sup>42</sup> in so far as they are not covered by a paid-up water right contract with the United States<sup>43</sup>

*Land acquired by an irrigation district*, because of delinquency in assessments, is again liable for assessments on coming back into private ownership<sup>44</sup>

## (2) Location

Generally, all lands within an irrigation district, and only such lands, are subject to assessment

Generally speaking, all lands within an irrigation district are subject to assessment according to the benefits received,<sup>45</sup> and property without the district may not be assessed<sup>46</sup> Any particular tract of land shown on the plat made by the proper authorities and referred to in the list of water allotments is subject to assessment as within the district where it can be definitely identified and located by reference to either or both the plat and the list,<sup>47</sup> and if the listing of the lands is inadequate or incorrect in description it may be aided by reference to the plat<sup>48</sup> Where, however, there is no description of the land assessed sufficient to identify it, it will not be held within the district so as to be subject to tax<sup>49</sup>

## (3) Property of Municipalities

Municipal property may be subject to assessment by an irrigation district.

Under constitutional provisions exempting property owned by municipalities from taxation, an assessment by an irrigation district is not a tax,<sup>50</sup> and pueblo lands of a municipality are subject to assessment for purposes of irrigation<sup>51</sup> Under statutes not expressly exempting property of a municipality from assessment by an irrigation district, there may exist an implied exemption of such municipal property as is devoted to a public use<sup>52</sup> The fact that municipal property is used for both private and public uses will not deprive it of the right to exemption as devoted to a public use,<sup>53</sup> and even though it were conceded that particular portions devoted to both private and public use were not entitled to exemption this would not deprive other and separable portions of such property, used exclusively for public purposes, of the right to exemption<sup>54</sup>

## (4) Property of United States

Property of the United States is not subject to assessment except as congress otherwise provides.

Except as otherwise provided by congress, property of the United States is not subject to assessment by an irrigation district,<sup>55</sup> and lands which are not within the provisions of an act of congress permitting taxation of public lands of the United States within irrigation districts are not subject to assessment<sup>56</sup> It has been held that property sold by the United States to a private person is in his

hands free from any preëxisting liability for such assessments not created or assented to by the government or its grantee,<sup>57</sup> although there is also authority to the effect that an irrigation assessment on land of an individual formerly owned by the United States is valid and effectual.<sup>58</sup>

#### e. Benefit to Property

- (1) Necessity
- (2) What constitute benefits in general
- (3) Benefit as affected by irrigable character of land
- (4) Benefit to excess holdings under Federal Reclamation Statutes
- (5) Drainage necessitated by irrigation

##### (1) Necessity

As a general rule, the justification and authority for a levy or assessment by an irrigation district are derived from the benefits which will accrue to the owners of the land within the district.

While it has been broadly stated that the benefit to the land is not the source of the power to tax it for irrigation purposes,<sup>59</sup> generally speaking, the justification and authority for the levying of assessments or taxes in the nature of assessments by an irrigation or similar district are derived from the benefits which the expenditure of the tax or assessment confers on the owners of land within the district,<sup>60</sup>

and a tax or assessment without supporting benefit,<sup>61</sup> or out of all proportion to the benefits conferred,<sup>62</sup> as where the assessment is based on an acreage in excess of that owned,<sup>63</sup> cannot be sustained, although the fact that there is no benefit sufficient to support the whole assessment will not relieve the landowner from the duty to pay such portion of the assessment as is supported by a benefit.<sup>64</sup>

##### (2) What Constitute Benefits in General

Generally, it must appear that there is in existence or in reasonable contemplation an irrigation system capable of delivering water, and that there has been an allotment of water rights to the land in question.

The mere location of land within an irrigation district does not necessarily constitute a benefit,<sup>65</sup> or show conclusively that it is capable of receiving benefit from the district's irrigation system,<sup>66</sup> in the sense of becoming liable to contribute toward the maintenance thereof. Ordinarily, it must appear that there is in existence or in reasonable contemplation an irrigation system capable of delivering water<sup>67</sup> and that there has been an allotment of water rights to the land in question.<sup>68</sup> However, the landowner's failure to use available irrigation waters does not preclude his being benefited in the sense essential to subject him to liability for assessment,<sup>69</sup> nor will his agreement not to use the water

#### Tax without regard to benefit

The legislature, in carrying out constitutional mandate to conserve and use water for irrigation of arid lands by creating by special act an irrigation district, may authorize the district to impose ad valorem taxes upon all property within the district without regard to benefit, and owner of mineral interests which have been severed from the surface estate in land within such district has no constitutional right to a hearing on the question of benefits. #### Classification of property in units

Principle that assessment for local improvements to be valid must correspond to benefits resulting to land assessed does not require that every portion of property subjected to assessments should be directly benefited by improvement, but property assessed may be divided into units for purpose of estimating benefits, and unless classification is arbitrary or unreasonable, landowner may not defeat assessment by showing that some particular part of unit assessed is not directly benefited. Wash—Lesamiz v Whitestone Reclamation Dist, 61 P2d 1305, 183 Wash 145

If legal subdivision is included as a whole in irrigation project, it should be assessed as one unit or tract according to benefits accruing based on number of irrigable acres thereon which are served by district. Wash—Lesamiz v Whitestone Reclamation Dist, supra

for a certain season excuse him from liability to assessment for such season,<sup>70</sup> nor may he complain of insufficient water where he failed to make due application for the amount needed, and there is nothing to show that the water would not have been furnished on demand,<sup>71</sup> as the test for determining whether a benefit has been received is not the extent to which the property owner may take advantage of his water rights,<sup>72</sup> but is the value of the water right conferred or added.<sup>73</sup>

### (3) Benefit as Affected by Irrigable Character of Land

While nonirrigable land may be benefited by an irrigation system so that it may be taxable, generally land should be irrigable in order to be benefited and subject to assessment.

Nonirrigable land may be so far benefited by an irrigation system that it should bear its due proportion of the burden of taxation,<sup>74</sup> and statutes permitting taxation of nonirrigable land for irrigation purposes are not invalid,<sup>75</sup> so that where the governing statute does not make the irrigable character of the land assessed essential to the levy of a tax against it, and where the landowner has not made timely objection to the inclusion of his nonirrigable land within the district, he may not escape liability in a suit for delinquent taxes on the ground that his land is nonirrigable.<sup>76</sup>

The general rule, however, is that land should be irrigable in order to be benefited and subject to assessment,<sup>77</sup> and by statute in some jurisdictions it is expressly provided that only irrigable land shall be subject to assessment for irrigation purposes.<sup>78</sup> It has been held that a portion of land, nonirrigable because of natural causes, is improperly included in the district, and should not be taxed,<sup>79</sup> even though it is being irrigated by pump,<sup>80</sup> but the fact that a tract of irrigable land contains comparatively small nonirrigable portions will not exclude it from liability to tax,<sup>81</sup> and when such a tract is taxed it should be assessed as a whole,<sup>82</sup> and nonirrigable lands have been held subject to tax to raise funds to retire irrigation district bonds issued before such lands were declared nonirrigable.<sup>83</sup>

*Railroad right of way* has been held subject to assessment for support of an irrigation district as against the contention that it was not benefited.<sup>84</sup> Other authorities hold it not subject to assessment for the maintenance and operation of an irrigation system because not directly benefited thereby,<sup>85</sup> although stating that there may be some ground for argument that a railroad right of way is subject to assessment for construction of the system.<sup>86</sup>

*Where assessment is for drainage necessitated by irrigation* the irrigable character of land so assessed by an irrigation district is immaterial.<sup>87</sup>

#### Assessments held valid

In suit by irrigation district to foreclose for delinquent assessments, where testimony indicated that defendant's lands by reason of their level relevant to irrigation works could have water carried over them by gravity, and having regard to character of soil and climate, could be rendered more productive by means of irrigation properly applied, assessments were valid as levied against "irrigable land"

Or—Klamath Irr Dist v Carlson, 157 P.2d 514, 176 Or 336

#### When determination made

Generally, the determination of the lands which are susceptible of irrigation and which will be benefited in irrigation district must be made at the time the district is organized or before bonds are issued, and lands once included in that classification cannot be excluded from assessment and levy by direct or indirect means while the bonds and coupons remain outstanding

87. Nev—McLean v. Truckee-Carson Irr. Dist, 245 P. 285, 49 Nev. 278.

Where water is supplied to urban property for purposes other than irrigation, such water coming from the system of an irrigation district, an urban property owner using such water may not object to taxation by the district on the ground that he is not benefited<sup>88</sup>

*Question of whether land is susceptible of irrigation is one of fact.*<sup>89</sup>

#### (4) Benefit to Excess Holdings under Federal Reclamation Statutes

Lands benefited may be assessed even though they come within the provisions of the Federal Reclamation Act.

It has been said that the basis of irrigation assessment is property benefit independent of ownership,<sup>90</sup> and, although the Federal Reclamation Act limits the right to use of water to any one owner to an area of a specified acreage, lands of one owner in excess of such acreage are subject to assessment in so far as they are irrigable.<sup>91</sup> A landowner consenting to dispose of holdings in excess of the area permitted to any one owner under Federal Reclamation Statutes may not, after the construction of works making water available for irrigation, be heard to object to assessment on the ground that such excess lands retained by him were not benefited.<sup>92</sup> Assessing a landowner's whole acreage, although restricting his water rights to a limited number of acres less than the whole, is not an invasion of constitutional rights.<sup>93</sup> One holding a large tract of land, in excess of the acreage allowed any one owner for water rights, for purposes of speculation, may not escape liability for irrigation assessments on the plea that his excess holdings are

not benefited because not entitled to water while owned by him,<sup>94</sup> since he receives a benefit through the enhancement in the sale value of his arid lands resulting from the construction of the irrigation system.<sup>95</sup>

#### (5) Drainage Necessitated by Irrigation

Where irrigation of some lands necessitates drainage of others, the irrigated lands may be required to contribute to the cost of drainage.
